When the preliminary shuffling of chairs had quieted down, Dr. Venable, being called on by Toastmaster Bradshaw, emphasized the urgent need of every man being familiar with business terms and methods. Meb Long, who followed the creamed oysters on toast, found his text in "Preparedness." Professor Toy spoke of the expansiveness of modern opportunity and the causes of action which lead to success and happiness. Roy Homewood, whose natural position is end, found himself, with the squab on toast, illogically near the center of the program. He was, nevertheless amply competent to discuss football—advocating the participation of only amateurs. Sam Pike next spoke of the seniors' relation to college discipline.

With cigars and cigarettes came informal talks. Miss Watson, being called on, responded delightfully. By her successors everything was discussed from poetry to standing collars. This world and the next—meaning, of course, the world of real life—were talked over, superficially, learnedly, humorously, but in each case informally. Finally, when one speaker had feared to add more to the discussion less he detract from its effectiveness, the Toastmaster recommended "Hark the Sound," which all joined in heartily. In a moment the banquet was over, the third and last of 1916.

WHAT'S TO HAPPEN AND WHEN

Sunday, February 6. 11:00 A. M. Francis Miller in Gerrard Hall. 7:30 P. M. Francis Miller in Gerrard Hall. 9 P. M. Pan-Hellenic discussion led by Francis Miller in the K. A. house.

Monday, February 7. President Graham in chapel. 7 P. M. North Carolina Club meets in Peabody building. Carolina vs. Virginia in basketball at Richmond.

Tuesday, February 8. Rev. H. H. Covington in chapel, 7:30 Y. M. C. A. talk in Gerrard Hall by Dr. W. H. Moss.

Wednesday, February 9. Rev. Covington in chapel.

Thursday, February 10. Rev. Covington in chapel.

Friday, February 11. A musical selection in chapel.

CAMPBELL CHOSEN COACH FOR CAROLINA ELEVEN

Played Left-Half for Harvard In 1910-11

Graduate Manager Woollen has secured Thomas J. Campbell as Carolina's head football coach for the next three years. Not only does Mr. Campbell come highly recommended, but his record as a wearer of the Crimson has been a very enviable one.

Both as a member of the great Harvard football machines of 1910 and 1911, and as an assistant coach under Percy Haughton he has shown his marked ability and thorough knowledge of the game.

It was in Harvard's great 0-0 game with Yale in 1911 that Campbell enrolled his name in the hall of gridiron fame. Of this game the New York Sun has the following to say: "...Campbell ran back punts with more decision and judgment than any other Harvard back, and had he had interference for these runs in a broken field, would have put through several lengthy jaunts." During this and the preceding year he played left half back in great style.

However, not all of Campbell's knowledge of the game comes from merely having played with the Harvard aggregation. After his graduation he coached at the Morristown School (N. J.) for two years. It was while he was there that Morristown had her brilliant seasons. The headmaster at Morristown has the following to say of him: I consider that any college would be remarkably fortunate to secure the services of Mr. Campbell, who coached our football team one or two seasons, but whom we lost, greatly to our regret, owing to his desire to become an assistant to Percy Haughton as coach of the Harvard team, which he has done with great success. Mr. Campbell is not only a good coach and a director of athletic sports, but is a man of sound moral character, unusual good sense and judgment and of great popularity among boys and young men. There was no man in the school more respected by the boys than Mr. Campbell.....As a football coach we never had a more effective and popular man." His coaching here attracted such attention that he was induced by Percy Haughton to become an assistant coach at Harvard.

While a student at Harvard Mr. Campbell was immensely popular with his fellow students Twice he was on the Student Council, and at one time he was secretary of his class. His average there was a C which corresponds to our three. All of his class mates speak of him in the highest terms. One of them wired the following: "Couldn't do better. Campbell is fine. Good player and good sort." Graduate Manager Moore of Harvard, who certainly should be a very good judge of men, unreservedly recommends Campbell, and "Peggy" Brown of the Crimson staff has the same thing to say. Every one who has ever come into contact with Mr. Campbell speaks very highly of him. He is sound to the core morally and always takes great interest in helping young men to succeed.

Nothing definite has been decided yet as to who the new coach's assistants will be. It is the plan to get the assistant coaches as far as possible, from the alumni. Just to what extent this is possible cannot be determined at present.

FRANCIS MILLER STARTS Y. M. C. A. MEETINGS

Addresses Students Friday on Active Christianity

Francis Miller, of Washington and Lee University, now of the International Y. M. C. A. Committee, began the Miller meetings Friday night. The University orchestra, lead by William Wright, furnished excellent music.

Mr. Miller spoke from the passage, "Even as the Father hath sent me, so send I you." He made a call for men to stand for Christ and to fight sin. Not to be halfway Christians, or hypocrites, but Christians, the kind that hate sin with a hate that permeates their whole being to such an extent that they will go out and fight all forms of evil. He believes that when the religion of Jesus Christ comes into one's life, he will experience no hesitancy in trying to make an effort to bring his fellowmen to the joys of Christianity. "If you call yourself a Christian and fail to try to help your room mate or fraternity brother, you are living a lie," he declared. "You can't experience the sparkling life of Christ, the greatest thing connected with humanity, without action."

The main theme of the talk was for men to find their place in the service of God's will by taking Christ as a type to follow. "Why is there so much sorrow, disappointment and grief in the world?" he asked, and then explained that most people were narrow, selfish, egotistic hypocrites with little whims of their own, with consideration for God's plan left entirely on the outside; hence all conflcts in society and disappointments follow just as sure as the laws of nature.

One of the main features of the campaign is the interviews that are open to all the students, with college men who have had experience in religious work at other colleges. These men are Odis B. Hennant, of the Wilmington Y. M. C. A., Ed S. King, of the University of South Carolina, and Ray B. John, of Clemson College. They will be glad to meet the students and talk over the problems that concern them.

Coach Campbell Here March 1.

Coach Campbell will be on the Hill March 1st. to start work for the 1916 football season, and to get acquainted with the students.

\ NEED

A satisfactory method of post-.ng examination grades is a necessity. The scrambling around the bulletin board last Saturday afternoon was identical with what has occurred for several years and what will continue to take place as long as the old method of posting grades is persisted in. The conduct was not altogether praiseworthy at times, but the students involved were not wholly to blame. When a thousand men, ach anxious to learn his examiation grade, crowd around two lass exhibit cases some six feet ong, pushing and shoving will aturally ensue.

An amelioration of this conition could be effected without reatly taxing any one individual. When the grades are typewritten or display on the Alumni bulletin board, why cannot two carbon copies be made for exhibition n other places? Or why cannot he members of the faculty post examination grades in their respective class rooms? Carbon duplicates of the lists sent to the ffice would suffice.

There are, no doubt, other nethods better than these. Any ystem, if it work, will be satisactory. What we all want is omething different from the one ow used.

HE DATE FOR JUNIOR WEEK

Recently the German Club oted to hold its spring dance efore Lent rather than after Easter, since Easter comes this ear late in April. Should the aculty sanction the holding of he dances at this time, it will, o doubt, mean the moving up of unior Week, with its class exerises, to the first of March—a onth from now.

Various reasons have been adanced for holding Junior Week t this time rather than after Easter, the most important being hat the spring dances, held so ate, will interfere with those at ommencement and senior examinations.

The Tar Heel does not share this point of view. It would, no doubt, be preferable to separate Junior Week more than five weeks from commencement, but would it be practicable to fix the date at March 1? If the dances are to be held before Lent, this must necessarily be the date, since March 8 is Ash Wednesday. Furthermore, a basketball game with Guilford is scheduled to take place in Bynum Gymnasium on Wednesday 1, of which some disposition will have to be made in case the building is decorated for dancing.

On the other hand, there is nothing to conflict with the holding of the dances Easter week, according to the schedule of University events which Mr. Woollen has in his office.

The dances are not the only incidents of Junior Week. The Junior Oratorical Contest and the class stunts are generally held at that time. The Senior Stunt cannot be got ready within four weeks. The same may be true of the other class productions; and we have no reliable information as to how nearly perfected the junior orations are.

Another point worth considering is the weather. Rain or snow could militate more against the success of Junior Week than any other one factor. While, of course, we are not able to make any accurate forecast as to the conduct of the elements on March 1, that season of the year is fairly regularly inclement. The last week in April may be rainly as well; but, judging from the past, it is less likely to be so.

The Tar Heel does not deny that Apil 26 is fairly late in the season to hold the spring dances; but, under the circumstances, it seems to be the only practicable one.

THE FULLER SISTERS

Again the Y. M. C. A. is to be congratulated on having secured an attraction of unusual merit. The entertainment given Tuesday night by the Misses Dorothy, Cynthia, and Rosalind Fuller can hardly be compared with the old star courses, which, for the most part, were mediocre at best. One attraction of the former kind is worth two of the other. Nor can it be said that ballad singing did not go well. There was as much applause as ever greeted the comedians and magicians who appeared under Redpath management.

Dr. Harrington on Color Photography.

Dr. E. A. Harrington will give an illustrated lecture on the Lumiere Process of Color Photography next Monday night at 7:30 in Chemistry Hall. This will come before the regular meeting of the Elisha Mitchell Society, so that there will be no conflict.

Dr. Harrington has an excellent set of slides and has an exceptional knowledge of color photography. All are cordially invited to attend, and can be assured of an interesting discussion of the subject.

Where will you be at 11 and 7:30 Sunday?

DR. LOEW GIVES LECTURES

Distinguished Paleographist, On Ancient Manuscripts

Dr. E. A. Loew, lecturer at Oxford, and research associate of the Carnegie Institute, lectured before the faculty and advanced students in languages January 27, 28, and 29 on "Manuscripts of Tacitus," "Ancient Art of Bookmaking" and "How the Classics Came Down to Us," respectively.

In his last lecture Dr. Loew stated that if he were a newspaper man, he might feature his address thus: "Dark ages are not so dark as they seem. We must not throw stones at any age, for ours is about as dark as any of them." He brought out the fact that it is because of our failure to understand the Ancients that we fail to appreciate their genius.

All his lectures were much more interesting to the undergraduate than the subjects would indicate; especially was this true of the lecture on ancient bookmaking. He made clear how the dates, places and histories of manuscripts are determined, and showed several lantern slide pictures of famous old manuscripts. In the earliest times wax plates were used, according to Dr. Loew, then the papyrus strips were pressed and made into paper, and later parchment was brought into use to supply the lack of papyrus. Hence most of the classics, which were first written on the papyrus, had to be copied for preservation on vellum by scribes during the dark ages. A few of the old manuscripts, however, have come down to us in a more or less perfect form.

Mr. Loew's extensive work in the field of paleography has enabled him to present in a most entertaining way many of the problems peculiar to this line of work.

AGRICULTURAL LABORATORY

Field Adjoining Peabody Building To Be Turned Over to Dr. Coker

The field adjoining the grounds of the Peabody Building which was formerly in use by the Tomato Club girls the of Chapel Hill High School has been turned over to Dr. W. C. Coker, of the Botany department. Dr. Coker has done much to beautify the surroundings of the University by transforming the barren waste back of Davie Hall and the Chemistry Building into an Arboretum which is the pride of the college.

It is proposed to carry on similar work in the Peabody Field, which is now being laid off for purposes of cultivation and experimentation. Part of this field will be used for the cultivation of more than 250 North Carolina shrubs, part for the cultivation of foreign shrubs, and part for testing seeds and fertilizers, and making practical experiments with common crops.

This work will be particularly valuable to students of Education who are to teach in schools where agriculture and gardening form a part of the curriculum.

This Matter Stands THIS WAY

When you go to your Tailor to order a Suit of Clothes you're governed by his idea of what sort of a Suit you should have.

Few men know for themselves what's what.

After your Suit or Overcoat is made you can tell whether or not you like it.

But if you don't like it, you kind 'o feel you have to take it, anyway.

That's not very pleasant.

Now, then—what we want to say to you, Men, is this:—

We make a study of Men's Clothing—study the details—study everything that will in any way tend to the production of perfect Clothes for all sorts of Men.

Then we have the Clothes built by the best Tailors in the Land. Men who understand their business.

We'll astonish Men who have never been here for Clothes with the high class of tailoring in our ready-to-wear garments.

And you don't have to take any garment that is not perfectly satisfactory in every respect.

DRESSING ROOM GOSSIP

Dear Matilda,

I've been rooting around in the mud of knowledge all fall, like a mud terrapin going to the swamp for the winter, because it got so deep I went all the way under. You see, in this place, where brains are more important than anything else, you have to get plumb saturated with intelligence to keep in the swim. So I buried myself in the mud, so to speak, and tried to make as much of it stick on my back as I could. About two weeks ago, those who had already got about as much as a man can carry, gave the rest of us a chance to stick our heads above the mire, and show how much had stuck. I must have been a powerful slick one, for most of mine slid off. I didn't get above a 2 on anything. I don't mean I got any 2's, but what I mean is, I didn't get anything higher than that. They don't give anything lower than six, so I guess that's the reason they haven't posted some of my grades. Maybe they thought it wasn't safe, though, because the boys raise such a riot when they do post them. It's a wonder somebody hasn't been jerked loose from an arm or leg or head before now.

I went to see all my professors about my grades, because once there was a boy who got a five and he thought surely there must be some mistake about it, and he went to his professor to find out. And he found out there was a mistake, sure enough, for he ought to had a six. But I allowed they could just as well make a mistake one way as another. So I asked one of them if he could have possibly made a mistake, or oversighted a little something, or gotten me mixed up with somebody else. But he shooed me out with a book, and said he didn't have time to get mad right then. I told him I wanted him to go over my book with me, and show me where I was wrong, but he said it would take him far less time to show me where I was right, only it wasn't necessary, as I would have a chance to find out all that next year, when I took the course over. You see, a college professor has to look out for his reputation, because if it ever got out on him that he had made a mistake, he'd have no more chance than a whistle in a whirlwind. They are unmistakeable, because you can never mistake one for anything else, and because they are never mistaken.

But I didn't want to give up, so I went to another and told him that I had made several unpardonable errors on my exam, and I guessed I'd got more than I deserved, and maybe he could give me a little advice that would help me in the future. And he brought out my paper and read over it again, saying that he had gone over it a little hurriedly before, and perhaps it wasn't as bad as he had thought. Sure enough, I made a better mark on that course in these few minutes than I had made in a whole fall's hard work. It takes diplomacy to get a diploma.

This school is certainly different from the one up home. We haven't had a spelling match all fall, and they don't have any trustees coming in the classroom to scare you with a lot of hard questions like we used to sometimes.

I'd give a heap to see you now, and I bet you look fine in your new red dress. Anyway, one month of the five is gone and it won't be so long before I'll be toting myself back up to the mountains.

With lots of my very best,

HEZ.

Most men like Fatimas— but maybe *you* won't

Fatimas please so many men that they outsell any other cigarette costing over 5c.

But it may happen that *your* taste won't fit Fatimas. That's nothing against you. Nor against Fatimas.

But if your taste *does* fit Fatimas, you can feel doubly grateful. For of this you can be sure—Fatimas are *cool* and friendly to the throat and tongue. And they will never leave you "feeling mean" as long as you smoke within the bounds of reason.

Because Fatimas are *cool* and because they can be smoked freely and often they have rightly earned the title, "The Sensible Cigarette."

It simply remains for you to see if their *taste* suits you as well as it is suiting thousands and thousands of other men. Try Fatimas today.

You may find that their taste is *exactly* what you've been looking for in a cigarette.

QUERY FOR ANNUAL DEBATE

Compulsory Military Training Subject For U. Va.-U. N. C.-J. Hopkins

The subject for the annual triangular debate between Johns Hopkins, University of Virginia, and the University of North Carolina as recently agreed upon by the contesting schoools is: "Resolved, That our federal government compel every able-bodied male citizen between the ages of eighteen and twenty-four to take, under adequate provisions, one year of military or naval training."

The preliminaries for the selection of two teams, one on each side of the question, will be held in March. The finals will take place on April 29th.

See Marion Fowler, Billy Steele, Ernest Mackie, Merrell Parker for an interview date.

3 GOALS TELL TALE

Virginia Quint Defeats Carolina 30-24

GAME CLOSE THROUGHOUT

Tandy Stars, Making 10 Points. Numerous Fouls Slowed Game

Last Monday night in Richmond the Orange and the Blue of Virginia defeated Carolina by a margin of only three goals. At the end of the first half the score stood 15-15, but in the last half the Virginians spurted ahead and won 30-24. From beginning to end the crowd was whole-heartedly in favor of Carolina, and the Blue and White shots received heavy applause.

Carolina got the jump on Virginia at the start, and for a while it looked as if the game would result in a Tar Heel victory. The Charlottesville aggregation soon found their shooting eyes, and by the end of the first half the score stood 15-15.

In the second half Virginia started with a strong offence, and before the Carolinians could stop the assault, their opponents had piled up a good margin. However, with but three minutes to play, and Virginia leading by four points, the Blue and White began to locate the basket. At this point Tandy who had been playing a star game, disqualified himself by making his fourth personal foul.

At the beginning of the game Carolina got the tip-off and in less than one minute Meb Long had caged the ball. In a few minutes Tandy put another one through. The Virginians played hard and gradually crept up until they had tied the score by the end of the half.

Numerous fouls during the whole of the game made it a little slow. Fourteen foul goals were shot during the game—Long getting six and Strickland, for Virginia, eight. During the whole performance the players seemed unable to locate the baskets, except from near the middle of the floor.

Strickland at center for Virginia was the star of the game. Tandy played a brilliant game also. The Carolina center got 5 of his team's 9 field goals. Strickland

SECRETARY McADOO HERE COMMENCEMENT

To Deliver Address. A Sketch Of His Career

Secretary William Gibbs McAdoo has accepted the invitation tendered him by the University to speak at commencement. Next June the Secretary of the Treasury, together with Mrs. McAdoo and the McAdoo baby, who has never been to North Carolina before, will arrive in Chapel Hill. Last commencement Mr. McAdoo was to have spoken, but an unforeseen meeting of the International Finance Conference in the West prevented his coming to North Carolina at that time.

Mr. McAdoo's career has been such that he will necessarily have in his address much to interest young men. He was born near Marietta, Georgia, October 31, 1863. His father was an officer in the Mexican War, a Tennesee judge, Confederate soldier, and in his last years a professor in the University of Tennessee. After leaving the University, the Secretary-to-be began practicing law in Chattanooga, where becoming interested in transportation problems, he reconstructed the local transit system.

In 1892 Mr. McAdoo moved to New York In 1902 he undertook the problem of constructing tunnels under the Hudson, which now unite New and Jersey City. The project was hazardous; it required audacity and capital; but the work was accomplished. New York is indebted to Mr. McAdoo for other of her indispensible transit systems, as well. The "triborough" route, he was largely instrumental in securing.

"Mr. McAdoo," says the Review of Reviews, "is a man who thinks in large terms and from the public standpoint. Unlike some men of similarly bold imagination, he has an amazing gift for details, a tireless industry, and a dauntless courage. He is of the stuff that statesmen are made of, and he is in every way fitted for high political place... Mr. McAdoo's way of winning public favor is to render public service.....He has always been a progressive in his conviction, and while an active Democrat, he has never had any of that narrowness or mere partisanship."

Mr. H. G. Baity was initiated in the Amphoterothen Wednesday night.

1916 ANNUAL TO PRESS

Comes Out About May 1st. Has Good Deal Humor and Poetry

Work on the 1916 Yackety Yack is nearing completion, and the editors and business managers will soon send their last copy and pictures to the press.

The engraving is being done by the Electric City Engraving Company, of Buffalo, N. Y., and the contract for printing and binding has been given the Edwards Broughton Company, of Raleigh. More attention is being given to the artistic part of the Yackety Yack this year than formerly. Among the artists who have contributed to this year's annual are: Russel Henderson, formerly with the Charlotte Observer; Jaques Busbee, of Raleigh; E. J. Lilly, of Fayetteville, together with several students. It is proposed to introduce each department of the book with a color plate.

There will be several serious articles dealing with college affairs, as well as fifteen pages devoted to humor. Miss Eleanor Watson, R. B. House, M. Roundtree, and A. M. Lindau have contributed some excellent poetry.

The county and high school clubs have again come into their own. The new annual will contain pictures of all those who have expressed a desire to appear. There are, as usual, numerous photographs of local scenes.

The seniors will be written up as before, and the juniors will have individual pictures again this year. The departments of law, medicine, and pharmacy will not be changed. The book will in all probability be ready for distribution about May 1.

EIGHT MARRIED STUDENTS

Carolina Now Boasts That Many Since Two Post-Exam Weddings

Two more students have taken the fatal leap that automatically makes them members of the local students' Benedict colony. They are Mr. Francis H. Cooper, of Washington, N. C., who was married to Miss Eula H. Wallace of the same place, on February 1, at Richmond, Va., and Mr. Allen T. Castelloe of Aulander, who was, on the same date, married to Miss Sallie May Hollowell at her home in Aulander. Messrs. Cooper and Castelloe will graduate in June. Counting "Doggie" Trenchard, these make eight students that have already selected their "help meets" for life.

FEBRUARY MAGAZINE APPEARS ON CAMPUS

Is a Little Over-serious. Has History of Frats Here

The most important article in the February number of the University Magazine, which has just been published, is a "Sketch of the Fraternities of the University of North Carolina (1851-1915.)" by Herschel V. Johnson, '16. This article is not only valuable historcally, but affords very interesting reading as well. The writer has thoroughly acquainted himself with his subject and has thrown light upon an important feature of the University Life. Furthermore, it suggests that more might be done in studying certain other definite aspects of university life. Such studies are worth more than trivial and meaningless short stories.

Two poems are included in the present number—one by Mr. Lindau, the other by Mr. Roundtree, who had such a good poem in the last number of the magazine. "Broadway through the Provincial Eyes of a Downhomer" affords a refreshing bit of gossip from an alumnus. It should encourage other alumni contributions. Mr. Kato's article on "International Peace and Mutual Understanding" is timely and logical as well.

A live exchange department would add much to the magazine, provided it is carefully edited. One feels that a few short, snappy articles, humorous or otherwise, might enliven the magazine a little. It is a little inclined, perhaps, to over-seriousness.

WHAT'S TO HAPPEN AND WHEN

Sunday, February 13—Regular services in the churches. 12:30 Dr. W. H. Moss will lead a discussion at the Phi Delta Theta House on "Preparedness."

Monday, February 14—President Graham in chapel.

Tuesday, February 15—President Graham in chapel. 7:45 John A. Snell, missionary from China speaks in Gerrard Hall on "Medical Missions."

Wednesday, February 16—Chapel open. 8:00 University vs. Davidson in basket ball at the gym.

Thursday, February 17—Chapel open.

Friday, February 18—Musical in chapel.

BASEBALL PROSPECTS

Nearly a Hundred Men Warming-Up on Class Field

EIGHT LETTER MEN BACK

Regular Practice Starts Next Week. Team Sure to be Strong on Fielding

The baseball prospects for the coming season are very bright. Practice started last week and at present there are about 90 men on the squad. Of these 90 there are 16 men from last year's squad, including 8 letter men. The letter men are Capt. Patterson, Currie, Williams, Hart, Hardison, Lewis, Bailey, and Zollicoffer. The practice so far has consisted of batting practice and some fungo hitting to the outfield. Infield practice will start next week, and "canning" will begin as soon as Coach "Chick" Doak has had a chance to "look 'em over."

The pitching staff should be especially strong this year. Williams and Currie, both letter men, should go well this year. Currie showed exceptionally good form during the latter part of last season, and pitched splendid ball last summer. Cuthrell, who was ineligible last year, will be on the job this year. He pitched fine ball for Wake Forest two years ago. Johnson will report as soon as the basket ball season is over Kinlaw and Coleman, from last year's squad, Plyler who pitched star ball for the Juniors last year, Ash Hill, and two Freshmen, Watkins and Powell, fill out a pitching staff that should compare favorably with any in the South.

For catchers we have Hart, a letter man, Angel, who played in the Washington City League last year, Bennett from Mercersburg Academy, Love and Roberts.

Jim Hardison, Tandy, and Meb Long will be out for first base.

At second base we have Capt. Patterson, Massey from Elon College, a good utility man, and Jennette from lest year's squad.

Sheek, Bev. Royster, Brdiges and Lewellyn will be out for short. Sheek is an exceptionally good baserunner and fielder and will probably be first choice at this position.

Mack Lewis and Baker are out

Continued on third page.

THE SENIORS AND THE LOYALTY FUND

The Alumni Loyalty Fund, as outlined in the November Alumni Review, after having met with hearty approval from the alumni, has, in turn, been endorsed by the trustees. The plan is, by this time, familiar to most of the students. The purpose is to establish a fund "separate from all other University funds," to be supported by gifts from the alumni, both great and small, and to be "admistered by a group of alumni trustees, appointed by the President."

The proposed fund was clearly treated by President Graham in his recent report.

"It is fully recognized that the University is a State institution, of and for the State, and that the support of the State, and that alone, can make it adequate to the rapidly growing demands of the State. The alumni fund proposed would always be auxiliary to this State support, and proportionately small; but there are many things that might be added to the beauty and usefulness of the institution that never will be added from the State funds, and there are now thousands of loyal sons of the University, and there will be thousands more in the years to come, who will delight to contribute to its upbuilding, and who will be better University men for contributing. These men do not contribute because they haven't a sufficient sum to contribute in the large way necessary to make an individual contribution count. They cannot gve fifty thousand dollars, nor five thousand dollars; but they would eagerly grasp the opportunity to give five dollars, or fifty dollars, or a hundred dollars a year."

The discussion of gifts is timely not only because the devising of this plan has brought the subject to the attention of the campus. Anyway, it would be a timely matter for the consideration of the Senior class. The question has already expressed itself: What shall the class give the University?

"Classes with efficient class organizations can continue, as they do at present, to contribute directly to their class funds; and the classes can continue, as in the past, to vote their gifts to purposes as they choose, but they may, if they choose, vote to add their class fund to the alumni fund."

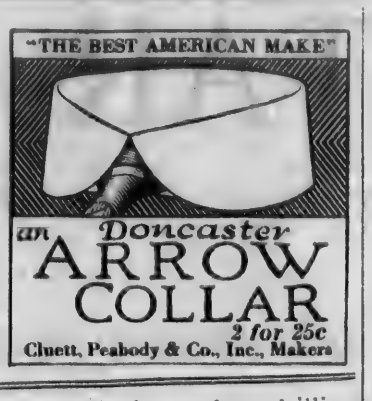
The suggestion is worthy of consideration. At Vanderbilt there is a Ten Dollars a Year Club composed of one hundred members of the Senior class. Each member has promised to contribute ten dollars a year for ten years, the entire amount to be turned over to Vanderbilt University.

We do not, necessarily, advocate such liberal donations. A much smaller sum would be of vast service to the University. If, as was suggested at a class smoker last fall, each member of the Senior class should agree to give two dollars his first year out of college, three dollars his second, and five dollars his third, the class would have no small sum to give the University at its five year reunion. The present Senior class would have the privilege of being the first class to endorse the loyalty fund and the first to subscribe to it.

TRACK TROUBLES

The Manager of the track team states that there is a shortage in the number of track candidates this year, particularly among the freshmen. Ordinarily this is to be deplored, but this year, when we have a schedule of some difficulty, it is particularly to be regretted. But regretting is not a specific for the trouble, insists the manager. Interest, alone, is the remedy,—interest which expresses itself in action.

Every afternoon practice, is held on the track. Every student in college, particularly freshmen, is urged to come out. Captain Patterson will welcome any one desiring a position with his decollete squad.



THE UNIVERSITY MILITARIZED

Capt. John A. Parker is a Charlotte member of the board of trustees of the University and by reason of his long-time interest in military affairs, his views are of interest. When seen by an Observer representative yesterday Mr. Parker expressed himself freely, declaring that as yet he had not come to any conclusion on the subject, in so far as it related to the University nor would he, until he had studied the proposition more fully.

"As a general proposition," remarked Captain Parker, "I am doubtful as to the value of a military department as an adjunct to any large university or college where the literary feature predominates in the curriculum. From the standpoint of the individual student, I don't see how any great results can be achieved for only three hours a week can be taught and that limited effort where the student has other studies that take up four-fifths or five-sixths of his time and energy can do much. The average sophomore or junior can learn drilling in close formation with reasonable proficiency in 15 days and as for the study of war problems, tactics, etc., that requires a world of effort.

"The better plan, in my estimation, from the standpoint of the Government, is that of 30-day training camps, similar to the one in Asheville two summers ago, where college men, other than those from military schools, can be given intensive training in all military matters. They can get it for 15 hours a day for 30 days and this to my mind was better than three hours a week for eight or nine months.—The Charlotte Observer.

Three cheers for the two men in college who all one's in the recent examinations, J. B. Linker, '18, and J. C. Eaton, '19.

DR. MOSS MAKES TALK

Discusses at Tuesday Y. M. C. A. Meeting Three Views of Life

"What is Life?" was the theme discussed by Mr. Moss to a group of students at the regular Tuesday evening meeting in Gerrard Hall.

He explained that there are three views of life from God. "The first, and one that looks mighty nice on the surface, is passive; we will call it Idealism. The idealist would take things easy; if it suited him to retire early and sleep late, that is the thing he would do, or if he found more pleasure in staying away from a lecture than attending it, then he would stay away. Being passive doesn't get a Christian very far."

"The second view is explained by the hundred and twenty-first Psalm: 'Behold! he that keepeth Israel shall neither slumber nor sleep.' Here we have an example of the very active Christian, and we can call this Behaviorism. We have behaviorism in every thing that interests man. Look at the mountains, they seem active, look at the plains, they seem passive; we read passive and active poetry, some texts in the Bible are active, others are passive.

"The active Christian is all well and good, provided we don't act just for the acting, or because we think we have it to do; but rather let it be the outcome of a great spiritual power. And if it be from an innate desire to glorify God, then we have the third and real view of life exemplified through the source, Jesus Christ. Then let us by reading good biography, especially the New Testameht, keep ourselves linked to the source."

Dr. Booker Away Next Year

Dr. J. M. Booker has secured a leave of absence for the coming year in order to devote especial study to contemporary literature. If political conditions in Europe permit, he hopes to spend some time both in England and France.

WHAT we'd call "determination" in ourselves, we of'en mistake for "bull-headedness" in the other fellow. But we don't ever mistake real, true geniality in a man or a tobacco.

BRANCH OF NATIONAL SECURITY LEAGUE HERE

Organized Thursday. To Have A Speaker Here Feb. 22

A local branch of the National Security League was organized in Gerrard Hall Thursday night in a joint meeting of the townspeople, faculty and students.

This league, which is non-partisan and which has its headquarters in New York, numbers among its members Joseph H. Choate, Alton B. Parker, and Henry Stimson, ex-Secretary of of War. The league favors an army and navy with citizen reserves which will be sufficient for the adequate protection of the United States It is working for the following program:

1. Legislation correcting present wasteful methods of military appropriations and disbursements.
2. The adoption of a definite military policy.
3. A stronger, better balanced navy.
4. An effective mobile army.
5. An adequate National Guard organized under the War Department.
6. The creation of an organized Reserve for each branch of our military service.

The following officers were elected: Honorary Chairman, Professor William Cain; Permanent Chairman, Dr. J. M. Booker; Secretary, Oliver Rand; Treasurer, Frank Hackler; Executive Committee, Dr. Webb, Professor Parker, Dr. J. B. Bullitt and A. M. Lindau.

It is the purpose of the Chapel Hill local to observe the twenty-second of this month by having present a speaker of national reputation.

312 HIGH SCHOOLS ENROLLED

Nearly a Hundred Counties Represented in State-wide Debate

Three hundred and twelve high schools in 93 counties of North Carolina have enrolled with Secretary E. R. Rankin for the approaching triangular debates of the High School Debating Union which will be held over the state on March 31st. This is the largest enrollment in the Union's history and a great state-wide debate is expected. The schools winning their two debates on March 31st will send their teams to Chapel Hill to compete on April 13th and 14th in the final contest for the Aycock Memorial Cup.

In preparation for the debates steady work is being done in the high schools by prospective debaters. This fact is evidenced by the many letters requesting material and other assistance which daily come to the Bureau of Extension. The query to be discussed is "Resolved, That the United States should adopt the policy of greatly enlarging its Navy." In order to aid the debaters, a 64 page bulletin on this subject was compiled and issued by the Bureau of Extension. Three thousand copies of this have been sent to the high schools.

Buncombe county leads the state with 14 schools enrolled. Robeson comes next with 12, and Guilford follows with 10.

If there is a question about Christian character troubling you, talk it over with Francis Miller. See Marion Fowler.

BASEBALL LETTER

Letter From Members of Baseball Team Asks a Few Questions

The Tar Heel has been requested to publish the following letter.

To Editor of the Tar Heel:

We the undersigned letter men of the University baseball team have a few facts to present and some questions to ask which we know are very vital to the students on the campus here and to our interested Alumni over the State. Just at the beginning of the 1916 Baseball season we find the following conditions to exist in regard to baseball. We think that baseball at the University is not being given the proper consideration as a major sport of the college by the Management of the same, whoever the management may be.

The following facts are generally known:

1. There is now more than $2.000 in the Athletic Association Treasury.
2. The salaries paid generally to our football coaches amount to several thousands of dollars a year.
3. The salary paid our baseball coaches amounts to only a few hundred dollars a year.
4. The University baseball team each year plays before larger numbers of North Carolinians and Alumni than any athletic team representing the University.
5. The student manager, himself elected by the Athletic Association of the student body; does not exercise the power of management due to defect in the system.
6. The Emerson Athletic Field is in practically the same incomplete condition that it was in the last week in December, and there has been very little effort made, that could have been made, to put it in condition for Varsity baseball and track season. There has been about as much pleasant working weather since December 1st, last, as there has been bad weather.

It is known to the candidates of the baseball team, that

1. All candidates for the football team are entirely equipped for practice from the beginning of their season. Towels are furnished from the start.
2. No member of the baseball squad receives a single thing from the Athletic Association until the day before the first game is played, seven weeks from the first call for candidates. This includes denial of bats, free use of towels, any part of a uniform, sufficient number of balls and at the present time use of lockers in the Varsity room. There are a number of empty lockers in the Varsity room. There are dozens of towels in the possession of the Management. Balls and bats may easily be obtained if an effort is made.
3. Assistant managers are seldom seen at the Gym or on the field.

We would like to have the following questions answered in the columns of the Tar Heel.

1. Why is the baseball schedule so late in completion every year?
2. Where are the games to be played this Spring?
3. Is the class held, which the squad is forced to use, to be put in condition for practice by actual building of a suitable diamond? We understand that such is not the intention of the Management.
4. Why is it that only one new suit is bought for the baseball team a year when practically the whole football and basketball teams are equipped for a single game with new uniforms? It is practically impossible to get some good players out for practice on account of not being able to supply themselves with baseball equipment.
5. Is each candidate supposed to supply the Athletic Association with a bat after he has once paid $2.50 into the treasury at registration?
6. Why is a student manager elected to properly perform the duties as manager when he has no authority?
7. Can the University expect a winning team under these conditions?
8. Who is responsible for the conduct of baseball affairs?

Many of the conditions herein stated are not only existing at the present baseball season but have been in existence for a number of years. We think, and we believe that the student body and the Alumni think also, that these conditions ought not to exist. Therefore, we would like to ask that a satisfactory explanation be given in the Tar Heel, and that these conditions be remedied.

ROANOKE COLLEGE WINS

Defeats Carolina 45 to 13. Homewood Goes in for Tandy

Roanoke College defeated the University of North Carolina at basketball Wednesday night by the score of 45 to 13, a larger score than was made by either the University of Virginia or V. P. I. against the Tar Heels. The score at the end of the first half was 27 to 1, in favor of Roanoke. In the second half Carolina braced somewhat but failed to hold her own with the Collegians, who were superior in every department of the game.

The line-up:

U. N. C.	position	Roanoke
Long	r. f.	Norman
Johnson	l. f.	Bunting
Tandy	c.	Painter
Davis	r. g.	Bonham
Tennant	l. g.	Duncan

Referee: Mr. Carlton, Roanoke Y. M. C. A.

Substitutions: Homewood for Tandy, Scruggs for Davis.

1917

Write home now for one dollar and seventy-five cents, so you will have it by Feb. 25. This applys to every Junior in college. We want to have the best Junior Banquet ever held. Save up Pickwick money for the next two weeks. Get there somehow and you'll never regret it!

Friday, Feb. 25. Talk it up!!!

Simplified Spelling

Please take notice of the following, so that you may not be out of style. Exams show that appossiles shall henceforth stand for apostles, and complermise shall stand for compromise.

The Royal Cafe has installed an electric player piano and the students can now enjoy a cabaret, minus the ladies, while making away with their corn flakes.

Prof. P. H. Daggett will lecture in Henderson on "The Electrical Age" February 24th.

HIGH SCHOOL TENNIS

Tennis Championship As Well As Basketball and Track Under U. N. C. Management

The University Committee on Athletics has recently issued an announcement of the rules governing the contests to be held here this spring. A new feature in the committee's work will be the first inter-scholastic tennis tournament. Rules governing this contest are as follows:

1. All secondary schools of North Carolina, however supported, shall be eligible.
2. All contestants must be bona-fide students of the school which they represent.
3. There will be contests in singles and doubles. A school may enter either the singles or doubles, or both.
4. Two Cups will be awarded, one to the school winning the doubles match and the other to the school winning the singles match.
5. All schools desiring to enter the Tournament will please communicate with the Secretary of the committee as early as is possible. The names of all contestants together with information as to whether they wish to take part in the singles, doubles, or both, should be sent in not later than April 6th. There will be preliminaries at Chapel Hill which will probably necessitate the contestants arriving on April 12th.

Regulations governing the Fourth Inter-Scholastic Track Meet follow:

1. All secondary schools of North Carolina, however supported, shall be eligible.
2. All contestants must be bona-fide students of the school which they represent.
3. The following events will be held: (1) 100-yard dash, (2) 440-yard run, (3) 880-yard run, (4) one-mile run, (5) 120-yard low hurdles, (6) high jump, (7) broad jump, (8) pole vault, (9) 12-pound shot put, (10) 12-pound hammer throw, (11) a relay race.
4. The school winning the largest number of points shall be awarded the Championship Cup. This school shall retain possession of the cup for one year, and the school which shall win it for three years shall have permanent possession of it. The school which wins the relay race shall be awarded a Cup, this to remain inpermanent possession of the school winning it. To every contestant winning a first place in any event, a silver medal will be awarded; and to every contestant winning a second place, a bronze medal will be awarded
5. The points will be counted thus: 5 for first place, 3 for second place, 2 for third place, and 1 for fourth place. The relay race will not count in the scoring of points.
6. The rules of the Inter-Collegiate Amateur Athletic Association will govern this Meet.
7. All schools desiring to be represented in this Meet will please notify E. R. Rankin, Secretary, as early as possible.

The track cup was first awarded to High Point but for the last two years has gone to Friendship.

Fred Deaton Graduates

Fred Deaton completed 63 hrs. work, the amount required to get a degree, with the fall examinations, and left the Hill Thursday for Statesville, where he has been elected secretary and treasurer of the Carolina Motor Co. He will be back commencement for his sheep-skin.

COLLEGE MEN URGED TO CHECK LYNCHING EVIL

The University Commission on the Southern race question, composed of 11 University professors from as many states, met recently in Chapel Hill. Dr. Branson represented the University of North Carolina. The biggest work of the committee was the drawing up of a letter addressed to the students of the South in which a strong appeal was made against the horrors of lynching The letter follows in part:

"Lynching is a contagious social disease and as such is of deep concern to every American citizen and to every lover of civilization. It is especially of concern to you, and you can do much to abolish it. Vice and crime know that their best, though unconscious and unwilling allies, are lukewarmness and timidity on the part of educated 'good' citizens.

"The records of lynching for 1914, compiled by three different agencies, give the total number for the year as 52: colored male, 46, female 3; white male, 3.

"The same agency which reports 52 lynchings for 1914, makes the following report for 1915:

"Number lynched: colored male 53, female 3; white male 14. total 68. This is an increase of 30 per cent over the total number for 1914.

"These are the terrible facts Is there no remedy? Have we not sufficient legal intelligence and machinery to take care of every crime committed? Must we fall back on the methods of the jungle? Civilization rests on obedience to law, which means the substitution of reason and deliberation for impulse, instinct and passion. It is easy and tempting to obey the latter, but to be governed by the former requires selfcontrol, which comes from the interposition of thought between impulse and action. Herein lies the college man's opportunity to serve his fellows; interpose deliberation between impulses and actions and in that way control both.

"Society has a right to expect college men to help in moulding opinion and shaping conduct in matters of this sort; it is their privilege and duty to cooperate with others in leading crusades against crime and mob rule and for law and civilization. The college man belongs in the front rank of those fighting for moral and social progress. For this reason the University Committee makes its first appeal to you and urges you strongly to cooperate with the press, the pulpit, the bar, officers of the law and all other agencies striving to eliminate this great evil by speaking out boldly when speech is needed and letting your influence be felt against it in decided, unmistakable measure and manner.

(Signed) "W. S. Sutton, Texas; Josiah Morse, South Carolina; W. L. Kennon, Mississippi; W. O. Scroggs, Louisiana; Jas. D. Hoskins, Tennessee; R. J. H. Deloach Georgia; W. M. Hunley, Virginia; E. C. Branson, North Carolina; Jas. M. Farr, Florida; J. Y. Thomas, Arkansas; J.J. Doster, Alabama.

Latest Registration 1156

The total number of registrations up to Wednesday was 1156. Since the holidays there have been 19 new registrations.

GOOD ROADS INSTITUTE

Holds Lectures Here on Road Building and Upkeep

The North Carolina Good Road Institute, which has been in session here since Monday Febraary 7, ended today. For the past week practically the entire first floor of the Peabody Building has been given over to the good road work. Wednesday there were over one hundred men in attendance representing seven states and forty-two counties in the state.

Several series of lectures have been given by men experienced in road building. Among the leading speakers were: W. S. Follis, State Highway Engineer of North Carolina; A. D. Williams, State Highway Engineer of West Virginia; D. A. Williams, United States Officer of Public Roads; J. H. Pratt, Director of the Institute; T. F. Hickerson, of the University faculty. Discussions have been held concerning all aspects of roads and road building—how, when, and where they should be built, as well as how they should be maintained after construction. The National Highway has been one topic for discussion.

Together with the talk of road building, there has been some demonstration of road machines. Some of the large road implement firms have sent their representatives with machines to give practical demonstrations. The matter of drainage was also considered. By way of demonstration a tile culvert was erected at the east end of the New West Building, which will be preserved for the future use of the Institute.

V. P. I. DEFEATS U. N. C.

Virginians Win 44 to 27. Rusty Davis Makes Long Distance Shot.

Wednesday night at Roanoke V. P. I. defeated Carolina in a listless and one sided game by the score of 44 to 27. Both teams were crippled by having some of their best men out of the game. Tandy, who was injured in the Virginia game will probably be kept out of the rest of the games on the trip. Andrews and Massy had to be left here.

The first half of the game was noticeably slow, and the Virginians were able to run the score up to 22 to 10 during this period. However with the substitution of Cowan at center for the second half things brightened up considerably. The players moved faster and passed the ball with more accuracy.

"Rusty" Davis made what was possibly the longest shot ever seen on the Roanoke floor. While at one end of the court he dropped the ball in the basket at the other end without touching the ring.

Johnson for the Blue and White was Carolina's star with Long a close second.

Line-up:

V. P. I.	position	N. C.
B. Cocke	r. f.	Scruggs
Engleby	l. f.	Johnson
G. Cocke	c.	Long
Dean	r, g.	Tennent
Powell	l. g.	Davis

Substitutions: Cowan and Kennan.

Summary: V. P. I.; field goals B. Cocke 7, Engleby 5, G. Cocke 4, Powell 3; foul goals, G. Cocke 6 out of 7. N. C. Field goals, Johnson 4, Long 3, Davis 3. Foul goals, 7 out 10.

Referee: Meissner.

Time of halves: 20 minutes.

DR. RICHARD WHITEHEAD DIES

Former Dean of Medical Faculty Dies in Charlottesville

Rr. Richard Whitehead, formerly Dean of the Medical Faculty of the University of North Carolina and since 1905 dean of the same department in the University of Virginia, died in Charlottesville, Va. February 6, of pneumonia.

Dr. Whitehead was a native of North Carolina, having been born in Salisbury on July 27, 1865. He was educated at Wake Forest College, receiving there the degree of A. B. in 1886. A year later he was graduated from the department of medicine at the University of Virginia. During the years of 1887-89 he was demonstrator in the University of Virginia. Two years later he became dean of the medical department and professor of anatomy at the University of North Carolina and remained so until 1905, when he succeeded Dr. William G. Christian as professor of anatomy and dean of the medical department of the University of Virginia. In 1910, the University of North Carolina conferred on him the degree of doctor of laws. His work in medical fields ended only with his life. He was the author of "Anatomy of the Brain" and a large number of contributions to medical publications on anatomy and pathology. He was a member of a large number of learned societies.

The funeral was held in Charlottesville. Interment was in the university cemetery.

Fresh Overwhelm Juniors

Monday afternoon the Freshmen carefully scoured the floor of the Old Commons Hall with the Junior basketball aggregation. The final score was 32-2. Junior's only two points came as the result of two foul goals.

The distinct star of the game was Shepherd. In the first part of the game Shepherd set himself to the task of whipping the Juniors. Before the battle was over he had scored 20 points from field goals. Fitzsimmons also put up a good game.

Line-up:

Fresh	position	Juniors
Shepherd	r f	Squires
Jewett	l f	Watkins
Fitzsimmons	c	Marsh
Clarvoe, Bell	r g	Harrell
Hutchins	l g	Kendrick

Referee: Andrews.

Time of halves: 15 minutes.

Seniors 16 - Sophs 9

Wednesday the Seniors defeated the Sophomores in a rough basketball game. The Sophs were outplayed everywhere by the Seniors who were able to pile up a score of 16 to 9. At the end of the first half the Sophomores had scored only one point, but picking up in the last half they managed to run their score up to 9 points. The Seniors put up a strong defensive game as well as an offensive one. Royall held his man down well at all times.

There were no particular stars of the game. All of the Seniors passed well and played together. The Sophs showed lack of practice, but put up a good game though outweighed by their opponents.

Line up:

Seniors	position	Sophs
Patterson, H.	c	Conyers
Kuthrell	r f	Armstrong
Patterson, F.	l f	Lynch
Pell	r g	Gwyn
Royall	l g	Bryant

FRANCIS MILLER BRINGS MEETINGS TO END SUNDAY

Talks on Active Christianity and the Wages of Sin

The Miller meetings came to a close Sunday night with a number of students signing cards, expressing by their actions that they wanted to live purer lives and at the same time to be of some service to their fellow men.

The evening address was a plea for the students to separate themselves from those things that hinder their material progress. "Rest assured," Mr. Miller said, "that anything that retards your progress in study or in business will help the devil get a firmer grip about your soul." He would have no passive Christian in God's kingdom, but urged all to declare themselves and get in the war against sin. He stated that he was in it because he hated sin with a burning hate that could never be extinguished so long as God gave him the power of reason.

Mr. Miller took for his Sunday morning subject, "The wages of sin is death." To prove that this law of Paul's was as true today as it was in the early Christian era, the speaker cited many experiences of people, who have suffered sorrow, disappointment and moral death on account of sin. "Sin is absolutely honest," he declared. "It never cheats or gives small measure. The wages are sure and they will come in one of three ways: a conscious suffering, a physical wreck or a character blighted, and any one of the forms will eventually bring on the other two."

The speaker made a plea for the leaders in campus activities to take a stand for Christ and use their influence to help those who have confidence in their leadership. "If you want to go to hell," he said, "for God's sake cut loose from everybody and go alone. Don't go dragging the weaker fellow along with you. Yes, it is bad for you to go to hell, but it is ten thousand times worse for you to take some trusting friend with you."

"To my mind," Mr. Miller continued, " the most insidious form that sin takes is that form which hides itself beneath the surface. You are what you are in secret, and it is these seemingly little insidious sins that pave the way for great moral downfalls. Many men here on this campus are externally cultured and refined, and seem to be strong physically, mentally and morally; but deep down in their souls, unseen save by the eye of God, is some sin which is sapping their vitality and wrecking their lives. But mark my word, your wages will be due soon, and sin will see to it that you get your pay."

Concluded from first page.

for third base. Lewis is a clean fielder and has an unending flow of "the old pep."

In the outfield Bailey and Zollicoffer from last year's varsity are back. Folger, a star athlete from South Carolina has registered and is working in the outfield. Wood, Bond, Bellamy, Pierson, and a host of others are out for the outfield positions.

The fielding is almost sure to be good with the men from last year's team as a nucleus. The chief drawback is the lack of hard hitters. If these can be developed Carolina should have a well rounded team for the coming season.

SCHOLARSHIP CONTEST

Letter to the Tar Heel Proposes Such a Contest for High Schools

The Tar Heel is in receipt of the following letter which it is glad to publish.

To Editor of the Tar Heel:

"The University at present is conducting High School contests in athletics and debating, and has gotten in close touch with the high schools along these lines. We know now where to look for good athletes and debaters. Our plan has succeeded so well that other states are taking it up. Never before have the high schools felt that they might look to the University for such generous assistance as they are now receiving.

"Would it not be well to add depth to the length and breadth of our present plan, and touch these schools in a more vital way? Why not inaugurate a scheme to test the class room work? This would focus their attention on their real work. The details of such a scheme would require much thinking and talking. It offers many difficulties, and naturally some will say it isn't worth the trouble, but are there not at least as many possibilities? It seems as though it would be of more real value to our University and our High Schools to know which one is turning out the best students. A contest of this kind would create a demand for scholars as principals and teachers in the schools, whereas the tendency in some cases is to have teachers who are primarily athletic trainers The scholar teacher is likely to remain in the class room long after the athlete has run into business, and the debater has argued himself into politics.

"To open the question for discussion suppose we consider some such plan as this. On an appointed day at each county seat let the County Superintendent of Public Instruction hold written examinations in such subjects as agreed on and prepared by a committee. Let each competing school be represented by two students. The examination papers to be forwarded to the committee. The school whose average is the highest shall be declared the winner.

"As a recognition of merit I would suggest that in addition to awarding the custody of a cup for a year that the winning school be awarded a cash prize of $100 to be expended in their library.

"The stimulus that such a contest would give scholarship in our high schools would well be worth the few hundred dollars that it would cost the University."

W. W. Rankin, Jr.

Concluded from first page

made 16 of Virginia's 30 points

Long played an excellent game and was on the job at all times. The guarding of Tennent and Davis were also prominent features.

Line-Up

Va.	Position	N. C.
Stickley	L. F.	Long
White	R. F.	Johnson
Strickland	C.	Tandy
Churchman	R. G.	Tennent
Luck	L G	Davis

Substitutions—Scruggs for Tandy

Summary: Goals from field—White 3, Strickley 2, Strickland 4, Luck 2, Johnson 1, Long 3, Tandy 5.

Foul goals—Strickland8, Long 6. Referee: Colliflower (Georgetown). Time of halves, 20 minutes.

FINE MATERIAL FOR TRACK

Capt. Patterson Now Looking Around For a Coach

Captain Hazel Patterson of the track squad has issued a call for all men who can run and jump, whether professional or amateurs to report at the gym Monday at 4:30 o'clock. With hard training this spring Carolina ought to put out a first rate team. Besides four-fifths of last years' team who have returned to school there is some new material out and it is hoped that many more aspirants will report Monday. The following old men will work for Carolina in meets this spring: sprinters, Black, Johnson and Wright; quarter-mile, Patterson, Rimmer, Fitzimmons and Parker; half-mile, Ranson and Webb; mile, Rand and Pitts; two miles, York, Gant, Harrison and Upchurch; high jump, Kanner and Johnson; broad jump, Wright and Hatcher; hurdles, Davis; hammer throw, Homewood, who holds the college record, 116 feet, and Isley; shot put, Davis, Ramsay, Thorpe; vault, Homewood, Isley. Captain Patterson is now negotiating for a coach to work with the team this spring. The selection will be announced later.

College Military Training

Shall we have compulsory military training?" asked President Graham in his address at chapel last Monday morning. Briefly commenting upon the uncertain state of international affairs, he referred gravely to the possibility of the United States being drawn into the world-wide conflagration at any minute, and its lack of preparedness in meeting the terrible ordeal. In speaking of universal military training as means of national defense he declared that, aside from the great increase in military preparedness which such training would give, it would inspire a spirit or feeling of devotion and loyalty to the Federal government—something which in itself, he said was well worth the training received. In order not to rush too quickly into the new project, President Graham said that mere suggestions indicative of the extent to which the training might be carried, have been made to the Trustees of the University, and that as the University is run on the principle of student-self-government he would like for not only the Trustees but also the students to think about it.

The following morning Dr. Booker spoke warmly and briefly upon the necessity of military organization. Holding up to the student body the ideals and aims of the National Security League, he asked all those interested in the organization to speak with him in regard to joining it.

Sophomore Hop In Junior Week

At a meeting of the Sophomore class, held last Friday, a dance to be given to the Senior class during the regular Easter dances was voted on and passed. Bruce Webb was elected leader, with Bob de Rossett and Holmes Herty assistants.

The Extension Bureau has a large supply of material on the Enlargement of the Navy. Any one desiring material for his own use or to send to high schools, may secure it by calling at the Extension offices.

Carolina Men Take Law Board

Last Monday morning the regular population of Raleigh was augmented by nineteen students of the University. Lest some one straightway doubt that so many young men could have received leaves of absence to miss their eight-thirties, it had best be said that these particular ones were law students who had especial business in the city. They were there to be examined—in property, contracts, and agency. In fact, they were taking the law board examination. The young barristers were: J. W. Barber, C. L. Bell, M. K. Blount, R. T. Bryan, Jr., J. L. Cockerham, P. C. Gardner, C. K. Hughes, F. C. Jones, O. Leach, O. N. Lovelace, E. G. Mick, Z. V. Norman, J. D. Odom, W. H. Powell, W. B. Rouse, R. H. Shuford, J. L. Simmons, T. G. Trenchard, W. S. Wilkinson.

Dr. L. R. Wilson has been a suffered from grip since examinations.

Ed. S. Reid, Jr., has entered Bryan Stratton Business College, Baltimore, Md.

DRESSING ROOM GOSSIP

Once there was a University situated way off in the woods, thirty miles away from the nearest town, and ten miles from Durham. There was no Auto station, with cars leaving every hour for civilized points in those days, so when a man got to Chapel Hill, where the University was situated, he was apt to remain there for some time. There were no pressing clubs, and a student could go a whole month without a crease in his trousers, and still maintain his self-respect. Horsehide shoes had not yet come into fashion, although cowhide boots were pretty generally worn. When a boy left for college, he usually stocked up on "haberdashery;" that is to say, the sewing machine was kept busy for two weeks prior to his departure. His shirts and some other articles of apparel were of home manufacture. There was no army of agents to lure the boss's hard-earned cash with neckties at three-fifty per, and muslin suits at two for twenty-four ninety-five. And there was no Pickwick to lure away an hour of the twenty-four every night. The hour was spent in the discussion of deep political questions, and matters of grave import.

Gradually a change came over this secluded center of intelligence The demand arose for more than mere matters of intellect, and students began to think their education in knowledge of the world was being neglected.

So those of them who could afford it would gird up their loins, and gather together their substance and sally out into the world for a spell. It even got to the point where locals like the following were not uncommon in the Tar Heel:

Mr. Harry Grimsley came to Chapel Hill Monday morning to meet his classes, after which he returned to Raleigh.

Mr. Larry Barber spent Saturday and Sunday on the Hill.

But a very large majority of the students were not able to avail themselves of this method of acquiring less rural airs. So steps had to be taken to make the little University measure up to modern requirements. Chapel Hill couldn't go to the world, so the world had to come to Chapel Hill.

Perhaps there is nothing so distinctively modern about the modern world as the Kinedrome exhibition, more commonly known as the movie. In the space of fifteen minutes, the life history of a brave man or beautiful woman is vividly portrayed on a sheet fifteen feet square by means of rays of light. This, then, was a chance to see the world at home. So the Pickwick was launched on its eventful career. Many a last dime has been spent, and perhaps many a quiz flunked for the privilege of once more entering its enchanted doors. Sometimes, on special occasions, four reels were shown, and on such events, all lectures, meetings, and study were suspended.

This was the renaissance of the University. Now the transition period is past, and the awakening process seems well under way. There are soon to be three movies, and Chapel Hill will no longer be provincial, for we will have life at our very doors, and plenty of it. Instead of three films, there are now six and eight, or from two to three times as many.

A matinee as well as a night performance has been instituted. When the third movie is running in full blast, we may easily imagine ten, fifteen, and possibly twenty reel productions; and morning performances for those who are too restless to sit thru an entire lecture, as well as afternoon performances for those who sleep late, and night shows for those who have labs, or are otherwise prevented from attending the other two. In short, there is no telling just where this movement will end, and it might even be prophesied that the movies will in time predominate over the old fashioned and somewhat obsolete methods of putting students wise to the ways of life, and curriculum work will become merely incidental. But however that may be, we will all, doubtless, live happily ever after.

All cigarettes are pure, but—

purity alone doesn't make a cigarette SENSIBLE.

We don't know of a single one of our competitors who doesn't make his cigarettes of pure tobacco.

But a pure cigarette that didn't *taste* just right wouldn't do for *you*, would it?

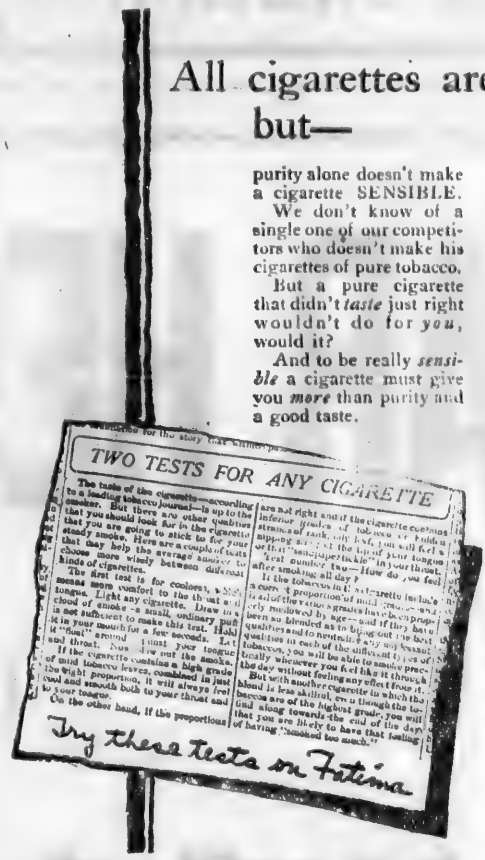
And to be really *sensible* a cigarette must give you *more* than purity and a good taste.

It must be *cool* and friendly to your throat and tongue. And it must leave you feeling fine after a long-smoking day.

Fatimas are not the only cigarettes that measure up to all these requirements. There are other sensible ones.

But Fatimas seem to have a big margin in their favor on their *good* taste. Otherwise they could not outsell all other cigarettes costing over 5c.

You can't tell whether they will just suit your *taste* until you try them.



At the same time, you can easily prove how *sensible* they are by these two tests.

Most men who try Fatimas say "*Good Bye!*" to all other cigarettes right away. That's why Fatimas sell so fast.

Why don't *you* try Fatimas today?

GLEE CLUB OFF FEB. 28

To Visit Raleigh, Goldsboro, and Other Points East

The Glee Club will leave on its spring trip February 28. Goldsboro will be the first stop, and the club expects a very successful visit there, since it has not included Goldsboro in its itinerary for several years. The Club will be gone a week, filling engagements in Kinston, New Bern, Washington, Greenville, ank Raleigh. Dr. Lay, President of St. Mary's School in Raleigh has promised to give his hearty co-operation in advertising the Club there, and to use his influence in seeing that the St. Mary's girls attend. Manager Monroe has assured him, however, in behalf of the club, that this last will be altogether unnecessary, since the group picture of the Club is to be sent on and posted in the post office at St. Mary's.

Several features in the program have been revised, and some additions will be made to the personnel. Charlie "Muskrat" Mangum, who has been too much engrossed with his studies in anatomy to take the trip for the last two years has hinted that he may be able to contribute the twang of his guitar to the general noise, and Leicester Chapman may consent to bring up the average appearance as well as the quality of the harmony.

The singers, the mandolinists, the orchestra, and the vaudeville stars which comprise the club have already commenced their spring rehearsing, and as a result, all attempts at afternoon studying have been temporarily discontinued by students who occupy dormitories in the vicinity of the Chapel.

WHAT'S TO HAPPEN AND WHEN

Sunday, February 20—Regular services in the churches. 12:30 Dr. Moss leads a discussion at the Beta Theta Pi House.

Monday, February 21—President Graham in Chapel. 7:30 Meeting of the North Carolina Club in Peabody. 8:30 Meeting in Y. M. C, A. for all those interested in boxing.

Wednesday, February 23 – President Graham in Chapel

Thursday, February 24—Chapel open. Guilford vs. Carolina in basketball at Guilford.

Friday, February 25—Musical in Chapel, Statesville vs. Carolina at Statesville.

Saturday, February 26—Carolina vs. Davidson at Statesville.

Professor L. A. Williams will deliver a lecture at Oaks, Orange county, on Tuesday, February 22.

DR. BROWN TRACK COACH

Former Coach to Supervise Team Again

Friday afternoon Dr. Kent J. Brown took charge of track athletics and will coach the team throughout the spring.

Dr. Brown has himself participated widely in track athletics and is an experienced coach as well. He is a letter man at Dickinson College in the high jump, broad jump, and pole vault. After leaving Dickinson he entered the University of Pennsylvania, where he again won a letter, with a record of six feet in the high jump. Since then he has had experience in coaching, having worked most recently with the Carolina team.

Practice is being held every afternoon on the old track surrounding the Smith Building. On March 1st Dr. Brown and his squad will have the distinction of opening up the track on Emerson Field, which, weather permitting, will be ready by that time. Dr. Brown has the hearty co-operation of the college in the building up of the track team.

NEW FIELD READY APRIL 3

Game With Va. Will Be First on New Field

Emerson Field will be opened on April 3 with the second Virginia game. The field is being rolled daily and if weather conditions are favorable it should be in good shape when the Virginians enter Chapel Hill.

The track around the field is being worked and will be ready for use by the first of March. As soon as the track is finished work on the infield will begin.

All the games which are played here before April 3 will be played on the class field, To this end the field is being scraped and rolled. It is planned to have four infields on the class field, one at each corner, in order that there may be ample space for infield work.

Practice this week has consisted of batting and hitting to the outfield. The first infield practice was held Friday afternoon and will be a part of the daily practice hereafter.

Prof. Cobb at Thomasville

Prof. Collier Cobb delivered an illustrated lecture at the Baptist Orphanage at Thomasville, Saturday February 12th on "Good Roads in Other Lands."

Alumni Review Out Feb. 23

The February Alumni Review will appear on the campus Wednesday, February 23rd.

DRAM. CLUB DIES IN PRIME

Young Organization Interred With Withered Laurels

Yet once more, O ye laurels, and once more
Ye myrtles brown, with ivy never sere
I come to pluck your berries harsh and crude
With forced fingers rude"

The King is dead! Long live the King!

Yes, the Dramatic Club for this year has shuffled off this mortal coil, dead ere its prime. Its good ship captained by Columbus Harrison will not, as was intended, sail "over the hills and far away," throughout the Western part of the State, for it was nipped in the bud. Pass around the smelling salts, neighbor, and brace up to hear this eulogy of the depaated.

The Dramatic Club of the year of our Lord 1915-16 was born within the classic shades of Gerrard Hall, in the sunny month of October, amid the thunderous eloquence of Freshmen's declamations of "Mighty Casey at the Bat," "Friends, Romans, Countrymen," (emphasis on the countrymen) and "Yield Not to Temptation;" amid the persuasiveness of Sophomores whinings of "You're a better man than I am, Gungedene," "Stone walls do not a prison make," and "A fool there was and he made his prayer;" and amid the more conservative imitations of the faculty and bits of previous class stunts by Juniors and Seniors.

Thus it was born. And it grew and flourished those bright, warm, autumnal days under the watchful care of five learned men. So its debut was made ere the golden colors had faded from the leaves; and before an audience of gooddancers, its youthful strength was tested. Right manfully and well did it acquit itself and before many changes of program had taken place at the Pickwick, it ventured to Raleigh and there, before an audience of fair women and brave men, it added fresh and green laurels to its handsome brow.

But alas, not studying goeth before a fall! Pride hardened the neck against this luckless one against the council of the elders and 'tis said that a chill wind, sent by Jove, blew across this youth and he drooped and withered and died. Thus the unlucky one sleeps with a hope of a resurrection to a better life next year.

Dr. W. L. R. Smith, on Sunday night, Feb. 20, will begin at the Baptist Church, a series of evening sermons on the Life, Work and Character of the Apostle Paul.

LONG'S 18 POINTS WIN FOR CAROLINA QUINT

Davidson Defeated by 20 to 14 in Snappy Game

By scoring 18 of Carolina's 20 points Meb Long gave the Carolina quint the victory over Davidson Wednesday night in Chapel Hill. The score was 20 to 14.

The game was snappy to the end after the first five minutes had passed. Carolina at the start amassed eight points to Davidson's zero. Then Davidson picked up and the half ended Carolina 10, Davidson 8.

In the beginning of the second half both teams seemed to be bent on protecting their goals, and as a result there was little scoring. Finally, however, led by Long Carolina broke away and added on 10 more points, while Davidson was making 6.

Wood and Hengeveldt starred for Davidson. The team work of the whole Davidson team was good but their players were weak on shooting goals.

Carolina	position	Davidson
	right forward	
Johnson, Capt.		King
	left forward	
Long.		Wood
	center	
Tandy		Hengeveldt
	right guard	
Davis		Younger
	left guard	
Tennant		Reese, Capt.

Summary

Substitutions — Carolina, Fitzsimmons for Tandy, Holding for Fitzsimmons. Davidson, Walker for Younger.

Goals—Carolina, Long 8, Tennant 1. Davidson, Wood 3, Hengeveldt 2, Reese 1, King 1.

Foul goals, Long 2.

FRESHMEN WIN CLASS CHAMPIONSHIP

Defeat Sophomores Friday in Interesting Game

The Freshmen rounded off the second series of the class basketball schedule last Friday by squelching their last rival—the sophs by the score of 41-14. The game appeared fairly even during the first half, but the second half was a walk over for the freshmen. Hodges, Shepherd and Jewett for the freshmen and Armstrong and Geantte for the sophomores played a star game.

Fresh.	Position	Sophs.
Hodges	L. F.	Geanette
Shepherd	R. F.	Armstrong
Jewett	C.	Lynch
Hutchins	L. G.	Quinn
Clarvoe	R. G.	Bryant

This gives the Freshmen the undisputed championship of the season.

The all star team will be picked this week by Coach Doak.

SCHEDULE IS COMPLETE

Carolina Will Play Twenty-One Baseball Games

With only three games pending the baseball schedule is now in a fairly complete state. The schedule is as follows:

March 17
Oak Ridge.....Chapel Hill
March 18
Elon College ..... Chapel Hill
March 24
W. Va. Wesleyan....Chapel Hill
March 25
Guilford.....Greensboro
March 28
Davidson .....Winston-Salem
March 29
Wake Forest.....Chapel Hill
April 1
Univ. Virginia ..... Greensboro
April 3
Univ. Virginia..... Chapel Hill
April 4
Richmond College.....Chapel Hill
April 5
William and Mary.. .Chapel Hill
April 10
Pending
April 13
Wofford College.....Chapel Hill
April 18
Wake Forest..... Wake Forest
April 21
Penn State.....Chapel Hill
April 25
Univ. Virginia....Charlottesville
April 26
Catholic Univ., Washington D. C.
April 27
Georgetown...Washington D. C.
April 28
Delaware State.....Newark
April 29
Navy .....Annapolis
May 2
Pending
May 4
Chattanooga .....Chapel Hill

Washington's Birthday Plans

So far The National Security League has secured two speakers for Washington's Birthday and has hopes of securing a third. Samuel Frothingham, of Massachusetts, a sergeant in the Plattsburg Regiment, has broken into a hunting trip to speak about the Military Training Camp. G. E. Lambert, a prominent citizen of Greensboro, has not yet announced the subject of his talk. Mr. Lambert is going to the Southern Training Camp at Fort Oglethorpe and his son will accompany him.

The exercises are to be held in Gerrard Hall and will begin promptly at half past eleven.

IF THERE was no difference between a good Havana and Pittsburg Stogie, it would be sinful to smoke ten cent cigars.
There's the same distinction in stationery.

Your Stationery means more to you than merely a writing surface. It is a sure guide or index to a person's character and habits. If you are careless in the selection of stationery the chances are that you are also neglectful of your personal appearance. Give more judgment in the quality of paper which portrays your thoughts and feelings. You can find here dainty stylish attractive stationery that will cost you very little more than that "any kind" you have been buying. A large part of our time is spent in the study of Correct Stationery for Gentlemen.

Try a pound of our 35 and 25 cents pound paper.

TO WHOM DO THE LECTURERS SPEAK?

This spring the University will hear an unusual number of distinguished men, coming under various lectureships, speak in Gerrard Hall. They are, for the most part, men widely known throughout the country. It is not only for the students and faculty of the University that they will lecture. Their audiences should be state-wide. What these men have to say will be of concern not only to the immediate community of Chapel Hill, their remarks will apply equally as well to people of other neighborhoods. It is therefore the University's hope that many people of the state will come to Chapel Hill simultaneously with these speakers and remain until they leave. Their presence in Chapel Hill is of significance to the state as well as the University. It is sincerely hoped that their audiences will not be composed solely of those immediately connected with the college.

THOSE DARK CHAMBERS

Upstairs in the gymnasium there are two rooms opening on the balcony whose dark doors never hang open. For all the secrecy maintained about them they might be veritable Pandora's boxes of malicious spirits; or they might enclose the ghosts of past disastrous football seasons.

The fact is, however, they are the last resting places of sundry disintegrating bats and boots, football trousers and trash, more or less interred in the dust.

Soon, however, keys will be thrust into these dark doors and they will swing permanently open, to admit the exit of their present contents and the entrance of fresh air and the public. Where there has always been quiet and rest, there will now be blood-stirring activity. These rooms—or at least one of them—are to be equipped with mats and dedicated to wrestling and boxing.

The result hoped for is the firm establishment of these sports in the University. As has been urged repeatedly, what the University needs is more intra-mural sports, more kinds of sports and more of the sort we already have. In itself, the wide participation of the students in intra-mural games is a desideratum, aside from the fact that it will reflect itself markedly in our intercollegiate athletics. We cannot expect to develop successful teams until we have developed an interested and sportsmanlike student body. This is a condition toward which we are looking forward. It is for this reason that an effort is being made to institute boxing and wrestling. Men who have heretofore been boxing in their rooms will have from now on a regular place in the gymnasium to exercise. The Graduate Manager states, furthermore, that if interest is shown in these two sports this spring, a trainer can in all probability be secured to conduct them in the fall.

SHAKESPEARE'S BIRTHDAY

The Approaching Event Will Be Celebrated Here

Because of the approaching anniversary of the Shakespearean Tercentenary a great interest will be shown this spring in his plays. It has recently been stated that 11 of his plays will be running on the professional stage and that about 15 are in course of preparation by different amateur clubs.

Mr. Percy Mackay, one of the leading dramatists of the present day, who has of recent years devoted himself to the production of pageants and the out-of-door drama, has prepared an Elizabethan pageant, the production of which will probably be the most elaborate commemorative performance in the country. Universities and colleges would naturally be supposed to prepare to celebrate the Poet's tercentenary, and already in many institutions plans are afoot for productions to celebrate the occasion.

Some of the more ambitious are attempting pageants to represent the glory of the Elizabethan age or some phases of the life of the period; others intend to present in a sort of dramatic production some custom of the period; and of course there will be many amateur productions of the plays of Shakespeare.

Although no definite program has as yet been announced it is very probable that the celebration on the University campus this spring will consist in the presentation of a number of scenes from several of Shakespeare's best plays. The production will be given under the auspices of Omega Delta and it is the aim of the organization by utilizing the best dramatic talent of the campus to give a program that will in some measure give an idea of the art of the dramatist whose works after a lapse of three hundred years still find interested audiences.

U. S. NEEDS MORE MORAL COURAGE NOW

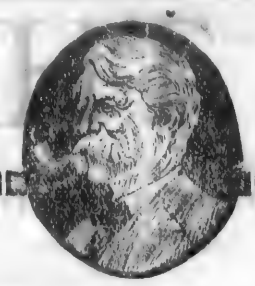
So Says Capt. Johnston in Preparedness Speech Here

Captain Gordon Johnston, formerly a Carolina football coach, but now an officer of the United States Army, spoke before a large audience in Gerrard Hall Tuesday night on the proposed military training camp in Georgia.

"The strongest asset of any nation," he declared, "is that thing that causes other nations to believe that its citizenship is patriotic. What we need is more moral courage. We must learn to get together. The stories of all our wars show that we have never been a willing, fighting unit as the citizens of any democracy should be in time of danger. The fault is all in our training. Do you know, I never heard that I owed anything to my country until after I had graduated from Princeton University."

Captain Johnston then reviewed the history of the American Wars, and took up separately the part that each nation involved is playing in the present war. When this war is over, he believes that the nations engaged in it will have all the preparedness and that the United States will have all the gold. "They think," said he, "that we would rather buy peace than fight. But history plainly shows that no nation has ever bought permanent peace."

The plan proposed by the speaker is to have the training begin in the high school when the boy is fourteen years of age and extend through a period of four years. Then when he has left school, he must keep up a limited amount of training and be subject to service until he is twenty-five years old.



DR. WHITEHEAD'S DEATH

Faculty Express Their Sorrow and Their Admiration for the Deceased

Following is a copy of the resolutions drawn up by the faculty on learning of Dr. Whitehead's death:

"The members of the faculty of the University of North Carolina learn, with deep sorrow, of the death of Richard Henry Whitehead, Dean of its Medical School, 1890-1905, and for the past ten years, Dean of the Medical School of the University of Virginia, and desire to place on record, in their Journal, their appreciation of him as a man, a scholar, a teacher, and a dear friend.

"As a man, he was gentle, upright, conscientious, and lovable; of broad views and the highest ideals. As a scholar, his rare intellectual gifts, extensive reading and unwearying industry, won for him distinction in the field of medical science, and he attained remarkable success in building up and directing the two medical schools of which he was

DRESSING ROOM GOSSIP

History of the Life and Doings of Gen. George Washington. (Amputated for the most part from Bill Nye's History of the United States.)

In these times times of hero worship we have come to look upon George Washington more in the light of a Venus or Apollo, than a Virginian.

Washington's life work lay in wrighting, fighting, and visiting. From all later accounts it appears that he must not only have visited, but made his headquarters at the homes of fully five-fourths of the families on the road from Mount Vernon to Boston. When war broke out, he hastened to Boston without feed or beverage, and there found himself in command of 1,400 (probably incorrect) souls, dressed in gaudy buttons and cheese cloth hats. He immediately took charge and began tent inspection. He found that the regiment did not know enough about fighting to carry water to an elephant in a circus. In a short while he whipped and cussed the National Guard into shape, and started out to find Burgoyne. He nearly got hold of his adversary, but that worthy had just received a confidential wireless from his mother-in-law, who was on a house party in Mobile, and he repaired thither.

After crossing the Delaware he decided to go into camp at Valley Forge; since his men were full of red bugs and had not had any washing done in three weeks. Here many of the men found that they had "sick brothers" at home and had to leave the army. Washington finally overcame his numerous adversaries at Yorktown, which immediately capitulated, and has not recovered since.

During this time he wrote many novels. Among them posterity finds "Indian Massacre Etiquette," "How to Grow Weeds on a Tennis Court," "The Pacification of Babies on a Cold Dec. Night," and his "Farewell Ode," though some attribute this last mentioned work to Columbus.

Final Estimate

As a man he was absolutely fearless, and often made the remark that a deuce or five spot looked the same to him as a King or Queen. George was ever ready. If you needed one first in war, all you had to do was to drop him a postal. When you needed an adult to play quarter-back in times of peace, you could call on him at any hour of the night. If you wanted a gentleman first in the hearts of his countrymen, you would simply have to telegraph G. Washington, Esq.

U. N. C. MEN VOLUNTEER

Six University students attended the meeting of the State Student Volunteer Band at Greensboro February 11, 12, and 13. This organization consists of college students who have resolved to dedicate their lives to service in foreign fields as missionaries.

These men are: John Merrill Parker, '16, of Bradentown, Fla., President of the University Y. M. C. A., and star full back on the Varsity football team; D. E. Eagle, '17, of Statesville; Robert Wunsch, '18, of Monroe, La.; Theodore Rondthaler, '19, Winston-Salem; Nat Walker, '19, Winstom-Salem; and Luther Hodges, '19, of Spray.

Why Fatimas are a Sensible Cigarette

What makes a cigarette sensible?

It must be delicious to your taste, of course. But the fact that Fatimas please the taste of most men—they outsell any other cigarette costing over 5c—doesn't, by itself, make Fatimas sensible.

Fatimas are a sensible cigarette because they also give you *cigarette comfort*.

They are *cool*. That means comfort to the throat and tongue. And better yet, they never make you "feel mean." The mild Turkish blend of all pure tobaccos in Fatimas takes care of that.

Stick to Fatimas and you'll discover at the end of every long-smoking day just what *cigarette comfort* means.

And you'll realize that you've found the one cigarette you'll want to stand by—*a sensible cigarette*.

Why not try Fatimas—today.

Liggett & Myers Tobacco Co.

Fatima won the only cigarette award at the GRAND PRIZE, the highest award given to any cigarette at the Panama-Pacific International Exposition.

CHINA'S MEDICAL IGNORANCE APPALLING

Says Dr. J. A. Snell, Missionary To China

"Their knowledge is ignorance," was the declaration of Dr. J. A. Snell, a medical missionary from Soochow China, in speaking of the Chinese doctors before the regular weekly Y. M. C. A. meeting Tuesday night.

In his talk Dr. Snell explained the work of both the foreign and native physicians; though as he said, the natives hardly deserve the title. They move in the best society, are respected and called gentlemen by their fellow countrymen. They know the names of medicine, but know nothing about anatomy, phisology or the properties of medicine. Dr. Snell continued by saying; "The general condition of the country makes disease very prevalent in China. Tuberculosis and malaria have their headquarters there. These, along with every kind of contagious disease that we have, including leprosy, which thrives there, make the need of American physicians very great

"Through the aid of the Chinese we are doing a great work with very limited faculties. We have a hospital at Soochow equipped with a hundred beds, yet we sometimes have as many as a hundred and thirty patients. We can fill a hospital as large as can be built and properly manned."

S. AMERICAN CLUB PROGRAM

Papers Read by Miller and Kendall Wednesday on S. American Institutes

With "Resources and Industries" as a general subject at the meeting of the Latin-American Club in the Y. M. C. A. Wednesday night, C. C. Miller and E. A. Kendall of the Junior class read papers on "Agriculture and Stock Raising in South America." They gave statistics showing recent increases in these phases of South American industry and also compared them with other countries. By means of such papers it is the purpose of the club to make its members more familiar with and more interested in our sister country.

Come to the Junior Banquet at Swain Hall Friday night.

9 STIFF GAMES FOR 1916 CAROLINA ELEVEN

To Meet Strong Foes in Princeton, Harvard and Virginia

The 1916 football schedule has recently been announced There is only one unfilled date, November 18.

For the first time Carolina will meet Princeton and Harvard. She will play Harvard at Cambridge October 14; but it has not yet been definitely settled whether the Princeton game scheduled for October 7, will take place at Princeton or in Chapel Hill.

The schedule begins September 30 with the Wake Forest game, ends November 30, when Carolina meets Virginia in Richmond. Carolina plays on every Saturday between these two dates, excepting the Saturday before Thanksgiving. The schedule comprises nine games in all. It is as follows:

September 30
Wake Forest at Chapel Hill
October 7
Princeton at Princeton or C. H.
October 14
Harvard at Cambridge
October 21
Ga. Tech. at Atlanta
October 28
V. M. I. at Chapel Hill
November 4
V. P. I. at Roanoke
November 11
Davidson at Winston-Salem
November 18
.....at Chapel Hill
November 30.
Virginia at Richmond

CAMPBELL HERE MARCH 1

Spring Football Practice Will Begin at Once

This year Carolina will begin football practice about March 1, Mr. Campbell, who is to pilot Carolina for the next three years, has written Graduate Manager Woollen that he will be on the Hill about the first of March and that the spring football practice will begin immediately.

The new coach is anxious to get a line on all of the good material here, and to meet the men with whom he is to be associated for the next three years. He has already written for the various student publications.

Coach Campbell will probably lay special emphasis on punting and dropkicking. After having worked under Percy Haughton, who is a master in the essentials of football, he is probably thoroughly convinced that the surest way for a team to hammer out victories against strong opponents is to be able to kick.

For her football machine next year Carolina will have to call on those who are already in college, for according to the one year rule no student will be allowed to participate in any kind of varsity game, who has not been registered here as a student for at least one year.

McNAIR LECTURES NEXT WEEK BY WOODBRIDGE

Dean of Grad. School of Columbia to Speak on "Philosophy of History"

"The Purpose of History" will be the general subject of the McNair Lectures for 1916 to be given March 3, 4 and 5 by Professor F. J. E Woodbridge of Columbia University.

On Friday, March 3, the subject of Professor Woodbridge's lecture will be "From History to Philosophy." Saturday he will speak on the "Pluralism of History," and Sunday on "Historical Continuity." The regular hour for these lectures will be 8:00 p. m., and the place Gerrard Hall.

Dr. Woodbridge is the Professor of History in Columbia University and is therefore thoroughly familiar with his subject. He is a delightful speaker and will no doubt command the interested attention of large audiences here.

CAROLINA OUTSHOOTS QUAKER QUINT 51-21

Defeats Guilford With Aid of Johnson's and Long's Good Shooting

Carolina, though crippled by the absence of some of her best men, defeated Guilford College Thursday night at Greensboro by the score of 51 to 21. The Carolina team showed superior team work and fast playing at all stages of the game. The goal shooting of Meb Long for Carolina and the work of Walser for Guilford featured the game, Long making 29 of Carolina's 51 points. Johnson also played good ball, shooting six goals. Walser made 10 of Guilford's 21.

Lineup:

Guilford	Position	Carolina
	R F	
Smith		Shepard
	L F	
Seamans		Long
	C	
Mendenhall		Johnson
	R G	
Walser		Tennent
	L G	
Worth		Massey

Substitutions: for Carolina, Cowan for Shepard, Davis for Tennent; Guilford, F. Seamans for Smith. Referee, Doak.

Soph Banquet Saturday

Never since Eve fed Adam the apple has there been such feeding as will take place at Swain Hall next Saturday night when the Sophomore class holds its first banquet. The feeding will be interspersed with interesting speeches by members of the faculty and peppy responses from '18ers. An element of comedy will be added to the occasion by the election of members of the Booloo Club and the conference upon certain of their titles. Every Sophomore must be there! Tickets, $1.50, from DeRossett, Tennent, Cooper, Armstrong and Stephenson.

CAROLINA 31; DAVIDSON 21

Shepard Features With 6 Field Goals

By a score of 31 to 21 Carolina defeated Davidson in basketball at Statesville Friday night.

Shepard, Carolina's right forward, was the star of the game, shooting six field goals. Long also played a good game, shooting four field goals and five out of six fouls. Reese for Davidson shot nine out of ten fouls. King was responsible for most of Davidson's goals.

A good many out of town people were present, and probably the largest crowd ever at a basketball game in Statesville were in attendance.

After the game a dance was given in honor of the two teams.

Lineup:

Carolina	Position	Davidson
	R F	
Shepard		Woods
	L F	
Long		King
	C	
Johnson		Hengeveldt
	R G	
Tennent		Reese
	L G	
Massey		Walker

FACULTY READING FRIDAY

Professor McKie Will Read "Second Shepherd's Play."

Professor McKie will read the Second Shepherd's Play Tuesday night, February 29, at 8 o'clock, in the Peabody Building. Prof. McKie will give the second of the series of Faculty Readings arranged by the Student Activities Committee. Prof. McKie has chosen the Second Shepherd's Play, a Mediaeval mystery. The play abounds in rare humor, both of situation and character. Though of great age its fundamental truth to human nature has endowed it with eternal youth.

Dr. Royster Here For Summer School

Dr. E. A. Greenlaw head of the English Department has recently sent letters to the high-school teachers of English in the State urging a further interest in the work being done in the University in the field of advanced study in English. Besides suggesting a more hearty co-operation it carries an announcement of the work to be done at the summer school beginning June 13 It also adds that Prof. James F. Royster, formally of this University but now of the University of Texas, will be here to assist the regular English staff consisting of Professors Greenlaw and Hanford.

Alumni Review Out

The February issue of the Alumni Review comes from the press today with its customary abundance of alumni material. Besides interesting editorials on "University Influence," "The Alumni Faculty Fund," and "The University and Industry," it contains an article on the recent gift of the late George W. Kidder's collection of southern newspaper files of the 60's to the Library.

11 ERESHMEN AVERAGE A "2" OR LESS ON EXAMS

Eaton Leads With "1" Flat. Changes Made in Entrance Requirements

According to the tabulation of Dean Marvin H. Stacy of the high-scholarship Freshmen for the fall term 1915-16 eleven men have made an average grade of "2" or over. Of these J. Clifford Eaton of Winston leads with a "1" flat. The others follow:

Eaton, W. C., Winston-Salem H. S. 1.6.

Johnson, E., Raleigh H. S. 1.75.

Rondthaler, T. E., Winston-Salem H. S. 1.8.

Lay, G. B., A. & M. College 1.8.

Boling, R. W., Apex H. S. 2.0.

Lindsey, E. S., Bella Vista H. S. 2.0.

Clarvoe, F. A., Episcopal H. S. 2.0.

Price, W. E., Madison H. S. 2.0.

Shepard, F. E., Wilmington H. S. 2.0.

Norris, S. R , Jacksonville, Fla. 2.0.

The faculty has recently made the following changes as to courses:

I. Solid Geometry is not a requirement for entrance for candidates for the A. B. Degree but is a requirement for entrance for candidates for the B. S. Degree.

II. All candidates for the A. B. degree are required to offer for entrance two foreign languages, the content of the requirements to remain the same as at present: if any other language is begun after entrance, the beginner's course including all A courses, shall count for credit on condition that it be followed by a second year course in the same language.

WHAT'S TO HAPPEN AND WHEN

Sunday, February 27—11:00 Regular services in the churches. 12:30 Discussion at the Beta Theta Pi house lead by Dr. Moss.

Monday, February 28—President Graham in chapel.

Tuesday, February 29—Professor Noble in chapel. 7:00 Discusssion in Y. M. C. A. led by Tom Boushall.

Wednesday, March 1—Professor Noble in chapel. 6:48 South American Club in mission room Y. M. C. A. Carolina vs. Guilford in basketball in the gymnasium.

Thursday, March 2—Professor Noble in chapel.

Friday, March 3—Musical in chapel. 8:00 First McNair Lecture in Gerrard Hall by J. E. Woodbridge, dean of Columbia.

Saturday, March 4—8:00 second McNair Lecture in Gerrard Hall. 9:00 Sophomore Banquet in Swain Hall.

URGE PREPAREDNESS

Washington's Birthday Celebrated on Hill

STRONG DEFENCE SPEECHES

Booker, Frothingham, Latham, and Loughlin Address Students

Exercises commemorating Washington's birthday were held in Gerrard Hall Tuesday morning under the auspices of the Chapel Hill branch of the National Security League. The speakers for the day were Dr. J. M. Booker, permanent chairman of the Chapel Hill branch; Samuel Frothingham, of Boston, Mass; J. E. Latham, of Greensboro; and Charles Loughlin, of Wilmington. Major Cain, honorary chairman, presided over the meeting.

Dr. J. M. Booker, speaking on "The Father of Preparedness," showed how Washington advocated preparedness and how through the broadness of his views, he seemed almost a contemporary. He read excerpts from Washington's speeches to prove the assertion that "the father of his country" thought "To be pre-

Continued on third page.

BOXING CLUB ORGANIZED

20 Members to Start Training Monday in Gym

A club for the promotion of boxing was organized Monday night with 20 charter members. The officers elected were: R. F. Crouse, President; H. D. Sharp, Secretary; J. A. Capps and F. Angel, executive committee. The price of initiation, for the present, is twenty-five cents, and membership is open to all students who may wish to join.

There is only one set of gloves in the organization at present, but others will be added soon. The club will appreciate it if those who have gloves will bring them out to the "Gym" next Monday afternoon at two o'clock. The east room on the second floor of the gymnasium will be used.

This is the fifth time in as many years that this room has been opened for the purpose of trying to get the boxing game started here, but at no time before has there been an organization behind the movement.

It is hoped by the officers that the fellows will stick together and fight the season through; if they will, it may be possible to get a trainer by another year, and at the same time make boxing a regular Carolina sport.

The room will be open from 2, to 5 o'clock each afternoon. Only members of the club will be admitted to the room while classes are being held on the main floor A regular schedule for the members will be posted soon.

THOU SHALT NOT KILL

The rights of every living thing in Chapel Hill are respected except those of the grass. We show entire thoughtlessness in regard to this species of life, whose very tenderness should awaken in us chivalrous thoughts of protection. Instead, we trample it under foot, like the young lion and the adder, and do not even respect its last resting place. Every April new tendrils spring up to cover the unwarranted paths which we have made across the campus. But these mementos of our carelessness are so dear to our hearts that we assiduously retrace them. Placards, dictatorial and appealing, have been posted where they could not have failed to be remarked by the passerby; but he has followed the line of least resistance.

Verdure is particularly lacking in certain well defined lines around Person Hall and leading to Swain Hall and the Peabody Building. These paths, untrodden for a few months, would soon cover themselves with green, much to the improvement of the Campus.

Sons of Ireland, ye who pretend to love the green, use the sand clay paths and give the grass a chance.

IN REGARD TO DEBATING

Is there anything wrong with our system of choosing debaters? The Tar Heel asks for information. Last spring and the spring before, when Carolina lost debates, comment was frequently heard on the campus that, "our system of choosing debaters is at fault"—and the remark was made by some men who were in a position to know.

If there is any fault in the system, now is the time for it to be disclosed. Candidates for our intercollegiate debates will soon try out. If anyone feels that our success might be more nearly assured by a change in our method of choosing debaters, The Tar Heel offers space for the elaboration of a new scheme.

NEW GAMES

We are glad to see that Harvard and Princeton are on Carolina's football schedule for next fall. It means much to Carolina athletics that these games are on the schedule. To contest strong teams is to strengthen our own; and, otherwise, it is pleasing to be associated with institutions of such high standing. We trust that these relations will not be for one year only, but once having established them, we will be able to continue them from year to year.

THE OLD ORDER

For the first time in several scholastic years the old Pickwick was quiet Thursday night. There was no pushing at the ticket window, no struggling at the doors, no throwing of peanuts, no shouted comment; no lights illumined the front of the building nor the screen inside; the stove was cold, and the fans still.

We have the strong hope that with the closing of the old Pickwick will come the subsiding of the old order. To be consistent, we aught to institute new behavior in the new theatres. The old buildings with appointments so poor that they might almost be considered conducive to carelessness on the part of the audience, has given away to two unusually attractive theatres, with attractive and expensive fixtures.

We do not advocate the prevalence of an utter hush in the theatres. No one expects an audience of boys to be altogether unresponsive to occurrences which excite risibility, but we ought, by all means, to restrain our tendencies toward rowdyism.

SHOULD THE UNIVERSITY OF NORTH CAROLINA HAVE A DEPARTMENT OF MUSIC?

The following letter, originally written by its author as a freshman theme, has been received by the Tar Hell.

To the Editor of The Tar Heel

Sir: At present the University of North Carolina finds itself in the somewhat regrettable condition of not having a department of music. In the one hundred and twenty-two years of its existence it has never had such a department, and has given only meager support, financially or otherwise, to any of its musical organizations. These are self-supporting,—each member furnishing his own instrument, and paying a fee which is used for the purchase of music and other accessories. Their leaders must necessarily be chosen from their own number. It may be truly said that the Glee Club is an advertisement for the University, through its concerts in the various cities, but it is hardly worthy of the University at present. If its members could obtain good instruction, there would be no need of vaudeville to complete the program, as was necessary in the fall term. Only those that have had previous training can be members of these organizations, and consequently the organizations are dependent for existence on the new members. But if there were a musical department, others could be trained, while those who have been interrupted in their musical studies by coming to the University could continue to pursue them.

Music is as important for training the mind as any other studies, for, among other things, musical training is one of the best methods of obtaining accuracy in one's habits. The daily diligent practice soon develops one's mind and muscles to act coordinately. Nothing short of accuracy in music is accepted by any audience at a concert. No one would even think of trying to play a piece on the piano or on any instrument, before an audience, if he continually struck the wrong keys and made mistakes. Music is also a good form of voice culture for speakers. It may be noticed that a good singer can usually speak well, for in singing, the vocal cords and resonance chambers of the voice are well developed. If musical education were at one's disposal, it would give opportunity, as part of a liberal education, to study one of the fine arts, for music is unquestionably one of the fine arts. Alexander Pope, in his "Ode to Saint Cecilia," has said:

"Music the fiercest grief can charm,
And fate's severest rage disarm;
Music can soften pain to ease,
And make despair and madness please;
Our joys below it can improve,
And antedate the bliss above."

Suppose that all the music of the world should suddenly cease; that all birds' singing, singing of all kinds, and all orchestras and bands should stop indefinitely. What an effect it would have on the world! If, then, music has such influence on life, why should we not develop its latent possibilities?

The expense of a music department would certainly not exceed the benefits that it would yield. The University would not need to bear the expense of paying instructors to keep them, out of the present resources, for the instructors could give private lessons, and would have little difficulty in securing pupils. The standard of music would be raised to such a degree that concerts could be given, and the proceeds used to maintain the department. Students would no longer need to go to Durham or other cities to hear good music, but would spend that money at the University concerts and aid the musical department to considerable extent.

When these facts are viewed with an unbiased mind, one sees the great possibility of making this campus more profitable and enjoyable. Whereas chapel singing is at present little more than a matter of form, it could be made one of the most enjoyable parts of the day's program. The musical tastes of every one would be raised, and ragtime would not dominate the minds of the students. Classical music and opera would be more appreciated by each student. All these things, I believe, could be accomplished by the establishment of a department of music in this University.

ALEX GALLANT DIES OF APPENDICITIS

Sophomore Class and Faculty Send Representatives To Funeral

Last Monday morning at 6 o'clock Alex Gallant died at the Watts Hospital in Durham from a case of appendicitis He had been operated on a week before and was thought to be improving until late Saturday afternoon However, he then took a turn for the worse. His parents and two brothers came from Charlotte. When President Graham announced the news in Chapel Monday morning it threw a damper over the entire student body. The Sophomore class, of which Gallant was a member, immediately held a meeting, and decided to send a representative to the funeral. The faculty also sent a representative.

Gallant was popular with all who knew him. Not only was he a hard worker and one who kept up with his classes well, but he also took an active interest in campus affairs. He was always bright and cheerful, and greeted everyone with a smile. He came to the University last year from the Charlotte High School where he won the scholarship. His great popularity here and at his home was evidenced by the large crowd and the numerous floral designs at the funeral.

The following resolutions were drawn up by three representatives from the sophomore class:

Whereas, it has pleased our Heavenly Father in His infinite wisdom to remove from this earth Alexander Gary Gallant; and

Whereas, the act of the Almighty deprives his family of a beloved son and brother; therefore, be it

Resolved, That we, the students in the class of 1918 of the University of North Carolina, extend our sincere and heartfelt sympathy to his entire family in this sad hour of bereavement; and be it further

Resolved, That a copy of these resolutions be sent to the sorrowing family and also that these resolutions be published in The Tar Heel.

Signed
Thomas James Craig
Charles Lee Snider
John Skally Terry

HIGH SCHOOL QUINTS BATTLE

Championship Contest Staged on the Hill March 10

The first eliminating contests in the State High School basketball championship series were played Friday in different parts of the State. In the East there were four games played, between Durham and Cary, Henley and Enfield, Dover and Kinston, and Wilmington and Stedman. The following teams played in the West: Winston-Salem and North Wilkesboro, Belmont and Cherryville, Hickory and Asheville, and Jamestown and Lexington. The winners in these contests will meet next Tuesday. And the final elimination games will be played Friday, March 3. The surviving team in the East and the strongest team in the West will meet on the Hill Friday, March 10, and battle for the cup given by the University.

New Method of Choosing Debaters

The Tar Heel has received the following letter telling of a change that has been made in selecting the triangular debaters to represent Carolina.

To the Editor of The Tar Heel:

If I may I would like to set forth a change made by the Debating Council in the method of choosing the triangular debating team this spring. The plan adopted by the Council is this: In the first preliminary, four men are to be selected on each the affirmative and negative sides. The affirmative preliminary is to be held on Monday night March 20th, the negative on the following night. On Wednesday night March 22nd the eight men are to hold a regular debate with rejoinders lasting not over eight minutes. From this debate the two on each side making the best speeches and rejoinders are to be selected as the teams.

The Council has realized the long felt need for a change in the system and feel that the one adopted will to a great extent meet the existing demands.

Respectfully,
Frank Hackler,
President.

GRADUATE SCHOOL BULLETIN

English Department to Get Out Catalogue

The Graduate School of the University has just issued a bulletin which sets forth the advantages to be gained from graduate study and the special facilities which the University of North Carolina has for carrying on this work. It is one of three southern universities placed in the very first rank by the United States Bureau of Education.

The English Department of the University has just brought out a special catalogue of graduate courses offered in English.—News & Observer.

Johns Hopkins Ready to Debate

Arrangements for the disposition of the Hopkins teams in the annual triangular debate between this University of North Carolina and Virginia have now been definitely fixed. Tingley and Coffin will meet North Carolina at Virginia and will uphold the affirmative side of the question. Blalock and Friedenwald, defending the negative, will go to North Carolina to meet Virginia. Oppenheimer is the alternate and Fader the adviser on the first named of these teams, with Gichner alternate and Steinbach advisor on the second.

Both teams are already hard at work rounding up the material and shaping the outlines of their debate. The custom of preliminary debates between the two teams, which has been largely responsible for the success of the Hopkins teams in the past, will again be followed.—Johns Hopkins News Letter.

Concluded from first page

pared for war is one of the most effective means of preserving peace." "In these words we find something more than a mere recommendation of a president," declared Dr. Booker. "In them we find the warnings of a prophet. Universal peace as quickly as we can get it, but in the meanwhile, safety first!"

"The Military Training Camp" was the subject presented by Mr. Frothingham. He was encamped at Plattsburg last summer and gave some very interesting incidents that go to make up college life, under United States Army officers, pleasant as well as beneficial. But it is not all play; a fellow's time is so well taken up that often he must forego his morning bath, shave or other necessity of city life, because the bugle is calling him to "fall in." From the time that setting-up exercises begin early in the morning before mess until noon, a fellow is kept busy every minute of the time, so that by time mid-day mess is sounded he is in good condition for doing away with some of Uncle Sam's well prepared food. A portion of the afternoon is spent in studying the war game.

Mr. Frothingham believes that the training camp is an excellent place to learn discipline and better still to develop American patriotism.

Mr. J. E. Latham spoke on "Our National Morale." "America," he declared, "is the greatest country for co-operation in business, but when it comes to co-operation in patriotism, we fail." He reviewed some of the bitter experiences of the United States in past wars, caused by a lack of preparedness, and stated that an offensive preparation was not what we needed or what we wanted, but that we should always be prepared to defend ourselves.

Mr. Latham deplored the lack of patriotism in America, caused in a degree, he says, by teachers failing to instill in the children a sense of the duty that they owe to their country. "An American flag should wave over every schoolhouse in the country, the singing of national anthems should be encouraged."

By showing the evils of unpreparedness, Chas Loughlin, of Wilmington, brought out very clearly the purpose for which the National Security League was established. According to Mr. Loughlin there are three aspects of preparedness—first, industrial. second, a popular preparedness through the rejuvenation of the national spirit; third, a political and governmental preparedness.

DRESSING ROOM GOSSIP

The great war has gone so far now that it is not content with the narrow confines of Europe. It is even butting into our sequestered University, in the shape of Security Leagues, National Policy Clubs, Defence and Preparedness Associations and other manifestations of the old spirit of 1860, which induced our student forefathers to disband the college and organize rough rider regiments. Moving pictures, illustrating the results of too much peace are being employed to help raise the dander of this our Universitat Carol Septent, and when all possible has been done to stimulate the college valor, proper steps will be taken to install military organization.

Let us proceed to enumerate the advantages and results which would ensue, should this important step be taken. First of all, everybody except law students, medical students, pharmacy students, and graduate students would be permitted to wear uniforms. And there is nothing like uniforms for captivating hearts. Fully twice as many students would want their pictures taken, and the University could secure a very tidy rake-off by appointing an official photographer. Besides, clothing bills would be materially reduced, since uniforms do not change in style as rapidly as do citizen's clothes. The University could likewise demand a commission on every uniform from the appointed tailor.

Another advantage would accrue in the form of a permanently organized military band. In the past it has seemed almost impossible to maintain such a band without the proper martial organization back of it. It is practically certain that with the introduction of brass buttons and shoulder straps, the necessity of a band would be realized, and its permanence assured.

With sentinels to tell us when to put out our lights, and buglers to arouse us in the morning, we would always be sure to get enough sleep, and yet the likelihood of sleeping through 8:30's would be materially reduced.

In short, the war teaches a great lesson, namely, look out for number I, and in pursuance of this theory it is only proper that the University should close its doors as such and reopen them as an annex to West Point.

$50 GIFT TO LEAGUE

To Defray Expenses of One Student At Oglethorpe Training Camp

A fifty-dollar check has been sent to the Permanent Chairman of the National Security League to defray the expenses of a Carolina student at the Fort Oglethorpe camp, July 5 to August 8.

The expenses have been generously reckoned as follows:

Camp fees	$22.50
Uniform	8.00
R. R. fare	14.50
Incidentals	5.00
Total	$50.00

The money will be awarded by the Executive Committee of the Chapel Hill branch of the League Further announcement in regard to the method of award will be given later.

BACCALAUREATE SERMON

Bishop McCoy of Alabama Will be the Speaker

Bishop James H. McCoy, of Birmingham, Alabama, will preach the Baccalaureate sermon during commencement.

A brief survey of his activities will show that his life has been a busy one. From 1889 to 1900 he was pastor of various churches in Alabama. In 1901 he became editor of the Alabama Christian Advocate. From 1902 to 1906 he was pastor of the Methodist Episcopal church of Birmingham. He served as president of Birmingham College from 1906 to 1910. On May 17, 1910 he was elected Bishop. The work of Bishop McCoy since that date has been very complex, for he has been actively interested in nearly every phase of religious and educational uplift in his state.

INTERPRETATION OF CARMEN

At President Graham's home Wednesday afternoon, Miss Virginia Heyser gave an interpretation of the Opera Carmen, as to the nature, origin, and theme.

The three leading motifs of the opera were illustrated with Victor Records, including most of the important airs of the opera

Records made by Farrar, Calve Amato, Gluck, and a duet by Farrar and Caruso were used. The character of Carmen was skillfully delineated by Miss Keyser, and the whole atmosphere of the play was made vivid. The entertainment was given under the auspices of the Community Club, and was well attended. Mrs. P. H. Winston presided and introduced Miss Keyser.

COACH CAMPBELL ARRIVES IN CHAPEL HILL

Over 20 Men Respond to Call Thursday for Spring Football Practice

Coach Thomas J. Campbell arrived in Chapel Hill Tuesday and immediately began to acquaint himself with conditions at the University and the men with whom he shall work next year. Wednesday was spent in meeting candidates for next year's squad, and also part of Thursday. Thursday afternoon about 20 men were out on the field to go through with a few exercises preliminary to more extensive spring training. Others will join the squad within the next few days.

Coach Campbell's idea in calling together certain prospective members of next year's squad was, as he expressed it, simply to get acquainted with them and especially with the various football expressions peculiar to the University, in order that coach and players may be able to understand each other when actual practice begins. Mr. Campbell is particularly eager to get in touch with University life and conditions. In fact, ever since accepting the three-year contract to coach the varsity football squad he has been trying to become acquainted with student sentiment in regard to athletics.

In explaining his desire to get a line on student sentiment Coach Campbell said: "I can't put out a winning team. No coach can. It's the student body that is ultimately responsible for the success or failure of a team. No coach can put out a winning team unless he has the cooperation and backing of the student body."

All day Wednesday and until noon Thursday a constant stream of aspirants for gridiron fame poured into Mr. Woollen's office in the Alumni Building, all anxious to meet the man who is to pilot Carolina's team for the next three years. And each one assured the coach of his cooperation in putting out a team next fall which will battle on equal terms with Harvard, Princeton, Georgia Tech. and Virginia.

Mr. Campbell declares that he has as yet formulated no plan for the spring practice. A large part of the time, however, is to be spent in drilling the team in the rudiments of football, such as handling the ball, falling on it, throwing and receiving forward passes, punting, and drop kicking. Coach Campbell will probably lay especial emphasis on punting and drop kicking. After having worked for several years under Percy Haughton, Mr. Campbell is probably thoroughly convinced that the surest way for a team to hammer out victories against strong opponents is to be able to kick.

Coach Campbell declares, further, that he hopes to get in active touch with the various high schools and preparatory schools of the State as soon as he can get

HONOR GRADES WON BY SOPHS AND JUNIORS

Linker and Baity Lead Their Classes

The following names of members of the Junior and Sophomore classes who have made honor grades on the fall term's work have been given out by Registrar T. J. Wilson. The names are arranged in order of excellence. This list shows that nine men in the Sophomore class have won this coveted distinction, and ten men in the Junior class. Seven of the Sophomores received their preparatory training in state high schools, and two in state private schools. Of the Juniors, nine out of ten come from the public high schools of the state. The complete list follows:

Sophomore Honor Grades—Fall Term

Grade 1 in all subjects: Joe Burton Linker, Salisbury High School.

Average Grade 2 or better:

1 Herman Earl Marsh, Marshville H. S.

2 John Minor Gwyn, Leaksville H. S.

3 Ray Armstrong, Belmont H. S.

Ernest Neiman, Charlotte and Chicago High Schools.

4 Frank Bell John, Laurinburg H. S.

Henry Van Peters Wilson, Jr., Chapel Hill H. S.

5 Charles Holmes Herty, Jr., The Asheville School

6 William Ernest Bird, Cullowhee Normal School.

Junior Honor Grades—Fall Term

Average grade 2 or better:

1 Herman Glenn Baity, Harmony H. S.

Earnest Loyd Mackie, Yadkinville H. S.

2 John Leroy Smith, Plymouth Graded School.

3 Clyde Caswell Miller, Christ School, Arden, N. C.

4 Oliver Rand, Smithfield H. S.

5 Alfred Milton Lindau, Greensboro H. S.

6 Adger Carter Forney, Greensboro H. S.

Julian Earle Harris, Henderson H. S.

7 John Grady Eldridge, Newton Grove H. S.

William Tannahill Polk, Warrenton H. S.

High School Debaters Chosen

At a preliminary contest held in Peabody Hall Wednesday night, the debators were chosen to represent Chapel Hill High School in the triangular debate this spring. The affirmative team, consisting of Thomas Wilson and William Lindsay, will debate Graham High School here. The negative team, consisting of Miss Mary Taylor and Cary Whitaker, will debate Burlington High School in Burlington.

Professor M. C. S. Noble addressed the teachers of Hoke county Friday, March 3.

SHAKESPEAREAN PAGEANT ON CAMPUS IN APRIL

College and Town Will Unite to Give Scenes from Shakespeare

Some time during the third week of April the University and the Chapel Hill community will unite to give a Shakespearean pageant. To get and to give a glimpse of life in the "merrie England" of the Renaissance and to celebrate the tercentenary of Shakespeare's death is the aim of the promoters of the celebration. It will take place somewhere on the campus in the afternoon. An illustrated lecture on Elizabethan lifewill be given, probably that night.

The pageant will consist of a series of five or six scenes taken from Shakespeare's plays. These scenes have been chosen as especially illustrative either of English life in Shakespeare's time or of Shakespeare's attitude his art.

The Omega Delta dramatic fraternity, the English Department, and the Community Club of Chapel Hill are especially interested in the organization and promotion of the celebration. But it will be essentially a communal affair. The participants in the pageant will be those who volunteer for places, both students and townspeople. There are at least 30 or 40 important rolcs, those of Hamlet, Falstaff, Bottom and Florizel, for instance, to be taken in the different scenes. The persons to fill these rolls will be chosen from the volunteers. There are also a good many minor roles to be filled. Dr. Greenlaw says that he hopes the number of persons participating in the pageant will rise into the hundreds.

The scenes will be divided into two groups, the first group coming under the general head of "Shakespeare and His England." It will include:

1. Rural Merrymaking, from The Tempest.
2. A Fairy Play, from Midsummer Night's Dream.
3. Tavern Scenes, from Henry IV.
4. Crowning of Henry V.

The second group comes under the title of "Shakespeare and his Art" and includes:

1. Burlesque Performance of Pyramus and Thisbe, from the Midsummer Night's Dream.
2. Hamlet's Advice to the Players.
3. The Final Scene in The Tempest.

There will be, besides the presentation of these scenes, some Elizabethan dances and some Shakespearean songs.

The promoters of the celebration have sent out the following call for volunteer actors:

"Students wishing to act in the scenes from Shakespeare's plays are urged to send their names together with the role or roles for which they wish to try to Dr. H. M. Dargan at once.

"The principal roles are as fol-

Continued on third page.

CAROLINA DEFEATS GUILFORD QUINT

Season Closes With 12 Games Won and Six Lost

Carolina finished the basketball season Thursday night when she won from Guilford by the score of 40 to 26. Captain Johnson and Massey starred for Carolina, Johnson leading with 18 points and Massey following with 14.

Meb Long and Yank Tandy were off the hill, but the second string men filled their positions in fine form. The visitors worked hard throughout the game but were outclassed by the Carolina quint in nearly every department of the contest.

The line-up was as follows:

Carolina	Position	Guilford
Massey	forward	Walser
Davis	guard	Mendenhall
Holding	center	Seaman
Tennant	guard	Smith
Johnson (capt)	forward	Worth

The summary: Carolina—field goals: Johnson 5, Massey 7, Holding 2 Davis. Fouls, Johnson 8; Guilford—field goals, Smith 4, Mendenhall 3, Walser 3, Seaman 3. Fouls, Smith 2. Referee, Coach Doak (Carolina).

Work of Season Reviewed

The season, as a whole, this year has been very successful. 18 games have been played; 12 of these were won and six lost. 2 were lost in this state. while 4 were lost on the trip through Virginia. The teams won from were: V. M. I., R. M. Academy, Statesville Y. M. C. A. (2), Elon College (2), Maryville, (Tenn.) College, Guilford college (2), Durham Y. M. C. A., Washington and Lee, Roanoke college, and V. P. I.

Two Carolina men were picked for the all-state team, Capt. Johnson and Meb Long. This is Long's last year in basketball and his absence from the team will be greatly felt. For two years Long was captain of the team, and for some time has been recognized as one of the best players in the state. This year he is said to have scored more points than any other player in the Southern Intercollegiate Athletic Association.

All the squad excepting Long will be back next year, and with these and the freshmen who have shown up well towards the last of the season Carolina should be able to put out a winning team.

The election for next year's captain will be held Saturday night. Those eligible for the position are as follows: Davis, Tennent, Tandy, and Capt. Johnson. Manager Homewood reports the financial condition for the season as good.

The Latin-American Club met Wednesday night at 7:15, at which time papers were presented by H. G. Goode on the "Rubber Resources and Exportation," and by R. W. Wunsch on the "Timber Resources and Products of Latin-America." An interesting discussion followed.

PROF. WOODBRIDGE DELIVERS FIRST McNAIR LECTURE

Takes as His Subject: From History to Philosophy

LECTURES AGAIN TONIGHT

The first of the McNair lectures for 1916 was delivered by Prof. Frederick J. E. Woodbridge, Dean of the Graduate School of Columbia University last night in Gerrard Hall, his subject being "From History to Philosophy." The general subject of the series is "The Purpose of History." This is not Professor Woodbridge's first visit to Chapel Hill, as he attended the inaugural exercises last spring as the official representative of Columbia University.

The speaker's masterly presentation of the subject held the interest of the fairly large audience from the start. "The serious study of history" he said "is characteristic of a mature type of mind. . . The study of history itself includes an opportunity for philosophic inquiry." Continuing Dr. Woodbridge declared:

"There is discoverable in history no purpose, if we mean by purpose some future event towards which the whole creation moves and which past and present events portend; but there is purpose in history if we mean that the past is utilized as material for the progressive realization, at least by man, of what we call spiritual ends. But there is not discoverable in history one single purpose but many of them. History is thus pluralistic and implies a plural philosophy.

"Progress is not aptly conceived as an evolution from the past into the future. Evolution is, rather, only a name for historical continuity, and this continuity itself is a fact to be investigated and not a theory which explains or affords a standard of value. The past is not the cause or beginning of the present, but the effect and result of history; so that every historical thing leaves, as it were, its past behind it as the record of its life in time.

"No historical fact can ever have its history fully written: and this, not because adequate data, a wise an unbiased mind, and a moderate supply of genius are lacking, but because it itself is the producer of new history the more it is historically understood. It grows, it changes, it expands the more adequately we apparently grasp it. We seem never to be at the end of its career and we must stop abruptly with its history still unfinished. Others may take up our task, but they will end as we have ended. The history of nothing is complete.

"It is because history is not only something 'narrated and written', but also something 'evolved and acted' that we are

THE SHAKESPEREAN CELEBRATION

One afternoon during the latter part of April Chapel Hill will step back 300 years, and all the campus will be "merrie England" of the time of "the good Queen Bess." The mountainous figure of old Falstaff and Hamlet with his "customary suit of sober black" and Prince Hal and Florizel and Prospero the magician and shepherds and rustics and fine Elizabethan lords and ladies in all their courtly magnificence with their many colored silks, bright swords, jeweled laces, and "silver shoon" will startle the brown buildings of the campus with such a sight as they have never seen before.

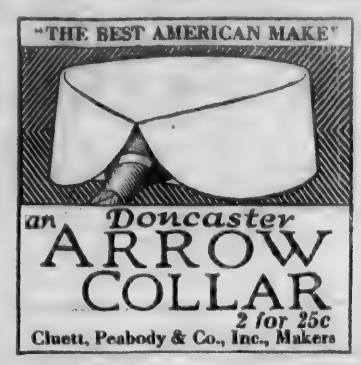
Where will these lords and ladies and princes and peasants come from? From ourselves, the student body and the folks in town. To volunteer is to become a participant. There are places for all who seek. If one can't act in the speaking roles of the pageant, he can, in proper costume, look Elizabethan anyway; and if he finds that he is unable even to look Elizabethan, he can help by getting into the spirit of the Shakesperean celebration and at least feeling Elizabethan. All who wish to take bart in the pageant should see Mr. H. M. Dargan.

The success of the celebration depends largely upon the number of persons who take an active interest in it. Should the number of participants in the pageant rise into hundreds, so much the better. Everyone who is interested in the movement should volunteer to take a part in the program, for though the celebration will be, no doubt, interesting to the spectators it will be still more pleasant and profitable to those who take part in it.

As it is an affair of the whole community, everybody should take a patriotic interest in its success. It is the duty of all those who have any histrionic ability at all to volunteer for the different roles. As no whole play, but only separate scenes will be presented no one man will have to learn a large number of lines. Aside from the idea of duty, to all those who enter into the pageant an excellent opportunity will be given to see in a clearer light Shakespeare's plays, an opportunity to feel for a short time the joyous, extravagant, poetic spirit of the Renaissance.

Dr. Greenlaw has made the statement that all persons who have pictures of the life of Elizabeth's time will be of aid in the celebration if they will turn their pictures over to him so that they may be used in the illustrated lecture on Elizabethan life.

THE McNAIR LECTURES



It is a truism that college men fail to make the full use of their opportunities. Some college activity makes demands upon the time or perchance the lure of the moving picture is felt. Lecturers come and go, we take them as a matter of course. Seldom do we estimate the value of the messages they bring. Few Carolina men can afford to miss hearing the noted lecturers who come to us this spring.

Last night Dean Frederick J. E. Woodbridge of Columbia University delivered the first of the series of McNair Lectures for 1916. Dean Woodbridge is the ninth lecturer to come to the University under this foundation. His scolarly address should mean much to each man who heard it. The lectures tonight and tomorrow night will be equally interesting and instructive. Professor Dewey's lectures last year, since their publication in book form, have been extensively read and commented upon, yet many of us absented ourselves last year on a pretense of work to do. Can we afford to be so indifferent?

TRACK ATHLETICS

The splendid schedule arranged for the track team this spring should encourage many men to come out as candidates. Many of last year's men are enrolled for the various events. But Dr. Brown reports that there is a great dearth of new material. Why should this be? Why should there not be the same enthusiasm for this important branch of sports as there is for football, basketball, or baseball? Surely field sports offer opportunity for trials of strength and skill. The very variety should cause such sports to make a universal appeal. The many contests certainly give physical training of the highest kind.

The completion of the new athletic field, with a track that will be one of the best in the country, will give new impetus to this important form of athletics. Does the University now desire to give it the importance it deserves? Then work must be begun immediately in building up a track team not only for this year, but for future years. Now is the time for new men to begin training, and come out regularly, for regular work is most necessary. However efficient a coach may be he must have an abundance of material from which to choose a team worthy to represent the University. Dr. Brown states that there is especially a dearth of men for the hurdles and various field events. Daily practice is now being held on the old track from four to six each afternoon.

THE COLLEGE AND SCHOLARSHIP

Whatever else the college may excel in, it still remains true that scholarship is the one supreme aim. The Tar Heel is publishing in the last issue and this the names of those who have made honor grades in three lower classes. Two of these men have made all ones; the 28 others have averaged a two or better. These men should be made to feel that they reflect as much or more honor upon the University than the man who makes the football or baseball team. It is interesting to note that most of these men also excel in some extra-curriculum activity, thus proving anew that high scholarship is not the enemy of leadership in college affairs.

SECOND SHEPHERD'S PLAY

Prof. McKie Gives Interesting Reading Tuesday Night

Professor McKie read the Second Shepherd's Play last Tuesday night. This is the second of the series of Faculty Readings arranged by the Students' Activities Committee. The Second Shepherd's Play is a medieval mystery. It was written sometime in the 13th century. The play abounds in rare humor both of situation and character. The three shepherds develop a very comical situation in the latter part of the story when they find the supposed baby to be a lamb.

This play is being staged now in one of the northern theatres. The Yale Dramatic Club played it one year. Though of great age its fundamental truth to human nature has caused it to retain its popularity.

Dr. Hamilton on Lecture Tour.

Dr. J. G. deRoulhac, Hamilton, of the Department of History, left Tuesday, February 29, for a lecture tour of one week, under the auspices of the American Association for International Conciliation. He will visit the International Polity Clubs of a number of Southern universities. He speaks at the University of South Carolina, University of Georgia, Vanderbilt University of the South, University of Louisiana, Tulane University, and Davidson College.

Professor L. A. Williams made an address before the teachers and pupils of Rose Hill High School on Wednesday March 1.

TO break a young hoss hitch him double with an old one. To break in a new pipe hitch it up with old VELVET.

LIVELY INTEREST IN DEBATING AT PRESENT

Preliminaries for Intercollegiate Debate Set for Middle of March

Some dozen or more students are now actively engaged in preparation for the tryouts of the intercollegiate and Fresh-Soph inter-society debates.

The query of the intercollegiate debate is, Resolved, That the United States government should require of each male citizen between the ages of twenty and twenty-five years, one year of military training. Upon this issue Carolina will face both the University of Virginia and Johns Hopkins University, Md. She will send out a team composed of two speakers championing each side. The preliminaries from which the two teams will be drawn, are set for the middle of this month. Prominent among those trying for a place on the affirmative side of the question are Francis Bradshaw, President of the Senior Class, Tom Ruffin, S. C. Pike, and A. M. Coates; on the negative, R. F. Crouse, N. C. Shuford, John Dysart, and C. R. Edney.

The query for the Fresh-Soph. intersociety debate is Resolved, That the United States should grant absolute freedom to the Philippine Islands within the space of five years. Some of the Sophomores from the two societies that are trying out are W. H. Stephenson, C. R. Edney, A. M. Coates, Leo Carr, and C. L. Snider. A large number of Freshmen from both societies are preparing to try for places on the two teams.

The query for the commencement debate, although a long way off, is being agitated. The question at present in the mind of the query committee is the child labor bill now pending in Congress. The constitutionality of the question is to be granted. This debate is especially interesting to Juniors as the debaters come from their class, and the best one is awarded the Bingham medal.

SHAKESPEARIAN PAGEANT

Concluded from first page

lows. Since only a few scenes from each play represented will be staged no part will involve the learning of a great many lines. Winter's Tale: Autolychus, Florizel, Shepherd, Rustics of both sexes. As You Like It: Touchstone, Audrey. Henry IV: Falstaff, Prince Henry, Mistress Quickley, Poins, Bardolph, Pistol, Shallow, Francis, Chief Justice. Midsummer Night's Dream: Bottom, Quince, Snug, Flute, Snout, Starveling, Theseus, Hyppolyta, Hamlet: Four Players and Hamlet. The Tempest: Prospero, Ferdinand, Caliban, Alonzo.

WHAT'S TO HAPPEN AND WHEN

Sunday, March 5—11:00, Regular services in the churches. 12:30 Dr. Moss leads a discussion at the Phi Delta Theta House. 8:00 Dean Woodbridge delivers the last McNair lecture in Chapel.

Monday, March 6—President Graham in chapel. 7:45: Meeting of the North Carolina Club in Peabody.

Tuesday, March 7—Mr. E. W. Turlington in chapel. 7:45: Discussion led by Dr. Moss in Y. M. C. A. reading room.

Wednesday, March 8—Mr. Turlington in chapel.

Thursday, March 9—Mr. Turlington in chapel.

Friday, March 10—Musical in chapel. 8:00: Basketball game in the gymnasium to decide the State High School Championship.

PROF. WOODBRIDGE DELIVERS 1ST LECTURE

Concluded from first page

led to say that the history of nothing is complete. The beginning and the end of action are so interwoven with the whole time process that adequacy here becomes progressive. The truth of history is a progressive truth to which the ages as they continue contribute. The truth for one time is not the truth for another, so that historical truth is something which lives and grows rather than something fixed to be ascertained once for all. To remember what has happened and to understand it carries us to the recognition that the writing of history is itself an historical process. The record may be final, but the understanding can make no such claim. The accuracy of the record is not the truth of history. The records of what men have done or may be doing may be relatively unimpeachable. But it is quite a different matter to understand what they have done and are doing. Without that understanding history is no better than a chronicle. But the understanding of history grows by what it feeds on, enlarges itself with every fresh success, constantly reveals more to be understood.

"It seems clear, therefore, that historical truth is something which cannot be ascertained once for all. It is a living and dynamic truth. It is genuinely progressive. We may say that it is like something being worked out in the course of time and something which the sequence of events progressively exposes or makes clear. If now we ask what may be this truth and meaning or in what sense may we appropriately speak of a purpose in history, we pass from history to philosophy."

NATIONAL CONSCIOUSNESS

Dean Woodbridge Addressed Students Today on This Theme

"National Self-consciousness" was the subject of a most interesting address by Prof. F. J. E. Woodbridge in Gerrard Hall at the 12:30 hour today. Classes were suspended to permit attendance on the lecture.

"Of all subjects philosophy is by far the most important," declared Dean Woodbridge. "It is important to know what a nation's philosophy is if it is to engage in international relations." Likewise it is necessary to know the philosophy of an individual for, said the speaker, "it is chiefly philosophy which divides men from one another. More often it differentiates people so that they cannot understand one another."

Continuing, Dr. Woodbridge said that what divides Europe today is not so much a peculiarity of stock, as of languages, customs, philosophy. "Italy's part in the present contest is a natural outcome of her state of mind. She cannot tell what she is; she has not yet made up her mind." The French, however, have pretty much the same views as to what France is. It stands for clarity, sociability, and sympathy. Germany was cited as a striking illustration of the expression of a national philosophy. "Germany believes that her greatest contribution to civilization is herself. Freedom has its German meaning."

Turning to America, the speaker asserted that it is a country not only with no self-consciousness, but is filled with groups scattered everywhere, each with a self-consciousness of its own—"It is the important duty of educators to try to develop some kind of national self-consciousness."

WINNERS ANNOUNCED IN BASKETBALL CONTEST

By last night's victory over Asheville, Winston-Salem High School won the High School Basketball Championship for western Carolina. The contest in the east is still unsettled, Wilmington and Kenly were to play this morning and the winner will meet the Durham High School in Durham tonight. The winner of this game will meet Winston-Salem here on March 10 in Bynum Gymnasium.

Winston-Salem's record follows:

Winston-Salem	37	Lexington 13
Winston-Salem	44	Walkertown 2
Winston-Salem	93	Oak Ridge 12
Winston-Salem	65	Mooresville 8
Winston-Salem	38	Mooresville 1
Winston-Salem	63	Greensboro 24
Winston-Salem	48	Greensboro 24
Winston-Salem	35	Belmont 16
Winston-Salem	64	N. Wilkesb. 3
Winston-Salem	106	Lexington 26
Winston-Salem	72	Asheville 14

DRESSING ROOM GOSSIP

To One Canned

Creep into the class field, boy,
Pumpkin Center's pride and joy.
Grind thy spikes into the sand!
Sling thy glove down! Thou art canned.

Jerk thy cap down o'er thy brow;
Where is thy assurance now?
What will all the homefolks say
When they hear of thy dismay,—

Thou, their hero who didst swat
Their only ball out of the lot,
Prince of Shortstops of Thy Land,
When they hear that thou art canned?

Ah, to think the grandstand's roars
Will ne'er smite skies for hits of yours!
And the bitter thought that she
Never will wear your N. C!

Something got wrong with your eyes?
Well, old boy, I sympathize.
Caught the grip out in the snow?
Yes, I know, I know, I know

Should you ask me how I know
How you feel,—ask why there flow
Tears of mine,—and why my hand
Of sympathy for one just canned,

I should answer in this wise,
Showing why I sympathise,
And tell the secret, sad but true,
I myself have been canned too.

Some are born Phi Beta Kappa men; some achieve Phi Beta Kappa by grinding; and some boot their professors.

There are many famous triangles in the world. One is Wine, Woman and Song; one is Brockwell, Best and Company; another is Graham, Stacy and Woollen; and yet another is Hinds, Noble and Eldredge. And then there is, of course, faith, hope and charity. But, as someone has said, we have in the catching department of our baseball team a combination that rivals the faith, hope and charity triangle. It is Love, Hart and Angel. And the greatest of these is—well, we won't say yet awhile. But when the season is well on no doubt Coach Doak will say: "Without .....I would become as the sounding brass or the tinkling cymbal."

GARDNER—WILSON CLUB

Student Organization to Support Shelby Man For Lieutenant Governor

A large and enthusiastic group of students met Tuesday night for the purpose of organizing the Max Gardner–Woodrow Wilson Club. The organization was effected to encourage an interest in politics among the students and especially to boost the nomination of O. Max Gardner, a Cleveland county man, for Lieutenant Governor. Representatives from a large number of the county clubs voted this ticket for their clubs by proxy, over 400 votes being cast in this way. The Wake County Club cast its 51 votes solidly for Gardner. Other county clubs giving him a large majority were Forsyth, Cleveland Gaston, Buncombe and Lenoir.

The club elected the following officers:

President, Jim Capps; Vice-president, Wade Hunter; Secretary, W. B. Umstead.

Class Reunions Planned

The following classes will have reunions at Chapel Hill, Tuesday May 30; 1866; 1891; 1896; 1901; 1906; 1911; 1915. These are the fifty, twenty-five, twenty, ten, five, and one-year classes respectively. General Julian S. Carr, of Durham, president of the General Alumni Association of the University; W. R. Webb, head of the Webb School, Bell Buckle, Tenn.; and A Ferdinand Johnson, of Clinton, are members of the class of 1866.

BASEBALL PRACTICE SPEEDING UP DAILY

Coach Doak Getting Men Right for Oak Ridge Game Friday

With the first game of the season less than a week off the team is rapidly rounding into shape. The squad now consists of about 36 men. This number will be cut down later. The pitchers are going good and the hitting is steadily improving. The unfavorable weather conditions have held back the work somewhat.

Among the pitchers Cuthrell, Currie and Williams are showing up best. Plyler, Watkins, Powell and Coleman are also working well. For catcher Angel, Hart and Bennett are running a close race with the "odds even." At first base Hardison is holding down the bag in good shape. Love has been shifted from catcher to first and he and Lewellyn are both rapidly improving. At second Captain Patterson is playing his same steady game. Massey and Polk are also working at second. At third Mac Lewis is fielding splendidly and hitting well besides. Meyer is also playing a good game at third. At short, Royster, Huske and Herty are working about evenly with the odds on Royster. In the outfield Hubert Bailey is making enough circus catches to please the most rabid fan. Other outfielders who are showing up well are Wood, Barnes, Pippin, Self, Stewart and Pierson. Zollicoffer has not been out for the last two weeks on account of sickness.

The first game of the season will be Friday, March 17, with Oak Ridge.

N. C. Club Meets

"Elbow-Room for Homeseekers in North Carolina" was the subject of a paper read by Mr. G. H. Cooper, of Rowan county, at the regular meeting of the North Carolina Club Monday night. After showing that there is room in the State for 25,900 families in only five counties of the lower Cape Fear region, Mr. Cooper proceeded to show the social and economic results of such a move. "The high price of Western lands," he declared, "ought to be an incentive to farmers to move to this State. We need to advertise like Florida, Louisiana, Arkansas, and Texas."

Dr. Raper in New Orleans April 16-20

Dr. Charles Lee Raper, dean of the graduate school, has accepted an invitation to present a paper before the Superintendents' Conference at New Orleans April 16-20 on "The Next Steps to Secure the Revenue Needed for the Common Schools."

Dr. Raper has also been asked to make a report before the Southern Conference for Education and Industry at its meeting in New Orleans, April 16-20, on a plan for a permanent committee on tax education.

THE SUMMER SCHOOL HOPES TO HAVE 1000

To Run June 13 to July 27 Excellent Faculty Expected

That the Summer School here this summer will be a great success has been assured by the fact that the faculty will be composed of many of the best teachers of the State. With a few exceptions all of the teachers here now will do active work in the Summer School. Besides filling these few vacancies with capable men, other noted teachers will also be added. Some of those who will be here are Dr. J. F. Royster, English; Prof. W. C. McCall of Columbia University, Psychology; Miss Roger, Primary Methods; and Prof. D. D. Carroll, Economics.

The number attending the school will undoubtedly be unusually large. Though nothing definite is known now it is expected that the thousand mark will be reached. Last year the enrollment of 731 was considered very good. Should there be a thousand here, it would give the greatest increase in students the Summer School has ever enjoyed.

The courses to be given this year are about the same as those which were offered last year. The Educational courses will be one of the main features. They will be divided into many branches such as Story Telling, Plays and Games, and teaching in the lower grades. Courses in domestic

35 OUT FOR SPRING PRACTICE

Coach Campbell Getting His Material in Shape Early

The squad is working hard to get in shape for the final game at Richmond next—No! Wait a minute! March 10? Yes. Spring practice? Yes. Then the tone of the article had better be changed. But one could easily imagine that it was the first of November, if he strolled out to the grove to watch the spring football squad practice.

This is Carolina's first experience with spring training. It is entirely new and is bringing new results. There are 35 or more candidates now in training and a number of others are waiting for uniforms. Every available piece of football equipment is now in use. One of the most important results of the practice thus far, is the large number of men who have never come out for football before. There is promising material in some of these new recruits.

The nature of the practice so far has been punting, catching passes, running, light line scrimmaging, running interference, tackling the dummy, and various peculiar forms of muscle developing exercise. Later on the squad will have regular scrimmage practice.

Dr. H. W. Chase will deliver the commencement lecture at Pilot Mountain, April 20.

DR. WOODBRIDGE DELIVERS McNAIR LECTURES

Speaks on the Pluralism and on the Continuity of History

"History is like a line in the drawing; so much of it as has been drawn we may call past and that which has not yet been drawn we may call future," was the statemement of Professor Woodbridge in the second of the McNair lectures, March 4, on "The Pluralism of History."

Dr. Woodbridge then explained that the present was not the middle point of the line, nor can any time be the middle point of the line. The point never moves forward, but always moves backwards as we learn more of the past. The past, present and future are not like parts of a whole into which an absolute or complete time is divided; they are but derivations of a time process.

Continuing, the speaker said: "Every history is a particular career in the development of which some facts, persons, and events have been more significant than others, so that the termination of the career at any time is like an end that has been reached or a consequence to which its antecedents are appropriated. That is the sense in which history is purposeful and selective. The results reached at any time are such as complete those which have gone before, for each career is the producer, not the product of the past. From the selective character of history it follows that there is no single complete history of anything. There are many histories, so that we are led to say that history is pluristic.

"Absolutely considered the history of man cannot claim preeminence over the history of the stars. But none the less the history of man is unique and must be interpreted in human terms. Man only is the writer of histories, so that historical comprehension becomes the significant trait of human history. To live

ALL CLASS QUINT PICKED

Coach Doak Selects Two Squads; Others Mentioned

The following men have shown up well in the class basketball series which ended a couple of weeks or more ago. It falls to my lot to pick an all class team. I have thought it best to divide the material into two teams.

They are as follows:

Shepherd	forward	Jewett
Tennent	forward	Armstrong
Fitzsimmons	center	Cowan
Hutchins	guard	Clarvoe
F. Patterson	guard	H. Patterson

Special mention should be made of the fact that several other men played well; namely, Hodges, Cuthbertson, Perry, Lynch, Bryant, Gwyn, Pell, Sawyer, Isley, and Kendrick.

Coach Doak.

DURHAM WINS STATE H. S. BASKETBALL CUP

Defeats Winston-Salem H. S. 21 to 20 as Whistle Blows

A plucky fighting spirit coupled with the ability to throw long field goals when in a tight place enabled the Durham High School basketball quint to defeat Winston-Salem at the gym Friday night, 21 to 20, thereby winning the state high school basketball championship. At the end of the first half the score stood 7 to 7. In the second half Durham managed to get a lead of 15 to 11 when Winston ran its score to 19. Durham tied Whaling's foul placed Winston in the lead by one point. Winston, Durham's right forward, shot the winning goal as the whistle blew.

The outstanding star of the game was Billy Carmichael, left forward for Durham. He was in every play and piled up to his credit thirteen of Durham's points, five fouls and four goals. Eustace Whaling, left forward, lead the scoring for Winston, shooting eight out of twelve fouls.

The teams were evenly matched and at no time during the game were there any odds in favor of either quint.

Winston	Position	Durham
	Right Forward	
Douglas		Winston
	Left Forward	
Whaling		Carmichael
	Center	
Crute		Perry
	Right Guard	
Speer		White
	Left Guard	
Fearrington		Teer

Smmary: Fouls—Carmichael 5, Whaling 8.

Goals—Carmichael 4, Winston 2, Perry 1, White 1; Speer 2, Douglas 2, Crute 2

LIFE AT PLATTSBURG

College Men Particularly Are Desired At Summer Camps

"Most of the men who attended the Plattsburg Camp went there because of patriotic impulses," declared Professor J. M. Booker in an illustrated lecture on "Life at Plattsburg" Tuesday night. Dr. Booker told of his own experiences at Plattsburg, declaring that all who attended found life there highly enjoyable and profitable. He said the originators and promoters of the camp especially desired to reach college men, for they are most easily trained, with a purpose of instilling in them obedience, patriotism, discipline, and a rudimentary knowledge of army manners and tactics.

The executive committee of the local National Security League has appointed Dean Stacy, Prof. Wagstaff, and Dr. Booker to award the Frothingham scholarship to Ft. Oglethorpe. Character and intelligence coupled with inability to go without help will be considered. Applications are to be in the hands of the committee by April 15.

SOPHOMORE CLASS HAS ITS FIRST BANQET

Reorganizes Booloo Club, Christens Freshmen, and Hears Speakers

On Saturday night, March 4, the class of 1918 enjoyed its first banquet. Swain Hall was bedecked with orange and black and every Soph enjoyed himself immensely. President Bryant presided as Toastmaster and called upon Dr. Mangum, Dr. Dey and Professor Cobb. Dr. Mangum spoke on "Athletics," the one-year rule being emphasized. Dr. Dey spoke on "Closer Relationship between the Students and the Faculty," and Professor Cobb on "Vocational Training." The speakers from the class were C. L. Snider on "Matters of Moment," A. C. Oettinger on "The Twofold Duty of the Class," and William Bailey on "Class Loyalty." After a delightful meal the class adjourned to gather around a bonfire at the well.

Dr. Chas. Mangum spoke on "Athletics at Carolina."

In substance his theory was as follows: Our adoption of the one year rule will greatly effect the athletic life of Carolina in the future. All colleges must eventually come to realize that such a rule is necessary to develop clean college athletics. The chief end of college athletics is not to gather together but to develop the strongest team possible to represent the college. This new policy may weaken next year's teams, but the weakening is only immediate. In the long run our teams will be stronger and more successful than ever before.

"There are men who develop to a degree of efficiency which almost enables them to make the team. But at this point other men come in to temporarily strengthen the weak places. The almost developed man is put aside for the man who plays a year and then leaves college. The team may have been stronger as a unit for that season, but what about next year? The man who almost made the team has been put aside. There was no opportunity for him to develop further so he lost interest. There is a vacancy to be filled. Any temporary strengthening of this vacancy is a short-sighted policy. The man who comes to college just to play ball—if there be such—will take into consideration the one year rule. The man who comes to play ball as a part of his college career will not bother about such a restriction.

THE INTERRUPTED BANQUET

According to rumors current on the campus, the Sophomores were interrupted in their consumption of boeuf en casserole last Saturday night and provoked to choler by the unwarrantable interference of outsiders. The disturbance seems to have resulted in no actual destruction of property but in the irritation of 1918's spirits.

Investigators have as yet not ascertained the names of those who perpetrated the misdemeanor. Traces left by them would indicate that they were Freshmen; but these traces seem to have been left for that purpose. At least, some of the keenest of the investigators have reached this conclusion. The Freshman class numerals painted on Swain Hall, they say, were forgeries. Upper classmen put them there.

No man relishes a petty attack with his food. Assault is not the compound of sodium which lends pleasant savor to a banquet. The Sophomores were angered but discreetly made nothing of it.

This was the conduct expected of the Sophomore class. Other Sophomore banquets in recent years have been annoyed by unruly non-participants, but the affronted classes have borne the indignities with restraint. Discourtesy of this sort often has to be put up with, and when one considers how much real satisfaction can be had out of tying doors together and painting numbers on a floor, who for a moment would have wanted to stop it?

If, 1918, you should ever think that the last calamitous straw has been laid on your back, remember that the Freshman classes grow more inconsiderate as the years go by. They have the enviable faculty of growing fresher with time. Each class is less sophisticated than its predecessor. Each year the Freshman class is the freshest that has ever entered college. This being so, each Sophomore class is automatically avenged. The indignities that the recent banqueters have suffered will have to be borne in greater degree by the Sophomore class next year, and so on until the end of time. Besides, 1918, did you ever consider how the Sophomores last year suffered your antics?

THE CAMPUS

The last issue of The Magazine contains an article of unusual interest, "Our Campus."

The campus is a thing that we see every day we are in college. We cross and recross it half a dozen times daily. It is the heart of the college. Whenever we think of the University, we invariably think of the oak trees and the well. The Alumni Building, Memorial Hall, Chapel, and the Library come to mind later.

Anything so much a part of our college life we ought to make all efforts to beautify. We are all desirous of seeing the campus made and kept more attractive. To do this, however, we must have more funds. The funds which we are able at present to devote to the keeping up of the campus will not admit of any extended improvements. One thing, however, we can do ourselves. Even if we cannot provide for improvements, we can at least preserve what we have by walking on the paths instead of taking shortcuts.

"We still are lacking any definite plan for the future growth of the University, but we hope that before any more building is done, such a plan will be in hand!" We take it that this is axiomatic. No one denies that our campus is disfigured by irregularly placed buildings. Although there does not seem to be any immediate prospect of our erecting more buildings, still we no doubt shall sometime; and the possibility should be provided for.

"We hope some day to see a woods-drive leaving the campus at a point about north of the Y. M. C. A. building and following the branch by Judge's spring to the Meeting of the Waters and then returning along the other branch to the Raleigh road east of the athletic field. When some student who reads this gets rich he may give us the money to build it"—not only this but other things. As we walk about the campus from day to day, we can hardly keep from noticing things which need improvement. It may be brick steps to the Old East Building; it may be a new chapel. These things, as we notice them, let's keep in mind, and when our ships come in, devote part of their cargoes to the upbuilding of the University.

Senior Stunt Finished

The writing of the Senior Stunt has been completed and the manuscript will be read to the class at its smoker next Wednesday night at nine o'clock in the Y. M. C. A. The committee which has been at work on the play hopes that every member of the class will be present at this time.

FIGURE OUT YOUR OWN HEADLINE FOR THIS

Its Diversified Immensity Too Much for Tar Heel Head-Writer

The past week has marked the inauguration of a movement instinct with the quintessential spirit of University momentum. Through the diversified intensification of individually constructive ideas there has been illustrated the potentiality of an organic sweep of synthetic serviceability in the crystallization of public opinion. This movement, we venture to prophesy, will prove a potent factor in the aesthetic communality of our civic protagonism.

This civic idea finds objectivity in the following needed, contemporarily pertinent organizations:

1. Chapel Hill Branch of the Univeral Order for the Suppression and Discouragement of Superfluous Organizations.
President, R. B. House. Confidential Advisor, J. M. Booker.

2 North Carolina Association for the Preservation of the Davie Poplar.
President, J. Earle Harris.

3. Association of Collectors of Keep-off-the-Grass Signs.
President, George Pickard.

4. Chapel Hill Branch, Students' Division of the Universal League for the Conservation of Delinqent Bank Accounts.
President, M. B. Fowler.

5. Guild of Mural Decorators.
President, to be elected.

6. League to Prevent Premature Hirsutic Labial Decorations.
President, J. M. Huske.
Secretary, H. B. Hester.

7. Society for the Promulgation of Grape Juice and Turtle Dove Idealism.
President, H. B. Black.

8. Association for the Promotion of Janitorial and Mercantile Cooperation.
President of Advisory Board, T. C. Boushall.
Field Secretary, F. F. Bradshaw.

9. Society for the Conservation of Competition between Local Transportation and Amusement Corporations.
President, C. S. Pendergraft.
Secretary, Jack Sparrow.

10. Pickwick Orchestral Association.
President, W. C. Wright, Jr.

11. Associated Leagues for the Mutual Suppression of Nincompoops, Boobs, and Cornets.
President, Frank Hackler.

12. Society for the Suppression of Ideas.
President, C. L. Snider.

13. Association for the Promotion of Mutual Political Abnegation.
President, J. A. Capps.
Secretary, Victor S. Bryant, Jr.

L. A. Williams will deliver the commencement address at Rose Hill High School, March 31.

CHOOSE a friend like you would yo' smokin' tobacco. Don't have one that ain't worth keepin' always an' that you won't grow to like better ev'ry day.

DR. WOODBRIDGE

Concluded from first page

in the light of the past remembered and understood, is to live, not the life of instinct and emotion, but the life of intelligence. It is to see how means converge upon ends and so discover means for the attainment of ends desired. Human history becomes thus the record of human progress."

"The Continuity of History" was the subject presented by Dr. Woodbridge on Sunday night. In developing his theme the speaker explained that although history is pluralistic, it is also continuous, that it is something that cannot be divided into unconnected parts. Its continuity may carry one back to the beginnings of belief and of institutions, yet it would never reveal the experimental origin of any belief or of any institution. Therefore, history can not be made to reveal any standard by which progress can be estimated.

"This progress," said Professor Woodbridge, "involves something more than the continuous accumulation of results in some specified direction, so that the total heap is more impressive than any of the portions added to it, and more illustrative of a particular career. But progress in this sense means more than the fact of history. The career of things in time is precisely that sort of movement and indicates the sense in which history is purposeful.

"Man speaks aptly of 'making' progress, recognizing in that expression that he uses the materials at his command for the ends he desires. But the materials at his command are not of his own making. He may have modified them by former use, but in each instance of his using they are always so much matter with a structure and a character of their own. This fact puts the continuity of history in a new light, namely, the continuity of the results of the conversion of the possible into the actual. The purpose of man's history is thus found the ability to so use the materials of the world that they will be permanently used in the light of the ideal perfection they suggest."

SOPHOMORE CLASS BANQUET

Concluded from first page

BOOLOOS

J. Y. Jordan, B. H. Thomas, J. P. Dawson, "Buck" Mayer, R. L. Roland, H. D. Baker, J. H. Henning, A. P. Meyer, Oscar Stewart.

The Insoluble Group

(Apologies to McPherson and Henderson)

This organization is composed of the Hardest Boys in the Freshman class.

THE SUMMER SCHOOL

Concluded from first page.

science, drawing, writing, music, and home economics will also be given.

This year all of the dormitories will be turned over to the girls. This has become absolutely necessary to accommodate the large crowd which is expected. The Y. M. C. A. will be the same except that a W will be seen in the place of the familiar M. All other organizations will meet a similar fate. Swain Hall will be run for $12.50 a month, and already many have written for places.

The term during which the school will be run this year is from June 13 to July 27. At the end of the term examinations will be given, and those passing the exams may get recommendations for jobs. Recently the University has received a large number of demands for capable and efficient teachers. In view of this fact it has decided to establish a Teacher's Bureau. By this method it hopes to obtain positions for the Summer School students who are best able to fill them.

There will be many special attractions this summer for the students. The Coburn players have been secured and will present two of Shakespeare's plays. Another thing of special interest will be a set of lectures by Rabbi Solomon. When he was here two summers ago he made a very favorable impression on all who heard him. A choral concert has also been arranged.

Mr. N. W. Walker, who is Director of the Summer School, will be glad to give any special information desired concerning it.

The Funnel Gang
(No apologies)

"Jug" Webb, Worthy Grand Guardian of the Bunghole

DRESSING ROOM GOSSIP.

Ah, fain would we invoke a muse
But know not which of the nine to choose.

Not only that, but how do we know what you are interested in just now? If we knew, we would discuss it at full length and guarantee you'd know more about it than we ourselves before we got through (if not before we started).

Perhaps baseball is claiming all your attention. Well, how will this do?

The wind was blowing through the trees
And it was cold enough to freeze
As Marshall, shaking at the knees
Stepped to the pitcher's plate.

—No, that's no good at all. In the first place it doesn't sound right, in the second place it does not look right, and in the third place we believe we can do better. How's this?

Tne class field it was frozen hard
And Marshall's arm felt weak as lard
But Julian yelled, "I've got you pard;
Just send it straight."

—Worse yet. But we can't give up now. Here goes another.

It was a lovely sight to see
The captain, Patterson, when he
Grabbed him a piece of hickory tree
And went to bat.

—Now we're getting along better. Praise be unto all nine muses. Now for the second stanza—

He motioned all the fielders back
Pulled at his belt and took in the slack
Then settled himself to take a whack
"Land on it, Pat!"

And there we are. We don't know whether to have him fan, or drive a homer. Both are trite things to do in such a situation. We might have him walk, or bunt. But walking is mighty unheroic, and there isn't a word in the English language that rhymes with bunt. Not in baseball vernacular, at least, and that constitutes a great part of the English language.

So if you want to know the rest,
If Hart or Angel pegs the best
Just button a sweater round your chest
And go and see.

There won't be any secret baseball practice yet awhile, so there is nothing to keep you from going out except the cold weather. But if you get cold standing on the side-lines, just think of pulling down a peg to second or a line drive at a temperature of 30 degrees.

As once remarked our coach, Chick Doak,
This winter practice is no joak
And we can't tell who's got the smoak
But we've got a team, leave it to Hoak.

1200 High School Debaters

Highly gratifying reports from all sections of the state are coming to the Extension offices concerning prospects for the High School Debate this year. The number of schools enrolled in the union has exceeded 300 and the number of debaters to speak on March 31 will be more than 1200. The final contest for the Aycock cup will be held on the Hill April 14.

Even a King can't dictate what you should like or not like

If it so happened that Fatimas were originally "Made and blended for the King of Whatiz"—would that fact prove that you were going to like Fatimas best?

It would not.

A man's taste is his own. A cigarette that might delight some old potentate's palate would not necessarily please you.

That's why we leave Fatimas up to your taste.

But there is something more than good taste that is mighty important to you.

No matter how good tasting a cigarette may be—it can only be the SENSIBLE cigarette for you if it is *comfortable*, too.

Its pure tobacco must be cool and *comfortable* to your throat at all times. And it must leave you feeling fine and fit at the end of a hard-smoking day.

Will it do all that?

Then, it is the *sensible* cigarette for YOU.

There are thousands and thousands of men who believe that Fatima is the most sensible cigarette there is.

Try Fatimas yourself. You may discover—as these thousands of other men have—that Fatimas have just the *cool, mellow* taste that you've been longing for in a cigarette.

You may find that Fatimas have the kind of mildness which allows you to *smoke more of them* than you might of other cigarettes.

You may find that Fatimas offer you a little more satisfaction in every puff than you ever before found in any other cigarette.

Buy your first package of Fatimas and test them today.

SHAKESPEARE PAGEANT APRIL 24, 25

The Chapel Hill Community Club Offers Its Assistance

April 24 and 25 are the dates set for Chapel Hill to don the dress of Elizabethan England and, instead of being just a small North Carolina town, to appear as a village in which will be reflected some of the romance, customs and life of the days of Queen Bess.

Chapel Hill is a real village—a combination of community life with surroundings half-rural and Chapel Hill is probably the only place in North Carolina of this type. It is a place admirably suited by nature for the presentation of scenes of an age when Morris dancers and Maypole crowds drew people from homes merry making on the greens of the English villages. There could hardly be found a better place than the campus of the University for the presentation of dances and scenes of Elizabethan life.

The principal business of acting or the interpretation of the scenes selected from Shakespeare's plays will naturally fall to the students. Falstaff, Prince Hal, and their tavern companions, Hamlet, Prospero, Touchstone and Audrey are the principal characters in the selected scenes; but there are other parts of less significance, such as the players of "Pyramus and Thisbe" from the "Midsummer Night's Dream," loafers in the tavern (Henry IV), and also as many properly costumed persons as can be obtained to appear in the various scenes.

Valuable assistance in making the Shakespearean celebration successful will also be rendered by the Chapel Hill Community Club. The question of proper costuming, which is a very serious question in the undertaking, will be partly solved by the aid of the ladies of the Community Club. Members of the club are also attending to the musical part of the program. The effectiveness of some of the scenes presented will be greatly increased by the introduction of various dances. The rural merry-making scene, based on "A Winter's Tale" IV, 4, will contain a Morris dance, May-pole dances, and children's dances. The Community Club is also securing the best vocal talent possible to render the various lyrics that occur in the scenes.

$5 PRIZE OFFERED

By Sigma Upsilon Fraternity for Some Writing Relating to Shakespeare

The Sigma Upsilon Fraternity has offered a prize of $5 for the best contribution to The Magazine relating in any way to Shakespeare, his life, his relation to his time, his work, his influence, etc., in verse, descriptive essay, or other form. Though long articles will be considered, those of 500 to 1500 words will be given the preference. Contributions should be handed to B. F. Auld by April 15.

CAROLINA 2; OAK RIDGE 3

First Game of Ssason Played on New Field

By a score of 3 to 2, Carolina unexpectedly lost the first game of the season Friday to Oak Ridge. The game was close and interesting throughout, though slow.

CAROLINA:

	AB	R	H	PO	A	E
Massey, 2b	4	1	1	0	5	1
Zollicoffer, 1 b	4	0	0	14	0	1
Barnes, lf	4	1	1	1	0	0
Pippin, rf	3	0	2	1	0	0
Baily, cf	4	0	0	3	0	1
Lewis, 3b	4	0	1	0	3	0
Royster, ss	3	0	0	0	0	0
Hart, c	3	0	1	8	1	1
Cuthrell, p	3	0	0	0	4	2
	32	2	6	27	13	6

OAK RIDGE:

	AB	R	H	PO	A	E
Richardson, lf	4	0	0	1	0	0
Barnes, ss	4	0	1	2	6	2
Burrus, cf	4	0	1	0	0	2
Coble, rf	4	0	0	1	0	0
Mayberry, 1b	4	1	2	14	0	0
Huffman, 2b	4	1	0	2	2	1
Speed, 3b	4	0	1	0	3	3
Wrenn, c	4	1	1	6	1	1
Truelove, p	3	0	0	1	4	0
	32	3	6	27	13	6

Carolina scored easily in the first inning but was unable to prove dangerous afterwards except in the eighth when Barns swatted a homer between left and center. Oak Ridge made one of her runs in the fifth and the other two in the sixth.

The new Emerson Field was used for the first time and the stadium was almost filled.

The game with the exception of Barnes' home run was practically featureless. Carolina, however, discovered two new stars in Pippin who came in with some good hits when they were needed and in Massey who hit well and did some pretty base-running and fielding. Both teams were neck and neck in every department of the game except base running in which Carolina easily excelled her opponents.

In the first inning when Carolina's lead-off man, Massey, came in home on Pippin's two-bagger, a University victory seemed sure. The score remained one to nothing for Carolina until Oak Ridge's half of the fifth.

Then with one out Wrenn sinfiled to right. Truelove hit a grounder to Cuthrell who threw to second trying for a double. Massey dropped the ball and both were safe. Both advanced a base when Cuthrell threw to second to catch Wrenn napping and Royster missed the ball. Richardson was out, pitcher to first. Then Barnes singled by third and scored Wrenn.

In the sixth inning Oak Ridge put across two more runs and won the game. Coble, first up, was out on a pop fly. Mayberry singled over second. Mayberry went to second on Hart's error. Huffman drew a pass; Mayberry went to third. Mayberry scored when a moment later Hart let one of Cuthrell's shoots escape him. Huffman went to third and scored later on Cuthrell's wild pitch.

Carolina rallied desperately in the last of the ninth. Three pinch hitters were put in. Lewellyn hitting for Royster was safe on the shortstop,s error. Stewart was out, third to first, Lewellyn going to second. Self was out on a pop-up. Massey came up with two out and ended the game with a grounder to short-stop.

RABY TENNENT IS CAPTAIN

Will Pilot Carolina's Basketball Team Next Year

At a meeting of the basketball squad Monday, Raby Tennent was elected captain of the basketball team for next season. Tennent has played a consistent star game at right guard for three years and has now been chosen to lead the team in his fourth year.

The class of '17 is peculiarly gifted in the art of basketball. The varsity team of their freshman year is practically the same team as now. Johnson, Tandy, Tennent and Andrews secured a place on the team at the very start and have successfully held it three years. Davis made his letter in his Sophomore year and has played good ball this season. The class of '17 would probably have boasted of every man on the team from their class next year, if Andrews had not withdrawn from college at the end of the fall term.

Johnson and Tennent, both of this class will have the distinction of not only making the team for four years but also of leading it a season apiece.

WHAT'S TO HAPPEN AND WHEN

Sunday March 19th, 11:30, Regular services in the churches. 12:30, Dr. Moss leads a discussion at the Sigma Nu House.

Monday March 20th, President Graham in Chapel. 7:30, North Carolina Club meeting in Peabody.

Tuesday March 21st, Dr. Pratt in Chapel. 7:45 General discussion in Y. M. C. A.

Wednesday March 22nd, Mr. Turlington in Chapel.

Thursday March 23, Mr. Turlington in Chapel.

Friday March 24th, Musical in Chapel. 3:00, Carolina vs West Virginia Wesleyan on the new athletic field.

Saturday March 25th, Carolina vs Guilford at Greensboro.

NEW POWER PLANT HERE

To Take Place of the Old Condemned One in Near Future

The executive committee of the board of trustees of the University of North Carolina in meeting at the office of Governor Locke Craig yesterday authorized the building of an adequate power plant at the University to take the place of the present one which has been condemned.

The executive committee had before it the assurance that the change is required to insure the continued operation of the University and to protect the property of the State.

FIFTY OUT FOR TRACK

First Meet to be Held About April 18 With Clemson

About fifty candidates are out for the various track events. Dr. Brown expresses confidence in the season's success. Among those who are showing up well are:

2 mile: York, Upchurch and Gant.

1 mile: Harrison, Rand and Jewett.

Half-mile: Ranson, B. Webb Shepherd.

Quarter-mile: Patterson and Rimmer.

220 yards: Hugh Black, Clip Smith, Cy Parker and Wood.

100 yards: J. Johnson, Wright, Black, Smith, Parker, Wood and Shepherd.

Low hurdles: Dixon, Telfair, Hatcher and Poag.

High hurdles: R. Davis and Scruggs.

Broad jump: Wright, Hatcher, and Johnson.

Shot put: Johnson, Davis, Ramsay and Hogan.

Hammer: Isley, Hogan, Dysart and Homewood.

Pole vault: Isley, Shreve and Homewood.

Discus: Johnson, C. Davis, Ramsay and Hogan.

Javelin: This is a new event in which all weight men will have a chance to contest for.

The first intercollegiate meet will be held with Clemson college at Clemson April 3.

The Carolina team will enter the Southern Intercollegiate Athletic Association Field and Track Meet which will be held at the University of Virginia. In former years this annual meet has been held on the Homewood track at Johns Hopkins.

Fire at Mayor Robinson's

The placid calm of campus life was smashed to pieces early Wednesday afternoon when the Chapel Hill fire department was called out to extinguish a blaze that had been discovered in the roof of Mayor Robinson's house. The big truck created no little excitement as it tore down the street, swerved around "busy corner," and slowed down in true municipal form before the scene of the disaster. The hose was immediately connected to a nearby hydrant and the work of the rescuing crew was on. Head chief Herndon wielded the nozzle while Roy Homewood with his bucket brigade administered aqua pura to the flames. By hard and persistent fighting some headway was soon made and in due season the flames gave up and the Chapel Hill Fire Department as well as its entire municipal corps was king of the day. The danger from the fire was, however, replaced by the danger of a flood, for nobody could turn off the hose. Somebody finally had to make a trip to the hydrant and cut off the flow there.

The damage wrought by the conflagration to the Carraway-Robinson Corporation estimated as not more than $3.13, was partly covered by insurance and surety bonds.

HARD SURFACED ROAD FROM HERE TO DURHA

Building of Splendid Boulevard Proposed

A scheme was launched for splendid hard-surfaced boulevar between Chapel Hill and Durha at a well attended meeting representative business men Durham with the local board trade in the Masonic Hall la Friday night in Durham. T present wretched condition of t highway is felt to be a disgra to Orange and Durham counti This road, which is twelve mi long, has a strategic locati which demands that it should one of the best in the state. O it travel students from every p of North Carolina. Every ye at the Road Institute in Cha Hill it is observed by road en neers and commissioners from quarters of the state. As a m el road it would thus have a gre educational influence.

The rapidly increasing traf between the towns demands good road constantly kept in fi class condition. A hard-surfac road would increase the tran portation facilities, perhaps t half-hourly service. The meet ing was unanimous in its appro al of the project. Hearty co op eration was promised in speeche by Mr. R. O. Everett of the Dur ham Chamber of Commerce. Mr. I. E. Bugg of the Durham Rot ary Club, Mr. W. H. Muse of th Durham Retail Merchants' Asso ciation, and Col. John S. Cun ingham, a delegate-at-large. D Joseph Hyde Pratt, Dr. L. A Webb, and Mr. R. L. Strow spoke for Chapel Hill. Presiden A. S. Wheeler, of the Chap Hill Board of Trade, will appoi a committee at once to confe with a committee in Durham wit a view to pushing the projec This joint committee will ne week meet in Durham and sta a vigorous campaign.

It is planned to build a 16-fo boulevard with a roadway either side. Dr. Pratt outline plans for the boulevard, announ cing that seven manufacturers o road materials had each agree to surnish free material for pav ing one mile of the road. Th only provision is that the count lay the road material.

ELISHA MITCHELL MEETS

Meeting is to Honor the Memory of J. A. Holmes

"A memorial meeting in hon or of Joseph Austin Holmes" wa the nature of the meeting of th Elisha Mitchell Scientific socie in Chemistry Hall Tuesda night. Dr. F. P. Venable, wh was in school with Holmes Cornell and roomed in the sam building, sketched in an interes ing way, the life of his frien who assisted in founding th Elisha Mitchell society. D Venable empasized the energ and ability to lead that Holm showed especially when he was young man. Whe the Geolog cal Survey was in danger of b ing abolished some years ago, t was Holmes who saved it for th State.

CHAPEL

In somewhat the same way as a publication of some sort is necessary to intelligent citizenship in a community, chapel is in its relationship to the college. It is one of the mediums through which news and opinion is disseminated in the University.

However glad we may have been to escape getting a chapel seat, however well we may use the twenty minute chapel period, however unessential we may consider chapel talks, still, we feel, after continued absence from chapel, that we are a little apart from the real life of the college. We hear only through the most unsatisfactory channels, through campus comment and rumor, what has gone on and will take place. The absence of upper classmen from chapel, just as the residence of half the student body out of college, necessarily means less unity. It used to be the feeling that an announcement made in chapel would reach every academic student; one student desiring to see another could always find him at chapel. Now intercourse is through the post office —formal and not conducive to friendship.

We all regret that the chapel is not large enough to afford us all seats, so that we all might have places there. We might not all attend regularly, but still the general effect would be for the unification of college sentiment if the majority of the academic students met regularly five times a week. We look forward to the time when we shall have a more commodious building.

DAMAGE FEES

Last fall The Tar Heel suggested a Damage Fee Fund. It was to be made up of the damage fees of those students who wished to contribute and was to be turned over to the University either for some general or some specific improvements in the college equipment.

We still think that this plan would be serviceable. For instance, the Old East Building is not adequately supplied with running water. The occupants of the building desirous of greater comfort might all contribute what remained of their damage fees at the end of the year toward such improvements. If the amount were not sufficient, it might be added to the following year and then, being increased by what the University had to spend for such improvements, would probably suffice.

For some of the minor improvements about the college buildings class gifts used to suffice; but now graduating classes pledge money to be paid within five or ten years, instead of making direct gifts. The lighting fixtures in Chapel were given by one class, the flag pole by another, statuary in the library was presented by others.

The men in college now might provide for similar things without hardships to themselves. At present, some more sanitary and consistently-working apparatus is needed to replace the old pump in front of the South Building. With an increment of funds it might be possible for the University to put in a regular fountain. That is, if a number of interested and patriotic students were willing to contribute their damage fees to a fund which would be turned over to the University to pay for the erection of a sanitary fountain.

Under ordinary circumstances giving means, to a certain extent, privation. With the method proposed, however, no more discomfort would ensue than painless dentists say their patients suffer —which is some trivial amount. To give our damage fees is to give what most of us feel entitled to recreation. Damage fees received at the end of the year seem so much like presents that we don't mind spending them for other than the necessities of life. If we do not mind spending them for worthy ends, they may procure us more comfort and sanitation.

FOOTBALL SQUAD GROWING

No Scrimmaging Yet. Signal Practice Emphasized

Football continues to continue with ample results. The squad is gradually growing to a regular army. As yet no scrimmaging has been started but the surplus energy of the squad has been directed against the new dummy. Grimes is showing up forcibly having torn the dummy from its frame twice in the last week.

Signal practice in which several new plays have been rehearsed, has been emphasized most in the course of the week. Williams, Steele and Fitzsimmons are working at quarter with promise of development. There is a noticeable improvement in handling the ball catching passes, and hitting the interference dummy since the beginning of the spring practice.

STUDENTS HEAR SPIRITED "BETTER NAVY" SPEECH

Civil War Sailor Argues For More and Better Ships

A lecture of the old school type, made spicy by many seaman expressions, was delivered in Peabody Hall Wednesday night by Mr. Kemple, who was a sailor in the Federal navy during the Civil War. His subject was "A Better Navy For the United States."

Mr. Kemple, with a style that was different from the common run of speakers and one that pleased the small audience, reviewed the history of the American navy, giving in detail the part it took in the several wars in which this nation has been implicated. He showed a thorough knowledge of his subject by giving a brief record of many of our men-of-war, their size, and in many cases why they were successful or unsuccessful as the case happened.

The reason why the South lost in the Civil War, he said, was because the North had the better navy and was able to blockade all of the southern ports. Before the war of 1812 the Americans suffered indignities at the hands of the Britsh for many years, yet the United States could not make war on England because there was no navy. It took us more than two months after the sinking of Maine before we could declare war on Spain for the simple reason that we had no means of getting our troops from the United States to Cuba, a distance of less than 200 miles. "If it took two months to get ready to make war on a sick nation," declared the speaker, "how long would it take us to get ready to lick Germany and her allies, or England and her allies, or let us say Mexico and her allies.

"Today 40 per cent of our fighting power is lying idle at different navy yards because there are not enough sailors to man our ships. If we had men for these vessels, it would require four months to train the deck crews and one year to train the turrent crews, yet Congress rolls the pork barrel and says there is no use wasting time with a navy while our political position is unsafe."

"No man can predict what will be the geographical alignment of Europe, or where the balance of power will lay two years from now. Are we going to fold our hands while Congressmen exchange votes and play politics in anticipation of the next election?"

Norman Vann Heads List of Doctors

The following is an extract taken from a Philadelphia paper Vann is a graduate of the Carolina medical school.

"Sixty-eight names are on the eligible list furnished by the Civil Service Commission for the unpaid position of interne in any of the city's medical departments. The list is headed by Norman St. George Vann of 3732 Locust St., with an average of 86.46."

DRESSING ROOM GOSSIP.

Is there one among us who will say that he has never been blinded? Well, whoever he is, he should be careful not to say it where too many can hear him, for he runs a risk of being called the biggest liar in college. Being blinded is such a typical college experience that no one's college career is complete without it. There are many advantages to be gained and many disadvantages to be suffered by being blinded.

First of all no red-blooded college student wants to be considered a grind. It is almost as disgraceful to answer up correctly every time as it is to answer incorrectly every time or not to answer at all. Ordinary students stand in awe of a student who is always right, and if he continues to exhibit his superiority, it wont take him long to become completely queered. Then too, a professor has a sort of resentful feeling against a student who knows it all, and it is best to humor him along by letting him get the better of you once in a while. Their theory is that you profit by your mistakes, but if you never make any mistakes, how can you profit? Sweet are the uses of adversity, tor without it we could never develop past the cocksure Sophomore Stage. If we do not know what wrong is, how will we know we are right?

On the other hand, there is a certain humiliation about being blinded, when the experience is repeated too often, which tends to cause a feeling of disgust with academic work and to increase the enrollment in the Law Department. Having once blinded you, the professor feels a sort of satisfaction in knowing that he is still the undisputed authority in his line; having repeated the operation, he knows he has you where he wants you; the third time, he sympathizes with you, and agrees that his subject is not an easy one; the fourth time, he advises you to get down to work; the fifth time, he begins to have a mental picture of a five beside your name in his roll book, and so on, from bad to worse.

So then, it is well to know the secret of how to get blinded and how to keep from it. The first is easy enough. Never answer "unprepared" when called on, but start out reciting bravely, then begin to falter, and finally flush to the roots of your book for the remainder of the period, as if overcome with mortification.

The second, or bluffing, as it is technically called, may require some practise, since there are many details which must be mastered. Once called upon, begin to talk fluently about anything connected with the course with which you happen to be familiar. Then say you didn't exactly understand the question, if you find that you are not going to get away with it. If this is skillfully done, the original question will very often be lost sight of. The cardinal principal in bluffing, however, is to keep from being called on. This may often be accomplished by looking fixedly and eagerly into the eyes of the professor, assuming as intelligent an appearance as possible. Do not do this, however if the question has already cut down four or five men, for then you may be picked out to redeem the situation. Conversely, if you really know something about the matter in hand, it is a good plan to assume an inattentive attitude, either by looking dreamily out of the window, appearing to take a nap, or engaging in conversation with your neighbor.

Above all, never come on class without your text book, and as many note books as you can borrow.

Leap year brings its results. Now comes the report that the University of Chicago women students are out on a strike because they are not allowed to sit on the same side with men students in certain lectures.

The Sonneteer's Complaint

Nothing I have to write of, yet my Muse
Doth spur me on to verses on some theme.
I may not write of Piney Prospect views
And everybody else writes on the team.
What then if I shall write of poesy?
Shall not my Muse be joyful and soar high?
Shall I not find my verses go easy?
And if I shall not, then I ask you, why?
Why, then, I'll make my Muse sing of my Muse
And in self-praise her voice shall lifted be;
And, if by chance this sonnet drive the blues
From anyone, the credit falls to me.
For this shall poesy be magnified:
She's given to my Muse a place to hide.

DR. WEATHERFORD ON "WHY I AM A CHRISTIAN"

Students Raise $100 for Blue Ridge Cottage

"Why I Am a Christian," was the subject discussed by Dr. W. D. Weatherford, International Secretary of the Y. M. C. A. for the South, before a small body of students Wednesday night Mr. Weatherford is enthusiastically in the student Christian movement, having been connected with student Y. M. C. A. work since he was 16 years old.

Taking up his subject the speaker said that he was a Christian, first, because he was born and raised in a Christian atmosphere. In fact, he said it was hard for one to be raised in America and not be a Christian. Especially is this true if one will only give a little thought to the subject.

Continuing Mr. Weatherford said, "I am a Christian also because of what I have seen Christianity accomplish in the world. Of all the high officials in the Chinese Republic 71 per cent are American-educated and are Christian gentlemen.

"All the principles of social work had their origin in Christian countries, but not with the Americans; every social movement that we are behind today had its origin 500 years ago with the Jewish people. I'll tell you, fellows, Christianity is a great social leveler. All the hospitals for the outcast in China and India were erected and are supported by Christian hands.

"Again, I am a Christian for what the thing has done for me. Economically it has done everything for me that is worth while. On the other hand, the lack of Christianity has been a great economical drawback to the people of pagan countries. There is enough coal in a single province of China to supply the world with fuel fifteen thousand years, yet they wont allow it to be mined for fear the balance between the evil and good spirits will be destroyed and disaster will come upon the nation. But don't get the idea in your head that the Japanese ard Chinese are not intelligent. For shere brain power, I hate to admit it, they are away ahead of us. A Chinese student that I placed in Alabama Tech two years ago has made the highest grades that have ever been made in that institution."

The hundred boys present subscribed a $100 to help pay off the University's part of the debt of $300 now due on the Carolina-Normal cottage at Blue Ridge.

Dr. Henderson to Make Address

Dr. Archibald Henderson will give an illustrated lecture on Thomas Godfrey's "The Prince of Parthia," before the Philological Club Tuesday, March 21. Thomas Godfrey, who is buried in this state, wrote, while he lived in North Carolina, the first tragedy ever written by an American and ever produced on the American stage.

Dr. Henderson will also deliver the County Commencement address in Salisbury, April 7.

April 19 Dr. Henderson will address the Kentucky State Educational Association, in Louisville, Ky. Other speakers on the program will be Dr. Abraham Flexner and Miss Ida M. Tarbell.

Most men like Fatimas—but maybe *you* won't

Fatimas please so many men that they outsell any other cigarette costing over 5c.

But it may happen that *your* taste won't fit Fatimas. That's nothing against you. Nor against Fatimas.

But if your taste *does* fit Fatimas, you can feel doubly grateful. For of this you can be sure—Fatimas are *cool* and friendly to the throat and tongue. And they will never leave you "feeling mean" as long as you smoke within the bounds of reason.

Because, Fatimas are *cool* and because they can be smoked freely and often they have rightly earned the title, "The Sensible Cigarette."

It simply remains for you to see if their *taste* suits you as well as it is suiting thousands and thousands of other men. Try Fatimas today.

You may find that their taste is *exactly* what you've been looking for in a cigarette.

GARDNER HUDSON TO REPRESENT CAROLINA

Wins in Peace Prize Oration Preliminaries

Last Monday night in the preliminaries for the Peace Contest Gardner Hudson of Smithfield won first place by a unanimous decision of the judges. His subject was "The Development of the International Mind."

Although the decision of the judges was unanimous, the contest was by no means one-sided. John Stell with a good speech on "Practical Peace" crossed the tape second. The others who were in the contest and who made things quite interesting for the first two men were Virginius Williams, Frank Auld, Henry Mock, Marion Ross, and William Marlowe.

Gardner Hudson will go to Raleigh to compete with representatives from other state colleges, and the winner in this contest will be sent to represent the state in a national contest.

300 SCHOOLS WILL DEBATE

In the State High School Contest on Navy Enlargement

Triangular debates throughout the state occur Friday March 31, which is the 4th anniversary of High School Debating Union contests. At this time the query: "Resolved, That the U. S. should adopt the policy of greatly enlarging its Navy" will be debated in more than 300 schools in 94 counties of the state. This is the largest contest of the Union that has been staged thus far. The total estimated audiences will be 75,000. Buncombe county will have 14 schools debating on March 31. Robeson 12, Mecklenburg 11, Guilford 10, Alamance 9, Johnston, Nashe, Wake and Durham 7 each, Gaston, Iredell, Union Sampson, Rowan, Warren have 6 each. The final contest for the Aycock Cup will be held in Chapel Hill on April 13 and 14.

Alumni Review Out

The March issue of the Alumni Review appeared on the campus today and carries an interesting article on "Our Campus" by Prof. W. C. Coker. Besides a challenge to the citizens of the state to give financial help to the University News Letter, there are articles on "The McNair Lectures" and "Athletics at the University."

Dan Bell, of the law school '15 has gone to New York where he is attending the annual Tri-Province Sigma Chi convention held there March 23-25.

CAROLINA DOWNS ELON

Shows Great Improvement and Wins 18 to 4

Carolina defeated Elon Saturday by the score of 18 to 4 in a game which lasted for two and a half hours. Carolina's playing showed a considerable improvement over that against Oak Ridge. Currie started the pitching, but soon gave way to Powell, who finished the game without being scored on. Bennett caught a good game and incidentally slammed out a three bagger with the bases loaded. The Carolina team was far superior to Elon's for the fifteen men used by Carolina made two errors to Elon's seven. The hitting of Bailey, Zollicoffer, Bennett, and Powell was of material aid in piling up Carolina's 18 runs. The playing of Bailey and the pitching and hitting of Powell were features of the game.

CAROLINA:

	AB	R	H	E
Zollicoffer 1b	4	1	2	0
Patterson, 2b	4	2	1	0
Barnes, lf	2	2	1	0
Pippin, rf	2	1	0	0
Bailey, cf	5	1	3	0

Summary:

Base on balls, off Bailey and Beard 13, off Currie 2, off Powell 0. Wild pitches, Beard 1, Currie 2. Passed balls, Duncan 3, Bennett 0. 2 base hits, Ragsdale, Wood, Lewis, Powell. 3 base hits, Hardison, Bennett. Umpire Pierson. Time 2:30.

An Apology

The Tar Heel regrets to state that in its write-up of the Elisha Mitchell Society Meeting last week mention of the speeches of Dr. Pratt and Dr. Battle was omitted. On account of limited space the last two paragraphs of the article were out, and these were the ones that contained the omitted speeches.

CAROLINA CHOOSES TRIANGULAR DEBATERS

Bradshaw and Ruffin, Edney and Crouse Are Picked

Messrs. F. F. Bradshaw and Tom Ruffin were chosen Wednesday night to represent the affirmative for Carolina in the triangular debate, while Messrs. C. R. Edney and R. F. Crouse were named for the negative side. The question was, "Resolved, That the Federal Government should compel all able bodied men, between the ages of 18 and 24, under adequate provision, to take military or naval training."

The affirmative side of the varsity will debate Virginia at Baltimore, while the negative will contest with Johns Hopkins at Charlottesville. Virginia and Johns Hopkins will debate here.

The debate was hotly contested. The others who tried out were: affirmative, Pike and Coates; negative, Shuford, Dysart, Sharpe, and Hackler.

WHAT'S TO HAPPEN AND WHEN

Sunday March 26, 11:00, Regular services in the churches. 12;30 Dr. Moss at the Sigma Chi House on "The Trinity". 3:00 Lecture in Gerrard Hall by F. H. Rindge.

Monday March 27. President Graham in chapel. 8:15 Dr. Neuman of Philadelphia speaks in chapel on "The Jews in Spain".

Tuesday March 28. Prof. Collier Cobb in chapel. 7:30 Discussions in Y. M. C. A. Carolina vs. Davidson at Winston-Salem.

Wednesday March 29. Prof. Cobb in chapel. 3:00 Carolina vs. Wake Forest at the new athletic field. 8:00 Dr. W. D. McClellan speaks in chapel.

Thursday March 30. Thos. Boushall in chapel. 8:00 Dr. W. D. McClellan speaks in chapel.

Friday March 31. Musical in chapel. 8:00 High School Debate in chapel—Chapel Hill vs. Graham.

Saturday April 1. Carolina vs. University of Virginia at Greensboro.

Dr. Moss at Sigma Chi Hall

Dr. Moss will deliver a thirty minute talk at the Sigma Chi House Sunday at 12:30, on "The Trinity." All fraternity men will be expected to hear him.

Mr. R. L. Gray, of the Raleigh Times, will probably be on the hill soon to give an informal talk on some subject connected with modern journalism.

CAROLINA, WORKING IN FINE FORM, OVERWHELMS W. VIRGINIA WESLEYAN

Score Is 11 to 3. Powell Pitches Good Game. Zollicoffer Makes 4 Runs in 4 Times Up.

Carolina's baseball machine, working more efficiently than it had hitherto worked this season, defeated the West Virginia Wesleyan Friday 11 to 3. Wesleyan made its three runs in the eighth inning after Carolina's substitutes had been put in.

The game was featured by the costly wild throws of the visitors and the pitching of Powell, who allowed only two hits in the six innings that he pitched. Zollicoffer made four runs in four times at bat. Bailey and Massey also did good work. With Captain Patterson shifted to short and Massey on second the infield showed up especially well.

1st Inning

W. Va. W.: Miller out, third to first. Blake out on a grounder to first. Singleton fans.

Carolina: Zollicoffer safe on short's error. Patterson safe on first, Zolly on second when pitcher throws wild on Patterson's bunt. Barnes fans. Zollicoffer scores on catcher's wild peg. Pippin walks. Massey doubles, scoring Patterson and Pippin. Bailey bunts, scoring Massey. Powell is safe on an error, but Lewis is out on a grounder to short.

2nd Inning

W. Va. W.: Johnson singles over second. Shumaker forces Johnson at second. Talkington pops to Angel who catches Shumaker off the base.

Carolina: Angel out to left field. Zollicoffer walks Patterson flies out. Barnes is safe on second's error. Zollicofier scores from third when catcher tries to catch Barnes at second. Pippin fans.

3rd Inning

W. Va. W.: Powell fans Beck, Wagner, and Miller.

Carolina: Massey and Bailey single. Massey out, stealing. Powell singles. Lewis singles, scoring Bailey. Angel fans. Zollicoffer doubles scoring Lewis and Powell. Patterson walks. Zolly scores on catcher's peg to second. No more runs were made. Score 9 to 0.

4th Inning

Wesleyan goes out in one, two, three order; and Carolina, with the exception of Lewis' walk, does the same.

5th Inning

W. Va. W. Shumaker pops to third, Talkington and Beck fan.

Carolina: Zollicoffer safe on short's error, goes to third on wild throws and scores after Patterson walks, on Barnes grounder to the pitcher. Wood and Massey ground out.

6th Inning

W. Va. W.: Withers singles by first. Wagner, Miller, and Blake go out easily.

Carolina: After Bailey's double, Powell, Lewis, and Angel come up but leave him stranded. Score 10 to 0.

7th Inning

W. Va. W.: Blake, Singleton, and Johnson are easy outs.

Carolina in her turn fails to score.

8th Inning

W. Va. W.: Talkington flies out. Beck is safe on Hardison's error, steals second. Withers fans. Wagner walks. Miller hits a slow bouncer to short, beating it out to first and scoring Beck and Wagner. Miller scores on Blake's single by short. Singleton flies out.

Carolina: Bailey safe on a scratch hit to short. Plyler sacrifices him to second Lewis doubles, scoring Bailey. Angel and Hardison fly out.

9th Inning

Neither side scored.

A SWIMMING CLASS

At the air grows warmer and modulates rural streams, bull rogs will take to plunging and fishermen will begin to digging worms. When warm weather's arrival is assured, the fisher will not spend his entire time on the bank, but will dive with his game n their element. Then will come a splashing and a dashing. By afternoon small boys will be missed from home by their mothers and turn up later with sand n their ears. Despite disciplining they will return to their pastimes, and when taken to the sea shore later in the summer, will apprise their parents of their acquatic acquirements.

In this way some learn to swim. Others are indebted to Y. M. C. A.'s for their ability to support themselves in water. There are others who are not skillful enough in water to feeling like thanking anyone.

There is no question of the advisability of a man's being able to swim. The exercise is invigorating and the ability may at anytime be of critical importance. At some colleges it is essential to graduation. Princeton requires a candidate for graduation to swim a certain distance. At Columbia some similar rule is enforced.

Why should not the University have a class in swimming? Gymnasium instructors are supplied to assist in physical instruction. Students might similarly be employed to conduct a swimming class. There are, no doubt, men in college who as skilled swimmers, proportionally, as the gymnasium instructors are gymnasts. The latter's services could certainly not be dispensed with, and swimming instructors might prove themselves equally serviceable. Instruction might be given every afternoon in the pool at some fixed hour, just as the drill is held in the gymnasium every day at four-forty-five.

The Tar Heel would certainly like to see some such plan put into operation. We see no reason to prevent it. The cost would be small, but the service rendered might be of real value.

THE CAMPUS SPIRIT

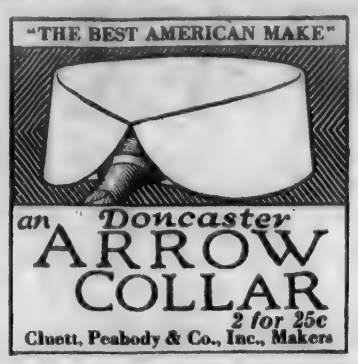
An alumnus of the University who returned recently after studying at another college, said, in comparing the University of North Carolina with the other institution, that one of the chief virtues here is the cordiality which pervades the campus, the spirit of friendliness in which one boy meets another.

Than Good Will there is hardly a better campus sovereign. We know of no one whose dictates we should sooner see executed. Without his sway, little real student activity could take place, nor could there be any spirit of unity.

We trust that however large the University grows this spirit will never wane, that formality will never take its place, even if Chapel Hill develops into a city. No aggrandizement could recompense for this loss.

OUR SOCIAL LIFE

However much a student may, work, sleep, and exercise, there is some part of the day that he will spend in none of these pastimes. There is a part—after meals, and various other times—which he likes to spend in companionship with his fellow students.



One thing that we need here at the University is some place where informal meetings of this sort may take place, some common meeting ground for every man in college. The Englishman had his inn, the American has his club. Every home has its sitting room where the family meets. But not a dormitory in the University has any sort of a common room where the various occupants of the building can stop for a few minutes talk with each other. Each man has his room and that is all. After living in a dormitory together for a year, two men may not know each other.

If we come to think of it, there is no place in the University, except the fraternity houses, where social life is encouraged. Some men never have the opportunity to sit around a fire from October to April; some never sit in an easy chair from the time that they leave home until they return. It is an alternating between the hard seat on class to the straight chair at meal time, via the post office, back to the desk chair in the bed room. Off hours are spent in the drug store and the moving picture shows.

The present Y. M. C. A. does not offer opportunity for any sort of social life. It is too small and too poorly appointed.

Social life would grow in college if encouraged. We shall continue to look forward to the time when there will be a room on the first floor of every dormitory equipped with easy chairs and a fireplace and otherwise so fitted up as to serve as a common room, a sitting room for every occupant of the dormitory. We need such places. Their existence would mean much.

DRESSING ROOM GOSSIP.

Many think that Friday, March the 18th was a day of ill omen in the history of this, our dear old Universitat. On that day we lost the first game ever played on our new athletic Field, and that to Oak Ridge! Ugh! We don't like to think about it. And yet, the more we do think, the more insignificant the fact becomes, until finally it dwindles away to mere nothingness. It does not place a hoodoo on the field which will be for generations the scene of mighty struggles between Carolina and those who have the presumption to challenge her supremacy, and it is not a foreboding of future misfortune.

In the first place, the day was Friday. In the second place, look who we played. You can't shave with a carving knife. No more can you go swimming in a pail of water. On the same principle, Carolina couldn't do justice to an inferior team. You could buy a cigar with a one dollar bill instead of a nickel. But you don't always do it. Now let the silver certificate be Carolina, the cigar, Oak Ridge, and the jit, Wake Forest or A. & M. or some such school. By a very simple process in rhetoric, we substitute the verb "beat," for "buy." The result is self-evident. (Note to disciples of Horace:—This is an example of the Sophist system of argumentation.)

But there may be some superstitious ones who are yet skeptical, and who think that Nemesis has it in for Carolina. For their benefit, we will pursue the subject further. Consider these facts:—It is admitted that too much of a good thing is as bad as not enough. Did you ever try a dinner that was too good for you? Lobsters, etc? At first you devour everything in sight, but it doesn't take long before your gastronomic satiety admonishes you that you have arrived at the utmost degree of deglutition consistent with your code of escalapus. And it wouldn't do any good to down any more because it might not stay there. That is, if you have a democratic alimentary system. Again, did you ever hit a man that was too good for you? It just wont work, that's all. And so, our boys, unused to fast and well rolled ground found the Emerson Field too much for them.

Besides, who could play ball in brand new shoes? Zollie could hardly stand up in his, but that was because he got the pair ordered especially for Hart by mistake, (although we can't comprehend how such a mistake was possible). He said he felt like Charlie Chaplin II. That fact alone should account for the loss of the game, since it was the most natural thing in the world for each man to keep his eyes upon the grand stand, in order not to miss the admiring approbation of the spectators, the greater part of which was sure to fall upon him. And so there were more misses on the field than there were in the stadium.

In conclusion, look what we did to Elon!

TO break a young hoss hitch him double with an old one. To break in a new pipe hitch it up with old VELVET.

Velvet Joe

FIRST AMERICAN PLAY

Read Before Philological Club By Dr. Henderson

Thomas Godfrey's "The Prince of Parthia" was the subject of an illustrated lecture by Dr. Archibald Henderson at the meeting of the Philological Club in Davie Hall Tuesday night.

The substance of Dr. Henderson's lecture was as follows:

The Prince of Parthia was the first play written by an American, being produced in 1763 in Philadelphia. Thomas Godfrey, its author, was living in Wilmington, N. C., at the time the play was written. There he belonged to a distinguished group of literary men. His father, Thomas Godfrey, Sr., was an intimate friend of Benjamin Franklin. The Play treats of events connected with some of the royal families of the ancient kingdom of Parthia. It has reminiscences of many of the earlier dramatists but Dr. Henderson believes that its author drew still greater inspiration from some of Shakespeare's plays. It is written in verse and undoubtedly represents the work of a genius,—one who has almost fallen into obscurity. Dr. Henderson illustrated the lecture with many interesting slides of Godfrey's contemporaries, and also of characters in the play.

At the same meeting Prof. Foerster presented a careful and interesting study of Walt Whitman as a poet of Nature.

New Catalog Largest Yet Published

The sudden interest in arranging courses for next year may be attributed in part to the appearance of the University's new catalogue on the campus this week. The book this year is the largest ever published and contains 340 pages. This growth in size is due to the addition of many new courses and to the fuller treatment of various University's activities. Besides containing a veritable store house of information about University life, it bids fair to prove a difficult text book for Freshmen getting off entrance requirements this fall.

Publicity Bureau Discussed at N. C. Club

"North Carolina should have a Publicity Bureau giving unbiased, reliable information about the many opportunities that await industrious, intelligent labor in our fields and factories," declared R. E. Price of Rutherford county before the North Carolina Club Monday night. "Such a Publicity Bureau could make up a mailing list of desirable farmers in the North Central States and publish and mail out attractive booklets or folders to the state-at-large, the middle western farmers and the general public." Mr. Price then showed the success that has attended this plan in other states. Examples of this are "The Baby Beef Club of Texas," and the pig clubs of Georgia. He then showed how states supporting such bureaus have increased their population from 10 to 30 per cent in the last five years. The secretary of the North Carolina Publicity Bureau is doing everything possible with his meager, privately contributed allowance. What he is doing with $5000 to advertise the wonderful possibilities of North Carolina evidences the great services that could be rendered by an extensive bureau run on a large scale.

HOW OUR CAMPUS SHOULD BE

Dr. Coker Writes on the Beauties and Defects of Our Campus

"We still are lacking in any definite plan for the future growth of the University campus, but we hope that before any more building is done, such a plan will be in hand," was the statement made by Dr. W. C. Coker in his article, "Our Campus," in the last number of the University Magazine. "Like most things in America over one hundred years old," Dr. Coker said, "our campus has grown into its present form through pure strength and awkwardness."

The campus of the University was originally constructed in the shape of a big "E," the old well representing the little middle arm, the South Building the back bone and the Old East and Old West Buildings the other two arms. All outside was pretty much wilderness and wild beasts. As the University grew, her campus expanded and numerous buildings were piled around the big "E." "But," as Dr. Coker said in his article, "there was no comyrehensive and dignified plan for the entire campus of the Universty."

Dr. Coker proceeded in his article to examine some of the defects of the campus, sins of omission and commission by former architects which still mar the beauty and symmetry of the campus. Then he gave his ideas as to the future growth of the campus.

"Our larger hopes," he said, "must wait on more prosperous times. On Main street the campus should extend from the President's home to the present post office. The University Inn should be taken down, the Memorial Hall replaced by a better and more appropriate building, and the power plant moved farther to the south. We hope some day to see a woods-drive leaving the campus at a point about north of the Y. M. C. A. building and following the branch by the Judge's spring to the meeting of the waters and then returning along the other branch to the Raleigh road."

Prof. L. A. Williams will deliver the commencement address to the Sampson county schools April 27.

AUTO KIDNAPPER ARRESTED

Davis Arrested Near Here and Tried in Hillsbore.

Tom Davis and his son, Jack Davis were arrested at their home near Chapel Hill Tuesday night by Sheriff R. D. Bain, of Orange county, Deputy Sheriff A. P. Cates and Deputy Marshall Airsmith, also of Orange county, and Policeman S. F. Long, of Chapel Hill. The prisoners were taken to Hillsboro for detention. Two charges were preferred against the men, namely, interfering with an officer in the performance of his duty, and aiding and abetting in the theft of an automobile. The allegation is that the two men attempted to conceal the automobile which, it is alleged, was recently secured from a dealer in Raleigh by Charlie Davis, a fraudulent check having been tendered by Davis in payment for same. The officers found the body, top and other parts of the car hidden under a brush-pile near the Davis home. Bond in the sum of $200 each was required from Tom and Jack Davis, who are father and brother, respectively, of Charlie Davis.

CLASS DEBATERS PICKED

Eaton to Represent Freshmen, Tatum the Sophomores

Monday night the Freshman representative of the Di Society in the Fresh-Soph debate was chosen. This place was awarded to Clifton Eaton.

Last fall Eaton won the Freshman Debater's medal offered annually by the Di Society.

In a later contest W. S. Tatum was chosen as the Sophomore representative on the same debate. There were four others in the contest and all made good speeches. C. L. Snider took second place. B. H. Thomas and A. M. Coats will represent the Phi Society.

The question for the Fresh-Soph debate this year is, "Resolved: That the United States should grant the Philipines their Independence within five years.'

ANOTHER $50 HAS BEEN GIVEN

To Defray Expenses of Another Student at Fort Oglethorpe

Another fifty dollar Fort Oglethorpe scholarship has been anonymously given to Dr. Booker, chairman of the local National Security League, for the students of the University. The same conditions apply as in the case of the other scholarship and the same committee, consisting of Professors Booker, Wagstaff, and Stacy, will make the decision. Applications should be handed in writing to Dr. Booker before April 15.

Peof. Neuman Speaks Here Monday

Prof. Neuman of the faculty of Dropsy College, Philadelphia, an eminent Jewish scholar and lecturer, will speak here Monday, March 27 at 8:15 in Gerrard Hall, on "The Social Life and Ideals of the Jews in Spain." The lecture will be under the auspices of the local Menorah Society. Prof. Neuman is celebrated in Menorah circles and is well acquainted with his subject.

As The Paragrapher Sees It

We get what we deserve but the trouble is that we won't recognize it.

Always boost your neighbor, for some day you may want to sell your house.

Fighting with gas has been employed in America ever since the beginning of politics.

Ignorance begets worry; worry begets torture; torture begets craziness; therefore ignorance is bliss.

The future is what we hope the past might have been, but wasn't.

Some flowers bloom in spring, but a blooming idiot is always in flower.

Necessity is also the mother of contention.—The Merchants Journal.

Professor P. H. Daggett delivered a lecture on "The Electrical Age" in Henderson Thursday, March 23.

All cigarettes are pure, but—

purity alone doesn't make a cigarette SENSIBLE.

We don't know of a single one of our competitors who doesn't make his cigarettes of pure tobacco.

But a pure cigarette that didn't *taste* just right wouldn't do for *you*, would it?

And to be really *sensible* a cigarette must give you *more* than purity and a good taste.

It must be *cool* and friendly to your throat and tongue. And it must leave you feeling fine after a long-smoking day.

Fatimas are not the only cigarettes that measure up to all these requirements. There are other sensible ones.

But Fatimas seem to have a big margin in their favor on their *good* taste. Otherwise they could not outsell all other cigarettes costing over 5c.

You can't tell whether they will just suit your *taste* until you try them.

At the same time, you can easily prove how *sensible* they are by these two tests.

Most men who try Fatimas say "*Good Bye!*" to all other cigarettes right away. That's why Fatimas sell so fast.

Why don't *you* try Fatimas today?

Liggett & Myers Tobacco Co.

CAROLINA LOSES 11 INNING BATTLE TO WAKE FOREST BY SCORE OF 4-3

University Makes 10 Hits to Baptist's 6, But Loses on Errors; Lewis Stars

In a game characterized by costly errors Carolina lost to Wake Forest last Wednesday by the score of 4 to 3. Carolina got an early lead, scoring two runs in the first inning and one in the third. Wake Forest scored one in the fifth and two in the seventh, tieing the score. The final run which secured the game for the visitors was made in the eleventh inning by Franks who reached first on an error, stole second and came in home on Holding's single.

Carlyle and Vassey played a star game for Wake Forest, Lewis starred for Carolina, fielding in fine style and getting three hits. Curry pitched a steady game in the pinches, but lacked the perfect support of the team.

Line up

Wake Forest	Carolina
Herndon lf.	Zollicoffer rt f
Robley 3rd b.	Lewis 3rd b
Carlyle ss	Patterson ss
Holding 1st b	Barnes lf
Sams 2b	Massey 2b
Ellis rf	Bailey cf
Vassey c	Angel c
Ferree c f	Hardison 1b
Franks p	Currie p

THE GAME BY INNINGS

1st Inning

Wake Forest: Herndon out to short; Robley strikes out; Carlyle singles to left; Holding out at first.

Carolina: Zollicoffer hits to right, goes to third on fielder's error, scores on Lewis' sacrifice; Patterson walks, forced at second by Barnes' high fly to center, who muffs it but cuts off the runner at second; Barnes steals second, scores on Massey's double to center; Bailey fans. 2 runs.

2nd

Wake Forest: Sams out third to first; Ellis out to Zollicoffer; Vassey hit by ball; Ferree fans.

Carolina: Angel hit by ball, steals second; Hardison out to center; Currie out pitcher to first; Zollie safe at first on error of short; Angel goes to third, scores on Lewis' hit; Patterson out to left.

3rd.

Neither side reached second.

4th

Nothing happens in the fourth

5th

Wake Forest: Ferree safe at first on error of short; Franks hit by ball; Herndon safe on error of 1st; Robley strikes out; Carlyle out 2nd to 1st but Ferree scores; Holding out to left.

Carolina: Zollicoffer out short to first; Lewis singles; Patterson singles to left; Barnes singles; Massey fans; Baily out to short.

6th

Neither side reaches first, except Angel's double.

7th

Wake Forest: Ferree singles; Franks out third to first; Herndon safe on error of short; Robley walks; Carlyle singles, scoring Ferree and Herndon; Robley out at home on Holding's grounder to second; Sams out from second to first. 2 runs.

Carolina: Lewis singles; Patterson out to second; Barnes out to left. Score 3 to 3

8th

Wake Forest: Ellis fans; Vassey triples, Ferree out to short, Franks out short to first.

Carolina: Massey out to first, Bailey out to third, Angel out to center.

9th

Wake Forest: Herndon out to short, Robley out to second, Carlyle out to catcher.

Carolina: Lewellyn batting for Hardison, fans, Currie out from third to first; Zollicoffer out to first.

10th

Wake Forest: Holding to first on error of short, Sams out, pitcher to first, Ellis out pitcher to first, Vassey walks, Smith batting for Ferree walks, Franks strikes out.

Carolina: Lewis hit by ball, Patterson out pitcher to first, Barnes strikes out, Massey out second.

11th

Wake Forest: Franks to first on error, Robley hit in face with ball, Lewis batting for him fans, Carlyle walks, Holding singles, scoring Herndon, Carlyle out at home on throw from third, Sams out to left.

Carolina: Bennett hitting for Bailey doubles, Angel to right, Love batting for Wood out to first, Powell out to center.

Score 4 to 3.

BASEBALL SQUAD LEAVES FOR VIRGINIA GAME

Several Changes Made In Carolina's Line-up

The Carolina squad left for Greensboro on the special train Saturday morning for the first of the Virginia games. The train left Chapel Hill at 8:45 a. m. and and arrived at Greensboro at 11:30. The varsity squad consists of fifteen men. They are: Capt. Patterson, Cuthrell, Currie, Powell, Bennett, Hart, Zollicoffer, Hardison, Lewis, Love, Herty, Barnes, Bailey, Massey, and Wood.

The probable line-up and batting order for the game is: Patterson 2b, Lewis 3b, Bennett c, Zollicoffer 1b, Massey rf, Barnes lf, Bailey cf, Love ss, Cuthrell or Powell p.

The expenses of those scrubs who deserve the trip will be paid.

WHAT'S TO HAPPEN AND WHEN

Sunday April 2, 11:00. Regular services in the churches. 12:30 Discussion lead by Dr. Moss on "The Trinity" at the D. K. E. Hall.

Monday April 3, President Graham in chapel. 3:00 Virginia vs. Carolina on the Emerson Atletic Field. 7:30 Meeting of North Carolina Club in Peabody. 8:15 Spring Musical in Gerrard Hall.

Tuesday April 4, Dr. Pratt in chapel. 3:00 Carolina vs. Richmond College on New Athletic Field. 7:45 Discussion meeting in Y. M. C. A.

Wednesday April 5, Prof. Collier Cobb in chapel. 3:00 Carolina vs. William and Mary on the New Athletic Field.

Thursday April 6, Prof. Cobb in chapel.

Friday April 7, Musical in chapel.

Dr. Henderson Writes Drama Forecast

Dr. Archibald Henderson has been active in the literary world recently. In the latest number of The Texas Review, edited by Robert Adger Law, there is an essay by Dr. Henderson, entitled "America and the Drama: Forecast".

In the current issue of The Yale Review, edited by Professor Wilbur L. Cross, there is a review, by Dr. Henderson, of "Browning: How to Know Him", by Professor William Lyon Phelps,, of Yale University, and of "Carlyle: How to Know Him", by Professor Bliss Perry, of Harvard Universiiy.

PROF. McCLELLAN, WEIL LECTURER, SPEAKS ON "AMERICAN CITIZENSHIP"

Ex-Mayor of New York Makes Three Lectures, "The Nation," "The Law," and "The Citizen"

Professor George B. McClellan, formerly mayor of New York and now professor of economic history in Princeton, delivered the Weil Lectures for 1916 in Gerrard Hall here Wednesday, Thursday, and Friday nights. McClellan's lectures dealt with the general topic "American Citizenship." Mr. McClellan was born in Dresden and is the son of General McClellan of Civil War fame. He treated his timely topics in a thorough and interesting manner. Vigorous and clear in his thought and expression, he held the attention of his audience at all times.

"The Nation"

The subject of Professor McClellan's first lecture was "The Nation." "The nation," said he, "is that intangible something, that ideal which rules our heart and mind and which with one accord we are willing to serve and to obey, and to whose good all patriots have concentrated their best efforts."

Mr. McClellan then spoke of the power of nationality, that "selfishness so broad and so inspiring that for the individual it means self-devotion and self-sacrifice."

"In these days of materialism," he continued, "it has been for thousands the only ideal that they know. Many a man who has denied his God has given his life and his all for his country. Universal human brotherhood may some day become an actuality but it is still a long way off, and the highest and the loftiest ideal which has yet guided mankind in the practical affairs of government is the spirit of nationality which has covered and which rules the world."

"The Law"

That public opinion is the force that transforms a statute from a threat to a living, breathing law, was the central theme of the second lecture of the Weil series delivered Thursday night under the title, "The Law." Professor McClellan said that, as a rule, when a law is passed that failes to receive the sanction of public opinion, it soon drifts into oblivion, or if such a law be enforced, it invariably leads to corruption, perjury and bribery.

He continued by saying that while the framers of our Constitution provided for three distinct departments in the United States Government. Public opinion has decreed a certain redistribution of governmental powers scarcely contemplated by the framers of the Constitution, and not provided for in that instrument itself. Another great legislative rival of Congress is the Supreme Court, which today under the legal fiction of constitutional interpretation amends and vetoes at will any act of importance that comes before it. The legislative powers of the court have been a gradual development and have had the hearty, although unconscious, support of public opinion.

Professor McClellan paid a tribute to Chief Justice Marshall, to whom he said the people of the United States owe more than to any other man ever connected with its government except Washington. But for him, he said, the Constitution would have proved unworkable. In proof of this he cited some of Chief Justice Marshal's decisions; after which he divided the attitude of the American people towards the Constitution into three phases. The period immediately following the ratification of the instrument when it was considered of almost divine origin, and near treason for one to criticize it. Next, the Civil War period, during which the Constitution fell from its high estate and was treated with neither affection nor respect by those who were called, in the excitement of war, to govern under its provisions. "The third phase is with us now," he said, "the pendulum has swung back and the constitution once more occupies a warm place in the hearts of the American people."

"Our Constitution," concluded Professor McClellan, "is no absolute panacea for political ills, but the living vital force of our national life."

"The Citizen"

"The hope of our civilization, the hope of our country is in our younger men who, born under new conditions, come to the work with minds open to the arguments of the new economics, ready to deal fairly with social questions and world problems of our day," declared Professor McClellan in his third and last lecture Friday night on "The Citizen." Professor McClellan then proceeded to show how we have

PROPOSED STANDARD CLASS CONSTITUTION

Among the many organizations in the University whose affairs are loosely managed the several classes are perhaps most conspicuous. Class business is conducted in a haphazard manner. As a general rule, it is well nigh impossible to get enough members of a class together on any ordinary occasion to hold a meeting. And when a meeting is called and only a part of the members are present, no one can say authoratively whether or not those present have the power to go ahead and act in the name of the class. What per cent of the members shall constitute a quorum? What officers should the class have? What should be their duties? When should they be elected? How and when shall meetings be called? How shall money be raised, and how paid out? How can such and such a question of parliamentary procedure be settled? These and numerous other similar questions often arise in a class, and the manner in which they are sometimes settled gives rise to dissatisfaction and discord.

Being unanimous in the opinion that the best interests of the different classes would be subserved by the adoption of a class in which all such questions would be regulated, the Greater Council submits to the students in this issue of The Tar Heel the tentative draft of a proposed standard class constitution. In this constitution an attempt has been made to regulate some of the important questions that are common to all the classes. Most of its provisions will be readily understood by the students. However, it may not be amiss to say a few words in explanation of one or two sections.

Provision is made for a Finance Committee, and the duties of this committee are explained. At present whenever it becomes necessary for the class to raise money for any purpos, a meeting must be called, and an assessment levied. Meetings are not infrequently called for such purposes as procuring money to buy a football, or baseball equipment, or even such a trivial matter as raising a dollar to purchase class colors for use on University day. As a rule the class is willing to meet all reasonable expenses, but the members of the class dislike to lose an hour in raising a dollar to pay for class colors, or other similar trivial matters. Such a system is no doubt largely responsible for the laxness of members in attending class meetings. It is believed that the necessity for so many meetings will be eliminated by providing for a Finance Committee, and that the business of the class will be conducted in a more business-like manner.

Again, it is provided that the payment of class fees shall be a condition precedent to the right to vote and hold office. This provision is not new, and it hardly needs explanation. Several classes in the past have found it necessary to apply this rule. The failure of a large per cent of the members of the class to pay their proportionate part of the necessary expenses of the class, and the consequent necessity of other members paying their part two or three times over are happenings of too frequent occurrence. The provision in the proposed constitution will put behind the unwilling ones the pressure of their personal pride, and we believe it will be not ineffectual.

Lack of space precludes further discussion. If the proposed constitution is to be adopted, it ought to embody such principles as experience and observation have proved to be wise. To the end that it may as nearly as possible meet all needs, the Greater Council invites suggestions and criticisms. If you have a suggestion to name, see some memmer of the Council.

OSCAR LEACH.

PREAMBLE. We, the Students of the University of North Carolina, in order to provide for the more efficient organization of the various classes, both academic and professional, in the University, do hereby adopt the following Constitution:

ARTICLE I.

Officers and Their Duties.

Sec. 1. The officers of each class shall be a Prsident, a Vice-President, a Secretary, a Treasurer, and such additional officers as each class shall deem necessary or convenient.

Sec. 2. *The President.* It shall be the duty of the President to preside at all meetings of the class; to call class meetings when he considers it advisable, or when requested to do so by five members of the class, or as provided for in this constitution; to appoint committees as provided for in this constitution, or when instructed by the class; to post notices of class meetings at least twenty-four hours in advance of such meetings. He shall have no vote, except in case of a tie.

Sec. 3. *The Vice-President.* It shall be the duty of the Vice-President to perform the duties of the President whenever for any reason the President is unable to perform his duties. He shall also be a member of Greater Council.

Sec. 4. *The Secretary.* It shall be the duty of the Secretary to keep in a book to be provided for that purpose by the class an accurate and complete record of all the official actions of the class.

Sec. 5. *The Treasurer.* The Treasurer shall be the fiscal agent of the class. He shall receive and collect, and give receipts for, all fees and funds due the class, and shall pay out the class money when duly authorized thereto by the class. In a book provided for that purpose he shall keep an accurate and complete record of all receipts and expenditures. He shall also keep a separate account in the book of the financial relations between the class and each individual member of the class. At the end of his term of office he shall post all accounts, make a complete financial report to the class, and transmit his books to his succesor in office.

ARTICLE II

The Right to Vote and Hold Office

Sec. 1 *The Right to Vote.* Save as hereinafter otherwise provided, every member of the class, ex-

cepting the President, shall have the right to vote on all questions coming before the lass; provided, that no member shall be allowed to vote on any question who owes the class fees which have been due and unpaid for more than one month.

Sec. 2. *The Right to Hold Office.* Any member of the class who has the right to vote shall have also the right to hold office when duly elected thereto; but no person shall hold two class offices at one time.

ARTICLE III

Meetings

Sec. 1. *Regular Meetings.* At 2:30 on the Saturday next preceding the beginning of the regular spring term examinations the class shall meet for the purpose of electing officers for the next college year and of transacting such other business as may come before the class.

Sec. 2. *Special Meetings.* Special meetings may be called by the President whenever he deems it advisable, or whenever he is requested to do so by five members of the class.

Sec. 3. *Quorum.* A majority of the qualified voters of the class shall constitute a quorum.

Sec. 4. *Rule of Procedure.* ROBERTS' RULES OF ORDER in so far as applicable, shall be the guide on all questions of parliamentary procedure.

ARTICLE IV

Finance Committee

Sec. 1. *Appointment of Finance Committee.* There shall be appointed by the President, upon his election or within a few days thereafter, a finance committee.

Sec. 2. *Duties of the Finance Committee.* It shall be the the duty of the finance committee (a) to make an investigation early in each term (fall and spring), and determine as nearly as possible what the necessary class expenses for that term will be, and recommend to the class that it assess its members for this amount; (b) to audit the treasurer's books at the close of his term of office.

ARTICLE V

Amendments

Sec. 1. *How Proposed.* Amendments to this constitution may be proposed by a majority vote of the Greater Council or by a concurrence of a majority of the classes in the University.

Sec. 2. *How Ratified.* The amendment or amendments so proposed shall be published in The Tar Heel. After such publication the amendment or amendments so proposed shall be voted on by the student body in a meeting called for that purpose, and shall beome valid and binding as a part of this constitution when ratified by a three-fourths vote of the students.

Professor McClellan Speaks

Concluded from first page.

too often entrusted world problems to inexperienced men happy in the belief that we could work out our own political and ecomic salvation without the least regard for what goes on about us. We have always been in the habit of proclaiming democracy and believing that long ago we had answered the question of democratic government but the modern problem of democracy did not present itself to us later than it did to Europe.

Enacting the beatitudes will not of itself make the world perfect. Law is nothing but recognition of the existing custom; government is only the instrument of popular will. The hope of the future lies in the realization of a better understanding among all sorts and conditions of men. This may be had through education.

"This is your day and your opportunity, not so much because you are young and the world is before you, as because you are men of education, and by the grace of God you are Americans."

DR. WARDLAW HERE APRIL 4

Exchange Lecturer From South Carolina Speaks Here

Dr. Patterson Wardlaw, Dean of the School of Education of South Carolina, will come to Chapel Hill next Tuesday, April 4, as an exchange lecturer of the Southern Exchange Lectureship.

He will deliver two day lectures in the School of Education, the time and subjects to be announced later, and he will also deliver a general lecture at 8 o'clock Tuesday night. Dr. Wardlaw is a strong and interesting speaker.

The purposes of this lectureship are: to promote scholarship; to present in concrete form recent advances in some special branch of learning; and to bring the institutions concerned into closer relationship through exchange of ideas in regard to all vital problems affecting a modern university.

A thousand patriotic fellows on the field Monday ought to push Carolina to victory over any team! Get the pep up!

At a meeting of the Freshman class in chapel today F. C. Shepherd was elected class base-ball manager.

SPRING MUSICALE COMING

Miss Johnson, Contralto, of Raleigh, Assisted By Local Stars

With the coming of Spring, baseball, grass and flowers, comes also the desire to hear music other than the neo-harmonious strains of "In tha evening by tha moonlight" by a bunch of students. On Monday night the college and community will be given the opportunity to hear some good vocal and instrumental music. Miss Katherine Johnson, whose voice is well known to a number here will be the special attraction, but by no means the only one, because there will be Meb with his Petronian melodies; Enoch and his Swiss accomplishments; the University Orchestra in popular pieces; Earle Harris; a harmonious quartet; and others. A part of Miss Johnson's program will be composed of Folk Songs.

Tickets are now on sale at Eubanks Drug Store.

PROF. BLISS PERRY HERE

Eminent Critic To Lecture April 19, 20, 21

On April 19, 20, and 21 Professor Bliss Perry will deliver a series of three lectures, under the new lectureship foundation on Art and Literature. It would be hard to choose a man better qualified to speak on this subject than Professor Perry himself, since he is the Lowell Professor of Literature in Harvard University. He has also achieved considerable reputation as a writer and as a literary critic.

The general subject of the series of lectures is "Youth of Representative Men." The subjeces of his individual lectures are as follows: "The Young Napoleon," "The Young Goethe," and "The Young Emerson."

PROFESSOR NEUMAN SPEAKS

Menorah Society Lecturer Tells of "The Jews In Spain"

"The Jews in Spain" was the subject of a lecture given in Gerrard Hall Monday night by Professor Neuman, who was invited to speak here by the local Menorah Society. He traced the development of the Jews in Spain to its climax giving as a reason for their flourishing period the leniency of the Spanish government in dealing with them. The crown after experimenting extensively in methods of raising revenues turned the government of the Jews over to themselves allowing them to have their own courts, legislatures, tribunals, etc. It was then that they flourished under the responsibility put on them, and produced some of their greatest men. The Jews have always progressed when free from oppression by various countries, said Professor Neuman, and are now enjoying a fair degree of co-operation in this country.

CAPT. EMERSON TO BE ABSENT

Donator of Athletic Field Cannot be Here For Virginia Game

The rumor has been current on the campus that Captain Isaac Emerson, the donator of the Emerson Field will be present at the Virginia game Monday. Professor Noble when questioned as to this had the following to say:

"On Monday next the grand opening game will be played on Emerson Field between Virginia and Carolina. It is a matter of genuine regret that our generous friend and alumnus, Captain Isaac E. Emerson of the class of 1880, finds it impossible to be present on that occasion to see the great crowd which will then assemble in appreciation of his generosity, and also, of course, to see one of the greatest games of the present season. It was confidently hoped that Captain and Mrs. Emerson would be with us, but in a letter to his friend Prof. Noble he expresses great regret at having to remain with his family at his country estate, "Arcadia on the Waccamaw" near Georgetown, South Carolina.

Class Reunions Planned

The following classes are planning the biggest reunions ever held for this commencement: 1866, 1886, 1891, 1896, 1901, 1906, 1911, 1915.

Dr. W. D. Toy will lecture in Henderson, April 28, on "The German Universities."

C. S. PENDERGRAFT

AUTO SCHEDULE AS FOLLOWS:

Leaves Chapel Hill . . . 8:30 and 10:20 A. M., 2:30 and 4:00 P. M.
Leaves Durham . . . . . 9:50 A. M., 12:40, 5:08 and 8:00 P. M.

Other Trips Subject to Order.

PHONE 23 or 58 AND RIDE WITH THE OLD RELIABLE C. S. P.

Four Machines at Your Service Day or Night.

Why Fatimas are a Sensible Cigarette

What makes a cigarette sensible?

It must be delicious to your taste, of course. But the fact that Fatimas please the taste of most men—they outsell any other cigarette costing over 5c—doesn't, by itself, make Fatimas sensible.

Fatimas are a sensible cigarette because they also give you *cigarette comfort*.

They are *cool*. That means comfort to the throat and tongue. And better yet, they never make you "feel mean." The mild Turkish blend of all pure tobaccos in Fatimas takes care of that.

Stick to Fatimas and you'll discover at the end of every long-smoking day just what *cigarette comfort* means.

And you'll realize that you've found the one cigarette you'll want to stand by—*a sensible cigarette.*

Why not try Fatimas —today.

Liggett & Myers Tobacco Co.

Fatima won the only cigarette awarded the GRAND PRIZE, the highest award given to any cigarette at the Panama-Pacific International Exposition.

VOL. 24 UNIVERSITY OF NORTH CAROLINA, CHAPEL HILL, N. C., SATURDAY, APRIL 8, 1916 NO. 27

U. N. C. DEFEATS WILLIAM AND MARY AND RICH. COLLEGE; LOSES TO BAPTISTS

Curry Pitches 1-Hit Game Against William and Mary; Carolina Slugs Richmond College Hard

Wilbur Currie's gilt-edge pitching and Rudy Barnes' timely three-bagger in the seventh were the features of the game Wednesday in which Carolina defeated William and Mary 3 to 2. The game was one of the prettiest games staged in the local lot this season. Currie allowed only one hit and but for two or three bad bobbles by the infield would have held the visitors scoreless.

Garnett who did the twirling for William and Mary had Carolina guessing until the seventh when Barnes' three-bagger scored Zollicoffer who had gone to first on shortstop's error. Then Royster, batting for Love, drove a single into the right garden scoring Barnes.

The visitors scored first in the third. Zehmu singled and started to second; Lewis threw the ball to Patterson who dropped it and Zehmu kept going, scoring when Patterson threw the ball over Lewis' head. Again in the fifth Williams, who had reached first on Lewis' error, scored when Patterson let Hart's peg get by him, the ball going through Bailey in center field.

Carolina's third and last score came in the eighth when Patterson walked, advanced to second on Lewis' sacrifice, went to third when Hart was thrown out at first and scored on Zollicoffer's single.

Carolina 11, R. College 4

Carolina, by means of hard slugging, easily defeated Richmond college Tuesday on Emerson field by a score of 11 to 4. Patterson got a home run for Carolina, Barnes a triple, and Patterson, Hart, Zollicoffer, Massey, and Barnes secured doubles.

Ben Aycock twirled six innings for Carolina allowing only four hits and striking out seven; he was replaced in the seventh by Kinlaw. Barnes and Massey played star ball, each getting three runs. Liggan and Craven did excellent work for the Spiders.

Wake Forest 3; U. N. C. 0

Wake Forest won from Carolina 3 to 0, in Rocky Mount Thursday. The weather was cold and damp, but the game was warm and exciting. Carolina lost in the first two innings when the Baptists made three runs on six hits and a base on balls.

After the second inning both teams settled down and exceptional good pitching and fielding on both sides kept the home plate impregnable. The game was beautifully played, each team making only one error.

Ellis for Wake Forest allowed only four hits. Sams at short and Carlyle at second, with their sensational fielding, were two big factors in the Baptists' victory.

Captain Patterson secured two of Carolina's four hits. Barnes one and Massey one.

CAROLINA LOSES FIRST OF VIRGINIA SERIES

U. N. C. Nine Weakening in 8th, Loses 5--2

When Thurman, the big first baseman for Virginia, drove the ball high over the left field fence in the beginning of the eighth inning, Tar Heel supporters beban to fear a Virginia victory in a game which had, up to this point, been decidely Carolina's For seven innings Carolina had held a lead of two runs allowing Virginia no score, but the eighth was fatal.

In the fourth inning Lewis, the first man up was passed by McCall and went to second on Hart's sacrifice. Zollicoffer smashed a hot drive through the pitcher and was safe at first,—Lewis taking third. Zollie stole second while Strickley held the ball. Lewis scored on a perfectly executed squeeze play,—Bailey being thrown out at first. On the second ball thrown, Zollie, who had taken third on the squeeze, electrified the crowd with a clean steal of home.

SPRING MUSICALE DELIGHTS

Miss Katherine Johnson's Singing Chief Feature of Program

Better than any star course of the kind the University audiences have been used to seeing and one of the most enjoyable programs rendered in Gerrard Hall this year was the spring musicale, last Monday night, featuring Miss Katherine Johnson of Raleigh. Miss Johnson, who will be remembered as having sung in "The Messiah," an oratorio sung at the Episcopal church last year, has a voice of excellent timber which never fails to win admiration. The combination of clear enunciation and a clearness of tone make hers a voice of a very beautiful quality "The Angel's Serenade" by Braga, with violin obligato by Wm. Wright was excellently rendered. Miss Johnson's last number, a collection of four folk songs of different nations, was perhaps the most liked of all her numbers.

Miss Ferrell, of Raleigh also accompanied Miss Johnson. She was assisted in rendering the program by local talent. The audience was delighted with Mrs. P. H. Winston's rendition of "La

Continued on fourth Page.

SHAKESPEREAN PAGEANT

Charlie Coggin to Play Falstaff. Other Roles Selected

The try-outs and rehearsals for the Shakesperean performance to be given May 8-9 have revealed some remarkable talent. Most of the principal roles have been selected, and it is expected that all the parts will be defiinitely settled on within the next week.

The Rural Merrymaking scene, based on the "Winter's Tale", with its shepherdesses, morris dancers and may poles promises from the picturesque standpoint to be one of the best parts of the program. Miss Mary Henderson will play Perdita, and Bruce Webb Prince Florizel. The Community Club and school children will take the part of the dancers and rural characters. Buck Wimberly promises to make a splendid Autolycus.

The casting of Charlie Coggin for the role of the merry old Falstaff was one of the happiest selections of the committee. Not that Charlie would be easily mistaken for the bluff old Knight companion of Prince Hal, but with the voice that he can assume and the costume for the part the audience may expect to see one of the best pieces of character acting ever done here by a student dramatic star. The part of Prince Hal, the royal friend of Jack Falstaff and who afterwards denounces his old companion of the tavern, will be played by Dr. J. M. Booker.

Rehearsals for the positions of "The Tempest" to be presented have also been held. Miss Gypsy Barton will appear as Miranda. Dr. Wm. Dey will be seen in the very difficult role of Prospero. Jim Capps has been cast for the role of Caliban.

WHAT'S TO HAPPEN AND WHEN

Sunday, April 9, 11:00—Regular services in the churches. 12:-30 Dr. Moss leads a discussion in the S. A. E. house. 7:30 Professor Horace Williams speaks on the "Philosophy of Jesus."

Monday, April 10=President Graham in chapel.

Tuesday, April 11—Bishop Rondthaler in chapel. 7:30 general discussion in Y. M. C. A.

Wednesday, April 12—Prof. J. M. Booker in chapel. Debaters begin to arrive.

Thursday, April 13—Chapel open. 2:00 general meeting of debaters in Peabody auditorium. 3:30 Carolina vs Wofford on Emerson field. 7:00 Debate preliminaries begin.

Friday, April 14—Musical in chapel. 9:00 A. M. second set of preliminaries begins. 10:30 Interscholastic tennis tournament 3:00 Interscholastic track meet. 8:00 Final debate for Aycock cup 10:00 General reception in the Library.

Saturday, April 15—3:00 Carolina-Washington and Lee track meet on Emerson field.

NEXT WEEK IS HIGH SCHOOL WEEK CONTESTANTS ARRIVE HERE THURSDAY

Tennis Tournament, Track Meet, and Debating Finals Come off Friday. Schedule Given

As "High School Week", April 12-15, approaches the University committee on interscholastic contests finds itself busily engaged in making preparations for the coming finals in debate, track, and tennis. Visitors and participants in these contests will arrive on the Hill at noon Wednesday and Thursday, April 12 and 13. The program of activities as outlined by the committee follows:

Thursday April 13

2:30 p m. general meeting of all contestants in Peabody Auditorium.

3:30 Carolina-Wofford game.

7:00 first preliminaries will be held in the literary societies and other halls on the campus.

Friday April 14

9:00 a. m. The second debating preliminaries begin.

10:30 The interscholastic tennis tournament on the local courts followed by auto rides through the city.

3:00 The interscholastic track meet on the Emerson Field.

8:00 Final debate for Aycock Cup in in Memorial Hall.

10:00 Reception in Library for all contestants and visitors.

Those schools which won both sides of the question of greatly enlarging the navy in the triangular contests throughout the state held Friday, March 31, are:

Bald Creek
Bain Academy
Bessemer City
Biltmore
Bushy Fork
Cary
Cedar Grove
Chadbourn
Clarkton
Cool Springs
Columbus
Dixie
East Bend
East Spencer
East Durham
Ellerbe
Elm City
Fairmont
Faison
Fallston
Gatesville
Gibson
Gilliam's Academy
Glade Valley
Glen Alpine
Godwin
Graham
High Point
Jefferson
Laurinburg
Liberty-Piedmont
Lillington
Lowell
Lucama
Maundale
Milton
Mooresville
Morehead City
Morganton
Mount Airy

Vanceboro
Washington
Waynesville
Warrenton
Wendell
Wilson
Wilson's Mills
Winton
Norwood
Lake Landing
Higdonville
Mount Carmel
Gastonia

Two schools, Faison and Swannanoa, are sending four girls. Trenton and Vanceboro have three girls each while seventeen schools have two girls and two boys.

About six schools will participate in the tennis tournament, while twice that many are expected to take part in the track meet. The committee hopes that the student body will show an active cooperation in assisting visitors to Hill by showing them the University and entertaining them generally.

PROF. WILLIAMS SPEAKS

Addresses Students Sunday on "The Philosophy of Jesus"

Sunday night, April 9th, at 7:30 Professor Horace Williams speaks in Gerrard Hall on "The Philosophy of Jesus". This is quite an event of the year and every thinking University man will avail himself of this real opportunity.

The addresses that Mr. Williams has made in the past have caused extensive comment and discussion, receiving popular approval. In these addresses Mr. Williams appeals to the scientist as well as the philosopher and puts his thoughts in terms equally intelligible to freshmen and seniors.

BIG GAMES

Although the game with Virginia could not be played, it came near enough realization to prove that more visitors can be brought back to the Hill by a good athletic contest than by any other one event, with the possible exception of commencement. Despite the rain, some visitors arrived and reliable reports from Raleigh, Goldsboro, Greensboro, and the surrounding towns indicate that no small number of people would have come up to see the game.

This is one of the several reasons why it is beneficial to have big games on Emerson field.

A MODEL REUNION

"The 1911 Come-Back" is the unusual title of the most recently established University publication. As the name signifies, it is being put out by the Class of 1911 for the purpose of boosting the class reunion at Chapel Hill May 29 and 30. It is a four page paper, filled with entertaining matter about commencement plans.

The members of the Class of 1911 have the real spirit,—interest in one another, interest in the class, and interest in the University. They have the enthusiasm which accomplishes things.

To prepare for this reunion, a committee from the class met in Chapel Hill during the summer of 1914 and again in Charlotte last January. Plans were drawn up for a lively and genuinely enjoyable reunion. With the continued enthusiasm which the class is showing, its five year meeting promises to be a model for the reunions of past and future classes.

THE GYM MEET

We take pleasure in announcing the gym meet which is to be held with the University of Virginia here this spring. The gymnasium is as popular as the baseball and football fields or the tennis courts, and it is but treating the gymnasium team fairly to give them an opportunity to compete with some other college team. We trust that a meet with some college can be arranged each year.

OPERA AT HOME

Mention has made of the fact that the University needs more music than is at present available. We presume that in this situation, a suggestion that might be instrumental in accomplishing a little toward relieving this need will not be out of place.

Early in May the Metropolitan Company is to give a performance of Faust in the auditorium at Raleigh. Not often do we have the opportunity to hear such singers as Amato and Hempel and such orchestras as that of the Metropolitan Opera House. The prices are exceedingly reasonable and many students of the University would go if they thought that they would enjoy the performance. "Familiarity with the music," they say, "is essential to the enjoyment of it, and we have'nt that familiarity. The problem is to acquaint ourselves with it."

The faculty has always been glad to arrange extra-curriculum lectures which might interest the students. Plays have been read in chapel and various sorts of lectures have been given by different members of the faculty. A new variety might be tried as an experiment. If Victor records from Faust could be borrowed from the families in Chapel Hill who owns them, if a victrola could be secured, together with needles, and if a member of the faculty or the Community Club would volunteer to give an explanation of Faust and be responsible for the records to their owners—why could not proceedings by held in Peabody Hall or Chapel some afternoon that would be of real value? The Tar Heel has already secured the use of a victrola for the occasion. In other respects as well, we shall be glad to co-operate with any one interested.

A Letter From Sam Newman

The Tar Heel has received the following letter which it is only too glad to print. It is from a former member of Carolina's student body who is now at Virginia.

University of Virginia,
March 28, 1916.

Editor, "The Tar Heel,"
University of North Carolina,
My dear Sir:-

Permit me to give expression through the columns of your paper to the way an alumnus of the University of North Carolina feels about his Alma Mater upon a short visit to the Hill.

The occasional visits to the Hill of the Carolina alumnus mark the red-letter-days of his life. But the true spirit of Carolina can best be studied and felt when one returns not for the occasion of Commencement, or some other gala affair. That spirit is more appreciated, more realized to be true as "brick and water," when one returns just in a common week-day, when the college life is in its commonplace swing; and particularly after having attended another, perhaps neighboring, university.

The first thing that impresses the visiting alumnus is the genuine hearty hand-shake he receives from the President and faculty down to Henry, the watch tower. The second thing is the unceremonious welcome on the part of the students. May I be permitted to dwell on the latter point a little longer?

In no university of the magnitude as Carolina can a student claim the acquaintance of so many fellow students as the Carolina man. We have not been spoiled yet by the "civilized," "fashionable" attitude towards the relation of one student to the other as it prevails in other institutions. An air of simplicity, straight-forwardness, permeates the whole of Carolina: her faculty, students, and colored servants. The "smartness" of the present age that is responsible for building up an Indian cast system among the students of the larger colleges has fortunately been kept from Carolina. Let us hope that our University will keep pace with the material growth of other institutions; will acquire that outward "elegance" of which many Carolina men are envious. But let us jealously preserve the old Carolina spirit,—the spirit of Simplicity and Democracy!

Samuel R. Newman.

DR. WARDLAW, EXCHANGE PROFESSOR, SPEAKS

Urges a Balance of Curriculum and Extra-Curriculum Duties

"The May and Shall in Education" was the subject presented by Dr. Patterson Wardlaw, Dean of the School of Education of the University of South Carolina, Tuesday night. Dr. Wardlaw came to the University in the capacity of exchange lecturer. This system of exchanging professors was established last year between the Universities of Virginia, South Carolina, Vanderbilt, and North Carolina whereby each institution receives each year a series of lectures from a member of the faculty of some one of the other three universities named.

Professor Wardlaw said, in the course of his lecture, that there were two conflicting claims in education. The first and older one was that we went to college to study and acquire knowledge; the newer and later was that we went to college for inspiration. The former represents the concrete subjects that require study and teaching to understand and master; while the latter represents the sideshows of college life, such as athletics, societies, german clubs and Y. M. C. A's. All of these he said are essential to a well rounded life, but there should be a means of telling where the one should end and the other begin. The electives should be so arranged that the student would be compelled to register for a certain number of the "hards" even though it be necessary to give him extra units of credits for the number of hours spent in the lecture room.

These two phases of education, Dr. Wardlaw said, were not truly conflicting, but were complementary; yet, each encroaches upon the territory of the other thus bringing about ill-balanced conditions. He advocated ample provisions for both phases with each kept in its own sphere. The physicial, the social and the religious should be taken care of, but in doing so the primary purpose in education, which is intellectual training, should not be neglected.

Mr. Wardlaw explained that the Oxford students from America, despite the fact that they were the very best from our colleges, were acused by the faculty of Oxford University of being prone to do their work in a haphazard way. This he attributes to the fact that American students too often elect the "softs" in order that they may go through college without too much mental effort, which stamps upon them the indelible mark of careless students when they visit foreign universities.

SENIORS WIN TRACK MEET

Folger Makes 29 of the Senior's 47 Points

The track season was formally ushered in last Friday by a class meet in which the Seniors (or more accurately the Senior) won first place mading 47 points; the Sophs took second with 37; the Juniors marked up 33 and the Freshmen 7. P. B. Folger '16 won first place for his class with four first places and three second places totalling 29 points. L. M. Upchurch '18 won both the mile and two-mile by good margins. The first places were won as follows: 100 yard dash, Parker '17; 1 mile, Upchurch '18; 440 yards, Rimmer '18; 880 yards, Webb '18; 2 mile, Upchurch '18 220 yards, Parker '17; 220 hurdles, Telfair '17; broad jump, Hatcher '17; shot put, Folger '16; discus, Folger '16; pole vault, Folger '16; high jump, Folger '16; javelin, Long '16, 136 feet.

Dr. Wagstaff went to Graham today to judge the Burlington-Graham debate there tonight.

CLASS BASEBALL SCHEDULE ANNOUNCED

Season Starts Today; Ends May 5 With Championship Game

Class baseball was ushered in this afternoon by the Fresh-Soph game. A lively schedule has been arranged by the class managers and coach Daniel. In spite of the delay on account of the uncertainty of having the field to play upon, the season promises an interesting series of class games. The Juniors, Freshmen, and Sophomores are already in big league trim and the Seniors are begining to warm up on the side lines.

Schedule
1st Round
April 8 Fresh. vs. Sophs.
April 11 Juniors vs. Seniors
April 14 Fresh. vs. Seniors
April 15 Sophs. vs. Juniors
April 18 Sophs. vs. Seniors
April 19 Fresh. vs. Juniors
2nd Round
April 20 Sophs. vs. Fresh.
April 22 Juniors vs. Seniors
April 25 Fresh. vs. Seniors
May 1 Sophs. vs. Juniors
May 3 Sophs vs. Seniors
May 5 Fresh. vs. Juniors

The winner of the first round will play that of the second for the class championship on May 6.

Friday:

"DAWN OF A TOMORROW." With Mary Pickford. (Paramount.)

Saturday:

"LADY AUDREY'S SECRET." Featuring THEDA BARA. Fox Film.

DRESSING ROOM GOSSIP.

The sap is rising in the trees
The grass is turning green
The hound dog he doth scratch his flees
And spring is come, I ween.

The soda fountains 'gin to fizz
And lessons lose their charm?!
And Meb's accordion doth wheeze
And the alarm clock wont alarm.

"The lark is up to meet the sun
The bee is on the wing
The ant its labor has begun
And the woods with music ring"

And Swain Hall soon cold tea will serve
The day of shoat is o'er
And freshmen (if they have the nerve)
Will wear their coats no more.

Perhaps this will serve to explain the following effusion, which gushes forth from the heart as the juice in the succulent shrubs of the Arboretum. Our curiosity for learning becomes saturated with indifference, and Spring Fever runs amuck over all the campus. (Dr. Greenlaw prescribes larger doses of Carlyle for those affected with the malady. If you read this, you may need it.)

There's a naggin' and a taggin'
Strongly tuggin' at my heart
And there ain't no use of laggin'
When it's time for me to start.

I can hear them speckle beauties
Splashin' 'round them sparklin' pools,
So you needn't talk of duties
And them needless sort of rules.

I've just just got to pack my knapsack
With a hunk of salty sow,
And a sack of army hardtack
And a can of of malted cow.

And I want my little tin cup
Tinklin' 'gin my frying pan,
And I got to have my hound pup
And my trusty gun on han'.

Well I'm done with all this talkin'
I can't play the students part
And there ain't no use of balkin'
With this hankerin' at your heart.

—BUZZ & FLOPPY

Carolina Loses

Concluded from first page.

The storm broke in the eighth inning when Virginia scored four runs.

Carolina threatened to come back in the ninth when Patterson, first man up, was hit by a ball. Lewellyn batting for Lewis drove a long fly to White and was out. Bennett, batting for Hart, singled over third base. Morton made a spectacular stop of Zollicoffer's difficult grounder and threw him out at first, ending the first game of the series.

Hart's catching and Zollicoffer's fielding and base running were features of the game. Thurman's long drive and McCall's consistent work in the box were Virginia's chief assets.

Will YOU try a sensible cigarette?

Fatimas have a taste that wins most men on the first trial. That must be true. Otherwise, Fatimas would not be outselling every other cigarette costing over 5c.

But what *keeps* men so loyal to Fatimas is that *Fatimas play fair in every way.* They never taste "hot" and never leave a "sand paper tickle" or any "mean feeling" after continued smoking.

Fatimas are truly a sensible cigarette because

—they are always cool and comfortable to the throat and tongue and

—they leave one feeling tip-top even after a long smoking day.

—they are packed in a common-sense, inexpensive package. The value is in the cigarettes.

Their Turkish blend of all-pure tobaccos is combined in such a way as to make them always *comfortably mild,* yet rich in good tobacco-character.

Try them yourself.

PLAYERS SELECTED FOR SHAKESPEAREAN ROLES

Dr. Booker to Play Prince Hal; Mr. McKie to Play Quince

This week sees a practically completed cast for the Shakespearean Celebration. The rehearsals of the Community Club and the students under the direction of faculty coaches have resulted in the following casts:

"The Winter's Tale"

Florizel.....Bruce Webb
Perdita....Miss Mary Henderson
Autolycus.....Buck Wimberly

Shepherds and rustics: several minor roles to be filled by students.

In the role of Perdita Miss Mary Henderson will make her first dramatic appearance to a Chapel Hill audience. Bruce Webb, who last year made a name for himself in dramatics needs no introduction. Judging from Buck Wimberly's splendid interpretation of Lew Ellenger in "The Witching Hour" it can safely be said that his Autolycus will be an excellent piece of acting.

"Midsummer Night's Dream"

Hyppolita.....Mrs James
Quince.....Mr. McKie
Bottom.....R. B. House
Flute.....W. D Macmillan
Snout.....B. Lacy Meredith
Starveling.....Billy Steele
Theseus.....Zeke Cowan
Philostrate.....W. Barney Pitts

The "Midsummer Night's

TEN SCHOLARSHIPS TO OGLETHORPE GIVEN

Mr. A. J. Draper of Charlotte The Donor

Through the interest of Mr. A. J. Draper, of Charlotte, ten University students are going to have the pleasure of attending Camp Oglethorpe without cost between July the fifth and August the eighth this summer These scholarships are worth $42.00 each and are given for the purpose of stimulating interest in the first big student military camp to be held in the South.

All Carolina men are eligible who are over five feet four inches tall and who make application for the scholarships before May the first. The application should be briefly stated; a good form would be: "I wish to apply for a scholarship to Camp Oglethorpe." It may then be mailed to President E. K. Graham or Dean M. H. Stacy, or it may be placed in the letter box at the President's office.

Your previous military experience will have no bearing whatever on the basis of selection, but those men who from every point of view are best qualified to carry out the purpose of the encampment will be selected from among the applicants. No additional obligation for military service in the future is incurred by receiving one of these scholarships.

GYM MEET WITH VIRGINIA

Will Be Held Here on Easter Monday

A dual gym meet with the University of Virginia has been arranged for Monday night, April 24, in Bynum Gymnasium. Contests on horizontal and parallel bars, horse, tumbling, and flying rings will be held. The meet promises to be one of interest as it is first the since 1912 when Carolina defeated Davidson.

PROF. BLISS PERRY TO SPEAK HERE NEXT WEEK

Will Lecture on "The Youth of Representative Men"

The University and the people in the vicinity of Chapel Hill will enjoy an exceptional opportunity on Wednesday, Thursday, and Friday of next week Prof. Bliss Perry, Professor of English literature in Harvard University and one of the one-half dozen most brilliant and popular lecturers on literature in the United States will lecture here then. Following a time of service at Williams College, Mr. Perry was Professor of English literature in Princeton University from 1893 to 1900. During the decade from 1899-1909 he enjoyed the rare distinction of being editor of the Atlantic Monthly, probably the greatest American magazine. Since 1900 he has held the chair of English literature in Harvard University, and is known from one end of the country to the other as a charming and facinating lecturer on literary subjects. In deed, there are a few parts of the United States in which he has not lectured before the leading and representative educational institutions.

This series of lectures makes an especial appeal to young men and is particularly designed to touch the college student. Following in the footsteps of Emerson who wrote the famous essay on "Representative Men", Professor Perry appeals to the youth of today in these lectures on "The Youth of Representative Men", selecting Goethe, Emerson and Napoleon as his men. No student, professor, or member of the community can afford to miss this opportunity to hear a lecturer of the very highest quality in personal attractiveness and rare literary charm.

Dr. Stuart McGuire Speaks Tonight

"Cancer and its Causes" will be the subject of Dr. Stuart McGuire, who speaks in Chemistry Hall tonight at eight-thirty. Dr. McGuire, who has spoken several times in Chapel Hill on various medical matters, is president of the Richmond School of Medicine. The lecture, while given under the auspices of the medical society, will not be technical but promises to be of interest to the entire University.

PEACE ORATORS FROM 5 STATES HERE MAY 5

Peace Oratorical Contest Preliminary To Be Held Here

The Intercollegiate Peace Oratorical Contest, which extends throughout the United States, will hold one of its group contests in Chapel Hill this year. The date is May 5.

Speakers from one of the Southern sections of the contest, representing the states of Maryland, Virginia, West Virginia, Kentucky, and North Carolina, will assemble here to deliver their orations for peace.

Each state will be represented by one speaker. North Carolina will be represented by a Trinity man.

CLASS BASEBALL RULES

No One on Varsity After April 15 Can Play Class Ball

The following rules and regulations, drawn up by the Greater Council, shall govern the class baseball series 1916.

I (a) No man shall be eligible for class baseball who shall have been on the varsity squad after April 15, this not to apply to games played before April 13.

(b) No man shall be eligible for class baseball who is ineligible for varsity baseball on account of professionalism.

II All class championships shall be decided on a percentage basis, unless a majority of the managers of the teams agree before the season starts to let the championship be decided otherwise. A team before being awarded the championship must have played a majority of the games scheduled.

Thursday April 20—Chapel open. 8:00 Professor Perry on "The Young Goethe."

Friday April 21—Music in chapel. Carolina vs Penn. State on the Emerson field. 8:00 Prof. Perry on "The Young Emerson"

Saturday April 22—Track meet with V. P. I. at Blacksburg, Va.

GRAHAM WINS FROM WILSON IN THE STATE-WIDE HIGH SCHOOL DEBATE

Friendship Wins Track Meet, Wilmington the Tennis Doubles. Over 500 Visitors Here.

Surpassing commencement in the number of visitors and participants, and outstripping Junior Week in the universality of interest and diversity of amusements, "High School Week" held here Thursday and Friday has come to be one of the most important periods on the University's calendar. Sixty-eight schools sent 272 debaters to take part in the fourth annual debating contest, and it is estimated that they attracted to the Hill a total of 400 visitors. The fourth annual track and the first tennis tournament, participated in by 9 and 8 schools respectively, attracted about 150 visitors. The growth of the inter-scholastic debating contests for the Aycock cup has been phenomenal, there being 96 schools in the first contest, 150 in the second, 250 in the third, and 325 in the fourth. Four hundred schools are expected to take part next year.

The debate was won by Graham High School, the track meet by Friendship for the third successive time, and the doubles of the tennis tournament by Wilmington.

In the crowning occasion of all the events of the three days, the debate finals, Graham High School won from Wilson High School. Graham had the affirmative side of the query: Resolved, that the United States should adopt the policy of greatly enlarging its navy and, represented by Miss Myrtle Cooper and Boyd Harden, defended its side most ably. Dviad Isear and Wade Gardner upheld the negative side of question for Wilson.

Memorial Hall was, for once, really packed. And when the crowd left they were satisfied, for they felt that they had heard a debate in which both sides had been clearly and strongly defended, a debate worthy of the pick of North Carolina's high school debaters. Everyone felt that President Graham's words expressed the sentiment of the audience when he said to the two teams in his introductory remarks: "I congratulate you both if you win without pride or lose without excuses."

Miss Myrtle Cooper, the first speaker on the affirmative, elicited the most enthusiastic and prolonged applause of the evening. Both her debate and rejoinder were unusually clear, strong and incisive; her delivery was confident, presuasive and also exceedingly clear.

She proved, to the satisfaction of the audience, at least, these three points: that the United States must enlarge its navy if she wishes to keep in front rank of the world powers, that we can't tell what part we may have to take soon in regard to the great war and should be prepared for the worst; and, third, that unless our navy is greatly enlarged we may have to give up tenets of the Monroe Doctrine and allow some other nation to become the dominant power in the western hemisphere. "Our strength", said Miss Cooper, "is as yet potential, our weakness real. The solution of the problem is what the majority of the American people believe in—a greatly enlarged navy." Our history shows us that a navy is not an idle burden, but a necessity; for every five years of peace we have had over one year of war. But our navy must be taken out of politics before we can realize our national ideal. She then cited Belgium's unpreparedness and its result; "the pacificist", she insisted, "are the enimies of their country". She concluded her debate with a quotation from one of President Wilson's speeches: "You ask me to maintain the national honor and preserve peace; the time may come when I shall be unable to do both." "Let us not", Miss Cooper urged, "purchase peace at the price honor and duty."

Boyd Harden, Miss Cooper's colleague, dealt almost exclusively with the expediency of navy enlargement. "A greatly enlarged navy", he said, "will not only prevent invasion of our coasts and foreign possions, but will also obviate the necessity of a large standing army."

Wade Gardner and David Isear, representing Wilson, defended the negative with speeches well written and full of good points Gardner devoted his debate to proving these two points: we already have a navy surpassed only by England's and we have no reason to fear any other nation. David Isear, his colleague, dwelt on two supplementary propositions, namely: the proposed policy would destroy our world leadership for righteousness and bring war on us; and we may use other methods to preserve peace with honor.

Friendship Wins Meet

Friendship won the interscholastic track meet for the third successive year. Graham came in for second place and Hillsboro for third. The relay race was won by Greensboro with Friendship second.

Ray, of Graham, broke the records in both shot and hammer which he himself established last year. Cannon of High Point likewise broke his last year's record in the quarter by over two seconds.

On account of limited space only the names of those who finished first can be given. Friendship won a great many second and third places.

Summary:

100 yards—Perry, Graham.

THE HIGH SCHOOL DEBATE

The good that the high school debating system accomplishes we are as yet unable to realize. Not for ten or fifteen years, possibly, shall we reap the ripest benefits from it. It is awakening the boys and girls of the state to public questions which, but for the contest, most of them would be uninterested in. Aside from increasing their range of vision, it tends to strengthen the interest of their fathers, their mothers, and their audiences to governmental affairs. It tends to develop a more active and more competent citizenship, a more awakened and better regulated state.

PARALLEL READING

"Parallel reading" is one of the most loosely construed terms in our student vocabulary. In some courses a certain number of books are assigned to be read outside the class, which books, however, are not included in the examination on the course. This is what we mean by "parallel reading". It is a general term whic includes any sort of reading from perusal to superficial survey. A few men feel that parallel reading should be done carefully; others satisfy themselves with seeing a few words on each page. Last spring a man who was taking a history course in which considerable outside reading was required, stated the evening before the final examination that he had done none of it. By the following morning he had reviewed the text and done the required outside reading.

While this is an exceptional case, it seems to be the rule that all parallel reading shall be done as hastily as possible. No examination is given on it and, therefore, it is the feeling that no close study of it is necessary. Oftentimes haste is necessary when the amount of parallel reading is large. A man taking two or three courses, each one of them requiring several volumes of parallel reading, find himself in a quandary, unless he is a rapid reader.

We do not believe in the efficacy of "parallel reading" as the term is at present understood. Doubtless each of the volumes assigned contains pertinent information, but not a fifth of the men who read the books know when they put them down what is between the covers.

If fewer books could be assigned and a more careful reading of them required—if they could be included in the examination on the course—the situation would be improved. Each one of the books assigned, we do not doubt, would be of value if read understandingly, but not one of them leaves an impression if carelessly gone through. Aside from the uselessness of such reading, we believe that it has a harmful effect in that it is conducive to the habit of superficial reading. Fewer books—and these made subject to examination—we believe, would be of much more value than twice the number hastily covered.

THE DEBT RECOGNIZED

The Governor of Oregon annually receives a promise from the students of the state university to repay in good citizenship their debt to the state. Governor James Withycombe was recently given this pledge:

"As students of the university, that is maintained by the people of Oregon, I heartily acknowledge the obligation I shall owe them. The opportunity open to me here for securing training, ideals, and vision for me I deeply appreciate and regard as a sacred trust, and do hereby pledge my honor that it shall be my most deeply cherished purpose to render as bountiful return to the Oregon people and their posterity in faithful and ardent devotion to the common good as will be in my power. It shall be the aim of my life to labor for the highest good and glory of an even greater commonwealth."

ELECTION OF EDITORS

The election of Tar Heel editors will take place before long. Eight associate editors, a managing editor, and an editor-in-chief are all to be elected.

The method of procedure is laid down in the constitution of the Athletic Association. Two men for each position will first be selected by the Athletic Council, these names proposed to the Athletic Association at its last meeting of the year, and the requisite number elected.

Last year The Tar Heel instituted a supplementary system which proved successful and which it is proposed to duplicate this spring. A contest will be begun next week for the purpose of selecting interested and capable men to serve as associate editors. The successful candidates will be recommended to the Athletic Council, and being approved by that body, will be presented to the association for election.

The few rules governing the contest will be explained Monday night at eight-thirty in the Y. M. C. A. All men interested in securing a position on the Tar Heel board are requested to present themselves at this time.

BLUE RIDGE PICTURES SHOWN

In Y. M. C. A. Monday; Nomination of Officers Same Night

On Monday night April 17th in Gerrard Hall, 66 slides of scenes at and around Blue Ridge, North Carolina, the Summer Conference grounds of th Y. W. and Y. M. C. A.s of the South, will be shown. Many of the slides are beautifully colored and give one a very good idea of the beauty of Western North Carolina. It is well worth one's while to see these slides.

On the same night nominations will be made for the officers of the Y. M. C. A. for the coming year. These nominations will stand until Friday night when there will be a special meeting of the Y. M. C. A. in the Y. M. C. A. auditorium for the election of officers. Every member of the Y. M. C. A. is urged to be present. All are invited to see the slides at Gerrard Hall Monday night.

Players Selected

Concluded from first page.

Dream" section was very lucky in securing the service of Mr. McKie. The above cast under his coaching and backed up by his interpretation of Quince cannot fail to produce a worthy interpretation of the mechanics rehearsal and presentation of the tender tragedy of "Pyramus and Thisbe".

"Henry IV"

Prince Hal.....Dr. J. M. Booker
Dame Quickly. .... Miss Minish
Falstaff.....Chas. Coggin
Chief Justice.....Tom Linn
Poins.....
Bardolph.....I. H. Butt
Pistol.....A. Oettenger
Shallow.....

The committee was fortunate in securing for the role of Dame Quickly Miss Minish, who never fails to please by her readings and character interpretations. Charlie Coggin as Fafstaff may be expected to add to his dramatic fame. Dr. Booker, who has in the past been very interested in the Dramatic Club, and one who aided very much in raising the Dramatic Club to the excellent standard it now maintains will present nd excellent interpretation of Prince Hal.

"The Tempest"

Miranda.....Miss Barton
Prospero.....Dr. W. M. Dey
Ariel.... ...Curtis Henderson
Ferdinand.....Mr. Turlington
Alonzo.....W. B. Pitts
Caliban.....J. A. Capps

Since the final selection of the cast for "The Tempest", several excellent rehearsals have been held. Every role is completely filled and an excellent performance may be expected. No more happy selection has been made than the casting of little Miss Curis Henderson as Ariel, the sprite who is under the magic power of Prospero. Her interpretation of the part will be one of the most excellent pieces of acting of the whole performance.

Hamlet will be personated by Mr. W. S. Bernard.

Touchstone and Audry, two characters from "As You Like It" will appear in the scene based on "The Winter's Tale". Miss Nell Battle will be seen as Audrey and Mr. Edgar Long as Touchstone.

A Washington graduate student in chemistry recently received a ton of wood by parcels post. The wood which will be used for experimental purposes, was in short pieces and came in separate packages of fifty pounds each.

WOFFORD LOSES TO U. N. C.

Big Crowd Sees Carolina Hit Hard and Wofford Field Prettily

Carolina defeated Wofford college on Emerson Field Thursday 6 to 1 in a game full of long hits and snappy fielding. The weather was a mid-summer variety; the crowd, augmented by high school debates and other visitors, probably totalled fifteen hundred Powell's home run, the hitting of Barnes and Bennett, the pitching of Aycock, and pretty catches by Wiggins, Kirkwood, and Moore, of Wofford, featured the game. Carolina scored her first three runs in the second inning. Barnes first up, lined out a two-bagger and came home when Powell drove the sphere over left field fence for a home run. Lewis reached first on an error, stole second and third and went home on a fielder's choice when Hart hit to short.

Carolina was robbed of several two or three baggers by the brilliant fielding of Wofford's center and left fielders and first baseman. In the fifth inning Kirkwood robbed Bennett of a home run by a beautiful one arm stab just as the ball was floating over left field fence.

Aycock pitched good ball, striking out nine and walking only one. He scattered Wofford's six singles through nine frames in such a manner as to allow but one run.

DRESSING ROOM GOSSIP.

My darlingest Matilda,

It is sure a shame that they had two Sandy Mush men on the judging staff of the high school debate, because Sandy Mush has always been impartial to Turnpike, and that's how come you didn't win. I know you are better looking than any girl in Buncombe county, and besides they were all boys on the other side, so if the judges hadn't been married men you would have stood a heap better chance. Being married, they were naturally opposed to women getting up and debating or doing anything that takes them out of their square. (Some folks say "sphere," but I never saw a kitchen with concave walls yet.)

Anyhow, I wish you were in Chapel Hill so you could see all this crowd. I bet New York is something like this. You have to elbow your way across the campus, and it keeps you dodging to keep out of the way of all the Fords they've brought here especially for this debate. The train out at Carrboro couldn't handle all the traffic. Chief Long who hasn't had much experience regulating crowds, is thinking about doubling the police force, if he can get another good man who isn't too high priced.

I don't know who's won the debate yet, so that's about all the news there is except the track meet with Washington and Lee, and you'll see all about that in the paper. Before I close though, I've got something important to tell you, and I guess I had better follow Shakespere's example and put it in poetry. You know it was three hundred years ago this year that he died, and for some unknown reason everybody in Chapel Hill is planning to celebrate his death with great rejoicing. That's got nothing to do with this poem though, except that I bet 300 years from now folks'll be celebrating me.

I'm a poutin' and a pinin'
For that happy day to come
When the summer sun is shinin'
An' my education's done.

I'm a gropin' and a hopin'
Just to see my darlin' girl
And with her to go elopin'
Lightly thru the great wide world.

With love,
Hez.

Dr. Starr to Leave Chapel Hill

Rev. Homer W. Starr will conduct his final service in the Chapel of the Cross tomorrow. He has accepted a call to Church of the Holy Communion at Charleston, S. C., and will leave next week to take up his new charge there.

German Club Meets Wednesday

There will be a meeting of the German Club Wednesday afternoon at 2:10 in the Alumni building. Any one desiring to have his name put up for membership should see Tom Linn before the meeting.

Wilmington Wins in Tennis

By brilliant work Wilmington won out in the tennis doubles. Nine schools entered the tournament: High Point, Normal, Winton, Oak Ridge, Greensboro Durham, Raleigh, Chapel Hill, and Wilmington. Oak Ridge and Wilmington battled for the cup Saturday morning and Wilmington, represented by the Fenly brothers, won 6-3, 6-4, 3-6, and 6-4.

Class Baseball Rules

Concluded from first page.

III After a schedule has been made by the managers of the various teams, each team shall be required to play on the assigned date, unless,

(a) The ground conditions interfere, or

(b) The manager of one team shall give a written notification three days before the time of the scheduled game to one man who shall be named by the Greater Council for the purpose of receiving these notices, or

(c) The managers of the teams reach a succesful agreement not to play the game.

In case these rules are not observed and one team appears on the field in uniform, the game shall be declared forfieted to them in the abscence of their opponents.

Sophs Beat Fresh 13-12

The Sophs won from the Freshmen Tuesday by a score of 13 to 12. The game promised to be fast and snappy but the sixth inning reverted into a scoring match which continued throughout the remaining innings.

Capt. Hines for the Sophomores and Myer and Thompson for the Freshmen did the twirling Roberts caught a star game for the Freshmen.

Juniors Defeat Seniors

Four home runs, six triples, five doubles and nine singles characterized an old time slugging match between the Juniors and Seniors last Monday. Only eight errors were made by each team during the entire length of the game. Plyler and Norris heaved the horse hide in big league style The Juniors seemed to have the game cinched until the last of the ninth when the senior fighting spirit began to demonstrate itself. Meb Long thurmaniacally slammed a home run over the right field wall; Pike ditto. Hogan got a three bagger and Angel drove out a single. But they could only mass six runs making the final score 14 to 12 in favor of the Juniors.

N. C. HAS BAD WEEK

Losing to Wake Forest and Penn State

IN CLOSE HARD GAMES

Baptists Win in 9th Inning, Pennsylvanians in 10th

Penn State-Carolina

Carolina lost to Penn State here yesterday, 15-9, in an old-time ten inning slugging match. Four home runs, two triples, two doubles, and twenty-one singles were registered up during the game. Aycock was batted out of the box in the first inning and his place was taken by Cuthrell, who kept things pretty well in hand until the tenth, when the visitors pushed six men across the plate Three twirlers went in for Penn State.

The slugging ability of the Penn State nine was evidenced in the first inning. With bases full, Johnston drove the ball over the left field fence for a home run. Ewing scored on Moore's triple. With this five run lead Penn State experienced no trouble in keeping in the lead until the ninth inning when the score was tied, 9 to 9.

Carolina's first scores were made in the second when Hart's triple brought in Herty and Lewis. In the fifth, Bennett, second up, drove the ball over the fence in the left garden for four bases. In the seventh Cuthrell singled and scored on Patterson's double. Patterson later scored on Hardison's single. The sixth run came in the eighth.

In the ninth with the bases full, Wheeling, of Penn State, drove a long single into right garden, scoring Blythe and Robinson.

Massey led off for Carolina in this inning by driving the sphere over left field fence for a home run. Bennett doubled and scored on Hardison's single. Hardison went to third and scored on Herty's bunt. Score, 9 and 9.

It was in the fatal tenth that all hopes of a Carolina victory vanished. With the bases full Robinson singled, scoring Weatherald and Sullivan. Johnston was safe on first again, filling the bases, which were cleared a moment later when Wheling hit for four bases. Carolina failed to reach first in this inning.

Zollicoffer sprained his ankle in the fifth in attempting to steal sesond and was replaced by Hardison.

CAROLINA WINS IN TENNIS

Combs and Capehart Defeat Elon in Singles and Doubles

In the first match of the season Carolina easily defeated Elon in tennis. Capehart and Combs won out in both singles and doubles, the score in doubles being 6-3, 6-2. In singles Capehart easily overwhelmed his opponent, White, 6-2, 6-1. Combs defeated Hardcastle, 6-3, 6-4 The excellent serving of Capehart and the smashes of Combs characterized the game throughout.

Last Thursday in a more interesting match Carolina again defeated Elon on the home grounds. Walke who was substituted for Capehart in singles defeated White 6-2, 9-7. Combs defeated Hardcastle again 4-6, 6-0, 6-4. Capehart and Combs defeated White and Hardcastle in doubles 5-7, 6-0, 6-2.

Carolina showed up poorly in doubles. The team was erratic and sluggish in the first set, losing it after having Elon 5-2. After that it improved and quickly won the two following sets. The efficient serving of Capehart was again noticeable in the last two sets in doubles.

WHAT'S TO HAPPEN AND WHEN

Sunday, April 23 11:00. Regular services in all the churches. 12:30 Dr. Moss leads a discussion at the K. A. Hall.

FRESH-SOPH DEBATE APRIL 25

Debate on Philippine Independence to Take Place Tuesday

The Fresh-Soph Debate will be held in Gerrard Hall April 25, Tuesday night at 8 o'clock.

The query is Resolved, That the United States should grant the Philippines their Independence within the next Five Years.

The Di Society will be represented on the affirmative by Messrs. W. S. Tatum and J. C. Eaton.

The Phi Society will be represented on the negative by Messrs. A. M. Coats and B. H. Thomas.

It promises to be an interesting debate.

U. N. C. TRACK TEAM WINS

Defeats Washington and Lee 73 to 52

The Carolina track team defeated Washington and Lee Saturday, 73 1-2 to 52 1-2 in the opening meet of the Carolina season. Carolina showed exceptional strength in the distances and in such field events as the discus and shot put; winning all but two points in these events.

Upchurch scored the largest number of points for Carolina, walking away with first place in both the mile and two mile. Rand of Carolina was winner of second place in both events. Johnson of Carolina stood second in individual scoring. Cromwell of Washington and Lee was the largest individual point getter, winning two firsts, one second, and a third. Shultz came second with 10 points to his credit. The State record in the pole vault was broken by Hallman of Washington and Lee, who cleared the bar at 11 feet 6 inches. The former record was held by George Strong of Carolina in 1913 with a height of 11 feet.

The meet today was the first inter-collegiate meet to be held on Emerson Field. The track was in good condition but too soft for sprinting.

D. D. D. AND MYSTIC ARC MYSTERIES SOLVED

Senior Stunt to Have Novel and Laughable Features

The mystery of D. D. D. has been solved. It stands for Dr. Doaf's Dilemma, the name of the Senior Stunt. Farther than this all is silent. It has been hinted however, that the Stunt will embody the most novel feature that has ever been tried in a Gerrard Hall production. It is called "The Mystic Arc," through which music will be produced as though by a brass band. It is a 3000 candle power affair which the electrical engineering school has been working on for the past two months. One of the parts necessary is the only one in the United States and is only being lent by one of the large New England electrical manufacturing companies.

The play itself is said to be the funniest that has ever been attempted by a senior class. Those who have heard it say that it differs from most previous stunts in being a real play instead of a series of disconnected acts. Rumor calls it the most delicately humorous production of many seasons. Laughs abound throughout it. The interpretation of character is said to be unsurpassed. Among the actors are some who have already distinguished themselves before Chapel Hill audiences and others who will shed their first tears behind the footlighes in this performance.

JITNEY WAR BREAKS OUT

Dream of Chapel Hill-Wide Peace Shattered by Tank and Pendy.

To those gathered down town about mail time last Sunday afternoon, it would seem that William J's dream of world-wide peace is yet a long way from realization. The war cloud, which for quite a while has been hovering over the horizon, burst on this eventful day, the 16th of April, 1916, the contending factions being the "pioneer in the business" on the one side, and "Tank" on the other.

For a while the on-lookers got a little insight into what may be the conditions in Mexico. The "pioneer", discovering what he considered an infringement upon his "inalienable rights", and tiring of "watchful waiting", suddenly decided upon action without sending a single note. Hastening homeward, he returned quickly to the scene of battle, "armed to the teeth". The crowd made way before the blue-steel Winchester, and the "pioneer" had an open field.

Luckily for the peace of the community and for the advancement of world-wide peace, "Tank" had seen fit to retreat in due time, remembering, no doubt, the old adage, "he who fights and runs away will live to fight another day". After close investigation, the "pioneer" found nothing left for him to do except to "cuss". This he did nobly, and, for fear of the board of censors, his remarks, which weren't at all complimentary to "Tank", must be here omitted. The board of arbitration at last succeeded in leading him home, and, with the aid of a little morphine, in putting him to sleep. Thus ended the threatened Jitney War, and once again we turn our minds towards thoughts of peace

Y. M. C. A. Officers Nominated

At a meeting of the Y. M. C. A. Monday night the nominating committee announced the following nominations of officers for the coming year: President, E. L. Mackie: Vice-Ppesident, D. E. Eagle; Secretary, Marion Fowler; Treasurer, Ralph Stockton.

Following the nominations, stereoptican slides of scenes on the Y. M. C. A. Assembly grounds at Blue Ridge, nearby mountain scenery, student groups, leaders, etc. were shown, and were explained by Tom Boushall. These views give a very good impression of the grandeur of that part of western North Carolina, and also a conception of the greatness of the summer student conference and the advantages offered by it. From present indications it seems that Carolina will this year send by far the largest delegation to Blue Ridge that she has ever sent.

Prof. H. H. Williams will lecture to the Baraca Class at the Baptist Church Sunday, April 23, at 9:45. His subject will be "The Resurrection".

THE YOUTH OF GENIUS

Lectured on by Prof. Bliss Perry, Taking

THREE MEN OF GENIUS

Napoleon, Goethe, Emerson Lectures Interesting and Inspiring

Napoleon

One of the most brilliant and interesting lectures of the year was delivered Wednesday night by Prof. Bliss Perry of Harvard University on "The Young Napoleon." This was the first of a series of three lectures delivered by Prof. Perry on "The Youth of Representative Men." The character, habits, and achievements of the young Corsican for the first twenty three years of his life were presented.

Prof. Perry emphasized the fact that Napoleon was not of French descent. He was of pure Italian blood. When a schoolboy of thirteen, on being called a bonehead by a teacher, he replied, "I am a man and expect to be treated as one." His difference from other boys, was that he had the ability to put into practice the knowledge he obtained from books. He formed the habit of never forgetting anything that he wanted to remember. The Russian Emperor said that he was the only man in Europe who understood the value of time. Napoleom said of himself, "My talent is, I see things clearly=I was born that way."

When Napoleon reached Paris a little alien schoolboy in company with a Jesuit Priest and four other schoolboys no one conceived of the idea that within twenty years he would be the ruling figure of all Europe, except perhaps his father who on his death bed said, "Where is my son Napoleon, whose sword will make kings trembie; who will change the face of the earth?"

Napoleon took the crown from the hands of the Pope and placed it on his own head,—a self-made man. But he had not morals enough to raise himself above the ordinary rogue. History marks him down as a model failure. He played the game of world fame or downfall and lost because he was blind to the instincts of humanity and justice.

Goethe

"Goethe," Germany's greatest man of literature and scholar, was the subject of Professor Bliss Perry's second lecture, delivered on Thursday evening.

The story of Goethe is the story of a troubled university student of today, had his love affairs, his ambitions and his disappointments, only in Goethe's case they were more intense. In childhood he was a sickly youngster whose life was valueless in the sight of those who knew him

PROFESSOR PERRY

One of the most entertaining speakers who have come to Chapel Hill with the present student generation is Professor Bliss Perry. His lectures were, happily, not of that abstruse variety which we respect because they sound intelligent but which really mean nothing to us. His subjects could not have been more aptly chosen for their appeal to college men. He is the sort who makes the widest appeal because he is most widely understood. Of the other sort we do not have enough to get accustomed to, and when they do come, their doctrines are so unfamiliar as to be incomprehensible to the average student.

What Professor Perry said will probably be retained longer by those who heard him than most of the lecturers who have spoken in Gerrard Hall this year. We have the greatest respect for the man who can lecture to students in plain terms instead of abstract sentences.

CLASS DORMITORIES

The junior class is considering the advisability of making Battle, Vance, and Pettigrew senior dormitories next year. The University has agreed to the plan, and to facilitate matters, has made concessions in room rent. The cost of a suite for two occupants will be $100 for the entire year. Three desiring to room together can secure a suite for $115. The president of the class has interviewed some sixty or seventy members, all of whom, except two or three, endorsed the plan. These stated that they were unable to pay the rent or disapproved of the idea.

The plan, if adopted, may lead to the separation of the students into class dormitories. This, we are inclined to think, might prove advisable. To have the entire membership of a class lodged in the same building would certainly tend toward unity of sentiment and action, toward vitalizing class spirit. In the case of freshmen it would be equally profitable. If the members of the freshman class were so situated as to become acquainted naturally and easily as soon as they entered college, there would be less likelihood of division later. On the other hand, classes which are not unified in their freshman and sophomore years generally remain divided until graduation. Freshmen who associate largely with upper classmen find themselves lonely when their friends graduate and leave them two years later. However close attachments a man may form among upper classmen, the fact remains that he is dependent for most of his friendships upon his own class. A man's classmates are the ones who stay with him during his entire four years in college, with whom he has common interest, who have the same experiences with which he goes through. There are numerous cases in college now where men, when they were freshmen, associated altogether with upper classmen, and now that the upper classmen are gone, find themselves with few friends in the middle of their college course when they should be profiting most.

The plan which the juniors have taken up is worth the consideration of the other classes.

A POSSIBILITY

All of us are anticipating the summer vacation as a time of considerable enjoyment. We are naturally expecting pleasant experiences. We anticipate pleasures and let misfortunes take care of themselves. Yet the latter are as real as the former and come just as frequently. How often do we look forward to pleasure and experience pain! How many of us who anticipate happy summers will realize them?

Every fall men who, in the spring had summer plans made, who could look the highest and see the fartherest, come back to college with statements as to why they did not realize their schemes. Various reasons are given, ascidents, jobs, lack of money, and too often sickness—preventable sickness, typhoid fever.

Many of us live in sections where typhoid is not uncommon and where it is not unlikely that we may contract it. Yet we look optimistically, blindly on, saying, "Oh, I won't catch it"—and it gets us.

Typhoid fever is a now inexcusable disease. It has been proved altogether preventable. To become immune costs nothing, no money and no suffering. The vaccine which wards off this fever is gladly administered here at the infirmary. In fact, every student is urged to present himself for inoculation at the infirmary. During the summer and the coming year we may not run into any danger of typhoid, but again we may, and if we do, it means six weeks in bed, suffering, doctors—and their bills—medicine, nothing to eat, and the whole family discomforted.

HIGH SCHOOL BASEBALL RACE

Starts May 1; Many Teams Entering State Championship Contest

The championship series in the third annual inter-scholastic baseball contest will begin about May 1. Shortly thereafter, the team winning out in the West will meet the team from the East here in the final game for the State Chamship. Many schools in both the East and the West are desirous of entering the championship series, and are working hard to meet the necessary requirements. The Sylvan High School, of Alamance County, which has won the championship for the past two years, is making a bid for a third championship cup. The date for the final game will be decided upon by the committee soon after the 29th of this month.

Informal Gimghoul Dance

The Order of Gimghouls will be at home in their lodge Thursday afternoon April 27 at an informal dance. The faculty and students are invited. Dancing will begin at four o'clock.

GYM TEAM READY FOR MEET

Clarkson, Jones, Devereux, Ginn, Crowell, Siddall, Ravenel, and Marsh, Carolina's Men

After a lapse of three years the University will have a chance to see the gym team in action against a foreign foe, Virginia. The meet will be held on Easter Monday, and since Dr. Lawson has been at work rounding his men into shape for the last two months, it promises to be worth seeing. Three men will work on each apparatus, each man doing three stunts. The work of the individual men will be watched with interest, as but two have as yet made their letters. This meet affords the others an excellent opportunity of clinching theirs.

Virginia will bring about eight men down who will probably be faced by Clarkson, Jones, Devereux, Ginn, Crowell, Siddall, Ravenel, and Marsh.

DR. STARR GOES TO CHARLESTON

Will Take Charge of Church of the Holy Communion There

Dr. Homer W. Starr, who has been rector of the Chapel of the Cross for the last 5 years, has accepted a call from the Church of the Holy Communion Charleston, S.C. He had a large acpuaintance in the vicinity and University many of who see him leave with much regret.

At Charleston Dr. Starr will have a very large church and some work in connection with the Porter Military Academy.

It is hoped that Rev. H. H. Covington of St. Pauls, Norfolk, who recently conducted a mission here will accept a call to the Chapel of the Cross.

PORTRAIT OF MAJOR HINTON

Presented to the Di Society by Miss Mary Hinton of Raleigh

Last Saturday night Dr. Battle presented a portrait of Major Chas. L. Hinton painted and given by his granddaughter Miss Mary Hilliard Hinton. Dr. Battle's short biography of him showed that he had been State Treasurer, a trustee and executive committeeman of the University and that he always was a warm friend of the University. He was born in Wake County in 1793, was graduated from this University in 1814 and died in 1860.

Miss Mary Hinton is the editor of the N. C. Booklet. She is one of the few who are trying to keep alive the "grand old traditions of the Old North State".

AMERICA, TRUSTEE OF NATIONS

Subject of Rev. C. E. Maddry's University Sermon

"America, the Moral and Spiritual Trustee of the Nations" was the subject which Dr. C. E. Maddry, of the Tabernacle Baptist Church at Raleigh, class of 1903, used Sunday night in delivering the monthly University Sermon.

The speaker gave five reasons for his subject: the geopraphical position of the United States, its size, the purity of the Anglo Saxon Race as preserved in our country and especially in the South, and the financial and moral power of America. He proved by various instances from history that the Anglo Saxon Race was the leader of all races, and pointed out how the hand of God hod been in the affairs of America.

He closed by stating that at the close of the European War, America would be called upon to play an important part in adjusting the last fortunes of war.

Speaking at Latin American Club

On Thursday night, May 4th, at 9:00 p. m. the Latin-American Club will give a smoker, complimentary to Mr. C. L. Chandler, South American Agent of several Southern railways. Mr. Chandler is well known at the University and has many friend here. He has spent nine years in South America as an American Consul and has since made many trips to the different republics of the Continent to the south of us.

The smoker is open to any one in college who is interested in Latin-America and who would like to meet Mr. Chandler and talk with him about the countries and opportunities there. Cards to the smoker may be secured from D. E. Eagle, Clyde Miller, or the Y. M. C. A, office at 25 cents each.

Mr. McLean of Richmond to Speak Tuesday

On Tuesday night, April 25, Mr. John A. McLean of Union Theological Seminary in Richmond will speak in the Y. M. C. A. Auditorium on "What Are You Going to Do?" Mr. McLean is a graduate of the University and will be very interesting in what he has to say.

Due to the fact that there was a small number at the business meeting of the Y. M. C. A. on Friday night for the election of officers, the officers will be elected immediately preceding Mr. McLean's talk.

The Youth of Genius

Concluded from first page.

but fate seemed to be with him and he refused to die.

In his provincial college he studied subjects similar to those studied by college students at the present time and graduated at the early age of fifteen with high honors

When he left home for Strassburg, friends expected, and he believed himself, that he would dazzle all who came near him with his knowledge. This conceited idea was soon knocked out of him just as it is knocked out of many university students who attend universities today. Goethe awoke to the fact that Strassburg was not dependent upon him for its existence. Such an awakening was then, and is still the making of any student.

This German boy took an inventory of himself to learn where he was the weakest and then went about strengthening the weaker places in his nature. He could also see his past mistakes and with perhaps one exception, love, he never made the same blunder twice. In referring to this, Mr. Perry said: A wise man potentially is a man who can look back and say, 'I have made a fool of myself. But the greatest thing about Goethe was his power to translate his own experience into literature. Even before leaving Strassburg, he had written the first act of Faust, which is taken from experiences of his own life."

Emerson

Professor Perry's last lecture, given Friday night, was on Emerson, the individualist and transcendentalist, a seer who dreamed his own dreams and a man who boldly spoke his own thoughts.

In the first part of his lecture Professor Perry dwelt affectionately on Emerson's early home life in the little town of Concord, Massachusetts. Ralph Waldo was one of five boys, and as their father died before the boys grew up they had a pretty hard time of it. They had one overcoat between them that they called "the overcoat." As a youngster Emerson was sickly and not in the least promising. In early life he met with a series of disapointments, that robbed him of the buoyancy and self-confidence of youth. He graduated near the foot of his class at Harvard and suffered the humiliation of forgetting his graduating oration when he attempted to speak it before an audience. He was elected poet of his class, it is true; but only after seven others had declined the office.

Emerson's intellectual and spiritual sides may be shown in three of his utterances. Professor Perry took these three up commented upon them.

Emerson made the first one in his first book, a collection of poems called "Nature," which he wrote after returning from Europe. The chief thought in this book was the indivisible union of God with Nature. Emerson contended that God was in material nature as well as in human nature and that there is a strong bond between the two.

His second great utterance was made in a Phi Beta Kappa address, in which he stressed the importance of a man's realizing and developing his own individuality. If one man, said Emerson, will but think his own thoughts and not be dependent on the thoughts of others, the world will at last come around to him.

Emerson's third great utterance was made concerning the Christian religion not as a historic fact but as a living power. "God is, not was," said Emerson "speaketh, not spoke."

Wake Forest Game

Wake Forest won its third victory of the season over Carolina Tuesday a t Wake Forest by the score of 4 to 3. Herndon's single in the ninth with two down sent the winning run in.

Errors in tight places cost Carolina the game.

A muffed fly by Massey in the sixth let in the tying runs, and a similar error by Barnes in the left field in the ninth inning paved the way for the winning run. The stick work of Zollicoffer was the redeeming feature of the game, the Tar Heel first baseman securing three successive hits.

Carolina scored twice in the second inning and once in the sixth. Wake Forest tied the score in the sixth, three singles and a base on balls coupled with Massey's error, letting in the needed runs. In the ninth Smith reached first on Barnes' error and scored on Herndon's single.

Even a King can't dictate what you should like or not like

If it so happened that Fatimas were originally "Made and blended for the King of Whatiz"—would that fact prove that Fatimas best?

It would not.

A man's taste is his own. A cigarette that might delight some old potentate's palate would not necessarily please you.

That's why we leave Fatimas up to your taste.

But there is something more than good taste that is mighty important to you.

No matter how good tasting a cigarette may be—it can only be the SENSIBLE cigarette for you if it is *comfortable*, too.

Its pure tobacco must be cool and *comfortable* to your throat at all times. And it must leave you feeling fine and fit at the end of a hard-smoking day.

Will it do all that?

Then, it is the *sensible* cigarette for YOU.

There are thousands and thousands of men who believe that Fatima is the most sensible cigarette there is.

sands of other men have—that Fatimas have just the *cool, mellow* taste that you've been longing for in a cigarette.

You may find that Fatimas have the kind of mildness which allows you to *smoke more of them* than you might of other cigarettes.

You may find that Fatimas offer you a little more satisfaction in every puff than you ever before found in any other cigarette.

Buy your first package of Fatimas and test them today.

BASEBALL TEAM INVADES NORTH, WINNING TWO GAMES, LOSING FOUR

Defeats Washington & Lee and Delaware College; Loses to Georgetown, Catholic Univ., Virginia, and Navy

In a long, but intensely interesting game, Carolina downed Washington and Lee by the score of 7 to 4.

Washington and Lee started the scoring in the fifth when Currie, pitching for Carolina, lost his poise for a few minutes and allowed four men to cross the plate. Powell, taking his place, held the opposing team down for the rest of the game.

In the eighth Pierotti, in the face of two errors, went to pieces and allowed Carolina four runs. Neither side scored until the fourteenth when three hits, a sacrifice fly, and a walk gave the Tar Heels 3 runs. Powell retired the Generals in one, two, three order thus ending a fourteen inning contest in favor of Carolina.

HOPKINS WINS DEBATE, CAROLINA MAN HELPING

Carolina Wins From Virginia but Loses to Hopkins

Johns Hopkins won out Saturday night in the triangular debate by defeating Carolina at Charlottesville and Virginia at Chapel Hill.

Carolina represented by F. F. Bradshaw and T. F. Ruffin won from Virginia at Baltimore by the unanimous decision of five judges, but lost at Charlottesville in spite of the hard work of Crouse and Edney. The query was: "Resolved, That our Federal Government compel every ablebodied citizen, between the ages of 18 and 24 years to take under adequate provision, one year of military or naval training."

The debate on the Hill Saturday night was close and spirited.

Concluded from 2nd Page

VIRGINIA WINS THE SERIES

Last Game of Annual Series Played at Charlottesville

By winning from Carolina Tuesday afternoon Virginia secured the annual series for the season. The game, which ended in the final score of 8 to 3, was an easy victory for Virginia.

Calloway pitched a steady game, allowing Carolina only four scattered hits. Aycock, pitching for Carolina was replaced by Powell in the sixth, after having yielded 11 hits. Powell then managed to hold Virginia to one hit for the remainder of the game.

Virginia scored in the first inning. Berkley walked, Stearnes singled to right, White drove the ball over the fence for a home run. The next three men went out in easy order.

In the fifth Virginia scored another run. With one man down, Stickley singled to left, stole second and scored on Morton's drive to right.

In the sixth Berkley singled, took second and scored when Patterson let Stearnes' liner get by him.

Three more runs came in the seventh when with two men down Morton drove a difficult one to Herty and was safe; Smith was safe on Herty's error; C. White walked; Calloway walked forcing Morton in; Berkley was hit-forcing Smith in; Stearnes hit to right scoring White (in the midst of the merry-go-round Powell replaced Aycock); J. White struck out.

In Carolina's half of the seventh Zollicoffer opened with a single; Barnes walked; Lewis running for Zollicoffer scored on Herty's sacrifice; on a squeeze play Barnes came in home.

Powell walked in the ninth and scored on Hart's triple to right.

U. N. C. TAKES MEET

Wins Over A. & M. Trinity and Wake Forest

HAS MARGIN OF 40 POINTS

Homewood, Webb, Farthing, Rand, and Blue Star for Carolina

In spite of the drizzling rain which dampened the spirits of contestants and spectators alike, Coach Brown's boys in their usual style, piled up enough points to enable Carolina to win the State Track Meet in a walk. Carolina scored 74 1-2 points, A. & M. was second with 33 1-2, Trinity obtained 22, and Wake Forest 14. Davidson and Elon did not enter the meet.

Four Carolina men obtained the track meet monogram by securing first place. Blue won the low hurdles with ease, Rand took the two mile, and Webb showed the way in the half mile. Frathing, although not feeling well, ran a good race in the 220 yard dash, finishing with his accustomed sprint.

Fairly good time was made in four track events, but the most noticeable were the performances of Rand, who ran the two mile in 10 minutes, 22 seconds, and Millwee, who broke the state record for the mile, stepping it off in 4 minutes, 31 seconds.

McDougall, of A. & M. was the highest individual scorer, making three firsts, one second, and two fourths, for a total of 20 points. Homewood of Carolina came second with two firsts to his credit.

Summary of events:

100 yd. dash—Ruff of Trinity; Johnson of Carolina; Harris of

EASTER LADIES CAPTIVATE CAMPUS WITH THEIR SPRINGTIME SPLENDOR

Rainbow Dresses, Slick Floors, "Peppy" Music and 75 Girls Make Dances the Best Ever

The Junior Week girls with all their Easter-colored dresses came to dance with us three days and now have left till commencement. Filled with gay chattering, bright colors and shouts for encores Bynum Gym has been since Wednesday a different place.

The whole thing began Wednesday night. Some strange, some familiar, everybody was there for a good time. For four hours rainbow ruffles and fluffy frills flitted over the floor to music that could make a back-fence dance. Thursday morning (and not around 8:30 either groups of twos, gan one-half in gay colors, beto appear on the campus. Every floor in the entire village that was smooth enough for gliding and with room enough for a victrola, or the Chapel Hill Orchestra, was a scene of dancing; 1:30 came as quickly as it did the night before and still nobody wanted to stop. That evening everybody came to Gerrard Theatre to witness the last performance of that tear-distilling, semi-tragic romance of the affections of that much known and loved dramatic character, Dr. Doaff. The cast, an able one, was especially selected to support the work of Mme. Adam Thorpe and Mme. Claibe Royal, those two well-known emotional actresses of the Theatre Francaise, who have left the enraptured Parisian audiences for an indefinite series of farewell tours in America. It was a dramatic moment when the dainty and petite Marie Celeste flitted down the stage as graceful as a gunboat only to be confronted by the outraged Mrs. Hasher. And there were other

CAROLINA LOSES CLOSELY CONTESTED GYM MEET

One Point Gives the Meet to Virginia

In an interesting and spectacular Gym Meet Monday night Carolina lost to Virginia by a margin of one point. Throughout the contest the score was very nearly even. The stunts of both teams brought frequent cheers from the crowded gallery and side lines. The dare-devil cut-off-and-catch feat of Crowell and the high dive from the horizontal bar by Clarkson were the features of the meet.

This is the first gym meet in which Carolina has taken part in three years. It served to show some excellent material which has been developed lately. This phase of athletics—so seriously neglected in the past few years—promises to be an important part

SENIOR STUNT PRESENTED IN PLEASING MANNER

Charlie Coggin Plays Vampire to Perfection

"Dr. Doaff's Dilemma"—somewhat out of the ordinary, yet a splendid entertainment, was presented by the Seniors to a packed house Thursday night in Gerrard "Theatre." It contained three acts with a plot—a love affair between a doating old manicurist in the person of Robert House, whose stage name was Dr. Doaff, and a jealous boarding mistress, Mrs. Frances Hasher, known on the campus as Adam Thorp. Although his voice was a little croaky at times, she—let us say she this time—put the part over the boards to a queen's taste.

The stunt was out of the ordinary in that it contained no slaps at the faculty, and the plot was out of the ordinary in that it harbored no villian, but a charming villianess was there with the charming figure, the sparkling eyes and winning smiles. She was Miss Charlie Coggin and his stage name was Marie Celeste. How she can play the part of a vampire and at the same time be rehearsing the character of Sir John Falstaff is a subject that should furnish entertainment for some of our progressive psychology students. However, Charlie played the part and there is no one who is acquainted with his histrionic ability to deny that he will play Sir John according to order when the time comes. Others who must be mentioned before we get to the next paragraph are, H. V. Johnson as Persepolis Wiggins, W. B. Pitts, as Beverly Tish, and W. C. Rymer, as Hortense Hasher (petite and vivacious), G. C. Royall as Mrs. Quincey, R. M. Homewood as Lilly, R. N. Page, Jr. as the Barber, and so on down to the dog, but get a program and read it for yourself.

The plot seemed to be laid in a Carolina atmosphere, for there was a Dr. There was a boarding house with a landlady, who was a widow; there was a barber-shop; a student; a dog; some boarders; some richly gowned, women with aristocratic insteps; and a Y. M. C. A. Where can they all be found except at Carolina?

The first scene was laid at Mrs. Hasher's boarding house. Here it is learned that the Y. M. C. A. is to give a hop and that Dr. Doaff is in love with Mrs. Hasher, who reciprocates, but keeps it a secret from the Doctor; also, that there is a strange and fasci-

FAUST

Monday and Tuesday evenings Chapel Hill is to have a new sort of entertainment. At this time when the interest in the opera Faust, which is to be presented in Raleigh Friday night by artists of the Metropolitan Opera House, is at its height, a lecture on the Faust Legend will be given by Professor Toy Monday night at 8:30 in Peabody Hall. A lecture of this nature, while it would be interesting at any time, is particularly timely now. Even if one were not interested in hearing the opera, still the Faust Legend is so important in literature that not a man in the University should miss this opportunity to acquaint himself with the particulars of it.

Tuesday night an entertainment will be given which will follow up tonight's lecture. Profesror Hagedorn, now of Raleigh, a musician of note in both the United States and Europe, will lecture on Gounod's opera Faust and present the entire opera on the victrola. A number of records have been secured in Chapel Hill and the missing ones were kindly lent by the Corley Company of Durham.

Not a man in college can afford to miss these lectures. Here in Chapel Hill too many of us are inclined to let things go by which are of real benefit in order to patronize lighter amusements. Too little value is attached to good music, good books, good pictures. We are unashamed to confess that we take no interest in them. The opportunity comes to enjoy them and we pass it by. We do not all need to play a piano or a piccolo, but what we all ought to cultivate is an appreciation of good music. The occasions that we have here in Chapel Hill to enjoy it are infrequent; so when this unusual opportunity comes, we cannot afford to miss it. Even though we have never heard a selection from an opera, we ought to hear this Faust concert. We may not enjoy it the first time that we hear it; nor the second, but the enjoyment of good music which comes with hearing it frequently, is one of the most satisfying and elevating experiences we know of.

These lectures are not to be in technical terms. They are being arranged for the students; so don't think that you will not be able to get anything out of them. The music will be explained by a man who has devoted his life to its study, and who knows how to make it interesting.

What the student here needs is more entertainments of this nature, fewer star courses and cheap talkers, more things that elevate.

If you are interested in seeing things of value prosper here at the University, come to these lectures, and encourage those of a similar nature which may follow.

Carolina Wins Meet

Hopkins Wins Debate

Concluded from first page

Johns Hopkins, upholding the negative side and represented by Hubert M. Blalock and J. S. Friedenwald, won by a three to two decision from Messrs. Allen Taylor of Virginia.

Hubert Blalock graduated from Carolina last summer at the Summer School and is now studying at Hopkins under a fellowship. Last spring he won the Carr Medal in the Junior Oratorical contest and participated in the state peace contest and commencement debate.

Hopkins' victory makes the third consecutive time she has won both debates, affirmative and negative.

Y. M. C. A. OFFICERS ELECTED

Will Take up New Work Immediately Other Notes

Officers of the Y. M. C. A. for the year 1916-17 were elected last Tuesday night as follows: E. L. Mackie, President; D. E. Eagle, Vice-President; M. B. Fowler, Secretary; R. M. Stockton, Treasurer.

Jim Capps' Bible study group held an enjoyable feed in their meeting room "Agency for Dick's Laundry", on Wednesday night with every member present and Tom Boushall as a visitor.

Easter Dances

Concluded from first page

dramatic scenes, too, but the happy ending left a good impression and after the final drop of the asbestos everybody flocked to the Gym to promenade with the Juniors. Another time hands said 1:30 and nobody could believe it. "The Easter dances are two-thirds over", said the pessimistic sad-bird but no one would listen to him.

Friday afternoon was the date of the Sophomore Hop, and it was great. In the evening came the German—and still there was as much "pep" as there was Wednesday night. The breaking was fast, the dancing good and the music at its best (which is saying a lot).

"I'm going to have 'em play 'Underneath the Stars' for my funeral march", "Oh gee, I've lost my shoe", "I never had so much 'pep' before", "dance on, I don't ever want to stop", "and waltz? fix with the orchestra man and we'll be gliding at sunrise"—so ran the conversation, everybody feeling great and shouting for more encores.

The Spring dances were over. More dancing commencenent--but that seemed four months away instead of four weeks. Three of the best days the campus has ever seen, and dances without equal in the dancing history of the campus.

The following list contains the names of the girls present at the dances and the boys who invited them:

Mcb Long, Helen Dodson, Fayetteville; Otto Metz, Miss Barham, Nashville; Frank Love, Florence Taylor, Wilmington; Avon Blue, Gertrude Chapman, Boston; Billy Proctor, Eliza Leach Raleigh; Ed Borden, Lucy Stokes Durham; Wilson Dalton, May Coan, Winston; Billy Polk, Miss Mary Polk, Warrenton, Katherin Crews, Raleigh; Lewis Thorpe, Ruth Mercer, Rocky Mount; Billy Whitaker, Mary Whitaker, Wilson; Sam Telfair, Miriam Holliday, Wilmington, Benetta Heath, Charlotte; Fab Shipp, Mildred Holding, Raleigh; Bernard Kinlaw, Bessie Lumsden, Raleigh; Edwin Hartshorn, Katherine Graham, Winston; Frank Norris, Luta Belle Spann, Raleigh, Cotten Timberlake, Raleigh, Miss Sheets, Fayetteville; Marvin Blount, Ernestine Forbes, Greenville; Gregory Graham, Josephine White, Raleigh; Frank Upchurch Mary Frances Bowen, Raleigh; William Dewar, Robena Carter. Summary: Stolen bases, Young 2, Bagley. Sacrifice hits, Harrison, Massey. Three base hits Bryan. Sacrifice fly, Hardison Double plays, Barrett to Bagley to Bryan. Innings pitched, by Currie 7; by Powell 7. Hits allowed by Currie 5; by Powell 1. Left on bases, W. & L. 6, N. C. 10. Bases on balls, off Pierotti 3; off Currie 2; off Powell 2. Struck out, by Pierotti 15; by Currie 10; by Powell 7. Hit by pitched ball, Patterson, Hardison. Passed balls, Harrison 2. Time of game, 3:15. Umpire, Rafferty, W. & L. Attendance, 3,000.

Catholic University

Carolina lost to Catholic University Wednesday by a 4 to 3 score. The game went for eleven innings. Catholic University made her winning run on a pass, a steal, an error, and an infield tap. The latter part of the game was played in a drizzling rain. But despite the dampness the fielding was unusually fast, Carolina making double plays twice with the bases full.

Carolina scored all its runs in the fourth, two timely scratch hits doing the work.

N. Carolina	000	300	000	00—	3
Catholic Univ.	200	000	010	01—	4

Batteries: Cuthrell and Hart; Kendrick, Johnson and White.

Georgetown Game

Georgetown's sluggers were too much for Carolina Thursday, winning for Catholics 8 to 3. Carolina made 11 hits but they were kept scattered by Cantwell. Georgetown scored seven of its runs in the third and seventh innings. Four came in the third. Currie filled the bases and was replaced by Powell. The first man to face Powell tripled.

McCarthy of Georgetown and Massey of Carolina did brilliant work in the outfield.

N. Carolina	000	101	001—	3	
Georgetown	104	000	30x—	8	

Batteries: Currie, Powell and Hart; Cantwell and Hager

Delaware College

Ben Aycock pitched a one hit game Friday against Delaware College and enabled Carolina to win 7 to 0. Powell and Patterson starred for Carolina. Powell threw out six men at first from shortstop without a slip and Patterson secured three clean hits. The game lasted only seven innings.

N. Carolina	310	012	0—	7	11 2
Delaware	000	000	0—	0	1 7

Navy Game

Carolina closed its northern trip Saturday with a 13 to 2 defeat at the hands of the Navy. The Navy made 10 of its 13 runs in the third inning. Up to that time the score had been one to nothing in Carolina's favor, Carolina having secured her run on Barnes' hit, Hart's sacrifice and Lewis' single.

But in the third inning every Navy player batted once and five of them batted twice. Seven hits and several errors netted 10 runs.

In the fifth Currie got on first by an error and scored on Hardison's three bagger. But in the last three innings not a single Carolina man reached first, Blodgett getting better and better all the time.

The Senior Stunt

Concluded first page.

nating woman in town. Scene two is a barber shop where Dr. Doaff is advised to make love to some other woman in order to force Mrs. Hasher to declare herself for him. Scene three presents the Y. M. C. A. hop with the Doctor slighting Mrs. Hasher for the beautiful Marie Celeste, the villianess in the show. At every turn the widow runs into her desired one making love to the Vampire. When she can contain her anger no longer, she flies into a rage and declases that she loves the manicurist and all ends well—so does the final appearance of 1916 behind the footlights.

Phi Society Wins Debate

In the annual Fresh-Soph debate between representatives of the Phi and Di Societies held Tuesday night, the Phi won. The query was: Resolved, That the United States should grant the Phillipines their independence within the next five years. J. C. Eaton and W. S. Tatum, representing the Di Society, upheld the affirmative, while B. H. Thomas and A. M. Coates, representing the Phi Society, were on the negative. The teams were very nearly match, and the debate was good. The judges were, Prof. L. P. McGehee, Prof. A. McIntosh, and Dr. C. L. Raper.

Stell Wins Junior Oratorical Contest

In the annual Junior Oratorical Contest held in Gerrard Hall Friday night between representatives of the Phi and Di Societies, J. S. Stell of the Phi Society was declared the winner, and was awarded the Julian S. Carr Medal. His subject was, "The Future of American Democracy". The other contestants were: H. S. Clark, Di Society,—subject, "Preparedness for America"; V. F. Williams, Phi, "The Supreme Mission of America"; H. B. Mock, Di, "Civilization and the War".

The Judges were Prof. George McKie, Rev. Walter Patten, and Rev. W. D. Moss.

Freshmen Win From Seniors

The Freshmen won from the Seniors Tuesday by a score of 13 to 6. At the beginning of the game it seemed that the odds were in favor of the Seniors, but in the third inning the Freshmen started their merry-go-round by scoring five runs. Slugging and errors characterized the game. Batteries: Seniors, Hogan and Angel; Freshmen, Glenn and Roberts.

Fatimas please so many men that they out-sell any other cigarette costing over 5c.

But it may happen that *your* taste won't hit Fatimas. That's nothing against you. Nor against Fatimas.

But if your taste *does* fit Fatimas, you can feel doubly grateful. For of this you can be sure—Fatimas are *cool* and friendly to the throat and tongue. And they will never leave you "feeling mean" as long as you smoke within the Bounds of reason.

Because Fatimas are *cool* and because they can be smoked freely and often they have rightly earned the title, "The Sensible Cigarette."

It simply remains for you to see if their *taste* suits you as well as it is suiting thousands and thousands of other men. Try Fatimas today.

You may find that their taste is *exactly* what you've been looking for in a cigarette.

Thursday May 11—Chapel open.

Friday May 12—Musicale in chapel.

Saturday May 13—3:00 High School baseball game for the state championship.

48 Applications To Oglethorpe

Forty-eight men have applied for the 12 scholarships to Fort Oglethorpe.

Zollicoffer and Johnson To Lead Teams

At a recent meeting of the track and baseball squads, captains were elected for the ensuing year. John Johnson was chosen captain of track and Zollicoffer of baseball.

J. J. McBRAYER WINS

University of Kentucky Man Has Best Speech

TRINITY MAN IS SECOND

McBrayer to Represent the South-Atlantic Group in Peace Oration Contest

In a spirited contest Friday night J. J. McBrayer of the University of Kentucky won first place as orator in the South Atlantic group in the Inter-Collegiate Peace Association Oratorical Contest. And W. R. Shelton of Trinity College, N. C. was chosen as second best speaker. Mr. McBrayer's subject was "America and the Evolution of Peace;" Mr. Shelton's, "Some Biological Aspects of War."

This contest, the first of its kind ever held in Chapel Hill, was held to decide the speaker who should represent the South Atlantic Group in the Peace Contest, which is to be held at Lake Mohonk, N. Y., very soon. The speakers appearing in the contest here were: J. J. McBrayer, of the University of Kentucky; W. H. Norton, of the Virginia Christian College; W. A. Selhorst, of Loyola College, Md.; and W. R. Shelton, of Trinity College, N. C. Mr. Norton's subject was "The Price of Peace;" and Mr. Selnorst spoke on "A Plea for Over-Government."

The orations were unusually spirited and, on the whole were excellent. The contest was very close and interesting from the start, and it was only after long deliberation that the judges decided for Messrs. McBrayer and Shelton. The judges were Messrs. Foerster, Moss, Bell, Roberson, and Pierson.

In brief Mr. McBrayer's oration on America and Evolution of Peace, is as follows:

"In every heart there is a desire for peace—universally and individually. America has done two things to help to bring on peace for the world: (1) Built up such a powerful machine of government that war seemed impossible; (2) Aided in the establishment of the Hague Tribunal, which has decided 250 cases that would probably have resulted in war had they not been arbitrated before this Tribunal.

But we have not done enough. We must expound international law, and enforce international justice. Coordination of nations is becoming the duty of civilization and unconsciously a move is being made to this end. This tends to a coalition of all nations which, when completed, will tend to combine the world into three powerful world powers, and over which, one great man's and one power's influence could avert war between the other two, force peace and exact law and justice—in short, make war impossible.

This is the final step towards peace. Selfish nationalism is disappearing and now, that Europe is tiring of the war, she and all other nations are tending towards universal peace.

In speaking on "Some Biological Aspects of War" Mr. Shelton said, in brief:

War is murder, even when sanctioned by the state and nation. It is devoid of serious scientific explanation. It merely exposes the prime of the nation to death and disaster and leaves a weak and infirm remnant at home to propagate a weak and sickly progeny. War takes the intelligence of a nation and leaves only what it cannot use in its destruction.

The biological reaction of war is damage beyond repair. War kills 30 per cent of the soldiers; leaves only weaklings at home, 90-95 per cent of whom breed their kind.

"Let the peace of today preserve the babes tomorrow."

THE SHAKESPEARIAN CELEBRATION TO TAKE PLACE TUESDAY ON HILL

Performance to be Staged on Campus Between Chemistry Hall and Episcopal Church

On Tuesday May 8, the Shakespearian celebration will take place. The performance will be staged on that part of the campus between Chemistry building and the gate to the Episcopal church yard. Everybody is invited. No admission will be charged.

The program of the occasion will be a rather elaborate one. On the cover will appear the Droushout portrait of Shakespeare. Drawings representing scenes from the plays will appear in the program. This program, which will be well worth having as a souvenir of the occasion, will be sold for a small sum, possibly 25 cents.

Perhaps the plan of the celebration is still very vague to many. The performance will be divided into two parts. The first part will be composed of scenes selected from various plays of which the characters represent various classes of English society of Shakespeare's own day. It is the aim of the producers to give by means of the selected scenes an adequate idea of English life of the time when Shakespeare was writing. Rustics, shepherds, shepherdesses, rustic dancers, may-pole dancers, soldiers and even the bluff old Jack Falstaff with his companion Prince Hal will be among the characters appearing in the first part. Scenes have been selected from "The Winter's Tale," "As You Like It," and from "Henry IV."

Part two will be entitled "Shakespeare's Art." By a selection of scenes from "The Midsummer Night's Dream," "Hamlet," and "The Tempest," the progress of dramatic art from the crude performances of mechanics and laborers to the conception of drama as shown in Hamlet's speeches will be shown.

CLASS OFFICERS ELECTED

Rand, Coates, and Fitzsimmons Presidents of Classes

The class political cups boiled over Wednesday afternoon and resulted in the election of the following officers for next year:

Freshman Class—Owen Fitzsimmons of Charlotte, president; R. P. Currie of Candor, Vice-president; Webb Durham of Charlotte, treasurer; Charles M. Hazelhurst of Wilmington, secretary.

Sopomore Class—Albert Coats of Smithfield, president; Albert Oettinger of Wilson, vice-president; William G. Burgess of Shelby, treasurer; Clem B. Holding of Raleigh, secretary, and Ray Armstrong of Belmont, representative on the Greater Council.

Junior Class—Oliver Rand of Smithfield, president; Sam J. Ervin of Morganton, vice-president; Carl B. Hyatt of Burnesville, treasurer; Herman G. Baity, of Harmony, secretary; and James A. Capps of Bessemer City, representative on the Greater Council.

NOTICE!

All Students wishing to occupy the same dormitory room for the Fall Term will please call at the Treasurer's office before May 20th and sign for same. After this date the rooms will be given to the applicant as shown by the list in the office.

J. A. WARREN,
Treasurer.

FAUST

The two lectures on "Faust" in Chapel last Monday and Tuesday nights were so enjoyable that we wish things of this sort could be made permanent, could be scheduled every year. Those who expected to attend the "Faust" performance went away from Chapel with definite ideas as to the plot and meaning of the opera and increased ability to understand the music.

The immediate occasion of these lectures was the concert in Raleigh; but they are timely at all times. We hope that some plans can be made whereby similar ones can be given every year. If we had more appreciation of music and of art, and not less regard for the matters of class and athletic field, we should be happier and enjoy a broader outlook on life.

COMMENCEMENT

The Tar Heel takes the liberty of quoting a timely editorial from the works of a late editor-in-chief It is called "Stay to Commencement."

Next to a decent athletic field and a winning football team the thing The Tar Heel dreams of most is a representative crowd of students at Commencement. Candidates for degrees have been present at past Commencements and many of the dancing men, but the large majority of these nine hundred Tar Heels turn their backs on the most interesting feature of the entire year and fight to reach home several days sooner than they otherwise would. This year the authorities have tried to arrange a program that will attract the whole student body. We hope it will; there are numerous interesting events and speakers, and something to suit everyone's taste.

But the most interesting feature of Commencement, the biggest thing you will get out of staying here, the overwhelming reason that makes it worth while is not to be found in any formal meeting or on any program. What makes Commencement is the Alumni. Stay to Commencement and you will see these sons of the University come swarming back, score by score, for their class reunions, aggressive, enthusiastic, fired with love for the Mother, eager for opportunity to serve. You who think that a nine month's stay in Chapel Hill will make you acquainted with the University of North Carolina are vastly mistaken. The University extends everywhere, and she has no worthier temple than the hearts of her sons. Stay to Commencement and see the Alumni, and you will catch the true University spirit, you will realize the role she plays in the State, you will feel yourself growing larger and bigger and nobler. You will come back next year with a new conception of University, of your future, of yourself. Stay for Commencement and next year you will thank your stars for the opportunity to stay.

DRESSING ROOM GOSSIP

This ought to have been in last week, but circumstances were against it. Work and women are like oil and water, they don't go together. It is bad enough to love a girl 'way off somewhere, but it is worse when she comes to Chapel Hill. There are so many nice looking boys around (ought to be good for drinks) that it somewhat distracts her attention from your own attractions. It just keeps a fellow on the jump to stay in first place. He has to make arrangements to get her in a boat (which is apt to bring on earnest and confidential talk with Mr. "Brock") and to provide her with the necessary bunch of weeds (which may mean that he must sell his best pair of shoes to the little fat Russian), to say nothing of meeting her in Durham, looking up her trunk which has probably been lost in transit, etc. etc.

Now if she is "just a friend," it is different. You don't have to go to meet her, you needn't worry abont the weeds, you can "walk her," you can call for her late, you can treat her with nonchalant indifference, and you can dance with her twenty minutes at a stretch without being "broke." She will be gushing and effusive, and will have the time of her life.

When she is gone you will feel thoroughly bored and somewhat relieved. If she is the idol of your heart, however, the said organ will ache, and you will be a sad bird for fully a week. You will write one or two letters a day until it wears off, even if you have to sacrifice a course or so.

But let's change the subject. We are all wiser now if not sadder, and there may be some woman haters among us, who will condemn this learned treatis, so interesting to those who appreciate it, as a gross hardship maliciously foisted upon the unsuspecting public through the negligence or leniency of the editor who may thereby lose his job. Several of these same woman haters have attempted to prevail upon us to devote these columns to an argument in support of the proposition that a saloon, properly kept, is a blessing; but although we think Horace would gladly have supplied the ethical data needed, we believe the above mentioned woman haters will retreat from their position when they have had time to cast about and secure another girl. Getting kicked is rather apt to make one skeptical, if not cynical for a while, and while in this state, it is natural to think of saloons and such things. We know some who have gone so far as to consider jumping off the cairn at Piney Prospect. They probably feel similar to the man who said that life was nothing but buttoning and unbuttoning. If you ever get that tired feeling try two or three glasses of Moxie before you decide on anything worse.

THE STUDENT CONFERENCE

To Be Held at Blue Ridge June 16-25

In the land of the sky, 11 miles this side of Asheville at Blue Ridge, June 16-25, the Student Conference of Southern Y. M. C. A.s, representing over one hundred universities and colleges will have a record year. This is due in part to the large number of boys who are going from Carolina to attend the conference.

There are no more delightful ten days any where than those spent at Blue Ridge in the State Normal-Carolina Cottage. The mornings are devoted to platform addresses and lecture classes on Social Service and Bible Study. The afternoons are devoted to athletics and mountain climbing. An interesting fact is that Carolina has in the past been very successful in athletics, winning the baseball championship two years ago and coming out next to the champions the year before that.

The management of Blue Ridge agrees to refund one's entire expense if he has not been more than satisfied. But never have we had any one from Carolina go to Blue Ridge who ever after was not an enthusiast about the Conference. Life long friends are made there with the best type of college men all over the South.

This year the biggest men in Y. M. C. A. work will be there during the entire conference and big men all over the South in many different lines have been secured to come to Blue Ridge where one gets a deeper idea of life, a greater inspiration and a world outlook that broadens one more than a year in college could ever do.

Many have expressed the opinion that ten days at Blue Ridge are worth more than a half year at college, regardless of the inituition. Although there are some eighteen men already signed up for Blue Ridge the Cottage can hold a few more and it is earnestly hoped that Carolina will be there with a big delegation to clean up things in a Tar Heel way, which means that everything gained at Blue Ridge will stick. The Y. M. C. A.'s slogan is "We want you there". Your slogan "I'll be there".

FLETCHER S. BROCKMAN

is one of the most prominent and influential men connected with the Y. M. C. A. work. He is in the same class with John R. Mott and Weatherford, and has one of the most pleasant and stimulating personalities that the visitor to Blue Ridge will come in contact with.

Carolina Drug Company Gives Medal

The Carolina Drug Company has offered a gold medal to the best all round gym man trying out in the annual contest for monograms. So far in the contest no one has shown superior form enough to claim it over the other contestants.

Amphoterothen Initiates.

W. C. Rymer, H. D. Sharpe, A. M. Coates, and W. H. Stephenson were initiated into Amphoterothen Wednesday night.

Seniors Win From Juniors

In a closely contested game the Seniors won from the Juniors last Thursday by the score of 8 to 5.

Sophs Shipwreck Seniors

By scuttling the Senior team in fully nine different places the seafaring Sophs unloaded a lump of hits and drives all over the depths of the field. Not until fully fifty pills had perforated the structure and at least 23 runs had been marked down on the chart of the Sophs did the Senior crew finally catch anchor on the ninth inning. Score: Sophs (approximately) 23; Seniors 5.

New Book by Prof. Cain.

"Earth Pressure, Retaining Walls and Bins" is the title of Prof. Cain's latest book of 287 pages just published by John Wiley and Sons of New York. This book gives a clear, thorough and comprehensive treatment of a difficult subject. It contains much original matter on "coherent earth," which will be of practical value to the engineer. Prof. Cain's book is a distinctive contribution to the literature of engineering.

Spring Football Practice

In spite of hopes to the contrary the football squad has again shown its inability to keep up practice and training through the sultry week of early spring. Sometime ago the suits were turned over to Manger Coleman and his assistants, and were orderly salted away to await the practice next fall, when, on the Monday before school opens, the eleventh of Sebtember, every man who wishes to try for the team is expected to report on the field.

No Freshman material will be available for next year, but if the latent genius now in college will bestir itself and report, an unusually good squad will make its appearance on Emerson Field. While he was very disappointed in the length of the spring practice, Coach Campbell now feels that he is not in the dark with respect to certain and possible material. He was well pleased with the showing of the squad as a whole, and was able to get a line on some individual men. Although the candidates for the backfield are very scarce, he feels certain that the needed men will be developed as soon as hard practice is under way; and as the line material is excellent, he sees no reason for a good machine not being developed early in the season.

Mr. Campbell announces that there will be no summer camp this year, as he does not believe in that method of conditioning a team. Camps have been tried in the past, but the team generally reaches top form before the crucial contest, their stride weakening before the end of the season. He is, however, a firm believer in the value of the military camp such as are now being held in the summer at Fort Oglethorpe, Plattsburg, and other places, and thinks a man will be greatly benefited mentally, morally, and physically by the regular habits and atmosphere of such camps. He cites many instances of men who took advantage of the opportunities offered at these camps, and made the team the next fall, men who had previously been but indifferently fit.

All cigarettes are pure, but—

purity alone doesn't make a cigarette SENSIBLE.

We don't know of a single one of our competitors who doesn't make his cigarettes of pure tobacco.

But a pure cigarette that didn't *taste* just right wouldn't do for *you*, would it?

And to be really *sensible* a cigarette must give you *more* than purity and a good taste.

It must be *cool* and friendly to your throat and tongue. And it must leave you feeling fine after a long-smoking day.

Fatimas are not the only cigarettes that measure up to all these requirements. There are other sensible ones.

But Fatimas seem to have a big margin in their favor on their *good* taste. Otherwise they could not outsell all other cigarettes costing over 5c.

You can't tell whether they will just suit your *taste* until you try them.

At the same time, you can easily prove how *sensible* they are by these two tests.

Most men who try Fatimas say "*Good Bye!*" to all other cigarettes right away. That's why Fatimas sell so fast.

Why don't *you* try Fatimas today?

Liggett & Myers Tobacco Co.

Fatima was the only cigarette awarded the GRAND PRIZE, the highest award given to any cigarette at the Panama-Pacific International Exposition.

BEAUTIFUL COSTUMES AND EFFECTIVE ACTING MAKE PAGEANT GREAT SUCCESS

Curtis Henderson as Ariel, Mr. Long as Touchstone, and Prof. Mckie's Pyramus and Thisbe Troupe the Stars

The general opinion of the campus and visitors is that the Shakespearian Pageant, given on the campus Tuesday, was a success in every particular. All the costumes were unusually effective and their coloring and appearance were very striking in the procession as it moved from Memorial Hall to the scene of the performance near the Arboretum.

It would be hard to find anywhere such a finished group of amateur actors as those who took part in the performance. Most of the laurals for acting go to Mr. Edgar Long, who made a real Touchstone. He created a real character from the lines and as for his acting, he has been generally judged to be the star performer of the production. He says it was his first public appearance but the Prof. before his name stands for professional now. And Buck Wimberly was a real Autolycus. His acting showed that he had given the character of the ballad-seller an adequate interpretation.

The Fairy Play by the school children was a well-staged part of the performace. Their work was good and showed careful training.

The "Henry IV" scenes have received very favorable comment. Dr. Booker, as Prince Hal, gave a splendid interpretation of his part. His acting showed careful study and his interpretation was in rank with the best work of the performance. Perhaps Charlie Coggin was not the stoutest Falstaff that has ever appeared but no fault can be found with his acting. In the renunciation scene he was at his best. His Falstaff is a fitting climax to his versatile and admirable work in the dramatic ffeld during his 4 years in college.

No other group showed quite the finish in training as did Mr. McKie's bunch of hard handed Athenian laborers who presented the romantic tragedy of "Pyramus and Thisbe," in the "Midsummer Night's Dream" scenes. It would be hard to find a better quince than Mr. McKie's interpretation. His work showed a carefulnesss of finish and an effectiveness in restraint that characterises real acting. Bob House has done many things well in college, but nothing better than Pyramus. Dougald Macmillan as Thisbe was one of the stars of the scene. Lacy Meredith in the heavy role of the wall received his due amount of applause; and Billy Steele with his lanthom, dog and thorn-bush was a dignified moonshine.

Mr. Bernard with his clear enunciation and smooth tone admirably handled Hamlet's speech to the players.

"The Tempest" was the last scene of the performance but did not fail for that reason to hold the attention of the whole audieuce. Dr. Dey was a splendid Prospero. His lines were spoken in a clear, carrying tone that never failed to hold fhe attention of the audience. Miss Gypsy Barton made an excellent Miranda. Jim Capps undertook successfully the role of Caliban. The dancing of Miss Curtis Henderson ae Ariel the servant sprite of Prospero was one of the features of the performance.

The quartette and chorus music together with the incidental music of the orchestra added much toward making the whole performance a finished, artistic success. One notable feature and one we rarely find in an amateur production was that the entire performance was staged on schedule time.

The successful production of the Pageant has revealed the fact that such a thing can be adequately done by the students Why not some sort of celebration—a play, folk dances, or May-day festival—every spring?

JUNIORS WIN CLASS CHAMPIONSHIP EASILY

Caoch Daniel Picks All-Class Ball Team

When the Juniors won from the Sophs last Tuesday, the class baseball series came to a close. The Juniors won the championship with a percentage of .833 or five victories and one defeat.

Standing of Teams

	Won	Lost	Pct.
Junior	6	1	.833
Fresh	4	2	.667
Soph	3	3	.500
Senior	0	6	.000

Class coach C. R. Daniel picked an all-class baseball team. Five of those picked are Juniors; four Freshmen, one a Sophomore, and none are Seniors. The team is as follows:

P—Plyler	Junior
P—Thompson	Fresh
C—Roberts	Fresh
1stB—Gwaltney	Junior
2ndB—Williams	Junior
3rdB—Sheek	Junior
SS—Myer	Fresh
LF—Harris	Junior
CF—Stewart	Fresh
RF—Denning	Soph

There will be meeting of the Athletic Association in chapel Saturday ,May 20 at 2:30 p. m.

OGLETHORPE SCIOLARSHIPS AWARDED

53 Applicants for the 12 Scholarships

There were 53 applicants for the 12 scholarships to Fort Oglethrope. Twelve men were picked as the ones best suited to take advantage of them and also six students as alternates, to go in the event that any of those chosen should be unable to take advantage of their opportunities. Roy Homewood and C. C. Miller were awarded the National Security League scholarships of $50.00 apiece. The 12 men chosen by the judges are:

Baity, H. G.
Ballew, R. D.
Bell, F. D.
Bradshaw, F. F.
Brooks, R. P.
Burgess, W. G.
Hogan, E. G.
Homewood, Roy
Linker, J. B.
Marsh, H. E.
Miller, C. C.
Pike, S. C.

The alernates are:

(a) Sharpe, H. D.
(b) Gwaltney, L. P. Jr.
(c) Lewis, McD.
(d) Capps, J. A.
(e) Butler, S. W.
(f) Johnson, H. V.

WHAT'S TO HAPPEN AND WHEN

Sunday, May 14—11:00 Regular services in the churches

Monday, May 15—7:30 North Carolina Club in Peabody.

Tuesday, May 16—10:00 Examinations begin.

Friday May 26—Examinations end.

Sunday, May 28—10:00 Baccalaureate sermon in chapel.

Monday, May 29—10:30 Class day exercises in chapel. 9:30 P. M. Annual meeting of Literary Societies.

Tuesday, May 30—10:30 Alumni address and reunions. 8:30 P. M. Intersociety Debate. 10:00 Reception in gym by President and Faculty.

Wednesday, May 31—11:00 Commencement exercises in Memorial Hall.

CLASS NUMERALS

To Be Given to Juniors on Winning Junior Team

The men, composing the Junior Class baseball team which won the class championship this spring, were awarded their numerals, '17, by the class athletic council last night. The council also decided to allow the championship class men to wear the numerals inside of a "C".

The Junior team is composed of the following men: Plyler, Harrell, Gwaltney, Williams, Polk, Sheek, Harris, Capt., Proctor, Hodgin, Ramsey, Reed, Allen, Sharpe, Mgr.

BENNETT AND HARDISON TIE AT .355 FOR FIRST PLACE IN BATTING AVERAGE

Powell, Zollicoffer and Hart also Hit Over .300. Batting Average of Whole Team is .238

The batting of Carolina's base ball team this spring averaged .238 There were five hitters in the .300 class and four batting between .250 and .300.

Bennett and Hardison tied for first honors in the batting average; each batted .355. Bennett went to the bat 45 times while Hardison was up 31 times.

The five men who hit .300 or over were in the order of their averages: Bennett, Hardison, Powell, Zollicoffer, and Hart.

NAME	AB	R	H	AVE
BENNETT	45	9	19	.355
HARDISON	31	3	11	.355

Wake Coon Club Meeting

The Wake County Club is planning a joint meeting of its members, alumni, and prospective students in the county to be held in Raleigh on July 4. The purpose of the meeting is to get the University men in the county together and to encourage and assist those fellows who contemplate entering the University this fall.

COUNCIL AWARDS LETTERS IN GYM, TRACK, TENNIS

Gives 13 in Track, 6 in Gym, 2 in Tennis

The Athletic Council awarded 13 monograms and stars in track six for gymnasium work and two in tennis at its meeting Wednesday night.

Those who received stars for their work on the track were: Johnson, C. Davis, Homewood, Patterson, Ranson, and Wright. The men awarded the "N. C." monogram were: Blue, Farthing, Upchurch, Rand, Webb, Folger, and Long. The manager's monogram was awarded to manager Hackler.

The men to whom the Council awarded monograms for excellency in gym work were: Devereux, Siddall, Crowell, Cook, F. Marsh, and Wilson.

Tennis monograms were awarded to Capehart and Combs.

SOCIETIES ELECT EDITORS

Capps Editor-in-Chief of Magazine; Patton of Yackety Yack

Officers of the University Magazine and Yackety Yack for the coming year have been selected by the two societies. Those elected by the Di society for the Magazine were J. A. Capps, editor-in-chief, and A. M. Lindau, C. L. Snider, M. B. Fowler assistant editors, with W. S. Tatum and W. M. York assistant managers. Bill Austin was elected business manager of the Yackety Yack and H. G. Baity, E. L. Mackie, H. S. Clark assistant editors.

In the Phi society W. T. Steele, Moses Roundtree and A. M. Coates were elected associate editors of the Magazine with Virginius Williams business manager. For the Yackety Yack J. R. Patton was elected editor-in-chief, and E. K. Proctor, W. H. Stephenson and J. K. Holloway assistants.

COMMENCEMENT DANCES

To Be Held in Swain Hall; Tickets Can Be Gotten Now

In keeping with the other unusual events which are being planned for Commencement, the dances will be even more enjoyable and more largely attended than ever before. In the first place, they will be held in Swain Hall, which has a much better floor and twice as much of it as the gymnasium. In addition to this, Don Richardson's eleven piece New York orchestra has been secured. The ball managers are doing their best to make these dances the best that have ever been held here. Tickets can be secured now from G. C. Royal, Jr., Chief ball manager; A. T. Thorp, G. M. Long, J. G. Cowan, F. O. Clarkson, S. B. Tanner, Jr., J. G. Ramsay, assistants.

Omega Delta Initiates

Prof. W. D. Toy, H. C. Horton and W. D. McMillan were initiated into Omega Delta Friday night.

STUDENT MANAGEMENT

At its last meeting the Athletic Council discussed and unanimously passed the following amendment to the Athletic Association Constitution, which will be voted on at the next meeting of the Association. The recommendation of the council pertains to the election of student managers of athletic teams, viz.: that as many members of the Freshman Class as desire be allowed to apply for position as assistant managers of the various athletic teams, and that from this number the Council select six from whom the association elect four to serve during their Sophomore year; that unless those men prove incompetent, two of them be selected to serve as assistant managers during their Junior year, and that one of these two, unless they both prove incompetent, be elected to serve as manager during his Senior year. In case any of the men prove incompetent, they may be removed and replaced by others.

The efficacy of this proposed method of electing managers is so apparent that it hardly needs discussion; but the virtues of our present system are less prominent than its shortcomings. At present we elect two men as assistant managers without determining anything as to their interest, their ability, or their willingness to work. Somebody is put up at the meeting of the general athletic association and then and there elected. One of these two men thus indiscriminately elected is ultimately made manager. Consequently, we cannot hope to have with any degree of regularity efficient student managers.

The proposed system, while no one can say that it will be universally successful, will at least insure more consistently able student managers than before. A man's interest would be assured by the fact that he nominates himself; his ability and willingness to work could be judged during his two years of service as an assistant. If the new plan is adopted, the athletic association would not be deprived of its vote. The managers would still have to be elected by the association.

What we all want to see is effective student managership, which we do not believe to be possible under our present system. Too many of us vote for an untried man because we think he deserves some sort of recognition or because we don't like his opponents. The honor of the position thus conferred is swallowed up in work. A managership means work, hard and prolonged work, as do most of the other positions in college which we lightly give and take.

This proposed plan is nothing new. It has already been adopted by the leading colleges of the country, and by accepting it ourselves we would not be taking a leap in the dark. Our failure to endorse it would, on the other hand, attest shortsightedness.

THE PAGEANT

One of the most successful undertakings at the University this year was the Shakespeare celebration. It was a remarkably enjoyable exhibition of acting and color, which, in reviewing, our only regret is that more people from out in the state could not have seen it.

A celebration of this sort is worth while in many ways. Primarily, it awakens new interest in the works of the great writer. A manuscript does not possess half the vitality that lines have in the mouth of an actor. Then too, there are many of us who know little of his works and who might be tempted to greater desire for them by small specimens attractively displayed. Thus to those who know the man and those who must confess him a stranger, such a celebration is of value.

In other ways it can be justified. As a worker with the needle takes worthy pride in showing her patch quilt at the fair, so we exhibit with satisfaction what the community has been preparing for three months. The pageant was a display of our fellow citizens' ability, which we are always inclined to doubt unless it be shown. It is good for a community to find out what it is capable of, for each individual to acknowledge his fellows' merits. If we are to be shown on Rally Day how well our aunts and cousins make preserves and butter, let us also see how well our other relatives can act or dance and thus make the whole family appear to advantage.

Those who designed and executed this particular work win the praise and admiration of us all, since there is no other prize. With patient skill they have clipped well colored patches from the stack of plays, and stitched them together with threads of song and dance into a coverlet that might please the fastidious Queen Bess. So to the weaver of the cloth, the spinners of the thread, and the plyers of the needle be all praise.

JOURNALISM CLASS TAKES TRIP

Goes to Raleigh to See Times and Observer Printed

The class in Journalism, chaperoned by Mr. Thornton, went to Raleigh last Friday for the purpose of seeing a modern newspaper plant in operation. The offices of both Raleigh dailies were visited where the boys were introduced to the mysteries of newspaperdom. Those making the trip were: F. B. Shipp, R. C. Vaughn, J. A. Capps, J. J. Harris, W. T. Polk, V. F. Williams, Wilson Dalton, Tom Linn, A. H. Combs, J. B. Hill, Sam Telfair and Professor Thornton.

After watching experts get out a sure enough paper at both the Times and the News and Observer offices, the corps of journalists assembled at the Capital Club dance, given in honor of the famous singers in the city. They reached the Hill Saturday morning along with dawn, a la Tank Hunter.

DRESSING ROOM GOSSIP

Not many more times will we nudge our neighbor at supper and ask him to pass the "Review of Reviews". Not much longer will we wrestle with steak so tough that the gravy will turn the edge of the knife. Or experience the "peculiar pleasure", (to use Billy Noble's favorite expression), of swiping the dessert of all those unavoidably detained on class when the 1:30 bell rings. Or, when we suggest to the waiter that he give us fish like we had last week, that this is not so good, receive an abusive retort, coupled with the statement that there can be no difference, as this is a piece of the very same fish! Or even moisten our corn flakes with milk which verily hath the odor, the flavor, the aroma, and all the essence of the onion. Or spend at least two good hours a day waiting at the Post Office window (most of us have given up our boxes) all for a notice from the library that a fine of 5 cents per day is accumulating on certain books which have been accumulating dust, undisturbed, in our rooms for weeks.

It would be impossible to describe the mingled sensations which overcome us at the prospect which we have anticipated for nine long months. Chemistry students express it by saying that they are saturated with joy. The proteges of Horace philosophically remark that "God reveals Himself in many ways". Med students simply nudge each other somewhere in the region of the pectoralis major (whatever that is), and smile at the thought that other viands than those mentioned above will be exciting peristoltic motion in the region of the medulla ablongottis before long. The lawyers fortify themselves against the heat and the ordeal of the approaching exams in the assurance that the University is under a quasi contractual obligation to return to them that which ex egno et bono belongs to them as bona fide citizens, to wit, the right to life, liberty, and the pursuit of happiness, all of which they are deprived of here in the township of Chapel Hill. Whereas, it is up to the said University to turn them loose before the first of the month, or answer to a charge of detune, which means wrongful detention of an artical rightfully received.

Of course, some of the wise old sad birds will say that this artical shows a mighty un-university-like spirit, and a lack of loyalty, but we couldn't love Chapel Hill so much, loved we not the home burgh more.

Extension Bureau Scores Successful Year

As the college year 1915-16 draws to a close the University Extension Bureau closes by far the most successful year in its history.

Great progress has been made in rendering a broader service not only to the University but to the state. The High School Debating Union has grown in bounds, having, having only 90 schools in 40 counties the first year, 150 schools in 64 counties the second year, 250 schools in 90 counties the third year, and 325 schools in 94 counties this year. In the third High School Football contest 35 participated. In the race for the High School championship of the state 50 schools took part; and 13 schools sent 70 athletes to the Hill to contend for the track trophy. In the first inter-High School Tennis Tournament 11 schools entered. In carrying out this work the extension office sent out during the month of January 1331 letters and 3,393 letters, pamphlets and bulletins in February, 737 letters and 4,372 pamphlets, in March 1,884 letters and 3,168 pamphlets and in April 772 letters and 931 pamphlets, making a total of letters and pamphlets for the four months 16,588.

In addition 8,000 University News Letters are mailed to all corners of the state each week. The Extension Department is planning to even increase the scope of work next year. It owes much of its rapid growth to Mr. E. R. Rankin who has been increasing in his efforts to make the Department mean something to the University and the State.

Clayton, Cherryville and Raleigh Records

The records of the three high school teams, Clayton, Raleigh, and Cherryville, that have battled on the Hill for the Eastern or the State baseball championship, are as follows:

1920 FORMALLY MEETS U. N. C. COLLEGE NIGHT

HESTER, COATS, MILLER, ROSS, FOWLER AND WIMBERLY EXPATIATE

COACH CAMPBELL MAKES TALK

Coach Campbell Makes Talk.—He and Cowan Urge Student Body to Give the Football Team Their Undivided Support

On Thursday night at the regular annual exercises of college night the new men were formally introduced to the leading activities of college life. The lower floor of Gerrard Hall was packed to its capacity with those eager to hear the opening exercises of the college year. Hugh Hester as presiding officer opened the meeting with a short, direct talk in which he explained the real purpose of College Night. College Night, he said, is intended to acquaint the new men with the most important activities of the University, and thus to set before them goals of endeavor to which they might strive in the future. At the conclusion of his speech he introduced "Si" Parker, the newly elected cheer leader. "Si" soon demonstrated his ability to hold down his job as cheer leader, for he was right there with the cheer and soon had the crowd on fire with the college spirit.

Ernest Mackie, president of the Young Men's Christian Association next took the floor, and in a clear, direct speech he told of the work of the Y. M. C. A. has been doing in the past and is intending to do in the future. He concluded with an earnest appeal to all men of the college for their moral and financial support.

The Honor System was ably explained and interpreted by Albert Coates, president of the Junior Class. The function of the honor system, said he, is not to make and enforce an iron-clad body of regulations but to uphold the spirit of college law.

Clyde Miller, president of the Phi Beta Kappa Society, was next introduced by the presiding officer. He urged the new men to keep in mind throughout their college career that scholarship ought to be their first aim; that the other activities of college life, such as athletics and debating, while necessary, are secondary.

The next speaker was Marion Ross, who was introduced as one who not only admires William Bryan, but is able to demonstrate some of his oratory. Sufficient it is to say that he lived up to his reputation. In a short convincing speech he set forth to the new men the advantages of associating themselves with one of the literary societies.

Marion Fowler, in a talk interspersed with occasional wit and, humor, explained the function of the different college publications from the "Freshman Bible" up to the Yackety Yack; "Yank" Tandy urged the co-operation and support of the students in all branches of athletics; and "Buck" Wimberly of dramatic club fame, gave a per-

(Continued on Page Six)

EIGHT OR NINE NEW PROFS. EXPECTED TO JOIN FACULTY

PATTERSON, LASLEY AND HEADMAN BACK AFTER A YEAR'S ABSENCE

The faculty has been increased in numbers to take care of the expected increase in size and to give as adequate instruction as is possible. New members of the faculty are: Dr. J. Henry Johnston, A. B., University of North Carolina, Fellow in Education, University of Illinois and Ph. D. University of Illinois; John L. Campion, Instructor in German, M. A. Columbia, 1912, Instructor in Princeton, 1913, and University of Washington, 1915-16; F. P. Happel, Ph. D. of Harvard, and instructor at Harvard for the past two years in Romance Languages; J. M. Steadman, Ph. D. Chicago, and A. M. Carolina in 1914, Instructor in English; J. W. Lasley, on leave at Johns Hopkins last year, Instructor in Mathematics; Dr. C. W. Keyes, Ph. D. Princeton, 1913, Instructor in Classics. Two or three others are yet to be appointed. Prof. A. H. Patterson returns after a year's leave of absence to take charge of the Physics Department and become dean of the school of Applied Science. Dr. George Howe, head of the Department of Classics, will be delayed on account of the illness of his mother, who is a sister of President Wilson. Most of the old members of the faculty have already arrived and many others will come today.

SENIORS STRENGTHEN BAND OF FRIENDSHIP

CAME TOGETHER UNDER SAME ROOF IN THE LAST YEAR OF COLLEGE LIFE

That the plan of having all the seniors room together in the New Dorms is a success from the start has been proved by the spirit with which three fourths of the members of the class or over seventy fellows have settled there for the last lap in the race. Not only are the class leaders brought together but a big majority of the members have taken advantage of the opportunity to cast their lots together and solve jointly the problems that inevitably face every Senior Class. And the prospects are that even other members will soon see the truth in the adage "in unity there is strength" and fall in line in this movement to develop a finer type of class loyalty and to solve class problems in a more efficient and unified manner.

S. I. Parker and J. E. Harris spent their summer scouting the West and working in the wheat fields.

M. J. A. Archer died at his home here Tuesday afternoon at 4 o'clock after a lingering illness of several months. The funeral was conducted from the home at the same hour Wednesday. Mr. Archer was a retired business man and a confederate soldier. He was eighty years old and during his long career in Chapel Hill won the confidence and respect of all who knew him.

U. N. C. REPRESENTED AT PLATTSBURG CAMP

SUMMER SOLDIERS SPEND PROFITABLE VACATION IN CAMP

Marching down a narrow road with sand four inches deep while the thermometer was 92 in the shade; shouldering a full pack; and cutting through a cloud of dust so thick that the fifth rank ahead could hardly be seen was the unique pleasure of the thirteen representatives from the University who were at the Platsburg training Camp last summer.

After digging trenches and putting the camp in order all were glad to turn in for the night—even if their beds were only two blankets and the bare ground. And then in the morning there was that shivering, bone-rattling sensation together with the shaking off of semi-frozen dew drops. And those were just a few of the hardships which confronted the summer soldiers.

But camp life was also a pleasure. Lake Champlain spread out before the camp, thus offering excellent sport in rowing and swimming. The mornings and part of the evenings were spent in drilling and sham battling.

In the sham battles every morning with from twenty to sixty, rounds of ammunition, there were, besides troops, one batallion of field artillery, three troops of cavalry, and two machine guns. Every man carried regular full infantry equipment.

Starting one week before the hike the companies were drilled every day by Capt. Keehler, physical instructor at West Point. The last eight days were spent on the hike and the troops averaged from nine to twelve miles per day. During the hike 8000 troops took part in the field manoeuvre and, at one camp site, this large number of soldiers battled in a brook four feet wide and ankle deep.

One notable fact in the value of the camp was the bringing together of men from all parts of the country. In one tent there was a combination of a Harvard, a Princeton, a Carolina, a Bowdin, and three high school boys. In this same tent there were representatives from Maine, Tennessee, Missouri, Chicago, New York City, Massachusetts and North Carolina.

After supper conferences were held and short talks were made by prominent men. Secretary of War Baker, General Wood, and several Presidents of Northern Universities were among those who addressed the men.

The enrollment for this year is already considerably larger than it was last year at the end of the first week of registration, 1017 have registered.

The militia carried off seventy freshmen who had applied and a large number of upper classmesn but, in spite of the war and the coming and going in general, the U. N. C. "goes on forever."

The Y. M. C. A. Book Exchange will be open every day from 2:30 to 3:30.

CAROLINA MAY PLAY PRICETON TEAM HERE

OFFICIALS TRYING HARD TO SCHEDULE GAME ON EMERSON FIELD 7TH OF OCT.

Interest in early football practice has been quickened by the report on the Hill that Princeton is to play Carolina here on the 7th of October. Our officials have been negotiating with the authorities at Princeton and the consent of the faculty representative in athletics is all that is necessary to make the game a reality. It is hoped that the thing may be put through so the students can seen their new machine put to a real test on the home grounds before trying its luck on foreign territory.

WHAT CAROLINA PROFS. DID IN SUMMER VACATION

BOOKER, BULLIT, CAMPBELL AND HARRINGTON SUMMER AT PLATTSBURG

Prof. W. W. Pierson, Jr., of the History Department, was instructor at the Columbia University Summer School. Prof. Pierson brings Mrs. Pierson, who was Miss Brase of New York, back with him this time. He has been receiving the contgratulations of his friends.

Dean Charles Lee Raper is now back for his duties after teaching in the Summer School of the South in Knoxville, Tenn.

Dr. and Mrs. H. W. Chase have returned to the Hill from Nashville, Tenn., where Dr. Chase taught during the summer in Peabody College.

Dr. Henry M. Dargan and Prof. Oliver Towles spent a good part of the summer in Cambridge, Mass., where they were doing research work in the Harvard Library.

Prof. Geo. M. McKie taught Public Speaking in the Harvard Summer School.

Prof. E. C. Branson delivered a series of 10 lectures in August before a gathering of social service workers over the country at Blue Ridge, near Asheville.

Dr. Chas. S. Mangum spent over half the summer in doing health work for the State Board of Health.

Dr. J. B. Bullitt also spent considerable time working for the State Board of Health.

Dr. J. B. Bullitt, Coach Thos. J. Campbell, Prof. J. M. Booker, and Prof. E. A. Harrington, attended the military encampment at Plattsburg during the summer.

The week's number of the Manufacturer's Record is devoted to advancement in chemistry, and much praise is therein given to Prof. C. H. Herty. Dr. Venable and Dr. Pratt also have articles in this number.

Prof. Archibald Henderson has been engaged in historical research during the summer.

Prof. L. R. Wilson is expected to return about Oct. 1, to again take charge of the library. His many friends among faculty and students will be glad to welcome him back.

(Continued on Page Six)

FOOTBALL PRACTICE BEGINS IN EARNEST

TANDY, TAYLOE, RAMSEY, LOVE AND GRIMES—LETTER MEN OF LAST YEAR AT WORK

GOOD MATERIAL TO WORK ON

Emerson Athletic Field in Fine Condition—Cowan, Campbell and Kluttz Making the Squad Work Hard

The first regular football practice began September 11 on the New Athletic Field. A dozen or more men were out two or three days of the week before but no regular practice was engaged in, except some practice in handling the ball, passing, and tackling the dummy. Coach Thomas J. Campbell expects to get down to hard practice soon, and is anxious to get a line on the material available and prospects for the season.

The following letter men of last year are back on the Hill: Tandy, J. Tayloe, Ramsey and Grimes. Love, who played a few games last season at end, is also back. With these veterans already on hand, the line appears stronger than any part of the team. The coaches have an entirely new backfield to develop and new ends. Folgar, Farthing, Williams and Coleman are working hard at back field positions, while Bellamy and Proctor are showing good form at end. The adoption of the one-year rule this year makes it necessary to use only such material as was available last year, and much of this material has not as yet been tested.

The new Emerson Field is now in superb condition and should make for fast football. It now is covered with a fine sod of grass which gives it a fine appearance. Goal posts have been erected, tackling apparatus constructed, and everything put in readiness for a grueling practice. Showers and dressing rooms are attached to the stadium for the comfort and convenience of the teams. Not only will special attention be given to the varsity team this year but special coaches will be provided for the freshman, class teams, and the scrubs. Already five games have been arranged for the freshmen, who are now debarred from making the varsity team. Their games are as follows: Guilford College at Chapel Hill, Charlotte High School at Chapel Hill, Bingham School at Asheville, Raleigh High School at Chapel Hill, and the Virginia Freshmen at Chapel Hill the Saturday before Thanksgiving. The exact date of the other games has not been detailed yet.

The University has a coaching staff this year of unusual excellence. Men have been chosen who know the game from every angle and are furthermore educated gentlemen. Thomas J. Campbell, Harvard, '11, has general charge of the coaching. He played halfback for Harvard three years, was assistant coach to Percy Haughton there for one year, and coached the Bowdoin College team one year. He is known as one of the fastest backs Harvard ever had. He will give special attention to

AN INTRODUCTION

The Tar Heel welcomes heartily and with high hopes the men who are now coming to our University for the first time.

We who have been here before you and who have most intimately known the University introduce you to it with the purest pride. If in our stay here we had found the University tainted with any impurity or in the heart degree narrow, dishonest or selfish, while outwardly fair, we would feel ashamed in welcoming you. But, as it is, we feel no touch of shame. We introduce you to our University as to an old friend whom we know through and through and yet love and admire with all our heart and mind, a friend who is upright, unaffected and steadfact, a friend upon whom we can depend in every crisis for comprehension and help, a friend whom we are proud to call our friend.

We introduce you to your University and ours, believing that here you may find the best that life can offer a man, the true *summum bonum*,—an opportunity, through exercise, for a harmonious development of mind, body and spirit.

The amount of good gotten out of exercise depends, of course, largely upon the purity or impurity of the surrounding atmosphere. Here the atmosphere is neither germ-laden with the dust of dishonesty nor filled with the clouds of caste and the fogs of prejudice. Here every man is assured to be perfectly honest and honorable. We assume that much but, however many dollars or ancestors a man may have, we assume no more—for the rest, he is Freedom, purity, simplicity, integrity and unselfish service are not only ideals here,—they are realities. The atmosphere is clean and invigorating.

To the class of 1920 we introduce our friend, the University.

YOUR TAR HEEL

The Tar Heel makes no apology for an editorial concerning itself.

For too long a time already the student body has been content to receive with ignorance and apathy an inferior weekly paper.

We say an inferior paper because its standard has been, on the average, inferior to the standard of the University. The student body, we repeat, has received it with ignorance because it has, seemingly, had no realization of the paper's shortcomings and because it knows not the simplest things about the management of the paper, always blaming the Business Manager, Managing Editor and Editor-in-chief for each others mistakes; with apathy, we say, because it has received a dead paper without remonstrating, unless refusing to subscribe may be called a remonstrance.

One night last year when the Tar Heel came out a man walked up to another reading his issue and said to him:

"What's in the Tar Heel this week?"

"Nothing," said the other.

And he was right. Nothing,—or practically nothing,—interesting, live, amusing, informational, in a word, readable. Everything in it was dead. It contained a long account of an unexciting football game which everybody had seen a week ago and read about in the state papers, also a dry write-up of an uninteresting speech that everybody had already been bored with hearing.

That is what the Tar Heel has been, as a rule, for the last fifteen years at least. It has been a graveyard full of tombstones commemorating dead happenings. It has not been a live newspaper full of information and accounts of happenings interesting to the student body and interestingly written.

Why? Why has it left unprinted those things which it ought to have printed, and printed those things which it ought not to have printed?

The reasons for the Tar Heel's long period of uselessness are so numerous and powerful that it seems at first unfair to criticize the paper for not surmounting them. Every year it has had a new board of editors absolutely ignorant in the business of getting out a paper, many of whom have been too busy or lazy to work and make themselves worthy of the honor of editorship thrust upon them by the Athletic Association. Then too the Tar Heel has always had innumerable other difficulties to contend with, in and out of the print shop, financial, etc.

The answer, however, lies deeper than this, The Tar Heel has probably always been rather useless because no one has ever decided what it is and what is its function in the University. Ought it to be more of a weekly magazine or a newspaper? Ought it to give space to a dry writing up of an important happening at the expense of cutting out an interesting article on a relatively unimportant subject? Ought it to have for its prime object the conscientious representation of all sides of University life, however dry, or simply the interested attention of the student body?

Since no one has ever reached a satisfactory conclusion as to what the function of the Tar Heel is, it has always been a paper without a purpose. And so the editors have usually regarded their jobs as duties rather than as opportunities Consequently the paper has generally been filled with articles absolutely uninteresting, and perfectly useless except for the purpose of filling up. The editors have printed articles not because they think they are interesting but because they think it their duty and because the editors last year did it. The Tar Heel has, therefore, fallen into a rut. Practically no new features have been introduced into it in the past ten years.

The Editor in Chief and the managing Editors are not entirely to blame. The Associtae Editors have always deserved a considerable share. Too frequently the Associate Editor sent out on an assignment is content to put into his news article merely what everybody in college knows. He spends zero minutes in getting his information and about fifteen in writting his story. Lacking interest in his work, it is no wonder that he has failed to pick out and discover interesting news stories and write them up in an interesting style.

We propose this year to make the Tar Heel, above all else, interesting. Whether it secures interest through being newsy, informational or amusing is immaterial. The Board accepts the Tar Heel not as a dull duty and a heavy responsibility, but as a privilege and an opportunity to give to the student body a live and readable paper.

Our ideal paper is one which will be full of University news items and stories crammed with facts that you did not know before. If it also contains articles amusing rather than informational —so much the better. Our ideal paper is one that you will be more than glad to get each week; one that you would be willing to pay triple the money for; one that you feel you can not do without.

The Tar Heel this week, written and gotten out hurriedly by a Board new and absolutely unorganized, can, of course, bear no comparison to what we should wish it to be.

Can we, during the year attain to anything like our ideal Tar Heel? If we can pull out of the old Tar Heel rut, that has been becoming deeper and narrower for the last fifteen years, it is possible that we may.

We have one thing in our favor, it has evolved this year from a four cylinder into a six. Whether the 1917 Tar Heel will be a six built on the old 1900 model, slow, heavy, and uncomfortable, or whether it will be a super-six, serviceable, powerful, and beautiful no one can yet tell,—not even those two omniscient beings, the Weather Man and the Freshman Class. But we shall work for the best.

Y. M. C. A. COMMITTEE ACTIVE

The Y. M. C. A., as usual, was the eager and efficient servant of the new men during registration. The good work was begun by the Continuation Committee, which sent out a large number of Freshman hand-books besides warm letters of welcome and advice to the Freshman.

Committees wearing Y. M. C. A. ribbons met every train at University Station. The Information bureau helped the newcomers to get settled. A carefully prepared list of boarding-houses and rooms available with their respective prices was at the service of both old and new men.

H. V. Koonts, in charge of the self-help department was active in connecting jobs with "jobbers" to the mutual satisfaction of both.

Everything from stationery to guides for sight seeing parties were willingly furnished by the Y. M. C. A.

Friends of Royal Royster of the senior law class last year learned with much surprise of his marriage this summer to Miss Roberta Hicks of Brooklyn, New York.

DANCE AT ZETA PSI HALL

An informal and enjoyable subscription dance was held at the Zeta Psi Hall, Monday night. This was the night before the first day of registration, and the dance was, in a way, a celebration of the opening of the University.

There were about fifteen couples dancing and an almost innumerable crowd of stags.

Three cars from Durham came over bringing among others Misses Annie Mahler, Mildred Karnes, Mary Cobb, Ruth Fallon, Gladys Gorman, Margaret Thomas, and Nannie Green; and Messrs. Hart and Victor Bryant, Mickie, and Smoot. Mrs. Stokes chaperoned the Durham party.

Among the ladies from Chapel Hill present and dancing were Misses Eleanora Wilson, Betsy Bain and Josephine Daniels and Mesdames Winston, James, Beard and Woolen.

There was a man in our town,
And he was wondrous wise;
He could unscramble scrambled eggs
And uncuss custard pies.
He could unbutton butter, too,
But yet, with all his skill,
There was one thing he could not do—
Unpay a paid gas bill.

TAR HEEL CLOSED

"One more unfortunate
Weary of breath
Rashly importunate
Gone to its death."

Just so, Matilda! The Tar Heel Movie is no more. Gone are the days when you could see nine reels of pictures in the afternoon and ten more at night for the trivial sum of four jits. Brook holds our movie destiny in his hands, having bought the Tar Heel lease. But maybe he won't shut down on those good (?) Theda pictures.

If he does—then a thousand other voices are joined with Tank Hunter in protest to "putting a barb wire fence around Chapel Hill."

DRESSING ROOM GOSSIP

As we turn again from the glimmering, shimmering, scintillating pleasures of summer—autos, black cards, moonshine, queens, and aces—and face once more the stern, austere routine of campus life, let us be of undying courage and a contrite spirit—for thy labors shall be rewarded sayest the Lord.

But to get serious, what kind of a time did you have this summer? I presume this is the first time you've heard it! Fickle rumor has it that Bully B. spent his summer motoring to New York in his National 12, 103 r. p. m., which was held in quarantine one week by the authorities who directed the fight for the prevention of the spread of infantile paralysis.

The same guy (i. e. rumor) reports that Osborne Fairfax Leroy G. was attacked by a shark while bathing at Virginia Beach this summer but upon his attempt to sell him an Academy ticket, the man-eating monster perceived that his antagonist was a bigger shark than himself and promptly retreated to the briny deep.

But one word to you lads of the emerald hue! Due to the excessive cost of living resulting from the war, special arrangements have been made to get reduced rates on radiators, bath tickets, and fancy ceilings this year. Attend to the matter early and avoid the rush.

The faculty committee on courses has not as yet completed its examinations on the catalogue. They will be ready in a few days and promise to be more than the crips and puds that some Freshmen had hoped for. If you entertain Phi Beta Kappa aspirations bone up the University booklet every chance you get so that when the show down comes you may not be found wanting.

And now finally brethren, can ye punt a pig skin? If so don a suit at once and come out for we need you. And hark ye now, punters, now is the time to begin stirring up the pep. Let no man saturate his spirit with doubt and despondency.

Dr. George Howe, of Chapel Hill, is attending the bedside of his mother, Mrs. Annie E. Howe, who is critically ill of peritonitis and complications at New London, Conn. Mrs. Howe is a sister of President Wilson, who is also attending her bedside. It was generally understood that although she might live several days, she was beyond recovery.

ROMANTIC ECHOES FROM CAROLINA SUMMER SCHOOL

THE SUMMER SCHOOL GIRL CAPTURES CAMPUS AND TOWN

It was women, women everywhere—that is, while Summer School was going on. The rustle of the skirt was abroad in the land; curtains fluttered coquetishly out of all the dormitory windows; and lost hair-pins darkened all the walks.

All of the men who went to Summer School this Summer may not have gotten an education out of it; but not one will deny that he got a coeducation. He certainly had a chance to see all the fifty-seven varieties of women in rain and shine, by sunlight, electric light, star light and moonlight, in the class room and the ball room. But not in the Arboretum.

That was the one place tobooed. Mr. Walker had the idea that it was an Arboretum and not, as many seemed to think, an Amoretum. But Mr. Walker was powerful, and since he could not prevail upon the public to accept Dr. Coker's garden as a plain old Arboretum, he had it closed. No one was allowed to enter it after dark. When the eight o'clock bell rang the Arboretum was forbidden territory. Mr. Walker, however, told the girls that he could appreciate their love of nature and the beautiful and that since some of them seemed to have an insatiable desire to see the arboretum he would let Dr. Battle take a crowd of them to walk in there at any time.

Of course no one could foresee the terrible consequences of the closing of the Arboretum. Persons afflicted with the love disease ought to be quarantined. The Arboretum was the very place for them. The closing of it drove the lovers out over the campus broadcast. This in addition to spreading the malady made it uncomfortable and perilous for innocent and unromantic persons whose business took them 'cross campus after dark. At every turn under every tree, on every secluded bench, around every monument the unsuspecting wayfarer would run upon at least one resentful couple who acted as if he did it on purpose. Then he would have to back off, bowing, blushing, and apologizing,— only to back into another couple.

Every Friday night the University gave a ball. The Chapel Hill Chocolate Orchestra, an indigenous product of this city, furnished the music. These *dansants* began promptly at eight and ended at ten, because at ten-fifteen all the men had to be off the campus and at ten-thirty all the girls had to be asleep. The dances took place in the gym, and no dance step was too old or too new. Crowds of spectators lined the windows to keep any stray breeze from blowing on the dancers and causing them to catch cold. Mr. Warren was generally leader and floor manager.

At first it was a problem how to stop the dance at ten sharp. Finally a most novel method of terminating it was hit upon—turning off the lights. But once in a while the Chocolate Orchestra didn't know any better than to play a dance or so after lights were off.

These dances were probably the cheapest in the history of the University, a season ticket costing only 50 cents. As there were five dances, they cost a dime apiece.

Toward the end of school the girls gave a leap year dance at the Gimghoul Lodge. Several boys left the Hill on account of urgent business elsewhere as they said, but it was suspected that it was on account of a lack of urgent business on the Hill. Some of the boys tried to get invited by being coy and retiring while others sought popularity by being fast. But Mr. Warren was easily the belle of the ball. He was broken twice as many times, perhaps, as any other fair gallant present.

The Post-Office was a magnificent sight at mail time. Summer School girls of all descriptions were there, girls from Raleigh, Goldsboro, Annapolis and Durham, girls from the farm who "dress up" behind the old gray mule, old gray-haired ladies, and very young ones, willowy ones and 160-centimeter ones. They all crowded in to get the mail just as we do. Somebody once threatened to turn a mouse aloose in the push, but it never came to pass.

The Post-Office was the social center of the school. In it, as regular as the mail came at dusk dates and hearts were made and broken.

The renowned Flivver was in constant demand. It could be seen flitting around everywhere, often with girls and boys and sometimes with only girls clinging precariously to the seats, the restful gasoline tank and the downy toolbox.

Having picnics in Battle's Park, at the Country Club or anywhere else was another of the

NEW TENNIS COURTS

At a cost of approximately $800, four new tennis courts have been constructed, and the twelve old ones completely remodeled by the Athletic Association, which will take over the entire administration of the tennis courts this year. The construction work, such as draining, putting in spigots for sprinkling, the erection of new back-stops, the leveling, and rolling was in charge of Mr. W. W. Rankin, who will continue to supervise the tennis courts throughout the year.

The new courts, fourteen in number, are a marked improvement over the old ones. One side of the tennis field has been lowered six inches more than the other and tiling has been put all round the field, thus solving the problem of muddy courts. On the other hand a provision against the dust has been devised by putting spigots and a hose at each court. One of the most welcome reform features is the construction of the new back-stops, a long neglected need.

In mentioning some of the changes under the new system, Mr. Rankin brought out the fact that in the future the courts will be open to all students, whereas formerly only members of the Tennis Association were allowed to use them. He also states that the marking will be attended to properly by the Association and that nets will be furnished also.

The old courts will be ready for use by the 14th, and the new ones within the next few weeks.

ROMANTIC ECHOES FROM CAROLINA'S SUMMER SCHOOL

(Continued from Page Four)

Summer School's favorite amusements. Almost any fine afternoon toward sunset a crowd of girls in middy blouses with bottles of ginger ale under their arms and boys with baskets of ham sandwitches might be seen marching out of town to offer themselves as prey to the ants and other wild animals of the woods.

Another Summer School diversion, popular among the masculine element, was serenading the girls from the porch of the Beta Theta Pi Hall as they marched by from supper at Swain Hall on their way to the Post Office. Intrenched there a crowd of boys would sing to the passing girls the song called "Mabel," led by the Hon. Buck Wimberley and accompanied on the guitar by Leicester Chapman. "Mabel," which became the official song of the Summer School, was as follows:

"Oh, I love my pretty Mabel,
pretty Mabel,
Mabel with the golden hair,
For she's sweeter than the sugar
on the table,
Fairer than the bill o' fare.
For I love my pretty Mabel,
That's no fable,
And I want to see my honey all
the time.
And some day when I am able
I'll have Mable at my table
I'll not rest until I labeled Mabel
mine."

This song, sung directly at the passing girls, may have lacked deep thought and literary polish; but all of them smiled and some of them blushed while only a few of them frowned.

The drug stores made money during Summer School even if the moving picture shows did not. Every night Patterson's, Eubanks, and the Carolina were crowded to overflowing with girls and their suitors buying drinks and candy for them.

The class rooms were no less crowded with girls. In practically every class there would be about thirty to sixty girls occupying the front rows and one poor lost man squinched up in a corner in the back of the room.

The Summer School had an awful attack of examinations about July 26 and passed quietly out of existence about July 28, age six weeks. Withal it was a good school and a happy one and never did any harm, while it accomplished much good in its short span of life.

FROM FLORIDA

Walter P. Fuller, of the class of 1915, offers as an excuse for not attending the one-year reunion of his class at commencement the following: "Born to Mr. and Mrs. Walter P. Fuller, on June 4th, a son, Henry Walter Fuller."

John Husk and Phil Woolcot, recent graduates of the University will coach the Horner football team this year.

The Pi Kappa Alpha fraternity is building a new hall next to the "Coop."

Will you kindly acknowledge that some time during your career you have dreamed of the possibility of making a "touchdown"

A touchdown is a synonym of exceptional achievement—sure it is! We had a touchdown in mind when we evolved Fatima Cigarettes—purest and choicest of tobacco—just the sort of a smoke men should like—then to the gridiron test—you fellows snapped them up with a rah! And today more Fatimas are sold than any other cigarette in the country! That's what we call putting one over—the quality was there, and that's all there is to this success business! Package plain. Quality *all* in the tobacco!

FOOTBALL PRACTICE BEGINS IN EARNEST

(Continued from Page One)

the backfield. Rawson R. Cowen, Harvard, '16, will assist in coaching the line. Coach Cowen was star guard on the Harvard team for two years and coach of the second team there for one year. He has already made himself a great favorite with the boys. Dewitt Kluttz, who coached Davidson last year will coach the ends during the month of September. His reputation is already established in the state and outside. Other special coaches will be announced later.

The following is the completed and revised schedule of games:

September 30—Wake Forest at Chapel Hill.

October 7—Princeton at Princeton.

October 14—Harvard at Cambridge.

October 21—Georgia Tech. at Atlanta.

October 28—V. M. I. at Chapel Hill.

November 4—V. P. I. at Roanoke.

November 11 — Davidson at Winston-Salem.

November 18 — Pending at Chapel Hill.

November 30 — Virginia at Richmond.

MEDICAL MEN RANK HIGH AT PENNSYLVANIA

The first three places in the advanced standing list at the University of Pennsylvania went to Vann, Royster, and Pate, former students of the University Medical School. The record of Carolina men at Pennsylvania has been consistently of this same high sort.—*Alumni Review.*

MANY NEEDED IMPROVEMENTS MADE IN BYNUM GYMNASIUM

MORE SHOWERS WITH WARM WATER AND A BETTER HEATING SYSTEM PUT IN

One of the most imperative needs at the gymnasium has been recently removed by the instalation of another set of showers. The room next to the varsity dressing room has been utilized for this purpose. The old cement floor has been taken up and another one put down with the proper drainage. A more efficient system of plumbing, which will insure plenty of hot water with greater regularity of pressure has also been put in. The heating plant has been changed to advantage to meet the demands of the additional showers. These new showers are expected to be in operation by Monday 18th. From that time on the old complaint of no hot water will be a thing of the past

SELF- HELP COMMITTEE MEETS

The Committee on Student Employment, with Dr. Bell as chairman, met on Monday of this week to consider the applications of students who wished to earn a portion of their expenses during the college year. Only those applications for jobs with the University were considered. About 125 applications were turned in for jobs in Swain Hall. Of this number 65 were chosen as waiters, dishwashers, etc.; 40 to go on now and the rest as they are needed. The meeting was held this year on the day beregistration in order to appoint the regular waiters to go to work as the crowd arrived.

Whenever possible the committee has given the positions to new men. Out of the 65 men chosen, only 15 are old men; and out of the 40 who go to work at once, only 10 are old men. This is enough however, to keep the squad in efficient trim, and the new men will soon be well trained.

The Y. M. C. A. has compiled a list of all the jobs available in town and applicants who were disappointed at Swain Hall would do well to apply to them.

"Well, Son, said Mother, "you should never defer until tomorrow what you can do today."

"Then, Mother," returned Son, "hadn't we better eat the rest of the mince pie tonight."

1920 FORMALLY MEETS U. N. C. COLLEGE NIGHT

(Continued from Page One)

formance in behalf of the Glee Club and the Dramatic Club. Incidentally, he asked that more men participate in the try-outs. "You may have talents hidden under a bushel; don't waste your sweetness on the desert air."

At the insistent demand of the crowd Coach Campbell took the floor. He discussed college athletics in a frank, straightforward manner, and his speech left a lasting impression on every man present. He earnestly urged the student body to give the team, whether winning or losing, their undivided support. "Don't knock the team," said he. "Ridicule ruins more good football players than anything else." Coach Cowan then made a short talk in which he seconded what was said by the head coach.

The meeting, to sum up, was a great success. Every Freshman who attended left the hall with a wider knowledge of what is being done on the campus and with an increased pride in the college of their choice.

After the meeting a reception was tendered the new men in Bynum Gymnasium. Here they spent a profitable hour in getting acquainted with the spirit of the place, the upper classmen, members of the faculty and the members of their own class. Music was furnished by the University Orchestra under the direction of Earle Harris.

1137 REGISTERED IS THE OEFICIAL COUNT

FLOODS, WARS AND DISASTERS IN GENERAL KEEP MANY AWAY THIS YEAR

WAS 1102 THIS TIME LAST YEAR

At Least Seventy New Men Who Applied for Entrance Are Now Detained by National Guard

The University still continues to grow in numbers. Neither wars, nor floods, nor any other catastrophe have been able to halt its progress. Several unfortunate events have recently taken place which, it might be supposed, would have caused the enrollment to fall below that of last year. First came the flood, sweeping away millions of dollars in property and thus depriving many boys in the devastated districts of the means to enter college this fall. Then the United States army, feeling the need of recruits, made a vigorous attack on our forces, capturing 70 stalwart Freshmen who had applied for entrance beside many upper classmen. But in spite of the army and the elements the registration up to date is considerably larger than at this time yast year. According to Registrar Thomas J. Wilson, the highest living authority on this subject, the names of 1137 men are now on the enrollment list whereas at this time last year there were only 1102. This is a fact about the University of which every Carolina man should be proud. It shows that the University is stirred with a vigorous life, and it gives promise of a larger and greater University in the years to come.

DEFINITE WORD ASSURES ROY HOMEWOOD'S RETURN

The rumor concerning Roy Homewood's return is to be supported by the appearance of that individual himself sometime within the next few days. His return, up to this time, has been delayed, owing to the fact that the construction company with which he has been working has been unable to find a suitable man to fill his place. The latest report, however, says that he will be on the Hill in a very short time to keep up his old high standard on the football team; taking an active part in the few games that still remain to him.

SENIOR LAW CLASS MEETS

At a recent meeting of the Senior Law Class, L. M. Ruffin was elected Vice-President and A. W. Andleton, Treasurer.

Of those officers selected last year, the following have returned: Clinton K. Hughes, President; A. L. Brinkley, Secretary; and Frank Hackler, representative on the Student Council.

WHAT'S TO HAPPEN AND WHEN

Tuesday, September 26—Dr. H. W. Chase in Gerrard Hall at [illegible] Special Music.

MORE MEN NEEDED ON FOOTBALL SQUAD

COACH PLANS TO TAKE LARGE NUMBER ON NORTHERN TRIP NEXT MONTH

Coach Campbell has this week emphasized the lack of men for the varsity squad. Especially are the big men conspicuous by their absence from the field. The shortage of men has caused the coach's plans to go wrong in respect to dividing the squad. The original idea was to have two squads, one composed of men who would take part in all the early games, and a second string bunch who were to have a separate code of signals from the first string, and who were to be the opponents of the varsity squad.

There will probably be no cut in the squad for the present, or at least until there is an increase in the number and quality of the material. There are at present on the field enough men to form four teams, all of which are put through a rigorous practice every afternoon. Team "A", as the varsity is styled for convenience, is composed of the men who were out last spring for practice, and who best understand the methods that are employed by the coaches. This team is subject to change, but is now composed of Proctor and Love, ends; Ramsey and Tayloe, tackles; Ingram and Grimes, guards; Tandy, center; Folger, Bellamy, and Fitzsimmons, backs; and Johnson, quarter. There are only four Varsity men back this

(Continued on Page Five)

FORMAL OPENING U. N. C. HELD FRIDAY SEPT. 25

On Friday, September 25, the University was formally opened to the students of the 1916-1917 session. President Graham and Dean Stacy were the chief speakers. The members of the faculty were officially announced.

After the announcements Dean Stacy was introduced and spoke for about fifteen minutes on, "College Student Investments." He said that each and every student is making an investment, and that three things must be put into an investment: work, intelligence, and character.

President Graham next extended the welcome of the University to the new men, and made clear the meaning of college life and what the University stands for. "What the University Stands for," he said, "is this natural loyalty to truth, to work, to life at it's fullest and best, that comes through the intellectual way of life. It's faith is that through that way it may lead men into the richest and most abundant expression of their best selves."

JUNIOR LAW CLASS ELECTS REGULAR OFFICERS

The Junior Law Class held an elecion of officers last Friday.

Hubert M. Smith, who was graduated from the University last spring was elected president; Sam Ervin, vice- president; and Sam Hodgin, formerly of the class of 1917, secretary and treasurer.

DR. MIMS WILL SPEAK HERE UNIVERSITY DAY

COMMITTEE MAKING READY TO CELEBRATE U. N. C.'S 123rd ANNIVERSARY

The committee on arrangements in charge of the celebarting of Founder's Day here October 12th commemorating the 123rd anniversary of the University, have been fortunate in securing as a speaker for the occasion Dr. Edwin Mims formally professor in the University and now head of the English department at Vanderbilt. News of Dr. Mim's coming will be received gladly in this section where he is already well known, having taught at Trinity College from 1894 to 1909 and then here until 1912 when he went to Vanderbilt to take the chair of English. But the fame of Dr. Mims is not confined to the classroom. Besides being editor of such works as Carlyle's Essay on Burns, and Stevenson's Travels with a Donkey, he has obtained recognition in the literary world by his elaborate life of Sidney Lanier. Dr. Mims graduated from Vanderbilt in 1893 and took hs Ph. D. from Cornell n 1900. He has taught in the summer school at Johns Hopins University.

On the campus University-Day will be celebrated as usual with exercises in Memorial Hall. Throughout the state Alumni Associations and little groups of patriotic sons will meet to celebrate the 123rd birthday of their Alma Mater.

D. L. BELL, PRESIDENT ATHLETIC ASSOCIATION

THREE MORE EDITORS ELECTED ON TAR HEEL BOARD—OTHER OFFICERS

At the Athletic Association Meeting last Saturday, D. L. Bell was elected president; H. G. Baity vice-president; C. K. Hughes, secretary; S. I. Parker, cheer leader; Bruce Webb, assistant manager of football team; Raby Tennent, member of Athletic Council; and Miss Liddell, Buck Wimberley and C. B. Holding, as associate editors on the Tar Heel Board.

FORERUNNER OF WAKE FOREST GAME

Wake Forest, with whom Carolina plays the first game of the schedule, seems to be, from all accounts, preparing to give us a good fight. September 30 will see the initial game for both teams. It will be a double try out, a fact that makes the contest all the more interesting.

Billings and Howell are coaching. There are five letter men back and promising new material The old men back are Langston, center; Olive and Shaw, guards; McKnight, tackle; Pace, halfback; and Captain Parker, full back. Champion formerly of Raleigh High School will probably fill the role of quarter back. Harris a veteran end, is also bak.

All self-help men who want work should call at the Y. M. C. A. at 2:45 daily.

COACH PEACOGK ROUNDING OUT 'VARSITY MATERIAL

UNSKILLED FRESHMEN SHOW PROMISE OF POLISHED PLAYERS FOR NEXT SEASON

While varsity football is and ought to be most important from the standpoint of athletics at this time, the work of the freshman team in general and of their coach, Mr. Peacock in particular cannot be overlooked in connection with it. Out of the material that is being polished up by Mr. Peacock, there will probably emerge two or three good varsity men for next year.

From the work that has already been done on the freshman team, everybody will conclude that Mr. Peacock is the man who can make this varsity material become a finished product. Besides being an excellent foot-ball player and coach, it is said of him, that he is "the man who put basket-ball on the map of Georgia." All of which goes to show that the University has gained in him a very valuable addition to the exceptional staff. of coaches whom we have with us this year.

Georgia evidently thought a great deal of Mr. Peacock for a writer of their paper "The Red and Black" concludes a long tribute to him with this paragraph:

"In view of his great success in an athletic way, his untiring and unselfish efforts for the sake of Georgia, and the great influence for good that he has been to all with whom he has come in contact, this little appreciation can have only one fault; that of being insufficient."

FRESH FOOTBALL MEN DO NOT LACK WEIGHT

On account of the one year rule the Freshman squad is unusually large. There are about forty men out now who are being put through as rigorous a training as the varsity. The coaches expect to make use of the first year team in scrimmages as often as possible. Coaches Peacock and Daniel are putting this squad through their paces, and some of the freshmen are showing up well. The majority of the men are heavy, four ranging from 190 to 225 pounds, two weighing 185, and several weighing from 150 to 175. Blunt a drop-kicker is showing unusual form, and Lewis, a prospective quarterback, seems to have a good toe for punting.

There will be two freshman teams, one which will play the class games, and one which will be the Freshman Varsity. The latter will play the outside games, and finish with the Virginia Freshmen Team on Emerson Field the Saturday before Thanksgiving.

The first Freshman team will probably outweigh the Varsity and should give them some good tussles.

33 NEW MEN TAKEN IN BY 12 FRATERNITIES

The following men have been initiated into the fraternities at the University:

Beta of Delta Kappa Epsilon

INITIATES

Dave Cooper, Henderson, N. C.; Thomas Borden, Goldsboro, N. C.; G. W. Wimberley, Rocky Mounty, N. C.

VISITORS

T. H. Jones, Jr., Asheville; G. C. Royall, Jr., Goldsboro; A. W. Graham, Jr., Oxford; C. S. Venable, Boston; W. D. Pruden, Jr., Edenton; J. D. Proctor, Lumberton; K. C. Royall, Goldsboro; Rev. F. Smith, Lynchburg, Va.

Eta Beta of Beta Theta Pi

INITIATES

G. W. Green, Jr., New Bern, N. C.; T. B. Wood, Edenton, N. C.; W. R. Cuthbertson, Charlotte, N. C.

VISITORS

P. W. Richardson, Goldsboro; S. R. Keesler, Greenwood, Miss.; R. P. Richardson, Reidsville; L. W. Thomas, Chattanooga, Tenn.; D. L. Struthers, Wilmington, N. C.

Xi of Sigma Alpha Epsilon

INITIATES

Webb Durham, Charlotte, N. C.; F. D. Bell, Tuxedo, N. C.

VISITORS

E. Y. Keesler, Charlotte; T. C. Linn, Jr., Salisbury; Fairley Jaes, Laurinburg; Jesse James, Laurinburg; Alec. Worth, Durham.

Alpha Tau of Sigma Chi

INITIATES

Daniel M. Hodges, Asheville, N. C.; T. H. Jewett, Winston-Salem, N. C.; Gillespie Smith, Tarboro, N. C.

VISITORS

Mangum Weeks, Washington, D. C.; H. V. Johnson, Charlotte; W. Cary Dowd, Jr., Charlotte; Dr. J. F. Royster, Austin, Texas; Wm. Powell, (Tarboro), Trinity; Messrs. Mayes, Thompson, Bennett, Flythe, Alderman, Goldsboro; King, Cannon and Dunstan of Trinity College; C. E. Ervin, Troutman; W. C. Goley, Graham; R. A. McDuffie, Greensboro; B. F. Aycock, Fremont; J. P. R. Steele Columbus, O.

Upsilon of Zeta Psi

VISITORS

R. W. Winston, Jr., Raleigh; W. T. Joyner, Raleigh; Fred Manning, Raleigh; Austin H. Carr, Durham; G. Allen Mebane, Goldsboro; Richard Busbee, Raleigh.

Alpha Delta of Alpha Tau Omega

INITIATES

J. B. Hester, Jr., Tryon; E. H. E. Taylor, Morganton.

VISITORS

T. A. DeVan, Thomasville; H. P. Smith, Florence, S. C.; E. P. Pendergrass, Florence, S. C.; H. B. Black, Greenville, S. C.; K. A.

INFANTILE FRESHNESS

Just about this time every year the University has at least one case, and sometimes a whole epidemic, of that disease now known as Infantile Freshness.

There are always two or three Freshmen who are supersaturated with sauciness, brass-plated. They have a superabundant amount of freshness, and, like negroes with religion, they are just bound to let folks know they have got it. And so our deluded Freshman paints a big 1920 on the water tank or does some other imbecile stunt that is liable to retard the evolution of the University four or five years and carry us back to the Dark Ages of 1912, the barbaric days of 1911.

Our University seems to be in the path of evolution all right. In the last five years the number of students has increased at least a third; the number of reels at Pickwick has increased three-fold; Emerson Field has appeared; and the auto lines have annihilated distance and our dollars.

But nowhere have we made so great progress as in the extermination of hazing. Five years ago ink was a black fluid made to be used, not in fountain pens, but in blacking buckets, not on paper but on Freshmen; making a Freshman dance, sing, make love or howl at the moon to the tune of pistol shots was an innocent diversion; and ducking him under icy pump water was all the rage. Then, a Freshman was scared to stay in his room and scared to go out of it, scared to lock his door and scared not to, always on the lookout for a blacking crowd and ever prepared to make a hasty exit to Battle's Park.

Now,—now the Freshan is treated with all kindness, courtesy and cinsideration. The faculty the fraternities and the Y. M. C. A. vie with each other to please him.

So it comes about that he is naturally insensible to his advantages over those who were Freshmen before him. That he may realize them more clearly we print the following, taken from "A Mediaeval Garner" and illustrating, with some exaggeration perhaps, the way Freshman were treated in "the good olde days." Berthold and Camillus are two upper-classmen.

"Camillus (speaking to the Freshman): Thou froward beast, where are my tooth pincers? Hold out thy mouth! . . . Berthold, here is one tooth,—here now is the second.

"Berthold. I will keep these to show at a fair as men do with sea monsters.

"Camillus. Bring a bowl of water and some odorous herbs for his beard.—herbs grown at the spot where the sewer disgorges into the garden. Hold thy chin still. The beard is soaked enough. Where now is my razor of stout oak-splinter? . . . See, John, here now is thy beard, black as the beard of Judas.

"Berthold. He grows faint.

"Camillus. Lo! he is half-dead already: his knees bow under him."

Truly, the old order changeth.

Despite the fact that in a recent song hit, called "Don't Bite the Hand That's Feeding You," Uncle Sam is represented as saying threateningly to his immigrants, "But don't be ungrateful to me," —in spite of this, we believe that gratitude, like affection, is not a thing to be wrested from a man, or ordered as if it were a pound of beef and your friend a butcher. And so it would be preposterous to expect a gentleman to feel grateful for being treated like a gentleman. He should expect no less. But, we repeat, every year it has happened that some super-freshman forgets, not only that he is being treated like a gentleman, but he also forgets that he is a gentleman. Saturated with the quintessence of freshness, he sauces the supercilious Seniors, browbeats the complacent Juniors, and enrages the fire-eating Sophs.

The best medicine for the prevention of this annual epidemic of Infantile Freshness and its spread is, of course, a popular sentiment among the class of 1920 agiainst all manifestations of militant verdancy.

The class of 1920, we believe, has this sentiment, this spirit. It has conducted itself in a gentlemanly, orderly fashion; and we do not doubt that it will continue to do so—and thus wipe out all cases of Infantile Freshness.

THREE DON'TS

There are three things that our football coaches,—Campbell, Cowen and Kluttz,—want us to refrain from doing if we desire to get out a winning team.

We often think, and say, how gladly we would do some work, be active in some way, or make some sacrifice in order to make our team the strongest possible. Now we are asked, not to do any work or make any sacrifice, but simply to refrain from doing three things that it would inconvenience us to do.

The three things which our coaches beg us to refrain from doing are these:

1. Making unnecessary noise near the rooms of football players after ten o'clock, p. m.

2. Watching practice on Emerson Field before five o'clock, p. m.

3. Knocking the team at any place or at any time. It would be foolish to say anything concerning these first two "don'ts." Everybody, even an old lady that can't tell a football from an ostrich egg, knows that to be in good physical condition a person must get plenty of sleep, and that secret practice is not a thing to be watched by the whole community.

About "don't" number three we have only this to say. Whoever among us says harsh things about our team without being reasonably sure that his words will help it, is a knocker. Whoever is a knocker is as bad as a quitter. And whoever is a quitter is as sorry as a french poodle dog—no, we take that back, but we would say it if we didn't think that it would be cruelty to dumb animals.

The thing for us to do is to remember always that our team is our team, in defeat as well as in victory, that it is the only team we have and the best we have.

"As a man thinks, so is he." As a student body thinks, so is its team. If we, the student body, get the right spirit, the winning spirit, it can't help being reflected in our team. If we keep alive an abiding faith in our team, if we come out of every defeat with a determination that we will do better next time, if we come out of every victory with the fear that we shall not do as well; then we shall have a team, confident, careful, determined. And other things being anywhere near equal, that sort of a team will win.

PHILOSOPHICAL CONSOLATION

All hail to the reasoning faculty of man!

Did you ever flunk an exam? Yes? Please pardon the reference to a painful topid, but if you ever have—a thousand pardons!—made less than the fateful 70 per cent, and have felt despondent about it, then arise and sing, "Blessed be Logic."

It offers to you a Panacea, a Balm of Gilhead, a Peruna. By its aid you can prove that wisdom called by some richer than rubies, is no better than dry bread. You do it just like this:

"Nothing is better than wisdom;
"Dry bread is better than nothing;
"Therefore dry bread is better than wisdom."

Blessed be Logic!

But suppose, in addition to lacking wisdom, you haven't even got any dry bread. Suppose your ticket to Swain Hall has run out and you haven't got any money, not even enough to buy a fifth of an egg-sandwitch at Nick's or Red's. What are you going to do? Borrow? No. Starve? Certainly not. Eating is nothing but a luxury, a waste of time, money, the teeth and the jaw nerves. Don't eat; it's foolish to do anything wasteful like that. You may get a little hungry after the first day or so of fasting, but if you do just recite the following to yourself:

"Who is most hungry eats most;
"Who eats least it most hungry;
"Therefore who eats least eats most."

And it is perfectly obvious that he who eats nothing eats least. Twice blessed be Logic!

But you may get into other difficulties. All you have to do is to push the bell and call for Logic. One gets into difficulties so easily. For instance, in some idle and convivial moment you may have seen a cat crossing the road and you may have made the remark that the cat had two tales, or maybe three, according to the spiritual imagination of your eyesight at the time. And later suppose you are called before the authorities, who, not being able to appreciate imagination, foully suspect you of having been inebriated. What are you going to do? Must you lose your reputation for sobriety or for veracity? No, indeed. Give them a tablespoonful of Logic. Tell them this:

"For the sake of argument I'll admit that I do lie. But if I say that I lie, and say so truly, then I do lie; but if I say so falsely, then I speak the truth."

And if they can't accept that, then it is up to you to prove that the cat did have three tails; thus:

"No cat has two tails;
"Every cat has one more tail than no cat;
"Therefore every cat has three tails."

Thrice blessed be Logic!

If you are enough of a logician you can get out of any kind of a scrape. Logic will carry you anywhere; it rushes in where Fords would fear to tread. And after it rushes you in it will pull you out again, just like a Ford, if you give it gas enough. Trust to Logic, she'll carry you through, as a rule. But

"There is no rule without exceptions;
This statement is itself a rule;
Therefore this statement has exceptions;
That is, there are rules without exceptions."

There are lots of other good ones in Dr. Noah K. Davis's *Theory of Thought;* but I will stop here to avoid being mobbed.

Why have I wasted a column of your good paper with this stuff? What is the moral of it? What does it all prove? Well, I don't know. I shouldn't be at all surprised if it proved that two is twenty, or that a chair is a house and lot, or that a negro with a chill is a chocolate shake,—in fact almost anything.

And then again it may prove that you can prove anything you want to. Anyway, blessed be Logic!

Lives of great men all remind us
We could make our lives sublime,
If we only had the money,
Sense enough and lots of time.
—Josh Billings

SELECTION FROM DR. BATTLE'S DESCRIPTION OF DAVID L. SWAIN

David Lowry Swain, who was president of the University at the beginning of the war, was a favourite among the students. He was brilliant in conversation but somewhat addicted to the deplorable habit of punning. He was of inimitable good humor and was often the target of a somewhat cutting witticism without having any hard feelings towards the author. Dr. Battle related in his U. N. C. history:

"At the sale of the old furniture of the Di Society the amateur auctioneer, the late Major R. S. Tucker, offered a pair of silver plated candlesticks. 'Here, gentlemen, is a combination candlestick and mirror. They have the power of making an ugly man look handsome. Governor, they are the very things for you!' The victim laughed as much as the crowd.

"The following is one of his best. (Puns).

Robert H. Tate, in his Senior speech, spoke of the many uses of the Longleaf Pine, and bemoaned the recent losses of the state from the destruction of extensive forests of that valuable tree by myriads of pestelential insects. "What"? he asked "will become of our good old State, if this devastation of our pines goes on?" The answer of the President was "Re-pine, of course."

An isolated case of infantile paralysis has been discovered in Chapel Hill. The authorities have quarantined the case which is at the home of Mrs. Ledbetter. There are no signs of other cases and very probably no danger of its spread.

L. J. PACE MARRIED

Mr. Lawrence Justus Pace, of Hendersonville, N. C., a student of the University in 1915, and Miss Christian V. Justus, also of Hendersonville, were married on the 31 of last May. Mr. and Mrs. Pace are spending this winter in Chapel Hill, making their home with Mrs. Hardee on Cameron Avenue. Mr. Pace has resumed his work in the University.

John G. Johnson, captain of track team this year and one of the best basketball players ever here —will not return to college.

DR. MOSS TALKS

Over 200 students assemlbed at Gerrard Hall on Tuesday night to hear Dr. Moss, of the Presbyterian Church discuss with his usual simplicity and force his subject "The Glory of the Commonplace."

Dr. Moss in his talk laid especial emphasis on the value of the commonplace tasks, pleasures, courtesies, and moralities of college men. He urged the students to make the best possible use of the raw material they possess. "Success," said he, "Is not attained by exceptional talent alone but by diligence and persistence in developing the talents one possesses."

Dr. Moss's talk was intensely practical; it was the kind of religious talk that never fails to claim the interest of the average student.

Signor Caruso is to receive $6,666 a night for singing in Buenos Ayres. Lead me to a singing teacher.—N. Y. Herald.

Richard Strauss' New Opera, The Woman Without a Shadow," doubtless will feature last summer's gowns.—Washington Post.

CHEMISTRY HALL NOTES

The manufacturers Record of September 14 carries a highly interesting, thoroughly comprehensive series of articlse on "The Chemical Potentialities of the South." One of these is contributed by Dr. C. H. Herty, on "The Role of Chemistry in the Industrial Development of the South" and another by Dr. F. P. Venable "What the Chemist Means to Manufacturers." The mistake Individually and Nationally of Low Pay for Chemists." Mr. Richard H. Edmonds, Editor, credits Dr. Herty with the suggesting of this special edition.

Dr. Herty will continue on his vacation till October 1. During his absence his classes are being conducted by Dr. Venable and Dr. Bell.

Any one desiring to find how undecadent any one of the European nations is need only to start a war.—Washington Post.

Both candidates will take a rest shortly, but the spellbinders won't give the poor proletariat a chance until after election.—Washington Post.

TOMORROW

"Tomorrow," said the languid man, "I'll have my life insured, I guess; I know it is the safest plan, to save my children from distress." And when the morrow came around, they placed him gently in a box; at break of morning he was found as dead as Julius Caesar's ox. His widow now is scrubbing floors, and washing shirts and splitting wood, and doing fifty other chores, that she may rear her wailing brood. "Tomorrow," said the careless jay, "I'll take an hour, and make my will; and then if I should pass away, the wife and kids will know no ill." The morrow came, serene and nice, the weather mild, with signs of rain; the careless jay was placed on ice, imbalming fluid in hsi brain. Alas, poor careless jay! The lawyers got his pile of cash; his wife is toiling night and day, to keep the kids in clothes and hash. Tomorrow is the ambushed walk avoided by the circumspect. Tomorrow is the fatal rock on which a million ships are wrecked.—Walt Mason in the Philadelphia Evening Journal.

Y. M. C. A. OFFERS SCHEDULE ESPECIALLY FOR NEW MEN

EXPLAINS HOW TO LIVE ON 24 HOURS A DAY WITH AMPLE RECREATION

One of the biggest problems that confronts the college student is how to make the best use of his time. Especially to the new men, who are as, yet little acquainted with the daily duties of college life, is this problem of vital importance. It is for the benefit of these men that the Y. M. C. A. is submitting below its idea of the proper way to spend one's time each day.

Few men on the campus who have never given any serious consideration to the division of their time, would imagine that a student can fulfill every duty and pleasure necessary and still have six hours left for study and four hours for athletics or some outside activity. Yet the Y. M. C. A. dares to make this claim, and to prove its contention it submits to the following schedule.

RECITATION DAYS

Sleep	8	hours
Meals	1½	hours
Recitations	3	hours
Exercise, Extra Curriculum, Library, Post office, Reading	4	hours
Conversation, etc.	1½	hours
Study	6	hours
Total	24	hours

SUNDAY

MORNING

Breakfase	at 8:30	½ hour
Bible Class	at 9:45	1 hour
Church	at 11:00	1 hour
Bible Study	at 12:30	1 hour
Dinner	at 1:30	½ hour

AFTERNOON

Rural Sunday Schools, Letters, Strolls, Reading, Meditation	4½ hours

NIGHT

Supper	at 6:30 ½ hour
Church	at 7:30 1 hour
Letters, Conversation, Reading	2 hours
Retire at 10:30	
Margins	2 hours

This schedule is well worth trying. Of course the keynote of the whole thing is system and economy of one's time. By these means it is really surprising how much can be accomplished during the day. The Tar Heel recommends this schedule to every College student who wishes to make the most out of his year's work.

ADDRESS TO 1920

We hate to devote this much space in tht Tar Heel to just freshmen, but we feel called upon to take this means of reminding you that you have some two years and eleven months before you will be seniors, not allowing for tire troubles (you know some folks are born tired, or lazy either way you want to put it). Do not misinterpret our motives, for they are kind in the extreme. We love you as a thoroughbred Boston bull terrier loves an alley cat, but there are times when ettiquette demands that one restrain his emotions.

Having acquired the necessary pennants and belt-buckles, contributed the required donation for the support of the Adam Applejack Corporation (receiving as an expression of gratitude, a few text books), bought an alarm clock (it takes more than that, some of these cold mornings), and told everybody you're not a bit homesick,—you are now full-fledged, unmistabable, paris-green (and dyed in the wool) University—freshmen!

You have walked boldly out to the athletic field without coat or hat, and could hand out more straight football dope than Coach Campbell. You have become domiciled in Chapel Hill, and could no doubt point out Tank Hunter or President Graham on the street with the authorittative air of a man who knows the great because they have seen them. Some of you have even been overheard calling your profs. familiarly by their first names, though not while they were present in the flesh, it is true.

You have already had an opportunity to attend a college election and learn how the University is run. (When the names of Miss Lidell, Mr. Wimberley, and Mr. Holding were submitted for Tar Heel editor, some raw recruit cast his ballot thus—"Buck Wimberley—Holding—Miss Lidell.) The almost unfathomable profundity of this gentleman's intellect should be rewarded by his election to the Booloo Club. We can think of no other adequate recognition.

But to return to where we left off; as we were just about to remark—you are getting wise to this garden spot of intelligence, and acquiring a wisdom not of books, much of it—too much of it. Books are a bore, we admit but still it takes much drilling about the cranium to let in an education, so do not push away the instrument. You are becoming surprisingly expert at certain characteristic feats which every true Carolina man should be able to do, such as to stow away four or five sandwitches with pickles and onions at eight bells in the dog-watch and then get a good night's sleep.

You are not only getting wise however, but you are being gotten wise to. (Prof. Thornton's attention is respectfully but proudly directed to this last sentence, which is worthy of Wooley's Hand Book). There are all kinds of you from those quadrupels, who as Wilbur Royster says, go through College on all fours, down to five and six-legged animals, and up to bipeds who might be mistaken for human beings by those who did not know they were freshmen.

Now the purpose of this address, as we have said, is to remind you that you are freshmen, in the hope that when you see what a fix you are in you will try to get out of it. Our sincerest advice to you is to lock the door at 7 P. M. (from the inside), open it and put the cat out at 11, and to climb out of the straw as much before 8:25 as possible.

GLOOM GATHERS ROUND ENTRANCE OF PICKWICK

There was a woman in the case—Theda Bara or some other Pickwick favorite. She was peeping coquetishly through the small opening in the ticket window upon a spellbound mass of chocolate colored humanity. She was smiling from the canvas—they were grinning from the side walk; writhing and wrangling all the while to get a clearer insight through the small door.

There were only a few at first, and plenty of room, but one by one they came from every corner, every shine-shop and alley.

Soon the line grew—ont into the street and up across the sidewalk. And there might have been no trouble—and the sun down aggregation might have stayed there quietly throughout the whole performance—had not Charlie Chaplain wabbled across the canvas. Then there was a gentle babbling, but not like that of the brook. The column began to sway back and forth to the tune of, "Look out nigger," "Don't shove there," "Aw come on man," "Get off m' foot," "Behave nigger" and "Hang on your own supper.'

It was a clear night—the moon was out—more stars were shinning than ever before—but suddenly the floods descended and the rains fell and they smote [illegible] column—that it will grow on column—and

MORE MEN NEEDED ON ON FOOTBALL SQUAD

(Continued from Page One)

year, and with a green squad to pick from, the coaches are being forced to consider men very carefully before they are permanently placed on the first team.

Coach Capbell expects to put as many of the men on the squad in the early games as possible. This will give every man a chance to show to the coaches and to the University what he can do. A large squad will go to Princeton and Cambridge, possibly as many as three teams. Scrimmage started last Wednesday between teams "A" and "B" and a good many of the men showed up well. The first string backfield, though light, proved itself pretty fast, and although the scrub line does not match that of team "A" owing chiefly to lack of experience, both teams are pretty well balanced and matched. Folger and Proctor are showing up well, and Tayloe and Ramsey seem to be regaining their last year's form. All the quarterbacks seem to be about equal in ability, with Johnson a stride in the lead. Coleman, who had some experience at quarter last year on the junior team is the only one not handicapped by lack of weight. The ends, though plenteous, are not very good, this problem of flank material being one of the chief ones with which the coaches have to deal. The scarcity of men for the line still continues. The men who are now playing the forward positions are light but in excellent condition, as a result of the rigid work in the fundamentals which have been occupying the squad for the last two weeks.

The Wake Forest game is only a week off and the coaches are having a busy time getting the men into shape. This game is the feeler for which the squad is working, and which will largely determine the size of the squad to be taken on the northern trip.

"I'll have to collect my Bill," said the Irishman, as he went out to the place where his goat had been shattered by the train.—Dartmouth Jack O' Lantern.

Dean—Have you ever been up before me?

Student—I don't know. What time do you get up?—Princeton Tiger.

Mrs. Noovo-Reesh—"We went to the opera at that new theatre that's just been opened the other day."

Her companion—"Indeed; and what do you think of its acoustic properties?"

Mrs. Noovo-Reesh—"Well, you know, I thought they were a trifle gaudy myself."—Sketch.

Mother—Johnny, stop using such dredful language.

Johnny—Well, Mother, Shakespeare uses it.

Mother—Then don't play with Shakespeare any more. He's no fit companion for you.—London Tit-Bits.

Will you kindly acknowledge that some time during your career you have dreamed of the possibility of making a "touchdown"

A touchdown is a synonym of exceptional achievement—sure it is! We had a touchdown in mind when we evolved Fatima Cigarettes—purest and choicest of tobacco—just the sort of a smoke men should like—then to the gridiron test—you fellows snapped them up with a rah! And today more Fatimas are sold than any other cigarette in the country! That's what we call putting one over—the quality was there, and that's all there is to this success business! Package plain. Quality *all* in the tobacco!

GRADUATE SCHOOL INCREASES

The graduate school of 1916-17 compares very favorably with the two preceding years—showing a steady increase from a total of 61 students in the year 1914-15 to a total of 108 students in this year's graduating class. These totals include those students who by, taking work in the summer, graduate at that time and are not included among those present at the regular session. It is interesting to note that the increase in the total of graduate students during these past three years is confined almost entirely to the summer school class. To be more exact, the number of students in the regular session graduating school has decreased from 45 in the term 1914-15 to 32 in this term 1916-17. This result is undoubtedly precipitated by the fact that the students are now more desirous of getting their degrees in three years; and, consequently sieze more readily upon the opportunity afforded by summer school.

"I'll tell you what," the freshman said, "This place is hard as hash to me. I know that I will fall stone dead before I get that durned degree." I know what will suit me to do—just loll along haphazard: any way, it only matters to get through and cop that coveted B. A.

He graduated—strange it is—by rolling on in just this way. He dreamed aloud success in biz because he had that great B. A.

He settled down in business; his framed degree upon the wall, but found it didn't help the mess he made of business at all.

A moral to each sim'lar fool—this man died soon without two cents. He only got A. B. in school, and not the stuff it represents.

MEDICAL SOCIETY MEETS

The Medical Society met Saturday and elected the following officers: J. W. Harbison, president; J. J. Kirksey, vice-president; W. A. H. Gantt, secretary; H. M. Brinkley, treasurer; C. Squires, censor. It was decided to have initiation of the new members Saturday, September 2, at 8 o'clock, after which there will be a banquet.

The Medical Society brings the students of the medical school into closer social touch and it promotes interest in current medical progress. Members of the first year class are invited to apply for membership to the membership committee (Messrs. Brinkley, Eliott, Broughton) or to any member of the second year class.

All new men who did not fill out at registration, the small card, giving name, course, room, musical and business training, etc., will please call at the office of the secretary of the Y. M. C. A. at once and do so.

Lost and Found Bureau is open every day at 2:15. Inquiries must be made at this time.

Tuesday night at 7:15 promptly, tht second of the weekly Y. M. C. A. meetings will be held in Gerrard Hall. Dr. H. W. Chase, Professor of Psychology and Education will speak at this meeting. Special music will be furnished by the college orchestra. Every one is invited. New men, are especially urged to attend.

Chapel Hill was subject to a light frost Wednesday morning, but no harm was done to vegitation. Frost in this vicinity by the 20th of September is an usual occurrence.

W. E. Bird, of the junior class this year, was married this summer to Miss Myrtle Wells of Buncombe County. Mr. Bird is continuing his studies here in the University.

FRESHMEN PHYSIQUE BETTER THAN USUAL

RANGING FROM 221 POUNDS TO 100 EVEN—AVERAGE WEIGHT ABOVE 130

In the physical examination of the Freshmen, Dr. R. B. Lawson reports that it is the best class physically he has examined in many years. As a whole it has fewer defects than any recent class. This is probably due to the fact that the average age of the class is higher than those of recent years. This average is nearly 19 years. The average weight is above 130 pounds. V. L. Warren of Prospect Hill, N. C., is the heaviest man in the class, weighing 221 pounds. P. J. Elliott of Lattimore, N. C. is the tallest, standing six feet three inches. Several men succeeded in blowing the lung capacity tester to a higher mark.

It is the plan of the physical director to have all Freshmen do gymnasium work. The gymnasium accomodates 165 men. Arrangements will be made to accommodate the entire freshman class this year.

There will be an election of a representative at large to the Student Council Monday at Chapel period. Those nominated are: S. I. Parker, Carl Hyatt and C. C. Miller.

Two associate editors of the magazine, C. L. Snider and Moses Rountree, did not return to college this year. The Di Society elected Frank Clarvoe to serve in C. L. Snider's place. Albert Oettinger was chosen by the Phi society to replace Rountree.

Taking Preston Epps' place as Chapel song leader, is N. B. Broughton, of Raleigh, a second year medical student. Mr. Broughton was a member of last years' glee club.

The athletic authorities of the University have been unable to get a proposed game with Princeton here October 12th. We will play at Princeton, however, as schduled.

Beginning Sunday, October the 8th, Rev. Moss will give a talk each Sunday at 12:30 at the various Fraternity houses on vital problems of college men. The schedule of these talks will be announced in the next issue of the Tar Heel.

CAROLINA OPENS FOOTBALL SEASON WITH WAKE FOREST TEAM TODAY

Emerson Athletic Field Now in First-Class Condition for Scrimmage

GOOD FORM HAS BEEN DISPLAYED BY TEAM

TRAINING TABLE NOW IN FULL OPERATION FOR SQUAD AT UNIVERSITY INN

Emerson field is in great shape for Saturday's game with Wake Forest. The dust has been heavy, owing to the lack of rain, but a Studebaker sprinkler has largely eliminated this nuisance. The field has been marked off, and in doing so the surveyors found the goal posts to be but 296 feet apart instead of the regulation 300.

The goal posts have been padded to prevent injuries to the Varsity when in that vicinity.

The Varsity line-up has remained practically unchanged this week with Davis, Ingram, Borden, Price, Williams, Coleman, and Tennent as the likely subs. Bell has been switched from half-back to center, while Currie has taken his place in the backfield.

A few minor injuries have kept a few of the men out. Farthing has a strained muscle, Davis a slightly sprained foot, and Grimes a twisted ankle. All these men will be able to take part in Saturday's game.

The Wake Forest line-up will probably be as follows:

Harris	L. E.
Tatum	L. T.
Olive	L. G.
Langston	C.
Shaw	R. G.
McKnight	R. T.
Jordan	R. E.
Champion	Q. B.
Pace	L. H. B.
Tichenoor	R. H. B.
Croon	R. H. B
Parker, (Capt.)	F. B.

The training table started last Wednesday night, with 27 men on the list. Each man is paying what he would customarily pay, the deficiency being supplied by the Athletic Association. Those at the training table now are Tandy, Coleman, Folger, Ingram, Tennent, Price, Black, Bellamy, Fitzsimmons, Grimes, Williams, Currie, Harrill, Clarvoe, Ramsey, Proctor, Love, Tayloe, Davis, Holbrook and Borden. Supper is the heavy meal—dinner but a light lunch. The Varsity training table is being conducted at the University Inn.

FIRST YEAR RESERVE MEN SHOW GREAT IMPROVEMENT

The first year reserve team under the direction of coaches Daniel and Peacock is fast developing into a formidable machine. There are several big men trying for the team, and although some lack the experience, they have the physical qualities necessary to develop into good football players. With a considerable amount of coaching this year these men should make good 'varsity material for the next three years. The line has an average weight of approximately 165 pounds. The back-field averages around 145 pounds. At center Blount has been showing up well. McBrayer and Robbins at guards, and Conrad and Pickard at tackles are all heavy built men. At ends, Salmon and Ransom have shown up best so far. In the back-field, Daniel, Herty, Spruill, Bristol, Lewis, and Spaugh are working hard. In punting, Spruill and Herty have shown up exceptionally well. With these men, and additional others who might be mentioned, the Reserve Squad seems destined to turn out a team this year that can hold its own against all rivals.

Dr. C. H. Herty, who is president of the American Chemical Society, is presiding over a meeting of the Society in New York this week and also attending the second National Exposition of American Chemical Industries. He is expected to return October 3.

Dr. A. S. Wheeler has been away this week also attending the meeting of the Society and the Exposition.

The chemistry building is crowded this year, every available laboratory being occupied.

What's to Happen and When

Saturday, September 30—Carolina-Wake Forest football game, Emerson Field, 3:00 o'clock.

Monday, October 2—Inauguration of Student Council in Chapel.

Tuesday, October 3—Representative of Athletic Association in Chapel.

Prof. A. H. Patterson speaks in Gerrard Hall at 7:15. Special music by Orchestra.

Wednesday, October 4—Representative of Athletic Association in Chapel.

Thursday, October 5—Chapel open.

Friday, October 6—Musical in Chapel.

SENIORS ASSEMBLED PLAN CLASS SMOKER

The class of 1917 met Tuesday afternoon for the first time as Seniors and elected Kelley Hughes manager for the class football team.

The question of Senior smokers was taken up, and it was decided to have the first smoker sometime within the next week, at which time it will be decided whether regular monthly smokers will be held.

President Rand appointed on the Senior Stunt committee J. A. Capps, A. M. Lindau, W. T. Polk, Earle Harris, and E. K. Proctor. He also appointed Ratty Ranson, C. S. Harris, and H. G. Baity as a committee to decide on the Senior hat.

DR. J. A. MacDONALD WILL DELIVER WEIL LECTURES

"THE NORTH AMERICAN IDEA" IS THEME OF LECTURE HERE NOVEMBER 15th

On Nov. 15th the third annual series of the Weil lectures will be delivered at Chapel Hill by Dr. J. A. MacDonald, managing editor of the Toronto Globe, on the general subject, "The North American Idea." The series will consist of three lectures. In the first of these he will trace the North American idea, which he defines as "the right of a free people to govern themselves," through the history of our country from the colonial period up to the present day.

In the second lecture he will apply this North American idea to the history of Canadian Colonies and show how it has gradually drawn the two countries, Canada and theUnited States, into a closer relationship with each other.

In his last lecture he concludes with a portrayal of America's opportunity and responsibliity in extending to the rest of the world those ideas of freedom and democracy which dominate the North American continent.

Dr. Macdonald comes to the University with a splendid record

(Continued on Page Six)

NORTH CAROLINA CLUB MEETS

OUTLINES GENERAL PLAN OF STUDY FOR YEAR AND ELECTS OFFICERS

The North Carolina Club held its first regular meeting of the year Monday night in Gerrard Hall. The following officers were elected: President, J. A. Capps; Secretary, S. H. Hobbs; Steering Committee, Dr. E. C. Branson, Dr. J. G. Johnson, E. R. Rankin, R. E. Price, C. C. Miller and W. E. Price.

The general subject for study and discussion during the year is "Wealth and Weal in North Carolina," which has been divided into three main divisions: (1) "Production of Primary Wealth" to be studied Oct. 9-23; (2) "Wealth Retention," Oct. 23-Jan. 8; (3) "Taxation and the Common Weal," Jan. 29-May 21.

It is desired to make the Club more than ever a student organization, in which men may not only get a knowledge of their state and county, but may have the opportunity to be of great service to the people of the state.

TENNIS PLAYERS FORM CLUB

A large number of men interested in tennis met Thursday afternoon and organized the Tennis Club. E. J. Perry was elected President, and A. H. Combs, Manager.

The Athletic Association has taken over the courts, improved them, and will keep them sprinkled daily, marked, and provided with nets. The Club is to formulate rules to govern the use of the courts. It was decided to have two playing periods each afternoon as heretofore. The following committee was appointed to draw up

(Continued on Page Six)

CO-EDS DEMONSTRATE THEIR BELIEF IN ORGANIZATION

MEET WITH MISS BARTON, '17, AND ELECT OFFICERS FOR THE YEAR

The "co-eds" are abroad in the land. Not in years have there been such an abundance of them on the campus. Wherever we go, whether it be across the campus or in the classroom, our eyes are sure to light upon one of those once-rare creatures. In fact they have become so numerous that we have almost become accustomed to the sight of them and we no longer view them with wonder and amazement. There number has actually reached the grand total of 14—five seniors, two juniors, three specials, two pharmacy students, one post-graduate and one law student.

That the "co-eds" are beginning to realize the importance that has come to them through their increasing numbers, was shown in the meeting held on Tuesday afternoon with Miss Agnes Barton of Hartford. The purpose of this meeting is as yet a profound secret. Whether it was held to discuss woman suffrage, chewing gum or college professors is not definitely known. At any rate the hostess, Miss Agnes Barton, was elected President and Miss Gladys Avery, of Morganton, N. C., secretary. The fourteen present ere as follows: Seniors — Misses Gladys Avery, Morganton; Agnes Barton, Hartford; Callie Lewis, Winston-Salem; Wirina Pickard, Chapel Hill; Isabel Sloan, Davidson; Juniors—Misses Anna Forbes Liddell, Charlotte, and Marion Miller, Chapel Hill; Specials — Misses Gertrude James, Portland, O.; Winnie McGlamery, Lewisburg, W. Va.; Isabelle Sloan, Chapel

(Continued on Page Five)

DRAMATIC CLUB ADOPTS "LITTLE THEATRE" PLAN

The Dramatic Club is to be run on an entirely different plan this year from what has formerly been the case. It is to be run on "The Little Theatre" idea, which has recently gained so much popularity in most of the larger citeis. In this new plan some six or eight different one act plays are given at intervals during the year, no one lasting more than thirty minutes. This system has been tried in most of the northern universities with great success, and Carolina will be no exception to the rule.

RHODES SCHOLARSHIP EXAMS TO BE HELD OCT. 5th, 6th, 7th

There will be held in Raleigh, on October 5th, 6th and 7th an examination for those who wish to qualify for the Rhodes Scholarship to Oxford. The Scholarship entitles the person to whom it is given, three years schooling at Oxford, allowing 300 lbs. ($1500) each year. Though this examination does not determine the persons to whom the Scholarship is to be given, it does determine whether or not you will b eligible.

ATHLETIC ASSOCIATION ALTERS CONSTITUTION

ADDS AMENDMENT GREATLY INCREASING NUMBER OF ASST. MANAGERS FOR TEAMS

WILL MEET AGAIN NEXT MONDAY

Baseball and Track Assistants Will Be Nominated Then, and Elected at Another Meeting Tuesday Morning

An amendment, recently proposed by the Athletic Council, to create four sub-assistant managers for each of the varsity teams was passed by the Athletic Association Wednesday.

The new rule provides that, "There shall be four sub-assistant managers for each of the varsity athletic teams—which sub-assistant managers shall be nominated and elected by the Athletic Association in the same manner and at the same time as the assistant managers of the varsity athletic teams are now nominated and elected. Such sub-assistant managers are to come from the rising sophomore class. This amendment shall not debar any rising junior from being nominated and elected as assistant manager of a varsity team."

In discussing the amendment Captain Tandy and Manager Cole-

(Continued on Page Six)

FOOTBALL PREPARATIONS STIR STATE HIGH SCHOOLS

Once more the high schools of the state are beginning to feel the stir of the football spirit. In hundreds of towns and hamlets scattered from the mountains to the sea husky athletes in blue jerseys and padded trousers are daily trooping out upon the field to undergo a gruelling practice under the stern eye of the coach. Baseballs and tennis rackets have been relegated to the dust of the top shelf. Books have been forgotten; history and mathematics have lost their interest. The tenth grader sits at his desk dreaming of thrilling plays,—the flying tackle and the mad dash across the field.

The race for the high school football championship will soon be on. Asheville, Charlotte, Chapel Hill, Concord, Elizabeth City, Goldsboro, Greensboro, Hickory, Kinston, Newbern, Oxford, Raleigh, Rockingham, Salisbury, Shelby, Washington, Wilmington, Winston-Salem, and many other schools are fast rounding their players into shape for the opening games which will come off shortly. By a process of elimination the two strongest of these teams will be selected to battle at Emerson field for the state championship sometime after Thanksgiving.

The Raleigh high school has three times clashed with strong teams from the west, and three times she has returned home victorious. Will she carry off the championship again? Raleigh of course, thinks she will. Charlotte, Wilmington, Greensboro, Winston-Salem, and the rest think differently. However it is a long time till the last of November, and in the meanwhile we can only watch and wait.

THE FIRST GAME

Saturday Carolina's football team plays its first game. If we make a poor showing, many among us will shed premature tears for future contests. If we make an excellent showing, many will unconsciously assume that all of our season's games are already won and safely stowed away, and that there is no more work to be done.

Let us guard ourselves against fostering the deluded assumption that, through some process of predestination, the result of the first game fixes the scores of the season.

"A CAROLINA LOOKING-GLASS"

In this and in next week's issues the Tar Heel is going to spring on the unsuspecting student body several new departments, which will be continued, we hope, throughout the year.

Some of them are "Eavesdroppings and Interviews" conducted by Miss Anna Forbes Liddell, "Pages from Dr. Battle's History," selected by J. E. Harris, and "Athletic Notes" to be conducted by Frank Clarvoe, in addition to three more departments, which will make their first appearance next week: "Locals and Exchanges," "Down Senior Way," and "A Carolina Looking-Glass." "What's to Happen and When" keeps its old form, but "Dressing Room Gossip" has changed its name to "Just Gossip."

The department called "A Carolina Looking-Glass" deserves an extra paragraph. It is a perfectly new experiment and it should be an interesting one. The "Looking-Glass" will consist of about two columns each week. The purpose of one of these columns is to let the University take a sincere look at itself. Each week this column will ask some question, relating to the University, as one of these, for instance: "What Do You Like About the University?" "What Do You Dislike." "What is the Best Course in College," "What Do You Expect to Get at Carolina?" and "How Much Do You Spend Here a Year?" The next week it will weld the many different answers of the many different types of men here into an article that should be both amusing and eye-opening.

The query for this week, Honorable Judges, Ladies and Gentlemen, which you will answer in next week's Tar Heel is "What Do You Expect to Get at Carolina?"

Mail your answer to the Tar Heel or give it to a Tar Heel editor before Wednesday. We have no prejudice against anonymous answers. There is only one requirement,—that you be sincere. Say not what you think you ought to say but what you really do think. This column is open to all,—students, faculty, alumni.

The other column of "The Looking-Glass" is also open to everybody. Verse, prose, criticism, praise, funny things heard on the campus,—anything will be welcomed that is not too long.

THE "HONORS" PLAN

All men are eligible for "honor" who have made good marks in their language studies and who have their courses suitably arranged.

Any person going in for "honors" must first select some literary subject in which he is interested, preferably one connected with his work in English and any other language, or languages, he may have had. He must study his subject voluntarily during the year and must do a considerable amount of reading in connection with it. At the end of the year he completes his labors with a thesis. If his work merits it he is awarded highest, or next highest, honors at Commencement in his Senior year. But a man may start working for honors in his Junior year.

Some phase of the Renaissance, Romanticism in England, France and Germany, and Burke and His Times are specimen topics for honors work. A man who has taken a course or two on the Renaissance might select the first, one who has studied French, German and Romantic movements might take the second, and so on. Good topics are inexhaustible.

Any number of men may make highest honors, any number next highest, but the number making both will doubtless be smaller than that making Phi Beta Kappa.

The purpose of the honors plan is to stimulate voluntary work on the part of the student of literature here, to help him correlate his courses and to broaden and intensify his knowledge.

All men who wish to go in for honors must get Dr. E. A. Greenlaw's permission and announce their subjects to him before Monday, the second of October.

A DIVISION OF WORK

The election Wednesday of four sub-assistant managers of the football team and four of the basketball team was a step in the right direction.

There is a general tendency in the management of various organizations here, such as the varsity teams and the Tar Heel, to let one man, whether he be manager or managing editor, do all the work. This tendency is coupled with a custom quite as bad as itself, that of electing every year, to succeed the man who has done his year's work and graduated, a man who necessarily has had little, if any, experience in his new and hard job. Thus the assistant manager of the football team, when he comes into his heritage of managership, usually has only the most nebulous notions of the duties of his office; and the associate editor, managing editor and editor-in-chief of the Tar Heel are generally blissfully ignorant as to what they are supposed to do with their jobs. Conditions are precisely similari n many other organizations on the campus.

The scheme put into operation in Wednesday's election has several advantages. The addition of four men to the managerial forces of the footabll and basketball teams will secure a better division of work; one man will not have to give more of his time to his job than he can afford; and the work will, doubtless, be better done. It has the additional advantage of giving the sub-assistant managers a chance to get training and experience for the offices before them. Instead of being shoved by election into a job concerning whic he is wofully ignorant, the assistant manager will be a man who has worked for his place a whole year, who knows what he is to do and how to do it. The manager will have had two years' experience when he enters upon his managership.

The Athletic Association has undoubtedly taken a step in the right direction. Who will be next?

A LIFE-MIRROR

What is our Library?

Taking the viewpoint of the average member of the student body we would be obliged to define it as "A place to be carefully shunned except when Life or Judge comes in and when it becomes necessary to get a reference book of dry facts from which to work up a debate or a History or Economics paper." Only that and nothing more!

But it is more. It is a source of true pleasure. No one, except a person who has experienced it, can imagine how delightful it feels to settle down for an uninterrupted hour or two with a book he loves. It is a source of enjoyment unalloyed with pain or evil consequences, and few of us in this world are so abundantly supplied with such pleasure sources that we can afford to disdain one of them.

The Library is a house where we may visit at our convenience the great and brilliant men and women of all times. Shakespeare, Goethe, Moliere, Omar Khayyam, Carlyle, Stevenson, O. Henry and a thousand others, like perfect hosts, will entertain us royally and, like true friends, will disclose to us the dearest thoughts and feelings of their minds and hearts. An Acropolis, a Forum, a Mermaid Tavern, a coffee house, a brilliant salon all united in one place—that is merely a corner of the Library.

College men are shut off from the world and active life. They are secluded from the horror and romance of war, the monotony and excitement of business, separated from the world. Like the Lady of Shallot they may see the world only in a mirror. The Library is the magic mirror in which we may see all of the life of man and the earth from the time when our ancestors had "pointed ears and long tails and were probably arboreal in their habits" to the present day.

We may see the seamy side of life as well as the laces and jewels. And to those who want to see the seamy side, sliced to rags by the shears of fate and moth-eaten by pain and corruption,—to those whose thoughtless optimism or whose brutal insensibility needs a slap in the face from the harsh realities of life,—to those the Library may well recommend Hardy's *Tess of the D'Urbervilles*, Masefield's *Tragedy of Nan* and Ibsen's *Ghosts*.

But for those whose minds are wearied with all the complexity and hypocrisy of life, whose souls are sick at the sins of the world, and whose hearts are longing for a glimpse of simplicity and beauty,—for those the Library has the little story of *Aucassin and Nicolette*. It is an old French romance written when the world was young and nobody knows by whom. It is as fresh and pure and dainty as an April morning. But after all there is not so much to it; it is neither sociological nor problematical. It is only a tale of love "in the month of May when the days are warm and long and clear and the nights still and serene." In the beginning the unknown author makes this boast, and before the end he justifies it:

"Sweet's the song and fair's the word,
"Courteous to the ear when heard.
"No man can be so distraught
"Grieving so, so lost in thought
"Or in so great malady,
"But at sound he cured must be,
"And his heart for gladness beat,
"It is so sweet!"

AGENCY NORRIS CANDY THE REXALL STORE

CARUSOISTIC GRANDEUR AT THE GLEE CLUB TRYOUT

With non-combatants in a purely defenseless state fifty embryo carusos wafted themselves away today at the Glee Club tryout into a limitless field of etheral melody. Acting on President Graham's unguarded statement that every man who had a quarter should be able to sing, every hard-hearted biped on the campus who possessed two bits herded into the long suffering chapel. Voices trained to call across the dewy fields in the evening for the soft-eyed kine bellowed forth "The End of a Per-her-fect Da-a-y." Vocal chords that had been trained to carol forth the charms of Cynthy while the rays of a mellow moon streamed down and imagined themselves again wrapped in the clouds of oblivion down in the wilds of this Tar Heel Commonwealth raised their voices and lowered their chances of graduation by warbling "Somewhere a Voice is Ca-alling." The man at the piano was dying in a slow torture while lean men growled forth in bassonic notes, and fat men hurled their alto in defiance at the gods. Near tenor and baritone (we omit the well-worn joke) got their quarter's worth and sat down in a glow of self-appreciation. 'Twas a masterly performance—masterly! Who won? We repeat the question and will supply the answer next week.

George Eutsler, president of the class of 1915 and one of the most popular men in the University in recent years is now holding a civil service position in the Philippine Islands. After his graduation, Mr. Eutsler taught for a year in the Newport News high school.

Beginning Sunday, March 7, Rev. Moss will conduct Bible discussions in the various fraternity houses at 12:30 on Sunday.

The Wake County Club gave their first smoker in the Y. M. C. A. Friday night.

The first meeting of the new course in the drama of all languages will be held next Thursday afternoon at 4 o'clock in Alumni. Dr. Bernard will lecture on the Greek Drama.

"Do you know why the little chickens come out of the eggs, dear?"

"Course I do. They know they'd get boiled if they stayed in."

NOTES

Harry Miller, '16, was married on July 10 to Miss Mamie Sharpe of Stony Point, N. C.

Stuart Willis, '14, spent Wednesday on the Hill meeting old friends. He returns in a few days to Johns Hopkins.

Big Terry, on entering a class the other day, was directed by the professor in charge to "three of four seats in the back."

Let's have a good strong band this year, and have it out at every game. There is nothing that can beat it as a "pep" producer.

The Dialectic and Philanthropic Societies held their initiations Saturday night. Thirty-seven new men joined the Di and forty-three were initiated into the Phi.

In the election held in Chapel Monday, C. C. Miller was elected student councilman-at-large. Victor S. Bryant, Jr., was chosen by the council as the other representative-at-large.

The N. C. Club was organized Monday night. A steering committee was appointed. A "bull"-ing committee it was remarked, "will not be needed in such an organization."

The other day a football star who was looking over a book of piano exercises was asked if he was thinking of taking up the piano. He replied that he thought he could take up one end of it.

Freshman—reading over football schedule—Nov. 4, V. P. I. at Chapel Hill; Nov. 11, Davidson at Winston-Salem; Nov. 18, Pending at Chapel Hill. "What kind of a team has Pending got?"

Robert F. Moseley, '18, and Marion Ross, '17, were initiated into Amphoterothen Tues. night. Moseley entered with the class of 1911, and after several years absence has come back to the University to complete his course.

On a church bulletin: "Subject of the sermon is 'Hell.' Come and hear the choir."

In connection with Mr. Luther Burbank's announcement to vote for Mr. Wilson, the wicked Boston Transcript recalls that this is the same Mr. Burbank that invented the spineless cactus.—N. Y. Herald.

TICKLERS FOR TAR HEELS

TATLING

Teddy (after the missionary sermon)—"Mother, did the minister really mean that those black people don't wear clothes?"

Mother—"Yes, it's quite true."

Teddy—"Then why did dad put a button in the collection plate?"—The Tatler.

TIPPING THE SCALE

First Clubwoman—"I noticed you talking with that old bore. Did she get on to her ailments?"

Second Clubwoman—"Yes. You might almost call it an organ recital."—Punch.

"Few men advocate the recall when they think it might apply to themselves."

"How about actors?" — Baltimore American.

"The book I just finished said, 'The hero drank in her beauty.'

"However could he do that?"

"Through his eye-glasses, I guess."—Princeton Tiger.

Vocalists want to know how long it is possible for a man to hold a note. In reply, will say we have one we have held for six years and rather expect to hold it for six years longer.—Musical America.

"Why did you call the performance of Miss Pounder an electrical one?"

"Well, it was so shocking, you know."—Musical America.

A little boy went to Sunday school for the first time. His mother gave him a nickel to put in the collection box. When he returned, he had a stick of candy.

"Where did you get that candy?" asked his mother.

"From the stand around the corner."

"But what did you buy it with?"

"With the nickel you gave me."

"But that was for Sunday school."

"Well," replied the boy, "I didn't need it. The minister met me at the door and got me in free."—The Christian Herald.

"Do moind yez don't git hur-rt, Pat," said Bridget. 'It's dangerous a-working in that quarry."

"That's ahl roight, Biddy," said Pat. "Oi've borrowed two dollars frim th' foreman, and he don't let me do any dangerous work anny more."—Onward.

Eavesdropping and Interviews

"Have you a concept?". If so, though you be a Freshman with entrance conditions, your fortune is made. There is many an upperclassman wandering through the University searching diligently for this treasure whose price is above rubies. If you accost him and say, "Sir, I can supply you with a concept," he will straightway purchase it, and you can make your own terms.

Unfortunately, even though you should have a concept you wouldn't be able to sell it or rent it or even give it away. It isn't likely that you have one, however, or if you have you don't know it. "No," you say, "I wouldn't recognize a concept if I saw it on the campus." And you are quite right, indeed you not only wouldn't, you couldn't for if you saw it it would be nothing but a percept. Percepts are too common to be of any particular value. You may compile an infinite number of them, and combine them in all sorts of ways according to your fancy, but you can not transform them into concepts, imminent psychologists to the contrary not withstanding.

Perhaps you are one of the people who won't believe in concepts because they can't see 'em. There are lots of perfectly good folks who feel that way and you can pick out any number of famous men to back you up. You may live and work and eat and sleep and acquire property and fame and never bother about concepts at all, and perhaps be just as happy. That is if you like that kind of bliss.

If you have elected Philosophy 1-2 you have passed beyond that happy state—you have heardabout the concept and you rae wondering in your secret soul whether you will ever achieve one, whether you perhaps have one already without recognizing it as such. You don't care what kind of a concept it happens to be, a concept of the origin of species or a concept of a biscuit. The biscuit type seems easier to investigate but a few minutes reflection on this apparently simple subject convinces you that your mind is hardly adequate to the task. "What is a biscuit?" Why of course a biscuit is a biscuit, anybody knows what a biscuit is, certainly you do. You have eaten your thousands of biscuits, hot, cold, big, little, soda, beaten and butter-milk. You know the color, size and shape, you can look in the cook book and read the recipe. But you can't explain how it happened to be a biscuit instead of a waffle or a short cake. Oh! you can beg the question and say the cook did it, but that brings you back to the realization that the cook must have had a concept, and if you are going to arrive at a concept and that not your own but the cook's concept, your last state is worse than your first.

One disconsolate senior walked from the Alumni Building to the Post Office pondering this concept business, "I don't know what I've done in the last three years, I reckon I haven't done anything, I haven't any concept."

His companion was equally mournful, "I haven't got it. I don't know what I know. I don't know anything."

Professor Williams testifies that he has a number of concepts. He says he got most of them under his maple tree, he says he doesn't know how he did it, but they just come under that tree.

This is an enlightened community, the students have evoluted beyond the stage of vandalism. But if the Tree of Knowledge is growing right here in our midst, "arbor conceptes ferrentes," some night a delegation from Philosophy 1-2 is liable to sally forth and steal the shoots.

The chairman of the committee was addressing a meeting at a 'eachers' institute.

"My friends, the schoolwork is the bulhouse of civilization. I mean—ah—"

He began to feel frightened.

"The bulhouse is the schoolwork of civ—"

A smile could be felt.

"The workhouse is the bulshool of—"

He was evidently twisted.

"The schoolbul is the housework—"

An audible snigger spread over the audience.

"The bulschool—"

He was getting wild. So were his hearers. He mopped his perspiration, gritted his teeth, and made a fresh start.

"The schoolhouse, my friends,

A sigh of relief went up. Hamlet was himself again!

He gazed serenely around. The light of triumphant self-confidence was enthroned upon his brow.

"Is the woolbark—"

And that is when he lost consciousness.

CO-EDS DEMONSTRATE THEIR .. BELIEF IN ORGANIZATION

(Continued from Page One)

Hill; pharmacy—Misses Margaret Lynch, Chapel Hill, and Minerva Bingham, Rutherfordton; Law—Miss Helen Matthews, Charlotte; postgraduate, Miss Elizabeth Breazeale, New Brunswick, N. J.

When we see these many "co-eds" day by day flitting about the campus, we are reminded of the impassioned verse of that great poet, whose name modesty forbids that we mention.

They flitter, flitter here and there
Like noiseless creatures of the air
With garments sparkling in the sun
Like rainbows blended into one.

They chatter, chatter evermore
Of women's rights and such old lore,
Of fashions and the latest styles
Of Freshmen captured by their wiles.

And yet not one of us would say
That we would have them go away
For sure 'twould be a dreary year
If none of them were with us here.

Miss Milly was rather a talkative young lady. Her bosom friend having missed her for some time called to find out the reason.

"No, mum, Miss Milly is not in," the maid informed her. "She has gone to the class."

"Why, what class?" inquired the caller in surprise.

"Well, mum, you know Miss Milly is getting married soon, so she's taking a course of lessons in domestic silence."—Tit-Bits.

Talk about your varied repertoires:

"The concert at the grange meeting Saturday night had to be postponed because the record to the talking machine got broke."—The Millersville (Me.) Gazette.

ON DEGREE (a la moderne)

Freshman class—"A comedy of errors."

Sophomore class—"Much ado about nothing"

Junior class—"As you like it."

Senior class—"All's well that ends well."—The Davidsonian.

Come and dine with me tomorrow.

Sorry, I'm fixed up: I'm going to see "Parsifal."

That's all right; bring him along yith you.—The Tatler.

Co-eds are a silly lot,
I love them!
Some are plump and some are not,
I love them!
Tho' you tell them lovely rot
When you spend quite all you've got—
Off with someone else they trot.
I love them!
—Minnehaha.

"I want a c-c-clock."

Shopkeeper—"Sorry, sir; but we don't keep cuckoo clocks in stock."

Customer—"But I don't want a c-c-cuc-k-k-oo c-c-clock. I only want a c-c-clock."—Punch.

Will you kindly acknowledge that some time during your career you have dreamed of the possibility of making a "touchdown"

A touchdown is a synonym of exceptional achievement—sure it is! We had a touchdown in mind when we evolved Fatima Cigarettes—purest and choicest of tobacco—just the sort of a smoke men should like—then to the gridiron test—you fellows snapped them up with a rah! And today more Fatimas are sold than any other cigarette in the country! That's what we call putting one over—the quality was there, and that's all there is to this success business! Package plain. Quality *all* in the tobacco!

Pages from Dr. Battle's History

"As there were no dances at Chapel Hill, except at Commencement, the social meetings, then called 'parties'—were frequent—If a gentleman called on a lady who had a guitar or piano in sight, it was incumbent on him to ask for music, whether he liked it or not. It was keen enjoyment to his companions to watch a fellow visitor, who could not distinguish one note from another, standing by a piano, turning over the leaves of the music book and pretending painfully to listen to a ballad of eight verses, eight lines to a verse, or to a "march" in which the imitation of rolling drums and ear-piercing fifes, and the tramp of armies in motion were prolonged to distressing weariness.

"The usual musical instruments were flutes, violins, guitars and pianos. The most delightful female singer as a daughter of Professor Green. It was she, who organized and trained the first church choir in Chapel Hill. . . Miss Green's choir was for the Episcopal church and received commendation from all listeners. The leader as R. H. Whitfield, now a druggist in Mississippi. The only instrument was the tuning fork which he used with accuracy.

"There was frequent visiting of the popular unmarried ladies by students sometimes fifteen or twenty in an evening. Some visitors were so verdant that it required all the lady's tact to 'bring them out.' One of them astonished his hostess by inquiring, 'Miss, do you want a puppy?' 'No, why do you ask.' 'Oh, just to make talk.'"

DR. CHASE TALKS ON HABIT

Tuesday night in Chapel Dr. H. W. Chase delivered an interesting lecture on the formation of habits. He laid special emphasis on the kind of habits a man should form while in college, for he said it takes a great many years for a man to get over the bad habits he forms while in college. He said that the college man's habits are formed by his daily tasks, and his character is shaped by his habits.

"Good habits," he said, "are not formed by making good resolutions or thinking about the things we are going to do, but by doing them."

He put special emphasis on the fact that the successful man's character is the one shaped from the good habits he forms from his daily tasks.

DR. J. A. MacDONALD WILL DELIVER WEIL LECTURES

(Continued from Page One)

of achievement behind him. During the last quarter of a century he has made himself conspicuous in the public life of Canada as a journalist of power and influence. Soon after graduating from Knox College, Toronto, he was ordained to the ministry of the Presbyterian Church and was inducted into the pastorate of Knox Church, Ontario. Resigning his pastorate in 1896, he entered journalism in Toronto as the first editor of the Westminister, a religious monthly. In 1902 he became managing editor of the Toronto Globe, in which capacity he has served up to the present time.

The Weil lectureship, under whose auspices he comes to the University, is a direct outgrowth of the unendowed lectureship established by the University during the year 1914-1915. In that year Ex-President William Howard Taft, the first incumbent, delivered a series of three lectures on "The Presidency: Powers, Duties, Obligations and Responsibilities." The following year this foundation received a permanent endowment from the families of Mr. Sol Weil and Mr. Henry Weil, of Goldsboro, N. C. Professor George Brinton McClellan, ex-Mayor of New York City, was the lecturer for that year.

Since Davidson won't, who will Wake Forest to the fact that they can be defeated in football?

Probably Woodrow Wilson had his first experience with obstinate railroads on the dummy dummy line.—The Davidsonian.

Just Gossip

Ever noticed a hen that wants to incubate climb onto the china egg or old door-knob out in the woodhouse? Well, that's about the way our heroes fell on the ball today. Perhaps they were afraid it would break, or possibly there was a tendency to be chicken-hearted. To prevent further incorporation of the hen-nature it has been suggested that omelettes be discontinued at the training table.

It was already past 3:30. "Where's Folger?" asked Coach Campbell in a stern voice, as he strode back and forth on the field.

"Here he comes now."

"Well, where's Chapman?"

"He's not coming out today."

"What! Well, we must do the best we can without him. Where's Parker?"

"Here I am," shouted Piggy, jumping up. His chance had come. Visions of crowded bleachers at Richmond floated before his eyes. Frantic shouts of "Parker" from hoarse Tar Heels sounded in his ears. His name had been mentioned in the same breath with that of the mighty Bill. He stumbled forward.

"Here, hold these head-gears," said Campbell. "Line up for scrimmage," he shouted.

Not only was Zollie peripatetic, he could objurgate, toss repartee, or "bull" as well standing, sitting, asleep or awake, but best of all when reclining on the back of his neck in a morris-chair, with his feet on the mantlepiece. Like Aristatle of old, nothing pleased him more than to assemble with his disciples and kindred spirits, and hold a session. It was upon such an occasion that the following took place:

"You know," said Zollie, "they have a building in New York which holds more people than Chapel Hill and Durham combined, and when they go out to lunch every day, it blocks the traffic for six blocks in every direction."

"Well, I know what you say is true," said Feet Morris, "because we've got a building in Jacksonville so high that you can see those people blocking that traffic."

"Your turn, Big-Foot."

"Well, now, speaking in comparisons, they give us steak where I board, so tough that you can bend your fork on the gravy."

"Rotten—can't you do any better, Senator?"

"I'm scared you all will think this is a fish-tale, but it's a fact. Down in the Chesawhiskey River, near where I live, the mullets are so plentiful that you have to stand behind a tree to bait your hook and—"

"Out!" shouted Zollie, making motions as though wielding a shovel. "You can't get away with such stuff."

"What! You doubt my word? I'll hit you on the head so hard you'll be bow-legged from now on."

"If I make a pass at you and miss, the wind from my fist will give you pneumonia."

"Shucks, if I crowned you once, they'd have to carry you to two hospitals."

"And if I ever hit you, your whole family would drop dead—"

Here the supper bell rang, and the argument was forgotten in the stampede which ensued.

ATHLETIC ASSOCIATION ALTERS CONSTITUTION

man of the football team outlined the vastly increased work of the assitants and emphasized the need of this new system.

The officers were elected as follows:

Sub-assistants of football—Tom Wood, Walter Feimster, Donald Cobb and Jack Powell.

Sub-assistants of basketball—D. M. Hodges, Jr., Ralph Williams, Uriah Hawkins, Webb Durham.

The Association also elected Hamilton C. Horton as assistant manager of track upon the resignation of Claude Currie.

By this time the number present did not constitute a quorum, so the meeting was adjourned until Chapel period next Tuesday. At that time the sub-assistant managers of baseball and track will be nominated. There will also be an amendment presented creating a manager of the First Year Reserve team. If this amendment is accepted by the Association, candidates will also be nominated for that position.

The election of these officers will be held Wednesday morning in Chapel at the regular Chapel hour.

DR. CHARLES H. HERTY TENDERS RESIGNATION

WILL BECOME EDITOR OF THE JOURNAL OF INDUSTRIAL AND ENGINEERING CHEMISTRY

MAY ENTER NEW FIELD OF WORK IMMEDIATELY

Has Rendered Great Service to University During Period of 11 Years—Served Two Years as Head of the Dept. of Chemistry

The news of the resignation of Prof. Charles Holmes Herty as head of the chemistry department of the University of North Carolina came Thursday as a great surprise to students and faculty alike. Dr. Herty will become editor of the Journal of Industrial and Engineering Cheistry, N. Y., upon the resignation of Prof. M. H. Whitaker, of Columbia U., the present editor. This is one of the leading chemical journals of the country, and as its editor Dr. Herty will have an opportunity to do much constructive work in his chosen field. All of his time will be devoted to editorial work, hence the necessity for his resignation as professor of chemistry here. He is to receive a salary of $6,000 a year.

Professor Herty has been at the University of North Carolina for 11 years, having come here in the fall of 1905. He was formerly professor at the University of Georgia, and was for two years with the forestry division of the U. S. Department of Agriculture. He received his Ph. D. degree from the University of Johns Hopkins, and has devoted considerable time to chemical research and study in the laboratories and Uni-

(Continued on Page Six)

LATIN-AMERICAN CLUB HOLDS FIRST MEETING

The Latin-American club was reorganized Thursday night with a slight change in their program. This year they propose centralizing on one or more aspects of the Latin-American questions, with a more economic idea in view. Realizing that the trade relations between the two countries have increased to a very great extent during the past year, much time will be devoted to the opportunities of college men in these countries. Informal meetings will be held every two weeks, and two or three prominent speakers are expected during the year. The club is open to all students who are interested in South American subjects.

The students who represented the University at Blue Ridge this summer tell of an interesting prosecution of Secretary Bradshaw. He was tried on Stunt Night for being suspected of matrimony, found guilty, and sentenced to be thrown in the pool. That night after supper before a crowd of several hundred delegates the judgment was executed a la stiff collar and pal beach, despite the chilling iciness of the mountain waters.

PICTURES OF ANT-ARCTIC EXPLORATIONS TO BE HERE

SIR DOUGLAS MAWSON'S TRIP WILL BE VIVIDLY DEPICTED IN CHAPEL

"I've never been there but I saw it in the movies." Everybody says that with the conscious air of having had if not actual experience at least a mighty good imitation. Traveling by moving picture film is quick and convenient, and there is no place under the sun that can not be visited for five, ten or twenty-five cents. Cook's tourists traverse the globe in about three months more or less, probably less—but some well known film companies can reel off the same trip in two or three hours. And the spectator is saved not only the time and expense but the hardships of the traveling.

The Ant-arctic regions with their infinite stretches of snow and ice, their monstrous animals—the vastness, the terrible silent cold—fasten upon the imagination. The most graphic description could not be adequate. Every man wants to see it all for himself. If he can not do that, let him have it actually depicted, brought before his vision on the moving picture screen.

This has been admirably done. The Ant-arctic explorations of Sir

FRESHMAN DEBATING CLUB PERFECTS ORGANIZATION

About thirty-five or forty Freshmen interested in debating met in the Y. M. C. A. Monday night and organized the Freshman Debating Club. C. H. Edwards, of Buies Creek Academy was elected President; T. C. Wolfe, Vice-President; T. S. Kittrell, Secretary-Treasurer; and A. S. White, Critic. A constitution and set of by-laws which had been drawn up by a committee were adopted. J. D. Johnson and A. T. Johnson were appointed on the program committee.

Prof. Geo. McKie is behind the organization, and is expecting it to prove a great success. The purpose of the Club is to afford an outlet to the interest in debate which the men have acquired in their high school work. It is not the intention of Prof. McKie to have the Club try to enter competition with the Di and Phi Socie-

U. N. C. GRADUATE SCHOOL GREATLY INCREASES ROLL

111 STUDENTS—REPRESENTING 24 COLLEGES, 10 STATES AND JAPAN

One hundred and eleven students, representing 24 colleges and universities are enrolled in the University of North Carolna graduate School for the session of 1916-17. This is an increase of 27 over the enrollment on November 20, 1915, and nearly double the number enrolled in 1914.

Forty-two of these men did their undergraduate work at the University of North Carolina. The others represent 10 states, and one foreign country, Japan. Several come from noted colleges and universities, among which are Princeton, Wellesley, and Vanderbilt. The celebrated Waseda University of Japan is represented by two graduates who, after a thorough consideration of American colleges, decided that North Carolina was the best place to learn American business, government, politics and ideals.

Wake Forest is second in number of students enrolled in the graduate school here, having 16. Other North Carolina colleges represented are: Guilford, 9; Elon, 9; Trinity, 6; Davidson, 3; A. & M., 1. The other states most largely represented are Tennessee, Virginia, South Carolina and Georgia.

The graduate students are taking a growing interest in courses dealing with present political and social welfare. More of those who are now at the university are majoring in economics than in any other subject, with chemistry a close second. Rural economics, English, and philosophy are all popular courses. Most of the men are candidates for the degree of M. A. or M. S., but three are working for the advanced degree Ph. D.

(Continued on Page Five)

HUNDREDS OF ALUMNI WILL JOIN CELEBRATION OCT. 12

The exercises on October 12 will commemorate the 123rd year of the University's existence.

On this day hundreds of alumni all over the state and country will meet to commemorate the birthday of their Alma Mater. The Alumni Committee is sending out circular letters to the alumni reminding them of the significance of University Day.

Dr. Edwin Mims, head of the department of English of Vanderbilt University will be the principal speaker. His coming will be looked forward to by the students with the greatest interest, not only because of his reputation as a man of letters but because of the fact that he held the chair of English here at the University before going to Vanderbilt.

At the University of Kansas (largely co-educational) the coach has announced that he hoped no students will have dates at the games.

How about the pair of "sugar-plums," coachey?

FOOTBALL TEAM OFF TO PRINCETON! IN GOOD CONDITION FOR GAME TODAY

Warming-up Practice Held in Philadelphia Friday Afternoon

CAROLINA 20—WAKE FOREST 0

Carolina's impenetrable line played a great part in securing her 20 to 0 victory over Wake Forest last Saturday. Not once during the whole game did Wake Forest make first down. On the other hand Carolinas backfield possessed a drive that resulted in four touchdowns—not from spectacular runs, but hard line drives in succession.

Folger played a nice game at fullback and seemed to have an aggressive spirit throughout the game. The work of Fitzsimmons, Bellamy, Williams and Johnson in the backfield shows great promise for future games.

Tayloe and Ramsey held their own in the unyielding line. Most of the team is made up of men who did not play varsity ball last year. Harrell, Ingram and Proctor need not be ashamed of their work.

In the last quarter, Carolina ended with an entirely new team

(Continued on Page Two)

FIRST GLEE CLUB TRYOUTS FORECAST SEASON SUCCESS

The glee club try-out last week proved very encouraging, according to the statement of the director. The voices were so unusually good that it was only with great difficulty that the chorus was chosen. Several are expected to prove themselves able to do solo work, though it is too early to make any such official announcement as yet. The talent for the mandolin club proved equal to that of the chorus, and most of the mandolinists will be able to do chorus work also. Director Harris now has his practices going in full sway, and he feels safe in saying that the glee club this year promises to be one of the best that the University has sent out in the last few years.

FIRST YEAR RESERVE MEN HOLD 'VARSITY TO 6-6 TIE

The first year reserve team has been tearing things up this week. On Monday they invaded the sacred territory of Emerson Field and allowed the scrubs to win 18-9, although the scrubs were scared to death at times. The next day those same Freshies held the Varsity to a 6-6 score. The last game broke the first year team up a little however, four men being more or less disabled. Herty, Spruill, Lewis, and Ranson were the stars for the reserves.

The first year team is a good, fast, fighting one. They have been hitting the dummy and bucking machine with the same regularity as the Varsity and are in good condition. Coaches Peacock and Daniells are confident of getting them in finished shape before the first game.

27 MEN MAKE FIRST TRIP OF THE SEASON

COACH KLUTTZ MEETS SQUAD ON WAY—AND GOES TO SEE CONTEST

With twenty-seven men in prime condition the squad left last Thursday for Princeton. Secret practice was held Wednesday and Thursday so that the team might perfect their plays without observation. While the first team did not go very well the first two days of the week, they showed marked improvement the last two days before thetrip—so much so, that the scrubs could not stand against them. Tayloe and Grimes are back in the game re-strengthening the line again.

For the past week the ends have been bucking the line machine in order to develop the tackle-fighting side of the wing material. The line has been drilled in breaking through and blocking kicks, and through this both Coleman and Folger have developed the speed and distance of their punts. Captain Tandy's toe also seems to be in trim condition.

A spirit of the highest optimism prevails in the squad over today's game, and the coaches feel the men will easily lose the jinx of a bad week's start.

In making the trip the team went by way of Greensboro to Philadelphia on private car. Prac-

(Continued on Page Two)

FIRE! FIRE! AND SURGING CROWDS BLOCK TRAFFIC

Fire! Fire! And boys were running like one of Colliers' Triasic volcanoes had burst loose over beyond Carrboro. Out Cameron Avenue the crowd surged. The truck (?) came, and went, though it was a long time going, for boys had to put emergency brakes on themselves to avoid colliding with its rear end. Finally it seemed to take new life and for awhile approached the speed limit 'till about four blocks out, then slowing down it turned in the five foot alley to the left. The crowd followed. No fire was yet to be seen, and at the next corner the mighty red vehicle turned to the left again and started back toward town. "Where is the fire," someone asked. Some kind lady who was standing on the side-walk had phoned and found that the fire was in Central Hotel a few blocks from where the procession had started. This kind information filled the weary ones with new vigor and the race was renewed down to Central Hotel. It looked calm and composed. No fire was to be seen. The truck was standing in Station No. 1, as red as ever, but apparently not red with heat. No firemen could be found; no fire was found; but it is supposed that the man smoking

A GENTLE REMONSTRANCE

During the course of the Wake Forest game here Saturday, part of the crowd in the Carolina Stadium did two things unworthy of any group of men anywhere.

It laughed and jeered at a member of Carolina's team who was warming up on the side lines preparatory to entering the game. It addressed several remarks, personal and calculated to rattle, to the Wake Forest team.

The first act was not only a discouragement to our player and our whole team, but it was also an insult to Carolina. The persons who did the laughing and jeering, of course, "didn't mean anything by it." Nevertheless, the effect was the same. There is a certain class of men in every community who instead of doing any useful work "just sit around" and ridicule those who are doing things far better than they are doing them themselves, who are striving by hard work to better themselves and help their community, town, family or team. The former class of persons, unconsciously, does more real harm to a community than all of its liars and hypocrites, foot-pads and thieves. The liars and hypocrites merely entangle the ideas of a community; the foot-pads merely assault, sometimes maim, its individuals; the thieves merely secure a different distribution of community wealth. But the men who thoughtlessly laugh and jeer at the individual who is unselfishly doing his best, they kill the community spirit of aspiration and service.

The hooting at the Wake Forest team was an insult to fair play and good sportsmanship.

We know, of course, that the greater part of the men in the Stadium were gentlemen oneugh to conduct themselves as such under any ordinary provocation and that those who did the jeering at one member of the Carolina team and the hooting at several of the Wake Forest team were only a sparse and thoughtless minority. But that loud-mouthed minority is enough to make even heaven look like the place whither the broad road paved with good intentions leads.

TENNIS REGULATIONS

Whoever has gratted a 10:40 class and sprinted down to the tennis courts in hopes of waiting there in the sun till 12:30 in order to sign up for one for four—and then found that there were a score of men ahead of him;

Whoever has gulped down a ten-second dinner, at the risk of annihilating his digestion, and has done a five-hundred yard dash to the promised land behind the gym—only to hear the fateful words, "too late," shouted by the crowd with their nets stretched across the courts;

In short, whoever has attempted to exercise his tennis racquet at the University of North Carolina—welcomes any change whatsoever in the regulations governing the signing for courts.

In the last three or four years the men who have played tennis have wasted almost as much time waiting for courts as they have waiting for the mail. Think of it!

The new set of tennis regulations is only an experiment, but it is a much needed one. It is the duty of every tennis player here to do his best to help them to work with efficiency and without friction.

A Carolina Looking Glass

Last week, Ladies and Gentlemen, we announced to you the subject for this week's mirror, i. e., "what do you expect to get at Carolina?" and here are the replies:

"I expect to get poise and power in the association with other people," said one sober student, "not only with men that are my equals working toward the same goal, but with minds that are superior to mine and able to teach me by common contact. Association, in my mind is the greatest thing in college."

"What I expect to get at Carolina," said another, "is a degree (if nothing happens). Of course it may mean a few 'fours' before I can do it, but Dad is looking for the time when I can go back home. —B. A."

"I expect to get general training while I am here," was the reply of our theorizing friend. "I want physical training that I may have a good body to dwell in; mental training that I may earn a good living; and practical training that I may be ready for the battle of life."

"Of course I expect to learn something"—there was a twinkle in his eye as he said it "but I think a fellow ought to have a good time along with it. You are not young but once and if you don't take time by the forelock I don't see as thert's any chance."

"I expect my training at Carolina to educate my original (sounds like he's had psychology) nature so that I may live rightly in a civilized world." One fellow generalized: "When a man is born, he is no more than a mere animal and it is up to the University to so modify and redirect those instincts and emotions that he may become a highly civilized human."

HONORS AT GRADUATION

The editorial on the subject of Honors which appeared in the Tar Heel last week contained several inaccuracies, so that it seems desirable to make a brief statement concerning the conditions under which students may become candidates for degrees with distinction. In order to understand these provisions, it is necessary to remember that these two new distinctions, "Honors" and "Highest Honors," are not to be won on the basis of excellent grades, but that the plan involves a wholly different point of view. This point of view may be briefly described as the transfer of emphasis from the college courses as units complete in themselves to a field of learning which is to be studied only in part through formal courses. Thus, one studies History as a great department of learning, not as a collection of unrelated courses; one studies literature as another great department of learning, not merely as a collection of extracts from a considerable number of masterpieces written by Virgil, Moliere, Shakespere, Goethe, and others. The committee does not, of course, expect that an undergraduate, however gifted, will be able to annex all learning, even all learning as represented in one of its departments, as a province that has been mastered by the time the bachelor's degree is secured, but it does expect him to gain some conception of the boundaries of the province, and of the method to be used in its conquest. All this involves a very clear view of the relation of courses to each other. As aids in the attainment of these objects, certain provisions have been agreed upon, some of which may be stated in condensed form as follows:

1. The plan of study for the last two years of the college course must be carefully mapped out in advance, and must have the approval of the department chosen as a major and of the committee having in charge the administration of this plan of study. To this end, candidates must present to the committee, early in the Junior year, a list of the courses to be studied during the Junior and Senior years and also a statement of the method through which correlation of work is to be gained. There must also be chosen, within this field, a topic which is to be studied intensively.

2. The degree with distinction will not be awarded merely for specialization in a department, since this would defeat the primary purpose of the entire plan. The unit is the division, such as Science and Mathematics, History and Philosophy, Language and Literature. Within this division at least six courses are to be chosen of which four must lie in one department and the other two in a closely related subject studied through another department. These courses must be so planned as to secure, in a part of them, a definite correlation. For example, courses in English, German, and French Romanticism may be accompanied by the study of the French Revolution.

3. Besides such formal prescriptions of courses, other distinctive means for assisting the student have been provided. It should be remembered that the regular courses, though important, are subsidiary to that wide reading and general culture which the ambitious and capable student seeks instead of the accumulation of credit hours, and which he is aided to gain through the fortnightly conferences, such lecture courses as the new series of studies in comparative literature, and the final essay and examination.

4. In estimating the value of a candidate's work due regard will be paid to the grades attained by him in his regular college courses, but the grades are of secondary importance. The extent of a man's reading, the maturity of his thought, and his ability to use his knowledge effectively, are regarded by the committee as matters of greater moment than the average of the grades in his series of examination books.

The Committee on Degrees with Distinction is composed of Professors Daggett, Henderson, and H. V. Wilson, for the Division of Science and Mathematics; of Professors Chase, Hamilton, and Raper, for the Division of History and Philosophy, and of Professors Howe, Towles, and Greenlaw, for the Division of Language and Literature. Students who are interested may apply to any member of the committee representing the division in which his major work is to lie.

EDWIN GREENLAW,
Chairman.

CONTENTMENT

Contentment is the art of being satisfied. It is about the only thing that can give one time to enjoy life. It varies in form from a flat on the sixth floor to a few acres of ground, plenty of fresh air and several Jersey cows. —Kas. U. Daily.

CAROLINA 20-WAKE FOREST 0

FIRE! FIRE! AND SURGING CROWDS BLOCK ALL TRAFFIC

(Continued from Page One)

the cigarette out on Cameron Avenue threw away the "duck" befor the hose arrived.

The same thing has happened twice in the last few days, and it is suggested, first, that the man smoking the cigarette be made to pay for the city's gasoline, or that blood-hounds be secured to find the fire. Secondly, it is suggested that if the gentleman has any change left that he at least help pay for a few barrels of knee and ankle grease. Suggestion No. 3 reads, if some of the holes in the sidewalk are not filled up, many would-be fire-fighters will go broke feeding the great drove of "Charley-Horses" now following them around. Suggestion No. 4, That when the fire-bell rings, all lights be cut off so that the fire may not be confused with some light. Suggestion No. 5, That those who fear being run down by the speedy truck (from Detroit) keep no company with lightning bugs, and whenever you feel compelled to smoke, do it where the smoke (or light at night) cannot be seen, and be sure to keep the days straight and don't start to church some Thursday or Friday just because the bell rings.

FOOTBALL TEAM LEAVES FOR PRINCETON

(Continued from Page One)

tice was held in Philadelphia, and the squad spent the night there, going on to Princeton this morning. The following men were taken: Barton, Bell, Bellamy, Black, Clarvoe, Coleman, Currie, Davis, Crawford, Fitzsimmons, Folger, Grimes, Harrill, Ingram, Love, Pearson, Price, Proctor, Ramsey, Ransom, Tayloe, Tandy, Tennent, Jennette, Watkins, Williams, Johnson, Holbrook, Coaches Cowen and Campbell, and Doctor Lawson went in charge. "Doc" Kluttz met the squad at Philadelphia and went over to Princeton with them.

The team will return to the Hill Monday.

"THE SQUARE MAN," SUBJECT OF DR. PATTERSON'S TALK

"The Square Man" was the subject of the talk delivered by Dr. A. H. Patterson at Gerrard Hall on Tuesday night. With clearness and directness he set forth his idea of the essential qualities that tend to the making of a complete man. These qualities, he said, were all comprehended in Jesus Christ, of whom it was said that "he increased in wisdom, in stature, and in favor with God and man." Thus we see that man has four sides to his nature which call for development,—hte physical, mental, moral, and social sides. While it is highly important that we develop strong bodies, clear minds, and clean moral natures, yet we must not forget the fourth side of our being,—our social natures. So many men I have known, said he, have been unsuccessful in their college careers simply because they didn't know how to mingle with the students around them.

"I lay down this synthesis," declared Dr. Patterson, "that a man who has this four-fold development is every inch a 'square man,' in the slang sense of the word. When the trials and temptations of life beat against him, he will stand, as Tennyson said of Lord Nelson, 'four square to all the winds that blow.'"

SENIOR SMOKER NEXT WEEK

The Seniors will hold their first smoker sometime during the first part of next week, as soon as arrangements can be made. It promises to be a very extraordinary affair. There will be at least two good Faculty speakers on the program, and "Lucy" Harris is planning to pull off something swell in the way of an amusement number. At that time the fall assessment will be levied, the frequency of Senior smokers for the year will be decided on. Every Senior should muster up patriotism and join in the love feast. The committee appointed to arrange for the smoker is: Dalton, Fowler, Harris, J. E., Perry, and Williams, V. F. See them and get tickets.

The sharpest student is seldom the one who cuts the most classes. —Kentucky Colonel.

Registrar—Where were you born.

She—Nebraska.

Reg.—What Part?

She (coyly)—All of me, of course.—Neb. "Awgwan."

NOTES

The question for discussion in the Di Society Saturday night was: "Resolved, That the railroad employees were justified in their demands on the railroad companies." The affirmative side won and Mr. W. E. Bird made the best speech.

Fred Deaton, '16, was on the Hill for the Wake Forest game Saturday. His pastime is selling Fords in Newton, N. C.

W. T. Polk and Aubrey Elliott were initiated into Phi Beta Kappa last Friday night. They were absent from the regular initiation last spring, when the eight other members were taken in.

Jim Hoover, '17, is now at the University of New Mexico. He left here at the end of his Sophomore year.

Robert House and Gardner Hudson are at Harvard this year. House is doing post-graduate work in English, and Hudson is taking Law.

"Resolved, That Congress was justified in passing the Adamson Bill' was the subject for debate in the Phi Society Saturday night. The negative side won, and the best speech was made by Robert Moseley.

Charlie Coggins and John Busby are now using their dramatic powers to bring wandering Rowan County voters into the fold of Democracy.

And Prof. Patterson continues to mourn over the fact that somebody has gone and "ruint" the reputation of his "Star Course" during his absence. We know nothing about it.

Copies of the new edition of *Die Journalisten* which has just been re-edited by Professor Toy, head of the Department of German, have been received fromt he publishers. Professor Toy's first edition of this interesting work was published in 1889. Since then it has been in constant use throughout the colleges of the country, circulating at the rate of three or four thousand copies annually.

Prof. Francis P. Venable now has in press a new book on the subject of Radio-activity. This is one of the first books written in English to be published in this field and is expected to fill a long-felt demand.

A MESSAGE FROM THE Y. M. C. A. SECRETARY

The third of the weekly Y. M. C. A. meetings will be held next Tuesday night in Gerrard Hall at 7:15 The speaker will be announced later.

Every year there are some hundreds of meetings on the campus of various groups for various purposes. It has been rather customary in the past that each one of these meetings has had to begin some ten or fifteen minutes late because of the thoughtlessness of some of the required attendants. This means that just so much time of those who are punctual is wasted. Some, then, are forced to learn that it never pays to be punctual. What a horrible lesson, in direct contradition to all the earnest teachings of the university life in general. Others refuse to learn this glaring untruth but find it profitable instead to absent themselves entirely from all these "pestiferous" meetings.

The said pestiferious meetings being rather necessary functionings of the campus life, this second lesson is as disastrous as the first. Now all this discussion is simply preliminary and introductory to a resolution that the Y. M. C. A. has mightily resolved but cannot keep without everyone's help, viz., *to begin all meetings on time and to end them either on time or ahead of time.*

It is obvious to even the most unconcerned that this resolution cannot be kept by any group of people smaller than the majority. It is also very obvious to all that it is very much to the interest of the majority to have said resolution kept.

A concrete instance—don't be later than 7:15 next Tuesday night and don't let anyone else be later if you can preven it by any of the numerous methods of compulsion.

Prof. Norman Foerster of the English Department now has in press a new book—Selections from American Writers. It will be published by Houghton Mifflin Co. in a few days.

She—I'm tired of these silly stories where a smile always creeps slowly over the heroine's face.

He—But if it went any faster it might stir up a terrible dust.—Princeton "Tiger."

The Harvard Glee Club has already planned its trip. After an extensive tour of New England for two weeks they will "invade the South."

Eavesdropping and Interviews

Where do you spend your unscheduled hours? Even the admirable Y. M. C. A. "Carte du jour" allows a margin.

The student body seems to divide into three groups—the athletic, the studious and loaferous. The first class is well known and needs no description, the second is restricted, in fact the few individuals who compose it are so scattered that they seemingly appear as isolated phenomena, and they are of such little comparative importance numerically that it would not be worth our while to discuss them at any length.

The overwhelming majority of students belong to the loafer class. This division is therefore worthy of our minute study. Nor is it significant solely because of its size. The loafer class is itself divided into various groups, there are loafers and loafers.

Consider first the literary loafer. He is found usually in the Library reading current periodicals or dabbling in literature. At first glance he might be mistaken for one of the studious students, but he exhales an air of self-satisfied literacy which the hard wonking student boning away at some problem never has time to produce.

Again we have the aesthetic loafer who rambles through the woods and absorbs the beauty and grandeur of nature.

A more common variety is the social loafer who spends long hours conversing with his friends, lolling around in their rooms and smoking their cigarettes. He glibly vows that the greatest thing about College Life is the friendships you make.

The street and drug store loafer is equally conspicuous. He and his kind drape themselves against the walls of "Kluttz" and "Stroud and Tilley's," ornament the windows of the drug stores and lean upon the counter in the cafe. Only at meal times do they desert their places.

Most common of all is the aimless loafer who ambles across the campus, wanders down street, drops into the dormitories, loafs anywhere from Carrboro to Durham if there is any loafing going on. He seems to lead a pleasant life that one might well envy.

There are of course the Post Office loafers, but they are purposely omitted. Everybody loafs at the Post Office.

AT ABOUT THIRTY CENTS PER

Let me live in a house by the side
of the road,
Where the motor cars pass by—
The cars that are good and the
cars that are bad;
They all burn gas, say I—
I would not sit in the broker's
chair
Or shake the miner's pan;
Let me live in a house by the side
of the road
And hand out gas to man.—Ky. Colonel.

THE COUNTY FAIR

Not very long ago it was the custom of our parents to meet in community gatherings at the close of the harvest season, and amid the enjoyment of drink, feasting, and good fellowship celebrate a day of thanksgiving in honor of the God of crops. It was then that the corn shucking and log rolling contests held sway among the youth of the country. From the discussion among the farmers concerning the success of their year, arose the incentive for greater efforts the next year.

The continuance of these community rallies has given rise to the county fair. The development of scientific farming and the movement of co-operation among the farmers made inevitable an organized and competitive exhibition of farm products. Gathering at the central point in the county, the people from every community came to see who were the winners and to enjoy a general holiday. The introduction of amusements and finally the entering of every trade and pursuit for competitive prizes assured the permanence of the county fair.

The importance of the county fair can hardly be estimated. In its actual influence on the people it is probably productive of more good than the State Fair. The fairs of Durham and counties to be held next month will be of considerable benefit to those counties. Aside from the considerations of competition and personal associations which will come to the competitors and the people in attendance, the greatest benefit will come from the results of the increased productive capacity of the folks back home. Certainly the county fair has a permanent place in the movement for organized effort on the part of rural and city population.

Do you know where I can find Lincoln's Gettysburg Address?

Just send it to Gettysburg, and he'll probably get it.—Dartmouth "Jack-o'-Lantern."

Athletic Notes

Princeton's showing last Saturday against Holy Cross shows them to be well within our reach. As a whole the Princeton team is good. The ends are not as good as those of previous years, but the backfield is as good if not better. Brown, Moore, and Driggs are the trio that hope to cross the chalk marks for the Tigers. Moore is the champion inter-collegiate 100 yds. man, and Driggs is a good punter and live bucker. The Princeton line is not very heavy, but is fast.

STUDENT COUNCIL INSTALLED

At the Chapel period Monday morning the Student Council for this year was installed. It is composed of O. Rand, Senior; Albert Coates, Junior; Fitzsimmons, Sophomore; Holton, Medical; Hackler, Law; Bobbitt, Pharmacy; Miller and Bryant, representative-at-large. While the members of the Council sat in order in a semi-circle before the student body President Graham spoke briefly of the development of the plan of self government, and pointed out the wonderful success and power of the honor system at Carolina. He pointed out the fact that these men are not policemen, and should not be considered as such, but are men whom the students themselves have chosen by their own ballots to represent them in this system of government. He said that the control of the campus is not vested solely in those few individuals there, but that every man is an equal part of this great democratic system and shares equal responsibilities with all other men and that honor lies deeper than any code or set of laws which can be formulated.

INFIRMARY'S SICK-LIST SMALLER THAN USUAL

The number on the sick list at the infirmary up to the present date shows a great improvement on last year's list. There have been only fifteen cases since the opening of school up to the first of October that were serious enough to necessitate the patients being confined to the wards; while last year there were 23 ward cases by October the first. The percentage of patients who have come for consultation also shows a decided decrease when compared with last year's results. This year up to the first of this month, a hundred and one patients have come for a consultation, while last year the number reached as high as two hundred and fifty-six in the same length of time. Furthermore the majority of the cases this year have been due to colds, biliousness and malaria, with a very few cases of tonsilitis. Last year, however, there were several severe cases of appendicitis, besides a number of other cases of less serious nature.

It is a dangerous thing, when you have let slip an unfortunate remark to try to cover up the blunder.—Ex.

The Harvard Crimson says:

Professor Bliss Perry will conduct morning prayers in chapel today, while Professor Palmer will conduct them tomorrow morning.

The co-eds of Howard College (Birmingham, Ala.), are getting up a minstrel to give for the benefit of the football team.

Just Gossip

There are all kinds of roommates, and I guess I've had almost every variety, from the one with the blonde voice who would wreck a whole evening playing checkers to the 'bunker who kept books on his poker playing. I've roomed with four, three, two, and one in a room, and in each case there were certain advantages. At first glance, it sees that four in a room would be the most desireable arrangement. A tremendous saving can thus be effected, but it is a task worthy of the Hague Conference to harmonize four conflicting opinions. Imagine, for instance, that one is a real student (this is purely a hypothetical case), one is warm-blooded, one is cold-blooded, and one owns a guitar. Endless discord is the result.

Take the case of three. It is arithmetically impossible to divide the number into two equal wholes. As an axiom, where there are more than one, there is diversity and not unity, since unity is oneness. So here is division, it is unequal and one must act as a fulcrum to maintain equilibrium. There is more truth than math. to this. It is only necessary to note the result when A uses C's toothbrush to clean his shoes, or borrows his razor to sharpen a pencil. B tries to settle the matter by offering to lend A his own toothbrush temporarily: A considers this an insult, and declares he could catch some horrible complication of diseases, such as rheumatism and St. Vitus' dance, while C maintains that the old toothbrush is as good as new, that it needs only a little rinsing out, and that B is horning in on somebody else's affairs, anyway. "Three is a bunch," besides.

By far the largest majority of rooms are inhabited by two. This is an ideal arrangement, theoretically. But, as in a phychic experiment, you must allow for unideal conditions. The chances are, there will be temperamental differences impossible to reconcile. Suppose one likes pets, little green snakes, for instance. And the other does not. The possibilities are apparent. On the other hand, I once had a room-mate whom I thought was a "gem," a "jewel." In fact, any of the names given to the standard brands of gas ranges would be applicable to him. But he was too good. Many a time he has come in on a cold winter night and gently awakened me to see if I wanted a drink or something. That was too "gosh ding much," to quote Louis Clement.

Now, as for batching it—well, you can come in after supper and calmly offer yourself a cigarette without getting mad if the offer is accepted. You can keep the room so much better, too. You know if you arrange your books in order on the table they will not be disturbed. If you want to heat shaving water with the electric light bulb, you are not breaking up anybody's studies.

Of course we do not wish to interfere with anyone's plans, but we merely suggest to new men that whoever they room with, it is best to locate in Chapel Hill for the first year, at least, though it may be more exciting to commute back and forth from Durham.

Pages from Dr. Battle's History

At Commencements, as I have said, our streets and roads into the country were gay with handsome equipages. Those who have tried it say there is no better courting time and place than in a light buggy drawn by a spirited team. But let the amatory youth take warning from the mishap of a friend of mine, he borrowed of his grandfather a barouche and pair and took his lady love on a four-mile drive, determined to bring love matters to a focus. After skirmishing around with preliminary sweet speeches, he turned his head to gaze into her face while he asked her to share his life. As he did so he saw that the colored boy, whom he had employed to hold his horses at the house of the girl, had jumped up behind and was listening with grinning delight to all tender words. The shock was so great that the opportunity was lost—as it turned out forever. . . Another "smart" young man driving over Franklin street saw a cow lying contentedly in the way. He thought he would show his skillfulness as a driver by running one wheel over her side. Much to his grief the animal arose, upset the vehicle, and turned him and his lady-love sprawling into the sand. Unfailingly courteous, too, were the beaux of fifty years ago. I give one specimen of this:

A lady-friend of mine was taking a ride with a student of the forties. The buggy wheel ran into a deep rut on his side of the road and threw the lady with some violence on him. She said, "I beg your pardon, sir!" He replied with evident sincerity, "Not at all disagreeable, madam!"

U. N. C. GRADUATE SCHOOL GREATLY INCREASES ROLL

(Continued from Page One)

A great majority of the students are now taking their graduate work during the summer session. Nearly 70 per cent of the enrollment are summer school students, who prefer to take their degrees in four summer sessions rather than do a year straight work. That it is not necessary to go north to do efficient graduate work is what Dr. C. L. Raper dean of the graduate school, is trying to demonstrate to southern students.

FRESHMAN DEBATING CLUB PERFECT ORGANIZATION

(Continued from Page One)

ties, or in any way decrease interest in the Societies; instead he hopes for the Club to serve as an auxiliary to the Societies by increasing interest in debate among the first year men. Membership in the Club is voluntary. The next meeting will be held in the Y. M. C. A. at 7:30 Monday night.

PICTURES OF ANT-ARCTIC EXPLORATION TO BE HERE

(Continued from Page One)

Douglas Mawson were photographed and filmed. The camera followed him on his voyage. To secure pictures of his explorations required not only the expenditure of large amounts of money, but persistent labor in the face of peril. Risks were taken, hardships endured, and some lives were lost.

The films are marvelous. Only the Raney pictures of the wild animals of South Africa can be compared with them. Some people who have seen both, place the Ant-arctic films above the Raney pictures in interest.

These pictures of the Mawson expedition will be shown right here in Chapel Hill on the 28th of this month. The admission price will be twenty-five cents. An expert operator will manage the machine. It is going to be a moving picture show, a great moving picture show and nothing but a moving picture show—no travelogue accompaniment. The performance will be given in Gerrard Hall unless the demand for seats is so great that it becomes necessary to give it in Memorial Hall. Tickets will be on sale in advance. Further details will be published in the next issue of the "Tar Heel."

DR. CHARLES H. HERTY TENDERS RESIGNATION

(Continued from Page One)

versities of Germany and Switzerland. As head of the University Department of Chemistry he has built it up and added to its facilities until it is the equal of any in the South. This year the department has been taxed to accommodate all the men who wish to pursue chemistry studies.

But it is not merely as a Professor in the University that Dr. Herty has distinguished himself. He has long been known as one of the leading industrial chemists in the country. The Herty Cup for extracting turpentine, invented by him, has alone saved the South $13,000,000 annually according to a statement in the World's Work. He has made of the chemical laboratory here a clearing house of chemical problems affecting the industrial development of the South, and has carried on extensive experiments in resin-making, rare earth investigations, the study of dyestuffs and in certain other highly important fields.

The election of Prof. Herty two years ago to the head of the American Chemical Society, an organization including in its membership 8,200 of the country's foremost chemists, came as a well-merited honor. His administration has been one of unprecedented activity. His special training enabled him to render most effective service at a highly critical time in the nation's affairs, chemically speaking. His efforts in behalf of a tariff on dyestuffs and his general interest in building up a dyestuff interest has won him praise and renown from all quarters. In this position he has also been foremost in many other chemical developments, such as plants for extracting nitrogen from the air.

Doctor Herty had the signal honor of being elected president of the Chemical Society for a second time—an honor which has come to him alone. His recent address before the Chemical Convention in N. Y. has been widely published, and furthermore, he is largely responsible for the big Exposition of Chemical Industries which has recently been held in N. Y.—an exposition that was illuminating to every body because of the great development shown in American chemical industries, particularly in the manufacture of dyestuffs.

The recent number of the Manufacturer's Record, dealing with Chemical Development in the South, is largely due to Dr. Herty, according to a letter received by President Graham from its editor, Richard H. Edmonds. In his new position Dr. Herty will be able to stress most strongly the chemical and industrial possibilities of the South, and will therefore be able to render service of a invaluable kind.

Though Dr. Herty's resignation was not intended to take effect until January 1, he will probably be released immediately, if he so desires. No steps have been taken yet as to the reorganization of the department here. Doctor Herty arrives tonight from New York, and will then complete his plans.

How do your cigarettes treat you AFTER you smoke them?

(This is a test that few cigarettes can stand up under)

Many other good cigarettes besides Fatimas taste mighty good—WHILE you are smoking them. Fatimas are not the only good ones. Although Fatimas taste so good that they continue to outsell any other cigarette costing over 5c.

But Fatimas deliver something more than good taste. They will give you *cigarette comfort*—comfort while you are smoking them and comfort AFTER you smoke them.

While you are smoking them, they will feel cool and comfortable to the throat and tongue.

And AFTER you smoke them—even though you may smoke more than usual—they will leave you feeling as you'd like to feel. No heavy or "heady" feeling—none of that "mean" feeling of having smoked too much.

All this is the reason why Fatimas are called a SENSIBLE cigarette.

Yes—some day you will try Fatimas. Why not do it today?

TEAM PLAYS HARVARD AT CAMBRIDGE TODAY

ONLY FEW SLIGHT INJURIES RECEIVED IN GAME WITH PRINCETON

HOMEWOOD IS COACHING ENDS

Brisk Practice Held at Cambridge Friday Morning and Afternoon—Team Will be Here Monday at 10:30 A. M.

The work of the squad during the early part of the week was rather light, in order that the men might have time to thoroughly recuperate from the hard battle with the Princeton team last Saturday. None of the players were hurt save for a slightly strained muscle here and there. Doctor Lawson pronounced them all in good shape before they left for Harvard. A few changes were made in the line-up of the varsity. Tennent is being tried out at halfback and seems to be in his right place. His work in the Princeton game shows him to be able, on account of his weight and drive, to hit the line hard and to take the punishment both on offense and defense. Crawford is playing right tackle and Ramsey right end on offense, and the reverse on defense. Ramsey and Tayloe both have consistently shown their ability in getting down under punts, and the change makes it more difficult for the opposing team to gain ground by running back punts. This change is, however, merely a trial.

Coleman and Folger are improving the height and distance of their kicks, giving the ends plenty of time to get down. Both these men punted well in the Princeton game, Coleman toward the end of the game handled a bad pass behind our goal line and pulled off a kick that was close to sixty yards. The whole team is getting more drive and are going well.

The team left for Harvard last Wednesday night. They boarded a special car at Durham and arrived at New York at 12:47 P. M. Leaving there at three o'clock they got to Boston at 8:43 P. M. Thursday. They spent the night at the

DR. BATTLE DESCRIBES CEREMONIES IN LAYING OF FIRST CORNERSTONE

The sweetgums and dogwoods and maples were relieving with their russet and golden hues the general green of the forest. A long procession of people for the first time is marching along the narrow road, afterwards to be widened into a noble avenue. Many of them are clad in the striking, typical insignia of the Masonic Fraternity, their Grand Master arrayed in the full decorations of his rank. They march with military tread, because most of them have seen service, many scarred with wounds of horrid war. Their faces are serious, for they feel that they are engaged in a great work. They are proceeding to lay the foundations of an institution which for weal or woe is to shape the minds of thousands of unborn children; whose influence will be felt more and more, ever widening and deepening as the years roll on, as one of the great forces of civilization.—Dr. Battle's History.

QUERY FOR HIGH SCHOOL DEBATING UNION CHOSEN

"Resolved, that the Federal Government should own and operate the railways," is the query recently announced by the committee of the High School Debating Union for the 1917 contest.

The contest this year will be conducted in accordance with the same general plan that has been followed in previous years. The High schools entering the contest will be arranged into groups of three for triangular debates. Each school will furnish two teams of two members each, one team to uphold the affirmative side, and the other to defend the negative. Any school that wins both its debates will be entitled to send both teams to the University, when the best affirmative and the best negative team will be selected, by means of preliminary contests, to debate in Memorial Hall for the Aycock Cup.

The first part of April, the date for the final contest at Chapel Hill will mark the fifth year of the Debating Union's existence. In the four contests that have been held since 1913, Pleasant Garden, Winston-Salem, Wilson, and Graham have been the winners. Last year 1300 high school students representing 325 schools participated in the contests, and it is estimated that 80,000 people of this state listened to the discussions of these debaters. This year the committee is confident that there will be fully 350 schools enrolled in the Union.

The first University Sermon of the series of 1916-1917 will be delivered in the Chapel of the University on Sunday, October 15, at 11 o'clock A. M., by Rev. N. H. D. Wilson, of Goldsboro, N. C., of the Methodist Church.

Mr. Wilson is a Carolina man, a member of the class of 1886. He is a devoted son of the University and has rendered his Alma Mater efficient service.

He has held the office of Presiding Elder and has served many important churches.

U. N. C. CELEBRATES 123rd ANNIVERSARY

PRINCETON 29 CAROLINA 0

FAST WORK OF TIGER MACHINE TOO MUCH FOR TAR HEEL ELEVEN

Carolina lost to Princeton last Saturday 29 to 0 in a game which was marked by good playing on the part of Carolina and superior playing on the part of Princeton. The score at the end of the first quarter was 12 to 0 and it looked as if the Tar Heels were gaining favor in the game—but the remaining three quarters were marked by rapid plays of Haas, Brown, Eddy, Funk and others of the Princeton back field. The interference of the Princeton players was the best that has been seen there in years.

The line up:

N. Carolina	*Position*	*Princeton*
Proctor		Highley
	Left end	
Ramsey		McLean
	Left tackle	
Grimes		Nourse
	Left guard	
Tandy (Capt.)		Gennert
	Centre	
Harrell		Hogg
	Right guard	
Tayloe		Latrobe
	Right tackle	
Love		Wilson
	Right end	
Johnson		Ames
	Quarterback	
Folger		Haas
	Left half	
Fitzsimmons		Brown
	Right half	
Bellamy		Driggs
	Full back	

Substitutions: Princeton, Funk for Highley, Rahill for Wilson, Eberstadt for Haas, Eddy for Ames, Sinclaire for Latrobe, Haaren for Eberstadt McGraw for McLean, Comey for Brown, George for Driggs, Ruth for Hogg, Schmaltz for Gennert, Keating for Rahill, Winn for Funk, Foster for Nourse, Tenbroeck for McGraw, Kirkland for Sinclaire, Hamilton for Winn, Mathiason for Haaren, Freck for George, Gowan for Schmaltz.

North Carolina, Ransom for Proctor, Currie for Tandy, Ingram for Harrell, Davis for Love, Williams for Johnson, Coleman for Folger, Tennent for Fitzsimmons.

(Continued on Page Six)

A WILSON-BICKETT CLUB FORMS AT CHAPEL HILL

Hon. Victor S. Bryant, of Durham, spoke here last Wednesday before a large group of students and townspeople interested in forming a Wilson-Bickett Club. Mr. Bryant outlined the work and achievements of the Democratic Party in North Carolina—starting as far back as the Reconstruction days and bringing it up to the present campaign.

The club was organized with a membership of about 200. Frank Hackler was elected president; Hugh Hester, vice-president; and Clinton K. Hughes, secretary and treasurer.

CORNERSTONE PLATE OF OLD EAST IS FOUND IN TENN., AND RETURNED

Dr. Edwin Mims of Vanderbilt University Delivers Address

EX PRESIDENT TAFT MAY COME HERE IN DECEMBER

If nothing unforeseen happens Chapel Hill is going to have the pleasure of another visit by Ex-President William Howard Taft during the first week of December. He will be in the State about that time, and arrangements have been made to have him come to the University and deliver a lecture. Mr. Taft is kindly remembered here by all who heard him two years ago, when he delivered a series of lectures on "The Duties of the American Executive." He is a man of charming personality and an interesting speaker, as well as an undisputed authority on the responsibilities of citizenship and duties of the presidency. The University community will be glad to welcome Mr. Taft back again.

Y. M. C. A. RESUMES WORK IN NEGRO NIGHT SCHOOLS

The negro work carried on by the Y. M. C. A. here began Monday night with the first meeting of the negro night school at the colored Y. M. C. A. on Cameron Avenue. Brief meetings lasting about forty-five minutes are now held every night except Saturday and Sunday. The subjects taught are arithmetic, history, English, debating and hygiene. The following students are assisting in the teaching: Alfred Lindau, Theodore Rondthaler, William Boyd, Parkhill Jarvis, Roland McClamrock, Herman Stephenson and Robert Wunsch.

The negro Y. M. C. A. gave an oyster supper and "'possum stew" Thursday night to pay expenses this fall.

FRED FARTHING ELECTED CAPTAIN OF TRACK TEAM

On account of Johnny Johnson's failure to return to Carolina, the track squad was left without a captain. This vacancy has recently been filled by the election of Fred Farthing.

Captain Farthing urges all new men to go out every afternoon and work, since the one year rule does not apply to track.

There will be a cross-country meet with A. and M. this fall and more material is needed to pick from. No coach has yet been decided upon, but the track is open to men after five o'clock and plenty of roads are available for long distance work.

There are only two hard boys in this whole community, and Hugh Dortch is both of them. Joe Conger and Grey Graham dispute his title, however.

"IMAGINATION" ITS PLACE IN OUR LIFE AND THINKING IS THEME OF SPEAKER

MANY MESSAGES ARE RECEIVED FROM ALUMNI IN THIS AND OTHER STATES

With Dr. Edwin Mims, of Vanderbilt University, as the principal speaker, the annual University Day exercises were held in Memorial Hall on Thursday morning in celebration of the 123rd birthday of the University. The celebration was made especially notable by the return to the University of the cornerstone plate of the first building, erected in 1793, which disappeared soon after the Civil War. It was found in Clarksville, Tenn., by an alumnus of the University, who returned it just in time for the celebration. Grand Master A. B. Andrews, of Raleigh, presented it in behalf of the Masons, who originally placed it in the cornerstone.

The exercises began at 10:45, when the procession of students in double file, headed by the band, started from the Alumni Building toward Memorial Hall. Just opposite the Old West Building the line opened to the right and left and allowed the faculty members to pass through. The crowds of students and visitors pouring into the large auditorium soon filled most of its seats.

After the invocation by Rev. W. D. Moss and the singing of the University hymn, President Graham arose to introduce the speaker. "We welcome Dr. Mims to the University," said the President, "not alone because of his national reputation as a writer, but also because of the love we bear him as a former member of this institution. We honor him as a scholar, as a teacher, and as a man of letters, but we rejoice to have him here as a friend."

Dr. Mims in opening his address declared that he did not intend to discuss the European war or the function of the University, or to attempt to solve the social political, or educational problems of the nation; but that he would speak on a very concrete subject: "The Imagination: Its Place in Our Life and Thinking."

In the outset he tried to free his hearers from the notion that imagination is mere "fancy, or poetry, or moonshine." "I maintain that it is one of the regal powers of the mind, that a man of imagination holds the key to many of our most vital needs and problems, that the cultivation of the various forms if imagination is one of the primal needs of the individual and of society." To enforce his belief

FOOTBALL

Carolina's football season has begun successfully. With less promising material, this year's team has so far made a better showing that last year's. It has badly beaten Wake Forest; it has made a most creditable stand against one of the strongest Northern teams, Princeton, in what will probably prove to be the hardest game on Carolina's schedule. So far, so good.

What the outcome of today's game with Harvard will be is doubtful; but what the conduct of Carolina's team in the game will be is assured. We know that it will do its best. And we believe that its best is pervaded with the spirit of hard consistent work bulldog perseverance and operation in unity. This spirit has been manifested daily on the Emerson Field; it is the spirit that has caused the team to keep the pledge this year better than it is usually kept; and it is the spirit that, sooner or later, wins out.

Driven by the steam of enthusiasm and oiled in all its bearings with the oil of the spirit of unity, the Carolina machine should turn out this season some excellent samples of that rare article known as good football.

THE CAROLINA SPIRIT

Thursday the University of North Carolina celebrated its birthday. For about one hundred and twenty years, through war and peace, destitution and prosperity, our University has faithfully and efficiently served the State, the South and the United States.

What is it that has kept it doing its own work in its own way, for so long? What is it that has differentiated it from Wake Forest or the University of Virginia or the University of South Carolina? What is it that caused the expression of love for the University contained in the telegrams that President Graham read in Memorial Hall Thursday?

The University of North Carolina spirit, is the answer,—a Carolina self-consciousness, a University soul. What this spirit is it is hard to say, for it has developed since 1793 with the development of the nation and the world. It is like an ancient castle to which many rooms, walls and towers have been added, but the foundations of which have remained the same. Perhaps not even those who have known the University long and loved it with the most comprehensive sympathy,—Dr. Battle, Professor Williams, and President Graham, —can describe this spirit in phases.

But what a beautiful and powerful spirit it must be,—this spirit of the University of North Carolina, which for more than a century has been the chief factor in the development of so many good and great men, which for more than a century has commanded the admiration of the South, and which has always elicited such unselfish and abiding love from the hearts of its students and alumni, those who have seen it clearest and known it best.

To find out what this spirit has been is the province of the philosophical historian. To find out what it is now is the duty every Carolina man owes to himself and the University. I think that it is composed of honesty, purity, freedom from caste and a good many things that I have not discovered yet. You may have entirely different views. The essential thing is that we do think about it clearly, without prejudice.

After all this Carolina spirit is not a mysterious, transcendental, cloud-covered vision. It is before us every day on the campus. We have only to open our eyes to see it. It manifests itself in Chapel every morning and in Pickwick every night, in the class-room and on the football field, in the North Carolina Club and in the fraternities, in the Tar Heel, the Magazine, and the Yackety Yack. It is composed of all the things that Carolina men do or refrain from doing.

The only sensible thing for every Carolina man to do is to figure out for himself what the Carolina spirit is now, this year. If, after he has found out what it is, he does not admire it, if he thinks it incompatible with his own personality and its higher development, then the only course, it seems, for him to pursue is the course that leads away from Chapel Hill to more congenial regions.

But, if after searching it out, he loves that spirit and admires it and believes it a good thing for his personality, then certainly he should help it to infuse itself into his character, as the rain infuses itself into the fruit tree. And through his development will come about the development of the Carolina spirit.

OF COURSE

If you were to submit some material to the editors of the magazine it would probably not be published

BUT

The magizine depends upon the student body for material, and you never can tell. The editors of your magazine need your help from the contributing standpoint. Whether you can write or not is aside from the question. Submit something, be it good, bad, or indifferent. Freshmen particularly are urged to accept this invitation. Sure enough, all joking aside, remember that the magazine, more than any other student publication is dependent for contributions upon the student body rather than the board of editors.—The Editors.

IT WAS AT THE BALL

Girl from the West—Do you know, I find it ever so much colder out here than back at home. There I wore light garments all winter but since coming here I have had to put on heavy woolens. I'm from Oregon, you know.

Stude (with polite show of interest)—Is that so? I'm from Missouri.—Punch Bowl.

Joseph Wing suggests that all dairymen put stumbling blocks in their cow paths, so that each member of the herd may fall and strain her own milk.—*Daily Kansan.*

A Carolina Looking Glass

"How much do you spend at Carolina a year? And how?"

This is the subject open for discussion next week. The Tar Heel will be glad to hear what you think about this.

Verily brethren, now cometh our most noble querist, saying: "This have I asker of ye, 'What is the greatest service a man can give to his University while in college?'" and thus did ye reply:

"I think the greatest think a man can do for the University," said one wide-a-awake brother, "is to be a booster. He can get so saturated with the merits of the college that he fails to see the faults and boosts up the University not only while he is on the campus, but when he is out in the state."

"If a man has money," one fellow said, "he could put it to no better use than giving it to the University. We need it for dormitories, we need it for equipment, we need it for everything."

"A man serves the University best," said another, "when he goes out for athletics or debates and wins in intercollegiate contests, thus reflecting credit on the school he represents."

"The greatest service in my mind that a man can render his college is to always uphold its standards. Let him try to live the the life of an ideal University man. Let him uphold the standards of morality and scholarship that the University stands for and he has done a lasting service."

"The greatest thing a man can do for this institution," said another summarizing brother, "is to give himself to it and take in exchange the highest and noblest it has to offer him."

INTELLIGENCE TEST

Say, you think you are some pumpkins, don't you, Mr. Senior? Well, cast your eye down this, and, see how you grade up. Pretty small 'taters and fe in a hill, ar'n't you? It is our firm conviction that there is not a man in the University who can pass this exam We'd almost take a chance on most of the profs flunking too. See what you can do to it.

1. Give the meanings of the following words:—Dithyrambic, esurient, aphorism, evanescent, metheglin, pervasive, prissant, interpolate, jinrikisha, and regurgitate.

2. Where are the following—Tegucigalpa, Organ Mts., Chihuahua, Tucuman, Popocatepetl, Gray beard, Fonseca Bay, Charlotte Amali Tortugas, and Magdalena River.

3. What are the following—

(This column is open every week for lontributions from everyone—"regardless of race, color or previous conditions of servitude.")

Diastase, gamboge, involucre, tempera diapason, hematite, nux vomica, poliomyelitis, coracoid process, Cartesian diver.

4. Who were the following—Bolivar, Agassiz, Blucher, Isack Walton, Linnaeus, Leblanc, Gay-Lussac, Thoreau, Bismarck, and Balmaceda.

5. a. Name five men who signed the Declaration of Independence.

b. Who was President of the U. S. just before and just after Harrison.

c. What is the phase rule.

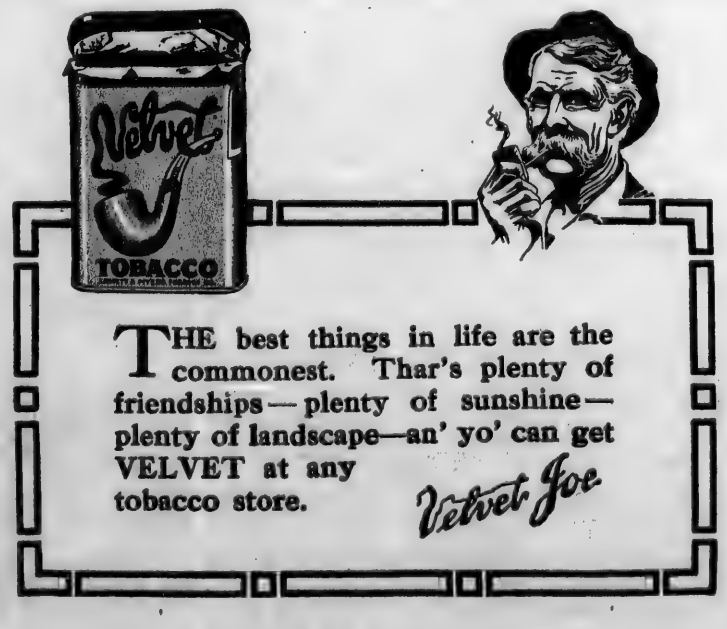
d. Name the president of any two Latin American republics.

e. Who is the present ruler of China and what is the form of government.

DOWN AT CAROLINA

Nowhere are Freshmen quite so green,
As at Carolina.
Nowhere are Sophomores quite so mean,
As at Carolina.
A crash, a wail, an upset bed,
A frisky freshman on his head,
Awakening with a frenzied dread
Down at Carolina.

Nowhere are exams quite so tough,
As at Carolina.
Nowhere are professors quite so rough,
As at Carolina.
Freshman bones 'till rise of sun;
Exclaims "Durned if I ain't done
Trying to pass this course, Math I".
Down at Carolina.



Nowhere are Booloo's half so great
As at Carolina.
Nowhere the styles as they create,
Down at Carolina.
A "tack," a cane, an old plug hat,
The gift of gab and the grace to chat,
Freshmen with these make the Booloo Frot.
Down at Carolina.

One—"Say, who is Yackety Yack. I've been hearing the boys talking about him around here."

The other—"Yes, he's a fine fellow, a sophomore, I met him the other day."

One—"What have they got all those dogs tied out there back of the medical building for."

The other—"Why, fellows bring them up here with them, but the school won't let them keep them in their rooms, so Mr. Pickard put them out there to keep the boys from stealing the stiffs."

THE best things in life are the commonest. Thar's plenty of friendships—plenty of sunshine—plenty of landscape—an' yo' can get VELVET at any tobacco store.

Eavesdropping and Interviews

The frightened freshman sank back in the corner of the seat and timidly inquired of the crowd in general how far it was from University Station to Chapel Hill. The Y. M. C. A. welcomers were all over on the opposite side of the car, so nobody answered. Facing him two of his classmates, not of the mouselike variety but victims of that infantile disease previously described in the Tar Heel, blocked out their college careers, passed judgment on the various courses and professors and settled the important question of studying on a Sunday.

"Sunday is one day that I don't have to study," said the one whose plaid cap and striped socks bore witness of his worldly mindedness, "and you couldn't make me."

The other nodded in mute acquiescence, ashamed to utter mere moral scruples after that.

"Have you decided where you are going to take your meals?"

With marked affability the old boy put this question to a fat youth with a new suitcase.

"I thought I'd go to Swain Hall," the fat boy answered nervously. He was much impressed with the attentions of this upperclassman who had approached of his own accord and introduced himself and asked all kinds of friendly questions.

"You don't want to go there, not for the first month or so anyway. You want to go where you will meet some boys and make friends. Now we are going to have a very exclusive little crowd at—" and of course in two minutes the fat boy had signed the little card, and the upper classman had passed on to the next seat.

In his wake came other friendly creatures with helpful suggestions about laundries and pressing clubs. Some had attractive little leaflets describing the delicious food at Swain Hall for the ridiculous price of $12.50 and the fat boy who liked good eats wondered if he had made a mistake.

And the frightened freshman slunk further back in his corner watching the old boys who called greetings to one another across the car and wandered up and down the aisle and even spoke to the lone co-ed who occasioned much curiosity and a monstrous gigglement among the Freshmen.

At least an hour had passed since the crowd had packed themselves and their suitcases into the dummy train at University. Again the frightened freshman inquired how far it was to Chapel Hill. But the Y. M. C. A. welcomers had passed him by without seeing him, and the two across from him, who probably knew everything about Chaple Hill and the whole University by that time, were busily reading a magazine which they had carelessly taken from the top of his suitcase.

Nobody seemed to care where he ate, or if he ate; none of those helpful upper classmen had shown the slightest interest in his laundry or his pressing. He pulled his new green hat far down over his eyes and murmured audibly that he wished he could have taken graduate work at prep school.

He—Why do you rouge your lips?

She—To have them reddy.

—*Keveille.*

Gwendolyn—Was he on his knees when he proposed?

Wynifred—No; I was.—Ex.

Athletic Notes

This week the team meets Harvard and should be able to put up a good show. The Cambridge eleven is not as strong as last year's team and its showing thus far this season shows it to be well within the reach of our boys. If Carolina plays against Harvard the way they started against Princeton Coach Campbell feels confident of victory. The Harvard team has a light but shifty back field and is fast. Harte and Coolidge are the ends, and Flowers and Casey the best backs. Captain Dadnum is the mainstay of the line.

The Charlotte High School team will be seen in action against the First Year Reserve Team Saturday. Charlotte played Raleigh here twice last fall for the State high school championship.

TENNIS REGULATIONS

The following regulations for reserving tennis courts will go into effect Monday, October 9:

1. Any student has the right to play on the tennis courts subject to the following rules:

2. The afternoon shall be divided in two playing periods, 2 to 4 and 4 to 6 o'clock.

3. Any student wishing a court must sign up daily on a Bulletin Board which shall be in the Y. M. C. A. The hour for reserving a court for 4 o'clock shall be 11:35; the hour for reserving a court for 2 o'clock shall be 12:30. No student can hold a court for anyone outside of his set.

4. If the reserved courts are vacant at 2:40 or 4:15 they are automatically forfeited and open to play.

5. No student shall be allowed to play more than three periods a week unless there are vacant courts.

6. Candidates in tournaments shall have the privilege of reserving courts at any time on the day of play.

7. One court shall be reserved for the varsity teams the whole afternoon which shall be posted on the desired court.

8. The courts shall be numbered with corresponding numbers on the Bulletin Board.

9. The names of both players must be posted on the Board in order to hold a court; if doubles are to be played the names of all four players must be posted. It is not compulsory for men playing singles to double up.

10. All complaints must be written and addressed to the Chairman of the Committee or else will not be considered.

11. Any student violating these rules shall be subject to suspension from playing on the courts for one week by the Committee; anyone mutilating the Bulletin Board shall be suspended for one week from the courts.

DON'TS FOR TENNIS PLAYERS

Don't mark off the courts with sticks as they will be lined by an appointed caretaker.

Don't rest on or lean against the wire backstops as they were not made for that purpose.

Don't play on muddy courts.

Don't take nets down as this will be attended to by the caretaker.

Don't play on the tennis courts with high heel shoes.

"PEPSI-Cola"—that's what old Mr. Sun hates to hear a fellow say 'cause he knows how fast that tall, dewy, "ice-bergy" glass chases thirst.

Pepsy—tangy—tasty—bracing—cooling—as a breeze off the polar bears' playgrounds (it certainly does make summer quit bothering you).

Try it—say "PEPSI-Cola" at any fount—or tell the grocer and he will leave a case of two dozen bottles to make the evenings happier.

PEPSI-Cola

Down Senior Way

Down senior way, 1917, seniors —scintillate in hot air sessions as they shiver over the cold, unsympathetic radiators. The "new dorms" of last year have given up their appearance and condition of freshness for the more dignified role of seniordom. Artistic souls tint the erstwhile white walls of the artistic shades procurable, and each roomer vies with the other to surpend the largest number of pennants, pictures, photographs, and printed plaques from the ceiling.

A continual "session"—as one would say—of "Mexican athletes" experienced in the art, is held in 11 Battle, the domicile of Oliver Rand and other Sharpe conversationalists, where track and other attractive things are discussed to distinction and extinction.

Just across the way, the conservatoire d'Aree, frequented by all sorts of weird and most unholy (i. e., smooth and flawless(sounds of instruments and voices humanae, vibrates from night till morn. Let Aree git a guitar and let Dalton pick a piccolo up and one may expect to hear noises till 2:13 A. M.

Truly, 6 Battle, with its honey Combes, glee club voice, and recitative Elijah Perry, who dramatically responds to the well known call "Eli, Eli, verily I say unto you," must not be neglected in this list of the most dignified, sedate, and staid.

And here and there may be found sparks of life, as in such haunts which seniors have not invaded. Freshmen abound even in the untamed state even in such a settlement of august personages.

But the blissfull ignorance of the former occupants has given away to the foolish wisdom—(who could doubt the propriety of the epithet after having a discussion of Truth, Beauty, and Theda Bara in 13 Vance?) of the significantly serious seniors.

FRESH. ELECT CLASS OFFICERS

In a quiet, calm meeting at Chapel last Monday—the Freshman Class elected officers, transacted business and gave some rounding yells for the class of 1920—unmolested. Frank Herty was chosen President; Frank Spruill, Vice-President; Josh Tayloe, Secretary and Treasurer, and McBrayer, Cheer Leader.

The class was assessed 25 cents per man to meet the fall expenses. A committee to select colors brought in the verdict of purple and gold.

Herty and Spruill automatically became members on the Greater Council.

Another amendment to the Athletic Association creating a manager and two assistant managers for the first year reserve football squad, and four sub-assistant managers for baseball and track was passed last week.

An election immediately followed in which H. H. Perry was elected manager, and F. C. Shepard and J. E. Patterson assistant managers of the first year football squad. C. S. Roddick, Robert Foster, S. J. Calvert and W. R. Cuthbertson, sub-assistant for track; and David Townsend, Hargrove Bellamy, Erasmus Tayloe, sub-assistants for baseball.

To Carolina Boys—
We Have Got It!

If it's a Trunk, we've got it.
If it's a Suit Case, we've got it.
If it's a Pistol, we've got it.

INTERESTING TALKS GIVEN BY DR. WILLIAMS IN CHAPEL

On Monday and Tuesday mornings in Chapel, Prof. H. H. Williams spoke to the student body. Every seat in the building was filled and Seniors and professional students, who do not ordinarily attend the Chapel exercises, took up all the available standing room in their eagerness to hear their favorite.

On Monday morning Prof. Williams spoke of the impossibility of always being able to do the right thing. "We all make mistakes," said he, "and I make my share of them. Even the best of us cannot always see the right thing to do."

"What is a good act?" asked Mr. Williams in beginning his Tuesday morning talk. "It is extremely difficult to answer this question, for what is good for one is not good for another sometimes, and what is good at one time may not be good at another. Some say acts of obedience are the best, others say freedom." "And when should one sacrifice duty for the sake of pleasure?" he asked. The temptation to do so is always a good proposition, apparently. "As a concrete example, when should a professor or a student cut a class?" "Never" said he, "unless it is absolutely necessary."

RALLY DAY PLANS PROGRESS

At a meeting of the Chapel Hill Community Club Monday night in the graded school building, plans were discussed for the Orange County Rally Day which is to be held soon. The Committee, headed by Prof. M. C. S. Noble, is striving to make it one of the biggest days of the kind ever held here. All farmers, and others who may come, are urged to bring samples of farm products, poultry, and anything worth exhibiting. There will be prizes given to the best exhibit in each department. The entire day is to be given to the celebration, and there will be many forms of entertainment for all who attend. A dinner will be served on the University grounds.

"Coats will reach the hems of skirts this year," announces a Chicago newspaper.

We learn from the Tar Heel that a very severe epidemic of infantile freshness has invaded the Chapel Hill campus. They have nothing on W. and L. We have about two hundred cases here.

—*W. and L.*

Locals and Exchanges

Dr. L. A. Williams spent several days last week in Raleigh in connection with the department of education.

Mr. Wm. C. Doub Kerr, '15, is now the head of the Spanish department at the Chicago Tek.

Mr. P. H. Epps, '15, is instructor in classical languages in the Atlanta Boys School.

Prof. P. H. Daggett accompanied the Carolina football team on the Harvard trip.

The registration continues to mount toward the 1200 mark. It is now 1152,—an increase of 15 in the last two weeks.

Mr. R. H. Thornton and Frank Clarvoe have recently been initiated into the Odd Number Chapter of Sigma Upsilon.

Dr. M. C. S. Noble of the department of Education will speak before the Transylvania Teachers' Association at Brevard, N. C., on October 30.

The Sampson County Club held a meeting recently and organized for the year by electing J. V. Baggett president, and Robert F. Mosely secretary.

Prof. A. H. Patterson was the speaker at a banquet given by the Mecklenburg County Alumni Association in Charlotte on University Day.

R. B. McKnight, Roger Siddall, Graham Ramsey, John C. Tayloe, A. C. Ambler, Frank Marsh, Floyd Wooten, and Matthews have been recently initiated into Phi Chi.

The query for debate in the Phi Society last Saturday night was: "Resolved, That all industrial disputes should be decided by a Federal board of arbitration." The affirmative side won, and Mr. Massey made the best speech.

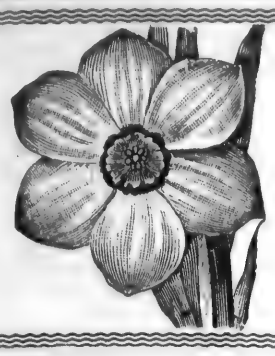
The sons of Carolina never forget their Alma Mater on her birthday. On Thursday there was a constant stream of telegrams bearing greetings and good wishes from loyal alumni in all parts of the country from the Golden Gate to Cape Cod.

Last Saturday night the following query as debated in the Di Society: "Resolved, That Congress was justified in passing the Adamson eight-hour bill." The negative side won, and Mr. S. L. Reid made the best speech.

The Guilford County Club met Tuesday night and elected T. O. Wright, President; Ralph Williams, Vice-President; and S. C. Hodgin, Secretary and Treasurer. They decided to send the Tar Heel to every High School in their County.

The Mecklenburg County Club held its first meeting of the year Tuesday night. C. D. Squires was elected President, H. G. Harper, Vice-President, and R. L. Young, Secretary and Treasurer. The meeting was held primarily for making arrangements to entertain the Charlotte High School football team during its visit to the Hill. The Charlotte High School squad of 30 men arrived Friday at noon, and will remain here until Sunday. On Saturday night at 10 o'clock the Mecklenburg boys will give a feed in honor of their visitors.

Miss Mary was the possessor of a diminutive and immature specimen of the Ovis aries, a wool-bearing and ruminating quadruped.



The shaggy and agglomerated filaments constituting in their collective capacity its natural outer covering presented to the vision a surface rivalling in immaculateness the lustrous mantle of crystallized vapor that commonly characizes the winter landscape.

And to whatsoever locality, contiguous or remote, whither Mary's vagrant fancy, the call of duty, or perchance the parental mandate, impelled her, when not otherwise engaged, to betake herself, this representative of the genus Ovis aries, with a fidelity remarkable in one so immature and inexperienced, could be counted upon with absolute and entire certainty to accompany her.—*Answers.*

Washington and Lee has opened with an enrollment of 520. President Henry Louis Smith welcomed the new and old students on the opening morning. He closed by saying that success comes only to the persistent, and that leaders never worked "eight-hour" days.

Just Gossip

It won't be long before Palm Beach suits will have to be pawned to get the old overcoat out of hock.

Those who bet on Brooklyn last Saturday are busy now darning the "Sox."

Lambe divided the human race into two species, borrowers and lenders. According to the more modern terminology these are known as sharks and marks.

Statistics show that there is at present a ratio of one pansy to every 14 rutabagas in North Carolina.

"If you kiss me again, I'll scream for help," she cried to the varsity fullback.

"You needn't to, I don't need any."

Some learn from books and some by experience. But even a scholar doesn't always know the difference between a transitive and an intransitive kiss.

All too often a feather duster is a more appropriate implement than a basket when you go after your mail.

A little co-ed
Now and then
Can hypnotize
The smartest men.

It's easy enough to be happy
When things go along just right;
But the man worth while
Is the man who can smile
When the Editor of The Tar Heel
keeps after him for his contribution, morn, noon, and night.

MUCH ADO ABOUT NOTHING

Once upon a time "The Two Gentlemen from Verona" married "The Merry Wives of Windsor." It was then that "The Comedy of Errors" set in. During the first few days it was "Measure for Measure," (fifty-fifty) and there was no "Love's Labour Lost." But on the "Twelfth Night" "The Tempest" began; the rains descended, the floods came, and in fact there was a general misunderstanding. "Macbeth" hearing "The Lovers' Complaint" rushed in to learn the trouble. "Julius Caesar" met him at the door and said that "The Passionate Pilgrim" was jealous because "Romeo and Juliet," "Anthony and Cleopatria," "Venus and Adonis" had all got married and left no one for him but "Cymbeline." In the midst of all the commotion "The Phoenix and the Turtle" crawled in and so frightened the ladies that they were as quiet as "Timon of Athens," and looked only to "Hamlet" and "Othello" for protection. But "The Merchant of Venice" came in to sell goods, and said "You can buy 'As You Like It.'" But about this time "King Lear" awoke, and found that it was only "A Mid-summer Night's Dream." But, kind reader, be not led astray—this is only "A Winter's Tale."

Pages from Dr. Battle's History

A trouble during this fall arose from what was called the Fresh Treat. Under the plea that it was an established institution and the new members would be considered niggardly if they refused to pay the two dollars demanded, the materials of a bountiful feast, principally alcoholic liquors, were provided. The result was riots and disorders, during which the windows of the Tutors were shattered, stones were thrown at members of the Faculty, the University bell was rung violently and long, the laboratory and recitation rooms were broken and nearly destroyed, the stables of several Professors entered and the horses ridden. There were four dismissals of upper classmen, but the Freshmen were allowed to take the usual pledge and go free.

Shortly afterward there was an assemblage in front of the South building, which held a blasphemous revival of religion, calling up mourners, singing ribald songs, ringing the bell, and afterward painting the horses of a Professor, cutting off his mane and tail and placing him in Person Hall. Two students were caught participating in these misdemeanors and were dismissed. They were, however, re-admitted on taking the pledge of penitence and reformation.

About a fortnight afterward a holocaust was made of all the blackboards in the institution. There were three dismissals for this offense and a resolution passed that in case of any serious outrage on the property of the University, or of any individual, criminal proceedings against the perpetrators should be instituted. This was reported to the Board of Trustees and was approved by them.

The foregoing statements give an accurate idea of the spirit of mischief among the students in the early part of President Swain's administration. It should be added that some of the ild set afterward became valuable members of society, and warm friends of the University. Some became members of the Legislature and Trustees of the University. Good Dr. Mitchell who was kindly disposed toward errant boys, would often say, "Let him go! Let him go! He is good Legislature and Trustee material."

Auburn is putting an honor system into effect. Two of the items as quoted in the Auburn "Orange and Gold" follow:

"7. No student shall be permitted to leave the room during examination; but in case of an emergency, the student shall submit the case to the professor in charge, who shall act as discretion suggests.

"8. Furthermore, a professor or instructor shall be in the room during an examination to add dignity to the examination and to render any information necessary."

Oh! for such an information bureau to be placed in exam rooms at the University of North Carolina.

TEAM PLAYS HARVARD AT CAMBRIDGE TODAY

(Continued from Page One)

Woodland Park Hotel, and went on to Cambridge Friday morning. Practice was held on Soldier's Field in the morning and on the Green Friday afternoon. The game is to be called at 3:00 P. M. After the game the team will have supper at the Varsity Club, Cambridge, and leave for Chapel Hill 10:00 A. M. Sunday, getting here 10:30 A. M. Monday.

Roy Homewood returned to the Hill last Tuesday to take charge of the ends. The wing candidates have ithout a coach since Doc Kluttz left to study medicine at Pennsylvania, but the return of last year's star flank man will fill up this gap in an otherwise perfect coaching staff. Homewood went with the team to Cambridge and will be with the squad until after the Virginia game.

The following men composed the squad: Barton, Bellamy, Black, Coleman, Currie, Davis, Crawford, Fitzsimmons, Folger, Grimes Harrill, Ingram, Love, Pearson, Price, Proctor, Ramsey, Ransom, Tayloe, Tandy, Tennent, Jennette, Williams, Johnson, Holbrook, and Harris. Coaches Cowen, Campbell, and Homewood, and Doctor Mangum went to take care of the squad. Ray Armstrong is looking after the business end of the trip.

"IMAGINATION: ITS PLACE IN OUR LIFE AND THINKING" IS THEME OF SPEAKER

(Continued from Page One)

as to the importance of imagination he quoted the following statement from ex-president Eliot of Harvard:

"The imagination is the greatest of human powers, no matter in what field it works—in art or literature, in mechanical invention, in science, government, commerce; and the training of the imagination is, therefore, far the most important part of education."

"If we have this gift of imagination," continued the speaker, "we may find here today a concrete example of its workings and uses. This is not simply a formal day in your calendar, these exercises are not a part of the routine and drudgery of this academic year. * * * You should be reminded by spots upon this campus and by buildings of the memories and traditions that cluster about this sacred place. You should enter into the spirit of your songs and symbols—all of them products of men of imagination who have wrought here in the years that have gone."

"President Graham," he said, "is the man of the hour because he is a man of imagination who can see the forces that have made this institution and at the same time the vision of a University whose walls are to be no longer those that enclose this campus, but the boundaries of a great commonwealth, all of whose people shall look here for light and leading."

Dr. Mims declared that if the faculty and students of the University had this imagination, the dreamsof the president would come true; that if the state could catch such a vision, it would respond to the efforts of those friends of the University who are striving to widen its sphere of usefulness.

Stating that he did not wish to claim too much for this power of the human mind, Dr. Mims declared that although imagination is not perception, or emotion, or reason, or memory, or faith, yet it tends to add vividness and concreteness to these faculties.

Dr. Mims insisted that imagination is not apart from reality. Imagination, he said, is not formed by escaping reality but by transcending it. Shakespeare and Goethe were realists but yet they had the long arms of idealism.

In conclusion he urged that the cultivation of the imagination be given a greater place in the University.

At the conclusion of Dr. Mims' address the audience arose while Dean Stacy read the list of the sons of the University who have died since last October — 37 in number, and they remained standing while "Integer Vitae" was being sung by several members of the Glee Club.

Ex-president Battle accepted the cornerstone plate presented by Mr. Andrews, relating some important incidents in the life of General Davie.

President Graham read telegrams from alumni in many sections of the state congratulating the University on its 123rd birthday; and the exercises were then concluded by the singing of "Hail to U. N. C."

TEAM IN ATLANTA FOR TECH GAME TODAY

GEORGIA HAS A GOOD RECORD: OVER 300 POINTS SCORED TO OPPONENTS 0

CAROLINA SHOWS SIGNS OF AGGRESSIVE NATURE

No Serious Injuries Were Received in Princeton or Harvard Games. Line-up Substantially Same as Last Saturday

The squad left yesterday for Atlanta where they will play Georgia Tech this afternoon. In spite of the two hard games with probably the best teams on the Eastern gridiron and the inconveniences which the long trips put in the way of practicing the squad is in an unusually good condition. No one was seriously hurt in either the Princeton or Harvard game.

In the Harvard game, Carolina displayed a real aggressive fighting spirit—which gained momentum in each period. Harvard was unable to score the second and fourth quarters.

Since the team's return last Monday there has been a survival of that vigor which marked the struggle with the Crimson eleven last Saturday.

Georgia Tech has been getting together much score—but the calibre of her victims does not measure up to either that of Princeton or Harvard. There is no adequate means, however, of comparing the strength of the two teams. Davidson offered the Tech men a stiff fight and allowed only a 9 to 0 score. In the game before that, Tech scored 222 points and previous to that 80 points to her opponents 0.

Carolina has failed to score in the last two games—but those are probably the hardest of the season.

Probable line up for Carolina:

Proctor	Left End
Ramsey	Left Tackle
Grimes	Left Guard
Tandy (Capt.)	Centre
Harrell	Right Guard
Tayloe	Right Tackle
Love	Right End
Johnson	Quarterback
Folger	Left Half
Fitzsimmons	Right Half
Tennent	Full Back

What's to Happen and When

Sat., Oct. 21—Carolina vs. Ga. Tech. in Atlanta. Continuous Report in Chapel, 3 o'clock.

Sun., Oct. 22—Mr. Moss leads discussion in S. A. E. House, 12:30.

Mon., Oct. 23—President Graham in Chapel.

North Carolina Club in Peabody 8 at 7 o'clock.

Tues., Oct. 24—Prof. H. H. Williams in Chapel.

Faculty speaker at Y. M. C. A. meeting in Gerrard Hall, 7:15.

Wed., Oct. 25—Prof. H. H. Williams in Chapel.

Thurs., Oct. 26—"Student Forum" meeting in Chapel, Oliver Rand speaker.

Fri., Oct. 27—Musical in Chapel.

NEW FEATURE ADDED TO CHAPEL EXERCISES

A new feature has been added to the Chapel exercises in the form of a student forum. From now on throughout the year every Thursday morning Chapel period will be turned over to some student speaker to use as he wishes in bringing before the student body some question of interest.

It is the desire of Dean Stacy to have men from all the schools of the University appear before the student body in discussions of various college topics; he wants it to be an open forum in which all may feel free to express themselves on any subject. Thus the whole college may become better unified, the students may have an opportunity to voice their sentiments and opinions, and the Chapel exercises will become more diversified and more interesting. If you have anything you want to say, see Dean Stacy and make a date for one of these Thursday morning periods.

HARVARD PASSES FEATURE IN DEFEAT OF TAR HEELS

21-TO-0 FINAL SCORE IN HARD GOUGHT GAME AT CAMBRIDGE

Harvard's forward passes and end runs resulted in 21 points against Carolina last Saturday at Cambridge. The Tar Heel secondary defene was poor and time and again Casey squirmed away from the White and Blue tackles for substantial gains. Four of Harvard's forward passes were completed and this accounted largely for the final score. It was well into the second period before Captain Tandy's men found themselves and then they were fully a match for the Crimson eleven for the rest of the game. The line, while at times unable to resist the rushes of Horween, was able to hold the Harvard forwards for downs four times, once on the one yard line. Carolina's kicking game succeded better this week than last, our men getting down

(Continued on Page Six)

HUGHES-LINNEY-GRISSOM CLUB ORGANIZED TUESDAY

The political situation was again brought to the forefront in Chapel Hill affairs when the Republican sympathizers met in Gerrard Hall, Tuesday night and organized themselves into a Hughes-Linney-Grissom Club as a rival to the Wilson-Bickett Club, recently formed here. Hon. Gilliam Grissom, an alumnus of the University, addressed the meeting.

Before the speaking began officers for the club were elected. Those selected were J. Tucker Day president; S. C. Hodgin, vice-president; S. I. Parker, secretary; and P. A. Cameron, treasurer. On the motion of Mr. Hodgin it was voted that the club apply for membership in the National Republican College Men's League.

The meeting was opened by Quinton Holton, who made an appeal to the independent voters to consider carefully the political

(Continued on Page Six)

FIRST ISSUE OF UNIVERSITY MAGAZINE NOW ON HILL

CONTAINS NUMBER OF GOOD ARTICLES, POEMS AND STORIES

The Magazine will probably appear in our midst on Saturday night. Those intimately aware of its contents admit that it is a worthy number. Editor-in-chief Capps has several good and practical editorials, the chief one being on the Shakespeare Pageant.

"Fluff and Fixedness" is the leading story, by Harris Copenhauer, a graduate student. "The Flight," a story laid in Poland, is a story by H. B. Mock, a Senior. There are several other stories of worthy note.

"Around the Well" is conducted by Oettinger and is an interesting department.

"Sketches" make their appearance again this year under the guidance of Clarvoe.

The best feature article this month is written by H. G. Baity, "The War and the Universities." Hermas Stephenson has an article on James Whitcomb Riley. Moses Rountree, a member of the Senior class but not in College this year, contributes a poem "The Palace of Pleasure." Paul Green, a Freshman, has two poems in this number.

Editor-in-chief Capps urges all men, especially the new men, to help make the University Magazine a success, and states that all articles poems and short stories by them will be given special consideration. The English department offers many prizes during the year. Articles published in the Magazine may be submitted also in the competition for these prizes.

CAROLINA FRESHMEN FAIL TO SCORE ON CHARLOTTE

Showing a reversal of form and too much confidence the First Year Reserve Team was unable to score, or even gain consistently against Charlotte High School last Saturday. Only two or three times during the game was either goal threatened. Charlotte forced over one touchdown which was not counted because of shoving by one of the High School ends.

The High School boys completely outplayed the first year team in every department of the game, a great contrast being shown be-

(Continued on Page Six)

MATHEMATICAL CLUB FORMED

About twenty-five members of the faculty and students interested in mathematics met Thursday night and organized the Mathematical Club. Major Cain was elected President; Dr. Archibald Henderson, Vice-President; and Mr. J. W. Lasley, Secretary-Treasurer. The purpose of the Club is to foster an interest in mathematics and bring together men from all the departments involving mathematics in discussions of questions of common interest. It hopes to answer the long-felt need of a closer correlation and cooperation between these different departments. Its meetings will be monthly.

THE CAROLINA-GEORGE WASHINGTON DEBATE

The following subject has been chosen for the Carolina-George Washington Debate: "Resolved, That Congress should pass a law requiring compulsory arbitration of all controversies arising between the employers and employees of railroads engaged in interstate commerce, constitutionality waived." Carolina defends the affirmative side of the question.

The time for holding the preliminary has not yet been decided by the Debating Council, but will be announced later in the Tar Heel. However it has been decided that the speeches shall not be longer than twenty minutes each.

The terms for the final debate can be secured from the Secretary of the Debating Council. The debate will be held in Washington, D. C., on Monday, Dec. 18, 1916; and it is earnestly desired that all who can will go out for this contest.

FALL TENNIS TOURNAMENT NOW DRAWING TO A CLOSE

POWELL, HERTY AND HESTER STILL IN FIGHT FOR FIRST PLACE

The fact that thirty-eight men entered the fall tennis tournament shows that much interest is being taken in tennis this year. The tournament has been played off with the exception of Powell, Hester and Herty, the winner of which will play Combs (Capt.).

The varsity tennis team will be made up of four men this year and four letters will be given. There will also be an inter-class tournament, the winners being given numerals. Those interested in tennis should also be notified of a prize tournament which will be held in the spring. The winner of this tournament shall receive a handsome medal.

On next Tuesday the tennis team will play Trinity and on Saturday a contest is pending with Raleigh country club. Games are also pending with Elon, Wake Forest and a return Trinity game.

THE LATIN AMERICAN CLUB HOLDS IMPORTANT MEETING

The Latin-American Club held its second meeting Monday night. The following officers were elected for the current year: C. C. Miller, President; W. G. Burgess, Vice-President; A. M. Lindau, Secretary; and P. B. Eaton, Reporter and Publicity. The Club's enrollment now numbers 30 or 40 men, most of whom are preparing themselves to engage in business in Central or South America, and who are anxious to learn as much as possible about the Latin-American countries before going there.

Dr. W. W. Pierson, faculty member of the Club, outlined the course of study and discussion for the year as follows: The year's work will be divided into two parts, each with eight meetings, covering a sixteen week period. The first half of the year will be devoted to the study of the geography, resources, and industries of the countries, which is to furnish a back-

MARVELOUS PICTURES WILL BE HERE OCT. 28

SIR DOUGLAS MAWSON'S PICTORIAL RECORD PRONOUNCED BEST IN WORLD

MANY VIVID SCENES FROM ANTARCTIC EXPLORATIONS

"More Eentertaining Than a Hundred Ordinary Photo-Plays," Says New York Times

In recognition of the powerful appeal, both realistic and esthetic, of motion pictures to the modern consciousness, the University Committee has secured for the early autumn Sir Douglas Mawson's pictorial record of the Australasian Antaretic Expedition. Eminent authorities pronounce it the most unique series of pictures in the world, far surpassing any hunt or travel pictures ever hitherto taken. The expedition itself was the largest in the history of exploration, being composed of sixty-six University graduates. It covered a period of twenty-seven months at a cost of three hundred thousand dollar. The pictures were taken ten thousand miles from America and two thousand miles from the nearest human habitation in a land never till then seen by the eye of man. "Not even the Scott pictures, the Rainey African hunt picture or the Williamson Submarine pictures," says the *Washington Post*, "can equal these astonishing photographic representations of marine and animal life. The story is a tale of dauntless heroism." The story ranges from comedy to tragedy—from the screamingly funny antics of animals to the tragic loss of human life. Mr. Gilbert H. Grossman, Director of the National Geographic Society, says: "I hope that every American will have an opportunity to see Mawson's beautiful motion photos of the penguins and their rookeries, where one hundred thousand are seen, of sea elephants, and seals, of the great floating ice barrier and enormous icebergs, of the snowy petrel and ice-clad mountains."

These truly marvelous pictures, in six reels, will be shown here on the evening of October 28. A

GLEE CLUB MEMBERSHIP FINALLY ADJUSTS ITSELF

Director J. Earle Harris now has his Glee Club plans well under way. His picked chorus meets five times a week to rehearse the numbers which he has chosen with great care. It is said that the numbers of the chorus, which are mostly classic, are supported by one of the strongest mandolin clubs and orchestras which the university has ever had. The orchestra is very much strengthened this year by the new violinist, L. Lashmit, while the Mandolin club has its old star L. Chapman. Those who have made the club are as follows: first tenors, Pace, Martin, Daniel, Howell, Travis; second tenors: Lupfert, Green, Lashmit, Travis, Harris, Wimberley; first basses: Lindsey, Stephenson Chap-

DO IT, THEN!

Ever since the first Carolina football team lined up against a rival organization, the student body here has had impressed upon it by means of mass-meetings, bon-fires, editorials, etc., one thing—the necessity of getting behind the team, and giving it its spirited support.

Is this college spirit, this getting behind the team, a myth, a farce, a waste of breath and gesticulation? Or is it a potent factor in the making of a good team? Or is it still more, the very soul of victory?

Here are a few answers from other colleges.

The Harvard Crimson says:

"This year the team needs more than the passive presence of the undergraduate body. Every man's support at the games is vitally necessary to aid in the team's development for the ultimate victory at New Haven. Enthusiastic, interested cheering may seem of small value to certain lazy individuals, but the men who know and appreciate this form of encouragement are the players. At the crucial moment, when the enemy is threatening our goal line, a ringing cheer, with its instant, psychological effect, often turns defeat into victory.

"The football year is still young, and if the undergraduates fight today and every other Saturday with the same determination as their team, there can be only one result, victory."

The Vermont Cynic says:

"Every man in College ought to get the football spirit. Every man ought to go over to practice two or three times a week and get some wholesome stuff into his system. The student body should be at the game today to a man and without part of the men sitting in the grandstand apart from the cheering section. No spirit will last as long or accomplish as much as a good football spirit that will last through the whole year."

The V. M. I. Cadet says:

"Do you realize what your support means to those who endure the hardships, the days of strenuous training, the tremendous effort of the game? Do you realize how much it means to the team to have you present at practice, as well as at the big games? Do you realize how your interest and approval instill that confidence that can not be over emphasized, and without which success is impossible? Do you realize how much of your enthusiasm is communicated to those who bear the brunt of the battle?

"With that undefinable something born of the spirit of approbation and appreciation on your part there comes over every man on the team a feeling that anything is achievable, everything surmountable, everything attainable. It puts the "Pep," the fire, the go, the enthusiasm to do or die; it mothers the intense effort and tremendous impulse for victory. YOUR confidence means confidence on the field and arouses in the team a determination that will not admit of defeat. This help is yours to give individually and collectively. Every man in the corps should feel it as a responsibility. Every man in the corps should loyally, whole heartedly and without reserve do everything in his power to enthuse, to cheer on, to help at all times and on all occasions, at practice games as well as big games, those who are so earnestly striving for the continued glory of V. M. I."

In these answers there is no hint of doubt as to the efficacy of student support. All of us know of at least one team which won game after game, not because it was in itself superior to its rivals, but because it was rendered practically invincible by the college spirit behind it. And we know, too, that if this college spirit weighed anything most coaches wouldn't swap an ounce of it for ten pounds of flesh in the line.

But our knowledge alone won't help our team. We know that it needs our support and we know how to give it. And if a man knows a good thing to do and how to do it, he should————what? (See title of editorial for solution of this perplexing problem).

TWENTIETH CENTURY VALOR

In these our latter days when the colleges of both Europe and America have at last reached a state of civilization at least semi-civilized, when professors are no longer locked up in rooms and stoned by the student body, when freshmen are no longer eaten alive, when a football game has been reduced to a peril not necessarily fatal; in these our modern days when "old timers" accuse the college man of having lost his valor with the loss of his irresponsibility and barbarous boisterousness, it is extremely reassuring to read the following, taken from a recent number of the Literary Digest:

"The highly bred young men of Europe's fighting generation have no cause to blush over a failure of courage on the battlefield. The question was freely discust, says a Paris dispatch to the New York Herald, "whether the delicate and subtle culture of later years was not going to produce a tame-spirited and effeminate generation incapable of comprehending the beauty of sacrifice." Dr. Charles Richet of the French Institute has recently treated the theme and,—

"It is exactly the contrary that has been demonstrated, according to Dr. Richet; the most cultivated and refined of the young men of France and Great Britain have been those who have shown the greatest bravery. Students of the Sorbonne and other French Universities, students of Eton, Oxford and Cambridge set the example.

"'These are the men,' says Dr. Richet, 'who have shown most courage in its simplest form; that is to say, by supreme contempt for death, and that contempt,' he concludes, 'is not the result of philosophical reflection but simply the spontaneous manifestation of inherent bravery.' Never, even among the heroes of antiquity, in the times of Leonidas, Spartacus or Hannibal, according to Dr. Richet, was there shown so much of this kind of abnegation, so much tranquil self-sacrifice."

DRAMATIC CLUB PLANS UNIQUE FALL PROGRAM

The Dramatic Club will be run on a different plan from what has formerly been the case. It will be run on the "Little Theater" plan, which has gained so much popularity in all parts of this country.

Two or three one-act plays will be selected for a single performance, and two or three performances will be given during the year. In the spring the best of the plays, which have been given on the Hill, will be selected for road work.

By this plan much time will be saved by both coaches and characters, for a person will only go to rehearsals when his play is being rehearsed. It also makes a much better try-out system, as the plays will be selected according to the characters, and not the characters according to the plays.

A person may read over any number of plays and select a character suitable to his own line. If you did not hear the plays read Wednesday afternoon, go to the library, select a part and come out.

Y. M. C. A.

The second of the discussion meetings recently instituted by the Y. M. C. A. was held in the Y. M. C. A. lobby Tuesday night with Robert Wunsch as leader. The attendance was smaller than usual, due to the other meetings that were being held on the campus at the same time, but those present entered into the discussion with a great deal of interest and made the meeting a decided success.

In the discussion of the subject, "Personality," two main ideas were brought out,—first, that the limit of one's will power is the only limit a person ever reaches, and, second, that the thing that has the surest tendency to weaken personality is following the line of least resistance.

A new feature was introduced into the meeting,—a quartet composed of Howell Gwaltney, Spain, and Tennent. This feature will probably be continued in future meetings.

Interesting Youth—Did you see those autos skid?

Co-ed—Sir, how dare you be so familiar?—Illinois Siren.

He—I threw a kiss at Mary today.

Roomie—What did she say?

He—Said I was the laziest man she ever saw.—Orange Peel.

The funniest discovery of the age is that the nearest living relative of George Washington is engaged in manufacturing lyes.—Helana (Mont.) Independent.

CHEMICAL JOURNAL CLUB MEETS

The Journal Club met in Chemistry Hall Monday night at 7:30 with Dr. A. S. Wheeler presiding. Subjects discussed at the meeting of the American Chemical Society were reported. Dr. C. H. Herty spoke on "The Status of Chemistry in America Today," R. W. Sparger, on "Industrial Alcohol," J. P. Sawyer, on "Glass and Porcelain," J. W. Scott, on "Convertibility of Plant," and T. M. Andrews, on "Oils and Motor Fuels.'

THE LATIN AMERICAN CLUB HOLDS IMPORTANT MEETING

(Continued from Page One)

ground for the following discussions on trade relations with Latin-America in the spring term.

A bulletin is now being prepared which contains an outline of the work for the year, as well as a program of all the meetings with subjects and speakers. So far as possible the men will be given their choice of subjects, so as to promote the greatest interest. The next fortnightly meeting will be held on Monday night, October 30.

To be all that you hope to be, you must follow the example of the amateur pianist and practice a few hours each day.—Atchison (Kans.) Globe.

The price of matches is going up. Phosphorus, marital and boxing.—Louisville Herald.

GREATER COUNCIL PLANS NEW PROGRAM OF WORK

The Greater Council met last Tuesday night and plans for that body's larger activity in student affairs were discussed. The chief business of the first meeting was to pass a resolution providing for a meeting of the council every second Tuesday in every month one half hour after supper. Two committees were appointed: The first, consisting of Messrs. Oettinger, Holton, and Coates, was authorized to ascertain if the council can be of use to the University in any constructive way. The second committee, composed of Messrs. Hackler, Capps, and Bryant, was appointed to formulate class athletic rules.

The Greater Council invites all students who have any ideas for the good of University life which they want advanced to meet the council at the Y. M. C. A. on a regular business meeting night and present them. The aim of the council is to better University life and ideals with the assistance of those thoughtful students who have the good of the University at heart.

ELISHA MITCHELL SCIENTIFIC SOCIETY ELECTS OFFICERS

The Elisha Mitchell Scientific Society at its regular business meeting elected the following officers for the coming year: Mr. T. F. Hickerson, president; Mr. J. G. Beard, vice-president; Mr. J. W. Lasley, Jr., recording secretary. Profs. W. C. Coker, M. H. Stacy, and Collier Cobb were elected board of editors for the Mitchell Journal. The following from the student body were elected associate members of the Society: R. P. Brooks, J. W. Hale, J. W. Scott, C. W. Higgins, A. C. Forney, W. T. Harper, Geo. Slover, and M. M. Williams.

At the 225th meeting held in Chemistry Hall Tuesday night for discussion and presentation of papers two papers were presented to the Society: "The Second International Chemical Exposition" by Dr. A. S. Wheeler and "Some Elementary Vector Equations" by J. W. Lasley, Jr. At this meeting Mr. S. H. Hobbs, Jr. was elected an associate member of the Society.

HE WANTS TRADITIONS

Editor of the Daily Kansan:

For the love of Mike let's start some school traditions that are novel and that will last. The older schools have scads of them and old ones at that. If we don't ever

Locals and Exchanges

Judging from the time it takes for people to get on his geology classes, Mr. Cobb thinks President Graham has succeeded already in his plan to "make the campus statewide."

Victor Bryant has been elected captain of the Junior football team this year. Capt. Bryant issues a call for more men on the field—which means more men behind the South building.

Dr. J. H. Hanford delivered an illustrated lecture Wednesday night on the Elizabethan era. Many slides illustrating the time of Shakespeare, notables of the Elizabethan court, and scenes around Stratford-on-Avon familiar to Shakespeare were shown. Other similar lectures will follow up this one.

In the third annual series of exchange lectures between the Universities of Virginia, North Carolina, South Carolina, and Vanderbilt, Dr. H. C. Tolman, dean of the College, will go to North Carolina and Vanderbilt will in turn receive a lecturer from North Carolina.—Vanderbilt.

At a meeting of the Senior Class held Wednesday the following additional officers were elected: S. J. Ervin, Historian; A. M. Lindau, Poet; E. S. Hartshorn, Last Will and Testament; and W. T. Polk, Prophet. These offices were not filled at the regular election of officers last spring. The assessment for the fall term was voted.

The query for the annual Soph-Junior Debate between the Di and Phi Societies has been selected. It is: "Resolved, That a system of compulsory social insurance similar to that of France, Germany, and England should be adopted in the United States." The final debate comes off about the middle of December.

The following query was debated in the Phi Society Saturday night: "Resolved, That the Government should own and operate the railways." The affirmative side won, and C. B. Sternberger made the best speech.

In Moot Court Saturday night a case of first degree burglary will be tried. Representing the State will be Frank Hackler, H. D. Cooley, and A. B. Corey. For the defense, E. S. Harsthorn, C. R. Daniel, and E. B. Denney will appear.

Mr. Moss will lead a discussion in the S. A. E. House Sunday at 12:30 o'clock on the subject, "When is a Man Religious?"

In Chapel this week Prof. A. H. Patterson delivered a series of very interesting talks on the shrapnel shell, its manufacture, and its use on the battlefields of Europe. He displayed one of the 18 pound shells and explained its makeup. It looks like too fine a mechanism to be subjected to the indignity of being fired from a gun.

Secretary Rankin of the High School Debating Union announces that the following schools have already entered the Union: Pleasant Garden, Chapel Hill, Marion, Carthage, Winston-Salem, Lumberton, Stony Point, Raleigh, Belmont, Sanford, Durham, Stovall, South Buffalo, Rocky Mount, Grassy Creek, New London, Greenville, Plymouth, Stedman, Aulander.

McDaniel Lewis, of last year's graduating class spent Saturday and Sunday on the Hill and witnessed the game between the Freshmen and the Charlotte High. The Raleigh team, of which he is coach, is in the race again for the state championship.

The Tar Heel wishes to acknowledge the receipt of copies of the Forest City Chanticleer and the Belmont Clarion (N. C. High School papers) and to give them hearty encouragement for their future success.

PAYING THE PUTTER

"Is golf an expensive game?"

"It must be. I heard my husband telling a friend the other day that he had to replace about eighteen divots on the first nine holes."—Ex.

An Elizabeth, N. J., woman found a gold ring in a carrot. Nothing strange about that. A Salt Lake girl found a gold ring with eighteen carats in it.—Desret News (Salt Lake City).

"I saw your wife and daughter the other day, but they didn't see me."

"So they said."—Boston Transcript.

Eavesdropping and Interviews

"I know it's going to get me something in the end," admitted the Sophomore who comes all the way back from Durham sometimes to attend his lectures, "but going on class every day is the most tiresome thing in the world."

It hardly seemed credible that he had been present often enough to have appreciated this classroom monotony, but it doesn't take a Sophomore long to get wise to some things.

Studying is all right. Plenty of people enjoy that, read twice the amount required by their English and History courses or find themselves fascinated by their experiments in the Lab. And there are professors whose lectures stimulate real interest, even enthusiasm, so that the students may go full ten minutes without looking at their watches. Usually the class drifts into the room, drops into the seats and arranges its feet. If it be a Freshman or a Sophomore class it will stand at the door and hold its watch for five minutes unless the Professor arrives in the meantime. Having arrived the Professor calls the roll, sums up the situation in a few characteristic phrases and then goes on to dissect the subject to be considered. Now and then he intersperses his remarks with questions, selecting, it would seem, the people least qualified to edify the class with their answers. The class is not disappointed, it doesn't expect to be edified. It is usually looking at its watch and calculating the number of minutes that must elapse until the next bell rings.

With a few glorious exceptions classes are just like that. This is no reflection on the learned professors—they are as bored as anybody, or more so, and with reason.

"What is the difference between an idealist and a realist?"

The Junior President flung the question at an unoffending co-ed who was making her way from the Library to Peabody during Chapel time. As a veteran of the Spring Term of "Logic" who had chased reality through the twelve stages so abstrusely described by Mr. Bradley, through five inches thickness of book. The co-ed felt constrained to answer and to answer logically. We need not linger over the processes of her feminine mind. Sufficient to say that she managed to answer and at some length, hoping thus to make a good impression of much learning.

The Junior President smiled condescendingly. "Yesterday," he said, "I too could theorize; today I know. A man who walks out of Durham towards Chapel Hill at eleven o'clock at night is an idealist. When he gets here at two A. M. he's a realist."

INFORMED

A famous scientist was present at a dinner at which one of the guests began to deride philosophy. He went on rudely to express the opinion that the word "philosopher" was but another way of spelling "fool."

"What is your opinion, professor?" he asked, smiling. "Is there much distance between them?"

The professor surveyed his vis-a-vis keenly for a moment, then, with a polite bow, responded:

"Sometimes only the width of a table."—N. C. A. & M.

"Nine little sausages
Sizzling on a plate
In came the boarders
And then they were ate.—Ex.

Athletic Notes

How any one team could roll up 222 points against another is a mystery. We reserve the right to believe that Cumberland was playing blindfolded.

There is no doubt that Tech has a heavy and fast team, but Davidson held them to nine points. Tech also made 18 first downs against Davidson's 5, but that again proves nothing. What we do know is that Tech played ragged football and fumbled frequently. The claim of some that Tech has Southern Championship stuff is largely true, and good deal of doubt on that subject will be settled this afternoon.

The following men will probably start against Carolina: Dunwoody, Bell, Fincher, Phillips, Lang, Carpenter, Senter, Morrison, Strupper, Johnston, and Spence. Strupper is a good broken field man, and Johnston is fast. Senter was chosen last year as an All-Southern end.

The fact that Alan Thurman has returned seems to cheer Va. up considerably. The Charlottesville team showed improvement against Richmond College. The game with Georgia today with Thurman at his old place in tackle will be viewed with more or less interest by South Atlantic prophets.

Their inability to down Charlotte last Saturday seems to have wakened the Freshmen and they are improving in form and aggressiveness. Sparr is again in the line-up and Conrad is back at tackle. Herty is still on the injured list, which Tayloe also joined last Tuesday, bruising a muscle in his back in scrimmage.

The class football teams may of may not be. They are trying to come into existence and a trying time they are having. The powers in class football circles extend a hearty invitation to all promising material. The Greater Council is taking an interest in class athletics this year, which should be a help.

The team left yesterday for Atlanta. The Tar Heel invasion of the east is a thing of the past, but the good calibre met at Harvard and Princeton awoke a new feeling among members of the squad—the realization that all men are human. The Northern experiences will greatly aid our men in the game today.

A week of bad weather has harassed the team, but in spite of that they seem in excellent shape. A few have acquired injuries, Tennent chiefly, but all should be well in trim at the starting whistle.

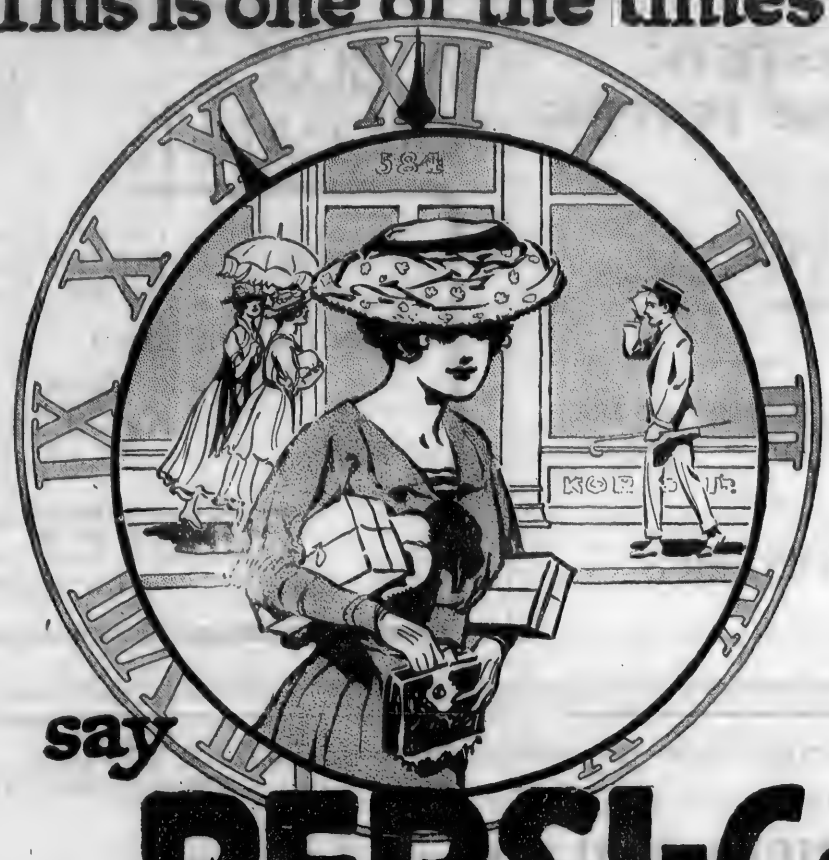
"What do you charge for your rooms?"

"Five dollars up."

"But I am a student."

"Then it's five dollars down."

—The Echo.



Grad—"This school certainly takes an interest in a fellow, doesn't it?"

Tad—"How's that?"

Grad—"They said they would be glad to hear of the death of any of the alumni."—Staunton Hill Topics.

Mary had a little lamp,
And it was trained, no doubt;
For every time a fellow came,
The little lamp went out.

—Chilhowean.

'Course any time's the time—but just along 'bout noon when shopping begins to get a little wearisome and bundles grow heavier—that's the time especially to say PEPSI-Cola.

And stars in Heaven! How it does drive thirst away? With its cooling "pepsy" tang, you just go right down to the bottom of that long, "ice-bergy" glass and wish it were longer. Try it—now at any fount. Then you'll begin to tell your grocer to leave a case of two dozen bottles.

Down Senior Way

The writer inspired (?) by Tar Heel Adds and the Bulletin Board.

Poem (?) dedicated to the Senior Class in general and to Patton and Lindau (poets) in particular.

Well first you don some B. V. D.'s
And sox, *au* Bobo Tanner,
Sift in a little "Smith's Foot Ease"
And visit your Suzanna.
Of course you'll wear some "Arrow Shirts"
And some "Walk-Over" shoes
Use peroxide on all your hurts
And use Le Page's Glues.
And then you'll wear a Knox chapeau.
Styleplus'll be your tailor.
Now if you use Sapolio,
Your face will be much paler.
For the complexion, watch the eats,
Much fruit when it's in season;
But all the time the best of treats
Is Grape-Nuts—There's a reason.
Eat Kellogg's Cornflakes, Shredded Wheat,
Puffed Rice and Quaker Oats,
But ne'ertheless, whate'er you eat
Use Iv'ry soap—It floats.
You'll smoke a Pall Mall cigarette
If you would be in style
And one thing to remember yet,
Drink Horlick's all the while.
You may just taste, sometime, of the
Milwaugee Famous sort.
If you a dead game sport would be
Drink oft of Welch's port!
You must buy Ridpath's History
And "Happy Married Life"
And there is Webster's diction'ry
And "How to Keep a Wife."

Why is a Cigar Like a Woman?

Because You Can't Tell the Filler by the Wrapper—*Not Always*

THEN, WHY TRY?

If you want a *comforting, soothing, satisfying* smoke

Smoke EL-REES-SO Cigars

"10c Quality—5c Price"

"It's the 'Afterness' that Counts"

For tennis and athletic goods
Stop by at 80 Carr;
And for your hair, the proper suds
Are those of Packer's Tar.
Get books at Kluttz's, drugs at Webb's,
And Art you'll get at Foisters;
But when at night the "old pep" ebbs,
Go down to Nick's for Oysters.
If in the art of slinging bull
You feel you'd fain be skilled
Just look up Sharpe when he's not dull—
Your wish will be fulfilled.
And when at last you go to bed,
Look for the "Ostermoor"—
If by these rules, friends, you'll be led,
The skies will e'er be bluer.

N. B. Students will please trace parallellism between this and Aristotle's "Poetics," also note the Miltonic influence.

PARBLOUT

A diner once ordered ragout,
And thought he'd taste something nout,
But he heaved a sigh,
When the waiter drew nigh
And he saw that 'twas nothing but Stout.—Colorado Tiger.

To Carolina Boys—
We Have Got It!

If it's a Trunk, we've got it.
If it's a Suit Case, we've got it.
If it's a Pistol, we've got it.
If it's a Diamond Ring, we've got it.
If it's a Watch, we've got it.
If it's a Gun, we've got it.
If it's a Ring, we've got it.

Last but not least—If it's a $, we have it.

Just Gossip

Did you ever think what would happen if nothing happened? Well if nothing happened, we would not be happy—in fact we would not be to be happy, and there would be no happiness. But you might ask what would be. Well, in fact nothing would be—in other words there would be nothing. But if there was nothing what would be in the place of what there is?

But that hasn't got anything to do with happenings. Happenings are the most essential things in our lives. They are those things that give us the right to say something has taken place. But if nothing takes place has anything happened? Suppose everything should remain unchanged for just one day—Would anything have happened? Sure a great miracle would have happened. But if lots of things change, and much comes to pass, then much has happened. So we see it is absolutely impossible to keep some happening from happening. The nearest approach we could get to stop happenings, would be to stop everything—and then something great would have happened, which will probably not happen.

But as this could be continued to infinity, and no definite factors can be gotten, we cannot solve it, except by imagination. But according to Dr. Mims, imagination is the most vital part of our education, so before you do a thing always stop and try to think what will happen if you do it.

PRETTY BUM-EH!

man, Dalton, Rondthaler, Parker; second basses: Poag, Prince, Spaugh, Brinson and Fisher. Almost all of the chorus members can do instrumental work also, and it is expected that the University will send one of the best clubs it has ever had to Winston-Salem on November 10.

Pages from Dr. Battle's History

We have a letter from a quite bright, but not very orderly student, one of the best speakers in the institution, written September 23rd, 1840, which paints the attitude of the students to the Faculty in lurid colors. He stated that College was in a state of rebellion. The discipline was for sometime very slack. The result of the lenient system has been that "the strictness of morality has vanished, while at the same time College is much more moral." He explains this statement by saying that in small things, such as talking in recitation, drinking occasionally, and playing cards once in awhile, the students were more careless of detection, but in addiction to riots, habitual intoxication and gambling, they were completely reformed. The Faculty, however, announced that the cords of discipline must be tightened. This fired the tempers of the students. The Ugly Club was at once organized. When the Faculty attempted to suppress it they were pelted with rocks and compelled to retire. Thereupon Professor Mitchell sallied forth with a sword cane and was again driven back.

Another regulation was adopted, wrote Mr. Mullins, and it was threatened to apply it to the Sophomore class. He does not state what it was, but from other sources it is learned that it was probably the prohibition against taking text-books, except the classics, into the recitation rooms. The whole class signed an agreement not to submit and sent it to the Faculty. They were required to withdraw it but refused, although "threats," persuasions and prayers were resorted to. After three conferences and notifications that dismissal would follow further stubbornness, the Faculty gave way and the class triumphed. President Swain then requested a meeting of the Trustees and the writer fears that this will cause a defeat of the students.

How much of this narrative is exaggerated it is hard to say. The writer was evidently a leader in the disorders and his animus is shown by his harsh epithets.

The records of the Faculty sustain the statements in regard to the misconduct of the "Fresh Treat," at which spirituous liquors were freely used. Nothing, however, was said of Dr. Mitchell's sword cane, which was probably a hickory stick.

Not a word is recorded of the defeat of the Faculty by the class. An anonymous letter of that period shows that the Professor of Mathematics (Phillips) was held to be responsible for the new regulation, sundry uncomplimentary epithets being hurled at him, his English birth being alleged as a cause of his severity to the students.

A perusal of modern Mexican history suggests a provision in the new Mexican constitution for at least six vice-presidents.—Indianapolis News.

situation and align themselves with one party or the other.

Prof. Horace Williams, in introducing the speaker, declared that the political problem, which now faces the country is the greatest in 50 years, and that it is, therefore, most important that we give it our deepest thought and study.

Mr. Grissom, in the outset, declared that he did not intend to make a partisan speech. He begged his hearers to study the problems before the country with unprejudiced minds so as to decide which party should claim their support. "The Republican party," said he, "is an open door party. It welcomes to its folds all you who believe in its principles."

CAROLINA FRESHMEN FAIL TO SCORE ON CHARLOTTE

(Continued from Page One)

tween the work of the two backfields. The Freshmen at times seemed to wake up, but Bristol was the only man to tackle with any consistency.

The ball was in Freshman territory most of the first half. The only time either team neared the goal line was when Wilson of Charlotte High carried the ball across the line on an off-tackle play. This play, however was called off on account of pushing on the part of one of his teammates. Most of the game was played in mid-field. The Freshmen punted well.

Templeton of Charlotte was preeminently the star of the game—displaying good headwork and ability in running back kicks—one run netting a forty yard gain.

Pharr, quarter, ran the high school team well and was good at carrying the ball. Bristol played best for the Freshmen. Summary:

Freshmen	*Charlotte*
Lypfert	Wearn

WHEN FOOTBALL WAS PLAYED WITH WHISKERS

Most of the customs and costumes of those old boys seem quaintly old-fashioned now. But, one thing has come down to us from that time without change and growing in popularity every day—Richmond Straight Cuts, the first high-grade cigarettes made in the United States.

Even in those early days, these "bright" Virginia cigarettes were already known and valued for their characteristic and appealing taste.

Today—as then—men acclaim Richmond Straight Cuts the best of all Virginia Cigarettes. By the way, have you tried them lately?

RICHMOND STRAIGHT CUT Cigarettes 15 cents

Besides the regular package, these cigarettes are also packed in attractive tin boxes, convenient for den, office or traveling, 50 for 40 cents; 100 for 75 cents. These larger packages will be sent prepaid on receipt of price if your dealer cannot supply you.

V. M. I. ELEVEN PLAYS CAROLINA HERE TODAY

BELLAMY AND FITZSIMMONS SLIGHTLY INJURED IN TECH GAME

CADETS HAVE A STRONG TEAM

Have Been Showing Up Well in Previous Games—Team Light but Fast and Aggressive—Line-up

In the game with V. M. I. this afternoon, Carolina will be seen in action on Emerson field for the second time this season. The Cadets have been showing up well so far this season, with a team similar to that one which held Carolina to a 3-3 tie in Greensboro last year.

It is hard to tell what style of play Carolina will adopt this afternoon, as all practice has been secret this week and practically no information has been given out as to the condition of the team. The game last Saturday, especially the last half, shows the team to have improved somewhat. Coach Camp-

(Continued on Page Six)

DAVIDSON SCRUBS TRIM FIRST YEAR RESERVES

In a close and exciting game last Saturday the Davidson scrubs won from the First Year Reserve men by the score of 6 to 5.

The Freshmen had things much their way the first quarter and rushed the ball to Davidson's ten yard line, but were penalized. Then Blount kicked a field goal from the twenty yard line.

In the second quarter Davidson scored. Starting in the middle of the field, McAllister initiated a series of consistent gains by getting five yards through the line. Runs by McAlister, Patterson, and Singleton followed, Davidson finally shoving over a touchdown, Singleton scoring.

Singleton made some good gains, and quarterback Robson worked the team well. In the third quarter a fumbled pass by Robson resulted in a safety for the Freshmen.

Davidson's interference was the feature of the game.

Line-up.

THE CAROLINA-GEORGE WASHINGTON DEBATE

The preliminary for the Carolina-George Washington debate will be held on Monday night, November 20. All those trying out for this debate must hand their names to C. B. Hyatt, secretary of the Debating Council, by November 13. As stated in the last issue of the Tar Heel, the preliminary speeches shall not be longer than twenty minutes. Further particulars can be had from either the president or the secretary of the Debating Council.

ANTARCTIC EXPLORATIONS GRAPHICALLY DEPICTED

MORE THAN 500 STUDENTS AND TOWNSPEOPLE ATTEND PICTORIAL REVIEW

More than 500 students and townspeople of Chapel Hill assembled at Gerrard Hall on Tuesday night to see the pictorial record of Sir Douglas Mawsons famous Antarctic expedition. In the six reels of motion pictures, lasting over two hours, the entire expedition was pictured, from London, where it was fitted out, to the South Pole region, 10,000 miles from America and 2,000 miles from the nearest habitation in a land never seen before by the eye of man. In this region of water, ice, and snow the ship bearing Mawson's men and supplies was seen ploughing through a sea almost covered with floating snow, wending its way between huge mountains of ice, passing steep hills of solid coal which rose abruptly out of the water, and hurrying past dangerous shoals where the waves were dashing against the rocks with terrific force. At one place a dredge was let down three miles into the depth of the sea, and when it was brought up it was found to contain 100 species of water creatures unknown to science.

When the sea became so obstructed with snow and icebergs that further progress by water was impossible, the party disembarked and allowed the captain to return with the ship. Leaving the rest of the party in a hut near the shore,

What's to Happen and When

Saturday, Oct. 28—Carolina vs. V. M. I. on Emerson Field, 3 o'clock.

Monday, Oct. 30 — President Graham in Chapel. Latin American Club meets in Y. M. C. A., 7:15 o'clock.

Tuesday, Oct. 31—F. F. Bradshaw speaks on "Plattsburg" in Chapel.

D. E. Eagle leads students discussion in Y. M. C. A. at 7:15 o'clock.

Wednesday, Nov. 1—Dr. McNider in Chapel.

Thursday, Nov. 2 — Student Forum in Chapel, Marion Fowler, speaker.

Friday, Nov. 3—Music in Chapel.

We suggest that in using alcohol to run an auto, the tank to be kept out of the driver's seat.—Indiana Times (Indianapolis).

DANCE FOR V. M. I. CADETS AT THE GYMNASIUM TONIGHT

MEYER-DAVIS ORCHESTRA AND MANY VISITING LADIES TO BE PRESENT

"—And they're going to have Meyer Davis' Orchestra of Washington, D. C., I hear."

"Yeah, and the dance starts at eight o'clock, so's to waste no time. Glad it's going to be informal. The last time I organized a dress suit, I got all dressed before I found out that the white vest I borrowed had no buttons. I had to use four chicklets with pins stuck through them, and bent over on the other side."

"It would be hard to borrow a full dress now, too. The tax is only fifty cents, and each member of the German Club can bring as many friends as he chooses, excepting freshmen. Some crowd."

"Fifty cents. That's mighty cheap, isn't it?"

"Well, you see the Faculty is furnishing all the decorations (in personam, as wall-flowers) and the German Club provides the music. Speaking of music, I hope he plays some of that stuff from the 'Follies.' The 'pleasuah' of the dance depends on the kind of melodies they have, I think."

"Wrong there! I should say the degree of joy is contingent upon the quality of the chickens. I've heard a lot about these old southern, Virginia born and bred beauties, but I believe we'll have some calico here that'll make those V. M. I. 'keydets' rub their eyes and take another slant. Bet the girls will give those brass buttons the once-over, too. Do you know who any of the fair visitors will be?"

(Continued on Page Six)

OLIVER RAND INAUGURATES STUDENT FORUM IN CHAPEL

The new Student Forum feature in Chapel exercises was inaugurated Thursday morning with Oliver Rand, President of the Senior Class, as speaker.

He took as his subject "Carolina Spirit." He pointed out the fact that within the past few years the University has grown from a closely knit college into a real University of 1200 men, each school of which is now differentiated and unified within itself.

"From one standpoint this looks optimistic, but is itreall y so? A few years ago the whole University came into close touch with each other every day in Chapel; now the whole college is never together, and there is a lack of unity among the Univtrsity as a whole.

"What is true Carolina Spirit," he asked. "It is not merely rooting for the athletic teams, as some seem to think. There are many more ways in which to show this spirit; support the glee club, the dramatic club, and the debating teams as well as the football team. Support all other University activities which go to make Carolina bigger and better.

"It even takes spirit to pass Math I, and every man can do his part in showing Carolina spirit in whatever field he works in everything he does."

STUDENTS AND FACULTY TO HEAR MR. TAFT SPEAK

Ex-President Taft will visit the University again. Those who heard his lectures last year on the duties and powers of the presidency, look forward with much pleasure to his return.

Mr. Taft will deliver an address here on December 7th primarily for the newspaper men of this state in convention here, but students and faculty are invited to hear him.

There will also be several other prominent speakers at this convention.

CAROLINA LOSES TO TECH IN HARD FOUGHT CONTEST

GEORGIANS CRUMBLE IN LAST HALF, BUT HAVE LEAD SUFFICIENT TO WIN

"Those who witnessed that gruelling contest between the North Carolinians and Tech Saturday will recall it with thrilling vividness, even when they have grown old and gray. For as a sanguinary affair it must take rank with the Battle of the Somme and the scrap around Verdun. The Jackets and Carolinians fought like demons, and every man on the two teams put everything he had into the fray."

So said the Atlanta Journal in summing up the Carolina-Georgia Tech game which ended 10 to 7 in Tech's favor.

And yet this closely contested game started off very tame and looked like an easy romp for Tech. Within six minutes after the game started, Strupper, star half-back for Tech, caught a punt on the 50-yard line and by a brilliant broken field run scored a touchdown. Shortly afterwards consistent runs by Strupper and Johnson carried the ball within striking distance again and Spence raised a drop-kick over the bars. Then Carolina got mad. With the opening of the second half a mighty drive was initiated by Folger. Spence and Strupper, two of Tech's best players, were seriously injured and left the field. But the Yellow Jackets succeeded in

(Continued from Page Two)

SENIOR SMOKER SUCCESS

The Seniors held their first smoker Thursday night in the lobby of the Y. M. C. A. Prof. H. H. Williams and Dr. Edwin Greenlaw were the faculty speakers. Prof. Williams spoke on the subject "Marriage." He was responded to by R. M. Ross, who spoke on "What College Should Mean to a Man." Dr. Greenlaw had for his subject "What the Faculty Thinks of the Students." The response was made by H. D. Sharpe, who orated on "Our Responsibilities as a Senior Class." Other speakers heard from were the six Senior co-eds, Misses Barton, Lewis, Pickard, McGlamery, Avery, and Sloan, Messrs. Eagle, Ervin, Crawford, Hughes, and others.

A feature of the occasion was a straw vote for Wilson and Hughes. Eats were in abundance, and the occasion was so pleasant that all voted to have another smoker before Christmas.

DECEMBER 7, 8 AND 9 CHOSEN FOR DATE OF GATHERING IN CHAPEL HILL

EX-PRESIDENT TAFT TO SPEAK

Leading Journalists of State Will Come Together to Discuss Newspaper Problems and Plans For Improvement

Chapel Hill is soon to have the distinction of being the scene of the first winter state newspaper institute held in North Carolina. On December 7, 8, and 9 newspaper men from the dailies and weeklies of the state will gather here to study, by means of lectures and open discussions, newspaper problems and plans for improvement.

The local committee, with Prof. R. H. Thornton, instructor in journalism, at its head, has secured several men prominent in the field of journalism to deliver the principal speeches. Among these will be Don. C. Seitz, who has been connected successively with

(Continued on Page Two)

CHAPEL HILL HIGH HAS STRONG FOOTBALL TEAM

The Chapel Hill High School football team, which heretofore has been a thing more imaginary than real, sprang into prominence last week by defeating the Oxford High School, 54 to 0. Though made against a team much lighter this score indicates that there is some good material on the Chapel Hill team. It has a line averaging 165 pounds and a back-field just ten pounds lighter.

Under the direction of Coach Hogan the team hopes to develop into an effective machine, though this is the first year that the Chapel Hill High School has had a football team.

The schedule contains three more games, to be played soon. They are with Cary High School, at Cary, Raleigh High School, at Raleigh, and a return game at Chapel Hill.

The North Carolina Club held its bi-monthly meeting Monday night, and two very interesting papers were presented—one by J. V. Baggett, on Primary Wealth Production of Forest and Wood Lots, and the other by L. H. Hodges, on Fisheries, Mines and Quarries.

On Saturday night, Oct. 28, there will be a Box Supper at Rankin's Chapel, two miles out the Raleigh road. A crowd of ladies from Chapel Hill will be present with boxes. The sale will begin at 8 o'clock. All are invited to attend and enjoy the fun. If you do not know the way out there ask the Secretary of the Y. M. C. A.

The following have been initiated into Omega Delta: J. A. Capps, Albert Coates, A. C. Forney and J. Earle Harris.

Rev. W. D. Moss will speak to fraternity men at the Sigma Chi house Sunday at 12:30. He has a message for you!

A BIGGER UNIVERSITY DAY

There has been floating lightly about the campus lately the suggestion that the dance tonight be made an annual affair from now on, but that its date be changed from October 28 to October 12, University Day. In partnership with it is a second suggestion to the effect that the football management schedule a good game to take place on the Hill every University Day afternoon.

This sounds good. It would change University Day from a holiday with something doing only half the time to a holiday with interesting things happening morning, afternoon and night. As it is now, rather than endure the boredom of a holiday half blank, many students leave the Hill for more or less extended tours either the day before University Day or on that afternoon. A football game that afternoon and a dance that night would reduce the number leaving to almost zero.

If the faculty should object to there being a dance on a night preceding an ordinary school day, then the time of the dance can be easily changed to the night before University Day. But it will make little difference on which night the dance occurs. It and the football game, besides keeping the student body as a whole on the Hill, will draw a far bigger crowd of alumni and visitors than University Day alone could attract. It will be a home coming day; old friends will meet and everybody will have a good time. Interest in football at Carolina will be increased through out the state by a big game on our home grounds; and doubtless it will do the Tar Heel team a great deal of good to play before a crowd of loyal students and alumni on such an occasion. Then too the girls will be here.

It will be a real University Day representing the three great phases of University life,—the intellectual, the athletic and the social.

We should think twice-plus, before we pass by such a good opportunity of helping the University, University athletics and, incidentally, having a good time and making University Day a big day instead of simply a big morning.

NOW AND THEN

"How to be Happy, Though in Chapel Hill" is the rightful title of this editorial. And, according to Wooley, it might be subdivided into three parts: I. How to Feel Comfortable in a South Building Room; II. How to Enjoy Meals at Swain Hall; and III. How to Delight in Getting up for an Eight Thirty.

Happiness (we simply must get philosophical; what is an editorial without depth!) is merely a sense of contrast, a vivid realization of relativity. The happy man, as Mr. Bernard Shaw would say, is the one who looks on the dark side of things,—that is, the man who sees his own affairs shining against the background of the dark side of things in general. Misery loves company; but misery is perfectly happy if her company is worse off than she is herself. (Having now attained a sufficient editorial depth, and submerged our periscope and gotten lost, we shall have to apologize and start all over again.)

Well then, to be happy in Chapel Hill, if our philosophy be correct, one must secure,—beg, borrow or pursue the more popular plan of purloining from the Library,—a copy of Dr. Battle's History of the University of North Carolina. One must carry it around in his vest-pocket in order that, whenever he is forced by the campus laws to do anything he doesn't like, he may turn to Volume I and see how they were made to do it in 1799. And immediately he will have a "vivid realization" of his relatively blessed state.

For instance, suppose one is shivering in his South Building, northern exposure, room on a sleety winter's day hugging the radiator, which is in turn hugging the delusion that it is a refrigerator. If he wants to feel the windy room grow warm and palatial, let him pull from his vest pocket the U. N. C. History and read of the rooms of 1810. "As the only dormitory that had a roof was too crowded for study, many students left their room as a place of study entirely and built cabins in the unfinished brick walls of the South Building. . . . Nothing was more common than, on a rainy day, to send in a petition to be excused from recitation, which petition ran in this stereotyped phrase "The inclemency of the weather rendering it impossible to prepare the recitation, the Sophomore class respectfully requests Mr. Rhea to excuse them from recitation this afternoon."

Or suppose one on leaving Swain Hall after meal time should feel not exactly satisfied.

A feeling of sadness comes o'er him
Which his stomach can not resist,
A feeling of sadness and longing
Which is not akin to pain
And resembles fullness only
As an elephant does a cane.

And if he wants to delude himself into feeling fuller, let him disengage from his loosely hanging vest pocket Dr. Battle's History and turn to the Steward's House menu for 1795:

"For Breakfast — Coffee and tea, or chocolate and tea, one warm roll, one loaf of corn or wheat flour (the secretary spells it flower), at the option of the student, with a sufficiency of butter." (No meat, and what an option!)

"For Dinner—A dish or cover of bacon and greens" and so forth.

"For supper—Coffee, tea or milk, at the option of the Steward, with the necessary quantity of bread or biscuit." (No meat or butter.)

The third of our great University hardships of today is getting up for an eight-thirty. As one lies in bed he feels that it is an outrage, a tyranny, to force a man to arise before nine o'clock, that it is unjust and unheard of,—this expecting a man to get up before the unearthly hour of eight! He feels that he had rather be shipped than submit to such a thing. But if he has put our old friend, the University History, under his pillow before retiring and now refers to it, page 56, in the midst of his indignation, he will arise most happily and thankfully. For "in the good old days" everybody had to get up, not at the slothful hour of eight, but at sunrise. Listen! "Attendance on prayers twice a day was required and morning prayer was at sunrise."

Y. M. C. A. READING ROOM

The Y. M. C. A. in accordance with its policy of serving the needs of the students in as many ways as possible, is trying to make the reading room this year a place where the students may spend their ragged edges of time to the best advantage to themselves. Newspapers, games, books, and rocking chairs contribute to the comfort and pleasure of the reading room and help to make of it a real University club room.

Among the newspapers that can be found on the table are: the Raleigh News and Observer, the Charlotte Observer, the Winston-Salem Journal, the Greensboro Daily News, the Raleigh Times, the New York Times and the Norfolk Virginian-Pilot. Some of the best magazines are received by the Y. M. C. A., such as the Saturday Evening Post, Review of Reviews, Literary Digest, Everybody's, North American Student, World Outlook, Progress, and others. In addition to these papers and magazines there is placed on the tables a general assortment of books; both interesting and instructive, which are likely to attract the interest of the students in this type of literature.

I go with a young man right smart, but he never takes me to the theatre or cabaret. What shall I do?—Clarice.

Try going with one right ignorant.

My parents object to my having dates. How can I overcome their objections?—Anxious.

Perhaps they are afraid you will swallow the seeds. Promise to spit them out.

I have rubbed lemon juice on my face for some time but it does not seem to whiten it. Please tell me why it fails.—Brunette.

Put more powder on your face before rubbing. It takes a large amount of powder to whiten lemon juice.

Ruth rode in my new cycle-car
In the seat in back of me;
I took a bump at fifty-five
And drove on *Ruthlessly*.
—Yale Record.

The Red Sox came very near being the hole-proof brand.—Memphis Commercial Appeal.

CAROLINA LOSES TO TECH IN HARD FOUGHT CONTEST

(Continued from Page One)

spite of this onset, in staving off a score in the third quarter.

The fourth quarter began with Carolina more determined than ever. A fumble by Glover on Tech's 40-yard line gave aCrolina the ball. The Tech line held and Folger punted to Tech's 5-yard line. Tech in turn was forced to punt, sending the ball 25 yards. A beautiful forward pass, Folger to Proctor, netted 20 yards. This brought the ball to Tech's 10-yard line. Folger gained five around end and then Tennent carried the ball over for a touchdown. Tandy failed goal.

Inspired by this success the Tar Heels again began to march through Georgia. A forward pass for 20 yards and a long run by Folger, brought the ball to Tech's 12 yard line. Here Carolina attempted a forward pass which fell uncompleted behind the goal line making a touch back. The ball was brought out to the 20 yard line and given to Tech. A few seconds later the whistle blew, ending the contest just at the point where Carolina seemed certain to score a touch down which would secure the game.

PROF. McKIE Y. M. C. A. SPEAKER

In a brief talk in Gerrard Hall on Tuesday night Prof. G. M. McKie urged upon the students the reading of poetry as a means of revealing the ideal in life and of stimulating latent ambition. The meeting, which was one of a series conducted by the Y. M. C. A., was presided over by Ernest Mackie, who introduced the speaker.

Prof. McKie in discussing the value of poetry in cultivating a reverence for the ideal gave the following illustration: When God created the earth there were four men standing by. The first of these asked "How did you do it?" the second one, "What's it for?" the third man, "What is it worth?" the fourth man said nothing but fell down and worshiped, and then got up and made an earth like the one he had seen created. This fourth man was a worshiper of the ideal.

At the conclusion of his talk the Y. M. C. A. quartette rendered a selection.

The Buncombe County Club organized Wednesday night with about 30 members present. Officers were elected and plans for conducting the club throughout the year discussed. The club decided to send the Tar Heel to every high school in Buncombe County. A committee was appointed to arrange a banquet for alumni and students from the county in Asheville during the Christmas vacation.

The full may punt for fifty-odd,
The half may buck for five,
The quarter's the brain behind every gain
And he keeps the team alive.
But when the tiers are arock with cheers
And the air's like a nip o' wine,
Here's a toast to the souls who open the holes
Down in the muck o' the line.

Prof. Barnard—"No, sir! My car is at E. P. Cate's with a broken hair spring."

Eavesdropping and Interviews

"That woman was making too much money on us. I've changed my boarding house."

He isn't the only student in Chapel Hill who has felt that way. Everybody has to eat, wants to eat, likes to eat good things—but who can bear to pay real money, scarce as it is, for a simple necessity like food that ought to be free as air?

And your board is always due at such an inconvenient time when you need every cent you can get to pay for other things. And as you pass over your cash for food that you've already eaten you don't remember having had chicken or ice cream or hot rolls, just hominy, and hash, and cold batter cakes. And they just weren't worth it.

Keeping boarders is no trouble; it doesn't take any time to amount to anything. Everything needed can be bought right here in Chapel Hill, or else in Durham or Raleigh or ordered from Richmond or somewhere. It's simple enough, just keep hunting till you find them. Vegetables and chickens and things you can get from the farmers in the country. It may take a week to collect enough chickens for one Sunday dinner and then half the boarders may leave on Saturday because their week is up then, but that's just hard luck that might happen to anybody. Besides it's worth something to a woman to have University students at her table; they bring such an elegant, intellectual atmosphere into the home.

Everybody admits that a boarding house ought to pay, but somehow hungry as you are you hate to think that any of your money goes anywhere but into your own mouth.

A certain Freshman suffered keenly because he suspected that he wasn't eating quite all of his sixteen dollars a month, and he was eating as hard as he could three times a day at that. He went to his landlady, determined to reason with her and convert her from the error of her ways.

"They told me," he fixed her with his steely glance, "that down at the Inn they had five or six courses for dinner every day."

"Five or six courses?"

"That's what they told me."

"And you believed them?" The lady had her suspicions as to who "they" were. "Do you know what you pay me for your dinner? Exactly fifteen cents. I'm giving you the very best I can for that amount. If you can do any better somewhere else I shan't try to keep you here."

But the Freshman didn't move. He couldn't haggle over fifteen cents, and anyhow he didn't have but a dime and he wanted to spend that at the Pickwick.

There are sermons in stones—ice cream in bricks.—Chicago News.

He—"I heard that Griggs wrote that wonderful poem while two cats were fighting outside of his window."

She—"I wonder how he did it."

He—"Probably the mews inspired him."—Lampoon.

A football is in one respect
(I thought of this and grinned)
Exactly like a quiz book
Because it's filled with wind.

—*Daily Kansan.*

If John Lasley was a lawyer, how high would he Rankin politics?

Athletic Notes

The game today with V. M. I. will be a lively one from start to finish. The Cadets have a strong team, but the fact that they beat Gallaudet 54-0 does not establish their real strength. The mutes are reported to have a weak team. The fact that the V. M. I. forwards were unable to block Maryland's drop kicks is no reason for believing the Virginians have a weak line, for they made monkeys of the Aggies in the first half.

The Freshmen still seem to lack the pep. They could have had a touchdown in place of a safety if they had realized that the ball was not made of glass.

The line-up for the Sophomore class seems to be Sheppard in every position. Come on out, 1919, you only need ten other players.

As regards secret practice most of us think the coach is joking when he says "let the team fight it out by themselves." Have a heart—coaching is no easy thing—help him out. Stay away from the field.

We begin to hear rolls of thunder, but some say it is only the Juniors and Seniors growling at each other. Sic 'em!

No one has been complaining of the flying cinders. Where are all the track men? Those A. & M. boys are eating raw meat, we hear. Get busy.

Hot water has been worth its weight in gold this week. A new furnace is making its debut in the gym.

Doc. Johnson says that Tech tackle has a mistaken sense of humor.

Emerson field is like most of the freshmen—fast losing the line.

PROF. H. H. WILLIAMS GIVES SERIES OF CHAPEL TALKS

Prof. H. H. Williams continued his series of Chapel talks on Tuesday and Wednesday of this week on his subject of Moral Situation. "It is the collision of moral influences which makes a moral situation," said Prof. Williams. "Suppose one man has a temptation to do evil, and yields. He has this charged against him, while a man who has no temptation to do this evil gets no credit for not doing it. It is only by being placed in a moral situation that man gets credit for his actions.

"The end is always good," said Prof. Williams, "but the means may be evil. The question arises as to whether the end justifies the means. It depends upon the circumstances. In busines, all questions are questions of result only, but moral questions are never questions of result, and should never be decided by looking at the results. Instead the motive is the thing to keep in mind in such questions. It is man's inborn nature to be moral," said Mr. Williams, "and it is only because of opposing influences that he is turned from this natural tendency.

Lady—And you say you are an educated man?

Wearied Will—Yes, mum, I'm a roads scholar.—The Gargoyle.

It is reported that the troops in Mexico have begun the eating of green persimmons to adjust their stomachs to the size of their rations.

—*Daily Kansan.*

Example Sets All Society Talking

A pleasant surprise was sprung yesterday afternoon at the home of Mrs. J. Andrew Brown, where a number of ladies were being entertained at tea. The surprise lay in the fact that no tea was served. Mrs. Brown is noted for her charming entertainments and for the perfection of her refreshments; but even her skill as hostess was hardly able to combat the stifling heat during the hour that preceded the serving of what the guests thought would be tea. And even tall glasses of cold tea seemed hardly to inspire enthusiasm. Then came the surprise.

"No tea this hot afternoon, ladies," announced Mrs. Brown, "but a drink that I am sure you will find far more cooling and certainly more refreshing. For the rest of the summer it will be 'afternoon Pepsi-Cola' at this house."

"And I shall follow your example, Mrs. Brown," said one of the guests, for the first time showing animation, "Pepsi-Cola is the most invigorating drink I ever tasted. The only way I could persuade the children to take their naps this afternoon was to promise them that nurse should give them Pepsi-Cola when they woke up."

We predict that from now on the popular hot weather invitation for afternoon functions will be: "Won't you drop in for Pepsi-Cola this afternoon." And the unexpected guest will be welcomed with, "just in time for Pepsi-Cola;" but this will be the case at any hour, for Pepsi-Cola is always as welcome as it is refreshing.

Down Senior Way

Well, down here boys, down senior way,
The seniors have their senior day.
(You would think I were a joker,
If I called it a smoker.)
All sorts of seniors enter there,
And education with his hair;
Philosophy also—without—*
And the musicians, and about
A couple of the fairer ones,
"Twa verra Goddesses." — By "Guns."

We ate the Romans in our feast.
We there sympose and eat, at least
An hour or two and p'raps an apple,
And list to talks, which a la Chapel
Are always brief and bright and brainy,
And give much good to very many.

Then weighty problems we discuss
"The Senior Stunt," "The Team" and fuss
About no trivial things, but talk
In upright manner—as we walk!
And Education bright, betimes,
Arises from his seat, midst chimes
Of loud applause, from student hands—
He speaks! The wisdom of the lands
Falls from his lips in ceaseless flow.
And grave Philosophy, also,
Imparts his learning to the class.
No other "dope" can his surpass.
And having thus symposed and "et"
We all depart just as we met.

*Without hair.

Charlie—"That co-ed is making a fool of the freshman.

Tobacco Bill — "Impossible! Nature beat her to it."

A TOUCHING APPEAL

J. S. Sr., N. Y.:

S. O. S., $, R. S. V. P., P. D. Q.—Judge.

College life consists of three things, namely: eight-thirties, quizzes and sixes.

How to get a crowd.

Said the Drummer—"Oh, I'll drum up a crowd."

Said the Alto horn—"Oh, Ah'll tow some in."

Said the fifer—"I'll bring five 'r six."

Said the Piccoloist—"I'll pick a lot of 'em up."

So they all chimed in to snare and trap a crowd.

"How did you find that piece of steak, sir?" asked the smiling watier, in anticipation of a liberal tip.

"I really don't know," said the large man, gazing at his plate. "I just happened to move that little piece of potato, and there the steak was, under it."

Soph—"I hear they have canned the dean."

Fresh—"What dean?"

Soph—"Sardine!"

To Carolina Boys—
We Have Got It!

If it's a Trunk, we've got it.
If it's a Suit Case, we've got it.
If it's a Pistol, we've got it.
If it's a Diamond Ring, we've got it.
If it's a Watch, we've got it.
If it's a Gun, we've got it.
If it's a Ring, we've got it.

Last but not least—If it's a $, we have it.

Just Gossip

"Yes Sir!" said Bruce Caldwell as he leaned over my bed tucking the blankets tightly under the matress. And across his thin, hollow countenance beamed a look of pride.

"Yes Sir! It just come natural with me," he said. "I've help educate a heap of big men in my time."

"Well Sir! There's Mr. Bob Reynolds—he's a big man now-a-days, I hear; and there's those two Gudgers from the mountains."

"Yes! Mr. Vonno—that's his name. He was the big jolly one on the base ball team a long time ago. Yes Sir! I know all the big men around this country. The man I don't know around here ain't much force."

And so for many college generations Bruce has been silently playing a tremendous part in educating Carolina men. He never forgets them when they leave here but anxiously watches their progress and rejoices in their prosperity—for after all he assisted them there.

Nor has he been content in merely showing others the way, the truth and the light—but he has been eager in sifting from the lives of his pupils the best they have to offer, and absorbing that into his own life.

Magazines and newspapers never go to waste around Bruce. He reads far more extensively than the average student and his supply of fact and information permits him to talk intelligently on nearly every political, theological and educational subject of the day.

And more than that he is said to have passed a first Math examination.

DIDN'T FEAZE HIM

"Bang!" went the rifles at the manœuvers. "Oo-oo!" screamed the pretty girl—a nice, decorous, surprised little scream. She stepped backwards into the arms of a young man.

"Oh!" said she, blushing. "I was frightened by the rifles. I beg your pardon."

"Not at all," said the young man "Let's go over and watch the artillery." — Pickings (London).

Twenty students were dismissed at Oberlin College when it was discovered that two secret fraternal organizations were flourishing there. The captains of the football and baseball teams, four members of the eleven, two baseball men, one veteran track man and one basketball player of ability, besides many others of prominence in various other phases of college activity, were involved in the wholesale expulsion.—N. Y. U.

THE NEW HISTORY

Dr. Walmsley—"The land in America was given to the colonists by grant."

Clifton Grey—"Huh! I didn't know Grant was alive then!"—Winthrop Weekly.

Pages from Dr. Battle's History

We are fortunate in having a description of the village in a letter from Wm. D. Moseley written in 1853. At the beginning of 1818 Dr. Caldwell had almost as meagre a Faculty as he commanded when he was presiding Professor in 1797. Wm. Hooper, Professor of Ancient Languages, was on a health tour in the South. Dr. Mitchell, Professor of Mathematics, did not arrive for two months after the session opened. There were 92 students, and the President had his hands full, with his two Tutors, in charge of so many unruly boys. The following is the substance of Moseley's description of the village:

There was one street, running east and west, called Franklin or Main street. The Raleigh and Hillsboro road crossed this, that part to the south being Raleigh, that to the north being Hillsboro street. East of Raleigh street were two dwellings fronting on Franklin, that at the corner, the residence of President Caldwell and wife. The other, east of it, was the property of Prof. Wm. Hooper.

On the north side of Franklin and east of Hillsboro street was the dwelling of Mrs. Puckett, widow of the late John Puckett, once Postmaster. This was the lot afterwards bought by Professor Olmstead and by him sold to the University. Between the part of the campus fronting on Franklin street and Raleigh street there were only two residences Hilliard's Hotel, afterwards the Eagle, and now Chapel Hill Hotel, and next to Raleigh street the dwelling of Tom Taylor, a merchant, afterwards sold to the University for Tennessee land. It is now occupied by Dr. Eben Alexander. The Episcopal church was not built until long afterwards.

In front of the campus, including the grounds where are now the Presbyterian church and the stores of R. S. McRae and H. H. Patterson, was woodland, owned by the University. Between that and Hillsboro street were only two buildings. One, about half way, was a store belonging to Tom Taylor, and the other, at the corner of Hillsboro and Franklin Streets, the home of Wm. Pitt, now belonging to the heirs of Henry C. Thompson.

CAROLINA WINS FROM TRINITY

Carolina got the upper hand on Trinity Thursday by winning the first of a series of tennis matches to be played between the two teams this fall.

Combs, far from his usual condition, lost to Young in the singles, 6-0; 6-2. Herty by his good serving in the singles won 6-3; 6-4.

In the doubles, Carolina outgeneraled Trinity at every turn, smashing lobs with great success and playing together consistently.

Trinity will play Carolina here Tuesday with a return match.

DANCE FOR V. M. I. CADETS AT THE GYMNASIUM TONIGHT

(Continued from Page One)

"Some of them. Let's see. There's Miss Lucy Stokes, Miss Margaret Thomas, Miss Winifred Holahan, Miss Julia Henry, Miss Nanny Green, Miss Margaret Erwin, Miss Mary Erwin, and Miss Sarah Erwin, from Durham; Miss Graves, from Mount Airy; Miss Hattie Boykin, Miss Elizabeth Gold and Miss Graves, from Wilson; Misses Julia Jerman, Bessie Lumsden, Cotten Timberlake, Marie Dorothy Linehan, Elizabeth Telfair, Josephine White, Luta Bell Spann, Florence Busbee, Katherine Sherwood, Marian Baker, Mildred Holding, Susanna Busbee, Katherine Crews, Mary Francis Bowen, Miriam Holliday, Julia Manning, Adeline Barbee, Eliza Riddick, Lillian Riddick, Narcissa Riddick, Louise Yates, and Naomi Alford from Raleigh; Misses Gyp Barton, Eleanora Wilson, and Alicia Noble of Chapel Hill; Miss Agnes Quinelly and Miss Hattie Copeland, from Kinston; Miss Alice Hazzard, Miss Beaumont Hazzard, Miss Ysobel Hazzard and Miss Madeline Loughran, of Asheville; Miss Mary Polk, from Warrenton, and Mr. Peck Norris's girl, from Chesawhiskey, Florida. That's almost all the girls I ever heard of, and if there are any more left in the State, I guess they'll be here too."

ANTARCTIC EXPLORATIONS GRAPHICALLY DEPICTED

(Continued from Page One)

Sir Douglas Mawson and Lieutenants Merty and Ninnis set out with dogs and sleds on an exploration expedition. In their long tramp over the snow the three men suffered inconceivable hardships. Much of the ground they traversed was as slick as glass; and at times the wind blew with such terrific speed that a man descending a steep hill could lean at a right angle to the ground and keep his balance.

When the party had advanced hundreds of miles from their starting point, Lieutenant Ninnis died from exhaustion and Lieutenant Merty disappeared in a chasm in the snow. After cutting his only sled in two with his pocket knife and erecting a cross to his two dead companions Sir Douglas hurried back toward the shore party, and after weeks of terrible hardships arrived at the hut near the shore almost dead from hunger and exhaustion.

This story of this dramatic expedition was told in a most graphic manner by the motion pictures.

The last reel, which was perhaps the most interesting of all, consisted of pictures of animal life in the Antarctic region. There were shown in a manner humorous as well as interesting pictures of petrels, white as the snow against which they nestled, sleepy looking seals that would allow the explorers to take joy rides on their backs, bull sea elephants weighing 8000 pounds and penguins that could walk like Charlie Chaplin, play follow the leader like a bunch of school boys and jump 40 feet from the sea to the shore.

V. M. I. ELEVEN PLAYS CAROLINA HERE TODAY

(Continued from Page One)

bell and his assistants have nothing to say about the prospects for this afternoon.

The line-up given below is merely speculative, as two of the Carolina backs, Bellamy and Fitzsimmons, may be able to start the game. Their injuries are slight and they may be in the line-up when the whistle blows.

V. M. I. last Saturday was unable to stop the speedy Brewer, and their line, in the second half, was opened at will by the Maryland forwards. Their team is fast, but not heavy.

The probable line-up:

Carolina	*V. M. I.*
Love	Goodman
L. E.	
Tayloe	G. Hawkins

Mrs. Dressed Uppe has turned in her Ford automobile as part payment on a pair of fall shoes.—Kan. Industrialist (Manhattan).

WHEN FOOTBALL WAS PLAYED WITH WHISKERS

Most of the customs and costumes of those old boys seem quaintly old-fashioned now. But, one thing has come down to us from that time without change and growing in popularity every day—Richmond Straight Cuts, the first high-grade cigarettes made in the United States.

Even in those early days, these "bright" Virginia cigarettes were already known and valued for their characteristic and appealing taste.

Today—as then—men acclaim Richmond Straight Cuts the best of all Virginia Cigarettes. By the way, have you tried them lately?

RICHMOND STRAIGHT CUT Cigarettes 15 cents

Besides the regular package, these cigarettes are also packed in attractive tin boxes, convenient for den, office or traveling, 50 for 40 cents; 100 for 75 cents. These larger packages will be sent prepaid on receipt of price if your dealer cannot supply you.

TAR HEELS OVERPOWER STRONG V. M. I. ELEVEN

CAROLINA COMES BACK STRONG SECOND HALF, SCORING 4 TOUCHDOWNS

FIRST HALF V. M. I. 13, N. C. 3

Bertschey of V. M. I. Runs 70 Yards for Touchdown—Leech Runs 45 a Few Minutes Later and Scores Another

In a fast game featured by long runs Carolina defeated V. M. I. last Saturday 38-13. Carolina made her first touchdown in the first two minutes of play, Folger carrying the ball 30 yards for the score. Two minutes later V. M. I. scored, Bertschey twisting through the whole Tar Heel team for 70 yards and a touchdown. Carolina kicked off. Gray was downed on the 45 yard line, and on the next play Leech slipped through tackle for another touchdown. Tandy's field goal in the second period closed the half.

Bertschey opened the second half with a 37 yard end run from kick formation, but the Cadets then lost the ball on a fumble, and a forward pass, Folger to Tennent, followed by line plunges by the latter, resulting in another touchdown for Carolina. In the fourth quarter two 30 yard runs by Folger and two line plunges by Tennent carried the ball over for two more touchdowns. After this the Tar Heels tried the throwing game,

(Continued on Page Six)

THREE PLAYS SELECTED FOR THE DRAMATIC CLUB

The three plays which have been selected for the first performance are: "Old Cronies," "The Glittering Gate," and "Food." "Old Cronies" which is of a humorous nature, presents the old sea captain who has fallen in love for his first time, coming to his old bachelor friend, a dictionary maker, to write the letter of proposal to his future wife. Though the friend has every word of the dictionary at his command, he is not able to put them to this purpose.

"The Glittering Gate" is more of a serious nature. Two thieves meet at the gate of heaven, after death; the one a pessimist, the other an optimist, and try to find some means of entering. They

OVER 80 HIGH SCHOOLS NOW IN DEBATING UNION

The enrollment in the High School Debating Union has more than doubled in the last ten days. Among those that have recently entered the contest for the state championship are: Asheville, Charlotte, Burlington, New Bern, Warrenton, Oxford, Monroe, Morton, Nebo, Laurinburg, Columbia, Graham, Gastonia, Troy, Mooresville, Spencer, China Grove, Manteo, Newton, Bessemer City, Faison, Wallace, Tarboro, Cedar Grove, Mount Pleasant, Cherryville, Belhaven, Siler City, Blandenboro. The enrollment now includes over 80 high schools.

MANY ALUMNI ON HILL FOR V. M. I. GAME

An unusually large number of alumni attended the V. M. I. game Saturday. R. M. Hanes, Winston; A. H. Carr, Durham; R. H. Lewis, Oxford; J. W. Umstead, Greensboro; G. B. Phillips, Oxford; W. C. Harris, Raleigh; M. E. Robinson, Goldsboro; E. B. Borden, Goldsboro; H. Jernigan, Gorman; H. V. Bailey, Cedar Grove; E. J. Hill, Durham; John Tillet, Thomasville; D. C. McRae, Thomasville; McDaniel Lewis, Kinston were among those who saw Carolina defeat the Cadets from Virginia.

CHAPEL HILL 13—CARY 0

In an interesting game Chapel Hill High defeated Cary High 13-0 last Saturday.

The two teams were almost evenly matched, and each showed greater strength on the offensive play than on the defensive. Chapel Hill High managed to score their first touchdown in the first quarter, after marching down the field by a series of end runs and forward passes.

The second touchdown was scored in the third quarter, on a series of line plunges, end runs, and passes.

LATIN AMERICAN CLUB

"The geographic position of South America as adapted to trade," was the subject of the paper delivered by E. A. Kendall before the Latin American Club at its meeting on Monday night. He pointed out the fact that in South America we find our greatest necessities, and that because of its position it is the logical market for our manufactured products.

P. B. Eaton read a paper on "Comparative Areas in Latin America and the United States," which contrasted very effectively the sizes of the countries and pointed out several popular misconceptions as to distances and the positions of the South American republics.

D. E. EAGLE LEADS DISCUSSION

"Friendship" was the subject of discussion last Tuesday night at the regular Y. M. C. A. meeting which was held in the reading room under the leadership of D. E. Eagle.

A lively discussion ensued as to what real friendship is, and as to what value friendships formed in college would be in later life.

N. C. TENNIS TEAM WINS IN MATCH WITH TRINITY

COMBS LOSES IN SINGLES TO YOUNG—HERTY WINS FROM LARKIN

The Carolina tennis team, consisting of Alvah H. Combs and Holmes Herty, defeated Young and Larkin of Trinity in a very spirited contest before a large crowd of spectators here Tuesday. The first set of doubles was won by Trinity, 2-6, but Carolina braced and won the other two, 6-4, 6-3. After the first set it looked bad for Carolina but the crowd was not long in suspense, for the team soon began to exhibit unusual form.

The first singles were played between Combs and Young, which were interesting throughout. Combs did excellent work but was defeated by the exceptional playing of Young, 6-4, 6-4.

The second singles, between Herty and Larkin, were not so interesting for Herty won two sets, 6-1, 6-2. He outplayed Larkin at every stage of the game.

The good playing of Combs and Herty throughout the entire series indicates that Carolina will have a most successful tennis season. By winning from Trinity in Durham last week Carolina secures the series.

CANDIDATE FOR STATE CROSS-COUNTRY RUN OUT

Carolina men are now training for the four-mile cross country run which will be held at A. and M. College, November 25. Teams from the leading colleges in the state will participate. Captain Farthing of the track team, is confident of a good showing. Upchurch, Rand, Nims, and Gant are back in good condition, and are training for the event. Some freshmen have also reported. It is urged that more come out as they will be eligible to compete in the preliminaries and finals.

The managers in charge of track are working out a stiff schedule for the team this year. Meets will be held with Washington and Lee, and V. P. I. and negotiations are under way to secure a meet with Georgia Tech.

FIRST GLEE CLUB TRIP SALEM COLLEGE FRIDAY

The Glee Club gives a performance on November 9 at Salem College. The members expect to remain in Winston on the 10th and witness the football game between Carolina and Davidson. The programme to be rendered this year is an especially attractive one. The carefully selected chorus numbers will be supported by orchestra selections, solos, "string band" numbers and quartet selections.

Director J. Earle Harris announces that those who have made the club are as follows: Pace, Martin, McKie, S. Travis, J. A. Howell, Geo. Greene, Wimberley, Lashmit, Lupfert, G. Travis, Harris, Jordan, Holloway, Lindsey, Rondthaler, Dalton, Parker, Stephenson, Hester, Prince, Poag, Brinson, F. Thompson, Kinlaw and Hartshorn.

WILL CAROLINA WIN FROM V. P. I. TODAY A CLOSE CONTEST PROBABLE

FIRST FALL DANCE A GREAT SUCCESS

Doubtless rumors of that dance last Saturday night have reached the ears of even the most sedate professor as well as the most reclusive freshman in Chapel Hill. But that's no reason why we shouldn't write it up:—it just goes to show what an important event it was. Everyone was in high spirits as a result of the game that afternoon, even before the banjo and saxaphone started to plunk and moan, with obligato by the rest of the orchestra.

As was predicted, the girls we had were all prize stock, and after putting them through their paces from eight until twelve, it was still impossible to decide upon any one queen of the hop. With only four hours in which to have the dance, there was no time to be lost, and every minute was utilized by doing away with intermissions, and changing from one-step to fox-trot, to waltz, to lame cow, to kitchin sink, etc., without stopping.

Due to the beauty, attractiveness, and popularity of the girls, as well as to the large number of stags, no dance programs were necessary; in fact, they would have been impracticable since the whole thing was just one long dance. The ball was not a full dress affair either, although some of the faculty blossomed out in dress suits, thus helping along with the decorations. We must admit, however, that we were wrong when we stated in last week's Tar Heel that the faculty would furnish the decorations as wall flowers.

The beautiful girls, in their dainty and exquisite habiliments enhanced the splendor of the affair even as much as the faculty in all its grandeur. Of course, it

(Continued on Page Six)

BASKETBALL OUTLOOK IS NOT DISCOURAGING

The basketball outlook for this year, though not especially bright, is nevertheless, far from discouraging. The loss of Long and Johnson will be keenly felt, but Tandy will probably be at his old position at center, and Captain Tennent will be the mainstay of the guards. There will probably be a close fight from the forward positions.

Shephard, whose work attracted considerable attention at forward during the latter part of last season, will probably make the strongest bid for one of the forward positions.

Manager Tanner has not yet completed the schedule, but from all indications the Virginia game will be played here. Several other games will also be played here.

Penn. State and the Navy will probably be on the list. These games will be played at Baltimore, and Annapolis. The entire schedule will be published when completed.

TAR HEEL TEAM IS IN PERFECT CONDITION

V. P. I. HAS UNUSUALLG STRONG LINE, BUT A LIGHT BACKFIELD

V. P. I. has a strong team this year. Here are some of her scores: Yale 19-V. P. I. 0; West Va. 20-V. P. I. 0; N. C. A. and M. 0-V. P. I. 40.

In last Saturday's game with the Aggies, V. P. I. made 16 first downs while her opponents made none.

Carolina has played a number of games with this strong team but has only won two—the other games, strange to say, being a tie each time.

V. P. I.'s line is an unusually good one this year—four men weighing over 190 pounds, and the rest weighing over 170. The back field does not present such a heavy crew. The full weighs 194 but the quarter only 125. These are some of the facts in regard to the opposing team.

On the other hand the Tar Heel eleven is not to be forgotten. The team is in perfect condition and working smoother than ever before. Tayloe, Ramsay, Grimes, Harrell, Proctor, Crawford and Tandy are all right there. In the backfield Folger, Tennent, Black and Williams still remain.

The team got a taste of real machine-like playing in the last half of the V. M. I. game. No injuries were received. If it plays in such form today Carolina may well expect to win.

MR. W. B. SPILLMAN TALKS ON VALUE OF BIBLE STUDY

In a speech characterized by an abundance of humor and a striking delivery, Mr. W. B. Spillman on Friday night discussed college Bible study as a factor in education before 200 students assembled in Gerrard Hall. Laying down the theory of Herbert Spencer that the function of education is to prepare one for complete living, he proceeded to discuss the elements that enter into a liberal education. He declared that the office of education is to develop not only one's physical, social, and mental natures, but also one's religious nature. "No man," said he, "can have a well-rounded education who does not have a working knowledge of the world's greatest text book."

Pat and Mike were crossing the ocean. Mike fell overboard, and cried out, "Pat, drop me a line!" Pat—"Huh, there ain't no post office where you're going."—A. and M.

At Agricultural Club:

Benbow — "How was my speech?"

Walker—"Fine? Why, when you sat down every one said it was the best thing you ever did."—A. and M.

IN DISTINGUISHED COMPANY

We take pleasure in calling the attention of the student body to the fact that the November number of the World's Work contains a full-page picture of a member of our faculty together with similar photographs of James J. Hill, O. Henry and Eleutherios Venizelos, the foremost citizen of Greece and one of the ablest statesmen of Europe. Our faculty member in this distinguished group is Dr. Chas. H. Herty, "to whom," the World's Work says, "may be attributed much of the success of the recent National Exposition of Chemical Industries held in New York, at which the giant strides taken in American Chemistry since the war began were strikingly shown."

OUR EVILS—NECESSARY AND UNNECESSARY

In the good old days of 1800 aspiring seniors wrote terrible theses on "The Conditions of Human Happiness in Our Material Universe"—and nobody was made any unhappier except those who had to read them. Why not continue a time-honored custom and, confining ourselves to a smaller circle them the material universe, consider the evils and blessings of Chapel Hill?

Here, as everywhere else, we can divide the evils into two classes, necessary evils and unnecessary evils. The former we must submit to without hope of relief, the latter we may elude, correct or eradicate. Some of the necessary evils of Chapel Hill, for instance, are: Boarding-house managers and clothing agents, attendance on classes, secret football practice, First Math, waiting for the mail, Freshmen, Sophomores, First Public Speaking, peanuts at Pickwick, Examinations, Glee Club and Band practices, Dean Stacy in his official capacity and speedometers on flivvers.

Among the unnecessary evils, we have with us: parallel reading, the man who is trying to raise a moustache, quizzes, the man who keeps telling you about what he did last summer, the Inn, the man who makes one's and two's, the Sunday American, the path from the Beta Theta Pi Hall to Main Street, University politics, ice-water in the gymnasium shower-baths, fives and sixes, the Di and Phi Society fines, the man who leans against the post office boxes and reads his mail, and the editorial columns of the Tar Heel.

Submerged under this multitude of evils, we still have left with us a few blessings, for instance, Theda Bara occasionally at the Pickwick, Tank Hunter, the best chocolate milkshakes and cocoanut pies in the State, Judge Brockwell, Saturday night dances and Sunday solitude, flivvers, grats, and the privilege of wearing hard-boy shoes and sweaters and of not wearing hats or caps. And then there are a few things concerning which the University is undecided whether they are blessings or evils. These are the unclassified: the Di and Phi Societies, Chapel, and eight-thirty's.

We are very sorry to leave the number of evils greater than the number of blessings. But alas! we are afraid that if we continue enumerating our joys we shall drag in the poor birds and flowers and sunshine, and they must be awfully tired of being blessings by now.

After all, the student body, if it assumes an omtimistic spirit towards its multitudinous maladies, will probably be able to survive its sorrows.

BY NEXT FRIDAY

That magazine—the one that did finally appear—how did you like it? Pretty good, eh? Small credit to you, for you didn't even help by contributing an unaccepted manuscript. Yes, rejected contributions help, for they inevitably raise the accepted ones to a higher level. If no one went out for football except varsity men we'd have a fine chance of doing what we're going to do at Richmond. If the scrubs weren't there to make the big boys scrap for their positions our team wouldn't have a chance even against David Forest. The men with N. C.'s aren't the only Carolina men who are going to show Virginia. Every play they make will be the better because men without their glory made them do it better to hold their places.

But let's get back to literature. From a purely mathematical standpoint, the more material there is to select from, the better will be the selections. Most men with education enough to be in college certainly can at least try to write. And if what you write is better than what the next fellow writes, don't worry; it will be published. If a better man than Bill Folger were to show up on the field tomorrow, Bill would lose his place.

The function of the Mgazine editors is more to muse contributions than to bear them. But muses starve when they can't find occupation. There's no such thing as the divine right of editors. There's not a single man on the Magazine staff who would want his stuff published, if only something as good could be obtained. The function of the Magazine is to stimulate and give expression to the creative literary life of the university. Get stimulated then, Mr. Real University Man—or Woman, as the case may be—and show that there is such an animal loose among us as creative literary talent.

Confidentially, this is a plea for help. Your Magazine must have your help. Everything is the University should be of it; and nothing should go forth from us that does not represent our best. Are you willing to shift the burden to editorial shoulders? Then I warn you that our board of editors is no Atlas, and that the discredit for a poor publication will react, not on them, but on you and your University.

The magazine needs stories; it needs poetry; it needs articles; it needs sketches; it needs anything that you can write. To be perfectly candid, it needs them by Friday night, November 10. Jim Capps at number 2 Pettigrew is always in the receiving line for contributions; or if he's not there, lay your manuscript on the desk; mail it to him; give it to another editor; do anything but keep it to yourself. There is no limitation as to age, set, class, race, or ability. The only qualification is literary; the only prerequisite, the possession of pen and paper.

All ready? Snap to! Let's pull together for a U. N. C. Magazine, with all that the name implies.

A. M. LINDAU.

JUNIORS HOLD CLASS SMOKER

"Jest and youthful jollity" ran rampant in the Y. M. C. A. lobby last Friday night when the Junior class rallied seventy-five men to its first smoker. Prof. A. H. Patterson and Dr. J. deR. Hamilton were the faculty speakers. Prof. Patterson talked of North Carolina's low position in the hall of fame and one duty to raise it. "Buzz" Tennent responded with a spirited talk on class athletics. Dr. Hamilton also broke away from the conventional class spirit or best-class-yet speech and spoke on the importance of co-operating in the collection of old historic relics and papers "alocse" in the state. Victor Bryant, in responding, philosophized on the value of making of a man. The co-eds, Misses Liddell and McGlamory, were then called on and they made "peppy" responses.

The class adopted the standard class pin and voted to give the order to a local firm.

HERTY WINS PLACE ON VARSITY TENNIS TEAM

The fall tennis tournament, which entered 38 men, was won by Holmes Herty. This week Herty played Alvah Combs (Captain), who defeated him in an interesting series. On the first set Combs had little trouble, defeating Herty 6-1, but on the second set Herty braced and won 7-5. Combs, by brilliant playing won the third set 5-7, and the fourth 6-4. Though Combs took three out of four sets, the work of both was creditable, and was looked upon with great interest, as these men will represent Carolina in tennis this year.

I looked into her melancholy eyes,
And wondered what they held in store.
Could they be filled with villainies and lies,
To wreck me on some barren shore?
Ah, no! The kindness I saw there revealed
Was of another sort. And now,
With my rash judgment of her all repealed,
I know she is a *Gentle Cow*.

—R. T.—K. U.

CLASS ATHLETICS SUBJECT OF DISCUSSION AT FORUM

From the present indications the new Student Forum feature which was recently inaugurated promises to be one of the most interesting features of the Chapel exercises. The talk for this week was made by C. G. Tennent, otherwise known as "Buzz," on the subject of Class Athletics.

"Why is it that we have our class teams just starting practice when the season is more than half over?" asked Buzz. "Without doubt it is due to the fact that there is not a sufficient amount of interest in class athletics; there is a lack of organization, and there is no sufficiently powerful management by which interclass games are scheduled and regulated. So there is a certain carelessness which results in an inefficient, free-for-all management of class athletics. To remedy this condition, he proposed that a special council be instituted which should have the power to regulate all inter-class athletic contests.

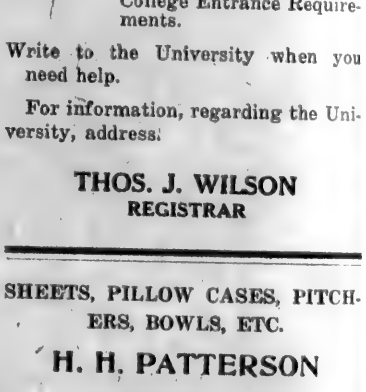
"We have not yet come to a full realization of the relation between class and varsity athletics," said Tennent. "We have been pursuing a 'hand-to-mouth' policy in our varsity athletics; we spend a considerable amount of money and devote much time in developing the team for one year with the ultimate purpose of winning the Thanksgiving game, but do not look ahead to see how our teams of the future can be gradually built up on the class fields.

"Our future success in athletics lies in our ability to develop great players on the class field."

"Resolved, That Labor Unions are a menace to the welfare of the people of the United States," was the question for debate in the Di Society Saturday night. The affirmative side won, and Mr. Terry made the best speech.

"ENTREZ"

As a visitor knocked, St. Peter turned the key of the pearly gate and cautiously peered through the open portal.



"Who are you?" he demanded in an imperious tone.

"A Wake Forest student, sir," replied the applicant.

"What meritorious thing have you done to warrant your appearance here?"

"Well, for one thing, I sat on the benches in the French and Physics classrooms for two sessions," stated the youth with a look of regret on his face.

"Entrez," replied St. Peter, a touch of pathos in his voice, "Vous avez eu assez d'hell sur la terre."—Old Gold and Black.

Pages from Dr. Battle's History

There has always been more or less speculation as to why the Caldwell Monument is over on such a prominent place on the campus. There are three graves close by it which contain the remains of ex-president Caldwell, his wife, and his son. The body of Mr. Caldwell was moved four times before it was put in its final resting place. Dr. Battle describes the changes:

"He was first buried in the middle of the village cemetery, which was originally designed for use of Faculty and Students of the University as well as the inhabitants of Chapel Hill, in a grave dug and walled, in pursuance of his orders. The body has been twice exhumed. In November after his death at the instance of the Philanthropic Society, it was taken up under the direction of Alfred S. Waugh, an artist, in order to get a plaster cast of his features. The bust then executed is in Gerrard Hall and is a faithful reproduction. The grave was again reopened on the 31st of October, 1846, and the remains were reinterred by the side of his wife on the east side of the old monument.

"Judge Frederick Nash and Rev. Wm. McPheeters, D. D., were appointed by the Trustees to erect an appropriate monument over his grave. In his first impulse of enthusiasm a shaft worthy of the man and the University was contemplated. We find that Mr. Robert Donaldson, of New York, sent designs, as did the sculptor, Alfred S. Waugh. These were submitted by the Trustees to David Paton, a Scotchman, one of the architects of the Capitol, but there is no record of any report made by him. Eventually, in 1837, the design submitted by Thomas Waite, an energetic, but careless, master mechanic, who then had charge of carrying on the repairs of University buildings, was adopted.

This monument was of sandstone from one of the quarries near the University, either that on the plantation of Robert W. Strowd, or that of Solomon Morgan, since bequeathed to the University by his daughter, Mrs. Mary E. Mason. The shaft was cut by J. B. Turney, a skilled mechanic. It soon began to crumble and grow dingy. Moreover, the plan was to insert on the eastern face a marble slab with appropriate inscriptions in Latin, written by the scholarly teacher, Dr. Wm. McPheeters. When the slab came from the workman at the North, the Latin was found to be, by careless workmanship, so atrociously bad as to be beyond amendment. The professor of that language in disgust seized a hammer and smashed the offending marble into fragments. The unfortunate stone became offensive to good taste and all interest in it was lost. No inscription was ever cut showing to whom the structure was reared. When the New West building was erected its front was in close proximity to the rugged and gruesome stone. The only recognition of it was the raising of hats by the processions as they marched near it at Commencements.

The site chosen was, at the time thought to be sufficiently remote from any building then standing or likely to be erected. Its inconvenient proximity to the New West building shows at once the progress of the University, and the want of foresight in the able Committee. To their minds six and seven score students were gratifying numbers and the locality selected was hidden away from the active life of the University.

Just Gossip

For some, life is just existence. The kind of man who holds this view usually adopts the companion idea that man is what he eats.

Others hold that life is what we make it. Still others believe that life is love. There is a song to the effect that life is a see-saw.

There are various kinds of life; plant life, animal life, country life, city life, eternal life, and college life. The latter is what chiefly concerns us.

It lasts four years, usually. We have never heard anybody say of it, "This is the life," during its duration. We come into it from oblivion, and don't know yet where we will go when it is over.

It partakes of some of the characteristics of regular life, used in its broad sense. For instance, the definition, "life is just one damn thing after another," is an adequate description of it. For most studes, the axiom "life is love" applies. But when we consider the theorem that "love is hell," we must turn elsewhere for a solution of the mystery.

We once heard of a man who went out and drowned himself because life was such a bore. He said it was nothing but buttoning and unbuttoning. While we recognize the truth of this broad and sweeping statement, it is too comprehensive. It does not go into detail sufficiently. It takes no account of the fact that three meals come in between times. This is very important if we are to accept the hypothesis above enunciated, that man is what he eats.

Horace Williams says that life is consciousness. Sometimes he says we don't know what it is. It may be anything. We are not responsible for having it, but we are responsible for what we do with it. We may not enjoy it, but, we wouldn't give it up. If we don't like it, we know what we can do. Just follow the advice, "If you are tired of life, go out and hang yourself, but don't hang around here.

Beau Ballou on seeing the V. M. I. football team arrive with their uniforms on, said excitedly to someone standing close by, "Gee! this is a big day. I did not know they were going to have a special band."

(Continued from Page One)

and 30 yards covered by forward passes brought the ball within striking distance. Tennent plunged 15 yards through guard for the last touchdown.

Carolina outweighed V. M. I. and much credit is due the cadet line for the way it held our forwards. While the Tar Heels appeared to be able to gain at will, the Virginians were not far behind them in this respect. The Varsity still showed slow work in jumping with the ball, but this wore off as the game progressed.

Carolina	*Position*	*V. M. I.*
Love	L. E.	Bucher
Ramsey	L. T.	Nelms, Capt.
Grimes	L. G.	Whittle
Tandy, Capt.	C.	Knapp
Harrell	R. G.	Hawkins
Tayloe	R. T.	Steele
Crawford	R. E.	Goodman
Williams	Q. B.	Gray
Folger	L. H. B.	Bertschey
Black	R. H. B.	Leech
Tennent	F. B.	Hart

Summary: Referee, Henderson; Umpire, Simpson; headlinesman, Thompson; field judge, Goodwin. Time of periods, 15 minutes.

Touchdowns: Tennent 3, Folger 2. Goals from touchdowns, Tandy 5. Field goals, Tandy. Bertschey 1, Leech 1; goal from touchdown, Leech 1.

Substitutes: Carolina, Proctor for Crawford, Clarvoe for Love, Coleman for Black, Barden for Grimes, Fitzsimmons for Folger, Ingram for Harrell, Ransom for Ramsey, Love for Clarvoe, Currie for Tandy.

V. M. I., Marshall for Goodman, Addison for Hawkins, Roberdean for Bucher, Ingleby for Leech, Munce for Knapp, Silverstein for Hart.

THREE PLAYS SELECTED FOR THE DRAMATIC CLUB

(Continued from Page One)

work all their ingenious tricks of safe cracking and lock picking, which they have used on earth and only accomplish their purpose to find that the stars alone float inside the gate.

In "Food" we again have the touch of humor. The scene is in a modern home, in the year 1963. The price of food has advanced to such an outrageous price, that all food is brought from the grocers by armed police, and placed in an iron safe, protected by a burglar alarm.

The committee on dramatics have chosen these plays with great care, and they think that the combination will please both the "high-brow" and "low-brow" element in the audiences.

FIRST FALL DANCE A GREAT SUCCESS

(Continued from Page One)

won't do to talk about the collective good looking studes. Other decorations consisted of autumn leaves and evergreens around the walls and arranged in a hanging figure suspended from the center of the ceiling. At one end of the gym, the suggestion of Hallowe'en was further carried out by a skeleton in witch's clothes, placed beside a large iron pot, which hung from a tripod, over a clever artificial fire. The effect was especially pleasing, though simple, because of its novelty. The usual bunting festoons were done away with.

The only regrettable fact connected with the dance was that the girl from Chesawhisky, Fla., who was coming up under the auspices of Mr. Peck Norris, didn't show up.

"Begobs!" said Pat, as he cut the grass in the cemetery, "it isn't every man that has four thousand men under him!"—Ex.

"Pray, let me kiss your hand," said he, with looks of burning love;

"I can remove my veil," said she, "much easier than my glove."—Ex.

BRADSHAW OUTLINES WORK AT PLATTSBURG

Get up at 6:45; take a plunge in the lake; dress, get breakfast, drill four hours while the temperature is soaring around 95; eat dinner at 12; go on special duty from 1:30 to 5:30; take mess at 6:00, attend conference at 6:30; retire at 9:00;—these are are the salient events of the day in a man's life at the Plattsburg Military Training Camp, according to F. F. Bradshaw, who recounted in Chapel this week some of his experiences at the big camp this summer.

The work of the camp was divided into two divisions, (1) preparation for work, and (2) work. And there is a great amount of work to be done before a man can get himself ready for work. His movements have to become habitual; he has to become able to obey commands, to march, to load and to fire automatically, while he keeps his attention directed on other things. And the most important thing of all to be learned is the strict obedience to superiors.

"If we wish to be a law-abiding people," said Bradshaw, "we must not only obey and place confidence in our superiors, but also have confidence in 'the man next to us.'"

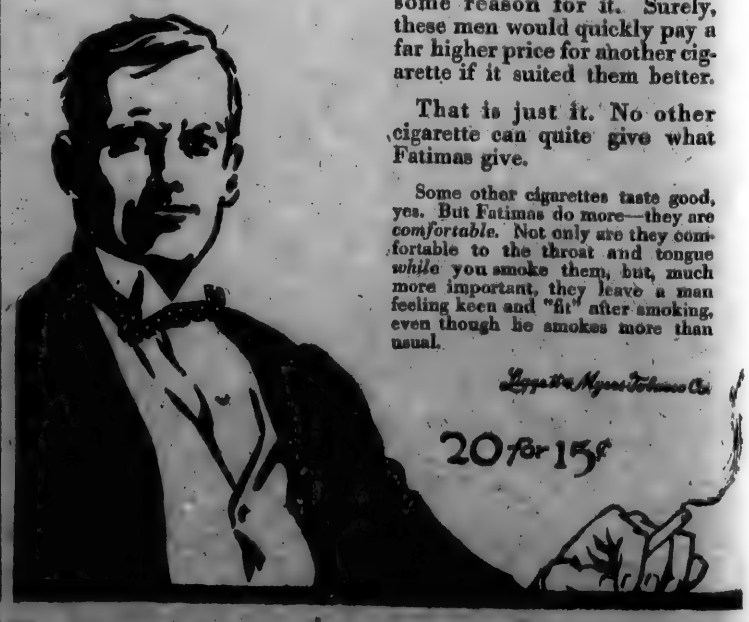
FATIMA



A Sensible Cigarette

Such men want comfort AFTER smoking

IT'S NOTICEABLE that more and more substantial men are choosing Fatimas for their steady smoke. There must be some reason for it. Surely, these men would quickly pay a far higher price for another cigarette if it suited them better.

That is just it. No other cigarette can quite give what Fatimas give.

Some other cigarettes taste good, yes. But Fatimas do more—they are *comfortable*. Not only are they comfortable to the throat and tongue *while* you smoke them, but, much more important, they leave a man feeling keen and "fit" after smoking, even though he smokes more than usual.

TEAM PLAYS DAVIDSON TODAY--WINSTON SALEM

DAVIDSON HAS THE STRONGEST TEAM PUT OUT BY HER IN MANY YEARS

THE STATE CHAMPIONSHIP GAME

Carolina Players in Good Condition for Today's Contest—Large Number Carolina Rooters Will be There

Carolina's game with Davidson today at Winston-Salem will decide the state football championship for 1916.

Davidson has a fast, snappy bunch, though not very heavy. The two teams which are about matched in weight, have been showing their mettle this season.

The Presbyterians held Virginia 12-0, Georgia Tech 9-0, and tied the Citadel. But the Citadel always has a good team as last year's team can testify. Davidson won overwhelmingly from Furman, who play Carolina here on November 18.

If Carolina can get the jump and her old fight in today's game there can be but one result, it is felt throughout the University, but if not there will be a hard fight to down these plucky opponents.

At a meeting of the Gym squad Tuesday evening, B. A. Siddall, '17, of Somter, S. C., was elected captain of the 1916-17 team.

The team is expecting a most successful year as nearly all of last years' team is again in school. The meet this year with Virginia will be held at Charlottesville, but it is hoped that other meets may be arranged to be held at Chapel Hill.

TAR HEELS LOSE GAME TO STRONG V. P. I. TEAM

Carolina's failure to start the first half with the usual punch and drive enabled V. P. I. to obtain two touchdowns and victory over the White and Blue at Roanoke last Saturday.

V. P. I. scored in the first and second periods on end runs. None of the runs by the Virginia backs amounted to large gains, but their interference enabled them to gain when necessary. Folger and Coleman outkicked the Tech punter, and our ends showed improvement in getting down the field under punts.

The Tar Heels' touchdown came in the second period when Lancaster dropped one of Folger's long kicks and Ramsey picked up the ball and ran forty yards for a touchdown. Tandy kicked goal.

The forward pass was used but infrequently and then with no success. Four trials by Carolina

(Continued on Page Six)

Patterson's drug store has been the center of attraction for the past week. From early morning until late at night anxious followers of Woodrow and the Judge have stood before the window waiting for new bulletins to be posted.

It's better for a man to do a little kicking than to become a human football.—Raleigh (N. C.) News and Observer.

HAWAIAN QUINTETTE HERE DECEMBER 19

The Y. M. C. A. Lyceum department announces that it has secured the Hawaian Quintette, said to be the foremost quintette of its kind in America, for a performance here on December 19.

An evidence of the wide reputation of the Hawaian players is the fact that they were engaged to play in the Horticultural building at the Panama Exposition.

The committee in charge of the Lyceum course believes that this performance will afford much pleasure to the students and townspeople.

MEMBERSHIP CAMPAIGN TO BE LAUNCHED BY Y. M. C. A.

STANDING OF TEAMS WILL BE POSTED EACH DAY ON BULLETIN BOARDS

The Y. M. C. A. has just completed its plans for conducting a membership campaign on a more extensive scale than ever before. Its goal in this campaign is to double its membership, and it hopes to do this by having every man to secure at least one member instead of placing the work of enlarging the membership upon the shoulders of four or five men. The members of the Y. M. C. A. are to be divided into 25 teams of eight or ten men to a team. Each team is to have a leader, and these leaders are to be divided into five groups with a leader to each group. Eugene Eagle, Ralph Stockton, William Steele, Ray Armstrong, and Hermas Stephenson are the five group leaders, and E. W. Duncan is head of the entire organization.

The campaign is to be competitive. To the team which secures the most members by Wednesday at 6 P. M. the Y. M. C. A. will serve a supper. The standing of the teams will be posted on the various bulletin boards each day.

What's to Happen and When

Sat., Nov. 11—Carolina vs. Davidson at Winston-Salem—Continuous Report in Chapel at 3 o'clock.

Mon., Nov. 13—President Graham in Chapel. Latin-American Club in Y. M. C. A. at 7:15 P. M.

Tues., Nov. 14—Dr. Battle in Chapel. Y. M. C. A. discussion at 6:45, student leader.

Wed., Nov. 15—Dr. Battle in Chapel. Dr. J. A. MacDonald delivers first of series of Weil lectures in Gerrard Hall, 8:00 o'clock.

Thurs., Nov. 16—Student Forum in Chapel, Hubert M. Smith speaker. Dr. MacDonald delivers second lecture in Gerrard Hall, 8 o'clock.

Fri., Nov. 17—Music in Chapel. Dr. MacDonald delivers final lecture in Gerrard Hall 8 o'clock.

PROFESSOR J. E. SPINGARN OF COLUMBIA HERE DEC. 20

WILL DELIVER SERIES OF LECTURES ON SOME PHASE OF LITERARY CRITICISM

Professor J. E. Spingarn, formerly Professor of Comparative Literature in Columbia University will during the week beginning November 20 deliver a series of lectures to those students who are candidates for degrees of Honor. Prof. Spingarn is the author of "Literary Criticism in the Renaissance," "The New Criticism," various essays in "The Cambridge History of English Literature," and editor of "Seventeenth Century Critical Essays," and many more interesting works.

These lectures will be held from four to six p. m., and the subjects will be as follows: (1) Greece and Rome; (2) From the Middle Ages till the Eighteenth Century; (3) The Romantic Period; (4) The Nineteenth Century; (5) The New Criticism. These lectures will not be open to the public but will be conducted as a course for which all candidates for Honors in the Division of Language and Literature will be expected to register, but others desiring to attend these lectures will first have to secure the permission of the Committee on Degrees with Distinction of which Dr. Greenlaw is the chairman. Those registering for the course will be expected to do some preliminary reading since it is expected that students will take part

IMPORTANT NEW BOOKS BY FACULTY MEMBERS

Important books by faculty are: *Radio-Activity*, by Prof. Francis P. Venable. This is a new book of its kind, and represents some of Dr. Venable's original findings in a field in which he already ranks high as a specialist.

Dr. Edwin Greenlaw: *An Outline of English Literature of the Renaissance.* The book contains about 165 pages and covers the field from the beginning of Humanism to Death of Milton. Some of the work is based on his former syllabus but he has added extensive introduction, bibliography for advanced students and problems for research.

Prof. Toy's new edition of *Die Journalisten.* First edition was published in 1889, been in constant use since, circulating at rate of 3000 to 4000 copies yearly.

The Chief American Prose Writers, a companion volume to

(Continued on Page Six)

THE WEIL LECTURES IN AMERICAN CITIZENSHIP

On Wednesday, Thursday, and Friday of next week, the distinguished publicist and orator, Dr. James A. MacDonald, editor of "The Globe," Toronto, Canada, will deliver in Gerrard Hall the Lectures in American Citizenship on the Weil Foundation. The general subject of this series of lectures, which constitutes one of the leading events of the year, is "The North American Idea." The subjects of the individual lectures are as follows: "The North American Idea in the American Republic;" "The North American Idea in the Canadian Dominion;" and "The North American Idea and America's Internationalism."

THE NORTH CAROLINA CLUB HAS INTERESTING MEETING

"SOUTH SHOULD BE RID OF TICKS AND POLITICS" SAYS DR. BRANSON

"The prayer I am continually praying is that God will rid the South of ticks and politics," declared Dr. E. C. Branson in an address to the North Carolina Club last night. Dr. Branson said that the genius of the Southern people had never been sufficiently economical. We are continually in the strut and fret and fever of politics. We have not more than half a dozen economists in the South today.

"We are poor," the speaker affirmed, "not because we do not create the wealth, but because we do not keep it. And of what use is it to sweat out wealth when it won't stick to the palms that sweat it out?" Our per capita wealth is only $794, next to the lowest of any state in the union. And we are not only poor financially, but "pore" in spirit and thought toward our institutions. We have little wealth and less willingness. The North Carolina problem is two-fold; to lower the cost unit of production and so contribute to a surplus and then to distribute the wealth we create so as to hold it down. "If we have not intellect enough to figure that out, we must admit to being sodden in incurable stupidity."

"Here we are," Dr. Branson continued, "fumbling with the paper pulp industry while Mississippi and Georgia with nothing like our material, establish million dollar factories and make the profits. We sleep and doze."

The purpose of the North Carolina Club is to agitate a reasoning

(Continued on Page Six)

DATE OF FALL DANCES DEFINITELY DECIDED

The time of the fall dances has at last been definitely fixed. It was necessary to postpone them a week later than usual on account of the newspaper men's convention in Chapel Hill, and the dates now settled upon are Thursday and Friday of the second week in December, or Dec. 14 and 15.

The first dance will be given by the Order of Gorgon's Head, and the second by the German Club. Meyer Davis' Orchestra has been engaged to furnish the music.

ORANGE COUNTY RALLY DAY IS GREAT SUCCESS

CAMPUS THRONGED WITH VISITORS FROM EVERY PART OF THE COUNTRY

FARM PRODUCTS ARE EXHIBITED

Picnic Dinner—Pictures in Chapel Singing Contest—Potato Races—Wheelbarrow Races and Other Athletic Contest

A fair day, large crowds, a variety of exhibits, numerous prize contests, and a spirit of good-will and gayety all combined to make Orange County Rally Day on Friday the third, the biggest and best that has yet been held.

Early in the morning buggies and carriages began pouring into the campus, and by ten o'clock, when the automobile parade started from the post office, the field back of the South building was covered with horses and vehicles. Every hour of the morning was filled with exercises for the entertainment of the visitors,—a band concert at Memorial Hall, a musical performance by the students in Chapel, and a basket picnic under the trees. In addition to these exercises on the campus free moving pictures illustrating different phases of farm work were shown at the Pickwick during the morning and afternoon.

The exhibits this year were more varied than ever before. Vegetables and fruits, cakes and candies, embroidery and fancy work, and many other articles of interest were displayed in Memorial Hall. Several of the local merchants had set up booths for the display of their goods, and the North Carolina Geological and Economic Survey exhibited pic-

(Continued on Page Six)

SOPHOMORES CELEBRATE WITH BIG CLASS SMOKER

With a tinge of political suspense pervading the air, on the night before the big election 100 members of the class of 1919 crowded into the Y. M. C. A. lobby to hear Professor Cobb and Turlington talk in their usual sad and melancholy manner, and to relieve the buying committee of numerous articles of consumption commonly known as "eats."

The smoker began at nine o'clock with a speech by Professor Cobb urging the students to give the political questions before the country their most careful consideration instead of following blindly the dictates of parties. Professor Turlington, after reading his own version of Bacon's essay on truth as applied to smokers, proceeded to discuss the value of smokers in developing class unity. Ralph Williams concluded the talks by calling upon his classmates to "put out some of the things that are in and put in some of the things that are out."

The advice was unnecessary, for soon the committee came in bearing waiters heaped with eatables, and in less than ten minutes the wisdom imparted by the faculty members had been put out and a goodly quantity of fruit and sandwiches had been put in.

THESE MORTALS!

If Will Shakespeare had taken a trip to Chapel Hill last week and had spent a day looking over the campus, he would doubtless have appreciated much better than before the truth of that remark of his "What fools these mortals be!" Here are some of the things he would have seen:

A student running to breakfast at 8:32 in the vain hope of making an 8:30.

A library hog in the reading room of the library reading Life, holding Harper's Magazine under his right elbow and hiding the Cosmopolitan in his lap.

A sophomore reading 800 big pages of parallel reading in 30 minutes.

Two professors playing a *sub rosa* game of tit-tat-too while in attendance on another professor's lecture.

Several members of the Bath Robe Brigade, like prehistoric men or like the Follies of 1917, striding from the gymnasium to their apartments.

Only 27 men, from a student body of 1200, out for varsity football.

About 250 busy students waiting two hours for 250 letters—and 200 of them getting nothing.

A crowd of students in the middle of Main Street laughing at an old man who is drunk and yelling for Wilson.

Some 200 Sophomores, after their first smoker, running wild over the campus and yelling in a ludicrous endeavor to frighten freshmen.

Whereupon we doubt not that Will Shakespeare would have looked no more but would have gone up to his room at Pickard's Hotel with inspiration enough to write six comedies, two tragedies and 500 remarks similar to the one we quoted in the beginning.

COLLEGE POLITICS

Impressed by the glamor and the agitation of the national political battle fought so strenuously this week, we are apt to forget that politics in the United States is only a necessary evil. A gentle reminder also is necessary, perhaps, "lest we forget" that college politics at Carolina is something worse than a necessary evil,—an unnecessary evil.

Politics exists in the United States because "parties" exist. Its foundation is the platform. But if all the voters knew the candidates personally and if there were no parties and no platforms, then politics would be unnecessary.

And so it is at Carolina. There are not two parties here. There is only one, the whole student body. When two or more men are candidates for some office there is no question as to their party principles; one man will work along the same lines as another. The only question is one of individual merit. Here the majority of the voters know the candidates personally; here there are no such things as party principles. And here politics is unnecessary.

But a thing may be unnecessary without being evil? Yes, but not politics. Here it is especially an evil because every time one of our college politicians draws together his crowd against another crowd he inevitably causes a split in the student body. Two or more factions are formed, slinging mud at each other, and in their eagerness to get the better of each other, forgetting the good of the whole University. The especial attendants of politics come along with their master, — dishonesty, false class distinctions, and enmity. The student body is divided against itself—and all for nothing.

In spite of all this there is such a thing as college politics at Carolina and there are such pestiferous insects here as college politicians. What is the explanation of their existence? Only two explanations are possible: one is that our college politicians created politics here and are keeping it alive in order to get jobs for themselves; the other is that they are merely imitating the old politicians they have seen in their counties, without considering whether what they are doing is good or evil for themselves and their community.

This is not an attack on any politician or any particular political ring, if any there be in college. Conditions here are not bad; they are excellent; the hydra head of politics has not raised itself in a good while. So this is simply a thanksgiving for our state of blessedness and a prayer that it will long continue. It is a spontaneous expression of an opinion which, we believe, is held not only by ourselves but by the student body.

Politics is an unnecessary evil at the University of North Carolina, and as such we cheerfully give it our best wishes for an early and a natural death.

Mr. P. B. Eaton made the best speech in the Di Society Saturday night. The query was, "Resolved, That the civil service employees of the United States should be granted pensions."

How about handing in that item of news to the Tar Heel? If you have anything that's fit to print put it in the Tar Heel box in the Journalism Room at the Library, or hand it to one of the editors.

The Bible study groups will hold their first regular meeting of the year on Sunday at 12:30. All men who have not been assigned to one of the groups are requested to see J. H. Capps. Those who intend to take the course in the comparative study of religions will meet at the Y. M. C. A. an hour after church.

A lady writer says that sleep is conducive to beauty. Perhaps it is, but there are a lot of homely policemen. — Raleigh (N. C.) News and Observer.

It is astonishing how people who have no music in their souls should be always harping on everything.—Salt Lake News.

Social suggestion: To eat peas daintily with your knife, moisten them with molasses.—Galveston (Tex.) News.

AT THE ELECTION RETURNS

No doubt you have seen many times when there was a rush to get away from Chapel, but have you ever seen such a rush to get to Chapel as there was Tuesday night? But at this particular time the crowd was composed more of fun seekers than of knowledge seekers. General "free for all" rushes were frequent, and "skint" knees and elbows were plentiful. All around Chapel the crowd scattered! forgetting the great gathering of political enthusiasts who were assembled inside. It was indeed a frolicing bunch, but water will descend when cut loose from the force which suspends it, and occasionally when it rains it comes in drops and not in paper sacks. But everything seemed to be turned around, for even rocks when turned loose didn't descend, as usual, but ascended to the third floor of the South building. But it could not be wondered at, for everything was being attacked—even Wilson and Hughes. But with all this you would never think that in a quiet and peaceful little town like Chapel Hill, a man would be attacked when he attempted to leave a crowd in which he did not desire his person to be. But such happened. We know not his name, nor from whence he came, but from all indications he is a great lover of cranking Fords, for it was not until the n-th time plus one that he cranked it. It was only then that the thing got it in a leaving notion, for by some attraction his spark was carried to other parts, (probably it jumped to the great excitable current which brought forth the news that the 45 electoral votes of New York had gone to Hughes.) Anyway, there happened to be a crowd around who liked the little thing, and indeed hated to see it leave, and they showed their desires by imparting to it the same amount of force in one direction that the engine was imparting in the other direction, and thereby producing equilibrium, and proving that Newton was no liar when he said, "To every action there is an equal and opposite reaction."

"In Hoc Signo" was the motto of the great Constantine. The little Constantine is satisfied with "In Hock."—Ex.

Drat our Ingersoll! It seems to operate under the terms of the Adamson law. — Gary (Ind.) Times.—Ex.

The kicker read the paper to see
the works there wrought,
The kicker read the paper, but
ne'er a copy bought,
He didn't like the contents and
said it was not new,
But never presented materials to
show what he could do.—Ex.

WEIL LECTURES TO BE DELIVERED NEXT WEEK

The University of North Carolina has secured this year as the Weil lecturer, Dr. James A. MacDonald, of Toronto, Canada.

Dr. MacDonald is widely known as an author and lecturer. He is a man who limits himself to no one thing, but takes an active part in many important things of his day. This is shown by the fact that he began life as a minister, later entered the profession of journalism as first editor of the Westminster, a religious magazine. He has been a member of the Board of Governors of the University of Toronto since 1906: a member of the first Imperial Press Conference, London, 1909; President of Westminister Co., Toronto; Vice President of the Toronto Conservatory of Music; a Member of the Board of Directors of World Peace Foundation, Boston; and actively connected with many other things which might be mentioned. Dr. MacDonald's subject will be, The North American Idea.

It will be remembered that this is to be the second of the Weil lectures, founded by the heirs of Herman and Sol Weil of Goldsboro. The lectures are to take place the 15th, 16th, and 17th, of November.

SOPHOMORES CELEBRATE WITH BIG CLASS SMOKER

(Continued from Page One)

At the request of the president for volunteer extempore speakers J. Y. Jordan,—he of the sad mien and few words,—arose from his seat and solemnly informed his audience that the occupants of Smith Building had boldly defied the Sophomore Class. "Yank" Rondthaler, willing to prolong the torture, produced a dangerous looking clarinet from the depths of his coat pocket and proceeded to play the "Freshman March." The unhappy Sophomores, feeling that the limit of their endurance had been reached, at once adjourned to engage in the more exciting diversion of stampeding up and down the campus in an effort to impress their importance on the freshmen.

PROFESSOR J. E. SPINGARN OF COLUMBIA HERE DEC. 22

freely in the discussions at each meeting. The purpose of these lectures will be to give the students some idea of the main currents of literary criticism from the Greeks to the present time and to stimulate the discussion of criticism.

Prof. Spingarn will also address the Philological Club at its regular meeting on Nov. 21 at eight p. m. This meeting will be open to all those who care to attend.

(With Apologies to Rudyard Kipling)

'E didn't 'ave no rooters of 'is own;—
'E didn't 'ave no fellows for to cheer:—
So we must testify the pluck 'e's shown
In a-coming up to play us year by year.
'E's a darling, 'e's a ducky, 'e's a sport,
'E's a player that we 'ope to meet again;
E's a foeman worthy of a good report,
Though the licking that 'e gave us caused us pain.
'Ere's to you, Georgia Cracker, in your 'ome in the canebrake;
You're a poor, benighted Cracker, but your playing made us ache:—
'Ere's to you, Georgia Cracker, and your playing, clean and fine:
You're a poor, benighted Cracker, but you broke Virginia's line.

—U. Va.

WHY PROOFREADERS ARE BALD

Przasnysz and Przemysl are not the only things that the Russians have to contend with, for some day their whole advance may be wrecked upon one of the following:

Berezszaz.
Hajdu Szoboszo.
Nyiregyhaza.
Dzialoszice.
Wloszczowa.
Szczuczyn.—Columbia State.

Al—"Why are you down on Phi Beta Kappa?"

Jeff—"Well, don't you think they are a bit exclusive?"—Jack-o'-Lantern.

DR. HAMILTON IN CHAPEL

Quite in accord with the spirit of the time, Dr. Hamilton delivered a series of Chapel talks this week on "The Machinery of American Politics." He traced the development of the electoral system of electing the President of the United States.

Formerly the electors were chosen by State legislatures, then by popular vote by districts, and later by general state ticket. Thus "doubtful states" are made possible. Since 1845 the presidential election is held throughout the United States on the same day. Very little attention is given to the men voted for as electors; they are seldom known by the people. The electoral college never meets as a whole, but the electors for each State meet on the second Monday in January and ballot, first for President, then for Vice-President. The votes thus cast are sent to Washington, where they are counted before both houses of Congress in joint session. The President-elect is not formally notified of his election.

In case there is no majority of electoral votes the election goes to the House of Representatives. There each State casts one vote for either of the three leading presidential candidates. In 1801 and 1825 the elections were decided in this way and in 1837 the Senate chose the Vice-President. In 1876 the whole election depended upon disputed votes. It has been the case that the President received the minority of the popular vote, though he got the majority of the electoral vote.

Dr. Hamilton pointed out that all the States except North Carolina and South Carolina have adopted the Australian system of ballots, in which all the candidates of each party for all offices are placed on the same ballot. In Tuesday's election six separate ballots were cast by each citizen of North Carolina.

"The old Physic Clock isn't run by the unions."

"How do you know?"

"It hasn't struck yet."—Ex.

Oswald—"Chauncy, you are a perfect jackass."

Chauncey—"Aw, no, my deah boy, none of us are perfect you know."—Awgwan.

STUDENT PUBLICATIONS DISCUSSED AT FORUM

"Student Publications" was the subject of Marion Fowler's talk in Chapel Thursday morning. "More than ever before," said he, "the editors and managers of our publications are trying to put them on a par with the University and make them truly representative." But they can not do this without the help and co-operation of the student body." He then took up the different publications and made announcements for each.

"The Freshman Bible" has already been placed in the hands of the Freshmen, and the Directories will be ready for distribution in a few days at the Y. M. C. A.

"The editors of the Tar Heel urge everyone who has any item of news to hand it over to them. The Tar Heel needs more locals.

"The editors of the Magazine, also are very anxious to have more contributions from the student body. A $2.50 prize will be given by Sigma Upsilon for the best sketch submitted.

"And the Yackety Yack, too, is in great need of all kinds of contributions,—snap shots, cartoons, jokes, poems, etc. The editors intend to make this year's book the best since 1911, but they can do this only with the co-operation of the students."

Every day that is born into this world comes like a burst of music, and sings itself all day through, and thou shall make of it a dance, a dirge, or a life march, as thou wilt.—Thomas Carlyle.

"Carranza moves to round up Villa," says a headline. We hope General Pershing will second the motion and that it will be carried unanimously.—Hartford (Conn.) Courant.

The match game didn't prove quite such a safety match as was expected.—In fact it was rather striking.

"A musicale and euchre," reports the Birmingham Age-Herald. Music, of course, on the euchrelele.—New York Tribune.

If Combs gets many more of those high balls like he did the other day against Trinity, he will be considered some lobster.

SENIORS WIN FROM JUNIORS

Characterized by the evenness of the two teams and the spirit manifested, the seniors defeated the juniors in the first class game of the season last Friday, 6 to 0. The scoring came in the first half when the New Dormers beat back the junior line until they had pushed the ball across the goal. After that the gain was about even and neither team showed a decided advantage. Conger, and Cooper starred for the juniors while Parker and Joins took the senior laurels. Frank Thompson was referee and Willie Lewis head linesman.

BECAUSE

I'm strong for Jack, 'cause he played half-back
Like a regular dream at Cornell.
I'm wild about Mark, 'cause his eyes are dark,
And he rolls 'em simply swell.

I'm soft on Neal, 'cause his automobile
Just eats up chunks of macadam;
And Clarence for me—why, his family tree
Used to hold up the wash for Adam!

I'm daft over Frank—his account at the bank
Is all to the jingaree.
I've a berth for Ed, and for Ted and Fred,
'Cause they blow in their coin on me.

And then there's Jim—I'm bats about him—
I dote on those studious guys;
And little Al—he's a regular pal—
I fall for a gink that's wise.

I'm dippy for Nat. Say, that boy can chat!
Some artist, that kid, with his jaws!
But, gee! for Paul, I'd shake 'em all,
Because—well, just because.

—Ex.

The left-handed girl has one big advantage which does not materialize until the man in the case slips the diamond ring on the third finger of said handy left.—Macon (Ga.) News.

Just a little bluffing,
Lots of air quite hot,
Make a recitation
Seem like what it's not.

Eavesdropping and Interviews

"One man in town bet his new Ford and sixty-five dollars besides that Hughes would be elected." The very fat lady spoke emphatically in order to impress upon her companion the enormity of the double crime, betting so heavily and on a Republican.

"He may make a lot of money." Evidently the man was a heretic.

The eavesdropper passed by. It was nearly twenty-four hours since the first rumor had elected Wilson and still people were betting on Hughes.

"I'd give a hundred dollars to have Wilson elected," declared the Senior Law Student who may or may not have had a hundred dollars. "You give me the money," suggested an obliging Sophomore, "and if Wilson isn't elected for you I'll give it back." That seemed fair enough but somehow it didn't appeal to the legal mind.

And still nobody knew whether Wilson would have to give up the Presidential shoes which have fitted him so well or whether he would be able to have them resoled for his own use. Rumor had continually reelected him but a Republican spectre stalked abroad and Rumor fled before it. In the early hours after midnight of election day the sound of Tar Heel voices or Celestial Choirs or something had pealed forth so lustily that the Eavesdropper, waking out of slumber, believed it to be a song of victory and murmurred a few feeble hurrahs for Wilson before dropping back into sleep. But the end was not yet.

Morning dawned grey and dismal though the sun made fitful efforts to shine, casting a pale yellowness over the dull sky. In one of those sunlit intervals the man with the Raleigh paper dashed across the campus waving his arms and announcing to whom it might concern that Wilson had a clear majority regardless of the seventeen doubtful states, and here were the figures to prove it. But the killjoys killed it, or anyhow managed to make it a little sick.

"The Democrats look mighty smiling this morning," remarked a member of the Republican Club, but his own face might have advertised a guaranteed gloom disperser, and his voice betrayed suspicions of that "you just wait" quality.

Everybody waited. Another night passed but joy didn't come with the morning. Wilson seemed to have left uncarried some states that he should have carried and Hughes seemed to have carried some states that he ought not to have carried, and the three votes in New Mexico might determine the election. The eavesdropper thought those three votes took a mighty long time to decide which way they were going. And another day passed and it was of a Thursday night and still nobody knew.

But the hand of providence is in all things, and perhaps it has been written in the stars that for once even the "New York Evening Telegram" should have nothing on the Tar Heel in announcing the results of the election.

Athletic Notes

Here we are with the football season wagging its tail (or tale?) in our faces and, well, what are we going to do about it? The fact that we have lost games is neither here nor there. We feel that we might have done better—we always do. But this is no epitaph. Watch Davidson's fur fly!

Speaking of Athletics, that race between Hughes and Wilson was no slow affair—especially the work at the tape. For awhile the tide of election returns resembled Roosevelt's River of Doubt.

Our knights of the racquet are getting somewhat fierce it appears, and strut about with shouldered chip. Here's to you, tennis team. Tennis is rapidly taking its place in our athletic life, and will be a branch of importance here in the immediate future.

Coach Peacock will be knocking the dust off his back-boards ere long and tacking up his baskets. The class of 1920 will here continue to shine, we trust. Somebody has to shine, why not a Freshman?

The class of 1919 seems to have reversed its last season's form, and is engaged in turning out a winning team. Their victory over the mighty seniors was a surprise to all parties concerned.

The gymnasium is a marvelous affair, for behold, certain youths of the youngest class, formerly emaciated and lack-lustre as to eye, have become mighty as to limb, and bright as to their optic organs. Instructor Devereaux in truth does his work well—or rather, should we say makes the aforesaid Freshmen do the work well.

The new tennis courts have been completed, and it grieves us sorely to see the weary mortals who still amble across their expanse, thereby saving six and two thirds steps in approaching the gym from Emerson field.

The Freshmen have deparated from us to play Bingham. May they return with many scalps!

CHEMICAL JOURNAL CLUB MEETS

The 147th meeting of the Chemical Journal Club was held Monday night with Dr. J. M. Bell presiding. Reports of articles on methods of analysis were given as follows: Oxygen, B. L. Meredith; nitrites, L. G. Marsh; aluminum, I. W. Smithey; tin, O. K. Merritt.

Dr. V. A. Coulter is now instructor in the department of chemistry, having assumed his duties last week. He will have charge of analytical and industrial chemistry.

Dr. Seerley, of the speaking staff of the International Committee of the Y. M. C. A., a man of national reputation, will speak here on the subject of sex hygiene on Nov. 25.

Here he is—good old PEPSI-Cola! The most successful "thirst-killer" that ever was. Never was a thirst, not even one of those dry, "cottony," mid-summer thirsts that had a chance with a PEPSI-Cola.

It just goes like lightning when this tall, tinkly, "ice-bergy" glass of PEPSI-Cola heaves in sight.

PEPSI-Cola

Try it—just see how refreshing and invigorating a drink can be. And don't be selfish—have the grocer deliver a case home so the kiddies can enjoy it, too.

FRESHMEN ELEVEN WIN FROM GUILFORD 44-0

(Continued from Page One)

in the backfield was especially good.

The line-up:

Freshmen		*Guilford*
Fisher	L. E.	Stafford
Gant	L. T.	Garner
Pritchard	L. G.	Lloyd
Blount (c)	C	Ford
Little	R. G.	Zachary
Robbins	R. T.	Smith
Daniel	R. E.	Kiser
Herty	Q. B.	Copeland
Spruill	L. H.	Jonah
Bristol	R. H.	Armstrong
Spaugh	F. B.	Rowland

Scoring: Touchdowns, Spaugh 2, Herty 2, Bristol, Spruill. Goals from touchdowns, Blount 6.

"CONSERVATION," TOPIC OF Y. M. C. A. DISCUSSION

"Conservation," said Professor McIntash, in the regular Y. M. C. A. discussion meeting last Tuesday night, "is given us to keep, and we should keep it." "It is like opportunity," he said, "which we should keep,—not by holding it, but by using it."

He declared that a man should keep himself in spirit, mind, and body, and be an example to the community in which he lives.

"A man is good if he is an athlete, but he is not a whole man if he is an athlete only. He is good if he is an intellectual man, but is not a whole man if he is intellectual only."

He also put emphasis on the fact that we should keep our friends. "The loneliest man in the world," he said, "is not the man in the forest but the man without a friend."

To Carolina Boys—
We Have Got It!

If it's a Trunk, we've got it.
If it's a Suit Case, we've got it.
If it's a Pistol, we've got it.
If it's a Diamond Ring, we've got it.
If it's a Watch, we've got it.
If it's a Gun, we've got it.
If it's a Ring, we've got it.

Last but not least—If it's a $, we have it.

Pages from Dr. Battle's History

On motion of Bartlett Yancey, a number of resolutions were submitted to a Committee, and at the June meeting, 1825, were substantially reported back and adopted. They were:

1st. The appointment by the Trustees of a Superintendent of the property and financial concerns of the University, who shall reside at Chapel Hill, give a $10,000 bond, and receive not exceeding $500 salary per annum.

2d. He was to care for all the property of the institution and carry out all orders of the Trustees.

3d. Each student shall pay him all his money, and shall pledge his honor to pay all received at any time. The Superintendent shall out of the same pay college dues and other necessary expenses, the repair of injury to College property done by the student; also such purchases of merchants as the student may buy, and to the student not over one dollar pocket-money each month.

4th. He shall pay the board of the student, provided that the boarding-house keeper shall have written authority from the Faculty.

5th. He must notify each parent or guardian of the student as to the amount paid him, and at the middle and end of each session furnish them an account of expenditures.

6th. No student, under penalty of admonition or suspension, shall purchase at Chapel Hill or elsewhere, wares or merchandise, or spirituous liquors, without consent of the Faculty.

A uniform dress was prescribed; in summer, a coatee of dark gray mixture, chiefly cotton, decent and cheap, with white pantaloons and waistcoat. In the winter the whole suit must be blue. By a subsequent ordinance blue was changed to dark gray.

The wearing of boots was prohibited. It was recommended that the other parts of the dress should be plain and decent, and the persons cleanly.

The Seniors at Commencement might dress at they pleased, it being presumed that they would wish superior attire on this momentous epoch in their lives.

Resolved: That the hiring out of convicts should be declared illegal—was the subject of debate in the Phi Society Saturday. The affirmative won—and Mr. Topping made best speech.

Theorem—To prove that a sheet of paper is a young dog.

By Hyp.—A sheet of paper is an ink-lined plane.

Now—An inclined plane is a slope up.

And—A slow pup is a young dog.

Therefore—A sheet of paper is a young dog.

(Subject to the approval of Archibald Henderson and Horace Williams.)

Just Gossip

Once during every man's college life comes an event almost rivaling in importance the Thanksgiving game—a presidential election. Although most of us are still legally adolescent, that doesn't lessen in the slightest our responsibility as American citizens, to see that the right man is elected.

Political clubs are formed, buttons are secured, and active compaigning is carried on by the party leaders. The great day approaches, and the betting indicates that so and so will win. The temperature on the morning of election is not much above freezing, at sunrise, but Dr. Hamilton has his 7th History class out to see the polls open. All through the day profs. and studes discuss the political situation together, from tariff regulation and national defense down to the personal disposition of the candidates.

Professor Williams may be found stationed before the Post Office from early until late. A student walks up to him and after five minutes consultation places a bet on Hughes. Whereupon Mr. Thornton hoves into view with some figures on the back of a post card. The crowd gathers and in a few minutes the odds are for Wilson. And so it goes.

Prof. Henry foretells a Republican landslide by an application of the stern reasoning of Tacitus. Meanwhile Prof. Daggett posts a wireless message received at the University radio station that Wilson will be elected, very probably. The crowd increases at the drug store and the sale of Coca Cola likewise, as the various dope comes in.

A Hughes partisan claims that Wilson should not be elected because he appointed a deservingly Democratic horse doctor to an important position in the geological department. This is immediately refuted by the assertion that Hughes is a weak man because he tries to hide his face. But why should we make this more prolix? We have filled up our column.

(By Harry Kemp, a former student at the University of Kansas, who is known all over the United States as the "Tramp Kansas Poet.")

Give me tht land where miles of wheat
Ripple beneath the wind's light feet,
Where the green armies of the corn
Sway in the first sweet breath of morn;
Give me the large and liberal land
Of the open heart and the generous hand,
Under the widespread Kansas sky
Let me live and let me die.—Ex.

"E pluribus unum," cheered Ed. Hicks as his favorite pony crossed the line.

"I don't get you," said a disgruntled person.

"Such ignorance! He won out of many, didn't he?" exclaimed the cultured one.—Puck.

tures of trees and rocks in North Carolina.

After dinner a singing contest between Orange County Sunday Schools was held in Memorial Hall, Rankin's Chapel winning first prize and Williams Chapel second.

The exercises of the day were concluded by an athletic contest on Emerson field consisting of a potato race, a "three-legged race," and a hundred yard race by small boys of 8 or 9; and a tow sack race, and a blindfold race with wheelbarrows by girls.

IMPORTANT NEW BOOKS BY FACULTY MEMBERS

(Continued from Page One)

Page's "Chief American Poets" will be published the latter part of October. The editor is Norman Foerster, Associate Professor of English, University of North Carolina.

This new book contains extensive selections from the most important American prose writers. Nine authors are represented by about thirty-eight selections.

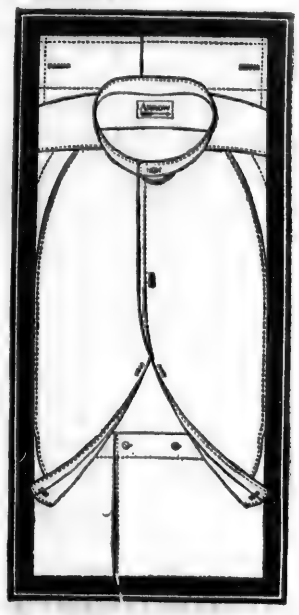
THE NORTH CAROLINA CLUB HAS INTERESTING MEETING

(Continued from Page One)

about our economic conditions. The men of the club "finger the tip of the tap root of economic causes." These studies are new to every state in the union, and inquiries and requests for the papers read in the North Carolina club are pouring in from all over the United States.

Dr. Branson's interesting address came at the conclusion of a club study paper by Mr. E. A. Kendall of Guilford County. Total and Per Capita Wealth in North Carolina was the subject, and it is the first of the series concerning the retention of our wealth. If you are a citizen of the Tar Heel state and your total worldly possessions amount to more than $794, you have no right to kick, according to Mr. Kendall, for you are better off than the average citizen. In fact, if you are a farmer, you need have only $322 to be an average. And North Carolina's rank is 47th in per capita wealth as a whole and 44th in per capita rural wealth.

As to our total wealth, we create about 370 million a year and have on hand nearly two billion. Every five years in North Carolina a million people create as great wealth as the state has been able to retain and accumulate in 250 years. "We produce wealth, but it slips out of our hands and disappears out of the state to enrich aliens and strangers in other states and sections." Thirty-one states have accumulated greated totals than we have; nine of the thirteen Southern states make a better showing, and only three are poorer.



Mr. Kendall then showed by statistics that the reason for our poverty is neither negro population, nor our dependence mainly on agriculture. But the farming in the richer farm states is better balanced than ours. "We stay poor buying farm supplies with cotton and tobacco money. Oklahoma leads the South largely because in the census year she was the only state in the South that raised food and feed enough for home consumption. Our own bill for imported food and feed stuffs in the same year was nearly 120 million dollars."

"The plain, simple, uncomfortable fact is that North Carolina is poor—so actually and relatively. Poor, not because we do not create great wealth year by year, but because we do not retain a reasonable share of the wealth we create."

At the next fortnightly meeting J. A. Capps will discuss the question of Factors in Accumulating and Retaining Farm Wealth in North Carolina.

BASKETBALL LEAGUE WILL BE ORGANIZED

SIX CLASS TEAMS TO PLAY SERIES OF GAMES BEFORE CHRISTMAS

MUCH MATERIAL TO WORK ON

Old Commons Hall Fitted Up With Showers, Lockers and Dressing Room for Players—First Practice Monday

Varsity and class basketball will be run on a new plan this year. Coach Peacock has worked out a system which will insure a stronger varsity team and a far more interesting class season.

There will be six teams—representing the four academic and two law classes. Any man may play on his respective class team whether he has played varsity ball or not. These teams will follow a regular schedule for both practicing and playing class games. In case the class teams are not balanced enough to make the league interesting a readjustment will be made and class distinction broken down.

Starting December 1, a series of interclass games will be played and this will be the general nature of the period from December 1 to Christmas vacation. The schedule will be announced in next week's Tar Heel.

During this league Coach Peacock will watch the prospective varsity players—and select as soon as possible a team to which he will give special coaching in addition to that received in the regular practices or league games. These players will be selected finally for the varsity squad and withdrawn from the league teams at the beginning of January. The remaining players will then form into their respective class teams and play the regular inter-class series for the class championship.

Old Commons Hall has been cleared out and put in shape for basket ball and it is there that most of the basket ball activities will be centered this fall. A set of shower baths, lockers and an adequate dressing room will be fitted up immediately.

There will be no lack of players this season. Raby Tennent, Captain; Tandy; Scruggs, Jewitt,

What's to Happen and When

Sat., Nov. 18—Carolina vs. Furman on Emerson Field, 3 o'clock.

Sun., Nov. 19—University Sermon, by Rev. Thaddeus Cheatham in Gerrard Hall, 11 o'clock.

Mon., Nov. 20—President Graham in Chapel. North Carolina Club meets in Peabody 8 at 7 P. M.

Tues., Nov. 21—Dr. C. H. Herty in Chapel. Faculty speaker at Y. M. C. A. meeting in Gerrard Hall, 6:45 P. M.

Wed., Nov. 22—Dr. Herty in Chapel.

Thurs., Nov. 23—Student Forum in Chapel, W. C. Rymer speaker.

Fri., Nov. 24—Music in Chapel.

CAROLINA-10, DAVIDSON-6

IN A CLOSELY CONTESTED GAME PRESBYTERIANS KEEP TAR HEELS ON DEFENSE

Favored by the breaks in a game in which they were continually outplayed Carolina won from Davidson at Winston last Saturday 10-6.

During the first quarter Davidson opened Carolina's line again and again and Burns was able to gain repeatedly. A fumble by Burns on University's eight yard line probably prevented a score. Fumbles were frequent by both teams.

No scoring was done in the first three quarters, neither team coming within striking distance again until the last quarter, when, having recovered a fumble well into the collegians' territory, Tandy kicked a field goal from the 25-yard line.

Carolina kicked off, and after an exchange of punts Carolina recovered the ball on her 40-yard line. On the first play Folger broke through the line and ran 60-yards for a touchdown. Davidson received, and on the third play Flowers caught a long pass from Lawson and ran 55 yards for

RECEPTION GIVEN GLEE CLUB BY SALEM GIRLS

The Glee Club gave its first performance at Salem College on Friday night. The program was begun by the chorus, who sang, "Hark the Sound," which was followed by orchestra string band, mandolins, quartet, and Hawaiian numbers. Every number was encored several times, and it was only with great difficulty that Director J. Earl Harris was able to leave the stage, after rendering several piano selections.

After the performance the club was given a reception by the seniors of the college, which was highly enjoyed by every member of the club.

The club remained in Winston on Saturday to witness the Carolina Davidson football game and returned to the Hill on Sunday.

Those who made the trip are as follows: Pace, Martin, Howell, Travis, Lupfert, Green, Lashmit, S. Travis, Harris, Wimberley, Lindsey, Stephenson, Dalton, Roudthaler, Parker, Poag, Prince, Spaugh, Brinson, Kinlaw, Thompson, Jordan and Hartshorn.

LYCEUM FOR RURAL SCHOOLS IN OPERATION

The Y. M. C. A. lyceum for rural Sunday schools, which was recently instituted by the Education Department headed by Marion Fowler, gave its first lectures on Monday night at Rankin's Chapel and at Mt. Carmel with a good attendance at both places.

It is the purpose of the lyceum department to give weekly lectures at each of the seven rural Sunday schools, with which the Y. M. C. A. is connected, in place of the moonlight schools which were held last year. These lectures will be delivered by members of the faculty, who will speak on such subjects as public and private health, farm economics, and methods of education.

CAROLINA-FURMAN GAME ON EMERSON FIELD TODAY

VISITING TEAM LIGHTER THAN TAR HEEL—BUT PROMISE STIFF OPPOSITION

"The Furman eleven, though playing a scrappy game and even at times showing a willingness to do and dare—at no time had a look in." This is the summary of the Furman-Georgia game last Saturday according to the State Columbia.

Compared with Carolina the Furman team is considerably lighter and for that reason is not expected to offer a very stig opposition. It is probable that many of the second strong men will get a chance to show what they can do, while the many back field and end candidates will have a chance to show their ability.

Furman is sure to put up a stiff enough defense to prove interesting. It has played good ball all season—but mostly with teams out of its class. According to comparative scores Carolina should win by four touchdowns.

Line-up:

Carolina		*Furman*
Love	L. E.	Wood
Tayloe	L. T.	Jeter
Grimes	L. G.	Shirley
Tandy	C.	Payne
Herrell	R. G.	Carson
Ramsey	R. T.	Shirley
Proctor	R. E.	Varnadoe
Johnson	Q. B.	McManaway
Bellamy	L. H.	Speer
Tennent	R. H.	Gressette
Folger	F. B.	Weston

The game will be played on Emerson Field at 3 o'clock this afternoon.

EXPERIMENTAL GARDEN FOR BOTANY STUDENTS

To gather together all of the 248 varieties of North Carolina shrubs into one small plot is Dr. W. C. Coker's aim in clearing and digging up the vacant field back of the Peabody building. This field is not to be converted into a new arboretum, as one would suppose who has noticed its carefully laid off walks and orderly rows of plants. It is Dr. Coker's purpose to plant one half of the plot in the different shrubs of the state and to use the other half as an experimental ground for the students of the botany department.

The field has been in cultivation for the past two summers, but on account of lack of time Dr. Coker has not been able to advance very rapidly with the work. However, he intends to begin collecting his shrubs as soon as possible.

"Pop, just what is meant by liquid music?"

"Liquid music, my son, is—er—well, it must be the kind that comes from a kettle drum."—Judge.

BIG DANCE AT GYM TONIGHT

GIVEN BY THE FRATERNITIES COMPLIMENTARY TO THE VISITING TEAM

"—A speckled puppy is one of the most beautiful things in this world," he was saying, "but I've never seen one that had anything on you." He was getting inspired. "Moreover, I'd eat out of your hand anytime. I—I—"

"I believe you're kidding. Stop it, I don't—"

"No, I'm not. I, ah" he scratched his head—what was he saying? "say, you know Carolina is going to play Furman next Saturday. Yes. And after the game there's a dance. They say it will be a swell affair—full dress."

"Yes, I suppose it will."

"I thought I'd go—been working hard you know—need some diversion."

"Yes, yes, go on—"

"And I want you to come over."

There. He'd said it, anyhow, and he had resolved to give up all pleasures and be a grind, after seeing his last report. He'd figured on catching up and getting 'way ahead while his companions danced and had Pickwick parties and

(Continued on Page Six)

75 MEN ENTER CLASS TENNIS TOURNAMENT

The class tennis tournament, which entered about 75 men, shows that more interest is being taken in tennis this year than has ever been taken before. Though there are twelve courts, it is a rarety to see one vacant. This tournament has only begun, so nothing can be officially announced as to the winners of the various classes. Those who have been showing up especially well are: L. H. Harvey and W. S. Arrasmith of the Freshman class; W. C. Feimster of the Sophomore class; Quinn and E. A. Griffin of the Junior class; and E. J. Perry and M. H. Revel of the Senior class. With so large a number out for tennis, new material should be found which will pave the way for better tennis in the future.

Holmes Herty, C. H. Combs, J. B. Hester and H. V. Wilson, who make up our varsity team, have proved themselves too great a match for anyone with whom they have played so far. They expect to have a return game with Raleigh Country Club from whom they won two weeks ago.

BILLY STEELE LEADS Y. M. C. A. DISCUSSION

Billy Steele led the weekly Y. M. C. A. discussion meeting, Tuesday night. His subject was, "The Morning Watch."

He very interestingly outlined a good plan for the Morning Watch, and showed the advantages that a man may get from a few moments devoted each day to the study of the Bible.

"Such men as David and Isaac," he said, "and men like Lee in later times were careful followers of the Morning Watch."

One unsolved problem of capital and labor is to find workingmen who think that labor is capital.—Lowell (Mass.) Sun.

DR. J. A. MacDONALD OF TORONTO CANADA

DELIVERS SERIES OF INTERESTING AND INSTRUCTIVE LECTURES ON

"THE NORTH AMERICAN IDEA"

Defining it as, "The Right of a Free People to Govern Themselves"—Lectures Characterized by Striking Statements

"In that wider sweep of the world life, and in that farther sweep of the world mind, the North American Idea shall find itself and have its chance." With this striking assertion James A. McDonald, editor of the Toronto Globe, opened the second series of lectures on American Citizenship under the Weil Foundation in Gerrard Hall Wednesday night. Dr. McDonald's resourceful vigor and energetic manner kept at all times the undivided attention of his audience. The subject of the first lecture was, "The North American Idea in the American Republic."

"It is in the United States and in Canada," he said, "that the North American Idea has had its opportunity. The American Republic and Canadian Dominion agree in this; they each gave a chance to the released and irrepressible idea of freedom, the idea which disturbed the autocracies of Europe and began their overthrow long before America played any part in the history of the world.

"Mexico, indeed, shares in the geography of North America but not in its idea. The people of Mexico have not come to their own in the North American inheritance of democratic self-government. The North American Idea as yet finds no directing and controlling place in the Mexican mind.

"The two North American democracies, then, are Europe's second chance. And North America's real title to greatness must be read in the light which these two nations, each in its own way, and both together in their common internationalism, give back to the fatherlands and motherlands, not of our peoples alone, but of our ideals of freedom and our princi-

(Continued from Page Two)

TOTAL ENROLLMENT IN DEBATING UNION 150

Seventy schools have entered the High School Debating Union during the past two weeks, bringing the total enrollment up to 150. Among those that recently became members are, Yanceyville, Walkertown, Farmington, Huntersville, Chadbourn, Waynesville, Selma, Mars Hill, Atkinson, Roxboro, Bethel Hill, Bushy Fork, Creedmoor, Mt. Gilead, Elise, Scotts, Statesville, Falling Creek, Sunbury, Davidson, Knap of Reeds, Vanceboro, Troutman, Hickory, Red Oak, Crouse, Salemburg Academy, Rock Ridge, Marshville, Antioch, Helton, Mt. Holly, Spring Hill, Wakelon, Woodleaf, Pilot Mountain, Norwood, Almond, Southmont, Churchland, Mason's Cross, Laurel Hill, Rutherfordton, Calypso, Biltmore, Winecoff.

THE HIGHEST PRAISE

"If ever a team really deserved a victory, it was that same little well-coached, fighting team which has represented Davidson College with such untold credit to themselves and to their college in the 1916 football season. Back in the old days there may have been Davidson teams that were stronger, but it is hardly conceivable that any of her teams could have shown more fighting heart, or stood up under such extraordinary breaks of fortune without faltering or wavering, than did those fifteen wearing the fighting red who represented Davidson on Saturday."

This is what *The Davidsonian*, Davidson's college paper, says of the Davidson team in Saturday's game with Carolina.

"What can *The Tar Heel* say of the Carolina team? Nothing, nothing at all: *The Tar Heel* is no knocker."

The Davidsonian then pays the Davidson team the finest tribute that any team can earn. It says: "Every man on the team was giving all he had, and too much credit cannot be given them."

Of course we realize that one cannot do his best all the time. And we realize that it is a most difficult thing for a team to fight hard when Dame Fortune has become its wooer; when Fortune is doing everything for you it seems almost ungentlemanly to snatch the job out of her hands and try to do something for yourself.

But on whatever side Fortune may be, after the last game of the season, we hope and believe that all of us will be able to say of the Carolina team: "Every man did his best." Nor can Mahan or Brickley or Gilroy or Casey or any other man do more.

TRAPPING IDEAS

Every year at least half a dozen men of national or international reputation come to Chapel Hill to speak primarily to the student body. They are generally big men with broad minds which they have had focused for a long time on some phase of literature, philosophy, science or some other branch of human endeavor. And they bring us the fruits of their thinking. They have something to say and they know how to say it. They come bringing to us fresh viewpoints, broader outlooks, new ideas.

And yet at practically every lecture there is plenty of standing room in Gerrard Hall, not to mention several empty seats.

It may be true that all habits are bad, but if so the going-to-lectures habit is surely one of the least evil. It is certainly more profitable and in both the short run and the long run, more pleasant than the staying-from-lectures habit.

Of course, if a man knows all about literature, art, science, philosophy, etc., etc., etc., and has no more room in his head for new ideas, then such a creature would probably be wasting time to go to a lecture or to anything else. But if there is still a spare corner in his cranium, Gerrard Hall is the place for him and a lecture night is the time.

At that time fresh facts and well-founded opinions are usually absolutely stuffed and jammed in the little space between the chandelier and the floor, the Guido Reni painting and the front doors. And there is the place for a man to set the trap of his intellect if he would catch one of those rarae aves known as ideas.

DR. J. A. MCDONALD OF TORONTO, CANADA

(Continued from Page One)

ples of justice. North America inherited a world idea not for her own sake alone, but for the world's. The United States and Canada are trustees for all humanity. Before the world's judgment seat we must give an account of our stewardship.

"These words I speak at a time when the whole sky of all the world is filled with the fierce shriekings of a world war. I speak them as a Canadian when all Canada is straining at every nerve, and the sons of Canada are falling by the hundreds and the thousands in the trenches and at the battlefronts of France and Flanders, in defense of this very North American Idea, the right of the free people of Belgium to live their own life and to govern themselves.

"And why do I so speak and at such a time? It is because I would have you young men of the University, and all who may hear these lectures, believe this one thing and believe it supremely, that, in the long run, and in the ultimate end, dominion among the nations and the victory of the world shall not be with the dripping sword or with the eighteen inch gun, but with the spiritual powers of the free peoples, who, for themselves and for their neighbors, are loyal to the world idea. When the last hundred thousand shall have fired its last shot and fallen into its last grave, then shall world ideas gather up the shattered fragments of the world's civilization, and piece together the violated enactments of world law, so that, out of the wreck and ruin it seems now, there may come a new world of free nations. It is for that far-off, divine event, that the North American Idea was released in the world.

Dr. McDonald's second lecture, taking up with the North American Idea in the Dominion of Canada, was replete with impressionistic color and subtle humor.

"Canada was the first colony of any empire in all world history," he said, "to come to natural self-government without revolution, without separation, and without sacrificing the back-ground of history. She has come by the self-government not by inheritance alone, not by any happy chance of geography and history, but by the deliberate choice of the Canadian people. It was they who decided that Canada should stand before the world, an advocate of the North American Idea.

"Democracy in Canada had its birth in the British North American act, May 10, 1867, and since then she has not been a colony but a commonwealth. Great Britian, for we no longer speak of her as an empire, has raised in the last two years five million men and has not asked Canada for a single man; she has raised fifteen billion dollars and has not asked Canada for a single dollar. What Canada has done has been done by the government of Canada, by the free and unaided authority of the Canadian people. But when the testing day of decision came Canada lived up to the North American Idea. She endorsed in the unstinted sacrifice of her own people, and sealed, and will continue to seal, with the best blood of her young sons, the right not only of Canada but of Belgium to live and to govern themselves.

"And I say to you American people who have the Philippine problem on your hands that 'freedom is never the mother of treason or the traitor.' And my hope is that in days to come, as soon as it is ready, the whole Philippine Nation may become a self-governing community under the United States.

"I believe there is more democracy in Great Britian today than anywhere in the world. Since Lloyd George went up, a young David with fine smooth stones, against the House of Lords, the will of the people is everything. And I can confess that often when Great Britian has decided questions against Canada and in favor of her older brother, she has not only been wise, but right.

"We are working out in Canada what your forefathers started 150 years ago. And on you students of the University of North Carolina rests the duty of leading, along with Canada, Europe—broken and maimed, to a greater light, because we have stood by the right of a free people to govern themselves."

The subject of the third and last address delivered Friday night was, "The North American Idea in America's Internationalism."

"North American Internationalism," said Dr. McDonald, "is America's greatest achievement. It is the chiefest thing America has to show. It is the noblest expression of the North American Idea. Travel its course. See what it is. Think what it means.

"A thousand miles up from the Atlantic to the international head of the St. Lawrence River! A thousand miles along international waterways—lakes greater than European seas, reaching inward to the very heart of the continent. And from the Great Lakes a thousand miles across the open prairies to the Footholls of the Rockies, where yesterday the buffalo roamed, disturbed only by the Red Men, where today the White Man has his peaceful home, and where the unguarded international dividing line never answers to the tread of an enemy army from either side! From the foothills to the Pacific a thousand miles over a very sea of mountains, through whose solitary passes no army ever files, and where echoing people give back no shriek of any shell! And then from the Pacific nearly a thousand miles northward, across to the Arctic, through a pioneer country—raw and only half redeemed from the wilderness, but where nation keeps faith with nation, and where even outlaws obey the law!

"There you have it! Four thousand miles of North America's international boundary between the United States and Canada! Four thousand miles where nation meets nation, where interests touches interest, where flag salutes flag, where sovereignty answers sovereignty! Four thousand miles with never a fortress, never a battleship, never a yawning gun, never athreatening sentinel on guard! Four thousand miles of civilized and christianized internationalism! God's shining sun in all his circling round lights up no such track of international peace and crosses so such line of international power in all the world.

"Nor can the war lords of Europe say that North America has had no excuses for war. Excuses! Had they been sought each generation could have supplied excuses for war as readily in America as in Europe.

"But war everywhere and always is cruel! It is lawless, is a hideous and ghastly crime. And for this reason the international ism of North America, on the lips of the people of both countries says that between our two nations there shall never again be war. For us it would be without excuse because in us it would inexcusable. And for us and for our nations the North American Idea holds: the right of a free people to govern themselves."

LATIN-AMERICAN CLUB MEETS

The regular weekly meeting of the Latin-American Club was held on Tuesday night at the office of the history department. After the reading of a paper on "The Influence of Climate in Latin-America," a general discussion ensued. Dr. W. W. Pierson talked briefly on some of the problems that are confronting this country in her relations with Latin-America.

ELISHA MITCHELL SCIENTIFIC SOCIETY

The Elisha Mitchell Scientific Society held its two hundred and twenty-sixth meeting last Tuesday night in Chemistry Hall. Dr. W. C. Coker read a paper on "Some Problems in Classification" and Mr. T. F. Hickerson gave an illustrated talk on "The Quebec Bridge."

Eavesdropping and Interviews

The Weather Union is on strike and a lot of scabs who don't understand the system and can't tell April from February are handling out days as they happen to pick them up. They have ruined November, which ought to be the best month in the college year, not too warm to study and not too cold to loaf. Anyway we hope they won't make a mistake and send us Fourth of July instead of Thanksgiving.

Thursday was a day to change a man's philosophy. Start out in the morning in a summer suit and a consciousness of the constant unity of all things and come back at night with a borrowed overcoat and a firm conviction that Heracleitus knocked Zeno out of the box —no change, why change is like the old woman's biscuits, "just what we ain't got nothin' out."

Those people who have been waiting for it to turn cold so that they could settle down to study have had their bluff called now.

A Latin Professor once said
To suppress an audacious co-ed
"Pardon me if I smile
At your newspaper style.
It's the worst that I ever have read."

Said the co-ed "I quite realize
That you must be exceedingly wise
I shall never attain
To the height of your brain,
But perhaps I shall equal the size."

Just Gossip

Somebody stole our razor this week, and consequently we were greatly hindered in getting out the Tar Heel since we had nothing to sharpen our pencil wil except the ax. With a little practice, though, the axe can be made to perform the same functions as the razor. Since being deprived of the latter, we have learned to use our axe to peel onions, open clams, crack ice, spread sandwitches, and turn pancakes, as well as to break into cans of tomatoes and scrape ther rust oq the itchen stove. In fact we have found the ax a more useful implement than either pen or sword.

With a god trusty ax on hand there is no reason why one should be bothered with bill collectors, pennant salesmen and Y. M. C. A. drummers. As a weapon for amateurs it is far more effective than the sword, since most of us are more familiar with its use. When it comes to professional scapping, the sword has gone out of fashion entirely. You can now sit back in your trench and stir coffee with one hand while you turn a machine gun cran with the other, while your aide de camp reads out the addresse of your various enemies.

The ax has it all over the pen, too. Even the improved fountain pen has become old fashioned. About all it is fit for is to pick the lock of the front door, when you have home late and find that you have lost your keys. When you come to write anything you just talk into a phonograph, and a young lady comes along a little later and dashes it off on a typewriter. It is said that this application of the phonograph was suggested to Mr. Edison by a married woman. Which shows that even jealousy has its uses.

Since the prohibition laws, however, the pen has acquired a new usefulness, one which old man Waterman never dreamed of, namely, smuggling liquor from place to place. Some students lay up a supply of Coco Cola to last them over Sunday in this way.

We cannot close up this artical without asking our readers not to hold this stuff against the Tar Heel. We clipped most of it from the N. Y. Tribune.

Athletic Notes

Far be it from us to question the motives of providence, but it certainly seems as if a divinity shaped the end of that Davidson game. There are those that are possessed of the belief that Davidson should have won. Perhaps! They didn't—the score was 10-6 and we had the long end, so why worry? Do we think those eleven fellows can do better? We refuse to give the secret away, but wait until the 18th, the 30th, and other future events.

A week from today the color-scheme artists of this institution of learning will see if twenty-two atoms of green can be placed in immediate proximity to each other and give White and Blue as the resulting colors. We wonder!

With no ceremonies, no wailing of mourners, nor even the conventional black ties have been in evidence about the campus, but rumor has it that class foot-ball has died, succumbed, and given up the ghost. Alas and woe that such should be the case. Perhaps it will be resuscitated after Thanksgiving. A lot of things may happen after Thanksgiving.

If we could have some pep at a football game like we had when we heard Wilson would rent the White House for another four years, perhaps we could help the team a little more. There are some who think it undignified to shatter the imposing side of Emerson Field with shouts and vociferations. It is a homely but very expressive way of showing one's feelings.

A gym "bull," gazing thoughtfully at the floor from the vantage point of a hand stand on the horse, gave as his humble opinion that the apparatus heroes of the Hill will clean up and otherwise deftat all aspiring opponents this year. We hope he is right.

C. H. S. IN RACE FOR STATE CHMPIONSHIP

The Chapel Hill Highs showed themselves to be strong contenders for the State High School football championship this year by defeating Cary High School 55 to 6, on Emerson Field last Saturday. Cary's only score came in the last quarter after Chapel Hill had sent in many substitutes. The local lads gained almost at will through the Cary line, and succeeded in completing several forward passes. Though the whole Chapel Hill team played good ball, the work of Tenney at fullback deserves special mention.

Cosby—"You're so knock-kneed that one of your knees says, 'You hit me and I'll hit you right back.'"

Kirven — "That's all right. You're so bow-legged that one of your knees says, 'You go your way, and I'll go mine.'"—Ex.

Premier Nikolas Kalageropoulos may yet make a name for himself—Judge.

Let the kiddies drink it — PEPSI-Cola! Gee! it's GOOD — when they come in hot and tired and thirsty on a summer's morning. Couldn't hurt 'em if they drank a gallon of it. And they sure will like that "tangy" taste of

PEPSI-Cola

—the healthful and DEE-licious drink for everybody who has a thirst! Why not tell your grocer: "A case of PEPSI-Cola"? Have it at home all the time.

Pages from Dr. Battle's History

On the 12th of December, 1842, the Board, on motion of Charles L. Hinton, enacted what was styled a "regula generalis" on the subject of secret societies or clubs. They were declared to be "not less injurious to the regular established Literary Societies in the University than to the cause of good morals and sound learning." The Faculty was ordered to suppress them, and authorized to receive no student unless on pledge of not joining any such association. This action was supplemented by the two societies, who entered into an agreement to fine heavily any of their members who should break this by-law. During my student life, 1845-49, I never heard of such a society in the institution.

The Trustees seem to have caught glimpses of unseemly conditions of the rooms of the students. The extraordinary resolution was passed solemnly requesting the Governor of the State to address them on the importance of neatness.

The Faculty were instructed to change the scheme of recitations so that each student should have sixteen hours per week and one at least every day. This included the Sunday recitation, which was compulsory.

It seems that the students had been making political speeches. A by-law was passed prohibiting speeches by them except in the Society Halls or in the performance of some literary exercise under the sanction of the President.

The two Societies petitioned for the abolition of Saturday recitations. The Faculty were authorized to grant the request, which was done on the agreement of the Societies to have regular exercises of their own on Saturday mornings. The reading of compositions and declamations was required, debates being on Friday night.

The representatives of Nash and Edgecombe counties met in the mission room of the Y. M. C. A. on last Thursday evening and organized a Twin County Club. The club begins its life with twenty-eight members, eighteen from Edgecombe and ten from Nash. Benjamin H. Thomas was elected president, W. L. Thorp, vice-president, R. E. L. Cook, Jr., secretary, and H. G. Smith, treasurer. A smoker will be held on Friday evening, November 17, in the Y. M. C. A.

OUT OF HIS LINE

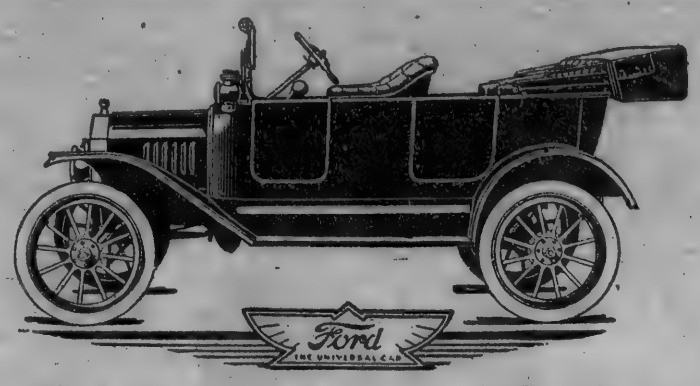
112 E. MAIN STREET

The University Sermon for November will be delivered on Sunday, November 19, at 11 A. M., in the Chapel by Rev. Thaddeus A. Cheatham, Rector of the Episcopal Church at Pinehurst, N. C.



Mr. Cheatham is an alumnus of this University, of the class of 1900. His church has the distinction of being the only one in Pinehurst.

The young man who serenades a girl with a mandolin these days is wasting his time. The modern girl has a better ear for an autohorn.—Ex.

COOK WITH 12 YEARS EXPERIENCE GUARANTEED SATISPACTION
N. F. EDGERTON, Manager.

Billie Polk was on the "Hill" Thursday morning.

"Who's that old peddler over there?"

"Oh, that's an economics prof. who took a flier in Wall Street."

Some men are hard drinkers, but others find it easy.—Chicago News.

It is best to avoid a break with a bad egg.—Wichita (Kan.) Beacon.

In the Phi Society Saturday night the query, "Resolved, That Capital Punishment Should be Abolished," was debated. The Negative won. Mr. W. H. Williamson made the best speech. "American commercial expansion in South America" was the subject for oration, and Mr. S. W. Butler was declared the best orator.

First Fresh—"What is Mr. Peacock doing up here?"

Second Fresh—"Taking medicine!"

First Fresh—"What's the matter with him? Is he sick."

Kansas University has just gotten a 50,000 years old tortoise shell in Phillips County, Kas., in the loup fork miocene strata for its palaeontological museum.

The United States is now making nearly all of its dye stuffs. This is what the magazine editors call local color.—San Francisco Bulletin.

Man who stole a meal in Milwaukee was convicted on the testimony of three ear witnesses, who heard him eating it.—Detroit Free Press.

Swain, '16, Law, was elected to the Legislature from Tyrrell County. He was the only Democrat on the county ticket who was elected.

Eugene Barnett, Carolina's representative in the foreign field, who, it will be remembered, made a visit to Chapel Hill last year and addressed the students, recently sent a memorandum concerning his work in China to the secretary of the Y. M. C. A.

OUR ATHLETIC ASSOCIATION ELECTIONS—FORUM SUBJECT

"In this period of transition from the lesser to the Greater University, there is one thing which should not be overlooked," said Hubert Smith in the Student Forum, Thursday morning. "And this thing is the obsoleteness of our present system of Athletic Asiciation elections."

"At one time not long ago the University was little more than an academic college with a few hundred students. Then there were few offices. Everybody knew everybody else. The whole student body could assemble in Chapel; and under such conditions the present plan of elections was all right. The politician then had a meagre chance, and the popular vote was secured.

"But no longer are we an academic college; the graduate and professional departments have increased in importance and size. Instead of a few hundred, there are now over a thousand students, and conditions have entirely changed. Now we hold our elections at Chapel period or in the afternoons. When they are held in Chapel the electorate is composed of 300 freshmen,—who cannot possibly vote intelligently—about 200 sophomores and juniors, few seniors, and no graduates or professional students. When the elections are held in the afternoons, it is extremely difficult to get a quorum, and as soon as the most important officers are elected, most of the students leave, thus destroying the quorum.

"Such elections are always unfair because the intelligent choice of the majority of the students is not voiced. They are inefficient because the best and most efficient men are often not elected. They are undemocratic because they are always controlled by a minority—and worse still, these elections are often corrupted by the politics of 'college parties.' An open field is opened to the politician, and any smooth-working political machine can, with 200 votes, easily sway an election as it sees fit.

"The system which I propose will not be a panacea, but it will remedy some of the present evils. I propose that we have polls established at convenient places on the campus, and that the elections be carried o nin a systematic manner. These polls will at least enfranchise the graduate and professional school who have been disfranchised by inconvenience. For my proposal all I ask is an intelligent consideration."

The girl of today is fond of needlework. She will run the graphophone for hours at a time provided she has a dancing partner.—Jacksonville Times-Union.

A negro was eavesdropped the other day when he was reading a big poster. Read he: "John Robinson, Greatest Sow on Earth Sept. 1." Said he: "John Robinson, Greatest Show on Earth, 'sept one—I reckin' that must be Barnum Bailey's."—Ex.

The Athletic Association gained two hundred and sixty-four new members on Tag Day.—Winthrop South Carolina, Weekly News.

Down Senior Way

In these days of classes which cover a book a day, when one buys books almost daily (except Freshmen who take three paragraphs per day) it might be considered quite in order to discuss books in even such an august column as Down Senior Way.

Of all the various books in the category of bibliography, from quiz-books, text-books, blank-books, Red Books, Blue Books, note-books, song books, memory books, there is not one so useless as the pocket-book. All books are useless to certain people, but pocket-books are useless to all people—especially students who have to indulge haevily in the purchase of other kinds of books. Assuming that one has money to carry, (and craving apologies for assuming such a purely hypothetical case), why should one carry it in a pocket book. The pocket itself will hold far more, and if a pocket were picked, the whole amount would probably not be taken; whereas if the whole amount were in a miniature wallet (and that would be the case with most of us) it could be easily extracted unnoticed.

But even this is not the only useless kind. A note-book is useless to a student who is dreaming the happy hours away on a 12:30, or a Greek book to a Freshman, or a quiz book to many-a-one who is supposed to know enough to fill it. Even more useless are the superfluous copies of congressional minutes, speeches, discussions, census reports, etc., etc., ad infinitum—to certain people. But certain people revel in searching into out-of-the-way statistics pertaining to anything from the number of pigs in the state, from the number of germs on the left little toe of a fly, from the number of atoms in a molecule, from the number of "e" endings in Chaucer, and from the number of Arthurian legends in Mediaeval literature, to the number and relative size of the most distant and invisible astral phenomena.

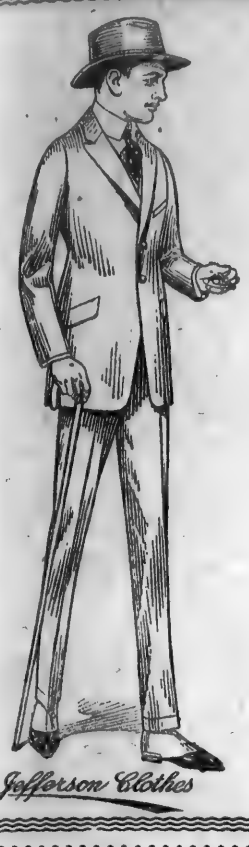
Therefore all books are useful if they are in the hand of the right person. If one doesn't care to study, read, peruse, or turn over its pages, one can sell it, throw it at the cat, let it fill up space on one's library shelves, let it catch dust in the attic, or send it to the orphan asylum, one can ignite the delicate fibres of its pages and thus still be comforted by the warmth thereof.

1.—"I always keep cool when I go to the theatre in the summertime."

2.—"How?"

1.—"Oh, I tell the usher to put me on the Z row."

"I don't believe owls love each other like other birds."



"Why."

"Because they are always hooting at each other."—Ex.

Victim—"What has happened? Where am I?"

Doctor—"You have been seriously injured in a trolley accident. But cheer up—you will recover."

Victim—"How much?"—New York Times.

BIG DANCE AT GYM TONIGHT

(Continued from Page One)

waited for their mail—then he could take a good rest. But he had to keep up a lively conversation on this, his last visit to his girl before he put his program into effect, and that dance had popped into his mind—well, perhaps it was for the best. How could a fellow expect to be arsenic with a lady without making some sacrifice?

He had been lost in these reflections while she went through the customary palaver. He aroused with a start just as she was saying for the tenth time—"and I'm just excited to death. Tell me all about it."

"Well, I hope it won't be that way this time, but last time there were so many stags that the girls looked like scared rabbits in a dog kennel. The most popular ones always had a pack madly pursuing them. Some of them tried dancing behind the line of scrimmage but this was soon gotten wise to.

"I didn't see but one gold brick there. After making six attempts and getting 'broke' on the first step I went over to the sidelines to catch my breath, and to get my bearings. I gazed upon the whirling throng and noticed one couple who danced serenely, right in the center of the vortex, apparently oblivious to the mad rush around them. Others bumped into their aggregate 348 lbs. (of which she weighed 250) and bounced off. She was calmly being engineered about; he was exerting himself to the utmost. I watched them ten minutes. He was upon the point of exhaustion. Here, at last, was a chance for at least one good dance. I elbowed my way to them. 'May I break? I says.' 'No thanks, we have just begun,' she replied, with a sweet smile through her perspiration—'Oh!'

"With that I began to feel like a Hughes man when the returns came in. I turned about kind of savage and grabbed a young man by the shoulder. 'Allow me—' 'But this is my dance.' 'That's so? Why you're not even fooling yourself, young fellow. That's the way jokes get started around here.' I looked him square in the face, and recognized—my English Professor."

"Goodness! I hope this dance won't be like that."

"No, I don't think it will. There are only a limited number of dress suits in college."

"You haven't told me who is giving it."

"It's a pan-hellenic, given by the fraternities complimentary to the two teams and the University, in the gym." Here the conversation veered back to where it started.

But why speak of love when there's work to be done? We've got four classes in the morning.

BASKETBALL LEAGUE WILL BE ORGANIZED

(Continued from Page One)

Sheppard, Cuthbertson, Buzz Tennent, Fitzsimmons and Blue are members of last year's squad who will be out for the team. Carrington, a former Carolina student who is now in the medical department, and J. James and McDuffie, two new men, will bid for a position. McDuffie has made quite a reputation as a forward previous to his arrival here. It is also rumored thath Johnnie Johnson will return after Christmas.

Commons Hall will be open Monday for just practice. Only those clad in basketball clothes will be permitted to play on the floor.

There will be no varsity games before Christmas but a strong schedule will be marked out for January, February and March.

CAROLINA AND VIRGINIA FRESHMEN MEET TODAY

FIRST OF ANNUAL ENCOUNTERS BETWEEN FIRST YEAR MEN ON EMERSON FIELD

BOTH TEAMS ARE ABOUT EVEN

The first of the annual clashes between the freshmen of Virginia and Carolina will be played here today. This game inaugurates a series which in miniature, will be the replica of the big game.

The Virginia Freshmen have a good team. The average weight of the first eleven is 165 lbs. The back field averages only about 150 lbs, but they are fast. The heaviest man is Thompson, right-tackle, who weighs 210 lbs. Dechert, quarter back, weighs only 139. The ends average 154.

The Virginians have only been up against the various prep schools of the state—but some of those schools have strong teams.

The Carolina Freshmen have been showing great form in the latter part of the season. Starting very inauspiciously with a 0-0 game with the Charlotte Highs the Freshmen have steadily improved until now they present a very formidable aggregation. The last two games have resulted in a 44 to 0 win over Guilford College and a 52 to 0 win over Chapel

(Continued on Page Six)

TAR HEELS WIN FROM 46-0 FURMAN COLLEGE

With the second string back field and Currie at center the Carolinians hit a stride against Furman which shows they are in line for the big game Thanksgiving. The final score was 46 to nothing.

Coleman, Black and Jennette carried the ball at will—seldom failing to gain substantially. Jennette, at quarter played a wonderful game. Some of his broken field runs were the best seen on the home grounds this year. Recovering a ball which was thrown out of his reach he ran through the whole Furman team for a touchdown. Coleman intercepted two forward passes in midfield and ran for touchdowns. At times Black and Watkins would plough through the lines for first downs.

The line was practically inpenetrable—and Furman only made three first downs.

Just after the last quarter had started, the regular back field, Folger, Tennent, Williams and Bellamy, began to warm up on the side lines. Without the signal of Si Parker or the suggestion of anyone, the whole student body anyone the whole student body rose up with an enthusiasm which alone could come from a school behind its team.

For the remaining ten minutes of play the Carolina Varsity displayed a machine like offensive which won the admiration of all present. Grimes and Tennent ran interference which time after time gave Folger a clear field for goal. Love, at end, played a star game often stopping a line plunge from behind.

The whole team starred.

VARSITY SQUAD

REPRESENTATIVES CHOSEN FOR N. C.-G. W. DEBATE

R. M. ROSS AND H. D. SHARPE SELECTED TO UPHOLD CAROLINA SIDE

R. M. Ross, Jr., and H. D. Sharpe were chosen Monday night to represent Carolina in the coming debate with George Washington University. The query was, *"Resolved, That Congress Should Pass a Law Requiring Compulsory Arbitration of all Controversies Arising Between the Enployers and Employees of Railroads Engaged in Inter-state Commerce, Constitutionality Waived."* Carolina has the affirmative.

The judges for the try-out Monday night were, N. W. Walker, Francis Bradshaw, Professors L. P. McGehee, H. M. Wagstaff, Horace Williams.

The final debate will take place in Washington, D. C., on December 18.

Other men who entered the preliminary were Hyatt, Edney, Williams, Stell, and Duncan.

What's to Happen and When

Sat., Nov. 25—Carolina First Year Reserves vs. Virginia Reserves, on Emerson Field, 3 o'clock.

Sun., Nov. 26—Dr. F. M. Seerley speaks in Gerrard Hall at 7 o'clock P. M.

Mon., Nov. 27—Pres. Graham in Chapel.

Latin American Club meets at 7 o'clock in Y. M. C. A. Frank Hackler leads Y. M. C. A. discussion at 6:45 o'clock.

Tues., Nov. 28—S. I. Parker, cheer leader, in Chapel.

Train leaves for Richmond at 9:30 o'clock P. M.

Thurs., Nov. 30 — Thanksgiving. Carolina vs. Virginia in Richmond. Continuous Report in Chapel, 3 o'clock.

Fri., Dec. 1—Music in Chapel.

Dr. F. N. Seerley speaks in Gerrard Hall, Sunday at 7 P. M. on sex hygiene. As a lecturer on this subject Dr. Seerley has gained a wide reputation in colleges and universities of the South.

Secretary E. R. Rankin, of the High School Debating Union, announces an enrollment up to date of 200 schools. Fifty schools have been added to the list during the past week.

NEXT THANKSGIVING GAME STAGED ON EMERSON FIELD

VIRGINIA-CAROLINA FOOTBALL CLASSIC COMING TO HOME SOIL

It's up to Richmond to make the most of the Virginia-Carolina Thanksgiving game November 30, for it's the last she's to get for many a year to come—probably the last she'll ever get. Next year the game will be played on Thanksgiving, as usual, but on Emerson Field at Chapel Hill. This announcement was made by Graduate Manager of Athletics, C. T. Woollen, of the University, Saturday.

This will be the first time Carolina and Virginia have met on a North Carolina gridiron. All except five of the interstate series, which was begun in 1892, have been played in Richmond. Now the game is to be played one year in North Carolina on Emerson field at the University, the next year at Charlottesville on the Virginia grid.

And so the consummation of the desire which has long been entertained by faculty, alumni and students to bring this game of games to North Carolina soil for at least half the time has been reached. For some time Virginia, too, has been desiring to play the game at Charlottesville instead of at Richmond; but of course until North Carolina could be given the same advantage of a home audience neutral territory was more desirable all the way round.

As hundreds of the interested in the game go, even to Richmond,

(Continued on Page Six)

THE NORTH CAROLINA CLUB HOLDS REGULAR MEETING

At the regular meeting of the North Carolina Club Monday night, J. A. Capps read a very interesting paper on "Factors in Accumulating Farm Wealth in North Carolina." He pointed out the respects in which the Southern farmers have fallen behind those of the Middle West in the accumulation and retention of wealth, and offered suggestions as to how these conditions might be changed.

A heated discussion ensued as to whether the cotton-belt farmer is justified in raising cotton alone, while he buys from an outside source all his food and feed-stuff. So much interest was manifested that it was decided to have a regular debate on the question at the next meeting two weeks hence.

TEAM PREPARED FOR THANKSGIVING GAME WITH VIRGINIA AT RICHMOND

Coaches---Players---Students and Alumni are all Confident of Victory

DR. SPINGARN LECTURES ON LITERARY CRITICISM

Advanced students in English have done more "real thinking" during the past week than in all the rest of their lives, and for the first time have acquired "points of view" as a result of a series of lectures by Dr. J. E. Spingarn, formerly of Columbia University, here each afternoon this week. Literary Criticism was the general topic, and Dr. Spingarn traced it from Greece to the present as follows: (1) Criticism in Greece and Rome, (2) From the Middle Ages till the Eighteenth Century, (3) The Romantic Period, (4) The Nineteenth Century, (5) The New Criticism.

It was in the last lecture on Friday that Dr. Spingarn, after tracing the history of criticism from Aristotle, through Horace, Boiltan, Croce, Schlegel, Coleridge and others, gave his own modern conception of criticism.

"We have done with all rules," he said, "we have done with the slicing of literature into compartments marked comedy, tragedy, etc., we have done with abstractions and technique as separate from the art itself. Aestretic judgment and artistic creation have become one and the same."

The seminar was given especially for candidates for Honors in English and was in line with the new work being done this year by the committee on degrtes with Distinction.

CHARLOTTE AND WINSTON PLAY ELIMINATING GAME

The high school football championship of western North Carolina will be decided on December 7 when the elevens of Charlotte and Winston-Salem meet at Davidson College. The eastern championship is, as yet, undecided. Releigh, Kinston, Chapel Hill, and Goldsboro have all been victorious in their preliminaries and are still battling for first place. On December 9, as a climax to this state-wide contest, teams representing the two divisions of the state will clash on Emerson Field for the high school championship of North Carolina. Raleigh and Charlotte, whose teams contested in the final game last year at Chapel Hill, are again in the thick of the fight for the big football honor.

The Y. M. C. A. discussion for next week will be led by Frank Hockler on the subject, "The College Man and Efficiency." This week's meeting will be held on Mandoy night at 6:45 instead of Tuesday.

The last official announcement from the Registrar's office brings the registration number up to 1162.

A REVIEW OF THE SEASON SHOWS DEVELOPING TEAM

IS FIRST TIME IN YEARS THAT EVERY MAN ON SQUAD IS IN CONDITION

For the first time in years the team is in perfect condition for the Thanksgiving game. Not a regular has been seriously hurt during the whole season. Last year Parker, Townsend and others were out of the final game on account of injuries. This year the team has been up against stronger opponents than ever before. Harvard, Princeton, Georgia Tech, V. P. I. and Davidson have teams this year which stand near the top of Efficiency's list. From these games Carolina has emerged each time with increasing strength.

The Tar Heel takes this occasion to review the seasons record in detail.

With the festivities at Richmond but a few days off, Coaches and men are putting everything they have into removing the rough edges and putting on the finishing touches that will mean touchdowns on November 30. From three o'clock until the stars come out the team is working on Emerson Field. All the work of the season

(Continued on Page Three)

ARE YOU IN FAVOR OF MILITARY TRAINING HERE?

The question of miitary training for college students, which has been so widely discussed in recent years among the colleges and universities of the country is to be brought before the student body of the University during the next few weeks. In order that those who favor the introduction of a military training course into the University curriculum may have an opportunity of expressing their desire, a petition is now being circulated by Carolina's representatives at last summer's training camp at Plattsburg, which reads as follows:

We, the undersigned, desire to take a course in military training in this University.

It is our understanding that more than 3 hours a week will not be required; that such course will be similar to those now given in other Universities such as Pennsylvania; and that membership in any such training unit does not bind us to the government in any legal manner.

In signing we do not commit ourselves, should the schedule of work seriously affect our present work, or should the burden of expense prove too great.

No signatures for this petition are to be solicited. The men who prepared the petition are anxious that the signing of the petition shall be the voluntary expression of a genuine desire for the adoption of a military training system in the University.

If you have yells to yell prepare to yell them now.

Some men's idea of getting behind the team is to get so far behind that they would have to use an astronomical telescope to see it.

Here's hoping that the men of the Tar Heel State will be the one's to take the mon out of Richmond Thursday night.

When Vanderbilt played Virginia the "Vanderbilt Hustler" said: "There are 22 reasons why Vanderbilt will beat Virginia Saturday. We have eleven of them and Virginia has the other 11. If the Carolina student body supports our team as it deserves, there will be 22 plus 1200 reasons why Carolina will beat Virginia Thanksgiving.

Bernard Shaw says that the Golden Rule in morality is that there are no rules. Professor Spingarn announces that the Golden Rule in art is that there are no rules. Yet morality and art are not alike,—as a rule, we mean, although we don't know what we do mean.

Let us proceed, young gentlemen, to take our departure determinedly, energetically, fearlessly, and as a homogeneous entity, to, or in the direction of that metropolis, formerly the capital of the Confederate States of America. In other words, On to Richmond!

THE QUESTION AND THE DOPE

Will Carolina win from Virginia Thursday?

Although, in football, as we know, figures have no scruples against lying, still they tell the truth the majority of the time. And such as they are, they seem to side with Carolina this year.

Carolina has scored 127 points this season; her opponents, 93. Virginia has scored 106; her opponents 165.

This gives Carolina 34 points to the good; Virginia 59 to the bad. It also gives Carolina an average of about 16 points scored per game, her opponents about 12. Virginia has an average of 13, her opponents 21.

Virginia and Carolina have both played only these three teams; Harvard, Davidson, and V. M. I. The comparative scores are as follows:

Harvard 21-Carolina 0; Harvard 51-Virginia 0.

Carolina 10-Davidson 3; Virginia 14-Davidson 0.

Carolina 38-V. M. I. 13; Virginia 20-V. M. I. 7.

These comparative scores undoubtedly favor Carolina. The results, however, of all the games played by both teams this season serve to even things up again. Both Carolina and Virginia have played eight games; each has won four and lost four; each has shut out her opponents twice.

But a glance at the scores in the individual games will shift the odds back again to U. N. C. The highest score made against Carolina this season is 29, by Princeton; the next highest, 21 by Harvard. The largest score made by Virginia's opponents against her is Yale's 61; next largest is Harvard's 51.

Carolina's highest score is 45, made against Furman; her next highest, 38 against V. M. I. Virginia's highest is 35, made against South Carolina, which Wake Forest defeated 43 to 7. Her next highest is 21, made against Richmond College.

Throughout the season Carolina has been doing her most effective work in the second half. In those last two quarters she has collected 89 of her 127 points. And it is a remarkable fact that only once during the whole season has she been scored on in the last quarter, shutting out both Princeton and Harvard then. Carolina's opponents have made only 34 of their 93 points in the last half, that is, only about one-third.

Virginia, on the other hand has done her best work in the first half and has generally weakened in the second.

And so it is all settled, we have already beaten Virginia; the figures have proven that we'll win in the second half, and accordingly all we have to do is—nothing?

Not on your life, it isn't! The figures won't win it for us.

But we will win it for ourselves, if—

If the team gives Carolina the best it has got.

Which it will undoubtedly do.

And if You, You Yourself, give the team the best you have got! your unshakable faith in their ability, your enthusiasm, your unselfish support—and let them know that you're giving it?

Will you?

LET THE TEAM KNOW IT

It's not a question of supporting or not supporting the team. We're all backing the varsity.

It's a question of how strongly you are supporting it,—of how greatly you desire the team to win and how much faith you have in its ability. That is the important thing.

And the pratical and necessary thing is that you make known to the team your desire and your faith.

Of course, your hope and belief in the members of your team, if unexpressed, can't make them play any better. But their realization that you feel that way can, and will cause them to put forth Thanksgiving, if necessary, even that supreme effort which enables men and teams to do better than their best.

Does the team realize perfectly that the whole University is supporting it with all its heart, from resident Graham to Henry, the janitor,, from the Carr Building to the New Dorm? It may reasonably suppose it, but it can hardly completely realize it until we all somehow prove it.

Some members of the team, we are afraid, feel that the Tar Heel has not been giving the team its warmest support. Yet it is inconceivable that the Tar Heel should give any less than that. The Tar Heel is the official organ of the Athletic Association, the team is the official representative of it; the two are inseparably bound together No organization has the good of the team so close to heart as the Tar Heel. Every deliberate statement in it concerning the team has been made for the good of the team And it is precisely because the Tar Heel has had, and still has, the greatest faith in the ability of the team and the greatest desire to see it do its best brilliantly, that it has said some things which have been misinterpreted as being contrary to the spirt of true support. Nothing could be so foreign to its intention as injuring the team's efficiency. So much for that.

If our team realizes that every man in the student body is supporting it—and by "supporting it" we don't mean saying, "Well, I hope we'll win," but really supporting it actively, earnestly, faithfully and unselfishly—if it realizes that the student body is giving it this kind of support, then it will play in Richmond as it could not play otherwise and will be enabled to overcome any opposition.

You must make the team realize that this is the sort of support you are giving it.

How are you going to do it?

Manifestly, not by putting up any amount of coin and not by telling the individual members of the team "Old man, you're just got to win." But by following loyally and without fail the wishes and instructions of the coaches and cheerleaders.

When the cheer-leaders say they want everybody at a certain place at a certain time, whether it be the well or the Jefferson then be there whether it suits your plans or not. When a yell or a song is called for give it with all you've got of loyalty and pep.

It's not a question of supporting the team. It's a question of how intensely you are supporting it and how clearly you are making your support known.

DR. HERTY SPEAKS AT CHAPEL

The crowded Chapel on Tuesday and Wednesday mornings of this week was sufficient evidence of the popularity of Dr. C. H. Herty as an interesting speaker.

On Tuesday morning he spoke of the great revolution in the manufacture of nitric acid which chemistry has brought about in the last few years. Until a short time ago the world's supply of the acid was derived from the Chilean nitrate beds; but since the war has shut off the warring countries from this natural deposit, they have been compelled to resort to other sources for the enormous quantities of nitric acid needed in the manufacture of high explosives. So they have utilized the recently discovered process of obtaining it from the air. Faced by the possibility of ourselves being cut off from the Chilean beds, the U. S. Government has recently appropriated money for the erection of plants for obtaining the acid from the air.

On Wednesday morning Dr. Herty told a very interesting story which he chanced to hear recently in New York while in conversation with a New York attorney. This lawyer happened to be Sherrill, the world-famous runner of Yale. When he entered Yale he had never seen a spike running shoe. Through the influence of one of the track team, who stumbled upon Sherril through mistake, he was induced to come out on the track. He was green and untrained, but in just three weeks he broke the world's record for 100 yards, then the 220 record, then the hurdling record and on until he became the world's biggest figure in track athletics. "Who knows," said Dr. Herty, "but that we have men like Sherrill right here at Carolina, who only need to make the start."

MR. R. H. THORNTON SPEAKS AT THE Y. M. C. A. MEETING

The value and necessity of acting without certainty of accomplishing a desired result was the theme of Mr. R. H. Thornton's talk at the regular weekly Y. M. C. A. meeting at Gerrard Hall on Tuesday night. Quoting as the summary idea of his speech the Scripture verse, "He that observeth the winds shall not sow, and he that regardeth the clouds shall not reap," he discussed with great emphasis the value of taking chances. "The merchant," said he, "when he sends a cargo to sea, has no definite assurance that it will be landed safely on the other shore, but yet he is willing to take the risk. In like manner, we must be willing to boldly enter into an undertaking without too much consideration of its probable outcome, if we are to accomplish anything worth while."

At the conclusion of the talk a quartette composed of Messrs. Spaugh, Howell, Gwaltney, and Spain rendered a selection.

Marvelous facial surgery in the war zone ought to prompt some men to enlist.—Washington Post.

Merchant—"How did you ever get Mrs. Dedbete to pay that bill?"

Collector—"I offered her trading stamps with the receipted bill."—Judge.

A REVIEW OF THE SEASON

(Continued from Page One)

is being carefully, though hurriedly, gone over, and Carolina is being tested with the same care one would give to the most delicate machine. The simile is not, however, appropriate, for the varsity is by no means delicate.

Called to the Hill a week before the first day of registration the squad has been working without a break ever since. No team before has kept the pledge so well or the close comradeship and secrecy of the dressing-room so intact as the team of 1916. The coaches, handicapped though they have been by lack of men, have so distributed and trained the available material that the team which will face Virginia when Berry blows his whistle will be one of the best Carolina has ever sent into a fight.

Those fellows have had many discouragements. Starting of the season with Wake Forest they were not able to win with as large a margin as many wished. Next came the invasion of the east—two

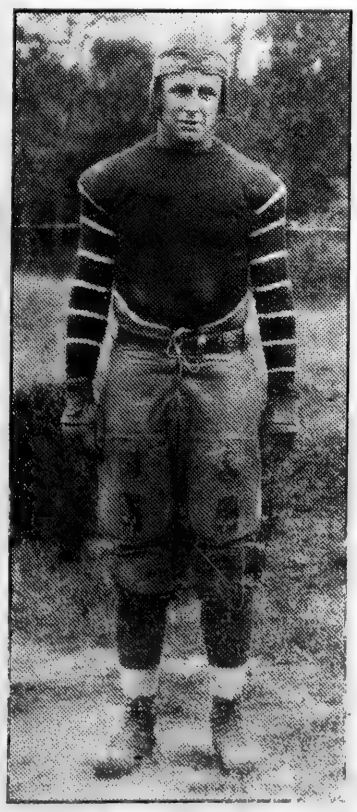
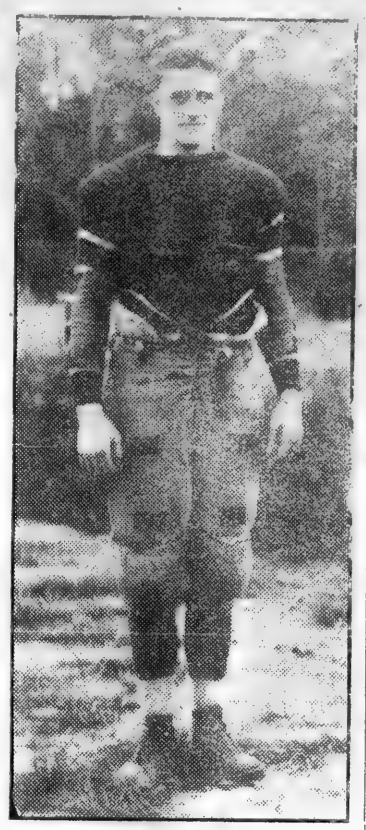
1915	14	0
1916		

3 games played in Norfolk; 1 in Charlotte; 1 in Atlanta, rest in Richmond.



STATISTICS OF THE TEAMS SHOW INTERESTING FACTS

Virginia's statistics are given in the box above. This is the line-up they will probably start off with. When a sub-fullback is needed Thurman will probably take Captain Sparr's place on the strength of the game he played against V. M. I. Gooch will probably replace Russell before play has gone on long, as both last season and this he has shown himself to be a clever back, fast on his feet.



The Virginia team, as a whole, is pretty green, only five men having ever been in a big game before. The team is below the usual standard turned out by the Virginia coaches, but it has been gaining strength with every game. It's slashing finish against V. M. I. when they made two touchdowns in five minutes showed much reserve power. In an effort to find the right men for the right places Coach Evans has been continually shifting the players. This has to a certain extent retarded the development of the team, for even some of the veteran players have been subjected to changes while the coaches were seeking material to close the holes left by graduation.

The average age of the Virginians is close to 22. As can be seen by the statistics the line is tall and rather heavy. The probable quarter, Wagenknight, is unusually light. The line averages 178, and the backfield 155½.

The Virginia team is in good condition. Wagenknight, who had a sprained ankle, is well again and all the team have recovered from injuries received at Harvard.

JOHN C. TAYLOE

"BILL" FOLGER

WHAT OTHERS SAY ABOUT OUR TEAM

"Stories of eye-witnesses and press accounts in the Atlanta papers of last Saturday's Atlanta melee show that Coaches Campbell and Cowan still have the major portion of their work cut out ahead of them in that they are yet to develop an effectual offensive. The account received by this paper Saturday night announced that Carolina had the better of the argument in the latter half—but a play-by-play detailed account of the game doesn't show it. This account, however, does show that Bill Folger is one of the best backfield men now operating in this Southland of ours. During the game, Tech made seventeen first downs to Carolina's fourteen. Both teams registered two first downs as the result of penalties. One Atlanta account chronicles that "Folger was the only ground gainer of moment on the Tar Heel side. He registered the first down the Tar Heels made. He reeled off 12 yards on this run. Then he sprinted 20 and 25 yards later in the game, repeatedly making 5 and 6-yard gains in the interim. Later in the game he hurled three successful forward passes for nice gains, the first one putting his team in position to score their lone touchdown. Added to this, he played a splendid game on the defensive and punted excellently, getting better distance than the Tech punter, after Strupper left the game. His punts were so placed that but three of the entire number were caught by Tech receivers. It was a treat,' continues this article, 'to see this big fellow in action.' Eye-witnesses bring

(Continued on Page Four)

WHAT'S TO HAPPEN AND WHEN—IN RICHMOND

Leave Chapel Hill 9:30 P. M. Wed., Fare $3.00.

Arrive in Richmond 8 o'clock Thanksgiving morning.

Mass meeting at Jefferson Hotel at 10 o'clock—band concert—general get-to-gether meeting of alumni and students.

Reassemble at 12:30 at the Jefferson to march to ball park. You will save time by walking—and make it possible to consolidate all Carolina rooters. Ticket $1.50 Get it here.

Game starts at 2:30—after that keep your eye on Si, stick together and stand by the team.

Reasemble at Jefferson Hotel at 7 o'clock—to meet team and Carolina supporters.

Dance at 9 o'clock.

Leave Richmond for Chapel Hill 11:00.

Arrive in Chapel Hill just in time to get on an "8:30" after a peaceful nights ride in the day-coach.

A rumor has floated to our editorial ear that boxing will soon start in the gym. Whether the rumor is false, we cannot say. It was popular last year. Why not this?

The members of the band are as follows: cornets, I. F. Parker, C. R. Pfaff, and H. Z. Warren; altoes, D. P. McKinnon and H. Z. West; baritones, H. W. Prince and H. D. Sharpe; trombones, C. B. Landis and F. E. Carlyle; clarinet, T. E. Rondthaler; basses, T. E. Wright and J. E. Harris, saxophone, I. H. Lutterloh; drums, J. Y. Jordan and J. S. Howell.

GRAHAM RAMSEY

RABY TENNENT

BAND TO ACCOMPANY TEAM

"Will the band go to Richmond?" The first great burst of enthusiasm will be heard when it strikes up "Hark the Sound" in the Jefferson Hotel at ten o'clock Thanksgiving morning. Here the band will give a concert at which every true Carolina man will be present. Si Parker's big voice will lead his cheerers with the big "Split Carolinas, Sirens, etc.," between the intervals of the selections, and a general pep meeting will be held to let Virginia know that w eare in town.

At 12 m the band will again meet to lead the long parade of Carolina men, who will morch to the game.

The band, which will be composed of about twenty men, will probably be the best that the University has even sent to Richmond. Manager J. Y. Jordan has busied himself for the last week getting more members, while Director J. Earl Harris has had daily rehearsals. Jordan has selected a programme of new and snappy music which will arouse even the composed Senior to enthusiasm.

A REVIEW OF THE SEASON

(Continued from Page Three)

hard games such as have never been attempted by a Tar Heel eleven so early in the season. And neither team was too much for us. The scores do not tell the tale. Princeton made 29 points to our none. Our team, suffering a little from stage fright, perhaps, did not start well, but in the latter part of the game they showed the old Carolina fight. At Harvard a similar spectacle was staged, but Carolina, though beaten, was by no means licked.

Georgia Tech., a seasoned, well-working team, came next. Outweighing us and perhaps knowing more football than we, the first half was played with Tech a stride ahead at every turn. But when the White and Blue really started in the second half, something snapped, and for the two subsequent periods Tech was swept off their feet, Carolina backs gaining almost at will. Time and again we ploughed through their line, and with victory in sight we were stopped by the final whistle.

In the V. M. I. game the great playing of Bertschey saved the Cadet machine from a shut-out. Carolina seemed at last to have found her stride, only to lose it again at Roanoke, when in a hard fought game Poly won 14-7. We went into the Davidson game with the odds 3-1 on Carolina. The scrappy collegians came a little ahead of expectations and gave us one of the closest games of the season, making three more first downs than the Varsity. Furman came last, a week ago, and with a second string backfield for three quarters we carried the little fighting team from the palmetto state off their feet. The scoring was continued with even greater vigor when the Varsity backs invaded the enemy in the last quarter.

And now nothing can be seen but a chance to down the wearers of the "V." We know all about what people are saying about Virginia not being up to their high standard, while the Tar Heels are at top-speed. We have a line now that can hold its own with any in the South, and eight almost interchangeable backfield men who can be counted upon to do their best to advance the ball.

Carolina, as far as scores are concerned, has perhaps not fulfilled hopes entertained by students and alumni at the beginning of the season, but loyalty through it all has felt a reserve power, and the student body is placing its confidence in the coaches and team and is feeling its confidence to be rightly placed. More than ever before, the student body seems to be behind the team.

The coaches have as yet not decided who will start the game. This question will probably not be fully determined upon until the team is dressed for play at Richmond. Even the men who are to go upon the trip cannot be discovered, but it is certain that all who have worked hard all season and have shown any promise at all will be given the trip with the team. While at Richmond before the game all thoughts of the contest will be driven from the minds of the players, so that they can start off with both minds and bodies fresh.

WHAT OTHERS SAY ABOUT OUR TEAM

(Continued from Page Three)

back the tale of no interference—Folger making the majority of his gains from punt formation. This big fellow is a star of the first water, Raby Tennent seems to be fast rounding into an excellent back—but the coaches have their jobs cut out ahead to bring the rest of the team up to the standard of these two.

"But while we attempt to map out the job ahead of N. C. coaches, we may as well come along and tell the rest of the story. In the past two or three years, Carolina has admittedly had the best football material of any nearby school. 'Better material than the University of Pittsburg,' stated one of the temporary coaches and Pitt. was just then awakening from a long period of inactivity and slothfulness. But the coaches were unable to develop the men. Compare this year's N. C. eleven to last year's. Carolina last year returned practically all of her varsity men. This year she returned but five and was not permitted to use freshmen—from which a major of Carolina's strength has come in the past. Georgia Tech beat Carolina last year 23 to 3—and the material was excellent. Georgia Tech beat Carolina this year 10 to 6—and the material was admittedly the poorest in years. Bill Folger was the only newcomer—and Carolina lost such stars as Roy Homewood and Dave Tayloe and Fats Cowell and Boshamer and McDonald and Gay and Meb Long and Jones and Goat Wright. The material this year was the same as last plus Bill Folger and minus about ten stars—yet Georgia Tech had the scrap of her life this year—with easy sailing last. Too much cannot be said of the work of Campbell and Cowan and Homewood and the rest. They have conditioned their charges, they have disciplined them, they have worked wonders. With the material of last year or the year before back and with Campbell and Cowan and the rest in charge, we dread to think of what Carolina would just now be accomplishing on the gridiron.

"As has been said often before from these quarters, Carolina's present team was drafted from four old men and seven substitutes. The advance has been marvelous and increasingly noticeable in every game played. Coaches Campbell and Cowan have the confidence of the whole student body, and it is freely predicted here that in two weeks time the state championship will be won, and that on Thanksgiving Virginia will meet her first Carolina defeat since 1905.

J. R. PATTON GIVES "PEP" SPEECH AT THE FORUM

"This year's team is a truly representative one, representing the product of energy, perseverance, and hard work on the part of coaches and players" declared J. R. Patton in his pep-reviving speech at the Student Forum Thursday morning. "And we should show our appreciation by lending our best Carolina spirit. When Wilson was elected we show our enthusiasm by yelling and burning bon-fires all night, but when our team is victorious we take it as a matter of course.

"By nature we are all athletes, and this athlete in man must assert itself. It does so, and its main channel of expression in is co-operating with the team. It is this spirit which has the greatest influence in piloting a team to victory.

Then J. R. became poetic and turned loose the following amid the uproar:

"They say that Coleman is a cat,
and Sparr he is a bull,
And they've got that bear Thurman back now playing full
And in fact the whole blooming
team is one of uhblemished fame
So why don't we use good common sense, and just cancel that old game

And then it came my time to answer, argument so logical and fine
I don't know how many wild animals we've got, but Carolina for mine.
We're all going to Va., and we're
going there to win,
And when we get through the fur on Va's back is going to be mighty thin."

MOTHER SAVES ENTIRE FAMILY

They were driving along a hot, dusty road, trying to keep cool in the breeze made by the car when, "bang! cis-s-s," went a tire.

"Oh,—!" said the husband, "twenty miles from home and not a house in sight. It's hotter than the stoke hole of a steam ship and I'm as dry as a ship-wrecked sailor. I could stand for the tire if I only had a drink. Oh,—!"

"Careful, John," interrupted the wife, "you are not setting a very good example for the children and talking will only make you thirstier."

"It can't," grumbled the husband, "nothing can make me thirstier. I'm so dry I'm beginning to warp. I tell you I could drink four gallons of last year's ditch water and die happy. Sands of Sahara! I'd give a dollar for anything that's wet."

"You would, would you?" inquired the wife as she hesitated for a moment in her fishing around for something under the seat. "Well, just you hand over the dollar, please, and you'll get something that's worth it. Here's a whole bottle of Pepsi-Cola for each of us."

"What, Pepsi-Cola!" children and father shouted at once, "hurrah for mother!"

"That's the real stuff," went on twelve-year-old John, Jr., "it makes you feel better than a swim in the creek. It was easy to cut the grass after you gave me that bottle of Pepsi-Cola this morning, mother."

A CHESS CLUB ORGANIZED

The chess players of this community met in the parish house of the Chapel of the Cross last Saturday night to form a Chess Club. There were several members of the faculty as well as students present. Mr. Bobbie Welsh is the leading spirit and probably the best player in the circle. The club will meet every Saturday night, and will play from 8 till 12 o'clock.

It may be of interest to those interested in what the University men have been doing in various fields to know that "Sig" Lindau, '14, made the Cornell chess tournament and won in the finals. He also won his game against Harvard.

Anyone who plays chess or who desires to learn the game will be welcomed at these meetings.

Some of those present at the first meeting were: Dr. Henry, Dr. Hanford, Dr. Bell, Mr. James, Mr. Lasley, Mr. Keyes, Mr. Harrer and Welsh, Harding, Harris, Lindau, Kittrell and Ellington.

PRELIMINARY CROSS COUNTRY RUN HELD

Out of the dozen men who tried out in the preliminaries Monday afternoon for a place on the cross-country team the following were successful: L. M. Upchurch, first; F. B. Nims, second; W. A. Gantt, third; J. C. Bynum, fourth; and J. T. Totten, fifth.

These five men compose the Carolina team who will participate in the four-mile state cross-country run at A. & M. on Saturday afternoon, November 25. The other colleges who will enter teams in this race are, Davidson, Wake Forest, Trinity and A. & M.

The time made in the preliminaries was nothing extra, Upchurch winning it in 24 minutes. In the other preliminary held a week ago he made it in 23:15, and at that time H. A. Scott, who came out sixth Monday, made better time than Gantt did in winning third place in the last preliminary.

In the State cross-country run held in Chapel Hill last year Upchurch and Rand won first and second places for Carolina. In so doing Upchurch broke the State record for the four-mile run, making that distance in 22:15. The Carolina team will no doubt make an equally good time in this year's race, or at any rate will speed up sufficiently to land first place.

She reached San Francisco after dark, and was met by friends who motored her to their country home on a hillside.

The next morning she walked out onto the breakfast porch quite prepared to be astounded with the grandeur of California. Down an avenue of tall trees she caught a glimpse of sky-blue water.

"That," replied her hostess, a bit proudly, "is the Pacific ocean."

"Oh! I had an idea it was larger."—Harper's Magazine.

Just Gossip

The dance last Saturday night was a decided success, for the girls at least. Both of them were extremely popular. It was almost a stag dance.

At any rate it accomplished some useful purposes. We all enjoyed a week of very pleasant anticipation, which we could not otherwise have done. And they say anticipation is greater than realization. Then, too, it was the first full dress affair of the year, and it gave the Sophs a chance to become accustomed to their coat tails before the big game.

The music was fair, and for once there was plenty of room, too much room. A casual visitor at the gym would hardly have been aware of the fact that a dance was in progress, for most of the boys gave up trying to dance after the first few moments of play, and took to punching the bag as a less violent form of exercise, and pulling weights,

Among the visitors were: Misses Katherine Crews, Naomi Alford, and Marian Baer, of Raleigh, Miss Towles, of Charlottesville, Va., Miss London, of Pittsboro, Miss Davis, of Greensboro, Misses Barton and Wilson and Mrs. Pierson, of Chapel Hill.

N. B. Broughton, of Raleigh, has recently been initiated into Sigma Chi.

Athletic Notes

Prophetically speaking we don't know a thing about what will happen when we hitch up with our friends the enemy. If we did we wouldn't tell and spoil all the fun. Those of us who are not permanently hoarse from our efforts at the various "pep" meetings and private dilations upon our chances pro and con upon that Turkey Day classic will undoubtedly rend the skies with various breeds of yells when the final quarter is over. This year the "million dollar mystery" will be solved—tardily, perhaps, but nevertheless solved for all time. Of course it may all turn out different from what we expect. The faculty may also decide to let us all pass on exams. We mean no offense by the comparison.

No one that we have heard of has sprained a neck dodging betting offers, and the medical force pronounces the student body to possess the faculty of untroubled slumber. Whence, then, this perturbation?

The track season has started with a flourish of spike shoes and dirt. Messrs. Upchurch, Nims, and Gant seemed to experience no physical or mental discomfort in winning in the order named from a more or less promising field.

Dr. Herty's talk in chapel seems to have influenced many people to try their hands at Basketball. Many, who would no doubt still have continued their exercise of imbibing black cows and nicotine, are flirting with the festive horsehide on the floor of old Commons every afternoon, said floor being hardly visible because of the multitude of feet present on its oily surface. We hope the new athletic germ will develop into a healthy disease and not a plague.

We are going to feel lost at first when we discover Emerson field, after the 25th, bare of moleskins, but no doubt Coach Peacock will provide sufficient amusement for the restive athlete. A man can certainly take a lot of trouble and worry upon himself trying to throw that ball through a ring stuck on a board—but no doubt it has its educating effect. After all a basketball is nothing but a swell-headed football.

Go to Richmond and help Charlie and Cy in the rooting, and thereby help the team win.

NEXT THANKSGIVING GAME STAGED ON EMERSON FIELD

(Continued from Page One)

it is not thought that playing the game at the University will produce appreciable financial loss; but it would be all the same if it did. The Tar Heels have felt that they were under a disadvantage in always playing away from home, and there is no question but that Emerson Field will by reason of the increased home audience add something to the spirit of the Carolina players.

7 TO 0 VICTORY OVER VIRGINIA ELEVEN CROWNS SUCCESSFUL FOOTBALL SEASON

Bill Folger Breaks away for 52-Yard Run Scoring Touchdown in Third Quarter

VIRGINIA ON DEFENSIVE DURING ENTIRE GAME

15,000 PEOPLE SEE TAR HEELS DEFEAT OLD TIME RIVALS IN RICHMOND

With "Bill" Folger gaining around the ends at regular intervals and "Raby" Tennent plunging the line at will, the greatest team which ever wore the white and blue of Carolina out-fought the time-honored team from Virginia and won the annual Thanksgiving classic 7 to 0, Thursday afternoon at Broad Street Park in Richmond.

It was in the third quarter, when the ball was near the middle of the field, that Quarter-Back Williams gave the signal for Folger to take the leather. He caught the fling squarely and true, running as the oval dropped into his pocketed arms. Three men dived at him and reached for his heels. Another hurled himself at the runner's waist. A stiff arm warded the tackler away; and, straightening himself out Folger saw a clear field ahead. Eleven men, like hounds on a warm trail, took up the pursuit. But Folger broadened his smile, thinking of the folks at home, and increased the speed as victory drew nearer his vision. He crossed, and a breathless, foot-worn Virginian dropped at the runner's ankles, and halted him—too late.

Then it was that the stands begirt with the Blue and White trembled and shook under the stamping of thousands of feet, and thousands of voices, led by Father Tandy, rose in a mighty chorus of applause. It was the first time that Carolina had won a game since 1905, when she carried home a score of 17 to 0; the second time she had scored a touchdown and the fourth time she had scored at all during eight years of play. In 1906 and in 1909 there were no games between the two. But it was characteristic of Carolina that she went from defeat to defeat, battered and worn, with never-faint heart and never-waning hope. From one battle lost she always looked forward to another to win. It has taken nine years, but the victory was all the sweeter.

At no time during the game did the back field find Virginia's line impregnable, while Carolina's line held like an adamantine wall against the vain onslaughts of the orange and blue.

But for the wet field it was an ideal day for football. A blue sky with heavy clouds drifting across, and brave north-west winds added zest to the well deserved consummation of one of the best seasons in the history of the University. The crowd, estimated at 15,000, was one of the largest ever to gather in Broad Street Park. The Carolina bleachers were jammed and packed with stud[illegible] tents and patriotic alumni who yelled their throats to a frazzle in a continuous blast of applause lasting through the game.

When the game ended, with the leather in Virginia territory and in Virginia hands, babel broke loose in every stand and bleacher, and the wearers of the Blue and White, scattering restraint to the winds, fell upon the field like a Roman mob. Folger was rushed and shouldered. Then came Tandy, Tennent, Bellamy, Williams and the rest. There were more than enough shoulders for the triumphal march around the field, and the others of the gesticulating, shrieking, wildly happy mob fell in behind.

Carolinians have never failed to cheer their teams, even in the moment of defeat. When, after so many years, they again held victory within their grasp, they did not forget the courtesy due those who, striving against great odds, so gamely lost. The Carolinians have preserved their ancient spirit, and to lose to such an opponent is well worth the struggle.

A banquet was given the team and coaches after the game at Murphy's Hotel. The hall was attractively decorated with pennants and blue and white chrysanthemums. Captain Tandy was called on for a speech. He congratulated the team on their wonderful perseverance of fighting spirit all through the season and thanked the coaches for the invaluable training which was after all the key to the season's success. Mr. Tandy, Yank's Father, also praised "the boys." "I know you could do it," he said, "if you would fight." The captain of the 1917 team will be chosen later.

THE FIRST QUARTER

Captain Tandy won the toss, and elected to receive at the west goal, forcing Ward to kick-off in the face of a driving northeast wind. Ward booted the ball high, but it was caught in an air current and swept over the south side line. The leather was brought back and, while the 14,000 spectators edged nervously about in their seats, Ward again placed the ball. Once more he kicked it, and this time it carried straight to Tennent. The half back displayed nervousness, and juggled the ball, but recovered in time to run it back eight yards before Calvert downed him, with a plunging tackle, on the tweny-five-yard mark.

Ward tackled Tennent on the first [illegible] and downed him without gain. Folger again fumbled when he got the ball once more recovered, J. [illegible] tackling him before he had a[illegible] Folger then punted out of bounds, but an offside penalty was on Virginia, and the ball was ed. Folger was unable to Coleman downing him. He punted, the ball crossing the south-

(Continued on Page Five)

ern side line on Virginia's forty-two-yard mark.

Kinsolving was given the opportunity of rushing the ball first for the Orange and Blue, and essayed a gain through right tackle, making five yards. Thurman contributed a yard, and Sparr lanced right tackle for three yards, and then Thurman was called upon to punt. The drive carried well and, striking a few yards in front of the goal line, was allowed to cross it, Carolina bringing it out twenty yards and beginning play with a scrimmage.

Williams carried the ball on the first play, and made eight yards before being downed by Kinsolving. Virginia again displayed nervousness, and suffered another five-yard penalty for offside play, allowing Carolina to register its initial first down. Folger made two yards through left tackle before Calvert brought him down. Tennent added another, being downed by Thurman and Coleman before Folger dropped back to punt. The ball took a bad bounce, and Bellamy recovered the leather on Virginia's twenty-six-yard line; but no Orange and Blue player had touched it, and they were awarded possession of the leather.

Thurman made a yard around right end. He dropped back as though to kick, but Wagenknight dived into the line, being downed without gain. Up to this time the low-hanging clouds had cast a shadow over the field. As the players arose from the ground, however, Old Man Sol peeped out over the field and decided he liked the view so well that he would remain among those present. Thereafter he smiled broadly, until the gloom of night crept in, and players and spectators basked in his light.

Thurman punted on the next play, and Carolina was awarded the ball on her own thirty-five-yard line, when it was allowed to roll it stopped of its own accord.

A FOUR PAGE NEWS PAPER DURING THE CONVENTION

PUBLISHED BY STUDENTS OF THE JOURNALISM CLASSES FOR VISITORS

A four-page newspaper is to be published by the students of the journalism class on each of the three days of the newspaper convention next week, if plans now on foot prove successful. The publication is intended to keep the newspaper men informed on events of interest to them that are taking place on the campus. Several of the prominent editors that attend will probably be asked to contribute editorials for the publication.

Professor Thornton of the journalism department has written to a manufacturing concern for the use of a Linotype machine during the convention, and if he succeeds in securing the machine, it will be set up in the Y. M. C. A. lobby for exhibition to the visitors as well as for the type-setting of the publication.

THE W. J. BRYAN PRIZE FOR ECONOMICS PAPER

Several years ago Mr. W. J. Bryan gave a course of lectures here from which the management cleared a little money. The money was immediately invested. The income is now to be used as a prize for a paper whose subject is some phase of economics in relation to politics, various phases of finance and other subjects in which the State plays a part.

The prize is $12 in cash and is to be presented annually at commencement to the writer of the best paper.

It is expected that there will be a large number of entries for the prize as our department of economics is one of the most popular in the University.

UPCHURCH WINS TROPHY CUP IN RACE AT RALEIGH

While "Bill" Folger was dashing across Virginia's goal line for the touchdown that brought victory to his team, L. M. Upchurch, Carolina's star long distance runner, was adding another victory to his long list of successes by winning the individual trophy cup in Raleigh for the five mile race. In exactly 26 minutes and 30 seconds after the pistol was fired, the crowd of Raleigh citizens assembled at Fayetteville Street saw Upchurch cross the goal line far in advance of his nearest competitor, Scott, of A. and M., who came in second a few minutes later.

Although Carolina's representative easily secured first place in the meet, A. and M., by scoring ten points, succeeded in winning the silver cup offered to the school or college making the highest score.

Totten and Crisman also participated in the race as representatives of the University.

One of the largest crowds of students that has ever assembled in Gerrard Hall was addressed on Sunday night by Dr. F. N. Seerley on the subject of sex hygiene.

CAROLINA WINS STATE CROSS COUNTRY RUN

A. & M. WINS SECOND; DAVIDSON THIRD AND WAKE FOREST FOURTH PLACE

L. M. UPCHURCH AND NIMS STAR

First Intercollegiate Track Meet Held at A. and M. College.—Upchurch, Frank Nims and Totten Represent Carolina

By Upchurch's superiority in sprinting at the last of a five-mile race, the University of North Carolina representatives won the annual State intercollegiate cross country race held at A. and M. College last Saturday. Upchurch ran the distance of five miles in 25 minutes. Nims also deserves much credit, for by coming in third he cinched the race for Carolina. A. and M. took second place, Davidson third, and Wake Forest fourth. Trinity, Guilford and Elon, did not have representatives in the race. The order in which they finished was: Upchurch, Carolina, first; Scott, A. and M., second; Nims, Carolina, third; Donnell, Wake Forest, fourth; Clich, A. and M., fifth; Brand, Davidson, sixth; Cobb, A. and M., seventh; Worth, Davidson, eighth; Murrill, A. and M., ninth; Lee, A. and M., tenth; Totten, Carolina, eleventh; Bunn, Wake Forest, twelfth. The race was over a rough country extending from the Agricultural Building at the A. & M. College, through the experiment station grounds to Method and back by the road to the Textile Building.

SOPH-JUNIOR DEBATERS CHOSEN BY DI SOCIETY

At the try-out on Monday night for Soph-Junior debaters, V. A. Wilson, junior, and W. C. Eaton, sophomore were selected to represent the Dialectic Society in the annual Soph-Junior debate with the Philanthropic Society to be held on the week before the Christmas vacation. The query to be debated is: "Resolved, That a system of compulsory social insurance similar to that of France, Germany, and England, should be adopted in the United States."

Those who participated in the try-out were: V. A. Wilson, W. S. Tatum, W. M. York, and R. A. Dewall, juniors; and W. C. Eaton, J. W. Dalton, C. J. Hardee, sophomores. The judges were: Dr. W. W. Pierson, G. A. Martin, and R. F. Moseley.

The debaters to rtpresent the Phi Society will be selected soon after Thanksgiving.

N. Ralph Pippin was recently initiated into the Pi Kappa Phi Fraternity.

R. F. Moseley made the best speech in the Phi Society Saturday night. The query was: "Resolved, That the U. S. Government should pension all superannuated civil service employees." The affirmative won. The subject for oration was: "The Significance of the Re-election of Woodrow Wilson," and E. L. Veasey was declared the best orator.

VICTORY

The most beautiful sight that has ever greeted Tar Heel eyes in Richmond was seen yesterday when Billy Folger tore around Virginia's right end for 52 yards and the touchdown that defeated the Orange and Blue.

Carolina teams may have fought as hard before, but never has a Tar Heel team fought so confidently, so brilliantly or played such perfect football.

It is both honorable and admirable to fight and lose as the Carolina team did last Thanksgiving, but it is not only honorable and admirable, but also joyous and glorious to fight and win as Carolina did yesterday.

The score of seven to nothing fails to tell the tale. Virginia, though she put up the gamest of fights, was outclassed from the first quarter till the final whistle blew at 5:21; which pronounced the game ours. An impregnable defense, an offense which broke down Virginia's line and evaded her ends, in fact an almost perfect exhibition of the best football,—that was what did the work and brought before Carolina eyes the sights made sweet by long waiting. Every man played superbly and the glory of victory is due not to one but to all.

Up to the middle of the fourth quarter, not a single Carolina substitution had been made; and after that only two. For this the highest praise is due to Dr. Lawson and the coaches, who have kept the team, through a most rigorous schedule, in practically perfect condition.

To Coach Campbell and Coach Cowen too much praise and honor cannot be given. Their deep knowledge of the game, clear judgment, faithful work and fine spirit developed the little Carolina squad of 27 men into a great football machine.

The University feels proud of her team and its coaches—and the state on Thanksgiving day must have felt proud of all three.

Here's an economy note for you: Take long steps and your shoes will last longer.—Memphis Commercial Appeal.

One hundred and sixty-one out of two hundred seniors in Princeton have confessed to having kissed girls at some time in their lives. This makes only 20 per cent of liars in Princeton, which is a fair average for any University.—Buffalo News.

One songstress said, on hearing a record of her voice in a singing machine: "It sounds uncanny." In the old-fashioned phonographs she might have said "tin-canny."—St. Louis Globe-Democrat.

AFTER THE VICTORY

There were no buildings burned last night. That's strange—and yet there was not the faintest suggestion to destroy property. Every one was enthusiastic but calmly so. Ten minutes after the final report a negro band armed with slide trombones and battered horns drove wildly down Faculty road in a ford. Outside of that there was no Fourth of July Celebration.

Everyone here was as jubilant as the most spirited in Richmond but there was something that repelled the idea of wholesale destruction, such as a game won struction. Such as a game won on a fluke would naturally prompt

The Tar Heel was not printed in blue ink nor a fourth of the page given to spectacular headlines—and Why?

(The Answer). Because the team, coaches, students, alumni and even Virginia knew we would win. It was not a surprise but a result expected.

For four years Carolina has been gradually coming into her own:

	Virginia	*Carolina*
1912	66	0
1913	26	6
1914	20	3
1915	14	0
1916	0	7

This year that accumulating vigor put us on the safe side. There is no reason why each coming year should not find us there.

CONTRIBUTED.

THE HAWAIIAN QUINTET

The Lyceum Bureau announces the coming of the leading Hawaiian Quintet in this country to Chapel Hill on the 19th of December. The popularity of the Waikiki Hawaiian Singers and Players cannot better be attested than by the fact that, even though this attraction has not yet begun its regular schedule, every possible date has been taken since October 1st, and it was only by signing the contract for this quintet last spring that the Lyceum Bureau was able to bring it to Chapel Hill this season.

Tom Price, '12 and '15, was a visitor on the Hill Sunday. He is now doing civil engineering work.

The Di Society preliminaries for the annual Soph-Junior Debate were held Monday night. W. C. Eaton, sophomore, and V. A. Wilson, junior, were selected to represent the Di Society in the contest.

B. L. Fields, '15, spent Sunday on the Hill meeting his old friends. He is now located at Wilson, N. C., doing engineering work for a street construction company in that city.

Of two evils choose neither; both will turn out bad.—Chicago News.

CAROLINA SPIRIT PREVAILS IN TAR HEEL BLEACHERS

OLD CAROLINA STARS THERE

The very atmosphere of the capitol city of Virginia, Thanksgiving Day, was different from that of last year; and not only the atmosphere of the city itself, but more especially that created by the representatives of the two sides. Carolina was "all out" from the beginning. Virginia was "all in". The Virginia band (a hired municipal band) didn't even show itself till the afternoon at the game, after the U. N. C. "tooters" had "tooted" two hours in the Jefferson and all the way out to the field. The band was not alone with its enthusiasm. The boys were there with noise. One thousand Tar Heels sang the dignified and impressive "Hark the Sound" with uncovered heads and upraised voices. They then sang "I'm a Tar Heel Born" and "Marching Down the Field" with upraised hats and voices.

At 1:30 P. M., with ribbons, banners and pennants flying, about 800 Tar Heels, led by the band, marched down Broad Street out to the Park.

The bleachers opposite presented a veritable sea of golden chrysanthemums. Many yellow ones even invaded section K. But the "blue and gold" did not inspire such awe as it is supposed to have been inspiring during the past eleven years. The erstwhile enthusiastic Virginia bleachers were as silent as sepulchres. The traditional Virginia *spirit* seems to have disappeared with the famous Virginia aspirants. It is needless to say that every Tar Heel on the field yelled his loudest and longest.

There were about 14,000 spectators. Among the more famous ones there were: Dave Tayloe, Fatty Cowell, C. C. Boshamer, Meb Long, Slob Jones, Booloo Pell, Herschel Johnson, Mr. Tandy and Mr. Perrin Busbee.

The golden hue of the Virginians began to fade in the first few minutes. Toward the end they were shattered as were their hopes.

The snake dance afterwards was the sensation of the day. Tandy was carried off on the shoulders of exuberant students, and mounted on the cross bars of the goal posts.

After a long while the Tar Heels postponed festivities for the Jefferson after dinner.

Rondthaler is the Pied Piper of the twentieth century. With the enchanting tune of the "Freshman Trot" (survival of the dark ages) he marched three hundred "rats" out to cheer the "first year" team the day before the last game.

CAPTAINS OF BASKETBALL LEAGUE TEAMS ARE CHOSEN

The first steps in the organization of the new basketball league were taken this week, and at present the schedule of games between the six participating teams is being worked out.

At a meeting of the basketball men held the first of the week the following captains were elected: freshmen, S. C. Perry; sophomore, F. C. Shepard; junior, C. G. Tennent. There were not enough men present from the senior, law and medical classes to form teams, so the election of the captains for these teams was deferred until later.

As has been explained before, it is the purpose of Coach Peacock to form a league of these teams, and to play off a regular schedule for the championship. All men, including varsity men, will play on their respective class teams in these games, all of which will probably be played off before the regular varsity season opens. Then the varsity team will be selected from the choice men of these class teams.

At present the greatest need is more men to make up the several teams. Coach Peacock is very anxious to have all the players come out at once so there will be no delay in starting the series. Manager Tanner is working out a schedule for the games, which he will publish in our next issue.

CAROLINA FRESHMEN LOSE TO OLD DOMINION ELEVEN

VIRGINIA TEAM OUTCLASSED TAR HEELS AT EVERY TURN OF THE GAME

The first game between the Freshmen of Virginia and North Carolina was staged on Emerson Field last Saturday before a good crowd of students and alumni and Virginia won 19 to 7.

Both teams fought and played well, but it was pretty clear to many that Virginia knew more football. The team from the Old Dominion composed of prep school stars from all over the state, was able to gain with alarming consistency.

In spite of the fierce playing of the Tar Heel boys, which displayed itself again and again, they were unable to check the plunges of Spencer, and the dashes of Russell and Deckert around the end. Aided by perfect interference the latter was a continual puzzle to the Tar Heels. Twice Carolina held for downs on the three yard line.

When Carolina had the ball gains seemed to be impossible, the backs failing to find holes either in the line or around the ends. The sole touchdown by the Freshmen was made when a punt from Spaugh's toe tipped Dechert's fingers and rolled behind the goal line, where after a series of wild scrambles Lüpfert fell on the ball. Blount kicked goal.

Gantt in the line, and Spaugh and Herty in the backfield seemed to be the only ones who could tackle with results. Gantt broke through several times and nailed the runner before he had taken a step. Blair and Wood for the Virginians played the same style of game, Wood especially being in every play. Spaugh and Herty alone were able to gain for the Freshmen. In the second quarter, receiving the ball on Carolina's 40-yard line, Dechert scored after a series of broken dashes for small gains. In this quarter Congdon attempted a drop kick from the 45-yard line, which fell short by a few inches. Shortly after a perfect forward pass, Dechert to Michie, resulttd in another touchdown. In the fourth quarter Spruill punted to Dechert who was downed in his tracks by Lüpfert. Congdon made 15 yards over tackle, Dechert made 12 around end. Russell gained 15 in two off tackle plunges, and then Dechert slipped around end for the final touchdown.

Score by periods:

Carolina	0	7	0	0	7
Virginia	0	12	0	7	19

Officials—Barry, of Georgetown, Referee; Magoffin, of Michigan, Umpire; Henderson, of Ohio, Wesleyan, Headlinesman.

Virginia scoring: Touchdown, Dechert 2, Michie; Goal, Grayson; Carolina scoring, touchdown, Liipfert, goal, Blount.

Substitutions, Carolina, Liipfert for Fisher, Lewis for Herty, Whiting for Conrad, Little for Robins, F. Spruill for Tayloe, C. Spruill for Bristol; Virginia, Robinson for Chilton, Taylor for Russell, Euzzell for Spencer, Lebus for Thompson, Duncan for Grayson.

Time of quarters, 15 minutes.

PROGRAMME FOR NEWSPAPER CONVENTION

As December 7, 8 and 9 approach elaborate plans are being made to receive the first winter Newspapermen's Chautaqua of Methods to be held in the State. Professor Thornton, chairman of the Committee on Arrangements, has prepared the following program:

Thursday, December 7, 3:30 P. M.—The Newspaper and the Community:

1. "Purpose of the Institute," E. E. Britton, president of the State Press Association.
2. "Yoking up With the Agencies of Progress," W. R. Dixon, Wilson Co-operator.
3. "The Newspaper and Community Development," Clyde L. Davis, Sand Hill Citizen.
4. "Journalism and the University," Richard H. Thornton.

Thursday evening, 8 o'clock:

Address, Hon. William Howard Taft.

Friday, December 8, 9 A. M.—General Newspaper Problems:—

1. Welcome from the University to the newspaper men, President Edward Kidder Graham.
2. "How Newspapers May Better Serve Their Women Readers," Mrs. Al Fairbrother, of Everything.
3. "What Legislation Do North Carolina Papers Need?" W. C. Dowd, Charlotte News.
4. "The Newspapers and North Carolina," Professor E. C. Branson, of the University News Letter.
5. "Problems of the Near-City Daily," J. L. Thorne, Jr., Rocky Mount Telegram.

Friday, 3:30 P. M.—News and Editorials:

1. "The Effective Editorial," James H. Caine, Asheville Citizen.
2. "The Handling of News by Wire," Roger Steffan, Durham Sun.
3. "The Handling of State News," O. J. Coffin, Raleigh Times.
4. "The Make-Up of the Country Paper," T. J. Lassiter, Smithfield Herald.

Friday, 8 P. M.:

Address, Talcott Williams.

"Journalism, a New Weapon for Democracy," Walter Williams.

Saturday, December 9, 9:30 A. M.—Business and Advertising Problems:

1. "Newspapers and Advertising Agencies," W. H. Savory, Merganthaler Linotype Co.
2. "The Print-Paper Situation," H. B. Varner, Lexington Dispatch.
3. "The Business End of Newspaper Making," Don Seitz, New York World.
4. "The Newspaper's Relation to the Advertiser," W. H. Bagley, News and Observer.

Cynic—"In this world we get what we take."

Fynic—"I don't know, I took fifteen hours this term."—Cornell Widow.

MRS. ROSE PASTEUR STOKES PROMINENT SOCIALIST HERE

LECTURES TO STUDENTS OF ECONOMICS ON SUBJECT OF SOCIALISM

Among the notables around town for this week we have no less than Mrs. Rose Pasteur Stokes, who is one of the leaders in the socialist movement in the United States. She is sent out by the Intercollegiate Socialist Society to the leading universities of the South to spread the principles and aims of socialism. She has lectured very interestingly and instructively to the classes in economics, and ended her lectures here by one to the Equal Suffrage League, Friday night.

She presented very ably, in the course of her lectures a discussion of the following subjects: Unemployment, Its Evils, Its Remedy, The Capitalist who Doesn't Work but Draws. Her examples have been graphic as well as apt.

Mrs. Pasteur Stokes has lived thus far a very interesting and unusual life. She was born in Augustavia, Suvolk, Russia, in 1879. After passing several years in London and other European cities and having heard of the wonderful opportunities in the United States, she finally set out for the "Land of the Free." For thirteen years she worked as a cigar maker in the city of Cleveland. But even this could not daunt her iron will to do some good for her fellow-man. She began by contributing to Journals and in 1905 she became assistant editor of the Jewish Daily News in New York. Soon she changed this for married life.

She immediately began to adhere to the theories of socialism and has gone a great way to become a recognized authority on certain phases of one of the greatest absorbing theories of the day.

Dr. Raper considers her one of the clearest thinkers on the subject in the United States, and that she is thoroughly wide-awake on every phase of the subject.

A LARGE INCREASE SHOWN IN CORRESPONDENCE STUDY

The November report of the Correspondence Study division of the University, the purpose of which is to make University instruction possible for every resident of North Carolina, shows so great an increase over previous reports that the University is steadily awakening to its real value.

Because of the varied interests in the work, a committee on correspondence study was selected this year, the members of which are to take up new phases of the work. An assistant in English has also been provided owing to the large enrollment in English courses.

Besides the usual bulletins describing the work, a series of monthly leaflets, which describe different phases of the division are sent out.

This year a new type of course has been inaugurated, which is adapted to the needs of the Woman's clubs of the state. These studies relate to literature and history, and are the first steps of the University towards extending its cultural influence to others than past or prospective students.

Another interesting phase of the work is a correspondence course in aiding the "teacher's reading circle." This was inaugurated for those teachers who wish to have more careful individual attention.

(Continued on Page Four)

Eavesdropping and Interviews

"He's left college and gone to work." "Why not stay in college and go to work?" suggested Dr. Patterson. "It's worth it. The Government has compiled statistics and by comparing the wages of the average man who went through college with the wages of the average man who did not, has estimated that every day spent in college is worth thirty dollars."

Wonderful thought that! You can afford to do most anything, go to Raleigh every week and spread yourself in Richmond. Consider the Sophomore as he leans idly against the wall blowing rings of smoke. He may not look it but he's a high priced man, worth thirty dollars a day. He can afford to loaf. Last summer he may have jerked soda behind a counter in the drug store at home or waited on the stenographer in his father's office or sold carpet sweepers or encyclopedias in the western part of the state for the miserable sum of eight, ten, or twelve dollars a week. Now all he has to do is to get off a few Lab points, which are rather troublesome, and pass occasional quizzes which do come at inconvenient intervals, and absorb enough general information to avoid flunking Mid-years and Finals, and he's going to get thirty dollars a day, thirty dollars at least.

The trouble is that that thirty dollars or rather those thirty dollarses are going to be a long time coming and they never are paid in such a way that you can tell them when you see them. They are strung out through a long, long time, here a little, there a little, and never enough at once to give any real satisfaction.

It seems as if a better system might be worked out, so that you could get yours, or part of it anyway, every night, or at least every month like the ten per cent discount at the book store. Board and room rent and college fees certainly ought to be deducted.

Something is wrong somewhere. Perhaps the students of Economics can explain the reason for this unfair distribution of wealth. If a college man gets thirty dollars for every college day how is it possible that you can stick around the Hill for three or four years with only a few grats and leaves of absence, staying right on the job and earning your thirty, and yet be so often reduced to the humiliation of borrowing five cents to buy a dope?

A LARGE INCREASE SHOWN IN CORRESPONDENCE STUDY

(Continued from Page Three)

The statistics show the following increase between November 1, 1915, and Novtmber 1, 1916: Number of students enrolled have increased from 28 to 40, number of lessons sent out from 31 to 49, total number of courses offered 37 to 40, number of statistics offered from 0 to 8, number of counties represented from 27 to 29, and number of other states represented from 1 to 2.

While the hearty co-operation of the faculty members, in devoting so much of their time and effort to the division is a great asset, the year's growth was made possible only by the diligent work of the secretary of division.

"There isn't much to Hayden is there?"

"Oh, there's a lot in him."

"Well then, it's a vacant lot."—Cornell Widow.

Down Senior Way

I don't believe there is such a thing as education (except of course in the Peabody building). Doctor Spingarn tells us there is no such thing as tragedy, Dr. Williams, that there are no facts, and various other thinkers deny the existence of things in general. Except relatively speaking there is certainly no such thing as education. What an absurdity we have been laboring under. Some are so deluded as to think the day the sheep-skins are handed around, on that day, education is likewise distributed among the members of the senior class who have memorized a certain amount of stuff in certain books. As a matter of fact Mr. Noble gives out untold amounts of education daily to many a soulless and unfeeling soul who nows not the meaning of the word. Relatively speaking, now, (not that I am relative of Mr. Noble's) but comparatively speaking, there is not one person in the world educated. Some are educated along certain lines to a certain extent, (and some along uncertain lines to an uncertain extent).

Standard, or degree is the key to the whole matter. One person thinks that a thorough knowledge of chemistry is education. One thinks Aristotle and Mr. Spingarn are foolish dealers in words—chansons—verba. But people who know anything about it do not.

Now if there is anyone who has read thus far in this column, hear ye the moral:

Do not pose as a know-all. Admit your ignorance. Be ye not so narrow that ye cannot think in terms other than those of your hobby.

MEN WHO PLAYED IN BIG GAME THURSDAY

Virginia (0)		Carolina (7)
J. White	L. E.	Love
McKay	L. T.	Tayloe
Coleman	L. G.	Harrell
Churchman	C.	Tandy
Calvert	R. G.	Grimes
Ward	R. T.	Currie
Goodwyn	R. E.	Ramsay
Wagenknight	Q. B.	Williams
Kinsolving	L. H.	Bellamy
Thurman	R. H.	Tennent
Sparr	F. B.	Folger

Substitutions: Virginia—C. White for Wagenknight, Gooch for Thurman, Thurman for Calvert, Calvert for McKay, Russell for Sparr, Sparr for Russell, Blakey for Calvert, Hager for Goodwyn, Carrington for C. White, Kinloch for Hager. Carolina—Coleman for Folger, Johnson for Williams. Touchdown—Folger. Goal from touchdown—Tandy. Officials — Referee, Barry (Georgetown); umpire, Magoffin (Michigan); field judge, Dobson (Richmond College); head linesman, Reiss (Randolph-Macon). Time of quarters, 15 minutes.

Alas, said the would-be-wit the other day, "whatever we do—we can never take the "gin" out Virginia again.

The rise in the prices of brooms may be accounted for by the reckless waste in the recent straw voting.—Providence Journal.

FOISTER'S

7 TO 0 VICTORY OVER VIRGINIA ELEVEN

(Continued from Page One)

Folger was unable to gain, Bellamy made two and a half yards through the line, and then Folger punted to Wagenknight, who was tackled by Love on Virginia's twelve-yard line. Thurman fumbled the pass, and Love tackled him for a loss, the ball being stopped on the Orange and Blue's three-yard mark.

Virginia was in desperate plight. The ball was three yards from their goal, directly between the goal posts, and thus preventing a punt; and it was second down. Kinsolving hit the line and gained two yards. He carried the ball again and made half a yard around right end, but succeeded in taking the leather close to the side line, and thus placing it in a position that allowed Thurman to punt. Thurman kicked into the face of the wind, and was able to drive the leather only to his own thirty-yard line, where J. White secured it. It was Carolina's ball, however, and Williams hit the line for one yard, Churchman tackling.

Folger made another yard before Calvert downed him, and then Captain Tandy tried for a field goal from the thirty-five-yard mark. His effort was a failure, and Virginia adherents breathed easier with the ball in the University's possession on their own twenty-yard mark. Wagenknight was thrown for a one yard loss by Ramsay before Thurman punted across the southside line on the Tar Heels' forty-eight-yard mark. Tennent made five yards through center, being tackled by Coleman.

The first forward pass of the game was attempted on the next play, Folger tossing the leather to Ramsay, who fumbled and finally lost the ball. Folger then punted over Virginia's goal, and the Orange and Blue put it into play on their twenty-yard line. White gained two and a half yards around right end before Tennent brought him down. The whistle for the period sounded at this minute. The ball was on Virginia's twenty-two and one-half yard line, with seven and a half yards to be gained in three more downs.

SECOND QUARTER

During the opening quarter most of the play had been in the Charlottesville eleven's territory, and several times they had been in critical situations. Strong defensive work in the pinches and careful generalship assisted them in escaping without being scored upon. It appeared at one time that the players would be forced to score a safety against themselves, but this was prevented when Kinsolving fell forward instead of backward on his end run that took the ball away from before the goal posts.

Wagenknight lost ground on his opening try at left end, and Thurman promptly punted to Williams who was downed on Virginia's thirty-yard line. Currie failed by inches in blocking the punt. Wagenknight was knocked out on the play and was taken from the game, C. White being substituted. Folger dashed around right end for seven yards, Kinsolving tackling. Tennent made four yards through left tackle and first down. Bellamy gained half a yard through right guard and Folger added four and a half around left end before McKay landed him. A try at the line failed, and Tennent was able to make only three yards, Virginia winning the leather after a careful measurement of the gain had been taken on her own seven-yard line.

The play again being dangerously close to the Orange and Blue goal, Thurman punted immediately to Williams. Goodwyn missed his tackle, but J. White landed the runner on Carolina's forty-seven yard mark. Folger gained two yards, Captain Sparr tackling. Tennent added three and then Folger punted to C. White who was downed by Currie on Virginia's fifteen-yard mark. Thurman failed to gain, C. White made five around left end, and Sparr lanced right guard for five yards before Thurman punted to Williams. Williams fumbled the leather, but recovered just as Ward tackled and downed him on his twenty-seven yard line.

Folger failed to gain around right end and Coleman made three yards on another end dash, taking the ball close to the side line. Williams carried it outside, and, when it was brought back, Folger punted to C. White, who was downed by Currie on Virginia's forty-three-yard mark. Kinsolving gained a yard around right end, Love and Tayloe tackling. Virginia then attempted a forward pass, but Bellamy broke it up. C. White lost two yards when tackled by Currie, and Thurman kicked to Williams, the latter being downed by Ward and Goodwyn on his thirty-one-yard mark.

Once more Folger was called upon but he failed to gain, McKay downing him. Tennent made three through right guard before Calvert downed him. Folger punted. The ball struck C. White and bounced away, Ramsay diving on it and winning possession on Virginia's twenty-two-yard line. Folger lost three yards when tackled by Coleman and Kinsolving. North Carolina asked time out to allow Folger to replace a battered headgear. The Tar Heels attempted their second forward pass at this juncture, but Love fumbled, and the effort failed. Tandy then essayed another try for a field goal but he likewise met with failure, Virginia winning the leather on her fifteen-yard mark.

Kinsolving failed to advance, and Thurman punted outside on Carolina's twenty-five yard mark with a beautiful drive. Folger was downed by Kinsolving, on his effort to advance, with the first clean tackle of the game. However, each eleven was off-side on the play, and the ball was put in play again at the same spot. Tennent made two yards through right guard before Churchman tackled him. The half was up with the ball in Carolina's possession on her own twenty-eight-yard mark and with third down.

THIRD QUARTER— FOLGER'S 52YD. RUN FOR TOUCHDOWN

Play during the second period had been similar to that of the opening quarter. Virginia again had been in difficult positions, but had managed to escape disaster. Most of the play had been in their territory and Carolina never had been hard pressed to prevent a possible score.

Virginia lined up at the west goal to receive, Captain Tandy driving ball to C. White in the face of the yet strong wind. Tayloe downed White. Thurman made three yards. Love solved a cross buck, with Kinsolving carrying the leather and downed the runner with a loss of a yard. Thurman punted to Williams, whom McKay and J. White downed on Carolina's thirty-four-yard line. Time was taken out for Captain Sparr, who had wrenched his ankle. Tennent gained six yards before Thurman downed him. Williams followed through the same hole for five yards and first down, Thurman again tackling. Tennent hit the hole again for a three-yard advance, dragging Calvert, who had tackled him behind his line, through with him.

And then came Folger's great run, the victory of Carolina and the first defeat Virginia has suffered at the hands of the Tar Heels since 1905. Folger started through right tackle. He found a hole and passed the scrimmage line before a man dived for him. One man measured his length on the ground in an effort to stop the charging runner. Dashing, body lowered, knees rising high and body swaying slightly as man after man endeavored to knock him off his feet or to get a hold on him, Folger kept on. He cut to the north side line. Thurman and Kinsolving dived at him and each in turn brought up on the ground, as Folger slipped through their arms and kept on. He ran straight down the side line for some distance and then making a graceful sweeping curve, cut in back of the goal line and planted the leather behind the posts. He had run fifty-two yards for the score.

Carolina stands were in a frenzy. There was too much yelling for cheering. The players ran about slamming one another with blows that would have knocked an unexcited man into Kingdom Come. All the Glooms in the world perched above the Virginia stands, as the Orange and Blue eleven lined up beneath their goal and watched Captain Tandy prepare for his try at goal. A hush settled over the park, and the thud of the kicker's toe could be heard distinctly throughout the grounds. The ball sailed true to its mark, and another point was registered. Carolina had scored a touchdown for the first time since 1913, and was ahead of Virginia for the first time in many seasons.

Tandy kicked off to C. White, who was downed on his forty-yard line. Williams was caught holding on the field, and Carolina suffered a fifteen-yard penalty. Gooch made five yards around left end before Ramsay tackled and downed him. Sparr contributed a yard through center. Russell was substituted for Sparr, whose ankle was giving him trouble. Kinsolving was tackled by Bellamy without gain. Thurman punted out of bounds on the southern side, Carolina winning the ball on her own thirty-nine yard line. Tennent lost a yard, and Folger kicked to C. White. He dodged Love and ran the ball back to Virginia's forty-yard mark before being downed. Gooch made three yards on a cross buck.

Virginia then worked her first successful forward pass. C. White shot the ball to J. White for an eighteen-yard gain. Kinsolving lost a yard on a cross buck, and C. White lost seven when tackled by Love, who used a wrenching neck tackle to bring down his man. Gooch opened another forward pass, Kinsolving taking the ball out of bounds for a seven-yard gain. C. White then attempted a field goal from the thirty-five yard line, but failed, and Carolina took the leather on her twenty-yard line.

Tennent hit right guard for four yards. Folger, running behind dandy interference, was forced outside of bounds on the northern side line after a four-yard gain around right end. Tennent made first down, and the play was on Carolina's thirty-yard mark. Folger ran around left end, but made nothing before punting to C. White, who fumbled but recovered before Ramsay tackled him on his own forty-yard mark.

Gooch had joined the team when McKay was taken out, and now began to carry the ball. He failed on his first attempt, but made four yards on the second effort. C. White shot him a forward pass on the next try, and Billy Gooch, brother of the famous Bobbie, gained seventeen yards and first down before being stopped. Russell hit center, and the ball was stopped on Carolina's thirty-five-yard line. C. White lost two yards and Ramsay blocked an attempted forward pass. Gooch then tried a field goal from the forty-two-yard line, but it failed, and the Tar Heels won the leather. Tennent made four yards before Ward

7 TO 0 VICTORY OVER VIRGINIA ELEVEN

(Continued from Page Five)

downed him, Williams added three yards, and Tennent followed with two more just as the whistle sounded. It was Carolina's ball on their twenty-nine-yard line and fourth down.

FOURTH QUARTER

Although scored upon during the third period, Virginia's showing was a great improvement over that of the first half. The men were playing a stronger offensive game, and their passes had been used to advantage, although never resulting in threatening seriously the Blue and White goal. Captain Sparr returned to the field at the opening of the last period.

Carolina worked a quick pass and Virginia was caught off-side, suffering the five-yard penalty. Tennent made five yards before Churchman downed him. Folger was tackled by Sparr, Thurman and J. White on his try at end, and failed to gain. He then punted to C. White, who made fifteen yards before Grimes downed him on Virginia's thirty-yard line. Gooch made half a yard, Sparr lanced right guard for four yards. Blakey was substituted for Calvert. Kinsolving made two yards around right end, and Thurman punted to Williams, J. White tackling him on Carolina's thirty-yard line.

Folger got away once more and ran thirty yards, throwing off several players before being downed. However, a Carolina player had been caught holding and the team was penalized fifteen yards. Folger punted to C. White, who was tackled by Harrell without gain, on Virginia's thirty-four-yard mark. Time was taken out for Virginia. Hagar was sent in to replace Goodwyn and spoke to that player before reporting to the referee, Virginia suffering a fifteen yard penalty as a result. Gooch made four yards around right end.

Thurman shot a forward pass to C. White for seven yards, Ramsay tackling. Thurman then punted out of bounds on the south side, Carolina taking the ball on their own thirty-five-yard line. Folger lost five yards when Hagar tackled him, and then punted to C. White who made a fair catch on his own thirty-five-yard line. Time was taken out and Pop Lannigan gave J. White the once over and a swig at a bottle, which he packed with him, much to the envy of the spectators

Kinsolving made a yard around right end, and Gooch failed to advance. Thurman then punted to Folger, who was downed by Hagar on his thirty-four-yard line. Folger's old injured shoulder had been hurt again and he evidently was very tired, his playing having slowed greatly during the last few minutes, so he was taken from the game. Coleman, a fresh back, being substituted. The Carolina stand rose in a body and chanted the praises of the man who had brought them victory at last over Virginia, as the player trudged from the field and a companion tossed a blanket around him.

Tennent gained three yards and Coleman added six before Hagar downed him. Time was taken out for Carolina. Williams failed to gain and Coleman punted across the northern side line on Virginia's twenty-three-yard line. Carrington then was sent in for C. White, and Carolina coaches sent in Johnson for Williams. Gooch made five yards through right guard. Carrington added first down and twelve yards around left end before Coleman got him.

Kinsolving contributed two yards, and a forward pass to Gooch failed. Another pass, this time to Thurman, also failed, and Thurman then punted to Coleman, who was downed on the Carolina twenty-three-yard line. Tennent hit the line and made five yards before Sparr brought him down. He made six yards on his next try and first down. Tennent again came back and made another yard. Churchman tackled him. Once more he was called upon and this time added seven yards, the Virginia line appearing to find it impossible to stop his ramming rushes. Johnson gained and made it first down before Kinloch got him.

Field Judge Dobson announced that one minute remained to play. Tennent made a yard, Blakey tackling. Coleman, showing his freshness, dashed off tackle for first down, and thirteen yards. Tennent was unable to gain, and Coleman made eight yards around left end before Kinsolving could down him. Coleman again carried the ball and his namesake on the opposite team brought him down without gain on the final play of the battle, time being called before the players could line up.

During this period Carolina found the Virginia line weakening, and lanced it repeatedly for gains, the outstanding feature of the period from the Virginia standpoint being the work of Gooch. Tennent and Coleman did most of the ball carrying for the Tar Heels. The final score was 7 to 0.

LATIN-AMERICAN CLUB MEETS

The mineral resources of Latin-America were discussed in the Latin-American Club Monday night in the History Seminar at the Library.

The first paper was by J. M. Gwynn on "Mineral Resources of South America." He showed that the South American countries are exceptionally rich both in productivity and variety of mineral products, although the mining industry has never been developed to a great extent. Since the days of the silver horseshoes of Chile and Ecuador, these countries have been famous as a silver producing area.

Ralph Parks read a paper on the "Mineral Resources of Mexico and Central America," in which he described the rich deposits of valuable minerals in these countries.

"Ratty" Ranson the First, '14, otherwise distinguished by the name Lucius, spent a few days on the Hill with the team the first of the week, and went from here to Richmond.

A Sensible Cigarette is Easy to "Digest"

No word can describe that mean feeling which often follows smoking a poorly blended but otherwise good cigarette. Such a cigarette might be called "indigestible." ¶ On the other hand, Fatimas always give *comfort.* They "digest" easily, smoothly, as only a delicately balanced Turkish blend cigarette can. ¶ And best of all, Fatimas leave a man feeling fine and fit—yes, even after a long-smoking day. ¶ That's why men call Fatimas "sensible."

NEWSPAPER MEN OF STATE MEET HERE

TWO MEETINGS HELD DAILY—PROMINENT JOURNALISTS ADDRESS INSTITUTE

PRESIDENT E. K. GRAHAM SPEAKS

Welcomes Editors—Stressing Democracy of the University—Newspapers and Colleges Should Co-operate

Long cigars with noted newspaper men attached have been wreathing the Y. M. C. A. building in smoke the last three days. For the State Newspaper Institute has been with us.

And the cigars, the "glad-to-see-you-old man's," and frantic searches for Mr. Thornton, chairman of the local Grub and Lodgings committee, have been thickest around the Y. M. C. A. because there "Buzz" Tennent and faithful staff had their office and linotype machine and there got out daily "The Press Institute News." And even on a vacation these old newspapermen were glad to find a feeble imitation of the clatter and clutter of their city offices in the miniature establishment of "Buzz" and company. They couldn't keep away.

THE MEETING THURSDAY

"The newspaper man in North Carolina must be a well rounded man," declared President E. E. Britton, in his opening address before the State Newspaper Institute Thursday afternoon. "He must be able to write up a dog fight, a funeral and political caucus with the same amount of sincerity and tact. We in North Carolina are too prone to specialize the influence of our paper and make it either agricultural, political, or commercial in its nature. And it is the purpose of this institute to discuss these things and thus teach others and help others teach us."

W. R. Dixon, of the Wilson Co-operator, discussed the various agencies of progress and the problem of yoking up these agencies for the common welfare. "The day of individualism has passed," he said. "This is an age of teamwork." Mr. Dixon then showed how all agencies of progress are being yoked up and now it is the proper function of the newspaper to be that yoke binding them all together. He illustrated his proposition by citing specific examples of co-operation in Wilson. Other instances of the value of co-operation were given by various members of the institute.

"In developing a settlement into

PLANNING BEST BASKET-BALL SEASON IN HISTORY

COACH PEACOCK HAS GOOD MATERIAL IN HAND—CLASS GAMES PLAYED

Old Commons once more is resounding to the tread of hurrying feet, for Coach Peacock is getting his material in hand, and is planning one of the best Basketball seasons that the campus has seen. Coach Peacock put basketball on the map in Georgia, and it is expected that he will turn out the best team we have had yet. He has some good material. Tennent, Wooten, McDuffie, Folger, Tandy, Scrugs, Buzz Tennent, besides some promising Freshmen are expected to show up well.

The class league has started, and while none of the classes has as yet anything like a representative team, there have been some warm games staged. The Sophomores beat the Freshmen 11-2 in a pretty good game, the Freshmen showing lack of unity. The Juniors beat the Seniors 23-22 mainly through their superior passing work.

It is too soon as yet even to pick the men for the squad, much less for the team. The varsity will not get together for team practice until after the holidays.

Gaul's Holy City will be played at the Episcopal Church, Sunday afternoon at 4 o'clock. All are cordially invited to attend.

CHAPEL HILL HIGHS MEET CHARLOTTE FOR CHAMPIONSHIP

Like a phalanx and a legion will be the meeting of the Chapel Hill High School football team and that from Charlotte on Emerson Field this afternoon. Chapel Hill is a new contender, but the heavy team has gone like wildfire this year and copped the Eastern State championship without trouble. The fast bunch from Charlotte won the State championship last year and with blood in her eye, and the honor of the west to uphold, Charlotte comes to give the husky Chapel Hill pig-skin warriors the tussel of their young yives. It will be remembered that the Charlotte Highs fought the first year reserve team to a tie at the beginning of the season, and this makes them the campus favorite to win. The teams will line-up as follows:

Chapel Hill		*Charlotte*
Hogan	Left End	Wearn, W.
Sykes	Left Tackle	Culp
Crabtree	Left Guard	Barnett
Stafford	Center	Little
Ledbetter	Right Guard	Austin, J.
Williams	Right Tackle	Baker
Hutchins	Right End	Austin, W.
Sparrow	Quarterback	Pharr
Suitt	Left Half	Wilson (Capt.)
Merritt	Right Half	Templeton
Tenney	Fullback	Cochran

LITTLE THEATRE MAKES DEBUT ON FOURTEENTH

WIMBERLY, MERIDETH AND GREEN WILL BE SEEN IN LEADING ROLES

On Thursday, December 14, the Dramatic Club will give its first performance since establishing the "Little Theatre" plan. Three carefully selected, one act plays, will be presented in Gerrard Hall that night, and those wha have followed Carolina dramatics during the past four or five years know that a pleasant evening's entertainment is in store for them. Especially so, when they are informed that stars like Meredith, Green and Wimberly are to play leading roles.

The three plays to be given are: "Old Cronies" by Wimberly and Green, the one playing the role of an old student and the other that of a sea captain. Following this play, Chase and McClamrock will present a one act play entitled: "The Glittering Gate." The evening's performance will be concluded by Meredith, Johnson and Jordan, who will present "Food."

The Dramatic Club will not make a fall trip as has been the custom heretofore, but will content itself by giving this single performance before the student body. Sometime in the spring another set of three one-act plays will be presented. If the new plan proves successful on the Hill, a spring trip may be arranged.

Saturday, Dec. 16.—The Athletic Association will meet for the purpose of electing football managers and assistant football managers and any other officers which may be necessary to create or elect.

LOOKING FORWARD TO BIG TIME AT FALL DANCES

Just four days till Thursday and dress suits will be pulled out of trunks, closets and wardrobes, and the presser will be kept busy for a few days getting things in readiness for the dances. There will at that time be something else besides leaves breezing around the campus. Although at this season flowers are out of style there will be fragrant odors wafted about and the song of the birds in Spring will not be in a class with the soft and mellow gurgle of these Terpsichrean Nymphs. Pleasure will replace sorrow and frill and finery fresh from the tailors will make their debut. At this season men are wont to invoke the aid of Bacchus to furnish the spirit for the occasion but as he has moved one State farther away from us probably the inconvenience will cause him to be absent this time or at any rate to be delayed until it is too late to take an active part in the merry making.

Hats off to Mr. Thornton, "Buzz" Tennent, and company. They have scooped the Tar Heel on all the important news this week. The Press Association News is a real achievement. Is it impossible that the Tar Heel may some time in the dim and distant future be metamorphosed into a metropolitan daily?

BON FIRE CELEBRATION FOR WINNING WARRIORS

MONSTER TORCHLIGHT PARADE SPEECHES BY FACULTY AND PLAYERS

The period of victory for Carolina was closed last Saturday with ceremonies eminently fitted to the occasion. After eleven years of waiting it was only to be expected that the college should break loose when victory over our old rivals was at last secured.

Elaborate preparations had been made to make the affair a success, and great "pep" was shown in building the bon fire and preparing for the parade. At 7:30 everybody who could, squeezed into the chapel to hear and see. Prof. Noble was the leading spirit of the celebration, dividing honors with cheer leader Parker. President Graham and Coach Campbell both made short speeches on Carolina spirit. Several members of the team who were present also made short talks to the effect that it was all very fine, and that they were very glad it had turned out the way it had. Tandy wound up the Gerrard Hall part of the ceremonies, after Dr. Lawson had exhibited the ball which had ben through the mill, by reading a number of telegrams of congratulation from old alumni.

The parade was then formed, the co-eds leading and the ghosts bearing torches of laths and oil

(Continued on Page Six)

CLASS TENNIS TOURNAMENT HAS DRAWN TO A CLOS7

The class tennis tournament which has just drawn to a close is an evidence of the unusual amount of interest being taken in that sport this year. The winners in their respective classes are: Freshmen, Harvey, Capt., and Arrasmith; Sophomore, Feimster, Capt., and Yokely; Juniors, Prince, Capt., and Lynch or Gwynn; and Seniors, Perry, Capt. and Revel. The captains are the class champions and the outstanding players on each team. The tournament started November 1 with 75 entrants, more than ever before in a class tournament. The weather and Thanksgiving holidays have caused the affair to be so long drawn out.

The most interesting matches were between Harvey and Arrasmith, and Prince and Gwynn, while Perry and Revel had to play for two days before a decision could be reached. Prince, Harvey, Feimster and Perry showed up well and with more experience should make good varsity material. The class teams are about equal and the class championship is doubtful, but the odds seem to favor the Juniors and Seniors. The interclass games will be played next spring, the winners of which will receive their class numerals.

The additional courts and fine weather have combined to make tennis one of the most popular sports on the Hill, and it is hoped that the interest now being manifested will serve to produce more varsity material than has been available heretofore.

EX-PRESIDENT TAFT SPEAKS IN GERRARD

ADDRESSES VISITING EDITORS AND THE STUDENT BODY THURSDAY NIGHT

ON OUR WORLD RELATIONSHIPS

Discusses Relations of United States With European Countries—A Record Breaking Crowd

Before a large audience of students, townspeople, and newspaper men Ex-president Taft delivered the opening lecture of the State Newspaper Institute on Thursday night on the subject, "Our World Relationships." More than six hundred people crowded into Gerrard Hall to hear the lecture, filling every available space of standing room in the gallery and on the downstairs floor. The speaker was introduced by President Graham, who, in a short speech of welcome, gave expression to the feeling of admiration and affection with which he said the entire University has regarded Mr. Taft since his visit to Chapel Hill three years ago.

Just before the lecture the Glee Club gave a concert including both vocal and instrumental music. At every selection the club was loudly encored. As the ex-president walked up the aisle accompanied by President Britton of the Newspaper Institute and President Graham of the University, the Glee Club began singing "I'm a Tar Heel Born," and the entire audience enthusiastically applauded.

In discussing our world relationships Mr. Taft first gave a brief history of our international relations in the past. Going back to the time of Washington, he referred to the two chief injunctions laid down in the farewell address of our first president, namely, that in time of peace we should prepare for war, and that entangling alliances should be avoided. "The former of these injunctions we have continually disregarded," de-

(Continued on Page Six)

GOOD WORK OF GLEE CLUB WILL PERFORM AT DANCES

The program of the University Glee Club is now in readiness for any call. This especially attractive program, which is well-ballanced by classical and ragtime numbers will please almost any kind of audience. It consists of string band selections, chorus numbers (some of which are accompanied by orchestra), vocal and instumental solos, and orchestra selections. By almost daily rehearsals since the beginning of October. Director J. Earle Harris has succeeded in arranging one of the most complete and best organized clubs that the University has ever had.

The club gave its first entertainment at Salem College, on Friday November 10. If the enthusiasm with which each number was encored be taken as evidence, the concert was greatly appreciated, for without exception each number was called back. It was only with great difficulty that our new

A GREENHORN ISSUE

Don't kick on this issue of the Tar Heel. The regular staff was needed to edit and get out the Press News Daily, and the journalism class was turned loose on the Tar Heel.

It is reported that the University of North Carolina will raise the standards of entrance to 15 units in 1918. Other Colleges of the State will probably follow the example set by U. N. C.

Just think of it, in 1918, a freshman will be nearly as wise as a soph is now. Ye Gods and little pollywoggles! We shudder to think what heights of intellectual glory a soph of 1919 will have attained!

THE JOURNALISM MEETING

The State Newspaper Institute held at Chapel Hill on Dec. 7-9 sounds the approaching note of a new phase of interestedness in the University atmosphere. It shows that the State and the University realize perhaps as never before the great need of more efficient training in the fields of journalism. It shows another instance of how the state and its educational agent can co-operate in producing effective results.

The High School Triangular Debates instituted a few years ago opened the channel of true co-operative endeavor on the part of both institution and State. These debates were the instrumentalities through which the University made known to the states its ability to serve boys and girls not yet through the high school. The Newspaper Institute will demonstrate to the students and faculty of the University how they in turn can be aided in juts as material a way. In short the meeting of the newspaper men to be held Thursday will be one more link in the great chain of co-operative spirit that was first shown by the institution of the High School Debates.

Every man who has received the vision of service realizes what his duty is to his State when he comes to the University. This vision broadens out into reality as the student comes to realize the fundamental sacrfiice that both States and institution are really making for him. Thus conceiving himself to be not only a product of the State but even more a fundamental asset to and for the State, the thoroughly appreciative student develops first into a receptive medium for instruction. He allows the college to play its instructive role for him. But this stage in his college life in the abstract sense is very brief. Other and more important elements must enter into the process. The impelling force of action must play the oft repeated role. So the recipient of knowledge becomes not a passive, reticent individual but a living, breathing force in college life.

Just as responsibility in college life brings action into play on the part of the student to fulfill his duty to his State and Alma Mater, the newspaper men all over the country are coming to give a definite direction to that action. The men that are making journalism their style of work in life are realizing that they owe the best they have to the people of their respective states; and the consciousness of obligation has fomented the idea of stimulating the minds of the future journalists to the value of preparation.

We believe, then, that the meeting of the journalists at Chapel Hill on December 7 has in itself the promise of more co-operative efficiency. Such an opportunity has never before been offered to members of the student body at Carolina to become acquainted with the details of practical journalism, and we predict that marked and lasting results will accrue. No one can tell what the next move toward bringing the State and University life in closer contact will be, but the steps already taken are too good and lasting to be left alone.

DR. HERTY

In an article published in The Tar Heel a few weeks ago there was a record of Dr. Charles Holmes Herty's life and his achievements as a chemist and as an inventor. This life is a very interesting one and shows effectively the result of an ambitious and determined will.

The boyhood days was carefully guided by aspiring parents, but were not filled with advantages far different from those of the ordinary chap of today. Time soon brought the small boy through his grammar schooling and the ambition to succeed combined with a firm determination carried him through his college days in America. He realized that all the preparation possible was the surest means to a life of high calibre. Then followed in time his European training at the foremost of German scientific colleges.

With this splendid preparation his ability was great, and it was not long before he began to take his place as a chemist of the first rank. After teaching chemistry for some years Dr. Herty came to Chapel Hill where he served for many years. New life was added to the School of Chemistry and with Dr. Herty at its head it became one of the foremost in the South. While at the University Dr. Herty was active in athletics, being chairman of the Athletic Council. The interests of the University were always in the heart of this man and every one liked and admired him.

His interests were never bounded or confined in his own little circle but spread over the whole country. His invention of the turpentine cup put him before the nation as a whole. Millions of dollarshav e been saved by this cup and this fact is recognized everywhere. As an example of his influence in the nation at large he has held the presidency of the American Chemical Association for several years.

It is with keen regret and serious loss that Dr. Herty leaves the University this year. He has always been an enthusiastic student in industrial chemistry, and upon recent appointment he accepted the editorship of one of the leading chemical publications of the world. Here he will have unlimited opportunity to set forth his ideas and in this way to influence the nation and even other nations. It is, we say, a great loss to the University of North Carolina, but we too rejoice in the just desserts of this great man.

Eavesdropping and Interviews

If you think the Tar Heel is surcharged with gems of poetry this week, just remember the journalism class is putting it out, and just look who's in it: *Red* Proctor, Frank Upchurch, and Fitzsimmons. How could the managing editor resist the mighty influx of verse?

When Papa's shoes fall to the floor
At half past nine or ten,
Then Sammy 'lows he can't stay more
—And—kisses Maud again.

But Maude breathes, "No, it isn't late,
You needn't go just yet
Why, it can't be much more than eight."
—And Sammy sighs "My Pet."

For that last kiss they're clinched up tight
At a quarter to eleven,
When Father's boots crash down with might
Like thunderbolts from heaven.

Maud glances swiftly toward the door,
Recalling Father's threats;
But Sammy pleads for just one more,
And what he wants he gets.

When he is taking his ninth "last,"
With Maud 'gainst him jammed tight,
The old clock shows it's midnight past
—There's ne'ry a bit of light.

Then Father's boots fall to the floor
The old man's in them too.
Sam knows he's cut off from the door;
He fidgets—in a stew.

Then Papa's shoes fall o'er and o'er;
'Till Sam's—back's—to his face
Then—does Father's boot fall to the floor?
No—It hits a softer place.

With milk going up and gasoline coming down the signs of the times point unerringly to more automobiles and fewer babies.—Grand Rapids (Mich.) Press.

ENTRANCE REQUIREMENTS TO BE RAISED IN 1918

Following the general movement throughout the colleges and universities of the South, the University of North Carolina is to raise its standard in regard to entrance requirements. Heretofore a high school student has been required to present fourteen full units for an unconditional entrance, while a minimum of twelve units was offered. According to the revised standard, fifteen full units are to be required instead of fourteen with minimum of thirteen units. The question of this change is being put before the Association of Colleges and Preparatory Schools of the Southern States, and is expected to be installed extensively. Such a change will probably help the movement toward decreasing the average of three-year high school courses. This University will not act according to the new requirements until the beginning of the fall term of the year 1918.

"Millions of dollars lost on the election," says a New York paper. Which is merely a pessimistic way of expressing the fact that millions of dollars were won on the election.—Southern Lumberman (Nashville).

"R. F. D." Wall (on leaving the drug store)—"Come on, 'Jock,' let's go up to the school-house."

These Firms Will Give You Two of the Best Seats for the Comic Opera

MARTHA

She Wants a Kodak for Xmas

The Vest Pocket Autographic Kodak

Making Pictures 1⅝x2½ Inches

A small as your note book, it does all that a note book could do and more. The resulting pictures tell the whole story and the date and title beneath each negative, written at the time, make the picture record authentic.

We have the Vest Pocket Autagraphic Kodak at $6.00 or wito Anastigmat lens at $10.00—there is a place for it in your Christmas list.

FOISTER'S

HERE IS HOW YOU CAN SEE MARTHA FREE OF CHgRGE

AT THE ACADEMY OF MUSIC, DURHAM, MONDAY, DECEMBER 11TH

How would you like to have a pair of orchestra seats for the performance of MARTHA (the best seats in the house), without having to pay one cent for them?

Think how delighted you will be listening to the five-star combination in the comic opera MARTHA, which will be presented in Durham, Monday night, December 11.

The firms on this page have purchased eight $2.00 tickets, which will be given away for the aforesaid performance.

You will notice that on this on this page there are four advertisements of prominent Chapel Hill firms. The idea is to write a verse of poetry (a limerick) about each one. Each verse may contain four to six lines, but not more than six lines. As a suggestion, the limerick could express your ideas as to the advantages offered by trading at these stores, but there must be a limerick for each advertiser.

There will be four prizes, one for the best limerick for each advertiser. (Two $2.00 seats to the Monday night performance of MARTHA. In addition to a pair of seats, each winner will receive a libretto of the opera MARTHA, containing the principal ballads with complete words and music.

IMPORTANT—All limericks must be in Post Office box 103 or Room No. 2, Vance by 12 o'clock, Sunday, noon, December 10. Winners will be announced Monday in Chapel, and also on Post Office window, Monday morning. Best limerick for each advertisement will be published in the next issue of the Tar Heel.

It's easy. It means $4.00.

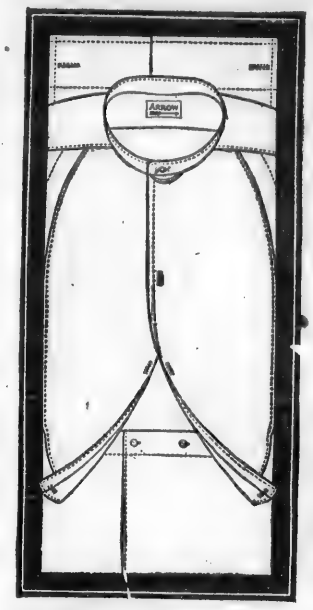
Try your hand.

Here's an illustration:

There's a man in this town, L. A. Bauman,
He is something indeed of a show-man,
And the things he shaws
In the way of men's clothes,
Are the finest on earth, and it's so man.

The contest is open to everybody in Chapel Hill.

ON THE SAFE SIDE



Belle—"And did you slap the impudent fellow's face and not let him kiss you?"

Lena—"No, goosie. I let him kiss me first."—Judge.

Senior (boasting) — "Sure, I can speak Latin. I've had Latin 1, 2, 3, 4. . . . X^{n+1}."

Freshman (earnestly) — "Do you think you could speak Latin to the natives of Latin-America?"

OUR HOME—YOU'RE INVITED

Pages from Dr. Battle's History

The chambers in which instruction was given were called Recitation Rooms. Person Hall, or the Old Chapel, was in 1842 divided by thick walls and large chimneys, so as t omake four of thtse, one to the Latin, one to the Greek, one to the Rhetoric Professor, and one to the Tutor of Ancient Languages. The Tutor of Mathematics had two rooms with partitions removed on the second floor of the Old East, North end, possessing a tragic reminiscence from the futile efforts of an insane student to hang himself therein. The other recitation rooms were in the South building. That used by Governor Swain and that by Dr. Phillips, both on the second floor, had the ambitious names of the University Library and the Philosophical Chamber, respectively, while that by Dr. Mitchell on the first floor, originally designed for a Chapel, was called "the Laboratory." When the Dialectic and Philanthropic halls on the third floor were vacated in 1848 they were used for class purposes. When the members increased so greatly afterward other apartments were brought into use.

The Seniors of those days were specially privileged and as a consequence were expected to show superior dignity and manliness of conduct. They were exempt from attending the most odious recitation, that before breakfast, so that they had one-third less attendance on lectures than the others. This was in accordance with President Swain's policy of dignifying this class. His maxim was "as is the Senior class so is the University." They were presumed to be improving their minds by reading and writing. To them was given a month's holiday anterior to Commencement. This was preceded by "Senior Speaking," original orations being delivered in the "New Chapel," i. e., Gerrard Hall before the public. A student band, generally two violins and a flute or two, furnished the music, which was uncommonly sweet and enlivening. Richard, or "Dick" Weaver was a noted flute player. The orations were of the usual dignity and solemnity, but there was always what was called a "Funny." In 1844 Long was the comical man. I recall only one passage. He began,

"You'd scarce expect one of my size
Before the public gaze to rise!
And if I shall chance to fall below,
Horner high and Duncan low,
Don't view me with a critic's eye
But pass my imperfections by."

Battling Nelson, the pugilist, it was announced today, has engaged specialists to remodel his ears, nose and lips and remove from them the scars of his many battles.

Nelson said he hoped to get married.—Ex.

SOME SPEED

Hi Marx—"Are you athletic?"

Lois Canbee—"O, yes, I'm the fastest crocheter on our college team."

Hi—"Zasso, how fast can you go?"

Lois—"O, about thirty knots an hour."—Widow.

Judge—"What brought you here?"

Student—"Two policemen."

Judge—"Drunk, I suppose."

Student—"Sure, both of them.—Ye Crabbe.

Just Gossip

We resolved to devote Just Gossip to the co-eds at least one time during the year. They did themselves so proud in the celebration, that we hereby dedicate this week's space to them.

Legite, co-eds, et proderit vobis.

If you can dress to make yourself attractive,
Yet not make curls and puffs your chief delight:
If you can swim and row, be strong and active,
But of the gentler graces lose not sight;
If you can dance without a craze for dancing,
Play without giving play too strong a hold,
Enjoy the love of friends without romancing,
Care for the weak, the friendless, and the old;
If you can master French and Greek and Latin,
And not acquire, as well, a priggish mien;
If you can feel the touch of silk and satin
Without despising calico and jean;
If you can ply a saw and use a hammer,
Can do a man's work when the need occurs,
Can sing, when asked, without excuse or stammer,
Can rise above unfriendly snubs and slurs;
If you can make good bread as well as fudges,
Can sew with skill and have an eye for dust;
If you can be a friend and hold no grudges,
A girl whom all must love because they must;
If sometime you should meet and love another
And make a home with faith and peace enshrined,
And you its soul—a loyal wife and mother,
You'll work out pretty nearly to my mind
The plan that's been developed through the ages,
And win the best that life can have in store;
You'll be, my girl, a model for the sages,
A woman whom the world will bow before.

FACULTY ATTEND ASSOCIATIONS

The North Carolina Historical Society was attended this week by Professor Collier Cobb and Dr. Pierson, of the University History Department, both of whom read papers on Wednesday. "The Sovereign State of North Carolina, 1787-1789" was the title of Dr. Pierson's paper. Professor Cobb's paper dealt with "Historic Roads of North Carolina."

Dr. Archibald Henderson has been in Salisbury the past week on private business.

"The only respectable meal I got in New Work was not at the Astor; they had the dancing and the flowers, but you have to go elsewhere to get something to eat." That is the impression Dr. Edwin Greenlaw got of the Astor where he attended the National Association of the Teachers of English last week.

Dr. Greenlaw read a paper on a proposed remaking of the requirements in English for the Master's Degree. This was one of a series of papers on the preparation of teachers of English, in the high schools and colleges.

Dr. Greenlaw stated that about three hundred teachers were in attendance. There were general sessions, and special sessions there being a college section, a high school teachers section, a grammar school teachers section, and a normal section.

The meetings were held in the Astor Hotel, where there were eight other meetings going on at the same time. One session was held in one of the big ball rooms.

Dr. Greenlaw's paper will be published in either the English Journal or the Educational Review.

SOCIALIST CLUB ORGANIZED

Mrs. Rose Pastor Stokes delivered several lectures on socialism to the classes in economics, and on Friday night of last week spoke to the whole student body here. Mrs. Stokes, who is a Russian by birth, has risen in this country from a cigar maker in Cleveland, Ohio, to the wife of a New York millionaire; she is now devoting the majority of her time to arousing interest in socialism in the colleges and universities of the United States.

Her speeches created enough interest here for a socialist club to be organized. V. A. Wilson is Temporary Chairman of this club, which has fourteen members enrolled. The Temporary Chairman reports that the club will be permanently organized in the near future. All students who are either socialists or are interested in studying the various phases of socialism are eligible for membership in this club.

A kiss, says the bachelor, is like a rarebit or Swiss cheese sandwich—something which one often enjoys at night—and always regrets in the morning.—Steubenville (O.) Herald-Star.

This is one of the times to

say

PEPSI-Cola

'Course any time's the time—but just along 'bout noon when shopping begins to get a little wearisome and bundles grow heavier—that's the time especially to say PEPSI-Cola.

And stars in Heaven! How it does drive thirst away? With its cooling "pepsy" tang, you just go right down to the bottom of that long, "ice-bergy" glass and wish it were longer. Try it—now at any fount. Then you'll begin to tell your grocer to leave a case of two dozen bottles.

NEWSPAPER MEN OF STATE MEET HERE

(Continued from Page One)

a community the local newspaper is indispensable," said Mr. C. I. Davis, of the Sand Hill Citizen, in discussing "The Newspaper and Community Development." He declared that the local editor, having the best audience in the world, should make his paper look primarily to the interests of his community. "The birth of Mrs. Jones' baby is just as significant to the local paper as is the attack on Verdun is to the city paper. And if you don't believe it, ask Mrs. Jones." The editor should be a good commentator on passing events and should have at the same time a keen sense of humor.

"Journalism and the State University," was then discussed by Professor R. H. Thornton, Head of the Department of Journalism in the University and one the chief promoters of the winter Institute. Mr. Thornton outlined the work in the teaching of journalism now being done here and at other schools. "College trained journalists," he said, "are no longer the exception but have become the rule."

PRESIDENT GRAHAM SPEAKS

"It is a pleasant task," said Dr. Graham in his welcoming address Friday morning, "to welcome the men of the News Institute to the University, for this institution belongs to no one class of people, but to men in every walk of life. Thirty years ago this might not have been said, for then University was supported largely by private means, and many of our buildings were built then by private subscriptions. The University has been in the last ten years a public institution to all men. We may say that now we beg men to come here to learn.

"A glance at the statistics of both winter and summer sessions will show that the numbers now taking advantage of what this institution has to offer are three times as great as those three years ago. Men come here from every walk of life, the sons of farmers predominating at the present time.

"The four leading professions have 172 sons here, the four leading trades 599. All denominations are represented, the Baptists leading with 317. Ninety-four of 100 counties have representatives: 92.6 per cent of the students are North Carolinians, 70 per cent earn a portion of their own expenses.

"These facts show us to be an institution of the people and for the people. The newspaper men are invited to come here, not to be taught by us, but that we may be a medium through which knowledge may be spread, and given to the great bulk of the people which both newspaper and University try to reach. We may co-operate with each other in relieving and solving the great problems of the people in both prosperous and stunted communities. The country newspaper should do everything in its power to healthfully develop the community in which it is. Just as the University is the product of the ideas and feelings of its own community, so it is with the newspaper.

"And we welcome you heartily and sincerely hope that your next stay will be soon and for a much longer period, for such meetings spread the true spirit of progress."

PROMINENT EDITORS PRESENT

Most all parts of the state were represented by editors, and there were many from outside of the state. The following are some who attended the meetings:

J. W. Atkins, Gastonia; R. F. Beasley, Monroe; W. T. Bost, Raleigh; J. D. Bivins, Albemarle; Mrs. J. C. Boylin, Wadesboro; H. G. Braxton, Kinston; E. E. Britton, Raleigh; D. A. Coble, Oxford; J. H. PHI'S HOLD PRELIMINARY FOR SOPH-JUNIOR DEBATE

The Phi society prelimary for the Soph-Junior inter-society debate was held on Monday and Tuesday nights of this week. W. H. Stephenson and F. G. Miles were the successful contestants. The query is: Resolved, That the United States should adopt a system of compulsory social insurance based upon that now in operation in France, England and Germany. The Phi debaters have the affirmative side of tht query. V. H. Wilson and W. C. Eaton, who were selected in the Di preliminary of last week will defend the negative.

EX-PRESIDENT TAFT SPEAKS IN GERRARD

(Continued from Page One)

clared the ex-president, "while the latter we have scrupulously followed. If Washington were living today, I think that he would say that we ought to reverse our position in the respect and pursue a policy of preparedness and association with other nations."

Mr. Taft then took up our former altercations with other countries in their relation to these two injunctions of Washington. In our war with England in 1812 he showed that we were totally unprepared and were, therefore, unable to gain a single notable victory before peace was declared. In our war with Mexico we were also unprepared, but were successful solely on account of the feebleness of our opponent. After the Civil War there came a reaction in the United State against anything verging on militarism. Isolating ourselves as much as possible from all other countries, we began to neglect our army and navy. As a result of this policy of unpreparedness we found ourselves in Cleveland's administration with only one modern gun to guard our coast line. In our latest struggle, the war with Spain, we were again victorious, but not to any credit of our own, for we were fighting the feeblest nation in the world with the possible exception of China.

Today, however, Mr. Taft declared, the American people are coming to favor a policy of reasonable preparedness rather than the inefficient, blundering policy of the past.

"There is a liability in our foreign relations that we ought to consider," decarled the speaker As our country has been expanding from thirteen states to 48, our interests have been becoming more varied and our responsibility greater. We now have the Philippines, Alaska, Porto Rico, Cuba, and Hawaii, and other island possessions to look after. We have Mexico, 'that international nuisance,' to claim our attention. We have the problem of Japanese and Chinese immigration, which has so perplexed our statesmen during the last few years. We have the Monroe Doctrine to uphold, which is liable at any time to embroil us in difficulties with other nations. And finally, we have the great European conflict as a constant menace to our peace and prosperity. No one now denies that the war does effect the American people."

In conclusion Mr. Taft advocated the establishment of a league to enforce peace, to embody the following provision: Firstly, questions between nations that cannot be settled on the principles of law and equity shall be submitted to a court of arbitration; secondly, questions that cannot be settled on the principles of law and equity shall be dealt with by a council of concilation; thirdly, if any one nation attempts to wage yar against the decision of all the other nations, the members of the league shall combine against it; fourthly, international congresses shall be held for the consideration of international questions.

EXCELLENT WORK OF GLEE CLUB

(Continued from Page One)

violinist, Luther Lashmit, was able to leave the stage at all. The work of Earl Harris, pianoist, was also a popular feature.

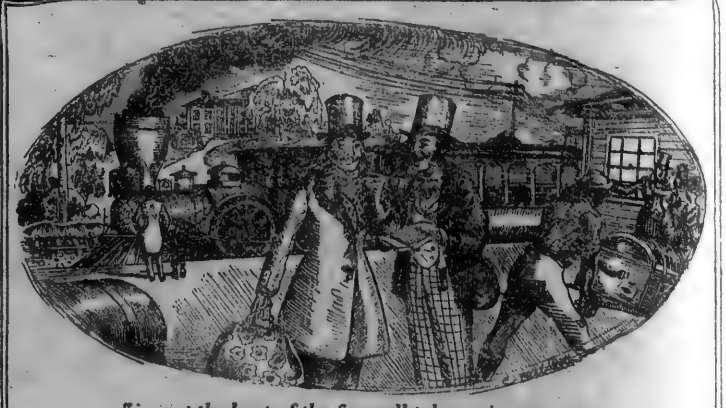
On Thursday evening the club rendered a part of its program before the editors, who were on the Hill, attending the State Press Association. Their efforts seemed highly appreciated by them.

Last night the club gave an entertainment at Salisbury and tonight the State Normal College will be entertained by them.

Manager E. S. Hartshorn announces that the club will end its fall work by giving a performance on the last night of the dances.

BIG BONFIRE CELEBRATION HONORS WINNING WARRIORS

(Continued from Page One)



bringing up the rear. The team and the band rode in state in two wagons near the head of the procession. The parade went through the town, where it was greeted with broad grins, and then down to the athletic field where the great pile of combustibles had been reared with Carolina and Virginia pennants floating on poles at the top. A coffin bedecked with Virginia's Orange and Blue was placed on the heap and Captain Tandy applied the torch. Soon the wood, "spiked" by 15 gallons of oil, was blazing merrily and shooting flames upward to a benign sky. And then everybody danced about until they could dance no more and roared out cheers until every throat was in shreds. Folger and Tandy amused the crowd by ambling about on Virginia's mule, and Homewood's goat showed his pleasure at being once more at Carolina. "We've got Virginia's goat at last."

It was a great celebration, everybody says, and the game was worth it. Everyone feels that the plan of the ceromony is a good one to follow next year.

CHARLOTTE HIGH SCHOOL WINS CHAMPIONSHIP GAME

RITCH'S VETERANS TOO STRONG FOR CHAPEL HILL HIGH ELEVEN

Fully 2,000 people saw Charlotte decisively defeat Chapel Hill last Saturday in the final game for the High School Championship, 36-0. While Charlotte was clearly the favorite before the game, no one expected such a sweeping victory. Chapel Hill had been steadily improving, but were too inexperienced for Coach Ritch's seasoned veterans.

"Chuck" Pharr proved himself to be an able general and managed the team like an old hand, besides carrying the ball well. Most of Charlotte's advances were made around the ends. Aided by perfect interference both Templeton and Pharr were able to circle the local flanks for substantial gains.

Forward passes were a big factor in aiding the Western attack, Austin receiving one behind the goal line.

Chapel Hill showed rather a weak offensive. Tenney was unable to gain because of the loose interference he was given, the Charlotte secondary defense tackling cleanly and allowing but small gains. The local team registered only five first downs to 27 for Charlotte. Toward the end of the first half, Chapel Hill seemed to have almost secured a touchdown. Sparrow caught the kickoff and ran it back to the 40-yard line. Chapel Hill then for the first time during the half showed real fight and fairly rushed the Western champions

ATHLETIC COUNCIL AWARDS LETTERS

The Athletic Council has awarded letters and stars to seventeen men of the football squad. The Athletic Association has ordered sweaters for those awarded this distinction and they will be presented to players immediately upon arrival. A committee of enthusiastic undergraduates have collected $50 toward buying each member of the team a gold football emblem. Another $50 is necessary.

Letters—Folger, Bellamy, Harrell, Williams, Borden, Coleman, Tennent, Fitzsimmons, Crawford, Proctor, Johnson, Currie.

Stars—Tandy, Tayloe, Ramsay, Love, Grimes.

Manager's Monogram awarded to Coleman.

What's to Happen and When

Mon., Dec. 18—President Graham in Chapel. North Carolina Club meets at 6:45. Carolina-George Washington Debate in Washington.

Tues., Dec. 19—E. K. Proctor in Chapel. Hawaiian Quintet in Gerrard Hall, 8 o'clock.

Wed., Dec. 20—F. F. Bradshaw in Chapel.

Thurs., Dec. 21—Student Forum in Chapel.

Fri., Dec. 22—Music in Chapel. Christmas Holidays begin, 1:30 P. M.

E. E. BARNETT

EUGENE BARNETT SENDS REPORT OF YEARS WORK

CAROLINA'S PILOT ON MISSION FIELD ACTIVE

Eugene Barnett, an alumnus of the University and for six years Carolina's representative in the mission field of China, has just sent in his annual report for the year ending September 30, 1916, to the secretary of the Y. M. C. A. Mr. Barnett, on a return visit to Chapel Hill last year, addressed a large audience of students on his work and prospects in China. Since he resigned his position here as secretary of the Y. M. C. A. to accept the secretaryship of the Y. M. C. A. in Hangchow, Mr. Barnett has been supported almost entirely by voluntary subscriptions from the students of the University.

In commenting upon the success of mission work in China he says: "The old skins are giving way

(Continued on Page Six)

GLEE CLUB ENDS A WEEK OF ACTIVITY

Being inspired by the picked beauties of the State, who were attending the fall dances, the Glee Club was able to cover itself with glory on Friday night, when it gave its last concert before Xmas, in Gerrard Hall. From the opening chorus to the "grand finally" each number was applauded with the enthusiasm worthy of a "Broadway Star." Hester expressed the universal feeling of the club when he said, "Who could not sing when he looks into the broad, beaming countenances of so many Old North State beauties whose eyes seem to say, 'George you are doing well and I'm for you'."

Luther Lashmit was again a star with his violin work, while J. Earl Harris continued his good work at the piano. The orchestra and mandolin club were also outstanding features and received more than their share of applause not only here but wherever the club played.

On Friday 8, the club was in Salisbury where they played to a small but appreciative audience. After the concert they were given a dance and showed every attention which made the evening very enjoyable to them.

On Saturday night the club played before the State Normal College to one of the largest audiences that it has ever played to.

UNIQUE FALL DANCES NOW IN FULL SWAY ENJOYABLE SUCCESS

FIRST DANCE GIVEN THURSDAY NIGHT BY JUNIOR ORDER GORGEN HEAD

This week is one of the three most eventful in the fall semester. It is hard to decide which is the most momentous; Thanksgiving, the Dances or Christmas. There seems to have been a sentiment in favor of Thanksgiving heretofore, but a change has been evident since Thursday night. For then the dances began. The first was given by the Junior Order of Gorgon's Head. Frank Shamburger was the dance leader. Wilson Dalton and Bruce Webb, assistants.

Friday night the German Club gave its annual Fall hop with Henry Stevens leader, and Piggy Parker and Priestly Conyers as assistants.

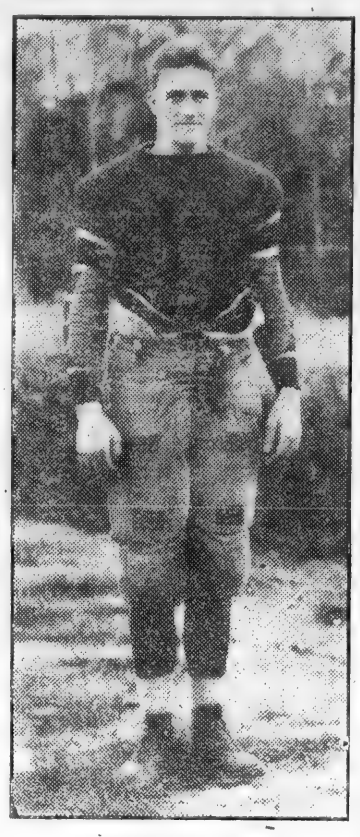
Most of the week decoration committees were at work fixing up the gym with evergreens and festoons of bunting. A different decoration scheme will be followed for each dance. While speaking of decorations we might say that

(Continued on Page Six)

PRIZES TO BE GIVEN FOR EXCELLENCE IN ENGLISH

The English Department has just announced two prizes to be given this year for excellence in English. A copy of Dr. Battle's History of the University is offerde to the freshman who does the best work in English. Dr. Battle will be asked to autograph the copy. Also ten volumes in the World's classics series (Oxford University Press) are offered to the undergraduate who publishes the best verse in the University Magazine during the year. The volumes are to be chosen by the winner.

In addition to these the regular prizes will be awarded as usual. The Mangum Medal will be given to the senior who delivers the best oration at commencement. The Bingham Prize will be given for the best Junior speaker in a contest held commencement week. The Early English Text Society Prize will be given for advanced work in Anglo-Saxon and Middle English. The Preston Cup will be given for the best work done of a journalistic nature.



ATHLETIC ASSOCIATION ELECTIONS SAT. 2:30

The election of a football manager and two assistant managers for the varsity team will take place Saturday in the Chapel at 2:30 o'clock. Important business is to be taken up.

Ray Armstrong and Bruce Webb are the candidates for manager.

Donald Cobb, Walter Feimster, Jack Powell, and Tom Wood are candidates for assistant manager by virtue of their services as sub-assistants this year. Any other member of the present Sophomore class is eligible for assistant managership.

Election of a manager and two assistant managers for the Freshmen Baseball squad will also take place.

CAPTAIN FOLGER

FOLGER ELECTED CAPTAIN CAROLINA FOOTBALL TEAM

WILL PILOT TANDY'S FAMOUS CREW NEXT FALL

Probably one of the most interesting questions in the minds of the student body was decided last Wednesday afternoon when the captain of next years football team was elected. Only two candidates for the honor were named; one being a man who has worked faithfully on the team for three years and who may rightly be said to have been one of the main stays in the line; the other being raised to a stellar position both as a football

(Continued on Page Six)

MUSIC SERVICE AT CHAPEL OF THE CROSS

Last Sunday afternoon, "The Holy City," an oratorio by A. R. Gaul, was given at the Chapel of The Cross by the regular choir and Miss Harris, of Henderson, soprano, and Mrs. Burdick, of Chapel Hill, contralto. The University orchestra played the accompaniment.

The performance was very enjoyable and, in places, approached the artistic. The chorus of twenty voices showed a surprising amount of volume and reflected much credit on Mrs. Winston, the director, by the precision and accuracy with which they sang.

Miss Harris, in solo work, sang with much expression. The tones of her upper register were very clear and true, though her lower notes were a trifle hoarse.

The "Holy City" is one of the most popular of the easier oratorios. The words are from the Bible, hymns and Milton's "At a Solemn Musick." The music is comparatively simple though there are a few elaborate contrapuntal and antiphonal effects in the biggest choruses. For the most part there is a pleasing melody throughout and in no place is the harmony unpleasantly close.

The performance of this oratorio is the first of a series of Sunday afternoon music services the choir has planned.

DRAMATIC CLUB PLAYS TO APPRECIATIVE AUDIENCE

"OLD CRONIES," "THE GLITTERING GATE" AND "FOOD" PRESENTED BY CLUB

The Little Theatre regime was inaugurated on the Hill last Thurday night when the Dramatic Club gave three sketches, "Old Cronies," "The Glittering Gate," and "Food."

In "Old Cronies" Wimberley poses as Dr. Jacks, who is a sufferer from Dictionary-making bacteria, and Dumpy Green as Captain Pigeon, a middle-aged, blustering English squire, who is in love with the money of Olivia Jones, and desires to marry the lady. But how to propose? The matter is settled by Dr. Jacks, and a telegram is sent. The lady had, however, accepted another lover in the meantime, and Pigeon is mercifully permitted to remain a bachelor. The sketch was played well, throwing the audience at times into roars.

"The Glittering Gate" of Heaven is assaulted by two deceased burglars, one of whom, impersonated by McClamrock, drinks beer from empty bottles while the other dip attacks the gate of gold with a "can-opener." His efforts are fruitless, and the sketch closed dramatically with them gazing at the impenetrable wall.

Do you think about posterity? Then do not eat so much, for soon only billionaires will be able to afford eggs. "Food," the last sketch on the program, brought before the audience the probable scarcity of food in 1962. A sumptuous supper of a cracker and a glass of water diluted by a drop

(Continued on Page Six)

HAWAIIAN QUINTET WILL PERFORM HERE TUESDAY

On Tuesday evening at 8 o'clock Chapel Hill will receive the first Hawaiian quintet that has ever visited this part of the country. This will be the first of the delightful entertainments to be given under the auspices of the Lyceum Bureau of the Y. M. C. A.

Throughout the country, the several Hawaiian troupes have been creating wide excitement. The talking machine companies are finding it quite difficult to supply the tremendous demand for records of Hawaiian music. Therefore, it is doubtful if the South will be entertained by a more popular number this season than the Waikiki Hawaiian Singers and Players.

A popular program will be rendered, including the songs of Hawaii sung in native tongue. The company will appear in native costume.

This quintet was booked by the Lyceum Bureau through the Alkahest System of Atlanta, an agency widely known for the high type of its feature attractions.

Tickets will go on sale at Eubanks' on Saturday.

H. S. Willis, A. B. 1914, Assistant in Biology at Johns Hopkins 1914-15, has recently published a paper in the Biological Bulletin entitled "The Influence of the Nucleus on the Behavior of Amoeba."

Some latter-day Solomon has said: "The worst thing about being a Freshman is that one has to be a Sophomore next year." Selah!

In the language of the Bynumites: Of all sad words of tongue or pen The saddest are these, *Cold Water Again!*

It is more profitable to have a poor course under a good professor than to have a good course under a poor professor, as we all know.

From our edition of Shakespeare especially revised for Freshmen: "A pony, a pony, my kingdom for a pony!"

Then too, an onion by any other name would smell as sweet.

Ice-water may be all right as a beverage but as a bathing commodity it can hardly be expected to receive a warm welcome.

The favorite flower this Christmas, we hear, will be, as formerly, the mistletoe.

The Tar Heel Editorial Board wishes to take this opportunity of thanking and congratulating the Journalism classes which put out last week's Tar Heel.

Now that we have finished will our dance cards it might be well to pay some attention to the cards that Dr. Wilson has made out for us with Dean Stacy. The order of this dance, it is rumored, will be first a hesitation, next a fox trot and then the closing number of the strains of the Probation Blues.

CAROLINA DANCES, OLD AND NEW

We had wanted to write something on the dances,—something bright and delicate, you know, charmingly descriptive and full of luscious phrases (hello! here we've written at least three lines of society dope and haven't used a French word yet; *mon Dieu*, we must get busy)—but *helas!* we found that all had been said that was sayable some 22 years ago in one of the issues of the Tar Heel for 1893. *Mordieu, parbleu,* and also *mille tonneres!* What were we to do?

Realizing that there is no new thing under the sun, we calmly had to give up all hopes of creating anything original and had to resort to the base expedient of quoting.

The Torrent of Terpsichorean eloquence of the 1893 Tar Heel scribe who said it all ran as follows:

"That day—it was the seventh—the noon train brought several of the angels from the west and the night train another heavenly choir from the capitol and our sister city, Durham. When the band began with the opening strains of the Dude's March, the array of grace and loveliness was enough to satisfy the most optimistic dreamer, and those who had prophesied a german of 3 couples" were silenced forever. From 10 o'clock until the wee, small hours, youth and chivalry vied with grace and beauty, and the mazy figures of the german under the skillful leadership of Mr. W. B. Snow, changed like the colors of some huge kaleidoscope, and with the ease and tact of a Beau Brummel he led the Golden Pageant through memerious windings and fanciful turns of a surpassing loveliness. After the lingering, throbbing strains of *Home, Sweet Home* had died away,"—but why continue. It is enough to show that in those days the Muses inhabited even the newspapers.

That was in 1893. The Carolina dances, even at that time were a fixed institution, 60 years old. Today they are 83 years of age. By mental arithmetic, Gentle Reader, you have doutless calculated that the first dances were held here in 1833. You are quite right.

In 1833 the students petitioned the Trustees for a ball. In their petition as we find in Dr. Battle's History they said, in part:

"Since on this retired Hill of Science we are precluded from the improvement of society we feel an inevitable drawback on our literary acquirements. . . . Waiving all personal considerations we strenuously advocate 'this ball' as promoting the best interests of this institution—and as contributing much, very much, to the gratification and pleasure of the adored fair who honor us with their presence on that Universal Jubilee."

What could the Trustees say to that?

They granted the petition and the dances lived happily ever afterward. Once, however, in 1849 it was, there was a shadow of serious trouble. The Ball Managers had ordered "a quantity of spirituous liquors, in addition to wine which was not forbidden, chiefly for visitors, including several Trustees. Some students broke into the room where the stores were deposited and a carousal ensued." The faculty wanted to ship the offenders but the Trustees came to the rescue and saved them.

In the early days there were, of course, no Fall Dances and Easter Dances, only Commencement Balls.

The number of ladies dancing varied from less than 20 to more than 70.

The Chief Ball Manager was elected by the student body. He appointed six assistant managers, three from the Di Society and three from the Phi.

Reels, waltzes, square dances, german figures, and cotillions were some of the dances that used to be popular.

The orchestra was most often an inky resident of Chapel Hill who played the fiddle.

The Dining Room of the chapel Hill Hotel was the dancing floor about 1840; later the Law Building was used but its floor was too hilly and infested with cracks to make a good gliding-ground; about 1890 the Inn was the home of Terpsichore.

Such is a snapshot of some of the facts of the History of the Carolina Dances. But the true history of the dances, with all their gaiety, romance and disappointments, is something beyond the power of words.

NEWSPAPER INSTITUTE CLOSES BRIEF SESSION

The first newspaper institute of its kind ever held in North Carolina came to an end on Saturday morning after a busy session of three days. During this time more than a hundred newspaper men from all parts of the state heard discussions on various phases of newspaper work by prominent journalists of the state. In addition to these discussional meetings held in the Dialectic Society Hall, lectures by Ex-president Taft, Talcott Williams, and Walter Williams were widely attended by students and townspeople as well as by editors and reporters.

One of the unusual features of the convention was the publication of a four page newspaper, the "Press Institute News," the first daily ever printed at the University. By means of a full-leased wire service the paper was able to furnish the newspaper men with the most recent news of the day. Local news of interest to the members of the institute was also given a place in its columns. With the exception of the editorials which were written by prominent editors attending the convention the entire paper was edited by members of the journalism class.

It is intended by the promoters of the institute that it shall become an established event at the University. It is hoped that an increasing number of newspaper men will avail themselves each year of the opportunity of meeting together at their University and discussing together the common problems of newspaper work.

BANKING CAPITAL DISCUSSED AT NORTH CAROLINA CLUB

"Banking Capital in North Carolina," was the subject of Marion Fowler's paper before the North Carolina Club Monday night. He gave a very interesting account of the amount and distribution of the banking capital of the State, and interpreted this distribution in its relation to the accumulation of rural wealth.

The next meeting will be held on Monday night, December 18, when the subject of "Manufacturing Capital in N. C.," will be discussed. At this time there will be a debate as to whether the Southern farmer is justified in raising cotton while he buys his food and feed-stuffs.

What is a disinfectant? Opinions may differ, but probably almost any substance that smells more violently than anything else in the vicinity.—St. Louis Globe-Democrat.

Clyde C. Miller was initiated into the Senior Order of the Golden Fleece Saturday night.

ARTICLES AT LOST AND FOUND BUREAU

And they say we are in the midst of a period of hardtimes, where a dime looms up like a dollar—but the Lost and Found Bureau has the following unclaimed articles:

Two Mandolin Strings, 1 Pair Glasses, 3 Fountain Pens, 6 Knives, 1 Watch Chain, 1 Scarf Pin, 1 Physiology Note Book, 6 Cuff Buttons, 1 Ring, 1 Lab. Key No. 134, 1 Spectacle Case, 2 Pencil Clips, 1 Wooley's Hand Book, 1 Botany Book, 23 Caps, 2 Hats, 1 Gym Shirt, 1 Plautus Menaechmi, 1 First Year Latin Book (Cicero), 1 Latin Sight Reader, 1 History Note Book, 1 Lincoln Penny, 1 ——? It might have been a guitar once—come and see it.

Seven stanzas on kissing, each emanating from a different editorial office, suggest a reprehensible journalistic tendency and the undoubted presence of a great many "wicked partners" in the business. Does anybody suppose that this is one of the results of the establishment of schools of journalism at our universities?—Columbus (O.) Dispatch.

WANTED

A room mate at Mrs. W. B. Thompson's. Electric lights and heat furnished. Very desirable room. For further information see or write E. S. Hogan, Chapel Hill.

The other day an unnameable freshman asked if Dr. Battle was "that Hinton James fellow."

Pages from Dr. Battle's History

Many students remained at Chapel Hill during the winter vacations. Those who went home in the winter had dreary times getting back over, and under, the miry roads. Eastern students came through Raleigh and Oxford, Westerners through Hillsboro, those from the Southwest by Fayetteville. The mail was carried in huge conveyances, called stages, drawn by four horses, and reached Chapel Hill three times a week from the East, about nine o'clock at night; three times from the West, about midday. The drivers were superior men and very popular. When a mile or two from the Post Office they were accustomed to blow long tin trumpets, usually called horns. It is impossible at this day to realize how exquisitely beautiful this music was in a clear cold night, the rattling of wheels over the stones being a fit accompaniment. Nor can those who are accustomed to daily mails imagine the thrilling excitement which stirred the breasts of their grandfathers at the opening of the triweekly mails from the East. The students and most of the male villagers collected at the Post Office and great was the crowding and the struggling when the one-eyed postmaster, Esquire McDade, after long delay, opened the door. A single letter or newspaper was a prize. The majority received nothing. If the letter contained money the owner hurried off with his intimate friends to a treat.

Most of the travel and trade of this section went to Raleigh and during the winter the roads, cut up by the heavily loaded four-horse stages and wagons, became almost impassable. The notice posted at a Virginia cross-road was not a great exaggeration, if applied as well to some of the pipe-clay stretches between Chapel Hill and Raleigh.

The road is not passable,
Not even crossable.
Who wants to travel,
Must bring his own gravel.

The Elisha Mitchell Scientific Society held its 227th meeting Tuesday. Two papers were presented to the Society: "Shrapnel in the Making" by Professor A. H. Patterson and "Recent Work in Crystal Structure," by Dr. J. M. Bell.

Mr. B. F. Auld was elected to membership in the Society. Messrs. R. D. Ballow, R. Armstrong, H. B. Mock and E. L. MacKie were elected to associate membership.

EDUCATION

Bobby does a bit of drill,
Can explain a beaver's actions,
Draws a complicated tree—
Bobby can't divide his fractions.

Betty prates of proteids,
Croons a folksong of each nation
Sways in dance symbolical—
Betty can't spell "Separation."

Bob and Betty go away
For vacation, each inditing
Letters home, quite bright, no doubt—
But we cannot read their writing.—Ex.

Every color has its effect on the human mind. To feel prosperous stuff your pockets with long green. —Oklahoma City Oklahoman.

Life is like a woman's complexion, what we make it.—Los Angeles Tribune.

Just Gossip

According to reports from Charlottesville, an epidemic of "brokitis" has swept the place since last Thursday. On the other hand, statistics gathered from the Chapel Hill drug stores show a record breaking sale of chocolate shakes during the last week. We can sympathise with the poor Virginia boys, for we have not been spared symptoms of the malady toward the end of the month on more than one occasion. The dances next week will probably bring on several chronic cases of it in our midst, so we warn everyone to be on their guard. A broke man should be shut up in the pest house, for the condition is very contagious and unpleasant. It often takes as long as a month to recovery from acute cases.

There is only one way to treat a broke man. Here is the formula we have found efficacious. When he walks up to you down the street and remarks on how little rain we have had lately you may know he's just getting ready to say that everything's mighty dry, and he's no exception, and a good chocolate shake—etc. About that time you should look at your watch and say, "By the way. I've just got time to go up and write home for a check. They must have forgotten I'm alive." If he grabs you by the coat collar so you can't break away, just stand there until he finishes suggesting that a nice drink would be a pleasant break in the monotony of life, and then say, "Is that an invitation or a threat?" While he's laughing at this unusual display of wit, you can break away and say you've got to get your mail or something. If you are unsuccessful just tell him you feel that this is a very delicate compliment, and that you had no idea you looked so prosperous. If he can't take that hint, you might as well take him on over to Eubanks and wreck a dime on him.

Bill Folger has had trouble in the opposite way lately. It keeps him busy refusing drinks. He has found that the only way to handle the matter is to keep books on it. He says that every time he receives an invitation and does not accept, he simply jots it down and considers it a debt.

LATIN-AMERICAN CLUB MEETS

The Latin American Club held an unusually interesting meeting Monday night. The attendance was good, and the discussions were live and entertaining.

The first paper was by C. C. Miller on "Mountains, Rivers, and Harbor," in which he took up in detail all the principal mountain ranges, traced the important rivers and waterways and described the splendid natural harbors of South America.

D. E. Eagle discussed the "Land Systems in Latin America" until he dissipated his knowledge of the subject, when Dr. Pierson came to the rescue and added very largely to the preceding remarks.

The next meeting will be held January 8. At that time the following subjects will be discussed: "Agricultural Lands and Possibilities," "Agricultural Products," and "Stock Raising in Latin America."

Swimming advice: "When diving fill your lungs with air instead of water." You'll live longer, is the advice given his readers by Editor Methvin, of the Eastman Times-Journal. — Macon (Ga.) News.

one of the times to say

PEPSI-Cola

Just when you get home in the evening, after a long, hot, sticky day—and you're tired and thirsty—THAT'S the time to say "PEPSI-Cola" to "friend wife."

That long, thin, tinkly, "ice-bergy" glass just seems to sharpen up appetites for dinner and gee! how it does drive thirsts away!

Just try it—any fountain serves it—and any grocer can leave a case at home.

Athletic Notes

We may say in conclusion that the High School championship final was nothing if not brief. Generally this minor football league dies a lingering death, and those defeated shout their cries of agony and despair and rage at the deaf ear of the god of athletes, whoever he is. One feature this year then was the "sans pep" of the whole business. Even Mr. Rankin might complain of the lack of vocal attention he is receiving.

You may not have realized it, but the tennis enthusiasts have about decided to give the old courts a much needed rest. This again digs up the great problem of the unemployed. We have economic trouble in our midst if we but looked for it hard enough.

We might say in passing that the water heater in the gym. is the cutest thing around here. Wouldn't it look cute as the setting in a ring—a Be-ring, say?

It would seem at first glance that the Sophomores refuse to yield to precedent and let the Freshmen win the Basketball League Championship. At last glance we discover an inability on the part of the above gentlemen to lose—they have won four straight.

When is a Gym not a Gym? Why, when it is ajar—from people cavorting around the gallery on their heels.

A Minnesota boy is named Water Melon. His parents must have been named Mush Melon.—Deseret News (Salt Lake City.)

DR. W. S. BERNARD SPEAKS AT Y. M. C. A. MEETING

That we ought to follow the spirit of Christianity rather than its creeds or doctrines is the opinion of Dr. W. S. Bernard, who spoke at the Y. M. C. A. meeting on Tuesday night. Starting from the founding of Christianity at the birth of Christ, he traced briefly its development up to recent times. He showed that the tendency of the Protestant religion has been to lessen the emphasis that was formerly laid on creeds and tenets. However, he declared many of us still follow blindly the orthodox beliefs of our fathers instead of thinking out these questions for ourselves.

"Jesus did not teach dogma and doctrine," declared Dr. Bernard; "he taught practical lessons for everyday living. The heart and soul of Christianity doesn't lie in its dogmas but in its great ideal, the brotherhood of man. This ideal is the leaven that is doing the work of civilization. It is the force that is back of the present day movements for social betterment,—the Socialist movement in Germany, the red cross campaign to combat tuberculosis and the fight now being waged against unsanitary conditions."

CHARLOTTE HIGH SCHOOL WINS CHAMPIONSHIP GAME

(Continued from Page One)

from their feet, making first down after first down. With the ball on Charlotte's five yard line and third down the whistle blew for the half.

Chapel Hill suffered largely from individual playing, showing a marked contrast to Charlotte, which worked like a machine. The game was featured by long runs, Charlotte backs whirling and side-stepping through broken defense for repeated gains of 20 and 30 yards. McDonald's 45-yard spin in the last period was the best example. Tenney and Merritt starred for Chapel Hill; Templeton, Pharr, and Austin for Charlotte.

The line-up:

Charlotte	*Chapel Hill*
Wearn, W.	Hogan, J.
L. E.	
Culp	Sykes
L. T.	
Barnett	Crabtree
L. G.	
Little	Stafford
C.	
Austin, J.	Ledbetter
R. G.	
Baker	Williams
R. T.	
Austin, W.	Hutchins
R. E.	
Pharr	Sparrow
Q. B.	
Wilson, Capt.	Suitt
L. H.	
Templeton	Merritt
R. H.	
Cochran	Tenney, Capt.
F. B.	

Score by quarters:

Charlotte	0	15	7	14	36
Chapel Hill	0	0	0	0	0

Touchdowns — Templeton, 2; W. Austin, Wilson and Pharr. Tenny scored a safety. Goals, Austin 4. Officials, Tandy, Referee. Folger, Umpire. Currie, head linesman. Dr. Daggett, timekeeper.

Substitutions — Charlotte, Miller for Wearn; Tenney for Austin, McDonald for Pharr, Pharr for Cochran, Cochran for W. Austin, R. Wearn for Templeton. Chapel Hill, W. Hogan for Hutchins, H. Hogan for J. Hogan.

It has just about gotten so in this country that everybody is demanding recognition, except escaped convicts.—Dallas News.

Suppose Fatimas were NOT Sensible

It isn't possible to fool men for long. Lincoln said that better than we could. ¶ Surely, if Fatimas were not as comfortable to the throat and tongue as we say they are—if they did not leave a man feeling keen and *"fit"* after a long-smoking day—do you suppose that more Fatimas would be sold every day than any other high-grade cigarette? ¶ Remember these facts as you try Fatimas and observe how comfortable, how *sensible* they really are.

Eavesdropping and Interviews

"Allow me to interview you for the Tar Heel."

The very literary Senior laid down the Christmas number of Life and nodded. "Go to it," he replied in elegant phraseology.

"How long have you been in the University?"

"I declare I've forgotten, it's been so long."

"Are you a Senior?"

Unable to conceal his disgust that even an interviewer should assume such wretched ignorance he merely nodded.

"What have you got out of College Life?" continued the Interviewer, oblivious to the rebuff.

A significant silence followed.

At length he answered, "Nothing that I can say."

"You mean that you have got quired the Interviewer in a tone professionally impersonal.

"Oh no, I've got something, quite a lot I reckon. . . but nothing tangible."

"Thank you," said the Interviewer and passed on.

In another part of the Library, the reference room, a second Senior sat surrounded by big books in black bindings.

"I am interviewing representative Seniors," began the Interviewer by way of introduction, "may I have a few words with you?"

In an affable manner he pushed aside twelve or fifteen volumes and made room at the table.

"How long have you been in the University?"

He knew the answer to the first question, "This is my fourth year."

"And what have you got out of College Life?"

"I don't know."

"Anything?"

"Oh yes, quite a lot, but—ask me something else."

"What have you enjoyed most?"

"I don't know."

"How have you spent most of your time?"

"I couldn't answer that either."

"What have you worked hardest over?"

"Latin and Greek. Wait a minute, that's something I've got out of College Life, an appreciation of Classical Literature."

It sounded well and the Interviewer was duly impressed.

"You really enjoy the original?"

"Yes I do."

"Without a jack?"

"Well, College hasn't taken away my appreciation of a jack."

"Is that all?" asked the Interviewer after a pause.

"I know I could tell you lots more if I had time to think about it," he answered, but the Interviewer couldn't wait.

At the desk a third Senior was returning several standard works on Production and Finance.

"May I interview you?"

Being one of those who like to talk he readily assented.

"What have you got out of College Life?"

"Let's see, some good marks, some good friends and some bad opinions of several professors, a deeper appreciation of literature and a larger vocabulary of profanity. I haven't got drunk—a belief in co-education, a free trip to Richmond, and a lot of real sense from Horace Williams' courses."

"Is that all there is to College Life?"

"I suppose there must be a lot more than that, in fact I know it, but I don't know what it is."

"Why," pondered the Interviewer, "do we go after a College Education if we don't know what we've got when we get it?"

MEETING OF MATHEMATICAL CLUB

The Mathematical Club met Tuesday, November 28, in Chemistry Hall. Two papers were presented to the club: "The Differential Co-effcient Viewed as a Singular Form", by Major William Cain and "Mathematical Requirements for Electrical Engineering Students," by Mr. E. I. Staples.

Following each paper was a brief discussion. A question was propounded for the consideration of the members. This question with the results of this consideration will be taken up at the next meeting.

The last meeting before Christmas will be held December 19, Tuesday, at 7:00 P. M. in Room 17, Chemistry Hall. Two papers will be read:

"The Logic of Mathematics," by Professor H. H. Williams.

"Characteristic Theorems in the Foundations of Geometry," by Professor Archibald Henderson.

The public is invited and urged to attend this meeting, one of the most important of the year.

FOLGER ELECTED CAPTAIN CAROLINA FOOTBALL TEAM

(Continued from Page One)

player and a favorite of the students in as much as he made possible Carolina's victory over the University of Virginia this year. Both John Tayloe and Bill Folger deserve some recognition for their respective services and the difficult job of choosing between these two men fell to the lot of the football squad. By a unanimous vote, following a proposal by Coach Campbell and Capt. Tandy, it was decided that the whole squad of those who made the Richmond trip should have a deciding vote; instead of restricting the votes to those who played in the Virginia game.

On inspection it was found that three of the squad were absent from the Hill; so that, in the event of a close vote, the decision of these three men would have to be secured before the election could be definitely decided. When the votes were counted, this was found to be the case. Telegrams were immediately sent to the three absent ones, and two replies were received before six o'clock. The other was not necessary, since these two swung the balance in Bill Folger's favor.

Bill is probably one of the most popular men on the Hill this year; as is usually the case with men who prove themselves to be all around athletes as well as commendable students. He made his first appearance last spring when he joined the track squad, and established a record for himself as a good hurdler as well as one of the fastest men on the squad. This fall he continued the good work, gaining a position for himself among the list of the best broken-field runners that has appeared at Carolina for some time. Next year he will enter the field as a leader. If his efficiency in this field is as finished a product as his efficiency in others, the football team will have a leader of whom they may be justly proud. One thing is sure, the captain of this year's team "Yank" Tandy has set by no means an easy standard for his successor to aspire to.

EUGENE BARNETT SENDS REPORT OF YEAR'S WORK

(Continued from Page One)

under the pressure of new wine and never were lofty and clear cut ideals and strong consecrated leadership more in demand."

Barnett is located at Hangchow, a city of 800,000, "the political, educational, and commercial center of a province of 17,000,000. From the Governor's Yarven (hardy the Association site) is governed a population two and one half times as large as that of Canada. Eighty per cent of the students in the city, not including those of primary grade, are from other towns and cities in the province." All the professional men and most of the officials of the province receive their education in Hangchow.

"A congregating center for thousands of young men who have left home in quest of an education or in pursuit of business or political fortune—Hangchow is becoming more and more a place of strategic importance.

"In the midst of indescribable need—moral, social, and spiritual—the Association stands as a lighthouse revealing and pointing the way to a better order of things for the individual, the family, the community, the nation."

The report continues with a complete review of the years work. Membership has increased 35 per cent. Thirty-seven religious meetings have had an attendance of 2,832 men, while fifteen entertainments have been attended by an audience of 4,762. Twenty-five lectures have called out 8,572 in the audience.

In eleven months there were 56,856 visits paid the Association building. This building is poor, unheated, and dark. Barnett is planning a new building, large, airy, heatable, and properly equipped."

The Hangchow Association like our own has night schools, only on a much larger scale.

In November, Hangchow was host to the National Secretaries Conference of China. The place that the Association holds in the esteem of the Chinese is shown by the fact that this Conference was entertained by the Civil Governor at a reception held at the Provincial Library.

"Another outstanding event of the year was a City-wide health campaign conducted under the leadership of Dr. W. W. Peter, who addressed in all over eight thousand people. Later in the year vaccination week was held.

In Athletics especially is the Association asked to help. Both Military and Civil authorities are looking to Barnett for Christian physical directors, and have sent him groups of their students to train. 'Hangchow Young Men' is the name of a modest monthly periodical published by the local Association. Many who never attend the religious meetings receive through this medium Strong Christian Messages, at least once a month.

"The Fortnightly Club for the study of Christianity, the membership of which contains officials, lawyers, educators, and other men of prominence, has continued its sessions through the year. In response to an appeal at one meeting "eight men stood up solemnly declaring their purpose to give themselves to the Christian life.

"Recent events have brought a time of testing to the Hangchow Association which under the blessing of God it has met without setback. Our conviction is unshaken that God is in the work and that he will continue to bless it to the glory of his name and the advancement of his kingdom in this ancient city."

Merry Christmas

Never before has there been such a hearty support of both students and alumni to The Tar Heel. Never has there been such ready response from the business men who advertise with us. ¶As this is the last appearance of The Tar Heel before Christmas, the managers and editors join in giving thanks to all who have in any manner contributed to the splendid success of Carolina's newspaper. ¶If a few more fellows, both at home and abroad, would send their $1.50 we could come out "even with the board. ¶Merry Xmas, old tops.

MANAGERS AND EDITORS

UNIQUE FALL DANCES NOW IN FULL SWAY

(Continued from Page One)

these so far consisted entirely of evergreens, bunting, and colored lights, since it has been found that the faculty cannot be depended upon to act as wall flowers.

It is hoped that the weather will continue cold and clear with light snow as this is ideal for dancing purposes. Rain not only adds to the inconvenience but also to the high cost of dancing. The low temperature tends to produce pep.

Leicester Chapman informs us that none of his girls are here, though he sent out repeated circular letters urging them to stand by us. There are enough to go around however, as Tom Ruffin has four or five here.

The music, of course, is furnished by Meyer Davis, of Washington, D. C. An informal dance was held at the Gimphoul Hall, Friday afternoon — Faculty and students attending.

DRAMATIC CLUB PLAYS TO APPRECIATIVE AUDIENCE

(Continued from Page One)

of milk, opens the tale of sorrow. The trouble starts over the need of an egg for the lady of the house, B. Lacy Meredith. The husband, J. Y. Jordan, refuses to furnish the fruit and trouble ensues. Her former suitor appears, presents her with an egg, but is interrupted by the entrance of the husband. The betrayed husband in a rage breaks the egg and drives wife and former suitor from the house.

All the sketches were good, and too much credit cannot be given to Professor McKie and the casts.

BASKETBALL SQUAD ROUNDING INTO SHAPE

ALL-CLASS TEAM CHOSEN BY COACH NOW PLAYING ROLL OF VARSITY

MUCH MATERIAL TO WORK ON

Varsity Team at Beginning of Season Will be a Developed Team—Only One Letter-Man is on the Squad This Season

The plans this year for the basketball season seem to indicate that this sport is rapidly leaving the class of minors and entering the major class here at the University. While no Northern teams are being played, still there are strong Southern teams who should make good opponents for the varsity.

Varsity practice started last Tuesday night in the Gym, following a plan never before tried here.

At present Coach Peacock is working with the all-class team which is composed of Sheppard, McDuffie, S. C. Perry, C. G. Tennent and Gwyn. Raby Tennent, captain, has reported for practice and will probably be in good condition before the season opens. As there is only one letter man on the squad this year, the team will be one which has been entirely developed by the coach. Those who have been watching the last few practices say that the team will be equal in every way unless superior to last years' quintet. Although, taken individually, the players do not show up as well as last year team, there are evidences of real team work displayed already.

Coach Peacock ran the class season off and selected the best material developed in the class contests for the varsity squad. Baskets have been put up in the Gym and a squad consisting of Hodges, Adams, Sawyer, McKeithan, Little, Launce, Perry, McDuffie, Lynn, Buzz Tennent, Raby Tennent, Kendrick, Sheppard, Lynch,

(Continued on Page Two)

FACULTY MEMBERS ARE BUSY DURING VACATION

Many members of the faculty took part in the deliberations of learned bodies during the holidays. The scientific departments of the University were well represented at the big meeting of the American Association for the Advancement of Science in New York City.

Prof. Collier Cobb addressed the Geology and Geography department of the Science Association on "Colonial Highways in the Carolinas, and their Geographic Conditions." Dr. Vernon Howell took part in the deliberations of the Pharmacology Division of the same Association, and Dr. H. V. P. Wilson served on the executive committee for the Zoology Division.

Dr. Joseph Hyde Pratt spoke before the meeting of the State Geologists on the physical history of North Carolina, and also before the Pharmacological division of the American Societies for Experimental Biology on "The Pharmacological Activity of Digitalis Grown in America."

(Continued on Page Five)

U. N. C. REPRESENTATIVES ATTEND BIG CONVENTION

NATION COLLEGIATE ATHLETIC ASSOCIATION DISCUSSES ATHLETIC SITUATON

At the National Collegiate Athletic Association convention which was held during the Christmas holidays, the University of N. C. was represented by Dr. Mangum, who has succeeded Dr. Herty as chairman of the Faculty Athletic Council, Prof. E. V. Howell, and Prof. P. H. Daggett. Every state in the Union was represented at this convention, and several men were present who are well known by the faculty here. Among the most familiar figures were Mr. Vondensteinmen who was formerly the physical director here, and Mr. A. D. Brown who held the same office. Mr. Vondensteinmen is now the director of athletics at Northwestern University at Cleveland, Ohio. Mr. A. D. Brown, who was here at the time the gymnasium was built and who was succeeded by Dr. Lawson, is now a Prof. of Physical Education at the University of Oregon.

The chief business of the meeting consisted in a discussion of the practice of proselyting in the various educational institutions. According to the statistics given, it was conclusively shown that his means of obtaining athletes was more pronounced throughout the North and East than in the South. The headmasters of Philips-Andover, Exeter, Mercersburg, and two Chicago preparatory schools, gave talks in which they described the different ways in which this practice has been carried on; and brought forth facts that supported their arguments.

SCOUT PATROLS TO BE ORGANIZED BY Y. M. C. A.

The Boys' Department of the Y. M. C. A. is planning to add to its activities by organizing the older boys of the community into two scout patrols. One of the preliminary meetings held Monday night was attended by 16 boys. The boys who are too young for the scouts are organized as the Knights of King Arthur. It now has a membership of about 12. The Knights serenaded the community during Christmas. This spring they are planning to study birds and improve local conditions for our feathered friends.

JUNIORS TO ELECT MARSHALS MONDAY

There will be a meeting of the Junior Class Monday at 2:10 in the Chapel. The purpose of this meeting is to elect marshals to serve at commencement. Other important business will be transacted.

NORTH CAROLINA CLUB MEETS

At the North Carolina Club meeting Monday night, Mr. W. H. Randolph read a paper on Bank Account Savings in North Carolina, which dealt with the total savings of North Carolina banks, in which respect North Carolina ranks 28th among the states of the Union. There will not be another meeting of the club until after examinations.

GEORGE WASHINGTON WINS INTERCOLLEGIATE DEBATE

REPRESENTATIVES FROM CAROLINA PUT UP STRONG DEFENCE—2-1 DECISION

Before an enthusiastic audience of about 500 people the second annual intercollegiate debate between the University of North Carolina and the George Washington University was held in Washington, D. C., December 18. The question under discussion was: "Resolved, That Congress should pass a law requiring compulsory arbitration of all controversies arising between the employers and the employees of railroads engaged in interstate commerce, constitutionality waived." The University of North Carolina, upholding the affirmative, was represented by R. M. Ross, Jr., and H. D. Sharpe; while the George Washington University on the negative was represented by H. W. Kidder and G. L. Hall, both of whom are law students. The committee, composed of Hon. Frederick A. DeLano, Hon. Josiah A. Van Orsdell, and Hon. R. C. Allen, rendered a 2 to 1 decision in favor of the George Washington boys. One of the George

BASEBALL SCHEDULE FOR 1917 A HARD ONE

TWENTY-ONE GAMES INCLUDING ONE WITH YALE AT CHAPEL HILL

One of the hardest baseball schedules ever planned by Carolina will be carried out this spring with some of the leading colleges and Universities of the North and South. In all, there are 21 games on the schedule, 12 of which are on the home grounds. April 7 Carolina plays Yale at Chapel Hill. The schedule is as follows:

March 15—Bingham (Mebane) at Chapel Hill.

March 17—Oak Ridge, at Chapel Hill.

March 23—West Virginia Wesleyan, at Chapel Hill.

March 29—Haverford College at Chapel Hill.

March 31—Georgetown University at Chapel Hill.

April 3—Colgate University at Chapel Hill.

April 5—Elon College at Chapel Hill.

April 7—Yale University at Chapel Hill.

April 9—Washington and Lee at Danville, Va.

April 12—Wofford College at Chapel Hill.

April 14—Virginia at Greensboro.

April 16—Virginia at Chapel Hill.

April 17—Wofford College at Spartanburg, S. C.

April 18—Georgia University at Athens, Ga.

April 19—Georgia University at Athens, Ga.

April 20—Furman University at Greenville, S. C.

April 21—South Carolina at Columbia, S. C.

April 23—Georgia University at Chapel Hill.

April 24—Georgia University at Chapel Hill.

April 28—Virginia at Charlottesville, Va.

43 CAROLINA MEN NOW IN STATE LEGISLATURE

19 IN THE SENATE AND 24 IN THE HOUSE—7 TRUSTEES ALSO ON ROLL

When the roll was called for the first time in the State Legislature last week 43 old Carolina men were present. Of this number 19 are in the Senate and 24 in the House.

Seven trustees are included—Messrs. W. H. S. Burgwyn, of Woodland, Benehan Cameron, of Stagsville, A. M. Scales, of Greensboro, W. N. Everett, of Rockingham, and James A. Gray, Jr., of Winston-Salem, in the Senate; and Messrs. R. A. Doughton, of Sparta, and Walter Murphy, of Salisbury, in the House.

The list is:

SENATE

J. S. McNider, '06, Hertford; Lindsay C. Warren, '10, Washington; W. H. S. Burgwyn, '08, Woodland; W. L. Long, '09, Roanoke Rapids; F. C. Harding, '93, Greenville; W. M. Person, '87, Louisburg; W. D. Pollock, '85, Kinston; M. H. Allen, '06, Goldsboro; Ezra Parker, '14, Benson; Bennehan Cameron, Trustee Stagville; J. Elmer Long, '05, Graham; A. M. Scales, '92, Greensboro; W. N. Everett, '86, Rockingham; Chase Brenizer, Law '99, Charlotte; Stahle Linn, '07, Salisbury; J. A. Gray, Jr., '08, Winston-Salem; C. A. Jonas, '02, Lincolnton; Kelly E. Bennett, Phar. '12, Bryson City; A. G. Deweese, Law '03, Murphy.

HOUSE

R. A. Doughton, '83, Sparta; J. H. Matthews, Law '04, Wind-

ALL-CLASS BASKETBALL TEAM CHOSEN BY COACH

The class basketball league scheduled and played off in December, resulted in the sophomore quint winning the championship. This is the second straight championship won by the class of '19. The junior class ran a close second but lost two games to the championship team.

According to custom Coach Peacock selected an all star team composed of the following men.

F. S. Sheppard...Right Forward
L. R. McDuffie....Left Forward
S. C. Perry.....Center
C. G. Tennent.....Right Guard
J. M. Gwynn.....Left Guard

This quintet will make a substantial part of the varsity squad this season.

MATHEMATICAL CLUB MEETS

"The Logic of Mathematics" was the subject of Prof. Horace Williams' lecture before the Mathematical Club on Tuesday night. "When a man philosophizes he universalizes," said Prof. Williams. "He seeks for Truth, Goodness, and Beauty." "But what does he do when he mathematizes?" "It is then that he individualizes and makes explanation in terms of the thing under consideration."

The meeting was interesting and was well attended. Several discussions arose, which added life and interest to the program.

A STANDARD COURSE IN MILITARY TRAINING

MAY BE INTRODUCED INTO THE UNIVERSITY CURRICULUM AS RESULT OF A—

PETITION SIGNED BY 344 MEN

Who Declare That They Want Such a Course Here Under an Expert Army Officer as Recently Provided by Law

A petition in behalf of military training has recently been circulated among the students for support. It reads as follows:

"We, the undersigned, desire to take a course in military training in this University.

"It is our understanding that more than three hours a week will not be required; that such a course will be similar to those now given in other universities, such as Pennsylvania; and that membership in such training unit does not bind us to the government in any legal form.

"In signing we do not commit ourselves, should the schedule of work seriously affect our present work, or should the burden of expense prove too great."

The fact that 344 students signed this petition to our president is sure evidence that it must come.

Abstracts of House report to increase the efficiency of the military establishment of the United States which concern this petition are as follows:

Sections 41-54 deals with the reserve officers, units of which may be established in universities and other educational institutions of certain rank.

Sec. 41. The president, upon application, may establish one or more units in the institution, provided: that an officer of the army be detailed as professor of military science; and that the institution maintain a minimum of one hundred students under military instruction.

Sec. 42. The course must cover

(Continued on Page Three)

MR. J. M. STEADMAN OF FACULTY MARRIED

One of the most elaborate weddings in the social annals of Spartanburg, S. C., occurred on the night of Thursday, December 28, 1916, when Mr. James M. Steadman, instructor in English in the University, was united in marriage to Miss Medora Rembert, the daughter of Mr. and Mrs. A. G. Rembert of that city. The Central Methodist Church was decorated with palms, ferns, white blossoms and cathedral tapers. The ring used in the ceremony was the same one used in the wedding of the groom's grandparents.

A reception was given to the newly married couple at the Rembert home on North Church St. The house was decorated in white and green. After the reception Mr. and Mrs. Steadman visited in Florida, returning to Chapel Hill January 5. They are now living at Mrs. Bain's.

Among the out of town guests to participate in the wedding were Messrs. G. W. Scott, and J. W. Lasley, Jr.

FROM XMAS TO XAMS

Now that the student body has jumped from the Christmas tree into the fire of those professorial inquisitions, alias examinations, the Tar Heel wishes to express its commiseration and encouragement. Not its advice.

So much advice is given on the subject and so little taken. Many tell us that the proper way to pass an examination is to cram up for it the night before, thereby economically eliminating all waste time and effort, beside training the mind to assimilate many facts and ideas in a short time. On the other hand there are a few who whisper to us that the correct method is to get the course up during the year. But this method seems to be very old fashioned and unpopular, and we beg pardon for having mentioned it. However, even this method, like the other, has its advantages. Still another method is the one based on fear, which is the mainspring of many other things besides war. Any normal man ought to pass any normal course, given a sufficient amount of fear that he will not pass multiplied by a long enough time for his fear to work properly. Confidence causes to skip over pages, paragraphs and volumes; fear makes us leave no sentence unturned. We say nothing of the men who work hard on their courses, not from fear but for love of the work. They need no advice on how to pass, and their love is its own reward.

But we do wish everybody a Merry Xmas and a Happy "2" Year!

WHY IS THE TAR HEEL?

What is the function of the Tar Heel in University life? What excuse can it give for existence? What should it aim to do?

Before we can begin to understand the true purpose of the Tar Heel we must disabuse our minds of two false theories that have greatly harmed the paper ever since its first issue.

One is the theory that the Tar Heel should indiscriminately print everything that happens on the Hill. It should not, of course. It should print only what is interesting to its readers. Nor is the Tar Heel an organ the purpose of which is to reward merit through publicity. It is a weekly paper, the purpose of which is simply to interest, inform and amuse its readers.

Another false theory is that whatever is interesting in itself is interesting in print. Thus events most interesting and important in themselves, such as athletic contests and speeches, will not make the most interesting and exciting reading in the world a week after they have been seen and heard.

We can now understand more clearly what the aim of the Tar Heel should be.

The function of the Tar Heel is to give to the student body each week that it appears a live and thoughtful, an interesting, useful presentation of the current University life and activity.

The duty of the editorial and the news staffs is to put out a paper of which every paragraph shall contain a fresh piece of news, a well-founded opinion, some interesting information or an amusing outlook.

The Tar Heel this year proposes to spare no pains to be newsy and informational. It desires to mirror Carolina life faithfully, thoughtfully and artistically; to love the University with all its columns, all its headlines and all its paragraphs; to be keenly alive, not only to the big important events of Carolina life, but also to the little amusing happenings; to be the first to discover and attack new evils and old, worn-out customs, but to be sympathetic and charitable and to remember that a laugh is often more efficacious than a kick.

WANTS

Henceforth the Tar Heel will have a "want" column. In adding this department, the management hopes to give to the University a bulletin board that will be read by all the students and faculty members. The announcement in Chapel is usually heard by only the men of the Academic Department. A notice in this "want" column will also come to the attention of members of the Law, Medical, and Pharmacy School. We must also remember that Seniors do not have to attend Chapel. The tax for "wants" is one cent per word. Get your copy in at No. 2 Vance or P. O. Box 103 by Thursday night.

M. B. FOWLER,
Advertising Manager.

ANNUAL SOPH-JUNIOR DEBATE WON BY PHI

The annual soph.-junior intersociety debate was held in Gerrard Hall the last night before the Christmas vacation. The Phi Society was represented by F. G. Miles, of Warrenton, and W. H. Stephenson, of Raleigh. From the Di Society were W. C. Eaton, of Winston-Salem, and V. A. Wilson, of Pfafftown. The question of adopting in the United States a policy of social insurance similar to that of England, Germany, and France, was hotly contested, the Phi men advocating it and the Di men condemning it.

Mr. Miles contended that present conditions demand a change, proposed a system of insurance modelled on those of Europe, and showed that the system was in accord with American ideals. Mr. Stephenson explained the principles of such a system and showed how they were in harmony with our national life.

Mr. Eaton declared the system wrong in principle and undemocratic while Mr. Wilson said compulsory insurance is the wrong solution since it is not suited to our conditions.

The judges, Profs. Johnson, Thornton, and Wagstaff decided unanimously in favor of the affirmative.

Woodall, ex-baseball captain, spent a few days on the "Hill" last week helping with plans for the 1917 Varsity baseball team.

Professor T. F. Hickerson attended the quarterly meeting of the State Highway Commission at Raleigh, January 8th.

Mr. Kelley E. Bennett, of Bryson City, N. C., who was a member of the pharmacy class, '12, was elected senator from the 37th senatorial district by an overwhelming majority.

It must be aggravating to keep a hen which will positively refuse to lay when eggs are worth a nickle each.—Oklahoma City Times.

"I smell the stars," writes Miss Amy Lowell, a poetress. Election excitement probably had caused the Milky Way to curdle.—St. Paul Pioneer Press.

Why doesn't somebody make a fight for the pronounceable part of Europe?

BASKETBALL SQUAD ROUNDING INTO SHAPE

(Continued from Page One)

Armstrong, Harrell, Coleman, H. H. Perry, and S. C. Perry will practice from six to seven-thirty throughout the season, the idea of having varsity practice at Old Commons having been given up because of the improvements which would necessarily have to be made. Because of the unusual hours for practice a training table for the squad has been started at Linwood Inn, on Franklin Street.

The scarcity of Northern teams on the schedule is due to the early seasons held in Washington and Maryland, seasons ending late in February. The teams which are scheduled for the home floor were picked with the idea of furnishing some of the fastest games ever staged here. The way the material is rounding out and the interest taken in basketball this year, not only at the University, but throughout the state, leads many in athletic circles to believe we face one of the strongest seasons the state has seen.

SCHEDULE

Feb. 2—Davidson at Chapel Hill.
Feb. 13—V. P. I. at Chapel Hill.
Feb. 22—V. M. I. at Chapel Hill.
Feb. 24—Va. at Lynchburg.
Feb. 26—W. & L. at Lexington.
Feb. 27—V. M. I. at Lexington.
Feb. 28—V. P. I. at Blacksburg.
March 3—Guilford at Chapel Hill.

Pending Games

March 7—Guilford.
March 8—Statesville.
March 9—Davidson and Charlotte.
March 10—Charlotte Y. M. C. A. at Charlotte.

She was sitting at her dressing table, her beautiful head upon her arms. Tears were running in torrents down her pale cheeks. Ah! A pitiful sight! Her sobs tore the silence of the room into shreds. Presently she raised her head, and gazing wildly about the room, sobbed out:

"Wo ist mein Herr!"

And a voice in sepulchral tones answered from a closet:

"Your hair is false!"

It required five cardinals, ten bishops and forty-eight priests to bury Franz Joseph, but only one grave.—Erie (Pa.) Dispatch.

We'll say this for the bone collar button—very often it harmonizes with the top of the wearer's neck.—Ex.

Pages from Dr. Battle's History

As there was no dancing at Chapel Hill, except at Commencement, the social meetings, then called "parties," or more elaborately "conversation parties," now known as "receptions," were frequent. It seemed that all the guests felt bound to keep up an unceasing flow of talk and laughter, and the clatter was such that, while the talking was always at flood-tide, the listening was at an ebb. In truth it required a practiced ear to distinguish the sounds at all. When a gentleman blew on the flute or sawed on the violin, or a lady, by pressing invitation, coyly or dashingly played on the piano, only those who made the request felt bound to be silent. The rest of the company rattled on with the cruel heedlessness of an alarm clock. But when the performer finished he or she was complimented profusely. Etiquette, however, required that when a male or female singer began all gave attention.

If a gentleman called on a lady who had a guitar or piano in sight, it was incumbent on him to ask for music, whether he liked it or not. It was keen enjoyment to his companions to watch a fellow visitor, who could not distinguish one note from another, standing by a piano, turning over leaves of the music book and pretending painfully to listen to a ballad of eight verses, eight lines to a verse, or to a "march" in which the imitations of rolling drums and ear-piercing fifes, and the tramp of armies in motion were prolonged to distressing weariness.

The first concert, by students and ladies combined, was given in Gerrard Hall, the proceeds of the admission fees going to some religious purpose. There was both vocal and instrumental music. The chief mover was a beautiful lady, Miss May Wheat, afterwards Mrs Francis E. Shober. She was aided by a teacher of music at St. Mary's School, Raleigh, named Mendelsohn, an accomplished violinist. I forget the names of the other participants. The Chief Marshal, at the request of the ladies, was William Watters, of New Hanover. In view of the novelty some predicted rowdyism, but the behaviour of the students was excellent and the satisfaction general.

Some sons go to college to get a liberal education, while their fathers stay at home and receive an education in liberality.—Scranton (Pa.) Times.

"Is your wife economical?"

"Very. Look at the clothes she makes me wear."—Detroit Free Press.

The Tar Heel is under the direction of H. Copenhaver and the other members of the journalism class.

"JONES QUIZZER"

Now On Sale

J. W. JONES, 43 Carr

Judge Pell says: "I have examined thoroughly Mr. Gilmer A. Jones's Quiz-book, and I unhesitatingly say that no law student should attempt to stand final examination, either in school or for license, without having studied it. Every young lawyer in the State should read it twice a year for three years."

Athletic Notes

The warm spring-like weather that has been blessing the hill for the past week has had some bad effects on the athletic mind of the University. The resounding crack of the willow and the whistle of the hide-coated pill is already disturbing the peaceful quiet of the athletic zone. Coach Campbell has appeared on the hill with his usual smile, which seems to indicate that spring football practice is not mere hearsay. A Tar Heel reporter was pained to see two sportive Freshmen cavorting on the tennis courts on Monday last, but on following days of the week the aforesaid Freshmen were vindicated by the appearance of several upper classmen on the courts. Such weather is too ideal and there is a common feeling abroad that disaster is hanging over the student body, for everything is much too nice—by far.

There is a desire running rampant in the brains of a few and has been mentioned casually by a great many that certainly should be looked into. This is the desire for a boxing club. Personally we regard this with favor if enthusiastic gentlemen are desirous and eager to alter the general plan and beauty of their friends' faces it does not behoove the general run of mortals to kick. Some has said that the so-called boxing room has been resounding to the tread of hurrying feet and that boxing has already started.

This being the open season for the slaughter of students, many of the victims have been unusually sharp of eye, and have discovered certain signs of merriment in the manners of our good professors. What can it mean?

Richard Croker's flight from Ireland to New York, to escape the high cost of living, will be regarded as the wisest move that has been made since the famous leap from the frying pan into the fire. —Exchange.

Fungi found in breweries by a Japanese scientist have been found to dye silk a beautiful rose color. No doubt they will do the same for noses.—Albany (N. Y.) Argus.

The limit in conservation of resources: Villa's reported order that all aliens be beaten to death to save the ammunition that might be used in shooting them.—Terre Haute (Ind.) Star.

A judge in Pennsylvania has ruled that the pedestrian has the right of way and that automobile drivers must respect that right. All that remains, then, is to convince the automobilist.—Missoula (Mont.) Sentinel.

Colonel Roosevelt is planning a trip to the Fiji Islands to visit the extinct volcanoes. Birds of a feather will flock together.—Nashville Daily.

The stolen joyride provides fun for the thieves, grief for the owners, worry for the cops, work for the attorneys and business for the judge, to say nothing of the doctors and undertakers. — Spokane (Wash.) Spokesman-Review.

An exchange remarks that the new dime looks like the old fashioned three-cent piece. And it will buy just about as much, too.—Muncie (Ind.) Press.

Judge Peach Springs A Big Surprise

It was the middle of the afternoon and everyone was listless. The children had tired of games and the older folks of gossip. Clearly, the picnic to which they had all looked forward with so much pleasure was destined to become somewhat of a disappointment unless something happened pretty soon. The woods seemed hotter than the streets in town and the river sent back a blinding glare of light.

Just when everyone was feeling weary of the day's outing Judge Peach got up and announced: "Well, friends, I guess it's about time for me to spring my little surprise. Get ready for a new lease on life and choose your partners for the gayest game you can think of. I'm going to let loose enough energy around here to start every one of you dancing."

"You can't interest me with that talk," Judge," drawled a long man stretched at full length on the grass, "dynamite couldn't get me up, it would just turn aside when it saw me in the way and tackle something easy, something like a few tons of brick. There's just one thing could get me on my feet and put fresh starch in my collar, and that's an ice-cold bottle of Pepsi-Cola."

"And it's Pepsi-Cola you are going to get, Sam Walsh," replied Judge Peach, "there are three dozen bottles of it in a tub of ice in the back of that wagon, enough health and happiness for everyone here."

Before the Judge had finished speaking there was a stampede for the Pepsi-Cola and five minutes later the refreshed picknickers were telling Judge Peach how he and Pepsi-Cola had saved the day.

Different Ages." John E. | DR. FRANK K. HAYNES

A STANDARD COURSE IN MILITARY TRAINING

(Continued from Page One)

at least two years. It may be either elective or compulsory. It must be prerequisite for graduation in the case of the student who has entered it.

Sec. 43. The course is to be prescribed by Secretary of War, and adopted into the curriculum of the institution. At least an average of three hours per week, per academic year, must be devoted to the course.

Sec. 44. Only students are eligible who are citizens of the United States, not less than 14 years of age, and who will probably be fit for duty when of military age.

Sec. 46. Authorizes president to detail officers.

Sec. 47. The Secretary of War may, as he sees fit, issue arms, uniforms and equipment. The university must give bond in value of property issued to it, for safe keeping and return when required.

Sec. 48. The Secretary of War is authorized to maintain camps not over six weeks in length for further instruction of members of the Reserve Officers Training Corps.

Sec. 50. The student completing two years shall, upon agreement to devote a certain amount of time to further training, be furnished a small salary (about 30c per day).

Sec. 51 provides for those having completed similar courses before the passage of this act.

Sec. 52. The president is authorized to appoint eligible graduates of this course to second lieutenancy in the regular army, for six months, for the purpose of training.

Sec. 53. Such reserve officers shall not be entitled to retirement on retired pay or pensions.

From this we see that the University makes its application to the president and agrees to maintain 100 students under military instruction; to incorporate two years course which averages three hours per week in curriculum; to receive an officer of the army as professor of military science; to make the two years course prerequisite for graduation, in the case of students entering it; and to give bond for the government property issued.

The student agrees: to submit to discipline when under instruction and to train two years with the average of three hours per week.

The government agrees: to detail an officer of the army; to furnish certain equipment; and to provide further opportunities of training for the fit who may desire it.

The Plattsburg men who circulated this petition, desire that such a course be established here.

They say, "We believe that the statements in the above petition, and the number and quality of the signers indicate that the required number of men will enroll when the exact terms and the opportunity of enrollment shall be presented.

"If action of the Trustees be necessary before the University make application, we request that the above petition be laid before the Trustees."

Signed:

R. D. Ballew,
Beemer C. Harrel,
P. D. Bell.

FATIMA

A SENSIBLE CIGARETTE

Why they're Sensible

Occasionally, a more heavy, full-powered cigarette than Fatima tastes mighty good. But heavy cigarettes are a little too "oily" and rich to suit most men for long.

You are certain to find more *comfort* in a delicately balanced Turkish blend like Fatima—a comfort that can come only from pure tobaccos properly blended.

That is why Fatimas are so *sensible*—because they leave a man feeling keen and "fit" even after smoking more often than usual. Prove it yourself.

SCOPE OF SUMMER SCHOOL WORK GREATLY INCREASED

The Summer School's session for 1917 has just been announced to extend from June 12 to July 27.

The Summer School will probably have the largest registration ever this year.

Fifty years ago Dr. Battle established the first Summer School in America here under the name of the "Summer Normal." It ran until 1884 and was suspended until 1894. It was also suspended from 1905 till 1907, since when it has steadily grown and last summer the number of students reached 1,052, exclusive of law students. This was an increase of more than 300 over 1915.

The announcement states: "The Summer School's growth in efficiency has more than kept pace with its growth in numbers. Each year new courses are added and the scope of the work enlarged and improved." The curriculum includes everything from Education 41-42 to Eng. 37-38.

Music and sports will be stressed. There are many of the courses which may be offered by candidates for A. B.'s and A. M.'s as well as the numerous regular normal courses.

"Government Ownership of Railways" is the subject of the latest publication of the Extension Department. It contains 91 pages and is intended for use in connection with the high school debating union. After giving a history of the debating union in this state it gives briefs on the question and leading articles by authorities. Three thousand copies are being sent out in this state and some to Alabama and Kentucky.

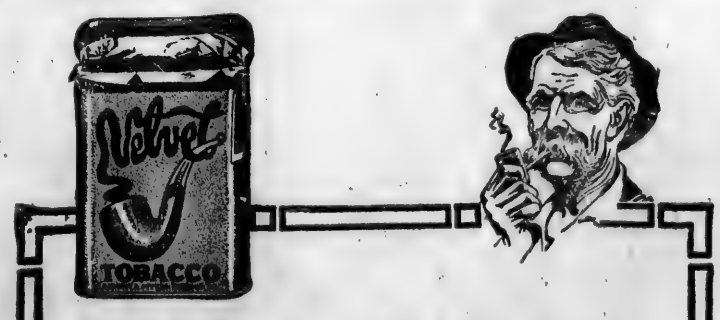
When the other chap doesn't get the drift of your joke he's a bonehead, but when you can't catch the point of his, the story is a punk one anyhow.—Erie (Pa.) Dispatch.

The old-fashioned man who took his pen in hand now has a son who takes his typewriter in his arms.

FACULTY MEMBERS ARE ACTIVE DURING VACATION

(Continued from Page One)



Dr. W. deB. MacNider discussed before the same body "A Consideration of the Relative Toxicity of Uranium Nitrate for Animals of Different Ages." John E. Smith, of the University department of geology, read two papers before the Geology and Geography section on "Transported Material in Piedmont Soils," and "The Gabbros Near Chapel Hill." Both were illustrated with lantern slides. Prof. W. C. Coker talked to the Botanical Society of America on "The Genus Amanita in the South."

Prof. Geo. Howe attended the meeting in New York of the American Association of College Professors. Dr. Chas. S. Mangum attended this meeting, also, and served as a member of the executive and nominating committee of the National Intercollegiate Athletic Association in New York City. Dr. Howell and Prof. Daggett attended the meetings of this Association.

Profs. J. G. deR. Hamilton and W. W. Pierson, Jr., of the history department, attended the sessions of the National Historical Association in Cincinatti, and took part in the deliberations, while Profs, Norman Foerster and H. M. Dargan, of the English department attended the meeting of the Modern Lanaguage Association in Princeton.

Prof. N. W. Walker addressed the University alumni in Smithfield during the holidays, while Prof. L. A. Williams spoke to the Gaston county alumni. E. R. Rankin and Prof. W. W. Rankin attended the alumni banquet in Charlotte.

Instructors A. P. Hoppel and C. W. Keyes did research work in the Congressional Library in Washington. Prof. P. H. Daggett and E. T. Staples spent the holidays in Boston.

WHEN you hear the front-door knocker it means that somebody that's out is tryin' t' get in. An' same way with most other knockers.

WHAT IS A GENTLEMAN? TUESDAY NIGHT TALK

What is a Gentleman? was the theme of the talk by Rev. W. D. Moss at the Y. M. C. A. Tuesday night. He very interestingly described what includes the make-up of a gentleman, putting special emphasis on the fact that the outward appearance of a man goes a long way toward showing his character. A gentleman, he said, is a keen friend, unselfish toward his neighbor, and a man who can be depended upon. The power to keep a secret, he said, is the mark of a great man.

The meeting was well attended, there being present one of the largest crowds of the year.

GEORGE WASHINGTON WINS INTERCOLLEGIATE DEBATE

(Continued from Page One)

Washington votes read as follaws, "George Washington wins, but the North Carolina boys did great credit to the University." Hon. Charles E. Johnson, United States Senator from Maine, presided over the debate and is quoted in the News and Observer as having said that Carolina should have had the decision.

The Carloina boys took the position that compulsory arbitration does not take away the right of resignation from the employees and outlined their argument under two general heads: first, compulsory arbitration is right, and, second, it is practicable. The opposition defined the question as taking away the right of resignation and advanced four propositions: first, no reform is necessary, second, compulsory arbitration is wrong in principle, third, it could not be enforced, and, fourth, if it could be enforced, greater evils than the one it seeks to remedy would arise. The rejoinders centered largely on the interpretation of the question and there was where the debate seemed to hinge. They were all very spirited and much interest was aroused before the debate was concluded. The Carolina boys report that splendid spirit was manifested by the George Washington boys.

BASKETBALL SEASON OPENS WITH VICTORY

THE CAROLINA QUINTET SHOWS SYMPTOMS OF REAL TEAM WORK

49—30 RESULT OF FIRST GAME

Durham Y. M. C. A. Team Exhibits Streak of Individual Playing but Give In To Superior Passing In Second Half

By superior passing and team work, Carolina was able to defeat the Durham Y. M. C. A. quintet Tuesday night in the first game of the season, by the score of 49 to 30.

Carolina rooters were surprised at the showing of the team of which four players are entirely new men.

The Y. M. C. A. men shot with accuracy during the first half, Roth's individual work featuring. The Carolina five showed symptoms of nervousness at the first of the game and allowed the visitors to run up a neat score. But during the second half, Carolina opened with a strong offensive and swept the Durham team off the floor.

The dribble was used effectively by the visitors until the Carolina guards began to systematically break it up. Grandin, who replaced Perry at center, played a consistent game which materially added to the score. The work of Tennent and Tennent at guard and Sheppard and McDuffie at forward indicate that the team will develop into a strong aggressive one before the season begins in earnest.

During the first half the rule of no bounds was in force. The use of the long dribble made the game an unnecessarily rough one

Friday, Feb. 9 — Music in Chapel.

Henry Stevens, of Asheville, has been initiated into Delta Kappa Epsilon.

Ed. L. Lindsey, of Tryon, has been initiated into Pi Kappa Alpha.

Vaughan Hawkins, of Charlotte, has been initiated into Sigma Nu.

A "buy a bale of cotton" movement these days would have to be prosecuted among millionaires exclusively.—Southern Lumberman (Nashville).

There are some men so lazy that if they ever reach heaven they will call upon their wives every morning to fasten their wings on. — Wheeling Register.

325 SCHOOLS ENROLLED IN N. C. DEBATING UNION

Three hundred and twenty-five high schools have enrolled to date, in the North Carolina Debating Union which will hold its preliminaries March 30. The winners of the numerous triangles will debate here April 12 and 13.

The Bureau of Extension has issued a 92 page pamphlet on the subject of "Government Ownership of Railways." Three thousand, two hundred and fifty copies have been distributed among the high schools of the state and Kentucky and Alabama, which have adopted our system of triangular debates.

DRAMATIC CLUB WILL PLAY AT ST. MARY'S

The Dramatic Club, on Saturday night, Feb. 3, 1917, is to present Messrs. George Greene and G. W. Wimberley in "Old Cronies," Messrs. Chase and McClamrock in Lord Dunsany's "The Glittering Gate," and Messrs Johnston, Jordan and Meredith, in "Food," to an audience at St. Mary's Raleigh. At the final dress reheasal on Friday there was even better "form" than when the plays were given in Gerrard Hall in December. "Buck" Wimberley and "Dumpy" Greene have got down the fine points in "Cronies" and both are giving promise now of acting their parts in an inimitable manner. The general theme of the play is light and is sure to be well received by a St. Mary's audience.

Lord Dunsany's "Glittering Gate" lacks catchy lines and telling action for amateurs to perform. The play is very artistic to the close observer, but even though the actors are doing their parts intelligently, it will probably not be as successful as when it was presented before the "Amateur Club" in New York. The play, to be appreciated, must be thoroughly understood.

"Food" will undoubtedly be enjoyable. The main actor, Meredith, the wife, is the only one who has to display any variety of facial expression and emotion. It is, of course, tragic to the actors and farcical to the observers. The wifes costume, an ultra-modern open blouse effect in old rose accordion-pleated crepe, accentuates the absurdity of the situation. The play is by a North Carolinian.

The Yackety Yack will go to press next week, and all statistics, write-ups, snap-shots, photographs etc., must be submitted within the next few days if they are to go in the annual.

The bachelors of Chapel Hill—which term includes instructors, coaches and graduate students—gave two informal dances while the student body was floundering in a maelstrom of exams. One was at Prof. J. W. Betts' the other at Professor James'.

Jack Powell, of Spray, Walter Toy, of Chapel Hill, and Earle Johnson, of Raleigh, have been initiated into Zeta Psi.

Frank Clarvoe, of Philadelphia, has been initiated into Pi Kappa Phi.

DR. HUGH BLACK DELIVERS SERIES OF LECTURES HERE

"THE GREAT QUESTIONS OF LIFE" THEME OF McNAIR LECTURES

Given Self, To Find God.

Such was the theme that ran all through the 1917 series of McNair lectures on "The Great Questions of Life" in Gerrard Hall, Wednesday, Thursday, and Friday of this week by Dr. Hugh Black, of the Union Theological Seminary, New York, and formerly of Edinburgh, Scotland. On Wednesday, Dr. Black asked the question: Is God? and gave his point of view. On Thursday he asked: Has God Said? and treated the question of revelation. On Friday he asked: Shall Man Say to God? and dealt with prayer.

"There is nothing dogmatic about what I have to say," Dr. Black explained, "except the assurance with which I state my own point of view. Religion is a man's reaction to the universe, and faith is not simply the acceptance of certain intellectual propositions but is an attitude of the soul and the life.

"We must discard the theory of the jungle that life is merely a case of the hammer and the anvil with the "hungry ego" as the hammer, and see a relationship between God and man. We can not keep theology to itself in an air-tight compartment as David Copperfield's aunt did her patch of grass. For the history of man's self attainment is but the history of God's revelation. Every effort of man after God is but the response to some divine summons. We must take Christianity as a spiritual adventure and dedicate ourselves to the proposition that the Kingdom of God is possible—that the sons of man are born the sons of God. It is not a question of Darwin or Moses, but a question of combining the two.

"We are learning to think of the world not in terms of statics but in terms of dynamics—of power. The world is as big as the men who inhabit it. Let us have the "most highest" God.

"He that hath the spirit of God can hear His 'silence.'"

BOILER AT POWER PLANT BLOWS UP

One of the boilers at the Power Plant blew up Tuesday afternoon. No one was seriously hurt, but one of the firemen was very painfully burned by escaping steam. The plant is now running on two boilers. The boilers had been condemned for some time, but it was hoped that they would continue to do service until the new power plant is ready for operation.

The Di Society will hold an informal smoker Saturday night to which all members of the Society, both old and new, are invited. There will be faculty speakers, and eats will be passed around between times. If you are fortunate enough to be a "Di," come out and have a good time.

"B" is a dangerous letter—it transforms rainstorm into brainstorm.

"HIGH SCHOOL WEEK" TO BE AN EVENTFUL ONE

"High School Week" bids to surpass all previous occasions of its kind at Chapel Hill this Spring. In addition to the triangular debates there will be a state track meet in which many schools will take part.

The state high school tennis tournament will be played off at this time.

The basketball league for the state high school championship starts immediately after Feb. 19. Most of the largest high schools in the State have already entered.

MEMBERS OF GLEE CLUB ANTICIPATE GREAT TRIP

The Glee Club leaves for its spring trip Monday, February 5. The tour will last one week and will include Goldsboro, Newbern, Washington, Wilson, Rocky Mount and Raleigh (St. Mary's). The advertising matter has been placed in capable hands and a very successful trip is anticipated.

The program is being considerably changed: a bass solo by Sam Fisher, Schubert's Serenade on violins and guitars, violin solo, Piernes Serenade by Lashmit and Rubinstein's remarkable arrangement of Yankee Doodle by Earl Harris at the piano, being substituted for other numbers.

The "rags" in the mandolin club will be discarded for new Broadway goods, and the Hawaiian number will add recent hit or two from Honolulu. The orchestra is adding Paderewski's Minuet to its repertoire. Buck Wimberley will sing something new in addition to the Ballad of Richmond which Clarvoe wrote for his Fall song. "Dumpy" Green will sing one of his inimitable "songs on the guitar." Jim Howell will howl on some yodeling stunts and will probably be assisted by Enoch Simmons, ex-lyric-tenor of the "Scrap Iron Quartet," and ex-yodler of the University Glee Club.

NORTH CAROLINA CLUB MEETS

At the N. Carolina Club meeting Monday night, H. B. Simpson led a most interesting discussion on "Total Taxable Wealth in North Carolina." At the next meeting of the Club, to be held February 12, there will be a debate on, "Buying Feed and Food with Cotton and Tobacco Money." This debate promises to be a most interesting one, and all members of the Club are urged to be present.

Judging from the faculty grade reports posted on the bulletin boards, it seems that the high-brow professors and the meek and lowly freshmen are on a common level when they come face to face with examinations.

Beginning next Sunday, Feb. 4, Dr. W. W. Pierson, Jr., will speak four Sundays in succession to the Baptist Baraca Class at the Baptist Church. All are cordially invited to hear him.

If preparedness why would it not be logical for a man to keep from drinking by storing booze in his trunk.

REPORT OF PRESIDENT E. K. GRAHAM PUBLISHED

CONTAINS INTERESTING FACTS CONCERNING PROGRESS, ETC., OF UNIVERSITY

HE PRESENTS LIFE OF UNIVERSITY

Problems of Growth and Progress of the Institution and Other Phases of University Life Dealth With

The President's Report for 1916 together with the reports of all the officers of the University came from the press on January 15, and reprints of the special report of President Graham are now being distributed widely throughout the State.

The two outstading impressions which the report c nveys are: first that the University during 1916 rendered the largest service to North Carolina that it has ever rendered, and second, that it cannot increase its present service, or even maintain its standing among the other institutions of the county unless its support and equipment are materially increased.

It is very difficult to even estimate the extent of the service rendered during the year, for it is not a tangible thing, and cannot, therefore, be measured by ordinary standards. Certainly the most important accomplishment of the year has ben the actual teaching of 1259 regular students, 1052 Summer School Students, 185 practicing physicians pursuing courses in post-graduate medicine, and 40 correspondence students — a total of 2536. For 50 out of 52 weeks of the year the whole University plant was in use, and every part of it carried its maximum load.

On the outside the service has been correspondingly large. In

(Continued from Page Three)

BASEBALL CANDIDATES ARE OUT WARMING UP

With the advantage of warm baseball weather for the last few days Coaches Campbell and Kearn have started to looking over the material out of which is to come the baseball team for the coming season. With only a few letter men back, the prospects for a winning team are not as bright as they might be, yet there is promise of a reliable aggregation. Powell, who as a freshman showed up so well last year, will probably be the mainstay of the pitching corps. Captain Barnes will doubtless be the nucleus around which the outfield will be built. Pippin who last year was forced to quit on account of an injury will again make a strong bid for an outer garden position. Among the infield men, Herty and Johnson at second, Jennette at short, and Pitman at first seem to be showing up best. Bennett will again make a strong bid for catcher. The schedule of the coming season is one of the hardest ever arranged for a Carolina team, there being 21 games, including games with some of the strongest college and university teams in the country. Twelve game are to be played on the Hill, including one each with Georgetown, Yale, Colgate and Virginia.

DEMOCRACY—THE TASK OF THE UNIVERSITY

To all those who are interested in the University,—its work, its needs and its aims,—we earnestly recommend a careful reading of the recent President's Report.

In the President's Report proper, President Graham first tells of the activities of the University throughout the year, then of its needs. The University, however, is not an isolated institution, but is "a part of the organic life of this State." We here are confronted by two questions: Does the State need what the University is giving it? and What is the task of the University?

President Graham answers both as follows:

"There is no other issue in North Carolina public policy today but this fundamental issue of education. The permanent names in North Carolina statesmanship are those of men who put not words alone but their lives behind the great steps in our educational progress. This is plainly because the fundamentals of democracy have all of their vital roots in education. Equality of opportunity is there, and there alone. To talk of equality of opportunity in circumstances that now exist in our Southern States is political cant.

"Our own situation is well known. If we were not callous to it by repetition, if we truly saw it, and keenly sensed the fact that in full and free education of our people lies the whole secret of progress for which our State exists, we would courageously declare now and make effective a policy that would startle the nation, and make this section what by right it ought to be, the center of the next great forward movement in American progress. . . .

"Education is not a local issue. Its standards are relentlessly set in the markets and open forum of the world. A thousand times over we have paid the price for our blindness in the past, and daily for every dollar we save we now pay tribute ten times over. The immediate future will put us under far greater tribute. The issue is but a new form of the ancient issue of slavery and freedom. An ignorant people are as truly in slavery, economic and intellectual, as if they were in physical bondage. An educated mind is the genius of democracy. . . . It is the only dictator that freemen acknowledge and the only security that freemen desire. Without it there is no freedom.

"To make actual, vital, and complete through education this ideal that is the common hope and faith of all patriotic North Carolinians is the single-minded mission of the State University. . . .

"But neither in North Carolina nor in Virginia could the university exist as a representative democratic institution until the civilization of which it was the expression was truly democratic. That understanding and support of the university came first from the Western States, and from there came a new interpretation of 'making stated and secured provision for the higher needs of a civilized community:' that it means not merely the needs of the higher and more fortunate classes, but the higher needs of all classes in a civilized community—recognizing in actual fact that the higher needs of all men are identical in direction and equal in impulse.

"To catch the true import of that simple and necessary thought is the supreme achievement of democracy. To realize it as an actuality is to get public ownership of the tools of progress. To understand it is to understand the task of the University."

BOUQUETS FOR SERVICE

The University of North Carolina is loved by her students, faculty and alumni as few institutions are loved. Practically every man who has been connected with Carolina loves it with a love that is clear-sighted, fine and strong.—a love that is a union of many different elements, among which are pride in Carolina's democracy, independence and service, and sympathy for her limited means.

Those, then, who feel this love will probably gladly reread the following selections from Press Comments, contained in the January Alumni Review.

"North Carolina," says the Charlotte Observer, "may well be proud of her University. Last year it instructed twenty-five hundred and thirty-six people. The plant does not stand idle any month in the year. The instruction is reaching every county in some way. The doctrine at Chapel Hill is that North Carolina youth must be trained well enough to compete and hold their own with the products of the best institutions in the United States."

Progress, the organ of the Southern Sociological Congress, says:

"The University of North Carolina is perhaps at the present date more nearly a university of the people than any other Southern institution. To fulfill the ideal of what a university should be and to serve the people of the State as it should serve them, the university has enlarged its campus to include the entire State. From Chapel Hill there goes out a feeling that no part of the State is separated from any other part and that all the State has the same birthright to progress that any one individual has."

"'Instead of looking down upon a fellow who is working his way through, they rather look up to him at the State University.'" This is the sentiment that prevails at Chapel Hill, we are told by one who is in position to know because he is doing that very thing, working his way through the University. There are thousands of such boys in North Carolina who would never have opened up before them the opportunity for education but for the splendid undertakings at the University." That is what the Charlotte News says. * * "Gradually it (the University) has democratized itself, until under the splendid policy of President Edward K. Graham it has become in deed and in truth the college of the common people," says Charity and Children.

"The people as a whole who have been alienated from the institution because of its rather exclusive policy in the past, are warming toward it, and beginning to find that it is a college for the masses rather than for the classes. For this reason we have no doubt the present General Assembly will pursue a generous policy toward the institution and no objection will be raised in any quarter to reasonable appropriations from the public treasury to meet its growing needs." — Charity and Children.

"No one can spend a while at Chapel Hill without catching a vision of the greatness of our State University," says the Carolina Mountaineer, "and he cannot leave there without feeling proud of his State and the army of young men who are preparing themselves for the serious problems which are sure to confront our Southland in the future."

These appreciations from the press we mention, not in the spirit of boastfulness, but that they may inspire some of us to help the University work out more broadly and perfectly its great program of service.

"What is a colonel hereabouts?" asked a Northerner in North Carolina, and there immediately followed a discussion. Finally a colored attendant was drawn in.

"Well, gents," said the negro, "dere's lots of ways to answer dat question. Is knowed folks what was born kunnels—it jest run in de blood foh ginerations. An' I'se knowed folks what was jest ap'pinted to be kunnels. An' yit others what was made kunnels by bein' kind to niggehs. Why, gents, any man dat give me a dollah is a kunnel to me hencefo'th foheveh!" —Everybodys.

TO EXCHANGE: A second-hand touring car for cow or heifer in good running order. —Country Gent.

FOR SALE OR EXCHANGE

The following ads have recently appeared in an Oklahoma City newspaper:

THE CAT DIED

A large healthy cat that was making night hideous was doomed to death. The doctor was the executioner. He says:

"I soaked enough tobacco to make an ordinary cigarette in water. Then I injected under the cat's skin a hypodermic syringe full of this tobacco juice. In a few minutes the cat began to quiver, then to tremble, then it had cramps, and in less than twenty minutes it died in violent convulsions. The poison destroyed the nine lives the cat is popularly supposed to possess."

INTERESTING MEETING AT Y. M. C. A. TUESDAY

Dr. Moss led the discussion Tuesday night at the Y. M. C. A. before one of the largest crowds of the year. Progress was the idea of his talk. "We should look forward," he said, "and find out ourselves." Continuing he said, "Too many men stay within themselves—we should look beyond ourselves. The man who looks beyond and pours himself wholly into his undertaking, can accomplish the impossible. And, too, it is the spirit in which he goes about a task, that feeling that cannot be explained, or seen, whose dwelling is the light of the setting sun—the soul of things."

The attendance at these weekly meetings continues to grow, and many boys are beginning to realize the value of these instructive lessons and are fast taking advantage of the opportunity.

The Tar Heel has recently received a communication from "Fleet" Williams, '10. He expresses regret that Carolina did not beat Virginia while he was a member of the team, and wishes that he could have shared in the victory this year. Mr. Williams was a varsity man in both football and baseball. He is now engaged in the wholesale grocery business with his father-in-law, in Gadsden, Alabama.

Junior: "Did you get a six?"
Fresh: "Not a one."

REPORT OF PRESIDENT E. K. GRAHAM PUBLISHED

(Continued from Page One)

325 communities of the State 1300 high school students were given thorough training in debating. The News Letter was sent regularly to 9000 citizens of the State. Members of the faculty delivered 185 lectures in 64 of the counties, and the University brought to its lecture rooms and laboratories for special institutes the men and women of the State most interested in good roads, high schools, county churches, and the press. All told, every one of the 100 counties of the State received direct aid from the University.

But the University cannot continue nor extend these activities unless a more adequate support is provided in the future. In order to meet the greater obligations and opportunities we must have money and it cannot refuse to grow without sacricing some of its finest qualities. Two years ago the legislature gave the University $115,000 a year for maintenance and $30,000 for permanent improvements and debts. Owing to the fact that all this allowance was spent on debts, there has been no new construction during the past two years, except the athletic field (a gitt) and the power house, which is being built as an absolute necessity, following the condemnation of the old plant.

The current deficit on maintenance is $12,600, although $4,400 was saved last year by not supplying vacancies in the faculty. From an investigation made two years ago, it is shown that the University is doing its work on 33 per cent less per student per year than the average cost in Southern universities.

The University of North Carolina's total income last year was $220,661, while that of Virginia was $560,258, and that of Texas was $602,607 and its building budget is $3,000,000. The student body of Texas is about double that of North Carolina and that of Virginia is slightly less than North Carolina's.

Eleven of the Southern universities have larger working incomes per student than the University of north Carolina. Georgias is 76 per cent larger, Mississippi 101 per cent, and Virginia 141 per cent. Among the 25 State universities and A. and M. Colleges in the South our rank is 22nd.

The difference does not represent a difference in ability to pay, for we rank 29th among the states in tax burden per $1000 property valuation for university maintenance. Nebraska pays $1.98 and Minnesota $1.23 while we pay 18 cents on each $1000 assessed valuation. On the basis of per capita support, the rank of the State in university support is 39th. In this respect the states vary from $1.20 in Arizona, .92 in Minnesota, .76 in Nebraska, .70 in Wisconsin to .061 in North Carolina.

Through the century that the University has served the State, the State has put into it in the way of permanent improvements $422,000. It has to show for this tangible property values of $1,154,025, and an endowment of $101,000; by conservative estimates, more than double the amount it has spent.

If North Carolina needs and wants greatly to extend and deepen its educational activities, there is no issue of property involved. North Carolina is sufficiently prosperous, and it spends money for what it wants.

Eavesdropping and Interviews

"Have you heard from your exams?"

"Did you get by with—"

"Wish I knew what I got on—"

"I'd be proud of a four."

The eavesdropper tried to slip into a quiet corner of the Library to avoid the monotonous murmur. The eaves have been full lately, all of it just like that excepting for the slight but welcome variations of calculations as to when will be an appropriate time to resume study. Some people are going to begin as early as Monday, while others consider that at least three months is too soon. One senior let fall the remark that he had started Thursday in all earnestness, but of course seniors must strive to be impressive.

Falling over four sophomores in the entrance the eavesdropper as aforesaid attempted to slip into the library for rest and quiet, only to repeat the experience of "sinner man." There is no hiding place in the library.

Something is going on in there. The shelves in the reference room, which have always seemed so sensible and convenient, are mounting toward the ceiling in a most inconsiderate manner. The eavesdropper recalled the booloo ballot which elected the only lady on the Tar Heel staff and wondered if a literal of not general application might not be necessary if ever she were to reach that top shelf. Miss Strudwick announced, however, that stools, ladders even, might be had upon demand.

The magazine room was in order as to chairs, tables and shelves, but suffering from great internal disturbances. All the people who wanted to study were driven thither from the reference room, and crowded in among the time passers who daily dabble, or dabble daily, with magazines and newspapers Everybody interfered with everybody else, and everybody felt reasonably grieved. The studiously inclined were perhaps the most selfish for they resented the friendly conversational atmosphere which interrupted their studiousness, gave up in obvious despair and cabbaged the choicest magazines. The regular habitues of the periodical room had to fall back on the "Fortnightly Review" and Social Service Bulletins.

The eavesdropper wasn't inspired by the outside of a mathematical magazine, and wandered back into the hall where a carpenter was wandering around with a saw and a shelf, and bookcases were growing up in every corner. The book cases were already filled and on every book was one of those little gold stars that you used to get in Sunday School.

"What does it mean?" The eavesdropper was instantly transformed into the interviewer and accosted the lady at the desk.

"They are for the Freshmen. We are to put out a thousand books that the Professors require or at least recommend for Freshman reading."

The eavesdropper, or interviewer, the transformation makes no apparent difference, turned to the nearest shelves curious to see "What every child should know." A moment later the lady at the desk was standing up one of those marked copies. A junior and a co-editor must endeavor to be as well read as the Freshmen.

IF YOU HAVE MONEY land or estate due you, write ————; he will get it.

Here he is—good old PEPSI-Cola! The most successful "thirst-killer" that ever was. Never was a thirst, not even one of those dry, "cottony," mid-summer thirsts that had a chance with a PEPSI-Cola.

It just goes like lightning when this tall, tinkly, "ice-bergy" glass of PEPSI-Cola heaves in sight.

PEPSI-Cola

Try it—just see how refreshing and invigorating a drink can be. And don't be selfish—have the grocer deliver a case home so the kiddies can enjoy it, too.

THE TAR HEEL

C. S. HARRIS, *Circulation Manager,* Chapel Hill, N. C.

NEW INTERPRETATIONS REVEALED ON EXAMS

Many students would doubtless be willing to aver that the recent examinations contained a number of "foolish questions." However that may be, they yielded a goodly crop of aphorisms and foolish answers.

In the Law School, the maxim "ignorance of the law excuses no one," was construed to mean that an ignorant person is always convicted. Which isn't so far wrong, at that. In History, it was said that Hastings was charged with causing the Gorilla War. But the English examinations as usual, were the most fruitful. One student asserted that Baal was a tower built by people who tried to reach heaven that way. Predatory was defined as ancient, (pre plus date). Complacent was naively defined as out of place; don't know where you are, and blase as unnecessary.

The student who wrote "Bacon says if we could die more often we wouldn't mind it so bad," was a true philosopher. But perhaps the most brilliant example of reasoning power suzstituted for memory is the following: "Martial means pertaining to taking life. It has its meaning in a martyr, who is a man who gives up his life."

This derivation would make even the lexicographer in "Old Cronies" look bad.

A humane society had secured a down-town show-window and filled it with attractive pictures of wild animals in their native haunts. A placard in the middle of the exhibit read:

"We were skinned to provide women with fashionable furs."

A man paused before the window, and his harassed expression for a moment gave place to one of sympathy. "I know just how you feel, old tops," he muttered. "So was I."

With milk going up and gasoline coming down the signs of the times point unerringly to more automobiles and fewer babies.—Grand Rapids (Mich.) Press.

He—"My sister got a pearl from an oyster."

She—"That's nothing. My sister got a diamond from a lobster."—Exchange.

A kiss, says the bachelor, is like a rarebit or Swiss cheese sandwich—something which one often enjoys at night—and always regrets in the morning.—Steubenville (O.) Herald-Star.

Athletic Notes

Once more the breath of spring is in the air and young men's fancies lightly turn to thoughts of athletics, whether it be stalking with murderous intent the ferocious black cow or reaching after line drives out on the class field. The spirit and the design is the same everywhere.

Far be it from us, however, to endeavor with poetic rhyme or melodious prose to sing the charms of spring, which, no doubt, hath wiles to soothe the savage beast. Bun Hearn is on the hill, and last Tuesday led his charges in a little jaunt of four laps around the track by way of opening the celebrations of the baseball season. 'Tis true that a few managed to slip through a hole in the fence now and then, but most of the squad stuck out the mile, showing a laudable foresight for the future.

A few restive souls still kick the football out back of South, but the sport is tame compared to activities elsewhere, such as fighting for a shower under the gym. The gym. bulls are perfecting various gyrations at the peril of life and limb, preparing for a meet which may or may not be held—the decision resting with whoever happens to be considering the matter.

Once more the pitiful "Thank you" is being bleated out behind the gym., for the tennis-gentlemen are cavorting thus soon on the lime streaked clay. The soul of the athlete is cropping out everywhere, and if you don't believe it, read this column over again, and then see for yourself.

Casey had been married only a week when he discovered that his wife, who had assumed control of household and larder, was inclined to be stingy.

He had been woking in his small garden one afternoon when Wife came to the back door and called out in strident tones: "Terence, come in to tay, toast, and fioive eggs!"

Terrence dropped his spade in astonishment and ran into the kitchen. "Sure, ye're only kiddin' me," he said.

"No, Terence," said his wife; "it's not ye; it's the neighbors I'm kiddin'."—Everybody.

A crabbed old bachelor and an aged spinster found themselves in adjacent seats at a concert. The selections were apparently entirely unfamiliar to the gentleman, but when Mendelssohn's "Wedding March" was begun he pricked up his ears.

"That sounds familiar," he exclaimed. "I'm not very strong on those classical pieces, but that's very good. What is it?"

The spinster cast down her eyes. "That," she told him demurely, "is the 'Maiden's Prayer.'" — Country Gent.

FOR SALE: A cow giving three gallons of milk daily, also some chickens and a spool of wire.

Pages from Dr. Battle's History

Owing to the resignation of the Clerk, Prof. J. DeBerniere Hooper, coupled with the extreme illness of President Caldwell, and the interruptions caused thereby, there were no further entries of cases of discipline decided by the Faculty until January, 1836. After this there was for awhile a marked diminution of disorder. There was a fight in which a dirk was drawn and another in which a pistol was used only to intimidate the victim from resisting a beating with a stick. There was the running off to Pittsboro of three students under the strong suspicion of intoxication. We read of an egg-nogg frolic in a room in college, for all of which appropriate punishments were meted out, suspensions and pledges for the drinkers, while the man with the pistol was dismissed. With these exceptions all was very quiet until 1838. On the first Saturday night of the session of that year an organization, styling itself "The Ugly Club," with horns and tin pans and lusty lungs and whatever ingenuity can devise to make a noise, including of course the College bell was organized to banish sleep from old and young. Nineteen of them were caught and made to sign the appropriate pledge.

To illustrate the patience of the Faculty this case is given. J. B. continued to talk audibly in Professor Hooper's recitation room, although pointedly admonished to refrain. He was then requested to leave the room which he refused to do. The Faculty gave him three opportunities to admit his error, kindly reasoning with him on the subject and explaining to him that obstinacy would certainly incur the penalty of dismission. As he continued obstinate a resolution to suspend him was adopted. Here Professor Hooper interceded and the Faculty rescinded the resolution. This could not have happened in the days of Caldwell.

THE FLORENTINE MUSICIANS TO PERFORM AT CHAPEL HILL

The Lyceum Bureau of the Y. M. C. A. announces the Florentine Musicians as the next attraction which it will bring to Chapel Hill.

This company has been booked through the same system as the Hawaiians who were here just before the holidays, and is said to be of the same calibre as the Waikiki Quintet.

Three girls and a man compose the personnel of The Florentine Musicians. All of these are artists. Mr. Vissochi is recognized as the formost exponent of the Accordion. He has performed in every principal city of the world, where his only rival has been Pietro. The company will render a popular program.

On account of the reduced rate at which the Lyceum Bureau has been able to secure this attraction, the tickets are to be offered at the smallest price that has ever been charged for one of their performances. The price will be 50 cents for reserved seats (first ten rows, middle section, downstairs). These tickets went on sale at Eubank's yesterday. All other seats in the house will be 25 cents, on sale at the door.

TRACK PROSPECTS, TOPIC AT THE FORUM THURSDAY

Fred Farthing, captain of the track team spoke in Chapel Thursday morning on the subject of the track team, its prospects and its needs.

"There is an unusually large number of vacancies on the team this year," said Captain Farthing. "There are places open in the 100 yard dash, the quarter-mile, high and low hurdles, broad jump, high jump, and pole vault due to the fact that the men who last year filled these places did not return to the University this year. There is therefore, great opportunity for new men to prove themselves and make a place on the team. Since the one-year rule does not apply to track all first year men are eligible for the team. At present the team is weak, but there is certainly enough new material to recruit it to its normal strength."

The track schedule for this Spring is an unusually strong one —much better than the ones heretofore. There will be meets with Washington and Lee, Georgia Tech., V. P. I., the State meet, and the South Atlantic Meet in Richmond. These offer good trips and should be an additional inducement for men to come out.

BASKETBALL SEASON OPENS WITH VICTORY

CAROLINA QUINT LOSES TO PRESBYTERIAN FIVE

DAVIDSON WINS IN LAST THREE MINUTES OF PLAY BY GOOD COME BACK

36-31 SCORE AT END OF PLAY

Game Characterized by Fast Playing by Both Teams and Effective Passing—Visitors Show Good Team Work

The fast finish Carolina piled on a well-played game last Friday night was of no avail, for hope for victory in the last minute was nipped in the bud by Davidson's speedy response to the challenge of the White and Blue.

The game which resulted in a victory for Davidson 36-31 was one of the fastest and cleanest Carolina fans have seen on the local floor in recent seasons. Both teams had a great deal of pep and fight, and although the ball was in Davidson's possession two-thirds of the time, they were unable to score because of the alert guarding by White and Blue defensive men. The game was of particular interest because Reece, all-state guard for last season and said to be the best floor guard in the state, and Hengerveldt, have been working together so brilliantly thus far this season. Sheppard got six goals on Reece last year at Davidson. This year he caged seven. Hengerveldt was also a point winner, securing seven field goals, thre of them being brilliant tries at difficult angles.

Granding started off the game for Carolina. Filling this pivot position has been the most important problem Coach Peacock has had to face. Perry, who replaced Granding in the second half, played well, but lost to Hengerveldt's superior playing and weight.

The White and Blue face Davidson again in Charlotte later in the season, and there is still a good

(Continued on Page Six)

STUDENTS GO BEFORE SENATE COMMITTEE

Fifteen students, representing the University of Pennsylvania, Princeton, Lehigh, Georgetown and George Washington University, recently appeared before the Senate Military Affairs Committee. They told the senators that the vast majority of their student bodies favored universal military training. They resented, strongly, the representations of student pacifists that the college man of America is opposed to universal military training.

Many of the students had served at one or more of the Plattsburg training camps and at least one had seen five months actual service on the border.

Princeton reported that its student body favored universal training by a vote of 503 to 92, and, last summer, had 264 men at Plattsburg. Pennsylvania delegates said 1,450 of their men, a big majority of the undergraduates, favored universal military training.

Dr. Henry S. Drinker, chairman of the Military Training

CAROLINA STUDENT TO RUN FOR THE JAPANESE DIET

H. MONIYAMA LEAVES UNIVERSITY TO ENTER POLITICS IN JAPAN

Mr. Moniyama, the most popular foreign student on the campus, is gone. He finished the required work for an A. M. in economics with the fall examinations and left a week ago today for a short visit in Washington, D. C., and other cities farther east before returning to his native country, Japan.

In the language of the campus, "Moni" is a politician with a knack of making friends superior to that of his brother American students. He has had a wide experience in both his native country and the United States. After graduated at Wased University, of Tokio, in 1913 he became editor of the "Daily Shinbun", of the same city. He came to San Francisco in 1914 as special representative of the Japanese Government at the Panama Exposition. The exposition being over, he set out to find an ideal university in which to continue his education, and after traveling over the greater portion of the United States, he finally anchored at Carolina.

Moniyama is going to make politics his profession. His sudden departure was caused by a cablegram from Count Okuma, the leader of the constitutionalist party, which informed him that the Emperior had dissolved the Japanese Diet and that his candidacy for a seat in that honored body had already been announced. Messrs. Kata and Shiki who are somewhawt acquainted with Japanese politics say that he has an excellent chance of being elected.

STUDENT LIFE AND CONDUCT CHANGED

President Graham in his report points out the great change in student life and conduct which has taken place in the last decade.

"The romance of college life that clusters about the more or less amiable law-breaking and irresponsibility of a decade or two ago," he says, "does not exist any more as a feature of the college scene. If one wants college local color, he will find little of it in present college life. Mainly it is found in alumni reminiscence and in college fiction of the nineteenth century. This does not mean that college life of today lacks human interest. It has that to a far richer and deeper degree than in

Friday, Feb. 16 — Music in Chapel.

REPORT OF DEANS OF THE VARIOUS DEPARTMENTS SHOWS DEVELOPMENT AND NEEDS OF THE UNIVERSITY

The following is an extract from the dean's report.

"The work of the Freshman Class shows some improvement. The number of men who failed to pass six hours of work is less than in the preceding year, while the number of those who attained high grades is practically the same. Notwithstanding this, there has been no improvement in the percentage of men returning to college to continue their academic work. In the classes of the past five years not more than one out of four of the men who entered the Freshman Class remained till graduation.

"So far as I can learn, the principal causes of this loss are, first, financial difficulty; second, poor health; third, failure to pass college work, due either to a lack of preparation or to a lack of application; and, fourth, the temptation of lucrative positions. The fundamental problem of the college is not to increase the number of one-year students primarily, but to grip the interest of all the capable men of the first-year class so that they will not be satisfied with a training less thorough than that of a regular college course.

"For four years the Faculty of this institution, with rare interest, have given their time and attention to this problem. In addition to all their other work, they have offered to act as advisers to a group of Freshmen, but the offer has not been met in the spirit in which it was made. I realize that, in many cases, good has been accomplished but the simple fact remains that the student who needs this service most desires it least. Consequently, the results have not been entirely satisfactory. But I believe this work can be strengthened. Instead of a large group of advisers, I recommend that the President designate some instructor as Adviser for Freshmen, or Assistant Dean. . .

"The conduct of the students has been of high order. This is a self-governing body, and I doubt if a group of men could be found anywhere whose ideals are higher than those which prevail on this campus. Citizens of Chapel Hill who have lived here for many years, tell me that nothing in their memory equals the conduct and the courtesy of the University boys during the year for which I submit this report."

REPORT OF DEAN SCHOOL OF APPLIED SCIENCE

In his report Dr. A. H. Patterson shows the needs of more efficient buildings and equipment.

"The paramount and most glaring needs of the School are (1) more classrooms to teach in; (2) larger laboratories to work in; and (3) increased equipment to work with. So much has been said on this point, and the needs are so undeniable, that it would seem unnecessary to say more were the situation not so desperate, and the work of the departments so interfered with. Something must be done, and that soon. Every depart-

(Continued on Page Three)

HONOR GRADES ATTAINED BY 20 FIRST-YEAR MEN

LARGEST NUMBER ON RECORD EVER AVERAGING "2" IN SAME SEMESTER

Twenty members of the freshman class made an average of "2" or over on their work for the fall term. This is probably the largest number of men in any cass even making honor grades during the same semester.

J. L. Cook, of the Winston-Salen high schooll led the class with an average of "1". The ist as read by Dean Stacy in Chapel Friday is as follows:

J. L. Cook, W.-S. H. S., 1; L. S. Lashmit, W.-S. H. S., 1.17; E. J. Burdick, Asheville H. S., 1.2; H. S. Everett, Rockingham H. S., 1.2; P. E. Greene, Buie's Creek Academy, 1.2; E. C. Balentine, Salisbury H. S., 1.4; S. H. Reams, Durham H. S., 1.4; C. P. Spruill, Jr., Raleigh H. S., 1.4; E. L. Davis, Warrenton H. S., 1.5; R. B. Gwynn, Leaksville H. S., 1.5; F. B. Herty, Asheville School, 1.5; J. M. Jamison, Charlotte Uni. Sch., 1.6; R. H. Souther, Greensboro H. S., 1.8; B. S. Whiting, Raleigh H. S., 1.8; N. Mobley, Charlotte H. S., 2.0; R. S. Shore, Yadkinville Normal, 2.0; H. D. Stevens, Jefferson School, 2.0; C. R. Toy, Episcopal H. S., 2.0; E. E. White, Franklin (Md.) H. S., 2.0; A. C. Young, Charlotte H. S., 2.0

On Friday night, February 16 the senior class will initiate the annual series of class banquets. More than 75 men have intimated their intention to attend this occasion. A committee has been created to see that no senior leaves the Hill that night, no matter how urgent his call may be.

OUTSIDE CRITICISM OF OUR MAGAZINE

In the January number of the Red and White a lengthy criticism of the University Magazine appeared.

"So far as we are acquainted with it," says the Exchange editor, "The University of North Carolina Magazine is characterized in its bulk by two things—taste in selection and adequacy in execution. But, in addition to these, it is generally featured by some contributions of exceptional merit and excellence.

"If the somewhat far-fetched simile will be pardoned us, the magazine produces the same satisfactory effect attained by the performance of an operatic company with star singers in the leading roles supported by a good cast of performers in the minor parts.

"In the January issue of the magazine under review Alfred M. Lindau, though he is, like Othello, 'of few words,' holds the center of the stage with his gem of a poem *To Whom It May Concern*. Second to him is a but recently arrived comer to the footlights, a Freshmen philosopher, whose becoming modesty forced omission of his name from the program.

"The leading lady is Gladys Avery with her story *The Picture*. S. F. Telfair features a conven-

NEW FEATURE ADDED TO LITERARY SOCIETY

CONVENTIONAL PROGRAM LAID ASIDE FOR ENJOYABLE SOCIAL HOUR

DI HOLDS GIGANTIC SMOKER

"Peppy" Speeches and "Punch-Bowl" Talks Together With Fumes of Muse-Hallowed Weed Grace First Society Smoker

The Dialectic Literary Society has caught the social and festive disease and last Saturday night the august walls of Di Hall enclosed a scene of brotherl society that is unprecedent in the annals of literary and oratorical development at the University. For three solid hours the members of that learned body sat or stood around and swapped stories and smoked the muse-hallowed weed. The old gentlemen in their gilt frames may have frowned at first, but their looks must have changed to those of envy when joke and sandwich went round and inspired speeches flowed from the lips of a few gifted souls. The framed gentlemen no doubt knew the punch was not spiked, and so they rested secure and watched the scene with interest.

Every seat, except those that were broken, was filled with an expactant member. The toast-master, no less a person than Mr. Sharp, occupied a conspicuous position on the platform where all could see him. Professor Hamilton was the first speaker. In a short, friendly talk he congratulated the Society on the smoker, and applauded the decision that they should occur frequently in the future. Sam Ervin recited some choice bits of his delightful poetry, and Crawford eulogized the weed. Doc Harding, the man who flunks boys in first Physics, gave a short talk and brought C. S. Harris into a dispute about graveyards, both sides being upheld with learned skill.

(Continued on Page Six)

VOLUME II; "CURIOUS ANSWERS ON EXAMS."

Marvelous facts were revealed during the recent examinations. The Tar Heel presents volume II of Curious Answers, (not all by Freshmen, however.)

"The Zodiac" said one embryogenius, "Is the Zoo of the sky where lions, goats and other animals go after they are dead."

Another maintained that the German emporer is called the Geyser.

"The salic law is that you must take everything with a grain of salt."

"The spoils system: the place where spoiled things are kept. The Board of Health has largely taken the place of this."

"Elizabeth ascended the throne in 1588 and died in 1560. She did not have a long reign."

"The king was not allowed to order taxis without the consent of parliament."

"An abstract noun is something you can't see when you are looking at it."

"The brain is a soft bunch covered with wrinkles."

Single Copies, 5 Cents

66 CENTS ADMISSION!

"Tickets for the next class! Step up, gentlemen, and get your tickets for the next lecture, only 66 cents a ticket. Get your ticket now for Dr. Greenlaw's Lecture on the Elizabethan Drama, Dr. Wagstaff on First History, Dr. Henderson's section of Math One, or Dr. Raper's Economics! Admission 66 cents!"

"Who wants to match me for tickets to Professor William's Logic?"

No, we don't work it that way. But we would if we had to pay our money at the class-room door instead of here and there, to the Bursar, our boarding house keeper and others.

Every class you go on costs you 66 cents.

So does every one you don't go on.

Prove it? Certainly.

The average man's expense account here for the college year is, let us say, about 350 dollars. That is a most conservative estimate; it is probably 50 dollars more. But, including only the bare necessities, —railway fares, tuition and registration, books, room-rent, clothes and laundry,—we may reckon the expense account of the average man here this year to be at least 350 dollars.

Let us say that the number of hours that this mythical average student takes a week is 17, that is, 17 classes a week. During the whole college year, then, making allowance for holidays, he would be entitled to attend about 530 classes.

Now, going back to the days of the litle brown schoolhouse mental arithmetic, the problem is this: If 530 classes cost you 350 dollars, how much will one class cost you?

Sixty-six cents, approximately, is the answer. That is, every lecture you go on,—or don't,—costs you as much as six Pickwicks or 13 chocolate shakes. *Horribile dictu!*

"But," you say, "I don't spend all of my money for classes and the benefits I get from study; you forget the social side, the athletic side."

No, we remembered it. We did not include in the list of necessities expenditures for baseball, gloves, tennis balls, fraternity dues or Di Society fines.

The fact still remains staring us in the face: each class we attend, —or grat,—costs us over half a dollar.

Whence arises a multitude of questions. Am I getting my money's worth? If not, is it my fault? Or is it my professor's fault? Isn't it rather extravagant to come on class unprepared, or to sleep through a lecture? Who, excepting millionares, can afford to grat?

Tickets for sale! Tickets for sale! Sixty-six cents apiece!

WANTED—YOUR OPINION

Whether or not military training is desirable at Carolina, is a question that has been raised recently here on the campus. It seems likely that we shall have it, if we want it, in the near future. As yet, however, there has been little, or no, published opinions on the subject, either pro or con.

Doutless there are several men, both in the faculty and in the student body, who have opinions on it worth expressing, which would be eagerly read.

The columns of the Tar Heel are always open to discussion. And it especially invites the expression of your opinion in this matter.

VISIBLE BOOKS

During the first two hours of its existence, 125 books were taken from the Freshman Shelf in the Library, that is, more than one a minute.

This avidity with whwich the books were taken out is not only an unconscious compliment to the taste and judgment of the profs., who selected the books, but it is also a striking testimony to the fact that the Freshman Shelf is filling a long-felt want. It is a most successful experiment. Though it is called the Freshman Shelf its use is not, of course, confined to the Freshman class; any one who has the use of the Library may take the books from it.

There are two dangers that beset the Freshman Shelf experiment. One is that the shelves may not be kept full of books,—some of them are empty now. But doubtless the men who had the shelves put there will see that they contain little waste space.

Another danger is that some forgetful members of the student body may stroll off with some of the books without having them checked at the desk, momentarily oblivious to the truth that the honor system applies quite as well to the Library as to the examination room. That, however, is something which no gentleman can forget.

Neither of these, we hope, will prove serious. What is more likely is that the Freshman Shelf will grow and expand, if it can find room, into what it should be,—not a little shelf or two with a hundred books but a big room with thousands of volumes.

MARION ROSS LEADS Y. M. C. A. DISCUSSION

"We are not punished for our sins but by our sins," said Marion Ross, intercollegiate debater, in a talk to the members of the Y. M. C. A. last Tuesday night. "A man may escape punishment, physically, but his moral side will suffer deterioration by sinning. Not only does he suffer morally at the time, but his moral damage has so much effect that it gradually outweighs whatever physical success he may have achieved by the original sin." Mr. Ross cited many examples to prove his points, and his talk was greatly enjoyed by the members of the Y. M. C. A., about thirty of whom were present.

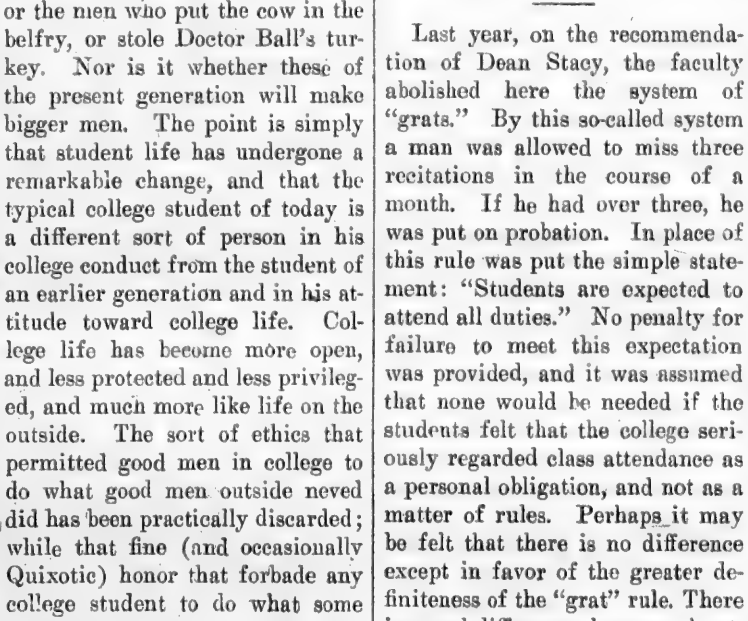
Francis Bradshaw led in the discussion following the principal speech. "A man's moral life," said Mr. Bradshaw "is a succession of choices between two things, one on a level higher than the other, and the sum total of our moral success in this life is measured by the difference between times we have chosen high and the times we

(Continued on Page Four)

The Haywood County Board of Education has made a ruling that *Cigarette Smoking Teachers* are not to be given employment in that county.

STUDENT LIFE AND CONDUCT CHANGED

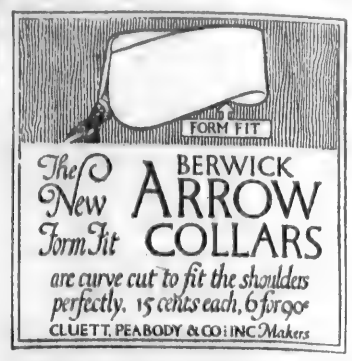
(Continued from Page One)



its period of juvenile brigandage. It lacks the jaunty air or romance in the same way that democracy lacks it; but it has beneath its somewhat gray and commonplace surface the quick currents of courage and sacrifice and adventure running full and strong. The point is not whether the men who wait on the table at the college commons, or tend furnaces, or cut wood and do similar unpicturesque jobs are any better men than the men who painted Professor Mitchell's horse (in the days of Professor Mitchell and of horses), or the men who put the cow in the belfry, or stole Doctor Ball's turkey. Nor is it whether these of the present generation will make bigger men. The point is simply that student life has undergone a remarkable change, and that the typical college student of today is a different sort of person in his college conduct from the student of an earlier generation and in his attitude toward college life. College life has become more open, and less protected and less privileged, and much more like life on the outside. The sort of ethics that permitted good men in college to do what good men outside neved did has been practically discarded; while that fine (and occasionally Quixotic) honor that forbade any college student to do what some acceptable citizens outside constantly do is fortunately preserved.

"College men have not yet become too good for the rough uses of this world, but they have made rapid progress in the development of a normal, healthy, responsible, and, at the same time, happy manhood. These new standards of college life and conduct have brought about this important result in the administration of the college: punitive discipline for deliberate misconduct practically does not exist. This fact means, in addition to whatever good results may be inferred from it in student work, that a tremendous amount of time is saved for college administrators who ought to be able to devote their energy to more protable tasks. With advancing student standards, there has been a steady readjustment of the center of the administrative control of student conduct. Self-government has more fully come to itself, and, like self-support, has passed the self-conscious stage. Affirmative policies of government (to put it briefly) have taken the place of negative policies; faculties have learned that he standards of students are high, and that what is needed is confident and competent leadership, rather than fearsome prodding."

Last year, on the recommendation of Dean Stacy, the faculty abolished here the system of "grats." By this so-called system a man was allowed to miss three recitations in the course of a month. If he had over three, he was put on probation. In place of this rule was put the simple statement: "Students are expected to attend all duties." No penalty for failure to meet this expectation was provided, and it was assumed that none would be needed if the students felt that the college seriously regarded class attendance as a personal obligation, and not as a matter of rules. Perhaps it may be felt that there is no difference except in favor of the greater definiteness of the "grat" rule. There is a real difference, however, in attitude, and the essential question is whether this attitude can be, as students say, "put across." Absence records for October and November of this year, the only two full months of completed record, show less than one absence per student per month from any duty. The average number of class duties per student per month is about seventy-five.



"It will be clear * * * that the impression that sometimes prevails that instituions of higher learning are patronized only by

STUDENTS GO BEFORE SENATE COMMITTEE

(Continued from Page One)

Camps Assn., and president of Lehigh University, introduced delegates from that instituion, who read a resolution adopted by the student body heartily endorsing the movement for national preparedness and universal military training.

Dr. Drinker emphasized the point that the interest of students in military training was not the result of hysteria caused by the European war as student camps had been held two summers, prior to the outbreak of war.

Yale had a large delegation before the committee, and Harvard, which each summer has sent more than a thousand students to Plattsburg, voiced the enthusiastic sentiment of the Harvard men in favor of universal military training.

VOLUME II; "CURIOUS ANSWERS ON EXAMS"

(Continued from Page One)

"A deacon is the lowest kind of Christian."

"B. Sc. stands for boy scout."

"Franklin produced electricity by rubbing cats backwards."

"Archimedes said that when a body *flotes* it sinks to such a *debt* that the fluid displaced is equal to its weight."

"Tennyson wrote a poem called 'Graves Energy!'"

"A vacuum is a large empty place where the Pope lives."

"Etymology is a man who catches butterflies and stuffs them."

"To kill a butterfly you pinch its borax."

"Horsepower is the distance one horse can carry a pound of water in an hour.

"To germinate is to become a naturalized German."

"The President takes the Yoke of office."

"The press today is the mouth-organ of the people."

"The cavalry swept over the eye-brow of the hill."

But cheer up, other universities are also subject to the peculiarity. The latest list of queer and humoristic answers which have been written on examination papers, was recently published in Current Opinion. Here is a list from the University of New York, the largest educational institution in the United States:

"There was no Christians among the early Gauls. They were mostly lawyers."

"Climate is caused by the emotion of the earth around the sun."

"A skeleton is what is left after the insides have been taken out and the outsides have been taken off."

"A blizzard is the inside of a hen."

"A circle is a round, straight line with a hole in the middle."

"The stomach is just South of the ribs."

"The alimentary canal is located in the northern part of Indiana."

"The government of England is a limited mockery."

"Georgia was founded by people who had been executed."

"Achilles was dipped in the river Styx to make him immoral."

WANTED — Moustache dye, fast color, to permanently darken red moustache. P. Conyers.

REPORT OF DEANS OF VARIOUS DEPARTMENTS SHOWS DEVELOPMENTS

(Continued from Page One)

ment in the School, except chemistry and medicine, reports the same situation. It is no longer possible, for example, for either physics or electrical engineering to expand, as every foot of available space has been taken up long ago in the badly cramped and poorly lighted quarters assigned to them in the Alumni building, which was never planned for the purpose. Mathematics and civil engineering must lead a sort of peripatetic existence under present conditions, and it is necessary to store expensive apparatus in a damp room in the basement. Laboratories for testing purposes are badly needed as well as offices, department libraries and reading rooms private laboratories, museums, and apparatus rooms. As to geology, Professor Cobb, in reporting that two of our recent students, W. L. Goldston and C. A. Holland, have been appointed to important geological positions with the Medina Gas and Fuel Company of Mansfield, Ohio, says: 'While most of our graduates (in geology) have gone into Government service, the demand for men in commercial work is steadily increasing; but we cannot hope to meet this demand indefinitely without better laboratory facilities, our present laboratory equipment being wholly inadequate.'"

THE SCHOOL OF MEDICINE
Dr. I. H. Manning, Dean

"The enrollment of students in the medical courses is approximately the same as in the past several years, viz., 63. With the progressively increasing requirements for entrance, a consistent increase in the number of students may not be expected."

THE SCHOOL OF EDUCATION
M. C. S. Noble, Dean

"Sixteen courses are offered in this department, and during this current year 133 students have been enrolled.

"The steady purpose of the department is to prepare young men for successful service in the schools of the State and also to so turn the serious thoughts of our students to the educational uplift of our people that, whether they teach or not, they will be aggressive and effective leaders for educational progress in the communities where they may live in after life."

THE GRADUATE SCHOOL
Chas. Lee Raper, Dean

"1. The enrollment for the year 1916-17 is, at this date, 113, thirtysix in the regular fall session and seventy-seven in the summer session (1916). The summer session had on its rolls 83 graduate students, but 6 of these returned for work in the regular sessions. This means a growth in the number taking graduate courses during the summer session. In 1914, the first summer session in which graduate courses were offered, there were 23 (7 returning for work in the regular sessions); in 1915, 58 (7 returning for the regular session); in 1916, 83 (6 returning for the regular sessions). It therefore appears that one of the large tasks of the University will be to render effective service to the graduate students of the summer sessions."

THE LAW SCHOOL
L. P. McGehee, Dean

"The total number of men from the University Law School applying for license at that examination was 38. All except 2 of them, including all who had certificates from the School, and 7 who did not have certificates, passed the examination, and were admitted to the bar.

At the examination last February, 18 men from the School were admitted to the bar.

"The registration for the current year is 76 (4 less than last year), of whom 23 are Seniors, 45 are Juniors, and 8 are special students. Of the Seniors, 16 men are eligible for, and are working for, the LL. B. degree. Of the Juniors 24 are eligible for the degree, and 4 or 5 men are taking the double A. B.-LL. B. course, instituted two years ago.

"I wish to urge again the desirability of reorganizing the School on the basis of a three years course. It is needless to repeat what I said in my last two reports on this subject. But I regard the need as imperative, if the School is to continue to be worthy of the University.

THE SCHOOL OF PHARMACY
E. V. Howell, Dean

"The number of students registered for the first year is 30, for the second year 13, special students 4, making a total of 47. The first year medical students taking work in this department are 30 in number.

"The record of the graduates before examining boards was good; all passed. The highest marks made on the last two examinations of the North Carolina Board of Pharmacy were made by students of this School."

DR. WILSON'S REPORT

The December number of the University of North Carolina Record, brought out some interesting facts about the various departments of the University.

From Dr. T. J. Wilson, Jr.'s, report we find "that 92.6 per cent of the students here are registered from North Carolina and 7.4 per cent from other States and foreign countries. The numbers from outside the State are as follows: 27 from South Carolina; 13 from Virginia; 9 from Florida; 7 from Tennessee; 5 from Georgia; 4 from Pennsylvania; 3 from Japan; 3 from Maryland; 2 from Connecticut; 2 from Massachusetts; 2 from New Jersey; and 1 each from Cuba, District of Columbia, Illinois, Louisiana, New York, Porto Rico, Texas, West Virginia, and Wisconsin.

"Ninety-four of the one hundred counties of this State are represented by students here. There are no students from Avery, Clay, Dare, Graham, Stokes, or Swain. Those counties which send 10 or more students, with the number from each, are as follows: Wake, 57; Guilford, 46; Orange, 44; Buncombe, 38; Mecklenburg, 38; Wayne, 35; Forsyth, 31; Alamance, 27; Iredell, 22; Robeson, 22; Rowan, 21; Durham, 20; Edgecombe, 20; Burke, 18; Craven, 17; Halifax, 17; New Hanover, 17; Surry, 17; Davidson, 16; Gaston, 16; Lenoir, 16; Union, 16; Granville, 15; Wilson, 15; Caldwell, 14; Duplin, 14; Johnston, 14; Carteret, 13; Pitt, 13; Cleveland, 12; Warren, 11; Beaufort, 11; Cumberland, 11; Sampson, 11; Chatham, 10; Rockingham, 10; Wilkes, 10.

Different religious bodies are represented among the students in the following numbers: Baptists, 317; Methodist, 315; Presbyterian, 197; Episcopal, 119; Christian, 38; Lutheran, 18; Quaker, 13; Hebrew, 12; Roman Catholic, 7; Moravian, 6; German Reformed, 5; Disciples, 3; Universal, 2; Congregational, 2; Saints, 2;

STUDENT LIFE AND CONDUCT CHANGED

(Continued from Page Two)

the well to do, and are for the service of the professional classes only, is not justified. A large per cent of the students have a little less than it is necessary to have in order to go through college and the great majority have less than it is comfortable to have. Seventy per cent of the men in college last year earned $50 or over of their expenses and 140 applied for work as waiters at Swain Hall this fall. Self-help work of any sort is neither a matter of shame nor a matter of pride. It has passed the self-conscious stage, and is accepted as no more remarkable in college than outside.

"On account of these conditions we have recognized the importance of keeping down the living expenses of the students to the lowest possible point. The college puts no money into these living expenses, but it assists in certain co-operative enterprises, under the efficient direction of its Business Manager. Board is provided at Swain Hall at $12.50 per month. The fact that excellent board may still be had under advanced food costs, at this low figure is a strong influence in keeping down the cost of board in the private boarding-houses, where most of the students board. Last year a co-operative book-store for handling text-books was organized by the Y. M. C. A., and then taken over by the college. After all expenses were paid $1,000 was returned to the student on a profit-sharing basis. The 512 students taken care of in the dormitories get lodging at a reasonable figure. The increase in accommodations from 484 last year to 512 this year was accomplished by allowing three occupants instead of two in the rooms in Vance Battle, and Pettigrew dormitories. We are able to help students of approved worth and need by means of the Martin and Deems Loan Funds. An average of one hundred men a year are helped in this way.

"Summarizing this important matter, it may still be said that a student may go through the University comfortably at a total cost of $300 a year, and I think it certain that the average cost throughout the country to the student for a similar quality of service is not less than from $400 to $500.

LITERARY PRIZE OFFERED BY SOUTHERN SOCIETY

As an encouragement and reward for literary effort in the South, and as a means of extending its own usefulness, the Southern Society of New York has offered a prize of $500 for the best literary work by a Southern writer, either prose or poetry, published in the year 1916. Competitors must be not only natives but also residents of the South.

The committee in charge is composed of Dr. John A. Wyeth, William A. Barber and Walter L. McCorkle. Another member of the Southern Society, Louis Graves, is assisting the committee by receiving and acknowledging the works submitted in the competition. A committee of independent judges will award the prize. S. R. Bertron, president of the Society, has donated the prize for the firs

RULES OF THE COMMITTEE

I. The author must be a native of the South and a resident of one of the following States: Delaware, Mississippi Louisiana, Texas, Tenginia, North Carolina, South Carolina, Georgia, Florida, Alabama, Mississippi, Louisiana Texas, Tennessee, Arkansas, Kentucky, Missouri.

II. The author's work may be either prose or poetry; it must have been published in book form or in some newspaper, magazine or other periodical in the year 1916.

III. Only one work of an author will be considered. If works are submitted by persons other than the author, on his or her behalf, and no submission is made by the author, the committee in charge of the competition will determine which work shall be considered. When an author submits his or her own work, no works submitted by any other person on his or her behalf will be considered.

IV. Every work submitted must be in the exact form in which it was published; that is, only printed books, newspapers, magazines or other periodicals—not manuscripts—will be received.

V. The author's full name and address, with an exact statement of place of birth and present residence, must accompany each work. All works must be sent to Louis Graves, secretary to the committee, 5 West 82nd Street, New York City, before 6 P. M. March 1, 1917. Receipt will be acknowledged.

VI. The committee in charge will make the awawrd upon the decision of a committee of independent judges whose names will be announced at the time the award is made.

MARION ROSS LEADS Y. M. C. A. DISCUSSION

(Continued from Page Two)

have chosen low. Sin affects man mentally, morally, and physically, and affects him in the same way he would be affected should be neglect his physical welfare: he deteriorates."

The discussion was very interesting and a good many men responded to the call for opinions. These Tuesday night meetings of the Y. M. C. A. are growing in size and interest and promise to become soon an important part of campus life.

Mr. Zollicoffer, '16, is now on the Hill.

A POSITIVELY GUARANTEED ATTRACTION
THE ORIGINAL AND ONLY COMPANY

"... on that morning the post brought news from our Richmond friend,—good news in the substantial form of packets of cigarettes of Virginia tobacco.

It is like stepping back into a quieter more courteous period, to dip into the aristocratic contents of a box of "good old Richmond Straight Cuts."

No other cigarette is quite like them. They have a subtle charm and quaint, old-time delicacy to be found only in their pure, "bright" Virginia tobacco.

You will find them just as appealing today as when the first ones were fashioned over two generations ago.

Athletic Notes

We hate to be wrong, especially in a column as important as this one, but we were undoubtedly in error when we said that the weather was suitable for tennis and baseball. This country has not only been cold toward Germany for the past few days, but it has been chilly even toward its zealous inhabitants. The chief mode of taking exercise now is to do foot-rests on radiators or stoves. Speaking of athletics reminds us of the fact that the Freshmen refused to run during the days of the last snow. How they found out the snow was too dry to make balls out of was a mystery.

Another athletic way of passing the time is arguing about the war, and worrying about the battalion we may have to join. A battalion would be a good thing. We need an organized method of attacking exams. Professor Patterson, who called it "the late unpleasantness," had an adequate conception of the situation. Rave on, Lucrece, about the figure of fashion, as illustrated in sundry magazines; the figure of fashion here is a five, but thrice blesed be fours. If the editor hasn't cut this out, perhaps you're wondering what it has to do with athletics. We don't know.

The co-eds played Chapel Hill High's girl's team last Tuesday, and suffered a disastrous defeat, 90-10. Very few starred, but the game was hotly contested throughout.

The class league will not be revived, but there are rumors of an inter-fraternity league being organized. The plan has not yet been decided upon.

A few track men have been working in the gym for the past two weeks, limbering up after hibernating for three months. The track is in a fierce condition, owing to bad drainage and superfluity of cinders. It is expected that the roller will be put on it at the first opportunity, and that some clay will be worked into the track to hold the cinders and harden the surface. Coach Brown was out for one day last week to look things over.

DR. WILSON'S REPORT

(Continued from Page Three)

Christian Science, 2; Church of Christ, Greek Orthodox, Apostolic Holiness, Adventist, and Tabernacle, 1 each.

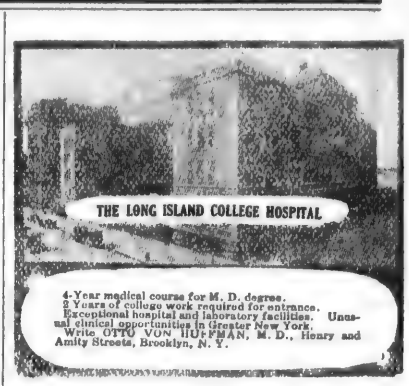
"Practically every profession and occupation is represented in the homes of our students. If we classify them according to the vocations of their fathers, we find the following figures: Farmers, 386; Merchants, 168; Lawyers, 63; Doctors, 50; Manufacturers, 48; Ministers, 36; Public Officials, 33; Bankers, 27; Mechanics, 25; Teachers, 23; Railroad men, 20; Dealers in Lumber, 18; Traveling Salesmen, 17; Dealers in Real Estate, 16; Dealers in Tobacco, 15; Insurance men, 13; Contractors, 13; Editors and Printers, 9; Druggists, 7; Managers of Public-service Corporations, 5; Bookkeepers, 5; Managers of Hotels, 5; Brokers, 4; Dentists, 4; Dealers in Cotton, 3; Fishermen, 3; Butchers, 2; Jewelers, 2; Civil Engineers, 2, etc."

Billy—"Jerry's girl is so cross-eyed that when she cries the tears run down her back."

Jack—"Can't they do anything for her?"

Bill—"Yes, they are going to operate on her for back-tear-ia."—Exchange.

Pages from Dr. Battle's History



I was sitting by Governor Jarvis on the rostrum in Gerrard Hall at the Commencement of 1883. The Hall was filled to its utmost capacity, and turning our eyes to the doors and windows we could see at least one-third more of good citizens, many of whom had ridden long distances, unable to enter the Hall. I said, "Governor, if you will promise the people that next year we will have a building large enough to accommodate everybody, I will show you where the money will come from." With great applause he made the promise and at the next meeting of the Board of Trustees I pointed out a fund which could be used for this purpose. I also stated that I had known of many good men who had gone to their homes dissatisfied because they were turned off from Gerrard Hall. They had probably become angry with the institution. The Governor warmly seconded the proposal, and promised to procure the sale to the University of bricks made at the State Penitentiary on extremely favorable terms. The Board agreed to the enlargement of Gerrard Hall and appointed Mr. P. C. Cameron, chairman of a committee to superintend the work. Mr. Samuel Sloan, of Philadelphia, was employed as the architect.

About this time a movement was begun to erect a cenotaph to President Swain on the Campus, his body being in Oakwood Cemetery, Raleigh. A considerable sum was promised for this, on the belief that it would be similar to that of President Caldwell. Mr. Sloan proposed that a new auditorium should be erected, and that this should be the Swain monument. His suggestion was approved by all and he was directed to draw up the necessary plans. The subscriptions to the Swain monument were turned over to the new memorial.

The cost of the building thus planned was estimated by the architect at $20,000, but he successively raised the estimate to $25,000, $30,000, and $40,000, and the final cost was about $45,000. It is evident that the architect who died before its completion either was ignorant of the art of estimating cost, or, which is more likely, that he designedly planned regardless of expense, trusting that the Trustees would be too proud to have an unfinished building on their hands. The Trustees relied implicitly on the chairman of the Building Committee, and on the characted of the architect, which was high.

The roof is supported by two great wooden arches one hundred and twenty-seven feet in diameter, lengthwise of the building. These were built on the ground and the raising them was a perilous task. The first attempt resulted in failure, most mortifying to the foreman because there was a large company of witnesses, including the Visiting Committee of the Trustees and Bishop Green, of Mississippi, then on a visit to his Alma Mater. One of the arches was raised a few feet, the tackle gave way and the ceremony was postponed.

The next attempt wasw by an experienced house mover, Mr. O. R. Smith, to whom we paid $500, and was successful. As the long complicated ropes strained and pulleys creaked, and the network of heavy timbers slowly and steadily rose in the presence of interested onlookers, the scene was very exciting.

NEW FEATURE ADDED TO LITERARY SOCIETY

(Continued from Page One)

Marion Fowler spoke for a few minutes on the subject of service. "He profits who serves" was given by [illegible] As an example of this he cited the inventor of the universal car, Mr. Ford.

Professor Noble talked for a few minutes on the German situation and deplored the lack of preparedness shown by the United States. "We have no need of an army? Neither did Belgium think she would ever use the 100,000 troops she was employing in holding down government jobs, but look at Belgium today." Professor Noble was strongly in favor of the plan to have a battalion here. A. M. Lindau's talk on "Opinions" was particularly interesting. "The lack of opinions among college men is appalling," said he. "They are as scarce as grapes at the North Pole. Why can't we have the courage of convictions? When we give in to what the other fellow thinks, when we are afraid to have an opinion of our own, we tacitly admit our brains to be inferior."

Goode was the last speaker. He spoke learnedly on the Valdese, their manners, customs, and especially their good wine. He remarked parenthetically that a Ford should have more springs in the back seat—apropos, no doubt, of the wine.

During the talks sandwiches and other gastronomical delicacies were passed around, and after the last the punch-bowl made its appearance. The dipper, wieilded by the muscular arm of Mr. Currie, soon supplied everyone with the nectar a mixture peculiar to Hill festivities. The clink of the cups made a sweet accompaniment to the lighter conversation that generally follows speeches, and when the cigars and cigarettes had been passed around every one was at ease and the smoker was a pronounced success.

OUTSIDE CRITICISM OF OUR MAGAZINE

(Continued from Page One)

tional part (not the villan in *The Triangle,* a one-act play. The chorus of *Sketches* is excellently entertaining, with marked notice compulsory to the trio who rendered *She, A Wail,* and *Poets and Poesy and the Criticism Thereof* —the title to the last being abridged. And the motif, *Our Shortcomings,* again and again returned to from many angles, is a sign that the University is not sitting down in progress-blighting self-congratulation (though this, for a while, after last Thanksgiving Day. North Carolinians could certainly forgive them for), but is healthily awake to her faults, is waging constant war against them."

FAST PLAYING OF TEAM TOO MUCH FOR V. P. I.

WHITE AND BLUE "TOSSERS" COME BACK STRONG IN SECOND HALF

SCORE: V. P. I. 23—CAROLINA 31

By Victory Tuesday Carolina Beat the Team, That Beat the Team That Beat Carolina'

The husky and clever V. P. I. team failed to intimidate the White and Blue quint last Tuesday night, and after a rough and snappy game Carolina came out master of ceremonies and wearing the long end of a 31-23 score.

The jinx seemed to camp with the Virginians at times, for splendid floor work resulted in a missed goal that should have counted. Wrenn and G. Cocke were the aggressive stars for V. P. I., and while the game was characterized by individual playing at intervals by the visitors, they never lost the ability to pass and work the ball up the floor man by man. The Tech forwards seldom were free, for the two Tennents guarded closely and most of the shots at the Tech goal were stiff tries with one or two luck shots.

For Carolina Shepard was without doubt the genius of the play, for Younger was repeatedly outwitted, several goals being made almost under the noses of the Tech guards. McDuffie caged a pretty goal from the middle of the floor, the ball bouncing high off the basket and then dropping through. Grandin secured four goals. The Carolina pivot man outjumped his man every time, and when Wharton was put in for B. Cocke, Grandin continued to secure the tip-off.

Raby Tennent's strong defensive completely baffled the Tech forwards.

Carolina's inability to shoot foul goals might have proved important, but field goals remedied the deficiency. Out of about eight

SAVE A DOLLAR A WEEK IS SLOGAN OF Y. M. C. A.

"Save a dollar a week" is the title of a placard going to each student Y. M. C. A. in the South at this time. This is an advance word concerning the unique gathering of students held every summer in the heart of the Blue Ridge Mountains.

"Blue Ridge" is a place unsurpassed in natural beauty, convenience and comfort. Located near the mountain village of Black Mountain, and only fifteen miles from Asheville, it is increasingly becoming the play ground for the entire South. Here are the most majestic mountains of the entire Eastern America-High Top, the Craggies, Black, the Seven Sisters Clingman's Dome, and Mitchell, the highest east of the Rockies. Mountain climbing, therefore, as well as sight seeing, kodaking, and the like, always occupy a prominent place in one's stay at Blue Ridge. And abundant facilities for tennis, baseball, volley ball, basket ball, and swimming complete the list.

LEGISLATIVE COMMITTEE PAYS UNIVERSITY VISIT

Over Six Hundred Students Assemble To Welcome Men From State Legislature

On Monday, February 12, at 12:45 P. M., the University of North Carolina convened in Chapel to behold what President Graham insisted was an exceedingly interesting spectacle, the committee from the State Legislature, on its annual visit to the University.

"It is interesting," he said, "because it is an exhibition of democracy ruling itself."

The committee was sent here by the State to arrive at an estimate of how much the University is worth. It should be worth one million dollars since last Thanksgiving, Dr. Graham said, for two years ago a member of the legislative committee solemnly promised an appropriation of that amount if we beat Virginia. We have fulfilled our part of the contract.

Senator Everett, of Rockingham, was chairman of the meeting. In his opening remarks, he inspired new hope in the breasts of many of us by pointing out the fact that he himself was once a mere college boy inclined to fall by the wayside. He told us that he was suspended four or five times in his Sophomore year, and withal came out

(Continued on Page Six)

MATHEMATICAL CLUB

The Mathematical Club held its regular monthly meeting in Chemistry Hall, Tuesday night. "The Inscription in a Circle of a Regular 17-gon" was the subject of a paper given by Mr. S. B. Smithey, and Dr. Archibald Henderson spoke on "Characteristic Tneorems in the Foundations of Geometry."

SENIOR CLASS MEETS

At the Senior class meeting, Monday, Roy Gwaltney was elected manager of the Senior baseball team. Gwaltney was all-class first-baseman last year, and it is believed down Senior way that he will bring out a team this year which will distinguish itself in the championship series.

The committee on commencement invitations reported that they had selected the invitation and had arranged to have them sold by the marshals.

CHAPEL HILL 48—CARY 10

By exhibiting good form in handling the ball, Chapel Hill won over Cary High School last Tuesday, by the score of 48-10.

Merritt, right guard showed unusual ability in covering his man, and in aiding in the team work.

HILLSBORO HIGH DEFEATED

In spite of the extreme cold weather the Chapel Hill five and Hillsboro High met in "Old Commons" last Friday week in a rough and tumble game which resulted in a 23 to 8 victory for the Chapel Hill lads.

Today the Burlington girls will meet the Chapel Hill girs in their first game of the season. The visiting five, it is said, is a strong and aggressive bunch, and will give the former state champions a lively tussle.

TROPHY CUP TO BE AWARDED TO CLASS BEST IN ATHLETICS

A new plan for conducting athletics in a general way is being discussed at present with the idea of establishing it within the next few days.

President Graham has called attention to the fact that the majority of the students do not take part in any of the various forms of athletics. The idea involved in the new plan is to remodel the system of class athletics so that the competition will be keener and the spirit of rivalry more pronounced. The task of setting this new idea in motion has been placed in the hands of the student and athletic councils combined with Coach Campbell at the head of the committee. A meeting was held by the above body and it was decided that a representative should be appointed from each class to serve with the committee and to be a sort of general manager of his particular class athletics as a whole; the managers of the individual forms of athletics being elected as usual.

Although it has not been definitely decided upon as yet, the gen-

(Continued on Page Two)

MINSTREL SHOW MAY BE ORGANIZED HERE SOON

For many years past, plans have been discussed for having an old fashion minstrel show.

Some have wished to combine the Glee Club and Dramatic Club into a minstrel, others to combine these organiaztions with the band, and others to have a minstrel separate from the other similar organizations of the University.

This year the plan has again suggested itself for consideration, though more seriously, and with better prospects than ever before.

The plan, though not completely developed, is to have a minstrel "first part" followed by vaudeville musical and acrobatic numbers.

The talent this year seems more suited to the minstrel than ever before, and with the training which the Glee Club members have already had, a good chorus could easily be selected which would insure the success of the "first part."

The members of the faculty who are most interested in it have sent for catalogues, and if the plan developes, the success depends upon the co-operation of the students.

What's to Happen and When

Sunday, Feb. 18 — University Sermon in Gerrard Hall, 11 o'clock.

Monday, Feb. 19 — President Graham in Chapel. Latin-American Club meets at 7 o'clock. 8 P. M. Carolina vs. Elon, basketball.

Tuesday, Feb. 20—Dr. McNider in Chapel. Weekly Y. M. C. A. meeting at 6:45 o'clock.

Wednesday, Feb. 21—Dr. McNider in Chapel.

Thursday, Feb 22—Washington's Birthday, holiday.

Friday, Feb. 23—Music in Chapel.

Y. M. C. A. HERE ACTIVE IN RELIGIOUS AND SOCIAL LIFE OF THE UNIVERSITY

Is Playing Important Part in Campus and Community Life

THE BLUE RIDGE CONFERENCE BY DR. J. WATT RAINE OF BEREA COLLEGE

Dr. J. Watt Raine, of Berea College, Berea, Kentucky, ho has for many years been a leader and speaker in the Southern Student Conference, Blue Ridge, North Carolina, calls attention to the Blue Ridge Conference.

"It is not a place," he says, "where abnormally pious fellows go to soak themselves in an atmosphere dripping with religion. If you are that sort of Righteous Willie, you will not feel at home there. They would probably drop you into the swimming pool for the sheer pleasure of hearing your holy tones come gurgling up through the water.

"You might justly infer that Blue Ridge is not permeated by a severe classic formality. It is a gathering of friends; four hundred young men, and a few older men, enjoying themselves together for ten delightful days. There is nothing greater than friendship, and any possible chance to enter this Blue Ridge group should be eagerly seized. This is not a summer resort where you scrape a shallow acquaintance and painfully converse about the weather or the table.

"Have you wished that you could share some of the deeper experiences of sane and healthy men? Have you wished that you could get down to something solid in religion? Have you wished you could take time to investigate some things that you have heard vaguely mentioned, or touched upon occasionally but never really explained?

(Continued on Page Five)

FOURTH ANNUAL ROAD INSTITUTE HELD HERE

Under the auspices of the University, the North Carolina Geological and Economic Survey, and the N. C. State Highway Commission, the Fourth Annual Road Institute was held this week at the University.

The purpose of the institute has been to demonstrate the new methods of road building and various points that may come up in highway construction. The majority of the lectures given are highly practical and theories and technicalities are only introduced when necessary.

The Institute has grown remarkably in the last three years. At the first Institute there were 54 representatives from 24 counties; at the second, there were 80 from 29 counties; at the third there were 127 men from 43 counties and from the states ranging from the District of Columbia to Texas. This year the enrolment has again been considerably increased. The attendance is made up of road engineers, road superintendents,

(Continued on Page Six)

OVER 200 MEN IN BIBLE STUDY GROUPS OF Y. M. C. A.

FIELD OF WORK RANGES FROM CAMPUS AND CARRBORO TO HANGCHOW, CHINA

With a field ranging from the campus and Carrboro to Hanchow, China, the student Y. M. C. A. here is doing a work equal to the extent of its territory. Every phase of the University's life is being touched by the Y. M. C. A.'s activities. Even the ignorant negro of Carrboro as well as the "heathen Chinee" across the ocean is being cared for and coaxed to higher planes of living.

The extent of this institution's work may be seen in the report of the various departments.

FINANCIAL DEPARTMENT

Only 179 of our 1200 students have paid for membership to the Y. M. C. A. Last year there were 243 paid memberships—a deficit this year of 64 members. There is this falling off in memberships in spite of the fact that two membership campaigns have been held and every dormitory canvassed. As the Y. M. C. A. is practically dependent on its memberships for financial support, it is hoped that the men will not wait to be approached on this subject, but will turn in their $2.00 immediately to Francis Bradshaw.

As yet there has been no canvass of the faculty on behalf of the Y. M. C. A., but plans are now being made to have each faculty member canvassed within the next week. Last year the faculty gave a total amount of $100.00 and it is probable that they will respond liberally this year when called on.

THE BARNETT FUND

The Y. M. C. A. is pledged to give $500.00 each year for the support of Eugene Barnett, but for several years this amount has not been raised. Thus far only $36.00 has been paid in, while a total of about $200.00 has been promised for this fund. It has been estimated that if each student would only give 10 cents a month for four months, there would be no trouble in maintaining Barnett on the field.

BLUE RIDGE COTTAGE

The old men here know what a struggle the Y. M. C. A. has had to raise $500.00 to pay its part of the cottage built at Blue Ridge by the Greensboro Normal Y. W. C. A. and the University Y. M. C. A. It still owes $140.00 on this fund while Greensboro paid all of her $500.00 two years ago. Last year with a debt of $300.00 on this cottage, $160.00 of this amount was finally raised. If the students will respond to this cause as liberally this year as they did last year Secretary Bradshaw believes that the Y. M. C. A. will be able to entirely pay off this debt. An opportunity will be given to each student

AN ATHLETIC RENAISSANCE

Do you ever feel in the afternoon, that you want to take some exercise? You consider the matter from all angles: you feel that you are not good enough to go out for the varsity; you are sure that your class team isn't practicing, for it rarely does, excepting the 20 minutes before a game; and you can't get a tennis court, for they have all been taken hours ago. So you decide to go to the gym. You go. You pull the chest weights and swing on the rings a minute or two,—then look around for more worlds to conquer! Unable to find any conquerable, you run around the track upstairs two and a half times. You then go in, bathe and reflect that the afternoon was not one of the most entrancing or wildly exciting of your existence. Soon you cease to take any exercise at all.

So it goes with some seven or eight hundred of us. There are, indeed, a chosen few, somewhere between 40 or 50, that make stars or letters annually. And there are about 150 scrubs getting plenty of good exercise racing the aforesaid 50 fo rtheir letters,—not more than 150, either, you will realize when you recall that there were fewer than 30 men on the football squad last fall. Add to these 50 men who play tennis regularly and 200 who visit the gym every afternoon. This will give some 450 men who take some form of regular exercise. It will leave about 750 or 800 men who take no regular exercise, although they do indulge their athletic desires by snow-balling, roly-poly and center rushes in the Post Office.

The conditions may be better than the figures show they may be worse. But it is true, nevertheless, that to hundreds of us the Library, the Pickwick, the drug stores or our rooms make a stronger appeal than any form of athletics.

To give the student body opportunities for exercise less limited and exacting than varsity athletics, more appealing than gym work and better organized than class athletics,—that is the problem.

Coach Campbell stated to the student and the Athletic Councils Monday night a solution of the problem. His plan is given more fully elsewhere in this issue. But, in part, it is as follows: A cup, or some other prize shall be given at the end of each year to the class which makes the highest average in class athletics for that year. A cup is to be given also to the athlete who contributes most to the success of his class. In the sports are to be included baseball, basketball, football, track, tennis, swimming, a gym meet, a tug-of-war, etc. The plan has many other important points which we must here omit. It is to go into effect within the next week or so.

If it works—and it is the duty and the opportunity of every man here to help make it work—then it will not only rejuvenate class athletics here but it will expand and enrich them. Class athletics will include more sports more men and will be better organized than heretofore. The number and diversity of the sports will give an opportunity to every man in the student body and the cups and competition will lend the sports an additional appeal.

A better class team, a better varsity and a stronger, healthier student body should be the results of this plan.

Go out yourself and help make it work!

THE CONSTRUCTIVE VISION

It needs no unusual clearness of vision to see that the south should be the center of the next great forward movement in American education. Some of our southern states have left so much room among them for progress that nearly all men know the unfilled chambers exist. But it is a different thing to feel already the currents of activity moving, and to share in the resolute purpose which can keep them moving until the void shall be filled by real works of progress. Of such is the vision which Dr. Edward K. Graham. the president of the University of North Carolina, possesses. It appears in each page of his annual report to the institution's trustees. Looking ahead to the place which the south should come to hold in the sun, it makes little immediate difference to President Graham that North Carolina is giving its university far less support than other states are providing for their college, or that his institution has only $245 of working income per student, whereas Arizona State University has $1,299. The material support must come and will come, as soon as the people of North Carolina are rightly awakened to their educational needs. It is the approach of this awakening which President Graham observes, and he makes it precede even his strong plea for money. What he sees first of all is the new eagerness among his students, and among the people at large in a state which in five years has increased its attendance at public high schools from 5,000 to 10,000, and which in 1916 sent 1,050 students to the university's summer school, whereas in 1907 it sent 36.

Even these positive assets are of scant concern to President Graham in their aspects merely as a material record. He remarks: "Satisfaction in the rapidly growing activities and increased size of an institution should depend not on the fact of growth, but on the nature of growth." The educator who keeps this in mind is the man who will do the constructive work of making an educational institution truly great. It is the spirit which one would expect to see revealed by Dr. Graham.

All too little of these eternal verities is being expressed in the annual reports of typical university presidents in the east. The head of a large university recently filled his report with an outline of the ways in which he was going to make his institution the "world's greatest," and discussed them nearly all in terms of money and numbers and buildings. What President Graham stresses is not these, though he seeks them most earnestly. His is the constructive vision which sees that it has a real job to accomplish, and is not deluded into thinking that it has merely a stewardship over great things done in the past, or that a compilation of any number of facts can ever be more than a preface to actual thinking. And in a state that seems broadly wakening to its needs of education, it will need only Graham and a few other leaders to make of this vision of the south's coming educational progress a reality. Becoming such, it may give some northern jugglers in statistics a beneficent jolt.—Boston Transcript.

TROPHY CUP TO BE AWARDED TO CLASS BEST IN ATHLETICS

(Continued from Page One)

eral plan is to have a cup as a reward to the class which makes the best average athletic record; that is, the class which leads at the end of the year after all the forms of athletics have been averaged as a whole. This cup is to remain in its possession only so long as it keeps the lead. However, the name of each winning class with the year in which it won is to be engraved on the cup, making it a permanent prize that will always be in demand.

In all probability the basket-ball championship will have to be reestablished, owing to the number of varsity men who would have been later barred from comptition. Now is the time for every class to make the first step toward having its name engraved on the cup; a victory in basketball will count largely in the final reckoning at the close of the season.

"SAVE A DOLLAR A WEEK" IS THE SLOGAN OF Y. M. C. A.

(Continued from Page One)

The equipment, too, furnishes every necessity. The spacious Robert E. Lee Hall, and the numerous cottages built by the colleges furnish the most comfortable "quarters." The grounds and buildings are all supplied with electric lights, water works, sewerage, and every other modern convenience.

It is here that the men convene their conference just after the close of the college women's gathering. It is here that the students gather for addresses for Bible study, Mission study, for round table discussions, for enlarged conceptions of, and thorough training in the whole program of religious work in the colleges and preparatory schools. It is here that men have often secured aid on their life work. And it is here through comradeship one student with another and with great student leaders like Robert E. Speer, Bishop McDowell, E. T. Colton, Dr. E. M. Poteat, Dr. O. E. Brown, Prof. H. H. Horne, Dr. W. D. Weatherford, and others, that men have caught a new vision for themselves, as well as a new sense of their responsibility to their fellowmen. It is here, in short, that men have been inspired to do their work.

Over four hundred men were in attendance at this gathering last June. Already scores of students are planning for the next one—June 12-21, 1917. Many men will make good the opportunity during the early spring to plan this next greater gathering.

FAST PLAYING OF TEAM TOO MUCH FOR V. P. I.

Y. M. C. A. HERE ACTIVE IN RELIGIOUS AND SOCIAL LIFE

(Continued from Page One)

to contribute to this fund in the near future, and it is earnestly hoped that this debt will be entirely paid.

THE BOOK EXCHANGE

The second hand department of the Y. M. C. A. Book Exchange announces that up to the beginning of the Christmas holidays it had sold $445.00 worth of second hand books. This is larger than the amount handled during all of last year, and will probably be nearly doubled when the sales for this term shall be added.

The books are handled for a 10 per cent commission which is divided equally between the Y. M. C. A. and the self-help student who does the work. Alas for those good old days—yes, when a $2.00 book was sent to be exchanged for twenty-five or, perhaps, fifty cents worth of notebooks and fancy groceries.

LOST AND FOUND BUREAU

The following men may get the articles which they turned in to the Lost and Found Bureau by calling at the office of the Y. M. C. A. at 2:15 any day except Sunday:

J. C. Arbogast, Jr., Fountain Pen.
Dr. D. V. Wilson, Watch Chain.
T. O. Wright, Fountain Pen.
Frank Clarvoe, 2 pennies.
W. T. Polk, Knife.
H. G. Baity, key ring with keys and chain attached.

If these articles are not called for within ten days they will be sold to the highest bidder.

The following unclaimed articles are at the Lost and Found Bureau: three Fountain Pens (Eagle, Waterman and Capitol); Ingersoll Watch, 4 knives (1 pearl handle), Lady's purse containing 52 cents, 5 keys (2 gyms. and 3 lab. keys), 2 gloves, and a number of hats and caps.

If these articles are not called for within 30 days after they are turned in to the Bureau, they will be returned to the finder.

SELF-HELP DEPARTMENT

The purpose of the Self-Help Department is to find odd jobs for men who want them and also find men for odd jobs. During the past fall 28 different men were aided by such jobs. The total amount earned by these men was approximately $250.00.

Some of the more common odd jobs are: firing furnaces, gardening, cleaning yards, cutting wood, milking, etc. The self-help student, is never particular in regard to the kind of job. He is eager to do all kinds of work.

The faculty has given to these students the majority of the jobs, although the other citizens of the town have offered many of them. All the boys report that they enjoy working for the people of Chapel Hill and are highly pleased with the incomes received for their work.

This department of the Y. M. C. A. is eager to satisfy both employer and employee and it trusts that it may be of great service during the spring term.

THE COLORED Y. M. C. A.

One of the most progressive and independent branches of Y. M. C. A. house is the colored Y. M. C. O. Not only do the negroes in charge conduct the meetings but they keep up the home and run the organiaztion practically without the aid of University fellows. They have secured a better building now at the end of Cameron avenue which is used for regular meetings and the night school. The rooms are warm, well furnished, and amply provided with good literature. The night school is being held three nights in the week during the cold season and will continue every night when spring sets in.

KNIGHTS OF THE CAMPUS

Early last spring there appeared on the Hill a new organization the Knights of King Arthur. At first it consisted of only a half dozen boys who met on Friday afternoons at the Y. M. C. A. to relate the deeds of heroes; but under the leadership of Tom Boushall the little band steadily grew until there was a membership of seventeen real knights of the Round Table, ranging in age from eight to thirteen.

As soon as the warm days came, interest went beyond the narrow confines of the little meeting room to the out of doors; and baseball and hiking took the place of "knight" stories.

BIBLE STUDY DEPARTMENT

The Bible Study Department is making a fair success under the leadership of J. A. Capps. There were nineteen groups organized early in the fall; with few exceptions these are still meeting at 12:30 each Sunday. The greatest problem has been to get enthusiastic leaders. There are still something over two hundred men in regular attendance at the meetings.

In a few weeks there will be a re-organiaztion of the Bible Study work, and a new subject under the general head of *Missions* will be substitued for the subjects now in use. At that time there will be an effort made to somewhat strengthen the old groups with new members and, also, to organize several new groups from among the young men who are not now attending any of the group meetings.

If you will join one of these new groups, either as a member or as a leader, please hand your name to Mr. Bradshaw or J. A. Capps.

EDUCATIONAL DEPARTMENT

The Educational Department of the Y. M. C. A. has recently started a "Rural Lyceum." One lecture a week for four weeks, in the seven communities in which Sunday Schools are conducted by the University students, was held, with the exception of three schools where only two or three meetings were held.

During the first three weeks the speakers were members of the faculty and one of the ministers of the town. Lectures were delivered on such subjects as: "The Gary Plan in Education," "Schools and School Buildings," "What to Eat, and How to Eat it," "The Europe that is now at War," and "The Glory of the Commonplace." The lectures on Europe and on schools were illustrated.

To cap the climax, a dramatic or musical was held at each place on the last night. These were performed by members of the Glee Club, Messrs. Kato, and Shiki, and Prof. McKie.

The attendance at these meetings ranged anywhere from 3 to 100, the average being 41. One Sunday School had an average attendance of 72, one has asked for another event, to be held under the auspices of the local community club. Admission will be charged, and the proceeds used to aid in the building of another room to their school-house.

While this undertaking has been under the direction of the Educational Department of the Y. M. C. A., it has been made possible only because of the interest of the members of the faculty, students, and owners of automobiles, who furnished the very necessary element of transportation.

The upper classmen have been mainly doing this work this year. The Y. M. C. A. wishes to enlist more First Year men in these Rural Sunday School Corps this spring.

James F. Johnson, '19, and Ellis Thomas, of the Law School, were initiated into the Alpha Tau Chapter of Sigma Chi, Wednesday night.

Orpheus E. Wright has been initiated into Phi Delta Theta.

ALL FOR FIFTEEN SHILLINGS

Recently there appeared in a London newspaper an advertisement for an experienced insurance clerk, wages fifteen shillings a week. The advertiser got a lot of sarcastic letters, like the following, and he deserved them, too:

Dear Sir,—I would respectfully apply for the position you offer. I am an expert in insurance in all its branches. In addition, I converse fluently in Gum Arabic, Gorgonzola, Zola and Billingsgate. I write shorthand, long hand, left hand and right hand. I can supply my own typewriter if necessary, and I may mention that I typewrite half an hour in ten minutes—the record for Great Britain. I would be willing also to let you have the services, gratis, of my large family of boys, and if agreeable to you, my wife would be pleased to clean your office regularly without extra charge. The cost of postage for your answer to this application can be deducted from my salary. Please note that if you have a back yard I would make bricks in my spare time.—Tit-Bits.

George Ade is said to have introduced a speaker at a banquet by remarking:

"Two towns in Indiana lay claim to the honor of Mr. Blank's birthplace." (*A pause, during which Mr. Blank strove to look modestly deprecating.*) "Warsaw states that he was born in Kokomo, and Kokomo insists that the honor belongs to Warsaw."—Everybody's.

'Twas in a restaurant they met
Romeo and Juliet;
And it was there he got in debt
For Rome-owed what Juli-et.—
Exchange.

GLEE CLUB HAS EVENTFUL TEN DAY'S TRIP IN STATE

"Who left the gate open—look! coming across the street!"

Two well-dressed girls sat in a drug store window of a certain little town in the state and peered out inquisitively at a bunch of fellows coming up from the station buried in overcoats and mufflers, and carrying all sorts of guitar and mandolin cases.

"It's the Carolina Glee Club, and they are to show at the opera house tonight."

"Oh yes, they are the ones on that picture there in the window."

"Who is that fellow rushing along in front with the tortoise-shell glasses?"

"Mr. Harris? Oh yes, the man who plays all over the piano. Well, I never should have known him. And there is Buck Wimberly—Dear Buck—I wonder if he is juggling this year."

"Who is that dumpy little fellow walking along as if he were running on a uat tire?"

"Don't you know 'Dumpy' Green? He plays the guitar. And there are the Travis boys. I wonder which one plays the ukelele. But who can that short, little fellow with the big hat be? I don't believe I ever saw him before."

Such was the talk of the town in Goldsboro, New Bern, Washington, Wilson, Rocky Mount, and Raleigh as the University Glee Club "breezed" through last week. The result was a full house in every town. Wilson led in attendance, one fair dame selling 75 tickets.

The entertainment given the club o nthe trip was unusual. Five consecutive dances were given, and in every town generous hosts donated their homes, cars and dining rooms to the songsters from the University. The performances on the whole were very good. The program was more balanced and had more variety than usual, due to the skill of Director Harris. Among the most popular numbers were Howell's yodeling, Harris' Yankee Doodle, Fisher's bass solo, and the selections by the mandolin club. A serenade by Lashmit, Lindsey, Spaugh, and Harris was also a sure applause getter.

Old members of the club pronounce this the best trip yet.

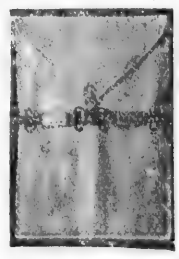
RECEPTION TO MR. AND MRS. STEADMAN

Tuesday evening from nine till twelve a brilliant reception was given at Mrs. Bain's in honor of Mr. and Mrs. Stedman who were married during the Christmas holidays.

Guests were met at the front door by Dr. T. J. Wilson and Mr. W. W. Rankin. The receiving line was composed of Mrs. T. J. Wilson, who was handsomely gowned in beaded black velvet, Mr. Stedman, Mrs. Stedman, who wore her wedding dress—an exquisite creation of white brocaded satin and real lace, Dr. Pierson, Mrs. Pierson, who was clad in a pale green and pale blue French evening dress, Mr. Turlington, Dr. Foerster, Mrs. Foerster, who wore blue satin trimmed in black fox, Mr. Lasley, Dr. Greenlaw and Mrs. Greenlaw, who wore a dainty lavender dress of crepe de chine and chiffon.

The guests were then invited into the dining room which was beautifully decorated in red and gold with many Japanese candle shades and red roses. Here they were received by Miss Avery who wore white, Mrs. Bell, who wore a dark green taffeta Martha Washington, and Miss Barten, who wore a gown of black satin with trimmings of old rose Georgette crepe and cut steel beads.

Delicious block ice cream and cakes were served.



Mrs. Stedman was one of South Carolina's most popular girls and has already made many friends since she has been in Chapel Hill.

NORTH CAROLINA CLUB

In one of the most intersting meetings of the year of the North Carolina Club, Monday night, the negative won the debate on the subject of Buying Farm Supplies with Cotton and Tobacco money. The credit of putting forth the best argument must be given Mr. R. E. Price, who most eloquently explained why, "the South Carolina farmer who buys farm supplies with cotton and tobacco money has to work 13 months in the year in order to keep out of debt."

IF THE APPLE WERE OFFERED TODAY

He—"No, my dear. I am a strict prohibitionist. Moreover, I believe that if I complied with your wishes, future generations might be inclined to place a ribald construction upon this incident. Furthermore, we must be careful of our diet, in order to give a perfectly eugenic parentage to Cain and Abel."

"ROOMMATES" TOPIC Y. M. C. A. DISCUSSION

The Y. M. C. A. held its usual weekly meeting on Tuesday evening in the reading room of the Y. M. C. A. T. E. Rondthaler led the discussion on "Roommates."

"What a man is in his relation to his roommate is an excellent barometer of his character," he said. "As was the friendship of David and Jonathan so should the friendship of roommates be, deeply spiritual. Roommates should seize every opportunity for service and mutual encouragement."

THE Y. M. C. A. READING ROOM

THE Y. M. C. A. READING ROOM

The Y. M. C. A. Reading Room with the best State and two other Southern dailies, the New York Times, System and Everybody's, and the fire on cold days, issues a very enticing invitation to all. There are such inspirational books as Marden's "Everybody Ahead." and Van Rennsellaer's "Magic Story," and a table devoted to the publications of other colleges and universities from Harvard to Tulane, geographically speaking. This room, like all other Association privileges, is open to all, non-members as well as members.

Athletic Notes

And we beat V. P. I.! And such a gentle ladylike game it was, to be sure! No one fell down either. And next week we play Elon, a team which some say, is pretty good. Davidson beat them about four points. McDuffie and Shepard seem to be able to shoot goals from every conceivable position except a hand-stand with one or more men hanging lovingly around their necks, and with a porous-plaster guard like Raby lurking in the war zone, a most casual observer might infer that we have a mighty good team, and need fear no Elonites.

Bennett is at present absent from the baseball field, owing to sickness, but is expected back in uniform in a few days.

The call for Freshmen candidates for a first year team seems to have been rather a loud one, for the field has not been able to be seen for the men. High schools sent some mighty good men to the Hill, and Coach Daniel expects every man to do his duty. He expects to turn out a strong reserve team.

The ranks of the track squad are swelling in spite of the poor condition of the cinders. Just as soon as the baseball men are examined, Doctor Lawson expects to take the speed kings in hand for examination, and then practice will begin in earnest. There is a dearth of men for some events, especially pole-vaulters, broad-jumpers, and weight men. The first meet is early in April.

Plans for a gym meet have not yet matured. Siddall and Devereux are doing some pretty work on the paralel and the horizontal bars, and Devereux and Travis have developed some good doubles on the mat. Crowell's work on the rings in the last Virginia meet will probably be repeated should we again meet the Orange and Blue. A well balanced team is pretty nearly ready for all opponents.

It is rumored around the gym that the mysterious dressing rooms under the west stand are to be opened and put into use. It is hardly to be expected, however, that hot water will be available for the showers, as only two showers are blessed with flowing warmth in the big shower room.

CAROLINA MEN PASS STATE EXAMINATION

Of the eighty-one law students that took the examination in Raleigh, only sixty-eight per cent passed. Among this number of total candidates, there were five negroes and one woman. When the fact that thirty-two per cent of this number failed is taken into consideration, it is proved conclusively that the representatives from Carolina's law school made an unusual showing. Out of the thirteen men who stood the examination only one failed to make a passing grade. The examination was conducted by Associate Justice Walker, and is said to have been a very thorough test of the students' knowledge of North Carolina law.

The Carolina students who took this examination are: W. Graves; K. Nixon; G. Dixon; W. F. Brinkley; R. L. Brinkley; H. Winslow; W. L. Thorpe; A. L. Ramsay; J. R. Denton; J. F. Hackler; H. H. Crawford; T. Ruffin; and I. R. Williams.

"He comes from a good family."

"Well, he must be a long way from home."—Ex.

WANTED—To give dance Junior Week. Freshman class.

NEW TYPE OF BASKETBALL TO BE SEEN HERE TODAY

On Saturday a type of basketball game which the University and probably no other institution has been fortunate enough to see will be played, between Burlington high school and Chapel Hill high school.

Each school will bring a girl team and a boy team which will face each other respectively. The girls will play for 15 minutes and then the court will be turned over to the boys who will play 15 minutes aso. At the end of the game the score of the girl's part is to be added to that of the boy's part, the total score deciding which school has won.

The Chapel Hill girls believe that they have as good a team as they had last year and expect to do good work. The line-up for Chapel Hill will be:

Girls		*Boys*
Marjory Tenney	r. g.	Hutchins
Nellie Sparrow	l. g.	Merritt
Mary Taylor	c.	Tenney
Jane Tenney	r. f.	Sparrow
Cary Tenney	l. f.	Nevils

The Blue Ridge Conference by Dr. J. Watt Raine of Berea College

(Continued from Page One)

"Would you like to ask questions of somebody that really knows—somebody that is not afraid to dig into the very heart of things—where you will not shock some good old soul and be called an infidel just because you want to examine the evidence and make sure? Would you like to find out what method of Bible study and praying busy and practical men have found juicy and helpful? Would you like to do something for your bunch at college, or still more, for your younger brother's bunch, to keep them from making fools of themselves and going to the dogs?

"You are the man to go to Blue Ridge. But what about finances? I have just two suggestions: (1) Decide to go. (2) Get the money. This chance comes only once or possibly twice in a lifetime; you must not shilly-shally and let the opportunity slip through your fingers."

LEGISLATIVE COMMITTEE PAYS UNIVERSITY VISIT

(Continued from Page One)

chairman of the Board of Education in Richmond County!

Senator McGwinn, of Northampton, began by expressing the genuine joy it afforded him to look us over. He remarked that the promise made by the former legislature was not binding on the present one, but that, personally, he was willing to make the sky the limit. He expressed keen disappointment at missing the Virginia game last year, the only one he has not witnessed since 1901.

Becoming more serious, he noted the change of public opinion in regard to the University. While ten or fifteen years ago the people of the State were generally unwilling to support the University, today they have come to realize how it helps all classes of people and benefits the entire State. The University has taken great strides, and should have every cent required to continue its progress. The presence of so many students at the meeting showed the interest felt in getting the appropriation, he said.

Representative McLendon, of Durham, a student at the Universityy three years ago, spoke, as follows:

"When the legislative committee visits an insane asylum, the inmates are exhibited to the committee but, when it visits the University, the committee itself is placed on exhibition.

"Our educational institutions have not touched the people in the past. And naturally they would want their representatives to refrain from piling up any more taxes to pay for something in which they felt no interest. That's why the State has done no more for the University. So each student, when he leaves here should be a missionary to show what the University has done. But more important, he should show what it must do. We have in North Carolina more adult illiterates than any other state in the Union. Fourteen per cent of the voters are illiterate. We must get it out of the heads of the people that they are paying taxes for someone else, or that they are paying too much taxes. The University influence is felt by the farmer, the mechanic, and all classes. Over $1,000,000,000 worth of property in N. C. is untaxed. A few representatives on the committee can't do much to influence 170 men, unless the sentiment at home is favorable."

Representative Joyner of Northampton, though not an alumnus of the University, said he was interested in the University because he intended to send his sons here. He too, has closely followed the fortunes of N. C. in football, and witnessed the victory over Virginia. He affirmed that he was ready to sign for any amount, whether the promise of two years ago was kept or not.

Representative Davis, of Dare (the smallest County in the State) was the smallest man on the committee. However, he avers that he is the biggest man in his county, because only two men have ever come from Dare to the University, and the other is out of the county. This strikes us as a delicate compliment to the University as well as a bouquet handed to the speaker by himself.

Representative Grant, of New Hanover, observed that there was still something to be done in the way of bringing the University before the public. The carpenters and boilermakers came to him to see that their interests were not neglected, but not a man from the University did this.

Representative Pharr of Mecklenburg, concluded by saying that if the need exists, he is willing to try to supply it. And he is convinced that the need does exist and that Dr. Graham would not ask for all he could get, but only for what is actually needed.

Thereupon we all went to dinner, with visions resembling those of St. John on the Island of Palos.

FOISTER'S

FOURTH ANNUAL ROAD INSTITUTE HELD HERE

(Continued from Page One)

road commissioners, countyy commissioners, road supervisors, patrolmen, machinery and materials representatives, and contractors, as well as many private citizens and students.

The staff of instruction includes men of reputation from other states as well as men from the University faculty of geology, civil engineering and mechanical engineering.

In addition to the lectures there will be a display of every kind of road machinery with as much demonstration as is possible. Road models, maps and charts will also be on display.

While no text will be required there will be many books and pamphlets distributed for the use of the visitors.

In addition to the lectures on road-construction a good deal of time will be spent on road upkeep and other specific problems met annually by the county commissioners.

Some of the most important lectures are: Addresses by Mr. Stacy and Dr. L. R. Williams; Damage to Roads and Bridges in N. C. Flood (Illustrated), Mr. Falls; Federal Aid to N. C. in Road Construction, Dr. Pratt; The Contractor's Viewpoint, Mr. J. H. Lassiter; Brick as a Road Surfacing Material, Mr. Blair; Coal Tar for Road Construction, Mr. Sharples; The Louisburg and Sloan's Ferry Concrete Bridges, Mr. Syme; Long Span Bridges, The Quebec Bridge (Illustrated), Mr. Hickerson; Use of Portland Cement in Road and Bridge Construction, Mr. Mills; Road Surfacing Materials, Messrs. Peyton, Mullis, Smith, Snowden, Brown, and Corle; Financing Roads, Messrs. James, Wilson and Craven.

The Road Institues are a part of Mr. Graham's plan to make the University for the people. The methods demonstrated are undoubtedly profitable and this is one more step towards the ideal of absolute service to the state and the people who support her.

TAR HEEL TOSSERS TROUNCE V. M. I. FIVE

CADETS PLAY FAST AND CLEAN GAME—AND FINISH WITH STRONG OFFENSIVE

REAL EXHIBITION OF TEAM WORK

Team Leaves for Five-Day Trip Thru Virginia—Schedule Includes Virginia, Washington and Lee, V. M. I. and V. P. I.

Carolina finished up the first part of the season in fine style last Thursday night when the strong V. M. I. team went down before the superior passing and shooting of the home quint.

The game started with a rush and for a few moments it seemed as if the two teams were pretty evenly matched. However, after McDuffie, assisted by Raby, had secured the first goal while in mid air, the visiting team lost hold and for the rest of the first period things went right for the White and Blue. No bounds were observed in the first half, and at times the play was rough, but fast and snappy.

It would be hard to feature any particular individual for the game was a real exhibition of team work. Every man fell into his place on both the offensive and defensive.

The goals secured were not spectacular.

McDuffie and Shepard went better than they have hitherto gone. The close guarding of the Carolina defense men and Grandin's roving work kept the ball at the Tar Heel end of the floor most of the time, and even when by speedy team work the Virginians managed to get the horsehide within striking distance, poor shooting prevented a score. Fumbles by both teams kept the play rather slow at stages of the game, but was of no real importance as far as the result was concerned, for the aggressive floor work of the two quints kept the

(Continued on Page Five)

DR. W. L. POTEAT SPEAKS HERE SUNDAY EVENING

"The Thirty Silent Years" is the theme of Dr. W. L. Poteat, president of Wake Forest, who speaks in Gerrard Hall at 7 P. M. The first thirty years of Christ's life have always formed a subject of intense interest to all students of history. Dr. Poteat's lecture on this subject is said to be intensely interesting and suggestive.

This lecture forms the initial part of the program of the Religious Meetings Department of the Y. M. C. A. for this spring. It was deemed advisable not to have the usual intensive meetings immediately after exams. Instead there will be at intervals of about three weeks, a visiting lecturer. After his lecture the subsequent Tuesday night meetings will be given over to faculty and students speakers on questions suggested by him. Discussion groups will be formed in all the dormitories and in the town for the purpose of thrashing out the questions raised in these meetings.

Sunday evening, these groups will meet a few moments after the lecture and form plans for the ensuing meetings.

UPPER CLASS HONOR MEN

LINDAU, JOHN, AND EATONS LEAD CLASSES

Only Names of Ten Students in Each Class Making the Highest Grades for Work of Past Semester

The students in the sophomore, junior, and senior classes who made the highest average in their studies during the Fall term were announced this week by Registrar Wilson. All the students whose names appear in the list made an average of "2" or over on their term's work.

The senior class was led by A. M. Lindau, of Greensboro; the junior class by F. B. John, of Laurinburg; the sophomore class by J. C. Eaton and W. C. Eaton, of Winston-Salem, who tied for first place.

The ten students in each class receiving the highest grades are given below. The names are arranged in the order of excellence, except that, in the case of those whose average is the same, the names are arranged in alphabetical order and bracketed together.

SENIORS

1. A. M. Lindau, Greensboro, N. C.

Y. M. C. A. OFFICERS FOR NEXT YEAR NOMINATED

At the regular meeting Tuesday night, the nominating committee of the Y. M. C. A. named the following candidates:

W. T. Steele, for president, W. R. Wunsch, for vice-president, W. H. Stephenson, for secretary, T. E. Rondthaler, for treasurer.

The meeting next Tuesday night will be open for general nominations for these offices. Election will be held the following Tuesday night, March 6.

LATIN-AMERICAN CLUB MEETS

The Latin-American Club held its semi-monthly meeting on Monday night in the history seminar with a good attendance. R. W. Madry opened the meeting with a paper on lands and products, in which he discussed the increasing value of real estate and natural products in the various countries of Latin-America. A general discussion by members of the club then followed.

"What are you studying now?" asked Mrs. Johnson.

"We have taken up the subject of molecules," answered her son.

"I hope you will be very attentive and practice constantly," said the mother. "I tried to get your father to wear one, but he could not keep it in his eye."—Kansas City Star.

"I noticed you got up and gave your seat to a lady in the street car the other day."

"Yes, since childhood I have always respected a woman with a strap in her hand."

CLASS ATHLETICS NOW ON THE UPWARD ROAD

RULES AND REGULATIONS OF NEW SYSTEM READY TO BE PUT IN ACTION

CONTEST ENDS WITH TUG-OF-WAR

Coach Campbell Calls Together Committee Composed of Class Representatives and Members of Faculty

In accordance with the new class athletic system, basket-ball will start on Friday, 23. It is the plan of the managing committee to conclude the basket-ball series within a week's time. To do this it will be necessary to play two games each afternoon of the week beginning with Friday.

The seniors will play the sophomores, and the juniors will play the freshmen at the opening of this series. The contest is to be handled on a regular percentage basis; and, in case of a tie, it will be decided by an extra game. The winner of this series is to receive three points; the next contestant two; and the third, one point.

Baseball will be conducted in the same manner—the team with the highest percentage receiving eight points; second place, four; and third place, two.

Track, however, will be decided on a slightly different basis, although the mile, half, and quarter will be decided as usual. That is, the order in which the contestants cross the tape will be averaged, and the class with the best average wins the event and thereby scoring one point. Each class must enter three men in each event. In the case of the 100 yd. dash, the 220 yd. dash and the

(Continued on Page Six)

NEW POWER HOUSE NEAR COMPLETION

Professor Coker's new arboretum will have a hard rival for the honor of beautifying the valley behind the Peabody building, for the Power House which is now nearing completion is quite a pretentious affair. The red brick, and white trimmings will about take the cake for recent decorations on the campus. While the contractor and the architect did not necessarily mean the power station to be exactly a thing of beauty, still it will probably be that and also a joy forever. At least the heat and light it is guaranteed to furnish the present dwellers on the campus and their immediate and remote successors to seats of glory in and about U. N. C., will cause joy to flow in rivers.

The station was begun sometime last summer, and will be finished "sometime soon," a phrase which is to be considered in the same class with the "somewhere in France" which our weekly pictorials use with such frequency. When it is finally completed there will no doubt be terraces about it and "Keep off the Grass" signs, which will be observed in the usual way. The gradual rise of the smokestack has been the most interesting part of the operation to most of the spec-

REV. F. M. JOHNSON HERE

DELIVERS UNIVERSITY SERMON IN GERRARD HALL

"Man in His Daily Work is Turning Stone Into Bread" is Theme of Speaker—Conference Held During First of Week

Rev. F. M. Johnson, Bishop Coadjutor of Missouri, preached the University sermon last Sunday in Gerrard Hall. The Bishop impressed the people of Chapel Hill with his big self and his still bigger personality.

Sunday morning Bishop Johnson took as his text St. Luke IV, 3-4. "Man in his daily work is turning stones into bread. Whether he be engaged in commerce, manufacture, mining, or statesmanship, his aim is to turn stones into bread. Six days were given by God for turning stones into bread and God has blessed man in his work. It is man's duty to do his work on every day of the six as much as it is his duty to reverence God on the day He has set apart for worship. A point that one should observe, however, is that man must reverence and see God all through the six days of his labor, and not put on his Sunday reverence as he would draw on a garment.

"Man should turn stones into bread: it is his duty. Our Saviour refused to do so at Satan's word, because it was then not his duty. He had been a worker and knew

(Continued on Page Three)

YACKETY-YACK GOES TO PRESS THIS WEEK

Differing from last year's book in many new features, particularly in the comic cartoons of Seniors the 1917 Yackety Yack went to press this week and will appear on the campus in about a month. Editor Patton and his staff are optimistic in the belief that this year's annual will be the best yet. The size of the book will be practically the same as that of last year but it will have a limp royeroft cover. A snappy bunch of cartoons has been contributed by Russel Henderson. The dedication of the book will be announced later.

Tau Kappa Alpha initiated Saturday night Howard Sharpe and Marion Ross, who represented us in debate against George Washington University in December.

The Elisha Mitchell Scientific Society held its 228th meeting Tuesday evening in Chemistry Hall. Mr. Collier Cobb gave an illustrated lecture on "Recent Changes in Currituck Sound." Mr. H. H. Williams spoke on "The Philosophy of Science."

"What a lot of baby-food there are these days!"

"Yes, it is a wise child that knows his own fodder these times."—Life.

Hokus—"So you believe in signs, eh? Well, when a man is always making new friends, what is that a sign of?"

Pokus—"It's likely to be a sign that his old friends have found him out."

ROYAL FESTIVE BOARD WELCOMES MEN OF '17

BRILLIANT BANQUET HELD AT SWAIN HALL BY THE GRADUATING CLASS

MUSIC AND FOOD WOO 1917

Hanford, Brown, and Campbell on Speech Program—Ramsey, Erwin and Sharpe Respond in True Seventeen Spirit

The annual banquet of the senior class was held last Friday night in Swain Hall beginning at nine-thirty. The banquet was the largest class banquet in years—the number present being eighty-four. The menu follows:

Chilled Grape-fruit au Cognac
Amandes Sales
Pim Olas Celeri Glace
Poulet a la King
Petit Pois
Filet de Boeuf au Diable
Pomme de Terre au Gratin
Salade Aspereges
Mayonnaise
Glace au Napolitan
Cafe Noir
Petits Pains Beaten Biscuits
Cigars Cigarettes

Mr. Oliver Rand, president of the class, was toastmaster. Guests were Dr. Hanford, Dr. Brown, and Mr. Campbell. Their after dinner speeches were humorous as well as timely. Mr. Hanford played upon the emotions of those present by a very vivid ghost story and told other interesting stories. Mr. Brown and Mr. Campbell were equally enjoyable.

The student speakers were Graham Ramsey, Sam Erwin, and Sharpe, and a host of others. The play was around one spot for a good part of the game—namely the art of asking the blessing with the most amusing examples—the most memorable of which was on "Muck" Williams, who was said to have performed at the Summer school (very hurriedly of course)

(Continued on Page Three)

MANY NEW BOOKS RECEIVED BY LIBRARY

The library is receiving new books daily and in order to call the attention of those who do not "hang around" the library enough to get a chance at them it is our intention to review some of them from time to time.

One of the cleverest playwrights of today is J. M. Barrie. His popularity has long since been proven by the success of *Peter Pan, A Kiss for Cinderella* and *The Little Minister,* in England as well as in New York. A book called *Half Hours* of J. M. Barrie has just arrived. It contains four short plays *Pantaloon, The Twelve Pound Look, Rosalind,* and *The Will.* They are very up-to-date and I am afraid Nietzsche would say they are *decadent.* The characters are strikingly human, and, despite that the hero and heroine do not speak in one whole play, one becomes just as well acquainted with them as with Mr. Pickwick and Barney Pitts, both of whom spoke all the time. The phantasy—*Pantaloon*—is exquisite if the imagination amend it. To appreciate it thoroughly one

OUR GREAT LAKES

It may happen any day. The danger is imminent. The fact that it has never happened is no proof that it will not occur tomorrow.

Every day hundreds and hundreds of students and townspeople, on their way to or from Swain Hall and other parts of the campus, pass along the shore of that inland waterway stretching between the Beta Theta Pi Hall and the Carolina Drug Company's store. Whoever walks there must walk with care, clinging precariously to the wall of the garage, for the strip of land he treads is narrow and slippery, while the billowy gulf at his feet is wide and deep. Any day some careless person may lose his footing and plunge into its murky fathomless depths. Then we shall never see him more. The Tar Heel strenuously advocates the placing of life-preservers at regular intervals along the wall of the garage bordering on this body of water. These could be thrown to drowning persons by a company of life-savers, or coast guards, appointed and stationed there by the University.

The Tar Heel disapproves extremely of a sign that was recently stuck up in this inland waterway. It read: "No Fishing, allowed Here!" The Tar Heel can see no reason at all why University students should not be allowed to fish there whenever they want to. It was a tyrannous and low-spirited thing to do, to place such a sign in such a place. No public-spirited citizen would have done it. The Tar Heel declares itself as standing first and last for the freedom of the seas!

Because of Germany's submarine depredations, however, the freedom of the seas is becoming daily more difficult to maintain. In the event of war with Germany, the University should carefully guard this inland waterway. Mr. Temple should be immediately deputized to build and equip a fleet of submarine destroyers to ply on its waters. Only yesterday somebody thought he saw the periscope of a German submarine on its turbid breast. But it turned out to be the radiator cap of Mr. Best's flivver fordin gits way to land.

If it might be so bold, the Tar Heel would like to say that it believes the University does not fully appreciate the possibilities and opportunities of its great inland seas. The one we have been speaking of, Garage Lake, is easily navigable for light craft. So is Fraternity Row Sound, in front of the Kappa Sigma House. So is Gerrard Sea in that part of its basin lying between the Chapel and the South Building. If canals could be cut so as to connect these three great lakes and a ferry line be put to work on the system, it would be a source of convenience and revenue to the University.

HOURS NOT OURS

"The day will come, we believe," says the Davidsonian, "when a science with several hours laboratory will count more on the college curriculum than an easy subject without laboratory work. In other words, some day, four hard 'tickets' with several hours of laboratory work, will go as far toward a diploma as six or seven 'crips.' Why? Because it is fundamentally just that if as much time and effort is spent on one as on the other, they should get the same amount of credit for it."

Now, we know no more about how an ideal college curriculum should be built than we do about the Ptolemaic System, but it seems to us that, as they say in the Di Society, "the gentleman's point is well taken."

Certainly, all of us who have spent in terminable afternoons in the perfumed gases of the Chemistry Laboratory or, who, in the shrieking inferno of the Physics Lab, have toiled away for hours trying in vain to read meaning into the mysterious and funereal little black lab books, then following such entrancing occupations as counting the ticks of a clock while a pendulum swings or making sound-waves by rubbing a resined cloth on a creaking brass rod, or doing a hundred other experiments, and finally reducing everything to algebraic equations, which, being a hundredth of a point wrong, have to be done all over again,—certainly, we have toiled thus without the blessing of remunerative hours, desire for the sake of those to come after us that the prophecy of the Davidsonian may soon come true.

MILITARY TRAINING UP TO US

As to whether or not there is to be such a course in military training here next year depends upon only two conditions, one of which we need not consider. This is the matter of guaranteeing the protection of the government equipment by the University's giving bond. The second condition is up to us. Can we raise enough men, to obtain the course in military training? We are asked to raise only enough men to make a company consisting of less than one-twelfth of the total number of students who are registered here. This certainly is not unreasonable. We should be able to raise more, when we consider the fact that Harvard had over half of its students at Plattsburg last summer. The University of Pennsylvania has promised to turn out from its total number of about 7,000, at least 600 well-trained men if this country goes to war with Germany. Figures in other Northern universities are about the same and show a patriotic interest in such training as is necessary to the welfare of our country. Do we wish to be outdone by these Northern universities? We certainly must realize the fact that our country needs every man who will do his duty. Can we do less than help the government to train us by raising a number of students that would be large enough to be worthy of representing the University? We are not placing our names on any list that could be forced into the army if the need arose. We are merely preparing ourselves to do our small part in case our country needs us at any time, now, or in the future. Could we do less?

THOMAS EDISON SAYS:

"The burning of ordinary cigarette paper always produces acrolein. I can hardly exaggerate the dangerous nature of acrolein, and yet that is what a man or a boy is dealing with every time he smokes an ordinary cigarette."

Whether or not the University can arrange to give academic credit for this course in military training is not the question. From the latest available information on this subject, however, it appears that the University would do anything that it could possibly do to put this plan on the best basis, if that can be done without any detriment to the curriculum. Anyone who is interested in bettering the standard of this university will understand that such a course in military training could not be allowed to count very much, not over three hours for two years. A truly patriotic student who would realize that he would get not only military training but a physical benefit as well out of such a course would take the course irrespective of whether or not any university credit was given him.

The only objection to the plan is that the government might not send the kind of man that would get along well with the students. I think that, in as much as such a procedure would greatly injure the future possibility of continuing such a course, the government, which would desire its continuance would send us the very best man available for the place. I hope also that the result of such training would not divide the students into two classes, those taking the course and those not. Such a division might bear bad or good fruit, however, as it might tend to cause others to take the course.

We have petitioned the Federal government for the course, and they have made a fair proposition to us. The next move is up to us, as the university will go bond for the equipment. If we obtain this highly desirable course, we should keep it. We couldn't afford to drop it, after once having obtained it. It would not look right. Let us do our part now, and sign up a large number of men for next fall.—G. B. LAY, '18.

A Hug—A roundabout way of showing affection.—Penn State Froth.

COMPULSORY MILITARY TRAINING

Since compulsory military training is being discussed and agitated in the Congress of the United States and in the Legislature of North Carolina it seems that every intelligent citizen should be interested in the question.

There are four reasons why I believe that we should have some form of compulsory military training in the United States. First: because it will help the physical development of our young men. Nothing is more vital to a nation than a strong physical manhood. Daily drill and exercises will give this. It secures well rounded shoulders and a good chest. It secures erect carriage which tends to prevent lung trouble. Take the boys of the National Guard who have just returned from Mexico and their physical condition is most excellent. Compulsory training would give some boys exercise who do not now get it.

Second: we need it as a matter of national defense. Civilization has not yet reached that stage where universal peace is possible. Conditions in the world today prove that such is the case. We should remember the Biblical in junction, "Greater love hath no man than this that a man lay down his life for his friends." It is the duty and mission of a nation to train its people to love and defend it at all times and under all conditions.

Third: it is every man's duty to be the most efficient possible in case his country needs him. We cannot be efficient unless we train and prepare. Now is the time to train and prepare. The time to prepare for a fire is when there is no fire raging near us. We cannot be ready for a national conflict unless we prepare in time of peace.

But somebody says that compulsory training means a spirit of war and militarism rather than peace, and they cite Germany as an example. The spirit of German militarism was wrong. There

ROYAL FESTIVE BOARD WELCOMES MEN OF '17

(Continued from Page One)

in a "Grace" which ended—"for Christ's sake—pass me the butter!"

Mr. Lindau sustained his reputation by an immortal lyric in the form of a toast which follows:

When nectar on Olympus flowed
While Jove told Juno "You're a peach,"
The gods believed themselves to be
The only pebbles on the beach.

When Greeks at their symposiums
Reclined in happy seated ease,
I'll warrant that the wily boys
All thought themselves the whole blame cheese.

Ah well! The Greeks are dead and gone,
For cent'ries gods have not been seen—
At banquets they are now replaced
By—Have you guessed it?—
Seventeen.

And yet I much prefer our boys
To all the Greeks who ever shone;
I wouldn't swap one sweet co-ed
For every goddess ever known.

I mentioned co-eds? Here's a health—
A toast to earth's benignest daughters:
We care not that the state is dry;
We'll drink our pledge in love-spiced waters.

And while we're drinking toasts, my friends—
The Faculty—with joy we greet 'em;
For graduation day draws near,
We must be careful how we treat 'em.

And the Committee, O my friends,
It's worked like fury on our banquet:
The very least that we can do
Is with a grateful heart to thank it.

And when around life's banquet board
We sit with rich and learned mien,
Why then, as now, we'll pledge our toast—
Perpetual joy to *Seventeen.*

There was music between the courses by several musically inclined seniors assisted by Mr. Lashmit—freshman violinist. The decorations were very tasteful and elaborate. The color scheme was blue and white. The table decoration consisted of a broad strip of blue down the center of the table over which white carnations and ferns were strewn. Cut glass candlesticks adorned each table. There was a canopy of blue and white bunting suspended from the girders to each side of the rectangular arrangement of tables. There was an open court between the four sides of the rectangle which was also decorated in white and blue.

There were favors and all the other things that sure enough banquets have—except the food for toasts.

There were three co-eds present. Miss Sloan wore a beautifully soft white China silk evening dress which was daintily embroidered in a pale blue design of daisies and butterflies. Miss Lewis was gowned in cream crepe de chine trimmed at the waist and with shoulder straps of narrow black velvet ribbons. Miss Barton was clad in a gown of white linen, Georgette crepe and Irish lace. She wore English violets.

COMPULSORY MILITARY TRAINING

(Continued from Page Two)

is no reason why military training cannot be a spirit of peace, optimism, and duty rather than might. We could instill a love of peace and sacred duty while we train: not train to fight but to defend and be ready to fight if necessary. Someone suggests a league of nations to enforce peace. Such a league would need force to make it effective. The United States would naturally be a leader in such a league and would need force to back up our leadership.

Treaties have all been disregarded in the present war by some nations. This shows the ineffectiveness of some treaties.

Fourth: our wealth, geographical location, and rank as a nation demand that we have ample means of defense, which can only come by compulsory service. The wealth of the United States is greater than that of any other two nations combined. We need to be able to protect it. We have more than ten thousand miles of coast line to defend, more than that of any other two nations combined. If we are to maintain our position as a world power we must be ready to defend ourselves at all times. Our insular possessions, Panama Canal, and the Monroe Doctrine all demand that we be prepared for an emergency at any time.—R. E. Price.

THEIR FINISH

Dante—"What sufferers are these?"

Beatrice—"Those are the peace-at-any-price Americans who, rather than protest about Belgium, preferred their country should make all the money she could. They are now enjoying themselves in a specially made German hell.—Life

His Partner Saved the Dancer

"If only it was not so hot," sighed the pretty girl as she tried to manipulate her handkerchief so as to absorb the perspiration without rubbing the powder off her nose. "If only it was not so hot the dancing would be lofely. But I feel like a rag and look like a beet."

"You look—you look," hesitated the youth, tryiny to summon courage and poetic fancy at the same time, "like a dewy rose to me." Then embarrassed at his gallant attempt, he hurried on with: "But I'll soon make you feel as fresh and sweet as you look, for that big punch bowl is full of the finest drink you ever tasted."

"My, you certainly think a lot of it," said the girl rather condescendingly. "Are you sure it's all right for me to drink? What is the name of this wonderful elixir?"

"Of course it's all right for you to drink it. Mother gives it to the children to keep them well during this warm weather, and they served it at the church social the other night; but I shall not tell you the name, not until after you have tasted it."

"Well, what do you think of it?" the young man asked a couple of minutes later.

"It's wonderful! It tastes so good, and I'm beginning to feel like dancing all night. Please tell me the name of it right away, please, and I'll give you the next dance."

"That's a bargain. It's Pepsi-Cola, the heat-killer?"

REV. F. M. JOHNSON HERE

(Continued from Page One)

the meaning of labor; Satan was merely tempting Him to use His heavenly power. But the point is this: while we are turning stones to bread, are we forgetting the higher things of life? Are we turning our souls into nothing? Stevenson recognized when only a child that a man to be a man must have a soul. When the world is busily turning stones into bread, who is taking care of the nobler things God has created? Did He not create many things nobler than bread?

"The world's poetry must be written, the world's pictures must be painted, the world's music must be placed before man. Just as the great musician after a long stay away from his instrument, after he has neglected his violin for years, discovers that his skill has been lost. Can we think it not the same with our souls if we neglect them? When we give too much attention to the making of bread, we warp the part of ourselves without which a man is not a man."

The bishop preached at the Episcopal Church Sunday night, at which time special music was rendered by the choir. He was at the Y. M. C. A. in the afternoons of the days he was here, and many boys called to have talks with him, especially the ministerial students. The chapel talks, and the address he gave before the Y. M. C. A. were very effective, the meeting on Tuesday night being an unusually good one. "If a man wants a lot of hard work let him go into the ministry," said he. "The ministry wants men who are men and who are afraid of nothing." The ministry and his work in the West were the themes of the talk.

You say she was hard hit?
Why, yes she took the Count.—Yale Record.

PRESIDENT GRAHAM'S REPORT STIRS UP MUCH COMMENT

BOSTON TRANSCRIPT, N. Y. TIMES, AND OTHER PAPERS COMMENT

President Graham's report has stirred up almost as much comment, in the newspapers and periodicals of both the North and South, as if it had been an unknown play by Shakespeare suddenly brought to light. The Boston Transcript, the New York Times, the New York Evening Post, the Charlotte Observer, the Greensboro News, the college paper of Cornell and the New Republic, were some of the papers whose columns contained comment on the Report. It is interesting to notice the various phases of the Report that the different papers choose to comment on. It is also interesting to note that all of them seem to steer clear of the suggestion that "this section" may be "what by right it ought to be, the center of the next great forward movement in American progress."

The Charlotte Observer seeks to find a solution for the money problem; the New York Times comments on the change that college life has undergone; the Greensboro News, on education as "an elemental force in democracy," while the New Republic censures the policy of the legislature towards the University.

"The Observer feels like suggesting," says the Charlotte Observer, "that while the university management is appealing to the State legislature for a modicum of aid, the wealthy people,—hundreds of them scattered all over the State,—give financial attention to the needs of the University that sent them forth into the business and professional world. There is enough wealth among the University graduates in North Carolina,—wealth easily to be spared,—to place that old institution in a shape that would send her on her way rejoicing."

The Greensboro News says: "The championship of education as an elemental force in democracy should be in the consideration of those to whom it is addressed, the outstanding phase of the annual report of President Graham, of the University, to the General Assembly. . . .

"Perhaps we as a people know all this (that the fundamental issue in North Carolina today is education. Perhaps we do 'truly see it' and 'keenly sense it.' There must indeed be a great number of educated men and women . . . who as actually sense these values and this perspective as President Graham. But if so the conclusion is inescapable that we have not the pride, the patriotism, the altruism necessary to vitalize these convictions; to release the force of this abstract knowledge of cause and effect, to the sure purpose of making North Carolina the perfect structure of a democratic society that it is capable of becoming."

The New York Times says: "A notable and significant change in the conduct, and perhaps in the quality, of the students of North Carolina is described, evidently with satisfaction, in the annual report of its President. . . .

"But is it the mark of a depraved nature to find as a sequence of the reading a feeling of doubt as to whether this change (from 'juvenile brigandage' to serious life) is wholly for the better,—a lurking suspicion that there is something wrong with having old heads on young shoulders. . . ?

"The University of North Carolina is not alone in showing this change in undergraduate temperament. It is the tendency of the age to be sober and quiet, to shrink from rough and dangerous adventure, to avoid fighting and hard knocks at considerable, if not any, price? But that way lies—what?"

The New Republic's comment is as follows:

"The report of President Graham of the University of North Carolina puts in vivid relief the inexplicable failure of a growing State to recognize its own best intellectual wealth. North Carolina has acted toward its University exactly as if it had not yet learned that such an institution performs perhaps the most permanently valuable of all State governmental functions.

"For the past two years this most useful University with over 1200 students, has had for maintenance only $115,000 a year and only $30,000 a year for permanent improvements. Its income from all sources was only $220,661, as against the University of Virginia, $560,258, with a student body actually smaller than North Carolina's. At least 11 Southern State institutions have larger working incomes per student. That of the University of Mississippi is more than twice as large. It is an extraordinary record for legislative stupidity that President Graham uncovers. North Carolina cannot plead the excuse of poverty. For, taking her taxable property as it is, out of the tax on every thousand dollars worth she appropriates just $.18 for University maintenance as vs. Mississippi's $.39 and Nebraska's $1.98. President Graham appeals to men of wealth to help the University. But the real call should be to the people as represented in the legislature."

"Why do ye look so sorrowful, Dennis?" asked one man of another.

"I just hear-r-d wan man call another a liar, and the man that was called a liar said the other man would have to apologize, or there would be a fight."

"And why should that make you look sad?"

"The other man apologized!"—Tit-Bits.

ON THE GULF

When Alton Michael Packward asked the porter of the Great Southern at Gulfport, Miss.: "Is that the Gulf of Mexico?" the porter replied: "Only a po'shun of it, sah."—Lyceum Magazine.

Tom—"When you proposed to her I suppose she said, 'this is so sudden!'"

Dick—"No; she was honest and said, 'This suspense has been terrible.'"—Boston Transcript.

OUI CHERCHEZ LA FEMME ZU ZU IN SENIOR STUNT

Madame Zu Zu, the Parisienne actress, has been secured to play the leading role in the Senior stunt this year.

The famous artiste is in America raising money for the French soldiers and she brings loads of French fashion plates, young, beautiful, vivacious! She will be the cynosure of every eye and "The Hill" will boom its noted guest with a royal welcome.

Madame will arrive with Hortense, her *femme de chambre* and her secretary on Monday, April ninth. The Pickard Hotel will be elaborately decorated for this great occasion and Madame Diane Zu Zu will occupy the Bridal Suite which is being painted in mauve and silved to receive the noted artiste.

Manager Proctor for the Seniors, had assured us that no expense will be spared to make the stunt the most lavishly beautiful theatrical ever produced and by securing Madame Zu Zu, he has made good his word.

Her beauty is dazzling. Diane Celeste Sucre Zu Zu is of an old Bourbon family and is a shriekingly beautiful brunette. Her eyes are like velvet pools, her figure reminds us of Annette Kellerman the incomparable; she is as graceful as a swan and charming as she is graceful—so say her critics.

The bringing of this noted star to Chapel Hill is an event of the first magnitude, a good fortune unprecedented in a town the size of Chapel Hill.

Madame has sent her each week from Paris the latest and most dazzling display of Dame Fashion and in the coming play she will wear many different creations of surpassing loveliness hot from the hands of Ehrte and Worth.

This is a treat no woman can afford to miss.

"Did you see J. W. Jones?"

"Yes! He'll be there!"

"How about Vick, Herty, Farthing, and there's Rimmer, Giles and De Rossett, did you see them?"

"Yes, they're all going to be there March 2."

"Well here—take twenty-five of these tickets and canvass the Carr barn. Corner that fellow Griffin and all the rest over there."

"Griffin got his a week ago!"

"Good! Do you suppose as many as three will miss it?"

"I don't know—the cost is 10 bits, and that you know is 15 'picks,' five of which feature Theda."

"Don't worry—just tell them it is the Junior banquet and the crowning social event of the class this year; if they hesitate just remind them of '18 and all that dope—see you in the morning."

The Freshman arriveth in Chapel Hill and saith, "I am, at last, a College Man." The Senior leaveth Chapel Hill and saith, "I am, at least, a College Man." Which meaneth that the beginning is an end, and the end is a beginning.

Sportsman—"Is it worth my time to shoot in this neighborhood?"

Native — "Well, the shootin' ain't wuth shucks, but then, I don't know what your time is wuth."—Boston Transcript.

Just too late to save the stamp.

TAR HEEL TOSSERS TROUNCE V. M. I. FIVE

(Continued from Page One)

ball from remaining loose for more than a moment.

Leach, who caged five goals for the visitors, three of them being from the middle of the floor, was easily the star of the V. M. I. team. He was the fastest man on either team, and followed the ball at all times. The play of the Virginians was built around him his passing or clever floor work figuring in every goal.

The second period was played with bounds, and was noticeably slower than the first half. Little teamwork was practiced by the visitors, long dribbles and shots were tried with great frequency the aim of the Virginians being, it seemed, to keep the ball well away from the Carolina end of the court. At first the Tar Heels suffered from lack of unity in getting the ball up the floor, but they recovered.

In spite of the fact that a great many men are off the hill for the holiday, a large crowd was present. The band was heard for the first time since it last lifted up its voice in triumph on the field at Richmon. "Si" Parker showed that his throat had not been permanently injured, and everybody had a fine time watching the home team lick the crowd that beat Virginia.

Summary:

Goals: Marshall, Leach (5), Sullivan, Hock, McDuffie (7), Shepard (5), Grandin (2).

Fouls called: Technical (8), Personal (6).

Fouls shot: McDuffie (4), Leach (6).

Line-up:

NEW POWER HOUSE NEAR COMPLETION

(Continued from Page One)

tators, and every foot growth of the whole 110 has been watched with awe and reverence. The ladder on the inside has already been polished by the feet of those who have mounted and "looked around." There must have been the same condition of affairs when the tower of Babel was under construction. The last touch was the addition of a lightning rod, which was put up by the simple method of climbing down a rope and tying the rod to plugs between the bricks.

The house itself is made up of two rooms, one for the boilers and one, the upper, for the dynamos. The steam will be generated in the boilers, turn the turbines, and then go through the heaters into the pipes to heart the buildings. The coal will be stored under the upper room. The floors have been laid in both rooms, but the boilers in the lower are well on the road toward completion.

The plans call for a model power station, and from the looks of things it will certainly be one. New dynamos and engines will be installed. Those in the present power house are to be sold, in fact the whole equipment now being used will be sold out, a proceeding considered to be the best plan, because of the high cost of machinery.

It is rumored that the space now occupied by the power station will be cleared, with the exception of the filter plant, which will remain here it no w is, and that a Science building will be built between Memorial Hall and Peabody. Old Commons will no doubt keep the power house company in the discard.

CLASS ATHLETICS NOW ON THE UPWARD ROAD

(Continued from Page One)

hurdles, there will be three heats—each heat containing one representative from each class. The average of each group of three contestants from the respective classes will determine the winner.

Tennis will be conducted along the same lines as basketball, the contestants receiving three; two; or one point in the order of their standing at the close of the series.

In addition to these well-known branches of athletics two other sports are to be added to the list—a swimming relay race and a tug of war. The winner of the swimming race is to receive one point, while the side winning the tug-of-war gets three points and the losing side the thrill of being dragged through a mud-hole ten feet square which will be scooped out for the occasion. In this event, each team must contain fifty men.

Not only will the permanent trophy cup be turned over to the class that has the best all round average at the close of the entire athletic season, but there will also be a prize offered to the man who, out of the four classes contributes the largest number of points to his class. These honors are well worth trying for; and, according to the program of the committee, the fact that one class happens to have one or two stars does not necessarily mean that they can win the cup. The general averaging system will do away with any advantage that might otherwise be gained in this way.

The committee in whose hands the management of this new program rests is composed of three members of the faculty, a representative from each of the four academic classes, and Coach Campbell as its chairman. The representatives of the faculty are, Prof. Daggett, Prof. Steadman, and Dr. Mangum; while "Ratty" Ranson of the senior class, "Buzz" Tennent of the junior class, Ralph Williams of the sophomore class, and Spaugh of the freshman class, compose the remaining members of this committee.

In the event that any man is taken up from a class team and put on the varsity squad the class from which he is taken will be awarded a point. However, no man who has been a member of a varsity squad and withdraws from it voluntary will be eligible for a class team.

A cynic is a person who sneers at life after life has sneered at him.

MANY NEW BOOKS RECEIVED BY LIBRARY

(Continued from Page One)

must visualize some favorite *dansense* as the heroine. She speaks not, but Barrie says that the language of the leg is the softest and most expressive. Perhaps professors in 1950 will say: "Note the parallelism between that passage and that one from Madame Sherry—"Every Little Movement."

The other three plays in the book are quite as interesting. *Rosalind* is a sketch of a popular actress enjoying a holiday who is as inimitable off the stage as newspapers represent them as being on the stage. *The Twelve Pound Look* has a plot built on a story told early in the play. The outcome is entirely unexpected and the end comes with O. Henryish suddenness. *The Will* is a "talky" but very human playlet. The people are just such as one would expect to meet in London.

Four Plays of Emile Angier, translated from the French is another interesting acquisition of last week. *Mister Poirer's Son-in-Law* is one of them. That is enough to recommend them to a large number. The much talked of *Post Script* is another. These plays are not merely stage plays. They conform to the drama of the time—they are social plays with subjects that cannot fail to appeal to a twentieth century man, and style which cannot but entertain. The characters are as Brieux says "exquisitely French." Problems such as race against caste, ambition against material interests, and impulse against moral laws form a basis of the plays.—J. E. H.

TAR HEELS WIN GAME IN LAST EIGHT MINUTES

ORANGE AND BLUE UNABLE TO STOP CAROLINA'S SPURT TOWARD END

35 TO 24 WAS THE FINAL SCORE

Five Hundred Watch Down-Homers Conquer the Virginians for First Time in Basketball

By a sudden rush in the last eight minutes of play Carolina defeated Virginia last Saturday at Lynchburg by a score of 35 to 24.

Although slightly in the lead the Tar Heels did not hit their stride until the spirit of teamwork, the true star of the contest, began to work a perfect passing game.

With the score 19 to 19 and only eight minutes to play, Raby intercepted a wild pass by a Virginia guard and shot the ball to Buzz, who dribbled, and finding Grandin uncovered near the center of the floor passed to the Tar Heel pivot man, who transferred it to Mac. Shep, seeing the way things were going, fell in line and caged a cedar-bird. Finding this method profitable, the White and Blue repeated the stunt with the same result. That start sealed the Virginians' fate, for the machine that had been started did not feel like stopping until the referee assured them there was no need of playing over the time usually allotted for one half. Carolina led by 11 points when the timekeeper called a halt.

Virginia was clearly out-classed at all stages of the game. The Lynchburg News says: "The manner in which the Carolinians

(Continued from Page Three)

PROF. CAIN AT VANDERBILT H. C. TOLMAN COMES HERE

Prof. William Cain, of the University Mathematics Department, went to Vanderbilt last Saturday, where, beginning Monday, he delivered a series of lectures, under the exchange plan now operating at the University of North Carolina, the University of South Carolina, Vanderbilt and Virginia. Vanderbilt will send here, probably in April, Prof. Herbert C. Tolman, of the Greek Department there. Professor Tolman was formerly professor of Sanskrit in the University of North Carolina, 1893-94.

Professor Cain's first lecture Monday night dealt with "Mathematics Historically Treated" and was of a popular nature. Hsi other lectures were more technical, treating problems of earth pressure, both for coherent and non-coherent earth.

Harris Copenhaver was initiated into the Sigma Upsilon February 25.

From present indications it seems that Carolina will be well represented at Plattsburg this summer. Owing to the recent provisions of Congress to pay all expenses, many of the boys have decided to don the khaki and spend the summer "toting" a musket. Good score for Germany.

PLAN FOR STAGING TWELFTH NIGHT NEARLY COMPLETED

Following up the idea of the Shakesperean pageant held here last year, another pageant will be given this spring on the same general plan as the one last spring. The General Arrangements Committee, with Prof. J. H. Hanford at its head, has invited the Omega Delta Society and the Community Club to cooperate in formulating the plans and putting the things through as they did last year.

A Shakespearean play, Twelfth Night, will be presented in the evening by students of the University, and a few ladies of the community. The acting version has come and try-outs have already begun under the direction of Prof. McKie. The afternoon will be given over to a kind of community festival in which the children of the public schools, townspeople, and ladies of the community will have a part. More emphasis will be laid this year on songs and dances. Another feature of the afternoon program will be the presentation of several one-act plays written by students. The purpose of the committee in giving these plays is to encourage the expression of original talent in dramatic production. Pantomimes and the like may also be given a place in the program. In all original productions the committee is especially anxious to get scenes connected with the early history of the University.

A permanent outdoor stage will be erected for the pageant this year. Several spots are under consideration, as for instance the gentle slope down back of the new power plant where a little stream would render the acoustic effects admirable. It is the intention of the stage committee to construct a permanent outdoor theatre that will seat several thousand people.

PLATTSBURG CAMPS NOW FREE

The splendid military training and experience that is to be obtained at the Plattsburg military camps has been placed within the reach of every student of the University. Heretofore all men attending these camps, whether Seniors or Juniors, have had to pay their own expenses for transportation, uniforms and subsistence. That is, this was the case until congress passed the Army Appropriation Bill on August 29, 1916, providing for an appropriation of $2,000,000 to meet these expenses. Up to 1916, the military training camps had been conducted without having any definite legal status. After the National Defense Act was passed, however, these camps have not only a legal status, but also the attendance free for all.

It is possible that more will put in applications than the War Department can provide for. As far as is known now, the Department expects to provide for approximately fifty thousand men. Therefore, it would be advisable for all who wish to attend any one of the four camps to hand in their applications as soon as possible to W. G. Burgess who is secretary of

(Continued on Page Five)

FEW DAYS OF WARM WEATHER HELP SQUAD

BASEBALL STARS ARE SHINING AS DAY OF FIRST GAME DRAWS NEAR

SCHEDULE IS NOW COMPLETE

Although Handicapped by Lack of Old Men, the Team Hopes to Take a Large Part of the List of Hard Games

With the last few days of good warm weather, the Varsity baseball squad has begun practice in earnest, and with a few more good days Coach Hearn hopes to whip the team into shape for the first game, which is a little more than two weeks off.

The team will be handicapped to some extent this year, due to the lack of old men, yet there is promise of a reliable team. There are between 60 and 70 candidates out for the different positions. For pitchers, Powell, Coleman, Kinlaw and Llewelyn seem to be showing up best at present. For catchers, Bennett, Harrell, Younce and Roberts are all making a strong bid. The most promising candidates for the other positions at present are, first base, Pitman and Gwaltney; second base, Johnson; short stop, Jennette; third base, Herty and Feimster; the outfield, Barnes, Stuart, Wecks, Proctor, Self, Hodges and Folger.

The schedule for the coming season is one of the hardest ever arranged for a Carolina team, there being 21 games, including one each with Georgetown, Colgate and Yale, and three with Virginia. The complete schedule follows:

March 15, Bingham (Mebane), at Chapel Hill.

March 17, Oak Ridge, at Chapel Hill.

March 23, W. Va. Wesleyan, at Chapel Hill.

March 29, Haverford College, at Chapel Hill.

March 31, Georgetown, at Chapel Hill.

April 3, Colgate, at Chapel Hill.

April 5, Elon College at Chapel Hill.

April 9, Washington and Lee, at Danville, Va.

April 12, Wofford College, at Chapel Hill.

April 14, Virginia, at Greensboro, N. C.

April 16, Virginia, at Chapel Hill.

April 17, Wofford College, at Spartanburg, S. C.

April 18, Georgia, at Athens, Ga.

April 19, Georgia, at Athens, Ga.

(Continued on Page Two)

What's to Happen and When

Monday, March 5 — President Graham in Chapel. Latin American Club meets at 7 o'clock.

Tuesday, March 6—Dr. F. P. Venable in Chapel. Faculty speaker at Y. M. C. A. meeting, 6:45 o'clock.

Wednesday, March 7—Dr. F. P. Venable in Chapel.

Thursday, March 8—Tom Ruffin in Chapel.

Friday, March 9 — Music in Chapel.

SHAKESPEAREAN NUMBER OF STUDIES IN PHILOLOGY

Along with the rapid progress in extension work and social service in the University there has been in recent years a corresponding growth in literary learning and scholarship, as is shown by the development of what used to be an occasional university pamphlet into one of the scholarly journals of the country. Five years ago Studies in Philology was merely a series of occasional issues containing monographs by members of the language departments in the University. Two years ago it became a quarterly journal but contained as a rule only essays read by professors and visitors before the local Philological Club. The Bain Memorial, published last year, drew upon a larger world of scholarship, and the April issue of this year will contain even a greater amount of scholarly genius. It will carry articles by such scholars as Professors Kittredge of Harvard, Fletcher of Columbia, Manly of Chicago, Osgood of Princeton and Alden of Leland Stanford. Yale will be represented by Professor Tucker Brooke, whose edition of the Shakespeare *Apocrypha* and *The Tudor Drama* are well known. Mr. W. J. Lawrence of Dublin, who has frequently published articles in British learned journals, writes on "The Mystery of Lodowick Barry," his first American contribution. Professor J. Q. Adams of Cornell discusses the Blackfriars Monastery at the time of the Dissolution, with several illustrations. Professor Graves of Trinity College, whose article in Studies in Philology last year occasioned a two page review in the Modern Language Review of London, contributes an article on "Playing in the Dark." Professor Osgood's

SERIES RESULTS IN TRIPLE TIE

The class basketball series was to have ended on Tuesday the twenty-seventh; but it so happened that the final statistics showed that there was a tie between the freshmen, sophomores, and seniors. Since this contest was judged on a percentage basis, the only way for it to be satisfactorily decided is to have each team play the other one game. In the event of a second tie, the points are to be evenly distributed among the three contestants. The games as played in the first series are as follows:

FRIDAY 23

Sophs		*Seniors*
Hawkins	r. f.	Scruggs
Roddick	l. f.	Harris
Fitzsimmons	c.	Holmes
Grimes	r. g.	Harrell
Borden	l. g.	Ranson

Goals: Sophs, Hawkins 3, Fitz 1; Seniors, Harrell 4, Harris 3, Scruggs 1.

Fouls, Hawkins 2, Fitz 1.

Sophs 11; Seniors 16.

Referee, Gwyn.

DR. POTEAT GIVES TALK ON THE LIFE OF CHRIST

"THE THIRTY SILENT YEARS" IS THEME OF INTERESTING LECTURE SUNDAY

LARGE AUDIENCE WAS PRESENT

Wake Forest President Presents the Private Life of Jesus During His Early Years in an Unusually Striking Manner

"Read the Scriptures with gumption, as well as with your eyes, and you will change many of your conceptions about Christ's early life," was the main idea expressed by President W. L. Poteat of Wake Forest College in his address on "The Thirty Silent Years" in Gerrard Hall Sunday night.

Dr. Poteat showed the falsity of the conception that Jesus spent most of his life in a humble household and in poverty. He discussed Christ's early environment as to household, education, country, and city.

Jesus had two sisters and four brothers, James, Joseph, Simon and Jude. These men were not his cousins. That idea was necessitated by the Roman Catholic doctrine of the perpetual virginity of Mary. James and Jude were literary men. They wrote the best Greek in the New Testament. "His brothers were all married, too," said Dr. Poteat, "as all men in good society are." His father, Joseph, was an extremely devout man, and Mary, his mother, a woman of affairs, versed in the literature of the people.

"Some persons," continued Dr. Poteat, "try to establish the di-

(Continued on Page Six)

ATTRACTIVE MAGAZINE WILL APPEAR ON CAMPUS SOON

The March issue of the University Magazine that is about to appear on the Hill is, according to the staff, one of the best numbers ever gotten out. A few literary lights who have been silent for a time have felt the flow of genius, and as a result the Magazine although not huge as to bulk is unusually attractive. The table of contents is appended:

"_____ at Waikiki" by de Rosset, being the adventures of one Henry Harvard.

Sienkiewicz—a poem by Paul Green.

Education in Japan, by Kamiechi Kato.

An Evening Call in 1950, by Harris Copenhaver.

The Picture—a poem by Lindau.

Uncle Reuben's Reminiscuses, by Reasoner.

Only Hear—a poem by Tennent.

What Time is it? a sketch by Rondthaler.

Old Tom, by J. M. Gibson.

In addition there are a number of good sketches and "Around the Well" articles, an editorial on 1920, and an exchange department. The Editor-in-Chief is still emphasizing his desire for Freshmen as contributors, and hopes they will respond to the call for material for the next issue.

NO NEED TO WORRY

In these days when the dogs of war are snapping at our heels, when military training and mobilization seem to be the next steps, and when the war problem is becoming an intensely personal question of what part you yourself are going to take in it, it is reassuring to learn that there is no need to worry. The following is the philosophy of the French soldier, which Life found in Miss Kathleen Burke's White Road to Verdun and reprinted; but isn't it worth re-reprinting?

Of two things one is certain,
Either you're mobilized or you're not mobilized;
If you're not mobilized, why, there is no need to worry.
If you are mobilized, of two things you are certain,
Either you're behind the lines or on the front.
If you're behind the lines there is no need to worry;
If you're on the front, of two things one is certain,
Either you're resting in a safe place or you're on the front.
If you're behind the lines why worry?
If you're exposed to danger, of two things one is certain,
Either you're wounded seriously or you're wounded slightly.
If you're wounded slightly there is no need to worry,
And if you're wounded seriously of two things one is certain,
Either you recover or you die.
If you recover there is no need to worry;
If you die you can't worry.

THE MISSING LINK

Carolina has entered upon a new era in athletics. We have just beaten Virginia in basketball for the first time in our history, but this was no surprise to us. We have an excellent opportunity to make it a clean sweep this year with the gym and track teams going good, the debating up to the usual standard, and the base ball team in fine shape. The next thing to be considered is the student body. Are the students doing their share? Of course we all want these teams to win and when questioned in regard to their attitude they are all there. But when it comes to an actual point of yelling they sometimes lay down on the job. This, it seems to me, was the case at the Davidson basketball game. Except for a few short periods during this game, the silence was oppressive and as a consequence the team did not display the brilliant work, which it has shown since. It is the general opinion on the campus that we could lick them any time, and it is so. The increase of spirit was quite noticeable in the V. P. I. game. Say! do you remember the result? Then came the strong V. M. I. bunch who had beaten the big V quintette. At this game the band was on hand and every one had lots of "pep." Result—we beat them to death. After the 35-24, no need to mention the game, a big bon-fire was built and some two hundred of the thousand who should have been there, displayed "some pep." Carolina is coming into her own, 7 to 0, 35 to 24, and what shall it be next? We have the teams. All we need is lots of "pep." With the student body full of the old time ginger we can't be beat.

"Give 'em hell, Carolina."

—L. MAC MILLAN, '20.

NEW BOOKS NOW IN LIBRARY

Five hundred and thirty new books have been received by the Library between January 1 and February 8, and because of the interest shown in the last review article some of the most noteworthy novels are mentioned:

Wells, H. G.—Mr. Britling Sees it Through.

McFee, William — Casuals of the Sea.

Wharton, Edith—Xingu.

Locke, W. J.—Wonderful Lear.

Tarkington, Booth — Penrod and Sam.

Tarkington, Booth—Seventeen.

Galsworthy, John — The Freelands.

Harris, Corra—Circuit Rider's Widow.

Sedgurick, A. D. — The Encounter.

Tagore, Rabindranath — Hungry Stones.

Lagerlof, Selma — Emperor of Portugallia.

Bennett, Arnold—Lion's Share.

Bennett, Arnold — Price of Love.

Shaw, G. B.—Androcles and the Lion.

Masefield, John—Locked Chest.

Herivien, Paul—Trail of the Torch.

Sudermann, Hermann — Norituri.

Hauptman, Gerhardt — Parsival.

Galsworthy, John—A Sheaf.

Maeterlinck, Maurice — Wrack of the Storm.

Tagore, Rabindranath — Fruit Gathering.

Tagore, Rabindranath — Stray Birds.

Crothers, S. M.—Pleasures of an Absentee Landlord.

In biography, the very interesting O. Henry Biography of Dr. C. Alphonso Smith which has been so widely criticised and praised has arrived. Many other biographies have just come, among which are H. J. Ford's Woodrow Wilson and Bradford's Portrait, of Women.

Students who attended Dr. Spingarn's lectures will be particularly interested in the two books of Benedetto Croce—Philosophy of Vice and the Philosophy of Hegel. These are what some of the students, who "take" philosophy, call "deep." It must be confessed that to understand them, they must be very carefully read, but those who are interested in the new movement in literary criticism will undoubtedly be fully repaid by a thorough study of Grace.

(*To be Continued*)

Mr. A. R. Williams, General Secretary of the Baraca-Philathea State Convention, will speak to the Baptist Baraca Class Sunday morning the 4th at 9:45 and to a joint meeting of Baracas and Philatheas at the Christian Church Sunday afternoon at 3:30.

You Are a Patriot

if you keep your body strong and ready for any national call. You cannot smoke cigarettes and meet this test.

SPRING FOOTBALL PRACTICE DRAWS OUT A GOOD CROWD

Spring training for football started off last Monday with plenty of ginger and snap, in spite of the hot weather. Forty candidates—a record spring squad—got out suits and reported to Coach Campbell on the field behind the South Building. The fact that most of the men who reported goes to show the interest the new class has already taken in Virginia's downfall.

The coach, assisted by a few letter men of last season's team, have been drilling the men in the ground principles of the pigskin game. Falling on the ball, tackling the dummy, forward passing and light signal practice have been on the program each day. Friday light line tackling and a short scrimmage was held, the field being too wet to stand much work.

There are candidates out for every position, those trying for backfield positions being slightly greater in numbers. The practice will probably continue until the hot weather makes it too hard on the men.

SINGERS MAY STROLL AGAIN

Rumors are abroad that the "Merrie Musicians" or—as the Tar Heel facetiously styled them two weeks ago—"those good looking fellows" are to stroll forth to Greensboro on the night of the Virginia baseball game to give a joint concert with the Normal warblers.

This is an innovation in this state. Harvard and Yale have been doing it for years, but this is the first time it has been done here. The boys will be called on for extra orchestra numbers and some more songs. The orchestra will play a group of Moskowski's *Spanish Dances,* and numbers by Grieg, Tschakoff, and a Mozart Overture. Vocal numbers added will be a couple of songs by Mendelssohn.

The Normal's side of the program has not yet been announced.

A BOULEVARD TO CHAPEL HILL

Since our prospects for getting an interburban from Durham to Chapel Hill any time in the near future seems to have vanished into thin air, the people of the two towns should be especially interested in Dr. Pratt's efforts to get a model boulevard between the two places. Dr. Pratt is trying to have the state furnish a part of the labor for the grading. Then he will induce manufacturers of paving material to furnish pavement for exhibition purposes. It is understood the Chapel Hill man has secured the promise of co-operation of many of the manufacturing enterprises. The fact that a good roads institute is held in Chapel Hill every year, when many engineers from all parts of North Carolina gather to study road improvement and pavements, will make the manufacturing concerns especially interested in getting their products before the men who will be very largely in charge of the construction of good roads.—Ex.

TAR HEELS WIN GAME IN LAST EIGHT MINUTES

(Continued from Page One)

outclassed the Orange and Blue was something of a surprise for fans who have been following the game closely for the past few weeks, for in scarcely any department did the Charlottesville team measure up to the Carolina ability.

"In passing, the Tar Heels had decidedly the best argument, and the same was true in following up tries for goals. This aggressive policy netted the 'Downhomers' several well-earned scores.

"Virginia left Carolina unguarded for three or four open shots, while the Tennent brothers kept a close watch on the Virginia forwards, a fact that is proven by only one goal being credited to the Orange and Blue forwards."

Carolina scored first from a foul goal, but the advantage was short lived for it was soon offset by a similar score by Virginia, and then a goal by Ingle put them three points to the good. Soon the score was four all, then five to four for Carolina, and then Ingle caged another, making it 6 to 5 for Virginia. Carolina forged ahead toward the end of the first half, and the whistle blew for the period with the score 13 to 10, in favor of the Tar Heels.

The last half was the most exciting and contained brilliant playing by both teams. The Carolina quint simply ran the Virginians down, and blinded them with fast passing.

Shepard and McDuffie secured 3 goals apiece and worked the floor well. Grandin at center got the tip-off on his man and played a good passing game, keeping free of his man and working for openings for the ball.

After the last tie, which came near the end of play, Carolina got the jump and quickly ran the score up, Virginia continuing their hard playing, but showing a loss of effectiveness.

About five hundred people saw the game, including many girls from Randolph Macon, Sweet Briar, and Virginia Christian College.

Summary and line-up:

Carolina		*Virginia*
Shepard	r. f.	Bailey
McDuffie	l. f.	White
Grandin	c.	Ingle
R. Tennent	r. g.	Dittrich
C. Tennent	l. g.	Churchman

Substitutions: Virginia: Valentine for Ingle; Meade for Dittrich; Beasley for Churchman.

Goals from field: Shepard (6), McDuffie (6), Grandin (2), R. Tennent, Ingle (6), Dittrich, Bailey.

Foul goals: McDuffie 3 in 7, Grandin 2 in 5, Bailey 8 in 16, Meade 1 in 2.

Referee: J. Colliflower, Georgetown.

Time: 20 minute halves.

W. AND L. 40—CAROLINA 23

Fast playing by the Washington and Lee quint, and the ability of May and Young, forwards, to locate the basket, cost the Tar Heels their first defeat on the trip, and gave the Generals a claim to the championship of Virginia, Carolina having defeated V. P. I., Virginia, and V. M. I., candidates for this honor.

While the defeated team worked hard, and threatened at times to run in the lead it was evident after the beginning of the second half, that the Generals had a strong enough defensive and offensive to maintain a margin over the visitors.

The work of May, Young and Adams stood out most for the winning quint, while Shepard for Carolina, was the chief basketer, scoring five field goals against Pierotti, captain and left guard for Washington and Lee.

Line-up:

W. and L. (40)		*N. C.* (23)
May		Shepard
Engleby	r. f.	
Young		McDuffie
	l. f.	
Graham		Grandin
	c.	
Pierotti		Tennent, C.
	l. g.	
Adams		Tennent, R.
	r. g.	

Summary: Field Goals—W. & L., May (6), Young (6), Adams (4), Pierotti, Engleby.

Carolina—Shepard (5), Grandin (2).

Foul Goals—W. & L., Young 4 out of 7; Carolina, Grandin 9 out of 13.

Referee: ———— of Washington and Lee.

Game played 8:30 p. m., on Washington and Lee Court, Lexington.

V. M. I. 47—CAROLINA 34

In a game marked by rapid scoring of both teams V. M. I. came back strong in the second game against Carolina and won by a 47 to 34 score on their home court.

The Tar Heels did not seem able to solve the plan of attack offered by the Cadets and were handicapped from the start by a ten point lead.

Near the end of the second half Carolina challenged the V. M. I. margin by several goals in quick succession, but V. M. I. swung back into the lead near the close of the game by scoring three field goals.

Marshall and Hock of the winning team were the substantial scorers, securing ten and eight goals respectively.

McDuffie and Shepard found the basket for seven and four goals but the shooting of Marshall and Hock offset their scoring.

Line-up:

V. M. I. (47)		*N. C.* (34)
Leech		Shepard
	r. f.	
Marshall		McDuffie
	l. f.	
Bacharach		Grandin
	c.	
Hock		Tennent, R.
	l. g.	
Nelms		Tennent, C.
	r. g.	

Substitutions: V. M. I.—Sullivan for Nelms; Carolina—Cuthbertson for Tennent, R., Perry for McDuffie.

Field Goals: V. M. I.—Marshall (10), Hock (8), Leech, Bacharach, Sullivan.

Carolina—McDuffie (7), Shepard (4), Grandin (2), Tennent, C.

Foul Goals: V. M. I.—Leech 5 out of 7; Carolina—Grandin 6 out of 11.

Referee: Goodwin of Washington and Jefferson.

Game played Tuesday at 4 p. m. at Lexington.

V. P. I. 30—CAROLINA 22

With a lead of one point over V. P. I. on their home court Wednesday night and only five minutes to play, Carolina became disorganized when Raby Tennent left the game with a broken nose, and lost to the Cadets by the score of 30 to 22.

The second half up to that point was the fastest exhibition of basketball seen on the Blacksburg court that season, according to V. P. I. fans.

Logan and B. Cocke for the Cadets played well. McDuffie was the prime basketeer for the Tar Heels. The game as a whole lacked snap—dragging at times.

"PEPSI-Cola"—that's what old Mr. Sun hates to hear a fellow say 'cause he knows how fast that tall, dewy, "ice-bergy" glass chases thirst.

Pepsy—tangy—tasty—bracing—cooling—as a breeze off the polar bears' playgrounds (it certainly does make summer quit bothering you).

Try it—say "PEPSI-Cola" at any fount—or tell the grocer and he will leave a case of two dozen bottles to make the evenings happier.

PEPSI-Cola

SURVEY FORSYTHE COUNTY STARTED BY UNIVERSITY

The work of making a complete social and economic survey of Forsyth County, a complete industrial survey of Winston-Salem, and a complete survey of the schools of the city and county, has been commenced by the experts in the various departments of the University. This work has been made possible by the Forsyth County Alumni Association, and its purpose is to make Forsyth County and Winston-Salem types of studies in economic problems for the Piedmont section of the State. The result of this important work will not only be an accurate knowledge of conditions in Forsyth (which is necessarily the first step toward improvement) but will also be an example for investigations in other cities and counties.

Dr. Williams has already commenced a survey of the schools of Winston, with respect to buildings, financial support, teaching corps, and methods of administration. A similar survey of the county school is being made, and recommendations as to needs and ways of meeting them and the general results of the study will be printed and distributed.

Dr. Branson is making a thorough and extensive research into the industrial and especially the agricultural conditions in Forsyth County. Both the city and the county economic and sociological problems are being considered. Much of the data has been compiled by Messrs. J. Tucker Day, R. ard G. Stockton, William Wright, Wilson Dalton, and D. Hill Carlton, students of the University from Forsyth. Dr. Branson is making a series of visits to farms and dairies personally.

Dr. Raper is conducting an investigation especially with regard to civic and business conditions in Winston.

The result of the survey will be published in a bulletin, "Forsyth County, Economic and Social," which will be distributed free to the citizens. Dr. Branson will write a summary of the conditions in the closing chapters, entitled "Where Forsyth Leads," "Where Forsyth Lags," and "The Way Out."

In the progress of the survey, which, because of its extent, will consume some time, Dr. Branson, Dr. Williams, and Dr. Raper will make several visits to Winston and the surrounding county. Dr. Branson has already visited the city and delivered interesting and useful addresses on two occasions.

DURHAM, N. C.

Beginning Sunday morning, Rev. R. Maynard Marshall, formerly of Charleston, S. C., but more recently of Clemson College, will be the minister of the Episcopal Parish here.

Having taken his B. A. from the College of Charleston, Rev. Marshall later attended the University of the South where he received the degree of B. D. Since entering the ministry he has served at Rock Hill, S. C., Charleston, S. C., and Clemson College. That he has a great capacity for work is shown by the fact that in addition to his work with the boys, Rev. Marshall carried four churches. He will bring here to live his wife, Mrs. Harriot Sim[illegible] Marshall, a son, and a daughter.

DR. BATTLE EXPLAINS LOSS OF CORNERSTONE

Dear Editor:

I have been often asked about the probable cause of the loss of the brass tablet once in the corner-stone of the Old East—recently returned to the University.

In 1848, the Old East was made one third larger towards the North It was necessary to do work at the North-east corner and I conjecture that one of the workmen extracted the tablet, which was in that corner and carried it off. Some think that it was taken charge of by one of the Professors of the University and was stolen when the Federals captured Chapel Hill in April, 1865. But I feel quite sure that if this had been true, I would have heard of it. I was a student and Tutor from June, 1845, to June 1854, keenly interested in the history of the University, and I certainly would have seen it if its existence in Faculty circles had been known.

Yours truly,
K. P. BATTLE.

DANSEUSES CLASSIQUES FOR THE SENIOR STUNT

Another imported attraction for the dazzling and piquant senior stunt are the seven lovely Danseuses.

These bewitching maidens dance a Greek dance scantily clad in very Greek robes of divers weavers and economical length; they are all bare foot and have fillets in their flowing hair.

This dance will positively be the most daring and beautiful thing of its kind ever produced. Isadora Duncan and Ruth St. Denis themselves are copying these limber-toed girls in all their sensuous beauty and amazing flexibility of their art.

Manager Proctor states that although the show doesn't cater exclusively to the tired business man or overworked Phi Beta Kappa aspirant, that the T. B. M. and P. B. K. A. will find ample amusement here along with scenes of beauty rare enough to please the most exacting aesthete—situations thrilling enough to make the heart of most frequent Pickwicker pulsate with emotions, and besides all this there is a sprinkling of delicate humor for the drug store loafer.

Hugo tried to write this sort of stuff but failed, while the Senior Stunt Committee — !! —

The conductor of the Virginia Creeper, kith and kin of the dinky here, on finding the team scattered from one end to the other of the "first class car" as he called it, became impatient when one after another answered "block ticket."

When he had passed just nine of the gang he demanded to be shown the "block head"—which was none other than Bobo Tanner.

The team was much divided in interest at Lynchburg. Half went to Randolph Macon, and the other to Sweet Briar.

IT MUST BE GOOD

SMOKERS' SUPPLIES OF ALL KINDS

The freshmen this year are trying to repeat their accustomed stunt of carting off the class basketball championship. They have a good team, although it is not very heavy, with two good shooters in the forward berths. The sophs had about all they could do last Tuesday to take the long end of the score from them.

Athletic Notes

Nobody can deny that the job was done according to Hoyle. As Shakespeare has it, it was done well and done quickly. That was the first game of ten stretched over a period of seven years that a Carolina quint has wrested from our scrappy neighbors, and as President Graham put it, "victories over Virginia are becoming a habit." Nobody can deny that the football team deserved the highest credit for breaking a long line of defeats, but how about basketball? Very few people take basketball seriously, or as seriously as it should be taken. "A good game" we say, but it is not football, it is not as "classy" as baseball. But the truth of the matter is that training for basketball is as severe as that for football. It is rougher than football, takes more of the "old pep" than does the game with the pigskin, and is just as interesting, if not more so. The coach has been up against it this year: he has created a team out of almost nothing, a team, which, once having hit its stride, nothing but the banner team from Lexington could stop, and our boys played a game there that scared the Washington and Lee men half to death. This team is ours, made up of men from Carolina, Carolina men every one of them. Have we nothing to give them to show our appreciation? Let us buy gold footballs, but we must not be blind to the part of the catalogue dealing with gold basketballs.

Personally we see no reason why the pool should not be filled with water. It is rather soon, but with the number of events on foot for the classes to take part in, why not let the dolphins, or whatever they are called, get warmed up or cooled off a little. That electric light looks lonesome hanging out over the big tub. Let's put something in there to dispell the spirit of solitude.

With the classes playing basketball and baseball, and the Varsity indulging in track, baseball, basketball and football, it is rather hard on the man of ordinary intelligence to decide what to go out for, especially if he cannot do any of them at all. There is however no excuse for anyone not going out for something, for if he does not like what he went out for first, he can stop and try them all, this being a free country, and especially a free campus with a long list of activities to indulge in.

Oyez, Oyez, all men wishing to get in the Spring tryout in the Gym, would better get busy and learn to fall noiselessly and gracefully from the apparatus, for after the March winds have ceased to blow their moaning shrieks—or shrieking moans,—the judges with belligerent eye will watch the young huskies in their efforts to break their own necks. The more the merrier.

SHAKESPEAREAN NUMBER OF STUDIES IN PHILOLOGY

(Continued from Page One)

paper is to be on Spenser and both Epenser and Milton are studied in papers by Professors Hanford and Greenlaw of this University.

With such a world of scholarship as its field Studies in Philology has received the commendation of leading scholars not only of America but of the world. Dr. J. Hoops, the distinguished professor of English Philology in the University of Heidelberg, has written, "We highly appreciate the value of your Studies and I avail myself of the opportunity to thank you for forwarding them regularly." Professor J. M. Manly, editor and founder of Modern Philology, published by the University of Chicago, writes, "I congratulate you on the excellence of the Studies and your ability to publish them." Similar testimonials have come from Dean Walter Miller of the University of Missouri, Professor Curtis Page of Dartmouth, and W. P. Trent, of Columbia.

With this record and with the certainty that the way is open for the making of one of the great scholarly journals of America the call has gone out for the financial support of friends and alumni in the state and in the South. Every cent of income is now spent for printing and distribution. There are no expenses of editing. Plans are being made for other special and unique services equal to that rendered by the forth-coming Elizabethan miscellany. And to put it through it is necessary that the resources of the publication be increased.

The prisoner threw the magazines across his cell in disgust, and cursed eloquently.

"Nothin' but continued stories," he growled, "an' I'm to be hung next Tuesday."—Chicago Herald.

PLATTSBURG CAMPS NOW FREE

(Continued from Page One)

the branch at Chapel Hill. There are to be four camps in 1917, the first to be held between the second of June and the first of July; the second between the seventh of July and August fifteenth; the third between the eleventh of August and September ninth; and the fourth to last from September fifteenth until October fourteenth. The general course for men taking their first camp includes manual of arms, platoon and company formation and movements; rifle practice with the Army rifle up to 600 yds. and gallery practice with arms of smaller calibre; physical training as practiced at West Point; some trench work; military instruction; hikes; sanitation; etc.

The training camps are principally infantry camps. It is obligatory upon all men in their first camp to take the infantry course. The option is given in the subsequent camps to specialize in either infantry, cavalry, artillery, or engineering. It may be stated here that a man is under no additional military obligations to the United States because he has received this instruction at government expense. However, should he wish to continue his military pursuit after having taken the three-camp course he will be eligible for appointment in the newly created Officer's Reserve Corps.

The regulations issued by the War Department for the Senior Divisions, merely require a man to be a citizen of the United States, of good moral character, of sound physical condition, capable of the severe physical work in drills and manoeuvres with full infantry equipment; eyesight normal, or corrected by glasses, and qualifications or experience equivalent to a High School education.

N. C. COLLECTS ONLY 5 PER CENT OF POLL TAXES

A BILLION WORTH OF UNLISTED PROPERTY IN STATE SAYS N. C. CLUB

"Our State Revenues and Per Capita Cost of Government" was the subject for discussion Monday night at one of the most interesting meetings which the North Carolina Club has held this year. The discussion was led by Mr. S. H. Hobbs, who presented a well prepared paper on the subject and pointed out many startling facts in regard to State government which he had unearthed in his study of this question.

He showed that North Carolina ranks from 46th to 48th in amount of revenue derived for State purposes, and that it is one of the most economically managed states in the Union. In only one state is the per capita cost of government smaller.

He pointed out, also, that the tax payers of the State pay only 2-5 of the State revenues, yet they are continually complaining of the exorbitant tax rates imposed to cover the State's necessary expenditures. The tax payers of North Carolina are actually hiding from the sheriff more than a billion dollars worth of property, which they have never listed on the tax books.

But probably the most interesting fact which Mr. Hobbs presented is that the State collects only 5 per cent of the poll taxes which are due. Actually, only one man in ten who voted in last fall's election had paid his poll tax.

The next meeting of the Club will be held on Monday night, March 12 at 7 o'clock in Peabody 8.

DR. POTEAT GIVES TALK ON THE LIFE OF CHRIST

(Continued from Page One)

vinity of Jesus by degrading his earthly surroundings. But the family of Jesus was a royal family and received the social consideration accorded to such. He was born in the manger because there was no room in the inn. Herod the Great couldn't have registered for a room that night. The scripture, 'The Son of Man hath not where to lay his head,' is not a proof of poverty. Jesus said it to squelch a scribe who was condescending to him. Jesus owned two houses. He had no place to lay his head because of the exigencies of his public ministry. The fact that he was a carpenter's son does not indicate poverty, for not to labor with the hands was among the Jews discreditable.

Jesus knew Greek as well as Hebrew. In His time every boy was compelled to go to school. Simon Ben Shetach founded the first system of public education at public expense B. C. 75—and he had the compulsory feature, a point which North Carolina has not yet reached.

The current opinion is that Galilee was a despised country, a desert. There is not a desert in sight of Galilee. It was extremely fertile and was only 20 miles from Phoenecia, the greatest maratime country of ancient times. It contained 204 cities of more than 15,000 inhabitants. The country had to be rich to support a population as dense as that anywhere today.

The city of Jesus, Nazareth, was not "an obscure and lonely village of despised Galilee." It was a center of Jewish temple life and was located on a main caravan route. It has now 6000 people and had then about 15,000. "Located at the foot of far-looking mountains, no spot on earth was so suitable for dreams of absolute good."

Dr. Poteat closed with a beautiful word picture of Jesus on the mountain near His home glimpsing a vision of His future life.

One of the largest crowds that has attended a lecture this year packed Gerrard Hall to hear Dr. Poteat.

FAVORABLE WEATHER CALLS OUT TRACK MEN

OVER FIFTY CANDIDATES REPORT TO COACH FOR ACTIVE SERVICE

STRONG SCHEDULE FACES THE VARSITY TRACK TEAM

The revised schedule for 1917 is as follows:

Washington and Lee at Lexington, Va., April 14.

Virginia at Charlottesville, Va., (Pending), April 21.

State Meet at Chapel Hill, April 28.

South Atlantic Meet at Charlottesville, May 12.

The favorable weather that has prevailed here for the past two weeks has brought out the largest number of track aspirants in the history of the sport here. Between fifty and sixty candidates are out for the squad. But Captain Farthing says that this is not enough:—He wants fifty men trying for every position!

Most of the men have gotten limbered up and are now putting in some hard work daily. The dashes and distances are showing up strong, but the hurdles, jumps, and pole-vault are unusually weak. There is scarcely any one out for these positions as present, and Captain Farthing invites every student who is not an invalid, halt, maimed, or blind to come out and fill these weak places. "Carolina can not put out a winning team," he states, "unless there are candidates for every event. Remember the two straight victories over Virginia,—and do your patriotic duty!"

The try-outs for the varsity squad will be held in about three weeks. If Coach Brown gets the material to work on, he hopes to develop as successful a team as that of last year.

What's to Happen and When

Monday, Marsh 12—President Graham in Chapel. N. C. Club in Peabody 8, 7:30.

Tuesday, March 13—Professor Wm. Cain in Chapel. Y. M. C. A. meeting, 7:15.

Wednesday, March 14—Professor Cain in Chapel.

Thursday, March 15—W. G. Burgess is Chapel. Carolina vs. Bingham, Mebane, baseball, at Chapel Hill.

Friday, March 16—Music in Chapel.

ILLUSTRATED LECTURE AT I. A. E. E. MEETING

Those who were present are well agreed that the meeting of the I. A. E. E. held last Thursday night was the most interesting one of the year. The attendance was large, all the students of the various engineering departments being invited, and the discussion was unusually interesting, due in most part to the excellent paper of Mr. A. C. Forney on "Single Phase Traction."

Mr. Forney's lecture was illustrated by views of various types of railway electrification in dif-

(Continued on Page Six)

ELECTION OF OFFICERS AT Y. M. C. A. MEETING

DR. MOSS CONTINUES HIS TALKS ON THE LIFE OF JESUS CHRIST

At the weekly Y. M. C. A. meeting, Tuesday night, the officers for next year were elected. They are as follows: President, W. T. Steel; Vice-President, W. R. Wunsch; Secretary, W. H. Stephenson; Treasurer, Theodore Rondthaler.

Dr. Moss continued the talks on the life of Jesus. It was one of the most interesting talks of the year. Dr. Moss said that in trying to find out who Jesus is, it is necessary to know who it is trying to find out; in other words, who Christ is, depends upon who it is studying Christ. Christ was an individual, he said, who lived in the region of truth, goodness and beauty—a man who lived in the physical, human and spiritual.

FACULTY FIVE SWAMPS GRAD. STUDENTS QUINT

In one of the most comical basket-ball games ever seen in Chapel Hill, the graduate students were defeated by the faculty Thursday night of last week, by the score of 31 to 5. For the faculty, Coach Campbell was easily the star, being in almost every play, and at times showing his old-time form, coupled with some of that never dying pep which earned for him the coveted title of All-American half-back, while a student at Harvard. For the Graduates, Holmes and Totten were the stellar performers, the former scoring all the graduates' points. The line-up was as follows: Faculty, forwards, Steadman and Campbell; center, Johnson; guards, James and Turlington.

Graduates: Forwards, Lasley, R., and Holmes; center Baumgartner; guards, Carter and Totten.

Field goals, Steadman, 4; Campbell, 4; Johnson, 6; Holmes, 2.

Fouls, Steadman, 0 in 5; Johnson, 2 in 5; Holmes, 1 in 5.

TOM RUFFIN TALKS AT STUDENT FORUM

Tom Ruffin's subject for discussion in Chapel, Thursday morning was, "Compulsory Military Training in the University."

"Just at this time," said Ruffin, "when we see that wa ris very probable and when we realize the peculiar condition of the United States, we begin to look around for adequate means of defense. We have 38,000 miles of coast line which cannot be mined or adequately fortified; our navy is insufficient to patrol this vast boundary, and would be powerless once the line of defense is broken; so the only defense worth while is a large body of well trained men. Our internal transportation facilities are bad; the railroads are built for commercial activities only, and cannot mobilize an army quickly enough to defend our most strategic points."

"Then what is the most efficient plan for securing these trained

(Continued on Page Six)

SPRING FOOTBALL PRACTICE NOW CLAIMS OVER 50 MEN

LIGHT SCRIMMAGING BETWEEN WHITES AND BLUES DAILY OCCUPATION

With 56 men reported up to date for spring football, practice has begun in earnest. Several varsity men, Williams, Grimes, Harold, Ramsay and Barden, are assisting in coaching the new material such fundamentals as interference, falling on the ball and tackling. A dozen men from last year's freshman squad are out and doing hard work. Besides these the majority have had little or no experience in football. So far the backfield is better represented than the line, so the coach has urged more substitute linesmen to report.

Light scrimmage began Wednesday. Th esquad was divided into two general teams—the Whites and the Blues. In the preliminary skirmish the Whites were victorious 12-0. These scrimages will continue until warm weather and baseball interfere.

There will be no summer camp this year although balls will be given the kickers in order that they may keep their "toes" in trim.

U. OF N. C. ORGANIZATION SCHEME IS LAUNCHED

The local committee of the Intercollegiate Intelligence Bureau, launched in Washington, D. C., February 9, with the University as a member, is fast getting itself in position to answer favorably a telegram like the following:

"The Department of War wants 100 men—20 electrical engineers, 30 chemical engineers, and 50 men for hospital work."

Not that such a message has yet been received, but in the event of war, the committee will be prepared to fill an order of similar nature in the shortest possible time.

Dean McClellan, of the University of Pennsylvania, inaugurated the movement with a call for representatives from all the colleges, universities and technical schools of the United States to meet in Washington for the purpose of formulating plans for an organization to assist the Department of War in the event of international trouble. Fully fifty institutions answered the call by sending delegate. L. Ames Brown represented the University of North Carolina at this conference.

The movement is the work of college men; they create and put the machinery in running order. With the exception of giving its sanction, the National Government has no part whatever in the organization. The formulation of all plans, peculiar to the different institutions, is left to the adjutants of the different local bureaus who are appointed by the presidents of the respective colleges.

President Graham has appointed Dr. J. B. Bullitt Adjutant for the University, and he in turn has formed his committee with the following members of the faculty: Dr. Jos. H. Pratt, Dr. A. H. Patterson, P. H. Winston, Dr. Alvin S. Wheeler, and Thomas F. Hickerson. This committee in turn is making a survey of the students

(Continued on Page Six)

SUCCESSFUL BASKETBALL SEASON CLOSES WITH 55 TO 28 VICTORY

Tar Heel Tossers Score 313 Points to Their Opponents 281

PLANS FOR PAGEANT RAPIDLY MATERIALIZE

Progress towards the pageant has been considerable in the last few days. The cast for Twelfth Night has not been fully decided on but there is an abundance of intelligent material available for the roles—especially the female roles. Music incidental to the play is being worked on by the orchestra and a double male quartette.

The afternoon part of the performance will be composed of little plays and several folk songs and games by the school children in costumes of pease blossoms, bumble bees, grass blades, milk maids and many other such picturesque ones.

The plays will be dramatizations of scenes from Dr. Battle's History and scenes from Elizabethan novels. Mr. Turlington has selected suitable scenes from Dr. Battle's History and it is hoped that as many students as have time will try dramatizing some of these scenes.

It is the intention of the committee to have the pageant this year as composite an affair as possible.

Members of Dr. Foerster's class in composition have submitted some interesting work in dramatization already and it is understood that several others are at work on similar dramatic sketches.

If the idea is properly worked out the result will be a combination of the Old English Pageant such as was ours last year and the American College Historical Pageant like that of Yale last year.

JULIAN S. CARR FELLOWSHIP

Announcement has been made that the Carr Fellowship will be available for 1917-18. This is a fellowship valued at three hundred dollars, and given by General Julian S. Carr, of Durham, to that member of the rising junior or senior class who has earned his way through college during the first two years, and whose scholarship and other qualities give the highest promise. It is not necessary, in order to win this fellowship, that the candidate should have earned all of his expenses, but only that he should have mainly made his own way. Applications for this fellowship should be filed with the chairman of the committee before May first. The committee consists of M. H. Stacy, Chairman, W. D. Toy, and J. M. Bell.

Men out for the Peace Oratorical contest will meet Monday 7:15 in the Y. M. C. A., for the purpose of selecting judges.

Anzac Lieutenant—"The Turks are as thick as peas. What shall we do?"

Anzac Captain—"Shell them, you idiot, shell them!"—Tit-Bits.

FAST PLAYING EXHIBITED AGAINST GUILFORD QUINT

V. M. I., V. P. I., AND VIRGINIA AMONG VICTIMS OF WHITE AND BLUE

Hitting a stride the equal of which has never been seen before on the local court,—and that at the very start of the game, the Carolina basketeers ran up a score of 55 to 28 on Guilford in the closing game of the season here Saturday.

In the first three minutes of play the Tar Heels scored four field goals while their opponents failed to get control of the ball.

By getting the tip at center, Carolina netted goal after goal on clever signal plays. The fast playing of the forwards, and consistent work of the guards contributed to the best exhibition of real basketball ever displayed by a Carolina team.

The season in many respects has been more successful than any in the last three years. While the prospects in November were meager enough, the efficient work of Coach Peacock, developed a representative team by mid-season.

Of the nine games on schedule Carolina won five, losing three on the home courts of Washington and Lee, V. M. I. and V. P. I., and only one on the local court, and that at the beginning of the season to Davidson by a close score. Of the four teams defeating Carolina, two met defeat by her on the Chapel Hill court, V. P. I. losing by eight points and V. M. I. by nine.

In regard to weight, Carolina had a lighter team than any college or university in the south.

Summary of the season:

Durham Y. M. C. A.	30	N.C.	49
Davidson	37	N.C.	31
V. P. I.	23	N.C.	31
V. M. I.	22	N.C.	33
Virginia	24	N.C.	35
Washington & Lee	40	N.C.	23
V. M. I.	47	N.C.	34
V. P. I.	30	N.C.	22
Guilford	28	N.C.	55
Opponents	281	N.C.	313

The Carolina forwards, McDuffie and Shepard, scored 87 field goals while the opposing forwards caged only 62. Grandin and Perry at center scored 41 goals to their opponents 26. The opposing guards secured 25 goals to the 8 of C. and R. Tennent and Cuthbertson.

McDuffie led the team in scoring with 100 points even (20 of which were on fouls), Grandin ran a close second with 99 (21 of which were on fouls). Shepard secured 94 points on field goals.

While the guards of the opposing teams caged 25 goals to the Tennents 7, yet their forwards (Shepard and McDuffie) secured 25 goals more than the opposing forwards, giving the Carolina

N. C. COLLECTS ONLY 5 PER CENT OF POLL TAXES

A BILLION WORTH OF UNLISTED PROPERTY IN STATE SAYS N. C. CLUB

"Our State Revenues and Per Capita Cost of Government" was the subject for discussion Monday night at one of the most interesting meetings which the North Carolina Club has held this year. The discussion was led by Mr. S. H. Hobbs, who presented a well prepared paper on the subject and pointed out many startling facts in regard to State government which he had unearthed in his study of this question.

He showed that North Carolina ranks from 46th to 48th in amount of revenue derived for State purposes, and that it is one of the most economically managed states in the Union. In only one state is the per capita cost of government smaller.

He pointed out, also, that the tax payers of the State pay only 2-5 of the State revenues, yet they are continually complaining of the exorbitant tax rates imposed to cover the State's necessary expenditures. The tax payers of North Carolina are actually hiding from the sheriff more than a billion dollars worth of property, which they have never listed on the tax books.

But probably the most interesting fact which Mr. Hobbs presented is that the State collects only 5 per cent of the poll taxes which are due. Actually, only one man in ten who voted in last fall's election had paid his poll tax.

The next meeting of the Club will be held on Monday night, March 12 at 7 o'clock in Peabody 8.

DR. POTEAT GIVES TALK ON THE LIFE OF CHRIST

(Continued from Page One)

vinity of Jesus by degrading his earthly surroundings. But the family of Jesus was a royal family and received the social consideration accorded to such. He was born in the manger because there was no room in the inn. Herod the Great couldn't have registered for a room that night. The scripture, 'The Son of Man hath not where to lay his head,' is not a proof of poverty. Jesus said it to squelch a scribe who was condescending to him. Jesus owned two houses. He had no place to lay his head because of the exigencies of his public ministry. The fact that he was a carpenter's son does not indicate poverty, for not to labor with the hands was among the Jews discreditable.

Jesus knew Greek as well as Hebrew. In His time every boy was compelled to go to school. Simon Ben Shetach founded the first system of public education at public expense B. C. 75—and he had the compulsory feature, a point which North Carolina has not yet reached.

The current opinion is that Galilee was a despised country, a desert. There is not a desert in sight of Galilee. It was extremely fertile and was only 20 miles from Phoenecia, the greatest maratime country of ancient times. It contained 204 cities of more than 15,000 inhabitants. The country had to be rich to support a population as dense as that anywhere today.

The city of Jesus, Nazareth, was not "an obscure and lonely village of despised Galilee." It was a center of Jewish temple life and was located on a main caravan route. It has now 6000 people and had then about 15,000. "Located at the foot of far-looking mountains, no spot on earth was so suitable for dreams of absolute good."

Dr. Poteat closed with a beautiful word picture of Jesus on the mountain near His home glimpsing a vision of His future life.

One of the largest crowds that has attended a lecture this year packed Gerrard Hall to hear Dr. Poteat.

FAVORABLE WEATHER CALLS OUT TRACK MEN

OVER FIFTY CANDIDATES REPORT TO COACH FOR ACTIVE SERVICE

STRONG SCHEDULE FACES THE VARSITY TRACK TEAM

The revised schedule for 1917 is as follows:

Washington and Lee at Lexington, Va., April 14.

Virginia at Charlottesville, Va., (Pending), April 21.

State Meet at Chapel Hill, April 28.

South Atlantic Meet at Charlottesville, May 12.

The favorable weather that has prevailed here for the past two weeks has brought out the largest number of track aspirants in the history of the sport here. Between fifty and sixty candidates are out for the squad. But Captain Farthing says that this is not enough:—He wants fifty men trying for every position!

Most of the men have gotten limbered up and are now putting in some hard work daily. The dashes and distances are showing up strong, but the hurdles, jumps, and pole-vault are unusually weak. There is scarcely any one out for these positions as present, and Captain Farthing invites every student who is not an invalid, halt, maimed, or blind to come out and fill these weak places. "Carolina can not put out a winning team," he states, "unless there are candidates for every event. Remember the two straight victories over Virginia,—and do your patriotic duty!"

The try-outs for the varsity squad will be held in about three weeks. If Coach Brown gets the material to work on, he hopes to develop as successful a team as that of last year.

What's to Happen and When

Monday, Marsh 12—President Graham in Chapel. N. C. Club in Peabody 8, 7:30.

Tuesday, March 13—Professor Wm. Cain in Chapel. Y. M. C. A. meeting, 7:15.

Wednesday, March 14—Professor Cain in Chapel.

Thursday, March 15—W. G. Burgess is Chapel. Carolina vs. Bingham, Mebane, baseball, at Chapel Hill.

Friday, March 16—Music in Chapel.

ILLUSTRATED LECTURE AT I. A. E. E. MEETING

Those who were present are well agreed that the meeting of the I. A. E. E. held last Thursday night was the most interesting one of the year. The attendance was large, all the students of the various engineering departments being invited, and the discussion was unusually interesting, due in most part to the excellent paper of Mr. A. C. Forney on "Single Phase Traction."

Mr. Forney's lecture was illustrated by views of various types of railway electrification in dif-

(Continued on Page Six)

ELECTION OF OFFICERS AT Y. M. C. A. MEETING

DR. MOSS CONTINUES HIS TALKS ON THE LIFE OF JESUS CHRIST

At the weekly Y. M. C. A. meeting, Tuesday night, the officers for next year were elected. They are as follows: President, W. T. Steel; Vice-President, W. R. Wunsch; Secretary, W. H. Stephenson; Treasurer, Theodore Rondthaler.

Dr. Moss continued the talks on the life of Jesus. It was one of the most interesting talks of the year. Dr. Moss said that in trying to find out who Jesus is, it is necessary to know who it is trying to find out; in other words, who Christ is, depends upon who it is studying Christ. Christ was an individual, he said, who lived in the region of truth, goodness and beauty—a man who lived in the physical, human and spiritual.

FACULTY FIVE SWAMPS GRAD. STUDENTS QUINT

In one of the most comical basket-ball games ever seen in Chapel Hill, the graduate students were defeated by the faculty Thursday night of last week, by the score of 31 to 5. For the faculty, Coach Campbell was easily the star, being in almost every play, and at times showing his old-time form, coupled with some of that never dying pep which earned for him the coveted title of All-American half-back, while a student at Harvard. For the Graduates, Holmes and Totten were the stellar performers, the former scoring all the graduates' points. The line-up was as follows: Faculty, forwards, Steadman and Campbell; center, Johnson; guards, James and Turlington.

Graduates: Forwards, Lasley, R., and Holmes; center Baumgartner; guards, Carter and Totten.

Field goals, Steadman, 4; Campbell, 4; Johnson, 6; Holmes, 2.

Fouls, Steadman, 0 in 5; Johnson, 2 in 5; Holmes, 1 in 5.

TOM RUFFIN TALKS AT STUDENT FORUM

Tom Ruffin's subject for discussion in Chapel, Thursday morning was, "Compulsory Military Training in the University."

"Just at this time," said Ruffin, "when we see that wa ris very probable and when we realize the peculiar condition of the United States, we begin to look around for adequate means of defense. We have 38,000 miles of coast line which cannot be mined or adequately fortified; our navy is insufficient to patrol this vast boundary, and would be powerless once the line of defense is broken; so the only defense worth while is a large body of well trained men. Our internal transportation facilities are bad; the railroads are built for commercial activities only, and cannot mobilize an army quickly enough to defend our most strategic points."

"Then what is the most efficient plan for securing these trained

(Continued on Page Six)

SPRING FOOTBALL PRACTICE NOW CLAIMS OVER 50 MEN

LIGHT SCRIMMAGING BETWEEN WHITES AND BLUES DAILY OCCUPATION

With 56 men reported up to date for spring football, practice has begun in earnest. Several varsity men, Williams, Grimes, Harold, Ramsay and Barden, are assisting in coaching the new material such fundamentals as interference, falling on the ball and tackling. A dozen men from last year's freshman squad are out and doing hard work. Besides these the majority have had little or no experience in football. So far the backfield is better represented than the line, so the coach has urged more substitute linesmen to report.

Light scrimmage began Wednesday. Th esquad was divided into two general teams—the Whites and the Blues. In the preliminary skirmish the Whites were victorious 12-0. These scrimmages will continue until warm weather and baseball interfere.

There will be no summer camp this year although balls will be given the kickers in order that they may keep their "toes" in trim.

U. OF N. C. ORGANIZATION SCHEME IS LAUNCHED

The local committee of the Intercollegiate Intelligence Bureau, launched in Washington, D. C., February 9, with the University as a member, is fast getting itself in position to answer favorably a telegram like the following:

"The Department of War wants 100 men—20 electrical engineers, 30 chemical engineers, and 50 men for hospital work."

Not that such a message has yet been received, but in the event of war, the committee will be prepared to fill an order of similar nature in the shortest possible time.

Dean McClellan, of the University of Pennsylvania, inaugurated the movement with a call for representatives from all the colleges, universities and technical schools of the United States to meet in Washington for the purpose of formulating plans for an organization to assist the Department of War in the event of international trouble. Fully fifty institutions answered the call by sending delegate. L. Ames Brown represented the University of North Carolina at this conference.

The movement is the work of college men; they create and put the machinery in running order. With the exception of giving its sanction, the National Government has no part whatever in the organization. The formulation of all plans, peculiar to the different institutions, is left to the adjutants of the different local bureaus who are appointed by the presidents of the respective colleges.

President Graham has appointed Dr. J. B. Bullitt Adjutant for the University, and he in turn has formed his committee with the following members of the faculty: Dr. Jos. H. Pratt, Dr. A. H. Patterson, P. H. Winston, Dr. Alvin S. Wheeler, and Thomas F. Hickerson. This committee in turn is making a survey of the students

SUCCESSFUL BASKETBALL SEASON CLOSES WITH 55 TO 28 VICTORY

Tar Heel Tossers Score 313 Points to Their Opponents 281

PLANS FOR PAGEANT RAPIDLY MATERIALIZE

Progress towards the pageant has been considerable in the last few days. The cast for Twelfth Night has not been fully decided on but there is an abundance of intelligent material available for the roles—especially the female roles. Music incidental to the play is being worked on by the orchestra and a double male quartette.

The afternoon part of the performance will be composed of little plays and several folk songs and games by the school children in costumes of pease blossoms, bumble bees, grass blades, milk maids and many other such picturesque ones.

The plays will be dramatizations of scenes from Dr. Battle's History and scenes from Elizabethan novels. Mr. Turlington has selected suitable scenes from Dr. Battle's History and it is hoped that as many students as have time will try dramatizing some of these scenes.

It is the intention of the committee to have the pageant this year as composite an affair as possible.

Members of Dr. Foerster's class in composition have submitted some interesting work in dramatization already and it is understood that several others are at work on similar dramatic sketches.

If the idea is properly worked out the result will be a combination of the Old English Pageant such as was ours last year and the American College Historical Pageant like that of Yale last year.

JULIAN S. CARR FELLOWSHIP

Announcement has been made that the Carr Fellowship will be available for 1917-18. This is a fellowship valued at three hundred dollars, and given by General Julian S. Carr, of Durham, to that member of the rising junior or senior class who has earned his way through college during the first two years, and whose scholarship and other qualities give the highest promise. It is not necessary, in order to win this fellowship, that the candidate should have earned all of his expenses, but only that he should have mainly made his own way. Applications for this fellowship should be filed with the chairman of the committee before May first. The committee consists of M. H. Stacy, Chairman, W. D. Toy, and J. M. Bell.

Men out for the Peace Oratorical contest will meet Monday 7:15 in the Y. M. C. A., for the purpose of selecting judges.

Anzac Lieutenant—"The Turks are as thick as peas. What shall we do?"

Anzac Captain—"Shell them, you idiot, shell them!"—Tit-Bits.

FAST PLAYING EXHIBITED AGAINST GUILFORD QUINT

V. M. I., V. P. I., AND VIRGINIA AMONG VICTIMS OF WHITE AND BLUE

Hitting a stride the equal of which has never been seen before on the local court,—and that at the very start of the game, the Carolina basketeers ran up a score of 55 to 28 on Guilford in the closing game of the season here Saturday.

In the first three minutes of play the Tar Heels scored four field goals while their opponents failed to get control of the ball.

By getting the tip at center, Carolina netted goal after goal on clever signal plays. The fast playing of the forwards, and consistent work of the guards contributed to the best exhibition of real basketball ever displayed by a Carolina team.

The season in many respects has been more successful than any in the last three years. While the prospects in November were meager enough, the efficient work of Coach Peacock, developed a representative team by mid-season.

Of the nine games on schedule Carolina won five, losing three on the home courts of Washington and Lee, V. M. I. and V. P. I., and only one on the local court, and that at the beginning of the season to Davidson by a close score. Of the four teams defeating Carolina, two met defeat by her on the Chapel Hill court, V. P. I. losing by eight points and V. M. I. by nine.

In regard to weight, Carolina had a lighter team than any college or university in the south.

Summary of the season:

Durham Y. M. C. A.	30	N.C.	49
Davidson	37	N.C.	31
V. P. I.	23	N.C.	31
V. M. I.	22	N.C.	33
Virginia	24	N.C.	35
Washington & Lee	40	N.C.	23
V. M. I.	47	N.C.	34
V. P. I.	30	N.C.	22
Guilford	28	N.C.	55
Opponents	281	N.C.	313

The Carolina forwards, McDuffie and Shepard, scored 87 field goals while the opposing forwards caged only 62. Grandin and Perry at center scored 41 goals to their opponents 26. The opposing guards secured 25 goals to the 8 of C. and R. Tennent and Cuthbertson.

McDuffie led the team in scoring with 100 points even (20 of which were on fouls), Grandin ran a close second with 99 (21 of which were on fouls). Shepard secured 94 points on field goals.

While the guards of the opposing teams caged 25 goals to the Tennents 7, yet their forwards (Shepard and McDuffie) secured 25 goals more than the opposing forwards, giving the Carolina

TO DRILL OR NOT TO DRILL

Last week the Tar Heel sent out letters to ten faculty members and students asking for their opinions, if they cared to express them, on the question of military training at Carolina. It received the following three answers.

"I would say that I advocate strongly the introduction of military training in the University, and the Plattsburg idea also, for I think the University should stand as an example of Preparedness to the State."—A. H. Patterson.

"I think compulsory military service as unsound as compulsory religious service."—H. H. Williams.

"If we can't have universal military training, I am for the next best thing,—military training at Carolina. I favor it for two reasons: primarily for the physical and mental benefits to be derived from such training and, also, because I believe it will create a greater respect and appreciation for the United States."—J. A. Capps.

Many of the colleges of the North and several of the South now have military training.

The University of Virginia will probably have it soon; likewise Vanderbilt. Washington and Lee University will offer the services of a company of student volunteers if the United States becomes involved in war. It is thought that nearly all of the 550 men in attendance at the University will volunteer in the proposed student corps.

"Twenty-two hundred men of the student body of the University of Illinoise," says the University of Virginia College Topics, "are receiving military training under the direction of three United States army officers. Over a thousand of the students of Cornell University are getting military training. Sixty per cent of the students of Princeton are receiving or will receive the benefits of a course in military science taught by officers of the regular army. Yale has its already famous battery of field artillery and many of its students are to receive training in other branches of military science. Many other colleges and universities already have embraced the offer of the government to furnish officers for drilling their students and for instructing them in the rudiments of military training."

How about it, Carolina?

VOLUNTARY READING

The Freshmen are doing a lot of voluntary reading now. This year all the men in First English are required to do four hours reading every two weeks in books mainly of their own choosing. In one section, however, only two Freshmen did the minimum of four hours; one did forty-eight hours while the average was about ten hours.

How many Seniors, Juniors and Sophomores do as much as ten hours of voluntary reading every two weeks?

Whoever doesn't know the joy of getting a long-desired book out of the Library,—an old book as time-worn, dusty and mysterious as an ancient castle, or a new one, fresh and challenging with its ideas of today and tomorrow,—then taking it to his room and, with his feet propped up against the radiator, reading it, not in order to pass a course, but freely, and simply for the pleasure of doing it,—whoever hasn't done that has missed one of the joys of life that can be experienced with a minimum of toil and trouble.

CHAPEL HILL OPERA

The exquisite rendition of the opera Faust on the Victrola by Messrs. Thornton and Dargan in the Peabody Building Tuesday night, though it may have been found wanting in some of the details of the Metropolitan stage setting and though it must be admitted that Geraldine Farrar does not look as well on the Victrola as she does behind the footlights, was nevertheless decidedly worth arranging and hearing. The audience of about three hundred enjoyed it thoroughly. There were a good many there who neither understood it nor appreciated it; but they had a delightful time laughing at it,—for there are few more ludicrous proceedings than an opera that you don't understand. There were others, however, that did understand and appreciated it, more or less, and they must feel very grateful to Prof. Thornton and Dr. Dargan for their trouble in arranging the concert.

If they, or some other public-minded people, would only give another some time soon,—Carmen, for instance!

THE NEW APPROPRIATION

Here's to the Legislature of North Carolina! When they passed the $3,000,000 bond issue for educational purposes last week, thereby appropriating to the University $500,000 for permanent improvements during the next five years and $165,000 annually for maintenance for the next two years, they received the hearty thanks of every Carolina student and alumnus.

We have been anxiously waiting for some time to see whether the Legislature would thus open up its heart and give us the amount which President Graham had asked for. We knew well enough that we needed it and deserved it, but wondered whether the Legislature had the some point of view.

Every man who knows the University intimately knows her urgent need for more money to take care of the constantly increasing cost of maintenance, and to meet the expense of much-needed permanent improvements. For years the University has been running on an income entirely too small for the scope of her work,—only $115,000 for maintenance and $30,000 per year for improvements. But in spite of this great handicap the University has been able to grow. Statistics show that Carolina is one of the most economically managed institutions of its kind in the country, and it is due to this economic management alone that she has been able to assume her present proportions.

Still, the new appropriation is not an extraordinary amount when we look only at our present needs and our present numbers. Twice as much money could profitably be spent here. We need at least two new domitories, for now only one-third of the students can room on the campus; we need an engineering and physics building, a geology building, a new auditorium and another class room building, not to mention the minor needs, such as campus improvements.

But we are glad and thankful for what we have received. It will be spent wisely, and the University will be permitted to have an expansion and increased service to the State which will many times repay it for the expenditure.—H. G. BAITY.

VIRGINIA-CAROLINA-HOPKINS DEBATE

The query for the Virginia-Carolina-Hopkins debate is, Resolved, That, Constitutionality waived, legislation providing Compulsory Arbitration of labor disputes on Inter-state Railways, and prohibiting all strikes and lock-outs should be enacted.

The final debate will be held April 21, and the preliminary to select the debaters for the final debate will take place Thursday night, March 22. The affirmative and the negative will meet in joint debate, and each speaker may have at his disposal a sum total of 25 minutes, not more than ten of which shall be used in rebuttal. All those trying out for this debate must hand in their names to the Secretary of the Debating Council (C. B. Hyatt) by Monday night, March 12. This is absolutely essential to determine whether two preliminaries will be necessary.

By a bicycle—"To keep in the straight and narrow path."

By a suit of clothes—"To keep myself unspotted from the world."

A Series of 120 Tests

on each of fifteen men of the University of Vermont, in several different psychic fields, show that tobacco smoking produces a 10.5 per cent decrease in mental efficiency. A. D. BUSH, M. D.

THE INTELLIGENT CAT

Two suburban gardeners were swearing vengeance on cats.

"It appears to me," one said, "that they seem to pick out your choicest plants to scratch out of the ground."

"There's a big tomcat," the other said, "that fetches my plants out and then sits and actually defies me."

"Why don't you hurl a brick at him?" asked the first speaker.

"That's what makes me mad," was the reply. "I can't. He gets on top of my greenhouse to defy me."—London Opinion.

EXAMINATION

(For Admission to the Grand Order of War Prophets.)

Have you ever been at the front? As soldier? As bellboy?

What is your favorite typewriter?

Have you ever read a book on strategy? Why?

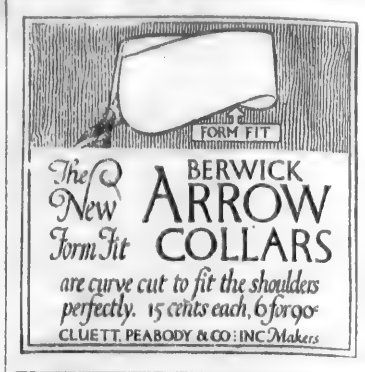
When did you first use the expressions "a rattle of musketry"—"singing of bullets"?

Are you gun-shy? Why not?
—Life.

NO NERVOUS STRAIN

Crawford — "The elephant sleeps only five hours out of every twenty-four."

Crabshaw — "Very true; but just stop and consider that the elephant doesn't have to attend lectures or the opera, listen to sermons or war-talk, or lend an ear to some fellow's description of his newest baby or car, and you will realize that he has a pretty soft time of it, taken all in all."—Life.



"Pa, what is an echo?"

"An echo, my son, is the only thing that can cheat a woman out of the last word."—Boston Transcript.

FACTS ABOUT SMOKING AS SHOWN BY INVESTIGATION

EPWORTH LEAGUE STUDYING QUESTION OF SMOKING AT UNIVERSITY

On the night of February 2, 1917, an open letter was put into the hands of every student that could be located at the University of North Carolina with the request that he read the same and answer frankly the questions asked. The following was the letter:

Chapel Hill, N. C.,
Jan. 25th, 1917.

Dear Fellow Students:

The following information is desired by the Social Department of the Epworth League of the Methodist Church. This study is being made by University students who want to know the facts about smoking among the students. There have been many wild statements about the condition, so we are anxious to know the facts.

As there is nothing personal in the study, we trust that you will cooperate with us and give the desired information.

Thanking you for your favor,

Your fellow students,
B. F. AULD,
R. G. WILSON.

1. Do you smoke?.....
2. Did you smoke before you entered college?.....
3. At what age did you begin the use of tobacco?.....
4. In what form (snuff, chewing, cigars, cigarettes or pipe) did you first use tobacco?.....
5. Is smoking injurious to you in any way? If so, how?.....

As the students were not requested to sign their names, and as the canvass was made by students the results are quite indicative of the true conditions of smoking existing among the students.

RESULTS OF THE CANVASS

Five hundred and sixty-one students answered the questions. Two were reported to refuse to answer.

THE ANSWERS RECEIVED

1. Do you smoke?

57 per cent, 310, answered no.

43 per cent, 242, answered yes.

2. Did you smoke before you entered college?

88 per cent, 214 smokers, answered yes.

12 per cent, 28 smokers, answered no.

12 per cent, 38 non-smokers, had stopped since entering college.

3. At what age did you begin the use of tobacco?

226 of the 242 smokers answered this question.

5 per cent, 11, answered 5 years of age or under.

11 per cent, 25, answered 5-10 years of age or under.

11 per cent, 24, answered 10-12 years of age or under.

24 per cent, 52, answered 13-15 years of age.

43 per cent, 108, answered 16-20 years of age.

3 per cent, 6, answered 21 or over.

50 per cent, 112, began under 16 years of age.

50 per cent, 114, began at 16 or over.

4. In what form did you first use tobacco?

The answers to this question were not quite clear in some instances as two or more forms were stated. We have answers from the 242 smokers.

49 per cent, 136, answered cigarettes.

21 per cent, 58, answered pipe.

20 per cent, 56, answered cigars.

6 per cent, 17, answered chewing.

4 per cent, 12, answered rabbit tobacco.

1 answered snuff.

1 answered corn silk.

5. Is smoking injurious to you in any way? If so, how?

50 per cent, 124, smokers, answered yes.

27 per cent, 67 smokers, answered no.

22 per cent, 48 smokers, answered do not know.

1 per cent, 3 smokers, answered probably.

The 124 answering, yer, reported the following effects:

21 answered, nervousness.

20 answered, shortens the wind.

6 answered, injures thinking and concentration.

4 answered, affects the heart.

4 answered, injures the memory.

8 answered, general mental weakening.

7 answered, causes dry throat.

5 answered, causes headache and dizziness.

6 answered, causes decrease in weight.

2 answered, injures them in every way, physically, mentally and morally.

4 answered, causes sleeplessness.

2 answered, weakens the will.

3 answered, has bad moral effect.

3 answered, produces dullness.

3 answered, it depresses him.

2 answered, causes indigestion.

13 answered, injures them financially

From these answers we can draw the following conclusions about smoking by students at the University of North Carolina:

1. A smaller per cent (43) of students smoke than is generally believed.

2. A small per cent (12) of the students who smoke begin after entering the University.

3. About the same per cent (12) stop smoking as begin after entering the University.

4. About one half of the smokers begin before they are sixteen, and a half begin at sixteen or over. More begin smoking at sixteen than at any other age.

5. The cigarette is the favorite form of tobacco for beginners.

6. One half of the smokers are conscious that the use of tobacco is injurious to them. Twenty-seven per cent of the smokers say that smoking is not injurious. Twenty three per cent are doubtful about the effects of smoking.

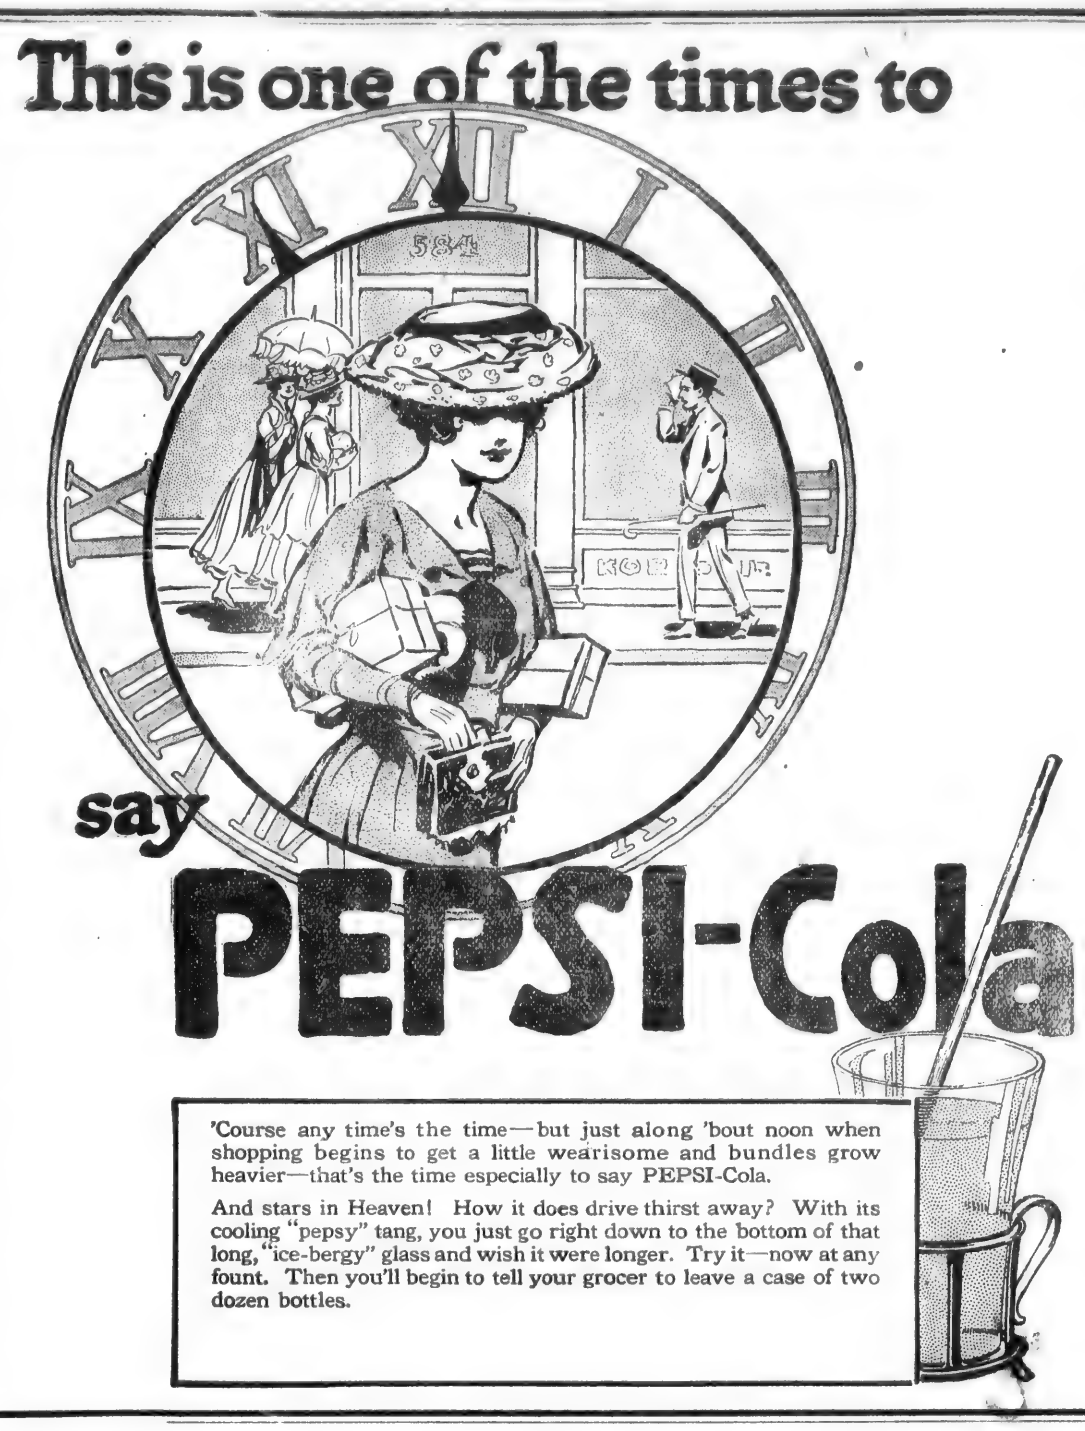
7. The injurious effects acknowledged by most smokers were nervousness and shortening of the wind.

"Young gentlemen," announced the professor in English literature, "to-morrow I wish you to come prepared to discuss this sentence from the works of Henry James."

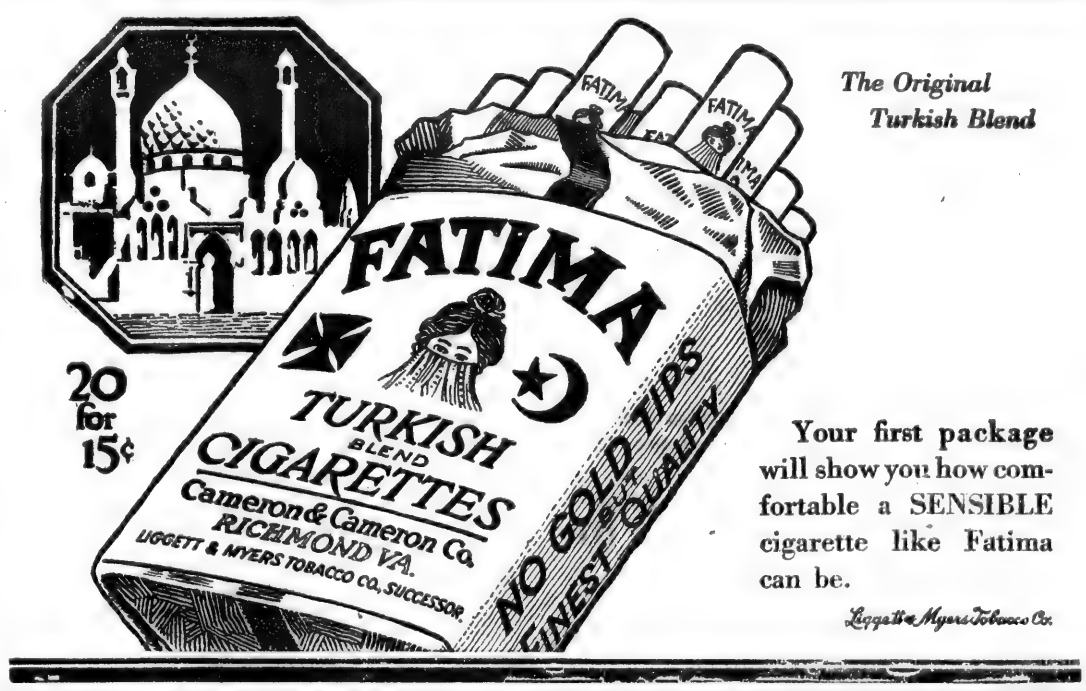
"The entire sentence, professor?" groaned the class.

"Well, then, take it as far as the first semicolon."

Newlywed—"My angel, I wish you wouldn't paint."



Mrs. Newlywed—"Now, Jack, have you ever seen an angel that wasn't painted?"—Tit-Bits.



Darwinian theory)—"Now, Mr. Topping, isn't it true that your five senses are identical with those of the monkey?"

Mr. Topping (highly indignant)—"Sir, is it your intention to insinuate that I smell like an anthropoid?"

"Brevity is the soul of wit," observed the sage.

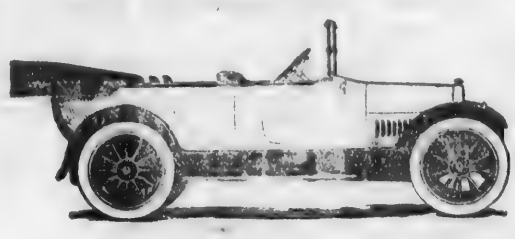
"Maybe," replied the fool, "but I never feel very witty when I am short."—Milwaukee Sentinel.

WHAT WOULD YOU DO?

Just suppose you were a girl, a beautiful, svelte-formed, ruby-lipped, curly-haired chicken, quivering with the joy of life and swaying in recollection of the latest fox trot.

And suppose further that one day you were taken from the carefree insouciance of your youthful Bohemia and transplanted in a stodgy, cultured little village where everybody knew all the gossip about everybody else and their main pleasure and occupation was in exaggerating it.

If you can possibly imagine this lovely creature with syncopated eyes and twinkling toes cast in Chapel Hill you will have an idea of the horrible situation which thrills and plays with the emotions of the spectators in the Senior Stunt.



Of course no girl like this has ever come to our community to live, if she did there'd be Hell to pay.

The professors would fall for her, the co-eds would boycott her, the ladies would blackball her for the community club and she'd have to rent one of Chief Long's useless trash cans to keep her frat pins in. She'd—but see the Senior Stunt—Mme. Zu Zu, the foreign meteor, has been provided with a charming and delicious role one in which she can disclose her bewitching art and her marvellous figure to best advantage.

The premiere takes place on Thursday, April 12.

Tickets will be put on sale a week before hand. Don't be one of the rear guard and find the doors of the Gerrard Theatre closed for you. What would you do, then?

"Sienkiewicz," by S. R. Newman, is rather a glorification of Poland itself than a sketch of the great Polish novelist. It is the most valuable contribution the Magazine has received this year, and in form and substance might well make it envied by our best literary magazines. While purporting to be principally a resume of the life and works of Sienkiewicz, whose recent death in the service of his country makes the article of melancholy interest, it is really an intimate appreciation of Polish history and literature. The author has expressed the fatalism, the chivalry and the mysticism of the Polish character so as best to convey a sense of the work which Sienkiewicz attempted.—U. of Va. College Topics.

JUNIORS GATHER AT ROYAL FESTIVE BOARD

Amid the wafting fumes of the "muse-hallowed weed" Juniors, 76 in number, concluded the greatest gathering of their existence with toasts and pledges of amity and brotherhood last Friday night in a banquet at Swain Hall.

The festive board was neatly garnished with ferns and the class colors, orange and black, while the White and Blue spreading from table to table linked them into a common band.

Albert Coates, toastmaster, called on Dr. H. M. Wagstaff for the first speech. In responding the speaker dealt with the war situation and the lack of interest shown by the American youth in public affairs. Dr. Wagstaff sounded a note of patriotism which was worthy of the occasion.

Frank Upchurch responded to the speaker with "Types" as his theme. Then the class sung a song composed by Bruce Webb and adapted to the tune of "Auld Lang Syne."

We are the boys of old '18,
  We sing while others cry;
We love our Alma Mater dear—
  We'll sing until we die.

Chorus:
We'll sing of '18 all our days,
  Her songs will make us proud
Our hearts are hers forevermore
  Her praise we cry aloud.

We'll raise our song unto the skies,
  We'll raise it high and dry;
Of '18's praises never tire,
  Who claims he does is a dog-gone liar.

We've athletes strong and athletes great;
  We've orators, give and take;
Our students' records we off repeat
  As eggs we can't be beat.

Now when our sons are old enough
  To follow in our train,
With heartfelt shake and voices bluff
  We'll send 'em to our Ed. Graham.

Dr. A. H. Patterson was the next speaker. He took as his subject a military cap of a German officer. This he placed on the table before him while he discussed the policy of the present Kaiser and his ancestors, and related some interesting facts about their private lives.

Billy Steel responded with a clever talk on "Getting Together in the Last Lap." Another song, composed by Buzz Tennent, was sung to the tune of Maryland, My Maryland.

Come let us sing a song of praise!
  Carolina—'18
With loyal voices let us raise—
  Carolina—'18
Against the foe we guard thy name,
Thou sheltered us when meek and tame,
And now we share thy rising fame
  Carolina—'18

What class is stronger, man for man,
  Carolina—'18
Such claims are made by others than
  Carolina—'18
Our teams, defeated, never yield;
Our men achieve in every field;
And with each year new strength's revealed
  Carolina—'18

Our love for thee will ever grow,
  Carolina—'18
'Till every heart reflect the glow—
  Carolina—'18
Oh may thy life not be in vain;
On Carolina bring no stain;
Be thou a link firm in her chain—
  Carolina—'18

Coach Campbell discussed with the class the value of military training, giving a vivid description of a days work at Plattsburg, and incidentally touched upon class athletics, encouraging '18 to put forth every effort to win the trophy cup this year.

"Shorty" Griffin responded with a pithy speech on the "Value of Little Things," putting himself up as an example, and daring the class to oppose his line of thought.

After thanking the committee composed of Webb, York, Wrenn, Oettinger, and C. B. Holding, the Feasters sung "America and adjourned.

TRIANGULAR DEBATE NEAR TRYOUTS TO BE ON MARCH 26

After a short period of rest, the University debaters are again haunting the reference rooms at the Library, preening their feathers and sharpening their spurs for the annual spring contest with Virginia and Johns Hopkins. Every one is interested in keeping Va. to the mat from now on, and it is felt that we may as well add the scalp of the Baltimore team while we are about it.

The topic for the debate is that of compulsory arbitration of all capital and labor disputes on all interstate roads. Each University will of course put out two teams. It has not yet been decided against whom we will have the affirmative or the negative, owing to the tardiness of our opponents in sending votes.

In the meantime, it is rumored that much work is being done on both sides. Messrs. Hyatt, Lindau, V. F. Williams, Duncan, Moseley, and Sharpe are said to be out for the affirmative, while Messrs. Rand, Edney, Sam Ervin, Rymer, Stell, and Ruffin are apparently taking notes on the negative side of the question.

A team of two men will be selected on each side in the preliminary tryout to be held about March 26, and will meet their opponents on neutral ground about the last of April. According to the arrangement we will meet Virginia at Baltimore, Johns Hopkins at Charlottesville, and will have the pleasure of being hosts to the teams from Virginia and Baltimore, who will meet in mortal—and immortal—combat on the battle-scarred platform in Gerrard Hall.

EASY

Reason and Experience had a dispute as to which of them is the more necessary.

"No matter what situation arises, it is only necessary to bring me to bear upon it," said Reason, "and the solution is bound to come."

"After which," said Experience smiling gently, "it remains for me to demonstrate that your solution is wrong."

Artist—"I think this joke is very true to nature."

Editor—"Yes, I can see it has been taken from 'Life.'"

First She—"Did your new gown cost much?"

Second She—"Only one good cry."—Philadelphia Public Leager.

Just Gossip

The day was almost gone at last;
"The shades of night were falling fast."
They rattled on the roof of tin
And woke up he who dozed within.

"I must get up, or I'll be late,
I cannot miss this half-past-eight"
He sighed, "I have no time to lose,
But I must have just one more snooze."

His eyes were heavy, but with a will
He lifted them to the window sill
And laid them there, but naught saw he
For it was dark, as dark could be.

Then with a happy stretch and yawn
He pulled the covers o'er his brawn
And drawing a deep breath where he laid
A rather grotesque picture made.

No doubt this guy would be there still
Like old man Winkle on Mount Catskill
But Jack, a going to a dance
Dropped in to borrow his dress pants.

His eyes went roving round the room
And 'most got lost amid the gloom
But through the night he heard a snore
Resembling thunder's mighty roar.

He shook this guy our poem's about
Until his wits had all dropped out
But as he[1] gazed into his[2] face
He realized what had took place.

"They're in the trunk," was all he said,
Then settled back upon his bed
He had discovered the best way
To spend George Washington's birthday, (in Chapel Hill.)

Note—[1] The Guy. [2] Jack.

Say, Freshman, what are the prettiest girls names you know of? Whoa now, wait a minute! Of course your girl's name comes first, but don't spit it out so quick, it scares us. We were trying to get at this purely from the aesthetic standpoint. What we want to know is what are the prettiest names of girls you know and not the names of the prettiest girls you know.

Three good-fellows got together and got to talking of girls' names. —hypothetically, you know. Each one wrote a list of the five he liked best, and the other two graded him on his selection. Strange to say no girls' name appears twice. Here they are:

Beulah, Florine, Virginia, Gladys, Marie, Hope, Helen, Anna, Pearle, Louise, Dorothea, Barbara, Christine, Shirley, Rachel.

We can't take time off to grade you on your selection, and you might not consider us fair judges. Just the same, we want you to write out a list of what you consider to be the five prettiest names, and then perhaps we can determine what really is the consensus of opinion. Send your list to Box A of the Tar Heel or Post Office Box 103.

Editor: "We can use this joke if you'll take fifty cents for it."

"I couldn't think of it. I never got less than a dollar for that joke."—Life.

Down Senior Way

Have you noticed that the Seniors are now wearing stiff collars and otherwise looking rather spruce? Well, it's all on account of that famous Madam Zu Zu, the great boneless dancer, from Paris Green. She is now in Durham and all the near-grads are gloating in happy anticipation of her arrival, which will culminate Easter Monday, at 9:45, a la Tank Hunter. There is likewise some discord in the Senior Barracks and the world renowned Madam Zu Zu is the cause. Red Proctor said that since he was the business manager of the stunt, he felt that he was the logical individual to entertain Her Highness during her stay in the Burg, but the other member of the class thought otherwise, and herein lies the trouble. It is a difficult problem to settle. Proc. offered to beat the whole class at pinochle for the honor but this was objected to on the grounds that there is one senior who has been so negligent with his education as not to learn this most honorable German game during his four year's college career. Then Red offered to match her off, a plausible plan indeed, but there was not two coins to be found among the dignified ones. In that dilemma they still flounder.

John Falstaff Holbrook, the best looking man in bunch, has proposed that they all line up when she hits town and let her decide the question; to this Sky Pilot Eagle objects, and we don't blame him. But it is just as Slim Jim Mackie says, the rest of the class shouldn't be inconvenienced on account of the divine one's misfortune. So the matter rests; however the fantastic one is coming and if there are any John the Baptists in this town who love their heads, they had better seek oblivion.

WHAT'S IN A NAME?

"Your daughter," said Mrs. Oldcastle, after being conducted through the newly furnished wing of the magnificent palace occupied by the new-rich Bullingtons, "has such a splendid vocabulary."

"Do you think so?" her hostess replied. "Josiah wanted to get her one of them escritoires, but I made up my mind right at the start that a vocabulary would look better in a room furnished like hers, even if it didn't cost quite so much."—Toronto Globe.

Parke—"Not a day goes by but we ought to make somebody happy.'

Lane (satirically)—"Well what did you do yesterday, for example?"

"I kissed my wife."—Life.

Thomas A. Edison and Henry Ford have started on a two-weeks' automobile trip in the woods "to get away from the big noise of civilization." So Mr. Edison will furnish the car.—Erie (Pa.) Dispatch.

MUSIC AND ART

Coffin, C. H.—"How to Study Pictures."

Elson, Arthur—"Book of Musical Knowledge."

Stanford and Forsyth — "History of Music."

Van Dyke, J. C.—"Art for Art's Sake."

Van Dyke, J. C.—"Meaning of Pictures."

Beegle and Crawford — "Community."

DRAMA AND PAGEANTRY:

Mr. Coffin's book is like the kind of thing one is offered at the entrance to art museums. It is helpful though rather shallow, as—in justice to the author—is the majority of writing on the subject that is being done today (see for instance in the current Art World, The Universal vs. the Individual in Art.)

Mr. Elson's Musical Knowledge contains all one needs to know about music! There is a chapter on pre-musical times, primitive musical times, early musicians, something about all the standard composers and their works (e. g. "Rimsky Korsakov's 'Scheherazade' is a programme symphony depicting four episodes from the 'Arabian Nights.'" and "Tschaikowsky's incidental music to 'The Snow Maiden" is very good,—much better, in fact, than that to 'Hamlet.'" "The Elegie, or Dirge, is a melodious piece of sad or mournful style." The book abounds in these naive definitions and shallow criticisms. The different musical instruments are ably discussed. Two whole pages are given to an exhaustive account of organ stops.

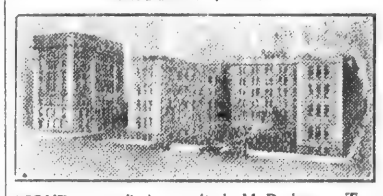
Chapters are given on how to conduct, and how to read music. One is naturally very much disappointed that there wasn't another chapter or foot note telling the finished musician what to wear and how to bow after he had learned all these other things.

Some of the chapters,—those on forms and developments—are very illuminating. It is strange that a person intelligent enough to work up excellent chapters on some subjects would be stupid enough to try to criticise operas by reciting the plot as they do in the victrola books.

The book has some very instructive chapters and can clear up many a vagueness about certain forms, developments, and instruments. It will fully repay a judicious reader's time.

Poetry. Amy Lowell — Men, Women and Ghosts, and Sword Blades and Poppy Seeds.

These are like the rest of her books. I don't know what the story is nor would I tell if I did. She is the kind of writer who will say anything to be striking. One of the most striking things I remember is that she says, "I smell the stars." I would suggest to anybody who intends writing satire on contemporary poets and poetesses to just quote nearly any thing she says and he will be considered "keen" by some of the ancestors of Dryden and Pope in the year 2017 A. D.



Alfred Noyes—Book of Princeton verse contains some remarkable verse—"poetry" (magazine aspirants would say) which was written for the most part by some of his students at Princeton.

Enthusiastic Girl—"Isn't this just the loveliest party?"

Blase Boy—"It'd be O. K. if the music wasn't so punk, 'cos the grub isn't bad, what there is of it, and the floor's good enough in spots, and the dames aren't so worse, only they dance as if there steering gear was on the blink."

INTERESTING, INSTRUCTIVE LECTURE ON "FAUST" GIVEN

With Caruso in the title role, Geraldine Farrar in the role of Marguerite, Journet in Mephistopheles, and Scotti in Valentine, the Peabody Auditorium (and the Victrola sounding box) resounded with a most brilliant rendition of the most popular of operas—Faust—last Tuesday night.

The curtain (or rather the victrola lid) rose at 8 o'clock before a large audience. For the benefit of those who were not acquainted with the opera Mr. Thornton gave a very interesting and instructive lecture on its composer, the music, the sources, various productions of it, and many curious facts concerning it.

The opera consists of five acts. I. Faust sells his soul to the evil one and falls in love with a vision of Marguerite.

In Act II, the Fair is the principal part. It serves as a kind of divertisement and at the same time gives a picturesque village scene. The music here is light and "dancey"—as Peter Pan's friends say. The dainty waltz, that everybody whistles without knowing it, takes up a large part of the Act.

Act III is taken up mainly by songs back and forth between Marguerite and Faust. Faust's "Lovely Flowers I Pray" and Marguerite's "Jewel Song" whose trills and turns and runs Geraldine Farrar does with a rare exquisiteness are the best known solos in the opera. Marguerite falls before the cunning of Faust and Mephistopheles in the garden, the melodies of which contain that quintessence of liquid beauty so characteristic of Gounod's lyric passages.

Act IV is more or less irrelevant. The well known "Soldier's Chorus" comes in here. Like Act II, this act helps to give a realistic atmosphere to the opera.

In Act V, the end comes quickly and beautifully. Marguerite, realizing the state of affairs, repents and in spite of Faust's remonstrances is borne off to heaven. Her repentance motif recurs again and again until the final chorale before the last curtain and it has been said that this act is "one of the most beautiful operatic scenes ever conceived by the mind of a great genius."

The lecture was planned especially for members of the various English 2 classes but ti proved enjoyable to all outsiders who heard it.

SUCCESSFUL BASKETBALL SEASON CLOSES

(Continued from Page One)

guards a margin of 14 points over the opposing guards.

Raby Tennent, captain, ended his basketball career with an unusually good record. Only 18 goals were thrown against him in 9 games, or an average of two goals a game.

Summary of Guilford game:

Carolina (55)		*Guilford* (28)
McDuffie	r. f.	Seamans
Shepard	l. f.	Massie Smith
Grandin	c.	Smith Walser, D.
Tennent, C.	r. g.	Walser, Z.
Cuthbertson	l. g.	Jones Massie

Field Goals: Carolina — McDuffie (5), Shepard (6), Grandin (11), Cuthbertson; Guilford—Smith (4), Massie (3), Walser, Z., Seamans.

Foul Goals: Carolina — McDuffie (7) out of (10), Guilford—Massie (11) out of (20).

ILLUSTRATED LECTURE AT I. A. E. E. MEETING

(Continued from Page One)

ferent parts of this country and abroad, the slides being made by the department. The first part of the lecture was occupied with a theoretical discussion of the different types of motors used, and their designs. He then took up the different types of rolling stock used by the various American companies and described at length the electrification of the Pennsylvania lines, the N. Y. N H. and H., and others, pointing out the overhead construction, etc. He showed how 12 electrics had replaced 34 steam locomotives of equal size on the Norfolk and Western.

He finished the discussion by giving a comparison of single phase and direct current traction, after which Mr. C. N. Sloan discussed the paper briefly.

TOM RUFFIN TALKS AT STUDENT FORUM

(Continued from Page One)

men? Our voluntary plan has been unsuccessful, for we have only 150,000 trained men where Germany had 10,000,000 at the beginning of the war. Compulsory military training is coming to be the logical method of training men, and this University could do nothing better than to adopt this training for its students. Here we have 1200 men, and most of them are here for as much as two years. From that number we could train many, who, in turn, would go out into the State as leaders and be prepared to train others. Gentlemen, let's use our influence to get military training at the University."

UNIVERSITY ORGANIZATION SCHEME IS LAUNCHED

WINSTON-SALEM WINS STATE CHAMPIONSHIP

SUPERIOR PLAYING OVER THE EASTERN VICTORS NETS GAME

DURHAM HIGHS 20—WINSTON 37

Westerners Run Away With Bull City Lads in Second Half and Pile Up a Neat Score

The annual basketball finals were taken this year by Winston-Salem in a game in which they completely outclassed the team from Durham, the eastern champions. The game for the first period was close and interesting, and it seemed for a while that the two teams were pretty evenly matched. Early in the second half, however, the boys from the Twin City got busy and left the Durham quint far in the rear. The final score of 37 to 20 fails to show the margin of playing ability Winston had on Durham. At no stage of the game did the Bull City boys have a chance for first honors. While they were by far the best in the east their lack of shooting ability and aggressiveness showed in the contest with the clever western western team.

Billy Carmichael, who had a bad foot, and was far from his usual form, shot the first goal from the middle of the floor. Fast floor work and a hard shot put Winston beside Durham. Hancock soon added another tally by a short shot from the side. Winston kept the lead thus gained and was never in danger of being overtaken. Few fouls were called, most of them being on Winston. White's skill from the foul line kept Durham in the running. Durham caged only three goals in the first period.

In the second half both sides played much cleaner ball. The Durham quint seemed to have completely lost their team-work. White's individual playing and

ELISHA MITCHELL SOCIETY

The Elisha Mitchell Scientific Society held its 229th meeting Tuesday night in Chemistry Hall.

Mr. H. R. Totten read a paper on "Growing Mushrooms in Pure Culture," and Mr. J. S. Holmes discussed, "Some notes on the occurrence of land slides."

What's to Happen and When

Saturday, March 17—Carolina vs. Oak Ridge, Emerson Field, 3:30 P. M.

Sunday, March 18—University Sermon, Gerrard Hall, 11 o'clock.

Monday, March 19—President Graham in Chapel. Latin-American Club, 7:30. Carolina vs. Wake Forest, Emerson Field, 3:30 P. M.

Tuesday, March 20—Dr. J. B. Bullitt in Chapel. Y. M. C. A. meeting at 7:15 o'clock.

Wednesday, March 21 — Dr. Bullitt in Chapel.

Thursday, March 22—Victor Bryant in Chapel.

Friday, March 23—Music in Chapel. Carolina vs. West Va. Wesleyan, Emerson Field, 3:30 o'clock.

Dartmouth War Referendum

College Paper Institutes Questionaire to Find Out How Students Stand in National Crisis

Hanover, March 6—Dartmouth students are telling where they stand in the present national crisis. They are answering a questionnaire instituted by the The Dartmouth, the college newspaper. The following "vital questions" are asked:

In view of the existing international situation, is it your opinion that the United States is justified in formally declaring war?

In view of the existing international situation, is it your opinion that the United States should formally declare war?

Do you believe that the people of the United States should be consulted by referendum before Congress declares war—except in case of threatened invasion?

As long as there is no declaration of war are you in favor of having the Government merely take measures to protect American neutrality rights on the sea?

Do you favor, in general, the policies to date of President Wilson concerning the international situation?

If war were declared, under the present circumstances, and volunteers from Dartmouth were called for, is it probable that you would enlist?

If war were declared, because of an attack upon the United States, and volunteers from Dartmouth were called for, is it probable that you would enlist?

Do you believe that the United States should adopt a system of universal compulsory military

The Julian S. Carr Fellowship is Awarded

Award was made Saturday of the Carr Fellowship, endowed by Gen. Julian S. Carr, of Durham, to J. B. Linker, of Salisbury, and A. M. Coates, of Smithfield, both members of the Junior class. This is probably the most important, and certainly the most valuable prize given by the University of North Carolina. The award for 1917-18 is the first one to be made. The fellowship as a gift from General Carr was announced at the alumni banquet last commencement, and it carries with it $300 per annum.

The Carr fellowship is given to that student who has earned a considerable portion of his expenses during his first years in college, and whose excellence in scholarship, interest in college affairs and manly character give highest promise of distinction in after life. There were in all 26 men who qualified under the conditions and applied for the fellowship. Such was the merit of the applicants, according to the members of the committee, that great difficulty was experienced in making the decision. For that reason it was decided this year to divide the fellowship and give half to each of the Juniors above mentioned. The committee making the award consists of Dean M. H. Stacy, Prof. W. D. Toy, and Prof. J. M. Bell.

REPRESENTATIVE CHOSEN FOR STATE PEACE CONTEST

COATES WON IN PRELIMINARY TRY-OUT FOR UNIVERSITY'S REPRESENTATIVE

A. M. Coates, with the subject "America's Contribution to Peace," was chosen last night to represent the University in the State Peace Contest for the Lake Mohonk Prize to be held in Greenboro, March 22. J. S. Stell, speaking on "A Practical Program for Peace," was selected as alternate. The committee of judges was composed of Dean M. H. Stacy, Dr. A. H. Patterson and Dr. H. M. Wagstaff.

The other seven speakers and their subjects are: T. W. Ruffin, "The Absurdity of War; the Reasonableness of Peace;" H. B. Mock, "The Hope of Peace;" E. E. W. Duncan, "War and the New Internationalism;" V. F. Williams, "Imperalism—the Disturber of the World's Peace"; C. I. Taylor, "A Working Basis for Peace;" D. S. Spain, "The Unseen Empire;" W. H. Stephenson, "Humanity versus Group Alliance."

CITY BANK FELLOWSHIP AWARDED CAROLINA MEN

The University of North Carolina Committee on the National City Bank fellowships has announced the winners of the fellowships for 1917: Elliott Cooper, of the junior class, of Oxford, and Robert de Rossett, of the junior class, of Wilmington, with William Grimes, of Raleigh, and Robert Foster, Jr., of Asheville, of the sophomore class, as alternates.

These fellowships are awarded to the University of North Carolina as one of the seventeen universities of the country that have been put on the cooperative plan of training for foreign service by the National City Bank, of New York. Tulane is the only other Southern University awarded scholarships. The bank and the University believe that there is a career for young Americans in the future foreign trade relations of the United States of unlimited possibilities. They have set themselves, therefore, to the task of jointly preparing young men of character, versatility, and persistence to do this work on a big scale.

The plan is a laboratory fellowship in practical banking. Undergraduates spend their summer vacation in the bank, where they acquire a working knowledge of banking routine and organization. This is coupled with language practice and class work, amounting to twelve hours a week. This work is of such a nature that the cooperating universities are granting some college credit to those students who have successfully passed the Bank's examination at the termination of the courses.

The men are chosen on the basis of their character, personality, scholarship, practical experience, and knowledge of languages. Mr. James Harrison and Mr. T. C. Boushall, of Raleigh, are Carolina

CAROLINA, 4---BINGHAM MEBANE, 3 IN FIRST BASEBALL GAME OF SEASON

Visitors Unable to Score Run for Eight Innings But Threaten in Ninth

TAR HEELS SHOW UP BIG LEAGUE FORM AT START

LEWELLYN AND BENNETT KEEP HUSKY MEBANITES GUESSING

Jupiter Pluvius called a halt and the sun got in a few licks last Thursday, when Carolina took the first game of the season from Bingham, of Mebane, by a 4 to 3 score. From the looks of the things for a few days before the game, most people thought it would be a track for mud-horses. Agreeable surprises are never frowned upon, however, and the band was there, and everything was lovely.

The team had a little trouble getting settled down at first, and a few balls went astray. Llewellyn who occupied the place of honor on the mound, then went steadily to work and the rest of the team soon got behind him. It was a pitchers' battle from the beginning until late in the game. Bingham got a man on in the first frame on an error by Jeanette. The runner advanced no further than second. Stuart, who led off for Carolina, beat out an infield hit, and was sent to second on Herty's sacrifice. Moorfield's bad throw to third put him safe and he made the first tally for the Tar Heels on a squeeze play, Barnes laying down a pretty bunt. Bingham's first hit came in the fourth, when Teague lifted one into right field, taking second on Proctor's fumble. Moorfield then drove a long fly into center that might have gone for extra bases. Stuart, however, speared on the run.

A score seemed possible for the White and Blue in the sixth when Stuart drove one over short and then stole second. Barnes followed with a hot hit to left, but a fine throw by Person caught Stuart at the plate. Carolina scored again in the seventh when Proctor drew his second pass and scored on Feimster's hit to deep center. In the eighth Cooper failed to handle

(Continued on Page Six)

Classes Working for Athletic Trophy Cup

The brief interruption to class athletics, in the form of Spring football, having been removed, the crack of the bat and the thud of the catcher's mitt, together with the sound of scattering cinders, now proclaim again the intention of more than one class to win the trophy cup.

A meeting of the class managers will be held at the first of the week for the purpose of making out a baseball schedule. In all probability, the first game will be played in the latter part of next week.

Each class is to play two games against every other class and the respective standings will be determined on a regular percentage basis as in regular leagues. As matters now stand the sophomores are in the lead with three points to their credit, as a result of the basket ball series. There is some doubt as to which class holds second place since the seniors had to borrow men to play their match game with the freshmen. Whether or not the victory of the seniors is to be valid will be decided at the next meeting of the commite. However that may be, the lead gained by the Sophomores can be tied and passed by the class that throws itself heartily into the events yet

(Continued on Page Six)

A Remedy Submitted For Class Dues Evil

Some interesting facts with regard to the payment of class dues were brought out by H. D. Sharpe in his talk in Chapel, Thursday morning. He showed that less than one half the class dues levied are ever actually collected, and that from one third to one half the membership of each class bears the whole financial burden.

As an example, he took the record of the present Senior class. In the fall of 1913, 300 men entered the University in the class of 1917, and for that year the total class assessment was $1.50. But during that year only one man in three paid the assessment, and instead of collecting $450, there was only $150 turned into the class treasury.

In the Sophomore year the class of 1917 numbered 160 men, and the assessment was 2 dollars. But instead of receiving $320 dollars, the treasurer got only $150. In the Junior year the membership was 123 and the assessment was $1.50, but only $97 was collected. During the three years the assessments thus amounted to $954.50, but of this amount only $397 was actually put in the class treasury.

Likewise, the present Junior class entered with 278 men, and of the $347 assessed in the freshman year, only $125 was paid. In the Sophomore year there were

(Continued on Page Three)

UNIVERSITY SERMON

The University sermon for March, the last University sermon for the current session, will be delivered on Sunday, Marc h18th. in the Chapel, at 11 A. M., by Rev. W. R. L. Smith, D. D., of the Baptist Church.

It will be remembered that Dr. Smith was until a few months ago the pastor of the Baptist Church here. He was highly esteemed by the citizens of Chapel Hill and by the students of the University. It will give us pleasure to see him here again.

"Where are you from little girls?"

"I am from Providence."

"Oh, are you?"

"Oh, no, R. I."

AN APPRECIATED APPROPRIATION

In behalf of the University the Tar Heel thanks the 1917 Legislature, the Appropriations Committee in general, and in particular Senator Holderness and Representative Gray for giving to the University the requested appropriation. Senator Holderness, according to the State papers, was especially active in making the bond issue, including the $165,000 appropriation to Carolina, a reality. He. and the otner members of the committee, have done a deed which will doubtless be a source of future pride and prosperity to the State and which will always keep warm for them a spot in the hearts of all lovers of Carolina.

Lives there a man with soul so dead
Who never to himself hath said:
"If I were in that batter's place
I'd swat a homer into space!"

There is only one thing a college student never tries to do: to find out what this mysterious thing really is that he is spending four years hunting for and that we call education.

TWENTY-FIVE YEARS AND SMOKE

Since 1892 many changes have taken place on the Carolina campus; but the passage of a quarter of a century has not caused the percentage of smokers at the University to vary a single unit. In 1892 forty-three per cent of the student body smoked; in 1917 forty-three per cent smoke,—according to statistics found in the 1892 Hellanian and last week's Tar Heel. Furthermore, then seventeen per cent chewed; now 19 per cent chew. Practically no difference! After twenty-five years the contest between Bull Durham and the Y. M. C. A., between Prince Albert and football, base ball and track pledges, has resulted in a tie.

Perhaps, after all, our 1892 brothers were not very different from our 1917 selves. Here are some other interesting statistics from the 1892 Hellenian.

Own dress suit, 23 per cent.
Carry watch, 66 per cent.
Favorite novel, Ivanhoe.
Favorite poet, Tennyson.
Favorite study, Math.
Most boring study, English.
Ever engaged, 26 per cent.
Expenses here per year, $357.
Wear glasses, 11 per cent.
Number of hours study per day, 6.

(Freshman Massey waxing eloquent in debate)—". . . and it was in those days of the revolution when our forefathers shed their blood on the Rocky Mountains."

Erwin-Barton Wedding

Live Oak, Fla., March 12.—A simple but withal a very beautiful wedding was solemnized at St. Luke's Episcopal Church, Saturday afternoon at 4:30 o'clock, when Miss Haffye Louise Barton, of this city, and Mr. W. A. Erwin, Jr., of West Durham, N. C., took their marriage vows.

Owing to the fact that it was Lent, the wedding was a very quiet affair, the immediate members of the two families and a few intimate friends being invited, and the only attendants being Miss Cimmie Barton, the maid of honor, and Mr. Frank Drew, Jr., groomsman.

The decorations of the church were in keeping with the season and the only decorations used were the lovely white Killarney roses that adorned the altar, and a few potted plants.

Just preceding the ceremony, Mrs. James P. McCall, Jr., sang At Dawning, by Camden.

At the appointed time the bridal party entered the church to the strains of Lohengrin's wedding march, played by Miss Elizabeth Bardin. First came the ushers, Messrs. W. Bishop and Herbert White, then the maid of honor, Miss Cimmie Barton, sister of the bride, immediately following came the bride leaning upon the arm of her father, who gave her in marriage. They were met at the altar by the groom and his best man, Mr. Frank Drew, and the Rev. Curtis Grubb, who read the impressive ring service in performing the ceremony. The bridal party left the church to the strains of Mendelssohn's wedding march and left immediately over the Seaboard for Palm Beach where they will spend their honeymoon.

Mrs. Erwin is the eldest daughter of Mr. and Mrs. J. B. Barton, and her girlhood days have been spent here with the exception of the last few years, which time has been very profitably spent away at school. Beside being a student at the Castle School, at Tarrytown, N. Y., for two years, she attended the Misses Timloe's select school at Washington, graduating from that institution last summer. Her parents have been residents of this city for a number of years and Mr. Barton has been foremost in all undertakings that tended to the upbuilding of this city, and while he has large business interests elsewhere, he maintains a handsome home here. Mrs. Erwin is the grand-daughter of Mrs. E. J. Hayes, of Greenville, Fla., and is a member of one of the old families of that portion of the State.

Mr. Erwin, though a comparative stranger here, is a young man of sterling worth. He was a student of the University of North Carolina for three years, and has the reputation of being a rising young man in the business world. He is the only son of Mr. and Mrs. William A. Erwin, of West Durham, N. C. Mr. Erwin, Sr., is largely interested in the famous Erwin Cotton Mills of West Durham, and Mrs. Erwin is the daughter of the founder of St. Mary's College at Raleigh, N. C., and their son is a worthy descendant of his ancestors.

After spending two weeks at Palm Beach and other east coast resorts, Mr. and Mrs. Erwin will go to their home at West Durham, where Mr. Erwin will engage in the cotton mill business.

D. T. Stutts, '15, is now teaching at Nealsville, N. C.

Mr. Henry Ford

will employ ex-convicts but will not employ men who smoke cigarettes.

A Function in Arkansas

"Every once in a whlie, of a Saturday night during the winter, when the presiding elder is about due or there is else something special on hand, we hold a right lively function at our house, when our fourteen children take a bath in a tub beside the kitchen stove," confessed Mr. Gap Johnson, of Rumpus Ridge, Ark. "They sorter divide up in bunches, the big boys in one squad, the big girls in another, and the little boys and little girls in their respective classes. When they have all jawed theirselves into their own gangs there is a deafening rannakaboo over which squad shall hit the tub first, each bunch, mindful of the trials and tribulations before 'em, argying that they ort to come last. After about an hour of jowering business begins.

"None of 'em are presizely deathly quiet about it, but 'pears like the little boys have the most fun. But, anyhow, all the evening the house shakes and rattles with the shivers of them that are bathing, them that have just bathed and them that are anticipating the holocaust, till an innocent bystander would imagine that an earthquake was being pulled off. And the yelling and cussing and complaining can be heard for half a quarter up and down the road on a still, cold night. Eh-yah!—cleanliness is next to godliness, and 'pears to be just about as painful."

You do not have to "learn book-keeping and other details necessary to a business man by mail" any longer. Professor James of the department of Civil Engineering, is to give a non-credit course on these subjects on Tuesdays and Thursdays at 12:30

This course, while it cannot be counted as "hours" to graduate on, includes several subjects all-important to the business man. Several have signed up for the course. There is no fee to University students. You can register with Prof. James or Dr. Wilson.

Work on New Post Office to Start Soon

The site for the new Chapel Hill postoffice, just across the street from the New Dorms, must be vacated within sixty days. Postmaster R. S. McRae has just received a letter to this effect from the postmaster general at Washington, D. C. Work will probably begin on the new building immediately upon the clearing of the lot. It will cost approximately $50,000.

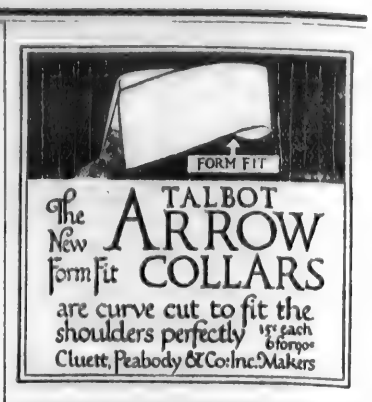
F. O. Clarkson Leads Y. M. C. A. Discussion

At the weekly Y. M. C. A. meeting Tuesday night, Francis Clarkson led one of the most interesting discussions of the year. He took for his subject the life of Robert E. Lee, and very ably told of the life of this man, his religious life, and his life of service, as a gentleman and as a Christian. He classed him as one of the foremost generals of the world, ranking in the class with Washington and Napoleon, and very interestingly compared him to the generals in the present world war.

Rev. Walter C. Erdman, of Korea, will visit the Student Volunteer Band of the University next Sunday, Monday and Tuesday. Those who desire to do so may obtain interviews by seeing his Secretary, T. E. Rondthaler.

DANCING LESSONS—THE ONE-STEP

(An extremely difficult dance, requiring many weeks to practice.) Turn your partner's back to the wall—so she can't see where she's going—and push her gently the length of the hall. When all the way there turn her halfway around and push her the other way. If she doesn't like it, push her through a window.—Yale Record.



The way prices keep going up makes one wish that when Sir Isaac Newton invented gravitation he had made it a little stronger.—Indianapolis News.

TH' thoughtless talker is like a blank cartridge. He makes a loud noise but never hits th' target.

When you stop to think, it's little wonder that VELVET is so good. Every bit of it has been *naturally aged* for two years.

Athletic Notes

Even though the announcement of scrimmage caused a great many who had previously cherished football aspirations to can themselves, nevertheless Spring practice this year, though short, was more of a success than it was last year.

Most of the men who came out were new men and those who knew little of the game. There were were some who caught on very quickly and vicious tackling has bereft the Athletic Association of an excellent dummy.

It is felt that most of the rocks in the field will be dug up before many years have past, as a number of them have recently been discovered by a few players, more or less geologically inclined, and are reported to be in an excellent state of preservation.

Practice has been discontinued in order to give the men a chance to play class baseball. Both the first year squad and the varsity have been enlarged by players out to get in shape for class hostilities on the diamond, and Coach Campbell will probably give most of his attention from now on to the job of getting spring class work under way. It has not yet been definitely decided how the class field will be open to practice for the different classes, but the scheme used last year of having three practices a week for each team will probably be the one this season.

Some men have been heard to state that they would be candidates for their respective class track teams, and while the number of men having such intentions is at present small, still class day, as no doubt it will come to be called, may in course of time come to be an interesting occasion. Class Day at other colleges is one of the biggest things of the year, and if the spirit for intra mural sport is kept up, the pessimists may discover some class unity after all. The track has been well worked and is in good condition. Runways and jumping pits have been almost completed in the stadium, and when the varsity field men move down to the big field, the space around the Smith Building will be free as air to all class speed kings.

The substitution of the javelin for the hammer seems to be a popular arrangement. The old hammer seemed to have charms for but few, while swarms are out every afternoon trying to stick the javelin in some innocent bystander. The uncertain weather of the past few days has been bad for both weight men and pitchers, and sore arms are a drug on the market. Balls don't break and weights refuse to fly.

It is rumored that some of the Gym "bulls" have forsaken their favorite haunts to try their hands at pole vaulting. The principles of falling are used in both, we believe, but the other relations between a parallel bar and a vaulting apparatus are omitted from our copy of Hoyle.

We have just read in a theatrical journal that owing to the fearful cost of cabbages as missiles, actors are warned to wear their apologies in a conspicuous place or they will be attacked with tomatoes a la can. Just why this should be quoted in connection with the Senior stunt, we leave those gentlemen to guess.

Downton: "Here comes Blinkers. He's got a new baby, and he'll talk us to death."

Eavesdropping and Interviews

Every Freshman ought to pass the catalogue. He ought to know what he is going to take and why and for how long and what he can substitute if he flunks it. A. B. is divided into three parts, and each part has its hours, its majors and minors, its required electives and its free electives, its main divisions and co-ordinate subjects, it 8:30's and its possible conflicts.

Any intelligent person can read Greek with patience and a dictionary and an interlinear jack, but a college catalogue is like the weather forecast charts and the reports of the stock exchange. You have to know what it is about before you can begin to understand it.

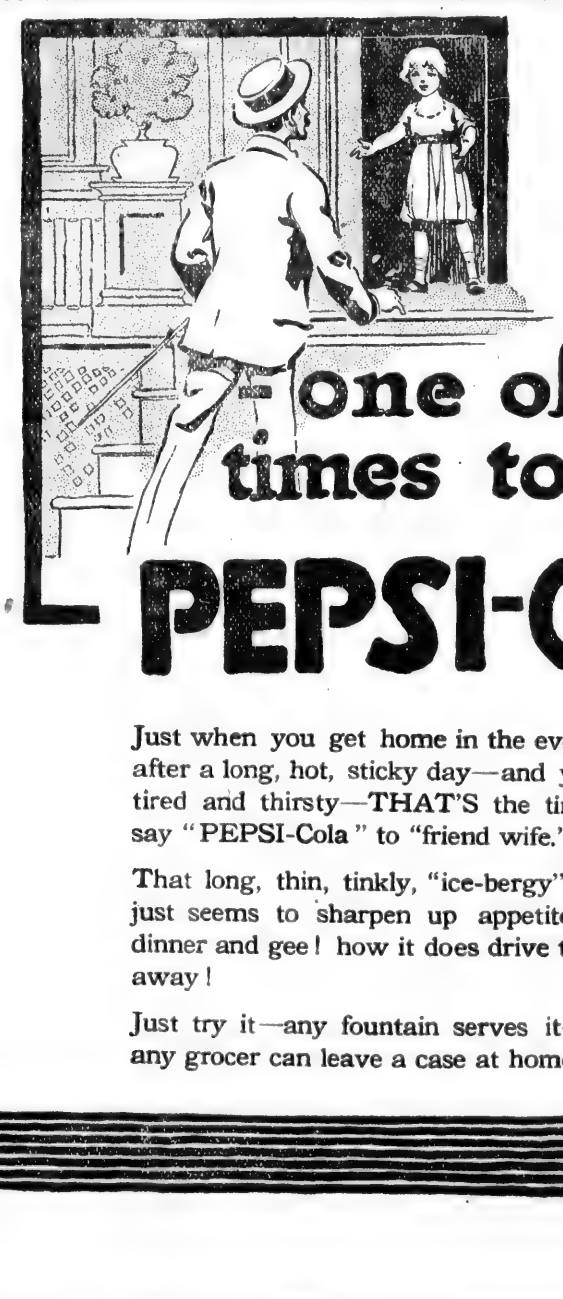
Of course a Freshman has this advantage: he starts even, or with conditions, he isn't handicapped with advanced standing which has to be credited, and properly distributed through his schedule of studies. Approaching the subject from the standpoint of hours it seems simple enough, mere addition or multiplication of small numbers like fifteen and seventeen, but there are major hours and minor hours, required hours and elective hours, and required elective hours and free elective hours, and some hours that aren't credited unless followed by certain other hours. Starting from courses the process is even more intricate and the results more confusing. Courses seem to run in families like the halogen group and the number of possible combinations with courses outside that group is limited, and yet there must be one elective from each general division and not less than six hours nor more than nine hours devoted to the major subject in the Junior and Senior years respectively.

By taking the catalogue and going through page by page it is possible to strike out the courses which you have already had or their equivalents and thus estimate the amount of advanced credits which you can then subtract from the required number of hours and probably you will find that the University should have given you an M. A. the year before. Realizing that there must be a trick in it somewhere you go back and see which fall within the limits of the four main divisions and how many double back on each other, and you wonder how the committee gave you Freshman credits. At last after hours of toil and careful mathematical calculations you find that you are within eleven hours of graduation but that you must have three different three-hour courses in three successive years before you can obtain an A. B. degree and even then in that eleventh hour the powers that be may rise up and demand an examination on the fall term of Freshman History.

To prevent the possible mental anguish of future students the writer begs that the old and honorable custom of passing the catalogue be restored, and enjoined upon all new students, those of advanced standing even more than Freshman. Nor is it sufficient to limit the study to the description of the University, and valuable faculty statistics. Every new student should be able to plot every possible course in the form of a smooth curve with the major subject as the centre of axes, and the required hours as the abcissae and the elective hours as the ordinates.

"Is this gun working now?"
"No, sir. It's discharged."

$10 IN GOLD



Will be given to the student of the University of North Carolina writing the best 1000 word essay on "The Advantages of Life Insurance." Our aim is to secure new talking points for our agents. No doubts you have good arguments tucked away in your brain that we have never thought of.

A REMEDY SUBMITTED FOR CLASS DUES EVIL

(Continued from Page One)

171 men in the class, and the dues were $1.50 each. But only $145 was actually collected.

"Thus we see," said Sharpe, "that about one third of the members bears the whole financial load of each class. Some men have paid five dollars in dues since they have been in the University; others have paid nothing. This is unfair, and it should be remedied so as to distribute the burden equally. And as a reasonable solution for this problem," Snarpe continued, "I should suggest that the University take the matter of the collection of class dues in hand, as it has taken charge of the Athletic Association finances, and require every man to pay one dollar class dues along with his matriculation fee each year. The need for this reform would justify the University in taking such a step, and it would certainly facilitate the matter of collecting class dues."

C. S. PENDERGRAFT

THE NEED OF RADICALNESS

In theory, the American college should be a caldron of sizzling ideas—from its halls should thunder the impetuous decree of the new generation for a world reshaped; the American undergraduate should be a fighting crusader, lit with the glow of his belief in the inherent righteousness of the obvious, eager to cut a thousand Gordian knots with a single flash of his sword. In practice, the American college is fast beginning to reflect in its life the fatuous complacency of prosperity—the undergraduate, as a type, is as smug within his little hemisphere as though he already possessed two double chins and a bank account.

It is very troublesome to think—very troublesome, often disastrous, and, as a general rule, highly unnecessary. The surface of things possesses a peculiarly lulling glaze. Five courses a year, with intermittent examinations, on the one hand, balanced by the fox-trot and two-seated runabouts—what better scheme of life could one ask? In the matter of opinions, there is an option—one can take them either nicely made to order for the best retail trade, or, better, perhaps, do without them all together. College gives one such a broad outlook upon life—and there is always the secret gratification of knowing that you belong to the class forever glorified by the collar ads.

There used to be an idea extant to the effect that the sudden plunge after graduation into the cold, cold world of the quick lunch and the almighty dollar was extremely good for a man, because it took all the nonsense out of him. It may be extremely good for him—but not for the sake of the elimination of the nonsense that is in him. There isn't any—at least not in the good old sense of high impatience with reality. The average man not only accepts reality calmly, but would be very curious to know why he should not accept it calmly, and what on earth he should want else.

At the present time, there are exactly two movements launched by men in colleges which are sufficiently opposed to the trend of events to make even eddies in the national current. One is the revolt of certain Princeton sophomores against the social system of their institution. The other has recently made itself evident in the publication of a magazine called "War?" edited by college men, which is bitterly opposed to all forms of military propaganda, and which says so in terms by no means uncertain. The question as to whether fraternities should be pulled out of all colleges and universities by the roots and as to whether the only cure for the evil of war is pacifism are not to the point—the thing is that two separate groups of college men at least have gone through mental processes enough to buck up against an accepted order.

Some philosopher once said that there never was a radical who was right or one who did not do much more good than if he had been. Better, a thousand times, the college girl who believes in red-hot socialism because she once came into contact with a starving family than the college man who is infinitely bored by all things other than those upon which his witticisms are appreciated. — Johns Hopkins News Letter.

A note of gloom came over the campus last Friday when news came of the death of Dr. W. Lewis Jeffries, former student and assistant professor of chemistry in the University. Dr. Jeffries held the position of research chemist for the Du Pont Company and was sent to Mountain Mills, Vermont, to install a new bleaching system, where he was overcome by inhaling chlorine gas fumes from a bursted vat. Two workmen were also killed in the attempt to carry him from the room. Four employees were overcome in an attempt to reach the three but were rescued.

Dr. Jeffries got his A. B. from the University in 1910, and two years later took a master's degree in physics, chemistry, and mineralogy. In 1913 he received his Ph. D. degree and was made assistant professor of chemistry. He taught two years and was offered the position of research chemist for the Du Pont Company. Dr. Jeffries was 26 years old and was making good in his profession. He was a member of the Alpha Chi Sigma chemical fraternity. The news of his death will be a blow to all those who knew him when he was here.

TRADE-MATES REBUFFED

On Chestnut Street in Boston there is a church in process of building. It has a Gothic doorway, and above it a figure of Christ, seated, full of hospitable benevolence. But just below the figure, on the temporary wooden door, one reads:

No carpenters wanted!—Ex.

PROBLEM FOR 1ST MATH BULLS—There are twelve showers in the gym. Two of these have hot water. The gym is open for baths three hours each day. It takes one man approximately ten minutes to perform his ablutions. There are 1250 men in the University. If each man wants to bathe three times a week, how many will take hot baths, how many must take cold baths, and how many no baths at all, the showers being operated every now and then?

"I understand that Jack is one of our legal lights."

"He was, but he hid his light under a bottle."—California Pelican.

If Henry Ford is sincere in wanting to do the greatest good to the greatest number he will put another spring under the back seat.—Boston Transcript.

"Have you been in the subway car that goes under the Hudson River?"

"No, I am afraid of getting drowned."

"Drowned? How so?"

"Oh, some absent-minded person might leave the window open."

"No, I didn't come up to business yesterday" said the stout man in the corner of the carriage. "The last of my daughters was getting married, so I had to give her away."

"Really? Who was the happy man?" inquired a polite fellow-passenger.

"I was," said the parent, emphatically.—Tit-Bits.

Comfortable!

The milder tobaccos in their Turkish blend are in such perfect balance with the richer, fuller-flavored leaves as to entirely offset all of that "oily heaviness" which makes so many other cigarettes *uncomfortable.*

CONCERNING VAMPIRES

There are all sorts of vampires, vixenish ones who enthrall with their liquid smiles; kittenish ones who charm with their devilish cunning and then, the tigerish ones with their passionate eyes and heaving chests, who cling and kiss, and then claw and snarl. Home-breakers. Seducers. Heartless coquettes.

There's Louise Glaum of the Peacocks, and Kitty Gordon with her 50,000 dollar back, and Theda Bara—the magical queen of all vamps—the sinuous, sinning, serpentine, satanic, siren.

At last Theda has been beaten at her own game. Who did it? Cleopatra? Lucrecia Borgia? Sappho? Salome?

No, Theda has it on all these girls. She lays over them like a tent over a circus. A sister French woman has gone her one better in her own art. You are astounded! I don't blame you, but so is Theda. You have not seen the Hell Cat of the Films lately. No. She has gone to Paris to get on to the methods of her rival.

And the result is Theda has returned to America bringing with her Madame Celeste Lucre Zu Zu, Sultana of Seducers, who will make one histrionic appearance only while in America and this one, thru the kindness of our friend, Will Fox, at the Gerrard Theatre on Cameron Avenue, April 12, 1917.

REPUTATION OF VARSITY NINE IS OVERSHADOWED

Coach Bun hearn and his gloved and spiked warriors of the diamond had best beware! A new league is springing up in our midst. The scene of its birth and evolution is the open quadrangle between Fraternity Row, the Library and the Smith Dormitory. It is true that second base is a tree, third base a stick and home plate a stone. But it is the home of a great league, notwithstanding.

Every afternoon to this hallowed spot repair a multitude of veteran ball players of this Unknown League.

Wednesday a spirted engagement was in progress. H. Stevens was playing a magnificent first base, Tanner was hitting and stealing bases like a second Ty Cobb, Fitzsimmons and Hernie Schenk were pitching Mathewsonian ball, only Schenk was not exactly up to his standard, being pounded rather severely and Cobb (Harry not Ty) was beating out two-baggers to first.

It was a great game. Again we warn Coach Hearn's minions of the diamond to sharpen their spike lest they be challenged to a championship series.

"Here's a fellow patents a contrivance to keep girls from falling out of hammocks."

"More machinery for displacing men." — Louisville Courier-Journal.

Among the Stacks

Probably the most interesting writer of today, if we exclude Oscar Wilde and Robert W. Chambers, is Sir Rabindranath Tagore.

To get a fair idea of what he is like, imagine a few lines of Shelley with some meaning; or Omar Khayam intensified and in the most sonorous language.

His two most recent books, *Stray Birds* and *Fruit Gathering,* are now in the library.

In *Stray Birds,* Tagore has gotten together a large number of striking observations and set them down in note book style, i. e., the style of the note books of imaginative poets. For instance he says: "The sparrow is sorry for the peacock at the burden of its tail."

"The woodcutter's axe begged for its handle from the tree.

The tree gave it."

He shows truths in the world of nature with the utmost *naivete.*

Again he chides the world's shallowness with delicacy but precision in:

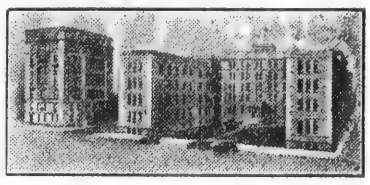
"The noise of the moment scoffs at the music of the eternal."

We say, "Gosh, but I'm sleepy"; he says, "My day is done, and I am like a boat drawn on the beach, listening to the dance-music of the tide in the evening." His soulful similes rival even the contemporary Irish dramatists.

The *Fruit Gatherer* is similar but somewhat more expanded. Its tone is somewhat more optimistic in general, but a strange meditativeness is also present here.

Tagore's *The Gardener,* which he submitted in 1913 for the Nobel Prize, is also in the library. *The Gardener* is a more studied work. It contains thoughts expressed again and again in a variety of lights and with a wealth of elaboration. Each poem is a symphony or perhaps a Wagnerian overture. The *motif* recurs again and again until it strikes us, blinds us, dazzles us; and all the while we are marveling at the effect he gets with a bold word, as we wonder at Wagnerian trumpets, and kettle drums, or a delicate violin-like phrase, or a flute-like line.

Sir Tagore is not merely a poet. He writes plays, novels, essays, sermons, and magazines articles, e. g., current issue of the *Atlantic,* "Nationalism in the West."



SPRING DANCES REGULATED

A committee of three members of the faculty, Dr. Dey, Professor Winston and Professor James met last week with the leader of the Spring dances for the purpose of assisting in regulating certain conditions that are prevalent at the dances.

With the cooperation of the leaders the committee decided to do away with the "stag evil," by employing a man for this special purpose, and to eliminate the smoking on the dancing floor. The matter of wearing dress clothes, and the old problem of the spectators were also definitely settled to the satisfaction of all.

A SERIES OF LESSONS TO BE GIVEN IN TAXIDERMY

Each Spring Professor Henry Van Peters Wilson gives a brief course in taxidermy. For years this has been a successful means of instructing many, who were interested in Natural History in the rudiments of preparing the skins of various fowls and mammals.

The lecture laboratory course will be given in the laboratory in the north end of the first floor of Davie Hall at two o'clock on Saturday afternoon, March 17, 24, 31.

The first afternoon will be devoted to birds; the second and third to mammals. Specimens will be furnished by the zoology department free.

CAROLINA 4 BINGHAM MEBANE 3

(Continued from Page One)

Herty's hot drive cleanly and, with one on Barnes lifted one of Cavanis's hooks over the left field fence, and put the game on ice.

Bingham nearly tied the score when in the ninth frame the visitors bunched four hits for a total of three runs. Teague led off with a hit to center, and took second on a fielder's choice. Person knocked one through the box, scoring Teague. High singled to right, and Person tallied. Long fanned. Schell got a pretty hit to center, scoring High. Creech was out, Feimster to Folger.

Score:

Carolina

CLASSES WORKING FOR ATHLETIC TROPHY CUP

(Continued from Page One)

to come. The track meet will be held about the first of May. A definite announcement of the exact date will be reported later.

In addition to the track and baseball contests, the tug-of-war is to take place during the dances, so that the ladies may have the rare pleasure of seeing 50 men dragged through a ten-foot mud-hole. This promises to be one of the most spectacular events of all, and everyone who has ever pumped water at the old well has a claim to make a place on the team. And then if any class fails to win any of these events there will be that swimming relay race later in the season.

"Don't forget about that cup," says Campbell. "But see to it that your class will be the first to have its name engraved upon it."

CITY BANK FELLOWSHIP AWARDED CAROLINA MEN

graduates who are already in the service of the bank.

A period of training in the Bank involves an actual working time of twelve months. During this time, the Bank pays the holders of the fellowships fifty dollars a month, and allows them their transportation expenses.

WINSTON-SALEM WINS STATE CHAMPIONSHIP

(Continued from Page One)

Carmichael's inability to get about with his customary pep threw the eastern team off their balance, and Winston had no trouble in pentrating their opponents defense for repeated goals. White secured two sensational goals in this period, both of them being shot from a run and close to the middle of the floor.

Whaling, Hancock, and Crute starred for Winston; Teer and White for Durham.

Line-up and summary:

Durham	*Position*	*W. H. S.*
Carmichael	L. F.	Hancock
Holloway	R. F.	Whaling
Knight	C.	Liipfert
White	R. G.	Crute
Teer	L. G.	Farrington

Goals shot: Whaling (6), Hancock (6), Crute (6), Carmichael, Holloway, Knight, White (2). Teer.

Fouls called: Personal (6). Technical (7).

Fouls shot: White (8) in (9). Whaling (1) in (4).

Officials: McDuffie and Tennent.

Time: 20-minute halves.

OVER FOUR HUNDRED CAROLINA MEN REPORT FOR MILITARY TRAINING

SOPHOMORES GATHER AT BANQUETBOARD

CLASS OF '20 CELEBRATES FIRST ROYAL BANQUET OF ITS HISTORY

BOOLOO CLUB IS REORGANIZED

Hamilton and Patterson, Chief Speakers of the Evening, While C. H. Hazelhurst and Wimberley Respond for Class

In spite of a bad night, such as only the climate about Chapel Hill is famous for, some ninety peppery Sophomores gathered around the festive hollow square in Swain Hall and had the time of their lives celebrating the final ceremony that made them a real class. The hardworking committee had been working for weeks getting men to buy tickets for the feast. One earnest committeeman remarked that he had used his final chunk of argument two minutes before the banquet began.

It was a brilliant scene that greeted the eyes of the hungry ninety as the doors opened and Fitz and Williams busied themselves separating tickets from the bearers. The White and Blue carpeted the space within the square with "U. N. C. 1919" written in ferns, while around the edges the band of maroon formed with the tablecloth the colors of the class. A maraschino cherry peered inquiringly out of each grapefruit at the men arranging themselves about the table, while stuffed olives, almonds, and celery a la ice broke the monotony of the board and the hearts of the hungry. President Fitzsimmons had his chair of state at the end opposite the door, and as soon as the first course had gone its destined way, he rose and with winged words made Professor Hamilton the center of activity.

"Be thoughtful throughout your college course," said Dr. Hamilton. "Don't wait until you get out in life before you start thinking about the problems that will confront you in the world of business. What the world needs today is men who have given the cares of a citizen and of a man of activity thoughtful consideration. Don't wait until you graduate before starting to think out what your duties are. Don't let the four walls of the classroom be the boundaries of your mind, and don't fall into the rut of doing

ALUMNI OFFER SERVICES ON UNIVERSITY'S APPEAL

ARE WILLING TO ENTER EVERY LINE OF TRAINING UPON QUICK NOTICE

"Although not an alumnus of the University of North Carolina, I am a North Carolinian to the core, and have lived in this State practically all of my life. I am sixty-eight years of age. I have been in perfect health all of my life, and have vigor and robustness of a much younger man. I am equal to first-class hospital work, and am at my country's call for any work my country should be willing to assign me. Efficiency should be measured by capacity to serve, and not by age alone. If I cannot be indexed as an alumnus of the University of North Carolina kindly state the officials to whom I can offer myself. I would prefer to serve as a North Carolinian."

This is the reply of one of the most prominent physicians in the State, and gives an interesting illustration of the state of mind that the inquiry sent out by the University of North Carolina to its alumni as to their qualifications for service in time of need, revealed.

The astonishingly quick and sympathetic response to the appeal of the University to its alumni to offer their services to the government, and register their qualifications for service, indicates that practical patriotism is at a high temperature in North Carolina. The registration blanks sent out by the University Intelligence Bureau yesterday have come pouring back today from all over the State, with offers of clerical

(Continued on Page Six)

F. C. Shepard Elected Captain of Basketball

At a meeting of the basketball team Wednesday afternoon, F. C. Shepard '19 was elected captain of the varsity basketball team for 1917-18 season. Shepard played a star game at forward during the past season and was a sure scorer. In the nine games scheduled he scored 47 field goals,—an average of over five a game.

Under the excellent coaching of Peacock, the team, piloted by "Shep" next year, will probably be the best in the history of the sport at Carolina.

The meeting of the managers of the class baseball teams resulted in the regulation of the class field for practice of the various teams. The following plan was adopted:

Monday, Wednesday and Friday:

Seniors 2:30.

Sophs 4:00.

Tuesday, Thursday, and Saturday:

Juniors 2:30, except Thursday.

Freshmen 4:00, except Thursday.

WILL ERECT MEMORIAL TO MRS. E. K. GRAHAM

FRIENDS HERE START MOVEMENT WITH THIS OBJECT IN VIEW

A movement has been started by her many friends to erect in Chapel Hill a suitable memorial to Mrs. E. K. Graham. The committee organized for carrying out the plan has decided that a public drinking fountain will most adequately express the public spirit which Mrs. Graham so abundantly manifested in her untiring work for the beautification and improvement of rural communities.

The fountain is to be designed by one of the best artists in the United States, and the esimated cost is $3,000. Correspondence with the designers is already under way, and the fountain will be placed as soon as the money is subscribed. The location is to be selected by John Nolen, the famous specialist in city-planning. So designed and so located, it will take its place as one of the most beautiful works of art in the state and will be a happy addition to the attractiveness of Chapel Hill.

Opportunity to take part in this memorial is to be extended to all Mrs. Graham's many friends everywhere. The chairman of the committee having the matter in charge is Mrs. Joseph Hyde Pratt, of Chapel Hill, and the head of the Susan Graham Memorial Fund is Prof. A. S. Wheeler, of Chapel Hill.

First Year Baseball Men Show Good Form

Although there have been but two practice games so far, the freshman baseball squad is already showing fine form. Coach Daniel is a little pushed for time, since he only has until Saturday the 24th to get his team into shape for their first game, with the Greensboro High School nine. Up to date, the regular line-up has not been definitely decided upon. Saturday's line-up will probably be more or less an experiment, owing to the fact that all the good men haven't yet had an opportunity to demonstrate their ability.

At present, the squad numbers about thirty-five men. As matters stand now Arrowsmith, Adams, Nealy, Joyner, and Banks are all showing up well as pitchers; while Salmon, Spaugh, and Tayloe are crowding each other closely for the position behind the plate. In all probability, Spruill will hold down the first sack. Cordon and Henry are pulling hard at second base, with Leighton and Ranson fighting next door for the shortstop's job. The occupation of the third sack seems to rest between Odom and W. Daniels. The positions in the outfield are the most doubtful of all; but Lewis, Moore, Harden, Little, Donnell, and Page are all doing creditable work, and bid fair to make this a hard question to decide.

The schedule for the Freshman team is as follows:

(Continued on Page Six)

CROWD INTO OLD COMMONS HALL TO LEARN RUDIMENTS OF MILITARY TACTICS

Bullet, Campbell, Folger, Bradshaw Plattsburg Veterans in Charge

State College Press to Meet in Convention Here

Representative of College Newspaper and Magazine Staff Will Meet at Chapel Hill in April

Another newspaper convention! Once more this year Chapel Hill will have the opportunity of beholding those mysterious and supposedly omniscient creatures known as editors. Thirty-five of them, too, count 'em, thirty-five, with their tortoise-shell spectacles and paper-stuffed pockets!

This time, however, there will be fewer cigars than there were at the State Convention. It will convene here some time in the third week of April.

The idea of organizing such an Assiciation was conceived by a member of the staff of the *Davidsonian,* Davidson's College paper. That was last spring. Since then Mr. T. J. Mitchell, Alumni Editor of the *Davidsonian* has done most of the work of organizing the association. The convention here at Chapel Hill will be its first meeting.

The *Davidsonian* says:

"The organization has for its object the extension of the good feeling which exists between the colleges, the drawing of the newspaper and magazine staffs of the various institutions closer together for mutual benefit in discussing and settling questions which so often arise in connection with these publications, the sharing of plans and suggestions which have been

(Continued on Page Five)

Presbyterian Church Receives $30,000 Gift

Mr. James Sprunt of Wilmington has given the Presbyterian church in Chapel Hill $30,000 to be used in building a new and enlarged church. Mr. Sprunt is one of the best known business men in the State and one of the most generous in all good works. He is a trustee of the University and has shown his deep interest in its welfare by helpful aid in its time of need. Among other things the series of Sprunt Historical Monographs was established through his generosity.

He has made this gift of an adequate church because of his belief in the farreaching influence of the University and his desire to make this influence the highest and the best. It is given too as a loving memorial to his wife who had also felt a helpful living interest in the University as was shown by her own gifts out of her private means.

The officers of the church are taking immediate steps toward the fulfillment of these plans which all have so much at heart.

ELECTRIC LIGHTS MAY BE PLACED ON CLASS FIELD

SO THAT COMPANIES MAY DRILL OLD COMMONS HALL OVERCROWDED

More than four hundred University students assembled in the old Commons Hall at the first meeting Wednesday night to begin active military training under the new voluntary training scheme which was launched at the mass meeting Tuesday night. Since then new names have been continually coming in, and at the second drill on Thursday night more than five hundred men lined up in ranks on the floor of Commons. Ever since the mass meeting Tuesday night, at which Coach Campbell suggested the new plan, there has been the greatest amount of enthusiasm manifested, and it is expected that even a much larger number will eventually desire to prepare for some kind of military service. Many members of the faculty are also interested in the movement, and are already drilling or assisting as officers.

This action of the students came as a result of a long agitation on the part of faculty and students for military training in the University. While it has already been agreed by the University authorities to institute military training regularly next year as a part of the curriculum and to form a Reserve Officers' Corps here, there was a general desire to have some form of military training before that time. Under the new scheme no one is obligated to enter or to continue the training and by taking it no one makes himself liable for military service; it is purely voluntary, and carries no obligation whatever. The Government has made the proposal to furnish rifles and a drill sergeant provided as many as 100 men agree to take the training. A telegram has already been sent to the Government asking for the necessary number of rifles, and it is expected that a regular army officer will be supplied as soon as possible. At present the training is in the hands of students and faculty members who have had military experience at Plattsburg or in military schools. There are many trained men in the University, and these men have already been selected as sergeants and corporals according to the extent of their military experience. Coach T. J. Campbell and Dr. J. B. Bullitt, both Plattsburg men, have general charge of the organization.

At the meeting Thursday night, the batallion was divided into four companies, A. B. C. and D. and these companies were subdivided

I know a man who got a liberal education while waiting for his wife to put on her hat.—Elbert Hubbard.

Studies serve for Delight, for Ornament, for Ability. Their chief use for Delight is in Privateness and Retiring; For Ornament, is in Discourse; and for Ability is in the Judgment and Disposition of Business.—Bacon.

This purifying of wit, this enriching of memory, this enabling of judgment, this enlarging of concept, which we commonly call learning.—Sir Philip Sidney.

The world is the thought of God made objective. When we study and analyze the world we trace the unfolding of this thought.—Everett.

THE SINE QUA NON

Miracles will happen in the best-regulated universes. So this unheard of came to pass: a college student once wondered, "What is an education?"

Of course he knew, as all good college students know, that it come from the Latin e plus *ducere*, meaning to lead out, which was quite plain to him, only he didn't exactly understand who was doing the leading, who was being led, how he was being led, and where out was. He looked up "education" in Webster's Dictionary. "It means," said Webster's, "to inform and enlighten the understanding of." This, however, "informed and enlightened the understanding of" him very little.

But our hero was as persevering as Archie the Architect of the Alger books. He asked one of his professors what an education was. "I must hurry," the professor answered, "as I have to lecture this hour and I fear my class will leave me."

Nothing dauted, our Inquisitive Student sought one of those "most potent, grave and reverend seniors that roam the campus. "An education," said the senior in reply, "an education is—is—why, an education is what we come to college for."

Judging from what the others could tell him our hero was about to conclude that education was nothing. Yet, he argued, it must be something; here are hundred of men spending good years and dollars looking for it; somebody on the campus must have found it. He decided to find out for himself what that mysterious something was. Adopting the Baconian method of experimentation and observation, he studied the representative college men. Naturally he came in contact with the three types of the college man—the athlete, the fraternity man, and the Phi Beta Kappa man. He asked them questions about what they had studied in their courses,—and received no answer; he urged them to express an intelligent opinion on the war and the duty of the United States,—and he urged in vain; he watched the bungling way in which they met the situations and failed to solve the problems of every day life. He finally was forced to conclude that the athlete's head was almost as empty as his football; that the fraternity man's head was crammed,—but with social sawdust only, and that the Phi Beta Kappa man, having lost his note-book, knew nothing at all. What! was the popular belief then false? An education is not 'varsity sweater, a frat pin or a Phi Beta Kappa key? Only too true.

By the same process he discovered that an education is not an A. B. or an A. M. or a Ph. D.

But the discovery that astonished him most was that the minds of the college students were either dead or dormant. These men were fairly broad-minded. And they remembered a lot of facts about Physics and History. But they never thought of connecting them with life. They knew and cared little about national affairs; they didn't even solve their own daily problems intelligently. Their minds were dead to the world.

One day he suddenly discovered what an education is.

He met an educated man. It was on the train. The man was sufficiently insignificant-looking to have been a vice-president. He did not even have piercing black eyes. But he had a live brain.

Our hero suspected him of being either a genius or a drummer when the stranger elucidated to him the Eleusinian mysteries of the railroad time-table. He realized that he had met an extraordinary man. He asked him the hardest questions about the war and America's duty,—questions that he had blinded the professors with,—but the TimeTable Solomon answered them like a Sunday edition of the New York times. Our Student determined to blind him if he had to ride the train to the end of the line. He next quizzed the man on the English Renaissance. He was delighted to find out that he couldn't tell Lord Burghley from Sir Philip Sidney if he were to meet them both in the smoking car. "Anybody that knows nothing about the Renaissance must be a fool," said our hero overjoyed. But the man didn't seem to realize what a fool he was. He kept on shamelessly asking questions about the Renaissance until he knew as much about it as our hero could tell him. And he seemed so interested in it that our student lent him his parallel-reading book that he had brought along. When the gentleman brought the book back a few days later he tried to blind him again. But he got caught. The stranger had learned more about the Renaissance in three days than our hero had memorized in a year. He not only knew the history but he comprehended the spirit of the Elizabethan times; he compared it with that of the present and suggested Elizabethan method and viewpoints that we might adopt with profit at present.

"If he isn't an educated man now," thought the student, there isn't but one thing that can keep him from being so shortly,—and that is an early death."

And so it dawned upon our hero's foggy consciousness, the old, old commonplace that all know and few realize,—that the principal ingredient, the living soul, the *sine qua non* of an education is not an A. B., or even the whole alphabet but a live mind.

Mr. Henry Ford

will employ ex-convicts but will not employ men who smoke cigarettes.

CAROLINA WILL PLAY HER PART

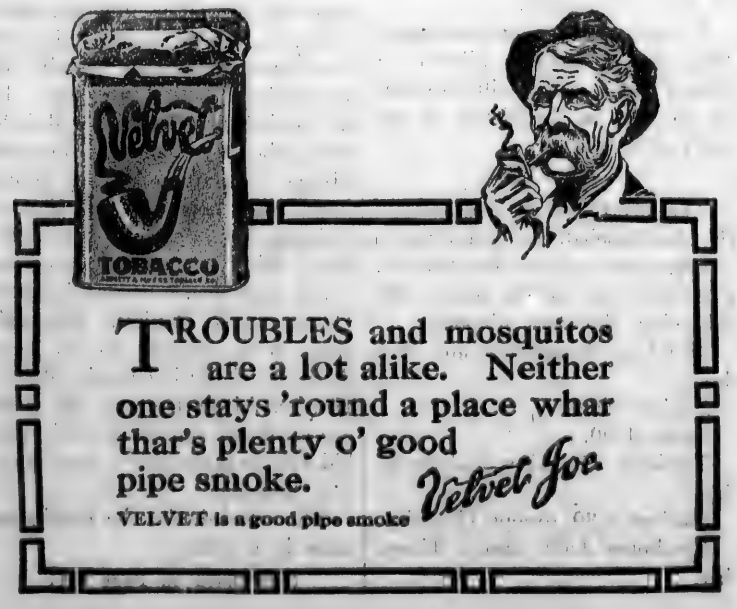
"The University of North Carolina has never failed its country in time of need," says the Charlotte Observer. "It would be farther away from such failure at this time than ever. There is not going to be any such call upon its patriotism and its resources as was the case when the Civil War alarm was sounded,—when professors and students abandoned college for the field and the University was closed,—but whatever part the University may be called upon to play, it will play it well and cheerfully and, we might add, thoroughly."

And of course the part that the University plays, amounts, in the final reckoning, to the part you and I play.

That Carolina men,—both alumni and students,—are eager to serve the nation well and thoroughly has recently been clearly shown. And it will be more clearly shown as time passes. Already a multitude of alumni, proffering their services have answered the cards sent out by Dr. Bullet, acting as an official of the Inter-collegiate Intelligence Bureau. Already between four and five hundred students, have voluntarily begun drilling.

The one danger is that, as the novelty of the thing wears off, many of the students will lose interest and quit. However, the enthusiasm of the men, the efficient management of Mr. Campbell and the probable coming of a U. S. Army Officer to take charge of the training, all tend to render that danger negligible.

Every man here at Carolina should realize that in taking this military training he is not playing a little game to be enjoyed today and neglected and forgotten tomorrow, but that he is doing a work which is an honor to the University and a worthy service to the state and nation.



Many Classes Planning Reunion This Year

The classes which will hold reunions at commencement are: 1857, 1867, 1887, 1892, 1897, 1902, 1907, 1912 and 1916. From these classes committees have been appointed which are at work on plans for making these reunions the biggest and most successful in the University's history.

Within recent years various classes have set high standards in the matter of class reunions. The class of 1902 which perhaps holds the record of all University classes in the percentage of its members who are lawyers, has had two very successful reunions and, through a class bulletin issued regularly by R. A. Merritt, Secretary, has kept its members in touch with one another since graduation fifteen years ago. The class of 1909 at its five-year reunion in 1914 came back with spirit and took possession of the campus for several days and of the athletic field for the presentation of "stunts" on the afternoon of Alumni Day. The class of 1905 coming back in numbers to its ten-year reunion in 1915 brought to Alma Mater a gift of $1,000 which made up the first gift to the Alumni Loyalty Fund, and was, in fact, the inspiration for the starting of this fund. The class of 1911 in the preparation for its five-year reunion held last commencement and in carrying through to a splendid conclusion a well-laid plan furnished the most striking instance in reunion history at Carolina. This class made provision early for securing a large attendance and for having a joyous time together on the "Hill." The result was a largely attended, altogether successful reunion which proved to be the chief feature of the Alumni Day celebration.

For the reunions of this commencement nine of the University's most loyal classes are at hand.

MANY VALUABLE RECORDS AND DOCUMENTS FOUND

BROUGHT TO LIGHT BY KEEPER OF ARCHIVES IN DI SOCIETY

Mr. R. E. Price, Keeper of the Archives of the Di Society in cleaning and improving the archives recently found some valuable records, documents, etc. He found the society seal which is "Love of science and virtue."

He found a receipt which reads, "April 6, 1817. Received of James K. Polk, one dollar and fifty cents, in full for fines. James Winpree, Treasurer." Several letters and receipts date from 1795, the year the society was founded. Among the many interesting thing he found the following: Some old government maps and charts of the Cape Fear section of North Carolina, about 30 or 40 old society diplomas written in Latin, part of the New Testament in Chinese, several algebras and arithmetics from 50 to 100 years old, many old and interesting novels, a set of the first edition of the Encyclopaedia Britannica in very handsome binding a set of Rees's Encyclopaedia, besides many other encyclopaedias and books. He found a list of all the members of the society from 1795 to 1890, with a list of the Confederate dead of both societies, and the office each held in the army during the Civil War.

He found that the old Elk's chair in front of the President's stand, was given to the society in 1888 and cost $250; that many of the portraits in the hall cost $250, among those being the ones of William R. Davie and James K. Polk.

Mr. Price, also found that the Keeper of the Archives was once one of the most important offices in the society and has been miserably neglected in recent years.

One way to increase the interest in the society is to increase the knowledge of the history of the society among the members.

Minstrel Show Men Rehearsing Regularly

That the University will actually have that "much talked of" minstrel show is now a certainty. The plan is no longer a dark myth, but a reality. Two try-outs have been held, and regular rehearsals have begun. Among the thirty who attended the first try-out were soloests, comedians, jugglers and musicians from which field the desired tallent is assured for a good old fashion minstrel.

Many of the songs have been selected, and are being practiced daily. There will be eight songs which will be accompanied by orchestra and chorus. J. Earl Harris will have charge of training the orchestra and chorus.

The program as it stands, begins with a minstrel "first part", in which the soloes will be sung and the jokes between the end-men and interlocuter will take place. Following this will come the "oliole," or a number of vaudeville numbers consisting of string band selections, juggling, tumbling, and dancing. After this comes the "after-piece" which is a short "slap-stick" sketch which lasts for about fifteen minutes. This sketch has already been selected and is extremely humorous. The performance is concluded by what is known as "the grand finally in which every one joins.

J. Y. Jordon, who has had professional experience along these

(Continued on Page Four)

STUDENTS TO CONTRIBUTE TO ALUMNI LOYALTY FUND

OVER A THOUSAND ALUMNI HAVE GIVEN TO THE FUND

Showing the same spirit of liberality and tangible appreciation of the University's servces that the legslature recently manifested in its educational appropriations, the student body has given an eager response to the invitation of the Greater Council to have every student contribute to the Alumni Loyalty Fund. The idea of the Council in extending this opportunity to the students is not only to stimulate alumni by their example but to allow every student to give a concrete evidence of his desire to have a direct share in the increasing usefulness and greatness of the University.

The Alumni Loyalty Fund originated with the class of 1905 which presented it with $1,000. Today the fund has almost reached the $5,000 mark. There are over 6,000 alumni of the University living today, of which over one thousand have already made contributions. The Trustees of the fund intend to make a strenuous effort to give every one of these sons of the University a part in the creation of the fund.

In 1920 the University will celebrate her 125th birthday. It is proposed to have raised by this time a quarter of a million dollars through the fund. With the interest and cooperation of 6,000 alumni this would not appear impossible.

A similar plan is in operation at Brown, Cornell and Vanderbilt Universities, where the annual contributions range from $5,000 to $50,000.

She—"Poor chap! I understand he was clubbed to death."

He "Yes. He was an active member of four, I think."

SOPHOMORES GATHER AT BANQUET BOARD

(Continued from Page One)

only what you are required to do here in college. Think beyond your job."

Applause and a fre use of favors, which were cowbells, rattles, and other noise making devices appraised Dr. Hamilton's exhortation, an dincidentally the approach of the next course, which the menu called Chicken Patties a la Newburg, and which was consumed with great relish. The toastmaster introduced C. M. Hazelhurst as the next speaker, who spoke on the evolution of the class and the great things the future held in store for the class of 1919, winding up his talk with a sonnet.

The next course, the piece de resistance of the evening, flanked by English Peas and Asparagus, appeared upon the table when the applause had mingled with the echoes, and silence reigned for a time, while the gastronomical delicacies were attended to, and the programs were passed from man to man for signature. When the dust of battle had somewhat cleared away, the toastmaster turned to the gentleman at the righthand corner of the table and introduced Professor Patterson, who proved that Physics was not his only long suit, for his talk on sportsmanship was interesting and enjoyed by all the men. Dr. Patterson cited many instances of courtesy to an opponent and showed that nothing was to be gained by a refusal to be a sport.

"The dictionary contains no definition of the word sportsmanship as we accept it to-day. I would define it as a gentleman's method of applying the golden rule," said he.

The golden rule was forgotten in the next few minutes in the attack on the fruit salad placed before the host now rushing toward victory. It was demolished, cut off root and branch, while the Sophs, who had dulled the edge of their gastronomical desires, loosened their coats and light conversation began to flow. Wimberly, who proved to be the next man called upon, read over a list of things he might have talked on, but didn't, and finally launched forth into a sea of what he called "bull." As Buck has shown himself to be an artist in that line of eloquence, his efforts were a decided success. It was gathered from a few careless phrases as he went along that he advised people to encourage other people in what they attempted. A few Sophs thought he was apologizing and indulged in a few unkind remarks.

After the ice cream, cakes and coffee had been dispensed with, cigars and cigarettes were lighted, and general debate authorized. Miles very feelingly recited "The Shooting of Dan Magrew," having been inveigled by Williams into so doing. All were modest when called on, and no one, to the relief of the class, had much to say. The BOOLOO report served to liven things up considerably, it being the concensus of opinion that the committee had done its work well if somewhat sparingly. "Villa" Currie made a short talk and recited some of Service's poetry, that gentleman being the poet of the night. Grimes said a few words about the rooting and called attention to the personal remarks sometimes indulged in by the grandstand.

Almost every man was called on for a talk, and since no one responded, the banquet came to an end, and everybody went quietly to bed, going around by way of Smith, South and Carr.

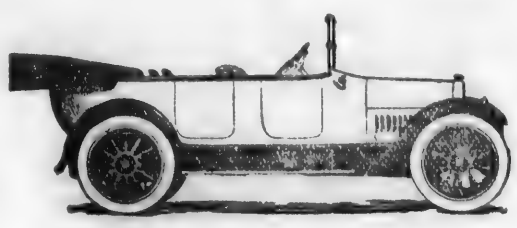
What Put the Pep in Uncle George?



"Well, George," languidly remarked a friend as he oozed into George's office on a day when the heat was horrible, "what makes you look so disgustingly chipper? From the way you are working anyone would think you had swallowed an electric fan or held a first mortgage on the Fountain of Youth."

"You were right the last time, old man," replied George, "only I have no mortgage on the fountain, I'm just one of the great army of consumers. The big fountain, is at New Bern, North Carolina. I just have a drinking acquaintance with it, though I have established sort of a branch fountain here in the office. It's a case of Pepsi-Cola that's put the pep in your Uncle George."

"Pepsi-Cola, why that's this pure fruit drink people are talking about. Where did you get the idea that it will give the knockout to this heat? I tell you the thermometer has broken the record for running high jump and I feel like a boiled dinner. What can Pepsi-Cola do but cool you off for a minute?"

"What does Pepsi-Cola do? I'll show you. We will tap a bottle right now. I keep it in the office and every time the heat tries to convict me I prove an alibi with Pepsi-Cola. It's making the wife and kids happy and healthy and it's helping me get the work done on schedule."

"George, I believe you are right, I feel more like a man already."

University Catalogue For 1916-1917 is Out

Contains 342 Pages and is Probably the Largest Yet Issued by the University

The University of North Carolina catalogue for 1916-1917, containing 342 pages, came from the press Monday, and is probably the largest yet issued by the University. Its arrangement, appearance and size are very much the same as last year, but new matter, representing the steady expansion of the University in its various activities, causes a slight enlargement. Several new courses have been added in many of the departments, and special new features of college work are discussed.

The outline of the new scheme for honors courses, which was first put into operation this year, appears, and in connection with the general plan the specific requirements for honors in literature are announced. In the College of Liberal Arts a new section, known as Comparative Literature, has been added to the course of instruction. It is not organized as a distinct department but is placed under the direction of a committee representing already existing departments. Two lecture courses are announced, to be given by the several professors of the language and literature division of the faculty.

In the School of Medicine the curriculum leading to the degree of Bachelor of Science and Doctor of Medicine has been extended by the addition of an extra year, thus requiring seven instead of six years for the attainment of the combined degrees.

The Bureau of Extension has included in its statement the annual road institute and the summer course in medicine, conducted in various parts of the state for the first time last summer.

Methodist to Build Sunday School Annex

The Building Committee of the Chapel Hill Methodist Church met Tuesday night, March 13 to consider ways and means for the construction of a Sunday School building. Such a building has come to be a necessity in view of the increasing number of University students who regularly attend the Sunday School. The Committee is composed of Dr. H. M. Wagstaff, Dean Stacy, Mr. Geo. L. Hackney, of Lexington, Mr. F. S. Lambert, of Thomasville, Rev. H. D. Wilson, of Louisburg, Dr. D. B. Zollicoffer, of Weldon, Dr. L. R. Wilson, Mr. Clyde Eubanks, Mr. R. L. Stroud, Prof. N. W. Walker, Dr. E. A. Abernethy, Dr. C. L. Raper, and Rev. Walter Patton.

The practical and helpful talks of Dr. C. L. Raper every Sunday morning have been well attended by students; the enrollment of students being around 250, with an average attendance of 120. The total enrollment of the Sunday School is 419.

The present Sunday School room is much too small to meet the needs, and it is hoped to provide adequate accomodations in the form of a new building, which will cost about $30,000.

"I had a dreadful fall last night."

"Tell me of it, Egbert."

"My wife was talking; I hung on every word, and then, and then —"

"Yes, yes, and then?"

"Her voice broke!"—Harvard Lampoon.

The Second Illustrated Lecture Given on Art

Mr. Bernard of Greek Department Gives Interpretative Lecture on Art

Last Thursday night an interpretative lecture on art was given by Mr. Bernard of the Greek Department in Gerrard hall. It was given as the second number in the series especially for Freshmen. Mr. Bernard made some apt generalizations that could be grasped by the audience. The main principles of art were laid down and working definitions of such abstract terms as beauty, feeling, art and the like.

Many of the best known pictures were thrown on the screen and orthodox opinions of them were expressed. Mr. Bernard did well in trying to get the fundamental meanings of the various types of pictures clearly before the freshmen. For instance, he says, "in general, landscapes are reproductions of scenes caught by the artist in a certain mood." By carefully explaining the difference between a painting and a photograph, he gave a clear understanding of at least a few fundamentals.

Several thoughtless (or ignorant) freshmen who had evidently never heard the little signal to the lantern operator, were tickled with the sound and apishly imitated it much to the confusion of the operator.

The lantern did not work to best advantage because the carbons were nearly burnt out and the lecturer was frequently compelled to wait for the disabled gleam.

An appreciative listener, however, could not but realize the value of the lecture.

MINSTREL SHOW MEN REHEARSING REGULARLY

(Continued from Page Three)

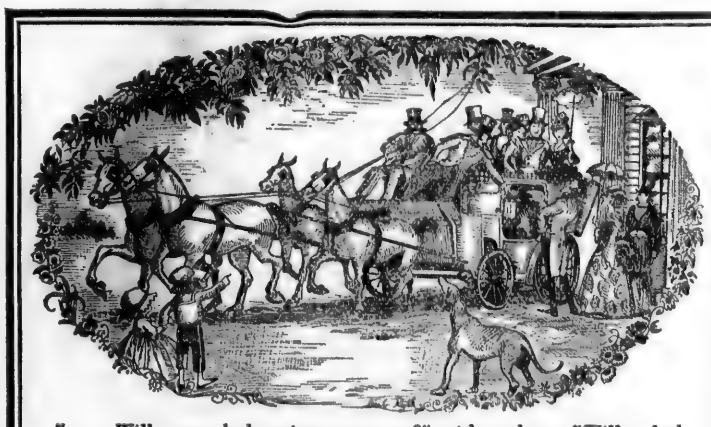
lines, will take charge of the entire program and will run the plan on a business basis. He is making arrangements for elaborate costumes and scenery. Mr. Woollen has promised that memorial Hall will be wired and that a large stage will be erected for the performers.

Mr. Woolen and Dr. Howell, the faculty members who have interested themselves with the plan, say that if the students of the University show that they are interested in it, they will use all their influence in putting it over and will give it all the necessary backing. It is therefore up to the students as to whether or not it is a success.

Dr. Fulton of Davidson Lectures Here in April

Dr. Maurice Garland Fulton, head of the English department of the Davidson College is to give a lecture here the first week in April. The lecture is to be on some phase of Southern Literature. North Carolinians will doubtless come in for a large part of the lecture and it will certainly be of interest to a large number of admirers of O. Henry, Fuller, McNeil, etc.

Dr. Fulton is a prominent man of letters. He has edited several books of Essays and Poems and has contributed some original books. His most recent book *Southern Life in Southern Literature*, printed by Ginn and Co., came out last week. The book has not yet been reviewed but is probably an able work if it comes up to Dr. Fulton's standard.



He has evidently made a very thorough study of his subject and can make a very instructive and interesting lecture. Students of American literature will be glad of an opportunity to hear an interpretative lecture; such as this is to be, on a subject that is inherently dear to them and which has been more or less slighted in the past.

MANY CLASSES PLANNING REUNIONS THIS YEAR

(Continued from Page Two)

These classes from 1857 to 1916 numbering more than 1100 men are expected to return in great numbers and to set a new record for succeeding classes. Each member of these classes is urged to plan now to be present at his reunion.

No matter who has the classes they are always "hours"—Ex.

". . . Will you tuck these into your coat?" said our host. "Will a duck swim?" chuckled Mr. Leaming as he eagerly took the Virginia cigarettes.

What has made "Richmond Straight Cuts" stand alone throughout two generations? Simply because there is an appealing aroma and quaint old-time delicacy in their "bright" Virginia tobacco which is not to be had in any other cigarette.

Eavesdropping and Interviews

"The other day, in the English room in the library," said an observing student, "I was sleepily turning pages and had just gotten to the remark uttered by the sage King James upon first looking into Bacon's Mouth Organ, namely, 'It is like the Peace of God—it passeth all understonding,' when I was suddenly awakened by the shivering of a pane of glass by an obtrusive little corrugated spheroid which had been amateurishly knocked at a different goal—I hope.

"I collected my senses, enough to cast my orbs and the ball out of the window! And lo! What did I behold? Suddenly, Aladdin like, the plot behind the library had been transformed into a golf course, and there they were, swinging their clubs and the grinning cad,—. . . Wait, I'm getting too far. They were swinging the club and there really wern't any caddies. But there was a hole. I saw them dig it. And there was a green—(how could it be otherwise after all this rain?)

"The course had no particularly great difficulties. It was a journey to the K. A. steps and down to the Beta yard and back to the South corner of the library. This is real golf. Each one is allowed three licks, and if he doesn't hit the ball the club is passed to the next man—as in dice games and baseball."

DR. W. D. TOY SPEAKER AT Y. M. C. A. MEETING

At the weekly Y. M. C. A. meeting Tuesday night, Dr. W. D. Toy, head of the German department, talked most interestingly on the life of Martin Luther. He told of the principle events in the life of this great man and the forces which led him on to his religious beliefs.

"Luther," he said, "was the spokesman of the German world of his time." He very interestingly told of the religious beliefs of Luther—how he believed that religion was a matter of the heart, and how, believing in his own thoughts, he began to preach his own doctrine—the doctrine of good deeds, by faith. Dr. Toy emphasized the fact that Luther did not wish to formulate the creed of a new church, but only meant to preach the meaning of the Bible, which he translated into the German. He lived, said Dr. Toy, within a radius of a hundred miles, with few exceptions, and it was here by his own beliefs that he preached a gospel that has placed him among the colossal figures of the worlds' history.

Upton: "Well, here comes a neighbor of mine ho has a new setter dog. Let's introduce them and leave them to their fate."—Life.

A man with a singe opinion is apt to spoil it by overcoddling just as he would an only child.

Among the Stacks

Two very unique books which the library has recently acquired are translations of two fascinating works of latin, namely, the *Treatises of Farm Management* by Cato and Varro and Vitruvius' *Architecture*.

The first was translated by Fairfax Harrison, a "Virginia Farmer" who, when in Europe several years ago, ran across a latin text of Cato and determined that he would give it to his fellow countrymen in English. The translation is as smoth and easy as the dancing of heroes in novels. T oCato's interesting and naively superstitious advice Mr. Harrison adds some of the famous old Virginia recipes, such as the curing of hams, etc.

Cato's agricultural advice is sound, though somewhat crude at times. But most interesting of all are his veterinary observations. I quote LXXI "If an ox begins to sicken, give him without delay a raw hen's egg and make him swallow it whole. The next day make him drink from a wooden bowl, a measure of wine in which has been scraped the head of an onion. Begin then to chant as follows:

Huat Hanat Huat
Ita Pista Sista
Dominabo Damnaustra.

Both the ox and his attendant should do these things fasting and standing up."

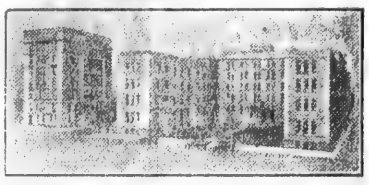
His recipes seem savoury enough and some of the salads described seem worthy of the most fastidious of Fifth Avenue Caterers.

Vitruvius has a large subject and treats it in a somewhat unscientific manner. He goes into great detail on various building material which is important to the archaeologist.

There are two interesting chapters on Greek Architecture wherein the author takes a somewhat different point of view from present day writers. He doesn't just give the orthodox criticisms as the present day writers invariably do.

He describes the buildings of his own time, i. e., the time of the Empire in all her lavish glory and luxurious sumtuousness. This first hand information is fasinating.

His style is somewhat pompous and abounds in aphorisms—which perhaps were not such at the time. What we consider platitudes were a little less stale nineteen centuries ago.



The translation by Mr. Morgan is attractively bound and has a large number of odd technical illustrations and many unusual pictures.

An evening with Vitruvius or Cato would reveal many modern ideas of the ancients to those who, being too lazy to investigate, prefer to say "Latin is a dead language!"

It is reported that Alan Zollicoffer, otherwise known as "that dawg first baseman" is eligible for baseball. He was captain of last year's team.

ELECTRIC LIGHTS MAY BE PLACED ON CLASS FIELD

(Continued from Page One)

into squads of eight me neach, according to height, and a corporal placed in charge of each squad. These men will drill two hours each week, Cos. A. and B. on Tuesday nights from 7:30 to 8:30 o'clock, and Cos. C and D on Monday and Wednesday nights from 7 to 8 o'clock. So far, the time has been taken up for most part in the tedious task of organization, which has been rather tiresome and uninteresting, but now the companies and sqauds are fully organized, and are ready to begin the regular drill work. This will prove more interesting, and there is no reason why the present number will not be maintained to a man.

The most serious problem which the management now has to face is that of procuring an adequate drilling ground. The numbers responding have exceeded all expectations, and it is evident that Commons Hall must be abandoned for a more spacious ground. Prof. Patterson has suggested that Memorial Hall, which is one of the largest auditoriums in the State, be cleared of seats and converted into a drilling place. But for some reason an outdoor ground is preferable, and the committee is considering the project of illuminating the class athletic for the night drilling.

Probably the greatest cause of this intense interest in military training is that such a large number of Carolina men expect to take advantage of the Plattsburg camp this summer, and wish to get some knowledge of military tactics before going into the camp. A large majority of those now taking training will be at Plattsburg during the vacation and already more than 200 applications have been filed out. It is possible that a special train will be secured to convey the Carolina crowd in a body to Plattsburg.

President Graham has stated in an interview this week that the University is ready to offer all the resources of its plant, and especially of its scientific departments, to the Government in case of such need. The University, he said, is preparing to establish this relation to the general problem of preparedness in three ways: first, by providing opportunity to its young men for adequate military training; second, by putting the resources of the University at the command of the Government; and third, by a mobilization of all its resources and the bringing together of specific information concerning students and alumni that would be useful in an emergency.

Adjutant for the University, Dr. J. B. Bullitt, has this week mailed out to 3,000 alumni, to the members of the faculty, to the student body, and to others, a letter concerning the work of the Intercollegiate Intelligence Bureau, which begins by saying that "Every North Carolina Man Will Do His Duty." Another sheet is enclosed to be filled out and returned to the University. Some of the information asked for, in addition to name, address, age, etc., includes special training, naval or military, and a listing of experiences in business, scientific and miscellaneous pursuits. Under this head is included clerical work, chemistry, foreign languages, medicine, telephone or telegraph, mechanics, etc. Information is also desired concerning horseback riding, swimming, travel, and other qualifications of value. The information so obtained will be kept on file for instant reference in emergency.

And the astonishing quick and sympathetic response in a few days time to this appeal of the University to its alumni to offer their services to the government, and register their qualifications for service, indicates that practical patriotism is at a high temperature in North Carolina, and refuses the general impression that this section of the country is not All this week these blanks have been pouring in from all over the State, with offers of professional service in dentistry, pharmacy, surgical work, manufacturing, clerical and scientific service, and every line of special or miscellaneous training.

TAR HEELS WIN TWO GAMES FROM VISITORS

TRIM W. VIRGINIA WESLEYAN 10 TO 5, AND HAVERFORD COLLEGE 12 TO 2

CAROLINA'S HITTING EFFECTIVE

Barnes, Bennett, Weeks Clear Fence for Homers, While Stuart and Herty Put Up Star Fielding Game

A big opening with the stick enabled Carolina to get half her total number of runs in the first frame of the game with the West Virginians here Thursday. Lantz was a easy victim from the beginning and gave the Tar Heel swat artists little trouble.

Carolina bunched hits again in the fourth and two runs crossed the plate. Wesleyan was unable to score until the fourth, when Daniel and Beck walked, and McClure, the visitors' hard hitting catcher, drove one into left field. Coach Hearn's boys found Wagner, who relieved Lantz in the seventh, for three more runs. Stuart got on first on an error, Herty sacrificed, and Barnes and Bennett each contributed a home run. Powell wavered again in the seventh and a walk and three hits gave the Methodists two more tallies.

The game was slow and ragged in places, but the hard hitting of the home product made the contest interesting, if somewhat one-sided.

Score:

Carolina

Representatives Chosen For Triangular Debate

Rymer and Edney Debate with Johns Hopkins at Charlottesville; Sharpe and Moseley Meet Virginia at Baltimore

W. C. Rymer, of Hendersonville, and C. R. Edney, of Mars Hill, affirmative, and H. D. Sharpe, of Stony Point, and R. F. Mosley, of Clinton, negative, were selected in the final preliminary Monday night to represent Carolina in the triangular debate with the University of Virginia and Johns Hopkins University. S. J. Ervin, of Morganton, and Oliver Rand, of Smithfield, were chosen as alternates. The affirmative team will go to Charlottesville, Va., where it will meet Hopkins. The negative team will debate Virginia at Baltimore. The date set for the final clash is April 1. The debate here will be between Virginia and Hopkins.

The query to be discussed this year is, Resolved, That, constitutionality granted, legislation requiring compulsory arbitration of all controversies arising between employers and employees of railways engaged in inter-state commerce, and making strikes and lock-outs on such railways illegal, should be enacted. The judges for the preliminary were Professors A. C. McIntosh, J. G. deR. Hamilton, L. P. McGehee, M. H. Stacy and W. W. Pierson. Other candidates who took part in the contest were A. M. Lindau, V. F. Williams, C. B. Hyatt and E. E. Duncan. The judges declared the try-out to be the most spirited contest held here in several years.

Dr. Henry Louis Smith Delivers Lecture Here

"A Man's Personality" was the theme of the lecture given in Gerrard Hall last Sunday night, by Dr. Henry Louis Smith, President of Washington and Lee University. Dr. Smith is a very strong speaker, and his audience was unusually large.

He enumerated as the four prime elements which constitute a man's personality, courage, energy, love, spirituality, or height, and love.

"You can't accomplish great things with a splitting headache," he said, by way of introduction. A man's body is his only machine, and if it gets out of order, his usefulness is impaired."

"Courage is the backbone of a man's personality," was Dr. Smith's first proposition. He exhorted his hearers to assert themselves, to recognize the things which seem hardest for them and then to deliberately do them until they become easy and habitual.

"Energy is the inner force which impels a man to work, not because he has to, but because he wants to. Energetic men may be compared to locomotives, industrious men to box cars. One leads, the other is led."

That which lifts one above the commonplace, which relieves the monotony of routine existence, is the faculty of getting away from the material, or as Dr. Smith expressed it, "height." It is the

(Continued on Page Six)

MILITARY TRAINING CLAIMS OVER FIVE HUNDRED MEN

TWO HUNDRED AND FIFTY RIFLES NOW ON WAY TO CHAPEL HILL

The two hundred and fifty rifles which were ordered from the Government last week to supply the University's training corps have been shipped, and are expected at any time. In the meantime the drilling will go on as usual until the rudiments of drilling are mastered.

As yet there has been no relaxation in the enthusiasm which characterized the organization of the unit last week. The attendance on drill has been almost perfect and not a man has withdrawn. More than five hundred men are drilling two nights a week regularly, and the members continue to increase. Nor is the drilling confined to the one-hour drill periods. Any time during the day or night the commands of officers and trample of feet can be heard from all parts of the campus, and the halls of the dormitories are being utilized as drilling grounds.

More room for drill was provided this week by illuminating the large athletic ground back of the South Building, and the square space between the Library and Fraternity Row is also being used by the squads.

The officers report that their men are intensely interested and are making exceptional progress. Within a short time the squads

(Continued on Page Five)

DISCUSSION GROUPS TO HEAR REV. C. L. KING

The Y. M. C. A. discussion group, next Tuesday night will be addressed by Rev. C. L. King, a student in Union Seminary at Richmond. Mr. King is considered probably the most effective speaker among the students of that institution. A large audience is expected.

Tug-of-War Takes Place Junior Week

The Tug-of-War is to be held on April 12, so that the visiting ladies may see their valiant champions in action. This will not be a full dress affair, and anyone wearing full-dress, or white trousers will not be allowed to participate. The ladies will think more of you if they see you in your working togs; or at least they will get a real line on you in your native element. Those on the losing team will be afforded an opportunity to show their swimming prowess. Everybody get together and let's make this a big event. Each class is to be represented by fifty men—the bigger the better. A fathomless mud-hole will separate the contestants. Who is going in?

It is rumored that "Cutie" Price and John Terry will occupy the first knots for the Juniors, while "Villa" Currie and "Bill" Grimes are anticipating the sophomore side of the affair.

An honest man cannot be bought.

Every man has his price.—Life.

Class of '18 Preparing to Enter New Dorms

Will Get Together in the Last Year of Their College Life and Get Acquainted

In a meeting of the junior class last Wednesday afternoon it was proposed that the rising senior class should get together next year and concentrate in the new dormitories. Such a plan, they believe, will certainly strengthen the class as a unit, and allow every man to come in close touch with his fellow classmates during his last year at college. The benefit that a man derives from his college career, through his association with other men, it was argued, is not to be despised. This scheme is calculated to further that branch of a man's education.

The class now has an option on all the rooms in the new dormitories. These may be registered for at the Y. M. C. A. on Wednesday, Thursday, and Friday of next week between 2 and 3 P. M. The rate for two men in a room will be one hundred dollars a year, or fifty dollars per man. For three men to a room the rate will be one hundred and fifteen dollars a year, or thirty-eight dollars apiece. Since these dormitories are to be connected to the new heating system next year it is probable that there will be no complaint about lack of heat and hot water. Furthermore the accommodations are far superior to those in the other dormitories.

"Come early and sign up for a good room during your senior year among a crowd of your own classmates" is the war cry of the rising seniors.

Speakers Selected For Commencement

The commencement speakers have been selected as follows: Dr. W. D. Moore, President of the Presbyterian Union Theological Seminary, Richmond, will preach the Bacculaureate sermon, and Secretary of War Baker will deliver the commencement address. In case of war, Secretary Baker states that he may not be able to fill his engagement. If he should not be able to be here some collegiate orator will probably take his place as our commencement is early enough not to interfere with that of other Universities.

THE LOST AND FOUND BUREAU

The following unclaimed articles are at the Y. M. C. A. Lost and Found Bureau:

2 one dollar bills, a Junior Ingersol, pair glasses in case, a gold ring with blue set in it and initials F. Y. W. inside, a medical pin with the letters K. K. on it, some knives, several hats and caps, and a few cuff buttons.

Call for these articles any day at 2:15.

The "paci" adds a happy touch;
But, all the same, we find it
Just doesn't seem to matter much
Without the "fist" behind it.

Strive not against the stream.
He who would reach the top first must climb the hill.—Ex.

FREDERICK PALMER HERE THURS. NIGHT

FAMOUS WAR CORRESPONDENT LECTURES IN GERRARD HALL

ILLUSTRATES WITH PICTURES

Showing the Place of Battles and the Various Methods of Fighting on the Western Front

Frederick Palmer, the famous war correspondent, who "has seen more modern warfare than any other American writer," according to Roosevelt, will lecture here on April 5.

It was only with much difficulty that Mr. Palmer was induced to come to Chapel Hill and so far he has filled no other engagements in the South. He will deliver a private lecture before the War College in Washington just before he comes here.

Mr. Palmer's work as a war correspondent is well known, and he is usually regarded as the greatest of all war correspondents at the present time. He has been on all the battle fronts of the war and was on the Western front in France from the beginning of the Somme offensive until November 1, 1916. He had the freedom of the field, as no other American correspondent has had, with the British and French official motion pictures. He will tell his experiences as an eye witness of the battles of the Somme and around Verdun. He will talk 45 minutes and then give a running comment with the moving pictures, explaining the conditions of contemporary warfare. The place of battles and methods of fighting will be made clear.

Mr. Palmer has written several books on the war, one of his best being "My Year of the Great War." He has been in every great war of recent years. Since his return from the front he has lectured only in large cities, but Prof. Archibald Henderson, of the lecture committee here, finally persuaded him to come to North Carolina.

High Schools Enter Tennis Tournament

That the interscholastic tennis tournament will be hotly contested this year, is shown by the fact that the following high schools have already entered teams for singles and doubles: Fremont, Normal, Raleigh, Greensboro, Oak Ridge, and Chapel Hill. The contest will take place on the Hill in connection with the debating union, April 19 and 20.

Dr. Archibald Henderson will speak at Charlotte, April 13, under the auspices of the Mecklenburg County Alumni Association.

Prof. J. H. Johnston will deliver the commencement address at the Merry Oaks School, April 18.

Everybody feels for the underdog.

When a man is down everybody jumps on him.—Life.

STOP, LOOK AND GET BUSY

The beginning of the end is at hand. Take warning,

Already more than half the spring term has slipped by.

We now have only seven weeks to go. Some sixty-two days have passed since the fall exams.; there are only fifty-two to come before the spring ones. You can feel them increasing their velocity now. Soon they will be exceeding the speed limit.

Do it now!

You remember what our old friend Omar said:

"The Bird of Time has but a little way
To flutter,—and the Bird is on the Wing!"

Wake up and catch him by the tail-feathers before he gets away!

THE LIVE MIND AND THE COLLEGE

The fundamental characteristic of a saint may be "an humble and a contrite heart," but the essential element in an educated man is a searching and a weighing mind. A live mind. A mind as sensitive to life as a photographer's plate is to light. Its watchwords are Voracity and Veracity. Its aim is "not nomenclature, but knowledge." Its province is nit man or books alone, but life. It steers its owner clear from the dilettantism of Hermione and the scholasticism of the schoolmen. It is never bored and "is not puffed up." It splits no hairs. It is critical and sympathetic; it dissects and constructs. It is as indefatigable as a Ford. It is as Bacon says, that wisdom outside of studies that teaches the use of them. It is a manufacturing plan selecting and grinding up the raw article, facts, and turning out the finished product, conclusions. In its highest form, it is that almost divine faculty possessed by a few great men who "saw life steadily and saw it whole." It is—

But what's the use to say what it is? The essential thing is, not to define it, but to have it.

But if a man hasn't it, where is he going to get it from? "From the college," says President Wilson. "The object of the college. . . . is to give intellectual training and impart the spirit of learning." That is, to give a man, or help him get, a live mind.

The question is: Does the college do it? How can it do it? Through its athletic and its social sides? Certainly, it can in a measure, but that is a roundabout method and one limited to a not large per cent of the student body. The college must do this principally by means of its purely intellectual side, its curriculum. It must "give intellectual training and impart a spirit of learning" mainly by means of its courses,—its First Math, its Thirty-third English, its Nineteenth History. Does it? If a student were asked how many courses he had had that made him think, not merely memorize; that were vitally related to life; that awoke in him a desire to know more about the subject than the professor assigned and a determination to continue the study of it after the examination had been passed,—if a student were asked this, how many courses could he name?

"When a man," said Mr. Bernard Shaw, "teaches something he does not know to somebody else who has no aptitude for it, and gives him a certificate of proficiency, the latter has completed the education of a 'gentleman.' And "the latter" are legion. They are those who have "gone through college" and, whether through their own stupidness or the stupidness of their teachers, have never had their minds sharpened, stimulated, vivified. They are those who have gotten an A. B.,—only that and nothing more! And what profiteth it a man if he gain the whole alphabet and lose his intellect?

A sane mind, a trained mind, a live mind,—it is the duty of the college to offer it, it is the abused and inestimable privilege of the college student to win it. He, above all men, has that leisure and environment favorable to the broadening and enriching, if not the sharpening, of the mind. So it is up to him, above all men, to acquire a live mind, that power which enables a man to live life more abundantly, to serve the state and the world, to master men and situations.

And yet. Man can not live by head alone.

A. I. E. E. Holds Meeting

The A. I. E. E. held a very interesting meeting Thurs. night at which Mr. W. R. Harding presented a paper on "High Tension Transmission." In addition to the students in Electrical Engineering, there were a number of men from the other engineering departments who enjoyed the illustrated lecture.

Mr. Harding began his lecture by tracing the history of high tension transmission, showing the early troubles and difficulties and pointing out the devices by which they were overcome. He showed how the voltage in high tension transmission lines has been gradually increased until at present many of the lines carry 150,000 volts.

He next took up a study of the different types of supports, towers, poles, etc., which are in use among the big power companies of the country, and explained the methods of insulation by which the high-voltage transmission is made possible.

In conclusion Mr. Harding called attention to the remarkable network of transmission lines in the South. Seven great systems have been developed, six of which are so interconnected that power from one system can be distributed to any of the others. By the aid of slides he showed how a generator at Blewitt Falls can drive a synchronous motor at Nashville, Tenn.

The paper was discussed briefly by Mr. T. W. Strange of the Senior E. E. Class.

"What Ho! The guard without!"

"Yes, sir. Quite so, sir. Without arms, ammunition, numbers or training."

Mr. Henry Ford

will employ ex-convicts but will not employ men who smoke cigarettes.

"GOING TO PLATTSBURG?" HEARD ON EVERY CORNER!

"Are you going to Plattsburg this summer?" That is a question that you hear everywhere you go, —on the campus, at the postoffice, on drill,—everywhere, and now we are beginnnig to ask the same question to the people out in the State. W. G. Burgess in his talk at the Student Forum, Thursday morning, urged the students to hand in names of friends from their sections of the State who would probably be interested in Plattsburg.

An effort is being made by the North Carolina unit of the Military Training Camps Association, of which Mr. Glenn, of Greensboro, is Secretary, to reach all men in the State who would be interested in military training and urge them to go to Plattsburg to one of the camps this summer. A college education is not necessary, and the physical requirements are not stringent. Letters will be sent to all the men whose names are handed in to Mr. Burgess. These men will not be placed under any obligation to the Government, and all expenses will be paid.

First comes the grape-fruit (with cognac
About a half-a-taste)
And then some peas and bread, alack!
Enough and some to waste.
And then the chicken a la king
And beaf-steak a la devil
And pommes de terres and everything
In which a man might revel.
A salad form of sparrow grass
The menu next does furnish,
And speakers then spiel forth their "gas"
While dunce caps heads do garnish!
Then almonds, olives, and ice cream
And many speeches *clevah*
Ensue, and make the banquet seem
To make us one *forevah!*

—J. E. H. and F. A. C.

Inter-Society Debaters Chosen by Di Society

The preliminary to select the sophomore debaters of the Di Society was held March 22 and Messrs. W. M. Matthews and J. W. Dalton were selected with L. H. Hodges alternate.

The query of the sophomore inter-Society debate which will be held April 25 is: Resolved, That the principle of the short ballot should be adopted in North Carolina and the Governor and Lieutenant-Governor being elected by the people and all other state officers being appointed by the Governor. The Di Society has the negative.

Those trying out for the debate were: David Harris, W. M. Matthews, L. H. Hodges, R. D. Williams, W. E. Price, W. B. Anderson and J. W. Dalton. The committee selecting the debaters was composed of Frank Hackler, R. L. Lasley and Marion Ross.

The freshman debaters selected for the Freshman inter-society debate were S. H. Willis and R. W. Pulliam. The query is Resolved, That all corporations engaged in inter-state commerce should be required to take out a Federal Charter, it being conceded that such a requirement would be constitutional and that Federal License shall not be available as an alternative plan.

Those trying out were: I. W. Cashatte, J. F. Spainhour, E. M. Spencer, S. H. Willis, and R. W. Pulliam.

The committee selecting the debaters was composed of D. V. Carter, G. A. Martin and Frank Hackler.

The final with the Phi Society will be held May 2.

Eavesdropping and Interviews

Following is an extract from a letter recently received from a friend of ours at Auburn:

"I see that you all are trying to get the military system at Carolina. Well, you are playing with fire, and if you get it, it won't take long to have it sour on you. If you have a boot with any of the school papers, try to yellow paint the horrors of it in the scandal column, and don't let the ignorant public walk blindly into a delusion. Even if you don't stop it with your fluent pen, some day you can say 'I told you so.'"

Much has been said in favor of the military system. But most of it has been said by theorists who have never been to Plattsburg. We have been interested in the preparedness issue, we have been aroused over the Mexican situation, we have heard of the terrors of war until we pass over war headlines as if they were Tanlac advertisements, we have organized preparedness clubs and security leagues, and leagues to enforce peace, and to top it all, we have had a break with Germany. It is felt that the next step will be war. And upon all this is based the argument that this University should incorporate the military system.

Now, we believe, with the propounders of the argument that the University of North Carolina should proudly do its share and more in this exigency, as it has on all other occasions. But can we best perform our due proportion of service by installing the military system? Not at all. What has called forth all the notes so far? The sinking of *ships* by *submarines!* What would we need most to play our part in the war? *A Navy!* Therefore the University should become a Naval Academy, utilizing its splendid maritime location on the Dark Brown Waters (see editorial columns), which have hitherto served only as a boundary and natural barrier between the Swain Hall and Franklin Street.

While we have many experienced skippers in the University, we have had no organized training in seamanship, and the majority of our fellow students are sandlappers and landlubbers (due to the inland location of Chapel Hill.) This very fact would make the University doubly effective as a naval academy, since it can reach so many who would otherwise never have an opportunity to go in for a life on the bounding wave and perhaps have their names go down in history with those of Christopher Columbus and Captain Cook.

Crawford—"It seems a pity that the war correspondent were not allowed to see anything of the conflict."

Crabshaw—"If they had they would not have had time to write so many books about it."—Ex.

Butcher—"Come, John, be lively now; break the bones in Mr. Harvin's chops and put Mr. Smith's ribs in the basket for him."

Summary—Two base hit, McClure. Home runs, Barnes, Bennett. Sacrifice, Herty (2), Folger. Base on balls, Powell (4), Lantz (3), Wagner. Struck out, Powell, (4), Lantz (4). Stolen bases, Daniel, Jennette. Umpire, Pearson.

The Quakers booted the pill around the lot for two innings last Wednesday and Carolina won the game at the start. The Haverford crowd could not get together until the third inning, and after that stayed behind him until the end of the game. Busbee was shifted in at second in the third and the visitors' infield improved.

Morris was hit freely, and had the drives been handled better the game would have been close. Carolina played errorless ball behind Llewellyn, Stuart and Herty pulling down drives that should have gone for hits. Stuart prevented a single in the seventh when he speared Chandler's short fly with one hand.

One of the features of the game was the hitting of Weeks, who seemed to have a grudge against the left field fence, ringing up a single, a double, and a home run.

THE TAR HEEL

OFFICIAL ORGAN OF THE ATHLETIC ASSOCIATION OF THE UNIVERSITY OF NORTH CAROLINA

Volume XXV. No. 25 | CHAPEL HILL, N. C., SATURDAY, APRIL 6, 1917 | Price, Five Cent

CAROLINA WINS FROM DAVIDSON NINE, 8 TO 4

"RUDY" DRIVES OUT "HOMER" IN SEVENTH INNING WITH BASES FULL

WAKE FOREST WINS IN TENTH

TAR HEELS OVERCOME EARLY HANDICAP BUT LOOSE BY 6 TO 5 SCORE

Carolina defeated the snappy Davidson nine, last Wednesday, by a score of eight to four. The game was closer than the score would indicate; for, at the beginning of the seventh inning the visitors looked as if they were about to tie the four run majority which the blue and white nine had piled up in the first two innings.

But a little dispute around third base roused "Rudy's" band to such a fighting pitch that they added four more runs to their total during the remaining half of the seventh. After that the Davidson twirler settled down; with the result that no more hits were gotten from him in the eighth. A timely hit by the same man brought in the last run for the visitors; leaving the score 8 to 4 at the end of the opening period of the ninth.

The visiting team was somewhat weakened by the absence of their regular short-stop who injured his arm in the former game. However, Pharr played a very consistent game in his position.

Barnes' hitting was a feature of the game—one of his hits being a home run with the bases full.

Weeks played a strong fielding game snagging an unusually difficult drive. Kirkman, who substituted for Feimster on account of

Volunteer Company to Answer the First Call

Bill Folger and Bob Cook to Organize Company from Senior Class for Immediate Service

In view of the imminence of a call to arms by the nation, the whole country is about turned into an armed camp. The students of the University have organized a battalion to stimulate the Plattsburg idea, and to learn something of military tactics in case they are called to the colors.

This idea of military training has now taken a new form, in that aside from the regular student battalion it is proposed to organize a separate company composed of Seniors of the respective departments of the University.

The purpose of this organization will be to offer service to the country, in case of an aggressive war, to be placed in whatever field of military activities the War Department may see fit to place the company—either as drill masters or on the actual field of operations.

The company is being organized by William Folger and R. E. L. Cook, Jr. To date they have secured a good many recruits, but as the numbers of men in a company on a war footing in one hundred and fifty, every Senior will be given a chance to answer the first call of his country. The government at first call does not want to take the "brains" from our industries, because these are a most important factor of war. It would seem then that the college senior naturally falls within the first class to be conscripted. He has strength and intellect, yet by entering the service of his country he does not paralyze any factor of war—rather increases the power of the fighting force.

The statement by Major-General Wood in his letter to the President of Princeton University does not apply to Seniors, because before the company can be perfected the time for graduation will have passed, and seniors will be alumni.

Several of the Professors have indorsed the formation and purpose of this company.

DANCES, SENIOR STUNT TUG-OF-WAR, BASEBALL FEATURE JUNIOR WEEK

GYM SQUAD STARTS EVENTS WITH EXHIBITION MONDAY NIGHT 8:30

"Say, you gonna be here next week?"

"Yeh, you? I'm gonna have a girl up."

"How you know?"

"She said so. Got red hair, but dance—"

"Gee, but next week'll be full. Right in war time, too. Don't you think—"

"No, they had a dance on the eve of the battle of Waterloo, and—"

"Yeh, and the tug of war, an' everything. Man,—"

"Tenshun. No talking in the rear rank. Forward,—"

Next week sure will be a full one, and rookies forget to look at their feet in thinking about it. "Salome" pasted on every stick, stone, and post will be at last a reality. Such future bliss, for Madame Zu Zu, the delightful, the mysterious, will at last be seen in action on the local stage. And such magnificence. Friends, Romans, Countrymen, lend me your eyes. Facts in detail? All the poor reporter gets is a wink and the grin is advice to "wait and see." Compared to Salome, Theda is a rank amateur.

Not only does the long anticipated Stunt come off, but the tug o' war will be staged at the fathomless mudhole. Just which hole is at present hard to say, but in case of rain, anyone between here and Durham will do. "Villa" Curry is the leader for the Sophomores, and declares he will stop shaving if 1919 loses. Not only the tug of war, but sundry base ball games will take place on the class field, for the class teams are acquiring all sorts of forms, some of them without any practice at all, a fact that will no doubt make some of the games well worth seeing. It is the Varsity's avowed intention to add Virginia's scalp to the trophy room belt. Doctor Lawson now has a football, and a basket-

(Continued on Page Six)

Companies Show Marked Improvement in Drilling

Flag Signal Drill and Course in Wireless Telegraphy New Developments in System

The war spirit of the University demonstrated by the interest in military training, shows that the University is a unit backing Mr. Wilson.

Of the five hundred or more men who began the drill, few have dropped out, and in every case it has been through necessity. The attendance at the drills which have been held twice each week for each company, have been excellent and with the exception of a few tardies every one seems to put forward every effort to make the training a success. Many have not been satisfied with only the regular drills but have taken the opportunity of spare minutes to drill.

Two hundred and fifty rifles have been secured from Mr. Herman Cone, of Greensboro, and these supply a part of the corps for the training in the manual of arms. Though these guns are of very old model they serve every purpose that a modern gun would serve. An effort is now being made to secure enough guns to supply every man.

Drilling for the most part has been by squads of eight men although as many as twenty-four have been drilled together.

A course has been instituted in the flag signal drill which has caused considerable interest. This course is entirely voluntary and is held at the convenience of those taking it.

Another course which has caused no little interest is that of wireless telegraphy. This class consists of eight men who meet at the residence of Dr. Daggett every Monday.

It is probable that the four companies will spend Friday morning, which is a holiday, in drilling on a large scale.

Well, we've walloped the Presbyterians and the Methodists, anyway. Wish we had another chance at those Baptists.

LIFE IN THE TRENCHES VIVIDLY PRESENTED BY

FREDERIC PALMER, GREAT WAR CORRESPONDENT FROM THE FIRING LINE

OVER FIVE HUNDRED ATTEND

ILLUSTRATED LECTURE SPICED WITH INTERESTING PERSONAL EXPERIENCES

Thursday night in Memorial Hall the largest audience ever assembled in Chapel Hill at an illustrated lecture heard Mr. Frederick Palmer on "the War." In spite of the "hoodoo" about "those awfull acoustics," the appeal of the subject and the reputation of the journalist drew people by the hundreds.

Mr. Palmer began his informal discussion of various aspects of the situation from the standpoint of the eye-witness after a few remarks in praise of the South and the Southerner.

He sketched the general progress of the war and then took up some features in detail. Interesting descriptions and pictures of the dress of the various members of the entente, illustrating with many delightful anecdotes.

His narration of the happenings at Somme were quite as vivid as John Masefield's Gallipoli sketches.

A detailed account of machine guns and every sort of weapon of offense was given with countless pictures of the big boys in action. They really tear up the ground like the Sunday papers say. And those dinosaur looking things—Tanks they call them—actually look like the Times pictorial section.

(Continued on Page Five)

Contest for Membership on Tar Heel Board

Starting with the next issue of the Tar Heel and running for five consecutive issues, the annual contest for places on the Tar Heel board will be in operation.

News topics will be posted in the journalism room in the library where every contestant may get in touch with the events of each week. At least one newstory a week should be submitted for publication, but there is no limit to the number of articles submitted. All articles whether printed or not will be carefully preserved until the close of the contest. Ten men, four of which must be rising sophomores will be selected by the committee in charge.

Place your articles in the box at the right as you enter the journalism room. Further regulations will be posted in the journalism room.

The Junior Order of the Gorgon's Head will give an informal dance at their lodge on E. Franklin Street on next Thursday afternoon from 4:30 until 6. All students, faculties and out of town guests are cordially invited to attend.

The Junior Oratorical Contest for the Carr Medal will take place Friday of Junior week.

THE DOOR BELL RINGS

The next two or three weeks will be visitors' week on the Hill; Carolina will be "at home." During that time she will receive as visitors the Junior Week ladies and a number of alumni, the high school debaters, the North Carolina College Press Association, several high school baseball, tennis, and track teams, not to mention some half a dozen college baseball teams.

Heaven forbid that we should besmear our social countenance with that evil cosmetic known as "company manners!"

It will be, on the contrary, quite unnecessary (so stop reading if you want to) to say that every true Carolina man will joyfully fill the job of showing to its visitors, without undue pride or any apologies, the University in its working-day clothes, and also of showing them the best sort of a time the Hill can offer.

THE SPIRIT OF '62

Whether or not Carolina students will be called upon to serve their country actively in the coming war, it must give them a feeling of pride and reassurance to recall what a noble spirit of loyalty to the right as they saw it, what a bitter sweet spirit of self-sacrifice, and what a powerful spirit of courage and valor were manifested by Carolina men some fifty-five years ago.

Dr. Battle in his "History of the University of North Carolina" has the following passages:

"Probably no community in the South took deeper interest in the military operations than Chapel Hill. No community experienced more acute griefs on account of the tragedies of battlefields and hospitals."

"It is proper here to give a summary of the facts showing the part played by the University in the Civil War. Its youngest professors and teachers and its alumni and students of military age rushed into the conflict with all the elan of the southern character. Out of a faculty of fourteen, six volunteered for the war, the others being clergymen or too old for service."

"The University had in the service one Lieutenant-General, one Major-General, thirteen Brigadiers, fifty Colonels, twenty-eight Lieutenant-Colonels, forty Majors, forty-six Adjutants, seventy-one Surgeons, two hundred and fifty four Captains, one hundred and fifty-five Lieutenants, thirty-eight non-commissioned officers, and three hundred and fifty-six privates. Of these three hundred and twelve, or 34 per cent, were killed or died in service.

"Of those regiments which were distinguished for extraordinary losses in battle the University of North Carolina Colonels led into battle the greatest number. The 26th North Carolina which had a phenomenal loss, one of the greatest in all history, 83.3 per cent, was under Henry K. Burgwyn, a matriculate of 1857."

Carolina students did their share then in a spirit of valor and self-sacrifice. And the same old spirit is present today. It will probably not be tested in the furnace of Mars now as it was during the Civil War. But if it were, it would stand the test.

IRREGULARITIES AT LIBRARY

There is a certain small percentage of men among us who do not seem to be able to appreciate the fact that those conveniences and benefits that are offered to every student are for the student body as a whole and not for any individuals. Under this general head comes the privilege granted each student to use the library. However, such a privilege does not give any man the right to deface any of the various forms of reading matter in the library, whether it be a valuable reference book or a copy of Life. Consequently any man who is guilty of cutting passages or illustrations out of any book or paper belonging to the library is guilty of violating a fundamental law of the University as interpreted by the student council whose duty it is to uphold the honor system.

It his been known for some time that some one has been in the habit of cutting illustrations from the periodicals in the reading room of the library; but it was not until last week that one of the offenders was discovered. His case was brought before the council and he admitted that he had cut illustrations from two periodicals. The idea that he had done anything wrong never entered his head; but the council seemed to consider it serious enough to warrant his being put on probation for the rest of the term, denied the use of the reading room for the same period, and required to replace the copies that he had damaged—any repetion of this offence to be punishable with suspension.

His plea was that he thought that the magazine was no longer useful since it was quite an old one. However, everyone is supposed to know that all such volumes are carefully preserved for reference. This case may serve to correct any idea that others may have in regard to their individual right to University property.

—THE STUDENT COUNCIL.

Debate With University of Virginia is Called off

Communication has been received from the University of Virginia which reads as follows:

Carl B. Hyatt, Debating Council, Chapel Hill; All inter-collegiate activities suspended here. Session has been shortened ten days. Military drill begins Monday, therefore board has decided that the debate will be impossible this year. Letter follows.

F. S HARMAN,
President Va., Debating Union.

VERY GOOD, HAWIE!

Fwedie—"Does she powder?"

Hawie—"Well, I was out with her last night and never climbed over any whitewashed fences and now look at my coat!"

—Chaparral.

The Opium Smokers

of China find the cigarette a satisfactory substitute for the unlawful opium.

Mr. C. L. King Speaker at Y. M. C. A. Meeting

At the weekly Y. M. C. A. meeting Tuesday night, Mr. C. L. King, of Richmond Union Theological Seminary, spoke very interestingly on the subject, "Do Live Men Join the Ministry?"

Mr. King talked of the reasons why college men should consider the ministry as a profession. The man with the future, he said, is the man who belongs to himself, but at the same time not forgetting that he belongs to others and to the God who created him. "I believe," he said, "that never a man was born but who had some particular calling, and it is by our tendencies for certain things that we know of these callings." "No man," he continued, "can succeed in life who does not adhere to the plans God has set for him."

At the meeting of the Spanish American Club, Monday night, R. W. Madry read a paper on the History of Trade Relations. J. B. Linker also read a paper on Mining Industry.

ASHEVILLE HIGH SCHOOL GIRLS ENTERTAINED

Mr. Blake Isely, of the class of '12 was in Chapel Hill Thursday and Friday with the Asheville High School girls who played Chapel Hill last night.

The Asheville visitors were given a delightful reception at the home of Mrs. E. J. Burdick yesterday afternoon. Those present were Misses Wilmoth Noland, Ruth Reed, Vandinan, Sara Neely, Velma Thompson, Rose Sternberge, and Silvia Samuels, Mrs. J. T. Neeley and Mr. Blake Isely.

MISLEADING

Johnson, a bachelor, had been to call on his sister, and was shown the new baby. The next day some friends asked him to describe the new arrival. The bachelor replied: "Um—very small features, clean shaven, red faced and a very hard drinker!"—London Opinion.

Sophomore Hop to be Held Thurs. Afternoon

This year the Sophomore Hop, which in the past has always been on Friday afternoon, will be given on Thursday afternoon, in Bynum Gymnasium. This dance is given by the Sophomore class in honor of the outgoing Seniors. Those who are candidates for an A. B. degree this year will be admitted without charge by the doorkeeper. No tickets are necessary for them. All other students must have tickets, which may be secured at Eubanks Drug Store all day Wednesday 11, and in the morning of Thursday 12.

The dance is strictly informal and as in the past, it bids fair to be the most enjoyable of the Easter dances. Every one dresses to suit himself where comfort is concerned; everybody feels at home, free and easy to breathe unhampered by a stiff shirt and 12 inch collar with an aperture in the front. Everybody is going to be there full of "pep" with their exhaust valve wide open, and when "Home Sweet Home" is played, all will go away feeling that they have enjoyed themselves immensely, realizing that the best dance of the season is over.

STUDIES IN PHILOLOGY IS WINNING NATIONAL NOTICE

Along with the recent advancement of the University in extension and social work, there has been a corresponding progress in the field of pure scholarship as is evinced by the April number of Studies in Philology. That this publication is rapidly coming to be a national philological journal is shown by the fact that a number of leading American colleges are represented by some of their strongest men, as Tucker Brooke, of Yale, Charles G. Osgood, of Princeton, John Matthews Manly, of Chicago Joseph Quincy Adams, of Cornell and Jefferson B. Fletcher of Columbia. The general topic of this number of Studies in Philology is Elizabethan literature and each contributor is an expert in his field. The magazine is edited by Dr. Greenlaw and this issue will contain 200 pages. It is sent to the libraries in the country and to leading scholars in this and also foreign countries.

A special article on the "Mystery of Lodowick"—Barry will be contributed by Mr. W. G. Lawrence, a journalist of Dublin, Ireland. Mr. Lawrence has written several books on the Irish stage and is now studying in America. His article on Barry is his first American contribution.

The contents of the April issue are as follows:

I. The Mystery of Dodowick—W. G. Lawrence, of Dublin.

II. The Conventional Buildings of Blackfriars, London, and the Play house Constructed therein—J. Q. Adams, of Cornell.

III. "Playing in the Dark" During the Elizabethan Period—T. S. Graves, of Trinity.

IV. Hamlet's Third Soliloquy—Tucker Brooke, of Yale.

V. Cuts and Insertions in Shakespeare's Plays—John M. Manly, of Chicago.

VI. The Lyrical Conceit of the Elizabethans — Raymond MacDonald, of Stanford.

VII. The Painter of the Poets—Jefferson B. Fletcher, of Columbia.

VIII. Spencer's "Sapience"—Charles G. Osgood, of Princeton.

IX. Dramatic Elements in Paradise Lost—James H. Hanford, of this University.

X. A Better Teacher than Aquinas—Dr. Edwin A. Greenlaw, of this University.

XI. Recent Books and Monographs Dealing with Elizabethan Literature.

Where's the gink who has not at some time in his fickle career lived psychologically "down on the farm" and teased his gastronomical instincts with roseate visions of rural delicacies too tempting for words; and heard the mellow notes of the old farm bell from the belfry near the barn; and—no, no sordid thing like labor e'er intrudes his happy dream.

TIME SAVERS!

Every student wants to be *efficient* in all his college *work.*

In order to accomplish this, he must save time intelligently.

He must take good notes on class, because it is the only way to get it all in a brief and concise manner. Studying for *Exams* is then easy.

He must always have *pens, pencils, ink, note books, memory pads, paper.*

Then we want to *save all our good times.* Always have a Kodak and films at hand.

GET THEM AT

Foister's

WHAT TWO COLLEGE PRESIDENTS SAY ABOUT BLUE RIDGE GATHERING

Dr. E. M. Poteat, President of Furman University, says:

"Each year of my acquaintance with Blue Ridge I am more deeply impressed with the value of its work. This is the one new thing to say, namely, that it grows upon me. And when I see the growing complexity of college life in the South, I feel more keenly the need of comradeship with the finest spirits of our college communities on the highest levels. Blue Ridge supplies this, and there is no other enterprise in the South which does it anything like so well!"

Dr. W. A. Ganfield, President of Centre College, says:

"It gives me great pleasure to try to tell you of my keen interest in and personal enthusiasm for Blue Ridge. The situation is ideal, the accommodations are complete in every way, and all the appointments and arrangements for personal comfort, recreation and pleasure are superb. The program for the summer of 1916 was simply great.

"In all the country I could not find a place where I would rather spend ten days than at Blue Ridge. It would give me very great pleasure to be able to go every year. Just a soon as my son is old enough, I hope to send him every year until he gets through college. With all this personal enthusiasm and admiration for the place and the program and the college men who come, it is perfectly natural that I am anxious that Centre College might have a big delegation in 1917.

"I have no hesitancy in saying that ten days at Blue Ridge is the very best experience that can come to a college man during his entire course. The only experience better than that of the first summer at Blue Ridge would be a like visit the next summer. I am already looking forward with expectation to the pleasures, joys and blessings of 1917."

Wife—"Do you object to my having $200 a month spending money?"

SEVENTY-TWO HIGH SCHOOLS WIN PRELIMINARY DEBATE

Seventy-two high schools have won both sides of the railway ownership question and will come to the Hill "High School Week," April 19, 20, to contest for the Aycock Cup.

A few schools are yet to be heard from. Statesville by her double victtory last Friday has won out for the fourth consecutive time. Pleasant Garden, Holly Springs and Graham have won four times out of five.

The committee has classified the schools according to the number of girls on them. The following schools have solid "suffragette teams"; Mt. Olive, Wayne; Manteo, Dare; Townesville, Vance; Columbus, Polk. Those schools carrying 3 girls and 1 boy are: Graham, Alamance; Elizabethtown, Bladen; Jacksonville, Onslow; Lucama, Wilson; Wadesboro, Anson; Spring Hill, Scotland; Thomasville, Davidson; Cedar Grove, Orange; Aurora, Beaufort; Clyde, Haywood. Those schools having the thing evenly balanced are: Bryson City, Wayne; Mooresville, Iredell; Dixie, Mecklenberg; Mt. Holly, Gaston; Tarboro, Edgecomb; Lillington, Harnett; Selma, Johnston; Pleasant Garden, Guilford; Bladensboro, Bladen; Calypso, Wayne; Edenton, Chowan; Bain Academy, Mecklenburg; Grifton, Pitt; Sylvan, Alamance; Falling Creek, Wayne. Those having only one girl are: Statesville, Iredell; Franklinton, Franklin; Jackson, Northampton; Elm City, Wilson; Wendell, Wake; Jamestown, Guilford; Atkinson, Pender; South Buffalo, Guilford; Asheville, Buncombe; Glade Valley Allegahany; Faleon Cumberland; Jefferson, Ashe; Patrick Henry, Durham; Cleveland, Rowan; Pinnacle, Stokes; Mars Hill, Bertie. The strictly male teams are; Charlotte, Mecklenburg; Lenoir, Caldwell; Winston-Salem, Forsyth; Leaksville, Rockingham; Knap of Reeds, Granville; Clemmons, Forsythe; Candler, Buncombe; Huntersville, Mecklenberg; Marshville, Union; Benson, Johnston; Holly Springs, Wake; East Spencer, Rowan; Laurinburg, Scotland; Sneads Grove, Scotland; East Bend, Yadkin; Oak Hill, Caldwell; Atlantic, Cartaret; Salemburg, Sampson; Leicester, Buncombe; Indian Trail, Union; Mt. Airy, Surry; Elise, Moore; South Fork Institute, Catawba; Winecoff, Cabarras; and Boiling Springs, Cleveland.

While the campus is resounding with the debaters from the above schools the interscholastic tennis tournament and track meet will be pulled off. The committee has asked all students to co-operate in providing entertainment for the "down homers" at this time.

SALOME—A DIRE TRAGEDY!

Tragedy from the Greek Tragos—a goat—is a play, or, if one would prefer it, a dramatic representation, wherein one presonage gets another's "goat." Sometimes—at least it isn't until after the curtain falls and they go "out to the strains of Mendelssohn!"

Salome is a dire tragedy. The the goat is gotten much worse than others. For instance one might just be forced to commit suicide or he might be compelled to shave with a safety razor! In some cases it seems that the tragedy is about to occur when Billy saves Nanny's life, and, although Nanny gets Billy it isn't tragedy at all heroine, Salome, gets all the women's "goats!" She is so charmingly, shockingly bewitching and Madam Zu Zu is such an ethereally divine embodiment of the Oscar Wildish Salome, plus the realistic elements of up-to-date-ness added by the stunt committee plus also her own incomparable beauty, grace and personality.

"French?" Yes, very! And some of the other characters are Frenchy. And so are the chorus girls. And their costumes! Very Greek!!

One philologically inclined could trace elements of every show house from the Pickwick and the "Arcade" Durham, to the Casino, Phila., the Metropolitan, N. Y., and the Theatre des Vampires, Paris, La Salle, Italy, (Germany is boycotted.)

It is tragedy.

It will get your "goat" too to hear that you missed it if you are not on hand.

See the tragedy.

Avoid a tragedy.

A snappy program was rendered at the Freshman Debating Society.

This is one of the times to

say PEPSI-Cola

'Course any time's the time—but just along 'bout noon when shopping begins to get a little wearisome and bundles grow heavier—that's the time especially to say PEPSI-Cola.

And stars in Heaven! How it does drive thirst away? With its cooling "pepsy" tang, you just go right down to the bottom of that long, "ice-bergy" glass and wish it were longer. Try it—now at any fount. Then you'll begin to tell your grocer to leave a case of two dozen bottles.

Down Senior Way

Eyes—those scintillating orbs, which "soar but never roam," twin lakes of effervescing soul, second ear of lovers, deceitful snares of coquettes, flirts, old maids, girls, movie actresses and Mona Lisa, what suitable apotheosis can be made to thee!

Of course eyes vary greatly. For instance they may be "wistful" (as the novelists say just before she is proposed to), or "limpid" as Sunday magazine writers invariably say, "bloodshot" (as is usually the case of the protagonist after a—er—quarrel with Clytemnestra, let us say), "maliciously glaring" (see any movie scenario), and "pop eyes" as is frequently the case among school girls and other soulless individuals. Spirituelle may be applied to those like Dougald McMillan's and "Fab" Shipp's. Innocency to those of Ham Horton and Clarvoe. And twinkling to those of Mephistopheles, Santa Claus and Mr. Greenlaw.

It is everywhere admitted that the most soulful eyes of all are those of the solitary lowing herd. Then eyes a la cat are bewitching—especially since at times they are possessed by Theda Baras, Olivie Emile Rondelles, and best of all Madame Zu Zu.

Mane Zu Zu's eyes are the real things and such scintillating orbs you never saw! Movie actresses with 40 H. P. arc lights and high power camera lenses pointed towards them can "make eyes" no better than does Madame Zu Zu in her marvelous interpretation of Salome, in the dansant scene.

As for the actual color of her eyes, that in itself is a marvel. The iris is of an exquisitely iridescent purplish-green and they contain all the possible good qualities in the category of eyes from the wistful, limpid, malicious, spirituelle (not spiritual) and twinkling stages to the soulfullness of those of a lowing herd!

And these twin bewitchers are among the smallest details of the famous Madame Zu Zu of the Theatre des Vampire, 29 Rue de Rivoli, Paris!

Her matchless figure, exquisitely set off by her genuinely Parisian Salome costumes and in her Oriental dance costumes! With the most divinely inspiring musique Orientale, she is a marvel whom Isidora Duncan and Anna Pavlowa cannot approach.

Salome will be the greatest and most artistic production ever presented in Chapel Hill, or North Carolina. No one can afford to miss it.

Heard at the Davidson game:

Si Parker — "All right, split Llewellyn for the team. Everybody in it."

To his girl said a soldier named Twist
When he was about to enlist
"Why, I can face powder—
To prove it, by chowder—"
And 'tis said that the girlie was kissed.

She—"Don't you ever wear trains?"

Another—"No; my husband always puts his foot down on anything of that sort."—Record.

He—"Would you like to go to see 'A Pair of Sixes?'"

She—Yes, I'd love to.

He—"I hope somebody asks you."—Chaparral.

Just Gossip

"Catch step, private Coleman!"

"I'm the only man in the company in step."

Just wait 'til next week, if you want to see a replica of Napoleon, Hannibal, Julius Caesar, and Von Hindenburg and all the others. It takes girls to bring out that military bearing.

The rifles which the embattled farmers used when they fired the shot heard 'round the world have been sent to Chapel Hill. Handle them gently.

An occupant of the Kluttz Building was rudely awakened this morning by a sound that filled him with dread—sharp staccato reports, as of a rapid fire gun or a detachment of musketry. Had the German-Americans risen in arms and revolt? He crawled, trembling, on hands and knees to the window. The cold air of the dawn struck his face, and sweat broke out on his forehead.

"All aboard for Durham," said Jack Sparrow.

When Proc saw that sensational stab in the Davidson game he said he feared that he would take a vacation for Weeks. But it takes more than nine men to make a 'varsity.

You may think you're not talented along military lines. But did it ever occur to you that you can at least be a protection to the man in the rank behind you?

A FRATERNAL DITTY

In the recent essay "Ease" written by Cap Peral for the "Sigma News," the author intimates that Zeta's eyes were partly responsible for the hero's eighty "ohs."

Freshman (after looking attentively at the flag flying on the campus)—"Red, white, and blue, but, by gracious, not a single streak of yellow."

MILITARISM

The companies fairly boiled as the officer extracted a corps.

Some people are wondering about the high price of milk. That's easy to account for. Look at the tremendous cost of onions these days.

LIFE IN THE TRENCHES VIVIDLY PRESENTED BY

(Continued from Page One)

"Everybody is cheerful at the front," he says, "bullets kill as pessimist just as quickly as an optimist."

Pictures of such notables as Joffre and Lloyd George were shown.

Among the most interesting parts of his rambling talk was a personal adventure in an aeroplane and one in a big 150 H. P. motor truck. The pictures of these fighting aeroplanes was rather enlightening. The ponderous and yet graceful flyers were wielded as skillfully and more so than those for the Pathe films.

Then there were some soldiers. And they would keep step just fine! And you would't see them run off the right side of the screen to get back to the left in time to keep up the procession—as is sometimes done among the professional film makers.

The lecture was one of more than passing interest, though he said little that hasn't been oft repeated already by himself as a war correspondent from "the front," and others.

It is rare indeed that a single man can hold an intelligent audience for three hours.

Powell was a little off at the start last Monday, and Wake Forst trotted over enough runs in the two opening frames to make a good working margin. When two more were added in the fourth, the game seemed sewed up, but not so, for in the fifth and sixth we chalked up two tallies, and in the seventh the White and Blue swatters got to Ellis for enough to finish tying up the score.

In the seventh Weeks got hit, and strolled. Powell was up and hit to center. Stewart touched Franks, who was now pitching, for a clout that scored both Weeks and Powell. Then stealing third, he scored on Herty's out, tying the score.

The visitors threatened a break in the eighth when Cox hit over Stewart's head for three bases. His team mates allowed him to remain there. Jennette made a great catch in the tenth, robbing Leggett of a single.

The home run fever still rages, for Duncan stepped in to one in the first and knocked it through the fence. Barnes got one of the longest hits ever knocked on Emerson field. Vasser clouted one over in the fourth with one on. The tie was broken in the tenth, when Duncan scored from third on Cox's sacrifice fly.

DANCES, SENIOR STUNT, ETC. FEATURE OF JUNIOR WEEK

(Continued from Page One)

ball, and doesn't seem adverse to adding a couple of baseballs to the collection.

But someone says that next week is Junior Week. So that means dances, with a big "D". Again we are able to elicit but little information from the powers that be, and so we will all have to wait and see about them, too. But the way men haunt the postoffice and then forget to pay their box rent seems to indicate that something important is in the air.

Furthermore, it is a fact that the Gym team will give an exhibition Monday night at 8:30 in the gymnasium. Considerable work has been done on the apparatus to put it in shape for the exhibition. Clarkson, Crowell, Siddall, Ravanel, Jones and a half dozen others will be there with top-notch form—and by the way "Crip" Devereaux who got considerably banged up in some of those mild class basketball games at "Old Commons" will be seen on the parallel bars again.

Little Miss Happle
Came home from chapel
Wearing her Easter bonnet;
She gasped with dismay
When she put it away
To see that the tag was still on it.

POWELL BESTS W. & L. IN PITCHERS' BATTLE

TAR HEEL TWIRLER FANS TEN AND CAROLINA SCORES A SHUT OUT

WHITE AND BLUE LOSE TO YALE

MUNSON'S HOME RUN WITH ONE ON GIVES VISITORS TWO RUN MARGIN

On a heavy and soggy diamond Carolina again won their annual game with Washington and Lee at Danville, administering to them a shut-out, 2 to 0.

The game was not amrked by any special thrills, and probably the only feature was the pitching of Powell for Carolina. From the first it was evident that it was going to be a pitchers battle, and Powell got the best of it. He fanned ten of W. & L.'s batsmen, thereby pulling himself clear of one or two ticklish places. In the seventh inning W. & L. had the bases full and only one out, but he struck out the next two men. This was the only time that they really threatened to score.

Both teams just trotted on and off the field until the sixth inning, when Carolina put across their first tally. Folger hit one of Pierrote's pet "slow balls" on a line to left field, down the bank out of sight, and came to roost on third. Then Jennette hit a clean one to left center for two bases scoring Folger. Although they could not put Jennette across, Carolina came back in the eighth and scored their second and last run. Stewart walked, Herty sacrificed him to second, and Barnes brought him home with a single to right. W. & L. came to bat again in the ninth but Powell was too much for them. and the game was over.

State College Press Association Meets Here

Representatives From Colleges of State Gather at Chapel Hill April 16 and 17

On Monday and Tuesday, 16 and 17, the North Carolina College Press Association will convene at Chapel Hill. About 30 delegates, including a dozen or more girls, will be present.

The N. C. College Press Association is a very youn gassociation, having been formed only a month or so ago under the direction of the editors of The Davidsonian, of Davidson College and especially Mr. T. J. Mitchell, the alumni editor of that publication. This meeting will be its first one. Much of the business of the association will, therefore, consist in "organizing the convention, selecting temporary officers, framing a constitution, adopting a definite policy, and plan of conduct for the association, and the election of officers for the coming year."

Several talks will be made on the various phases of the aims, methods, and work of the college publications, both newspapers and magazines. Two of these talks will be made by University men, one by Mr. Thornton on "the means of increasing the efficiency of the writers, editors, and managers of college publications, and one by Marion Fowler on "The Place of the College Publication."

The convention will last from the afternoon of the sixteenth through the evening of the seventeenth.

The place where the association will hold its meetings will probably be the Di Hall.

The registration of delegates will take place in the Y. M. C. A. Building.

The following colleges have named their representatives.

State A. & E. College:

(Continued on Page Three)

Carolina in Fast Game Shuts Out Wofford 3-0

Carolina continued her Spring drive Thursday by overcoming the snappy aggregation from Wofford 3 to 0. The game was devoid of features but was played with a snap and rush, taking only one hour and forty minutes, thus being the shortest game of the season. "Rudy's" usual clout over left field in the fourth was the nearest approach to a feature.

The visitors had two good chances to score but by their failure to hit in the pinches couldn't push the runner across. In the seventh they got a man on third. Kinlaw who pitched a strong game throughout fanned two and Rudy pulled down Brunson's difficult foul, retiring the side.

In the fifth Feimster's grounder took a bad bobble and he was on. Rudy, running for him, advanced when Weeks beat out a slow grounder to deep short. Rudy stole third and scored when Kinlaw laid down the necessary bunt for a squeeze play. In the next frame Stewart beat out a bunt, was advanced by Herty's sacrifice, took third on a wild pitch and scored when Lawton heaved wild again.

(Continued on Page Two)

FRESHMEN HANG UP TWO SCALPS

TRIM CHARLOTTE HIGHS 2 TO 1 AND SWAMP RALEIGH AT CAPITAL

On last Monday, the Carolina Freshmen won their first game of the season, defeating the fast Charlotte High team, 2 to 1. The game was a close pitcher's battle, with Arrasmith featuring. Eight errors made the contest ragged in spots, but classy mound work kept up the interest. Six hits were garnered off Murray, while Arrasmith held Charlotte to four, in addition to whiffing sixteen men.

In the first division, the visitors threatened to score but the two runners died—on bases. In the second frame, Arra cut three men down with strikes, while Spruill got lonely on first. Carolina had a good chance to tally in the third, but loose base-running killed it.

The visitors registered their lone score in the fifth. Crayton singled to left, Linney whiffed, McDonald meandered, and Pharr scored Crayton with a two pillow swat. With men on second and third, Arrasmith tightened his belt and cut down the next two batters.

In the sixth inning Hardeen made a nice catch of Murray long fly. In the eighth, the Freshmen evened matters up. With two down, Henry hit to left for two bags and Leyden shoved him across the pan with a neat bingle to left.

In the ninth, the Charlottites went out in one, two, three order, The Freshmen were longing for the gym showers, so they decide to break up the old ball game. With one out, Odom singled to right and pilfered second. The third strike on Lewis was missed and the catcher's throw to first was withheld, for Odom was seen rounding third. Salmon ended the suspense by dropping a timely

(Continued on Page Five)

News stories for next issue of the Tar Heel will be posted in the Journalism Room of the Library and also on the bulletin board in the Y. M. C. A. entrance. Contestants for membership on the board should "cover" at least one news story a week, but may "cover" any number.

Rules and regulations governing the contest will also be posted at each of these places.

Professor—"What result did you get in that problem involving pressure on the dam."

Salome Captivates Chapel Hill Audience

Senior Stunt Rendered at Gerrard Hall With Unusual Snap, Vigor and Effectiveness

Last Thursday night at seventeen minutes past eight, after the three chimes (customarily prefixed to the ascent of the curtain in the Comedie Francaise) an impressive silence made way for the still more impressive entre of the Prologue of Salome. Hoary and prophetic was the head upheld by his bended shoulders. He explained the various parts of the stage setting after the manner of a Chinese properties man and "wafted" the audience over twenty-five years as does the chorus in Henry V.

And then the curtain was raised on a down town in Chapel Hill scene. Pollyanna was "running on" over the jags of life. The Madame was bossing the French Professor. The women, thirteen of 'em, were being horrified at the news of the arrival of the Vampirate when the vampire Salome actually arrives with her uncle, Prof. Putasleep.

The second scene is an afternoon, the dansant at Mrs. Bosseverydamthing's. Salome ensnares all the men. Girls are all jealous and boycott her. This act ends in a grande mis en scene where the whole group of players on the stage hear, aghast, her opinion of homespun Chapel Hill.

The third act discloses the fact that Salome is only a charming actress from "Hoboken, New Joisey" who was juts taking the place of Miss Putasleep (who had eloped) until she got well under way.

The star of the evening was Madame Zu Zu, alias Sam Telfair, in the title role. He was a good representation of Oscar Wilde's Heriodias's daughter—to quote Billy Sunday on the subject, (and

(Continued on Page Two)

Fresh Nine Trounce Sophomores 9 to 1

On Tuesday afternoon the Freshmen nine trounced the Sophomore aggregation in the first game of the class series to the tune of 9 to 1. Although the "Twenty-ites" outclassed thir opponents at every turn of the game, there was no lack of "pep" until the last stalwart Soph laid down his stick at the end of the ninth game.

Capps' work in the box and Donald's ability to connect up with the pill at the right time contributed most toward the victory for the Freshmen. A fan remarked that thick clouds covered the Sophomore's heaven. He evidently had been looking there for "stars."

After the game Ralph Pippin was elected captain of the Sophomore team.

Some kind alumnus or senior class might well donate a lofty flag pole to the University. The other day I heard someone say, "Why is the flag at half mast?" He presently saw that the flag was full mast on a half pole.

On to Greensboro, rain or shine!

JUNIOR WEEK DECLARED A BRILLIANT SUCCESS

LADIES! DANCES! BASEBALL! GYMNASTICS! ORATORY! AND SALOME!

DANCES THE BEST IN HISTORY

GINGHOULS, JUNIORS, GERMAN CLUB, GORGON'S HEAD GIVE DANCES

Ladies, over fifty of them—dances, day and night—baseball, with Carolina victorious—gymnastics—oratory—that snappy senior stunt—and a dozen other doings declared Junior Week a brilliant success. The very finest weather was ordered beforehand—and the voice of the fair sex was heard throughout the land.

Personally, we think these dances were the best ever, as usual. It is rather harder to say in what way they were unusual. The elements which constitute a dance—time, place, girls, boys, music, and chaperones are of course, the same every time there is a dance. The difference in the quantity and quality of these ingredients, however, makes every dance different from every other. This time the time, place, boys, music and chaperones were very little different from the same last fall. (See Tar Heel, Dec. 8, 1916). But the girls were not the same. Even the college widows to whom Chapel Hill is a second home, for who ever saw a girl who could be counted on to do the same thing twice under like circumstances? There is one exception, however, which is invariable—never since Terpsichore made the art a popular fad has a female partner been known to start making her toilet until her escort rings the doorbell and announces that the car (hired by the hour) is waiting.

Wednesday night the Junior Order of Gimghouls were hosts at their annual dance, in the gym. A feature of the decorations was the American flags which were effectively displayed. Other decorations were festoons of bunting in Carolina and Gimghoul colors, draped from large Japanese parasols. The leaders were: Charles Daniel with Miss Margaret Fletcher, Thomas Strange with Miss Sue Northrop, and Grimsley Taylor with Miss Virginia McEwan. After the dance, the Gimghouls gave a feed at the Coop.

Thursday morning, the Zeta Psis gave a pleasant informal dance at their fraternity hall. In the afternoon, the Junior Order of Gorgon's Head had a snappy dance at their lodge. From nine P. M. until one A. M. the Junior Prom held forth at the gym. The pep was undiminished when "The Star Spangled Banner" was play-

(Continued on Page Two)

Carolina to Debate Hopkins

Arrangements have been made with Johns Hopkins University for the intercollegiate debate from which Virginia withdrew. Instead of the regular triangle Carolina and Hopkins will debate each side of the question, one debate being at Chapel Hill and the other at Baltimore.

THE TAR HEEL CONTEST

Now is the time for all good men to join in the Tar Heel contest,—not a contest for automobiles or five-dollar gold pieces or anything of the kind, but a contest for places on the Board.

Freshmen, Sophomores, Juniors, anybody who is coming back next year is eligible. Look up the news hints and the requirements posted in the Journalism Room of the Library and in the Y. M. C. A. Then get to work! And if you think of any thing not listed in the news hints that would make interesting reading, write it up. Originality pays.

We shall not give you a roseate picture of the Tar Heel Board reclining on the well known "flowery beds of ease"; no newspaper man is a lotus eater. Not even an editor's conscience is so hardened as to condone the perpetration of such a fabrication.

But it is an active, stimulating, fascinating sort of work. It is good training too. And in conclusion that invisible halo known as college honor is supposed to accompany it.

No one should hang back for fear of being disappointed. At least ten associate editors must be elected for next year. Twenty men must be nominated to fill these places when the Athletic Association has its meeting in May. Those nominated will be the ones who have done the best work in the contest.

Congratulations, sympathy and best wishes to the future editors!

THE LEFT FIELD FENCE

Another one of those unnecessary evils is the left field fence of Emerson Field.

Unnecessary, because it could be taken down or slipped back. An evil, because it causes an epidemic of slugging at the ball on the part of the home team, because it is unfair to the pitchers, and because it is not good baseball, this fence-magic which transforms an easy out or a simple single into a homer.

Already at least eight home runs have been gotten over or through the fence in the six games on the Hill. That is about one and one-third per game, which is probably the State record. The fence may be at the regulation distance, but it is safe to say that no other respectable ball park in the State has a left field fence as close to the home plate as ours is.

There might be some sense in having an oak tree at second base; it would give the players shade in hot weather. But the sense in having a left field fence and a set of ground rules that render a normal game of baseball practically impossible, is hard to see.

JUNIOR WEEK DECLARED A BRILLIANT SUCCESS

(Continued from Page One)

ed at the close of the evening. The leaders of this dance were John Cotten Tayloe with Miss Ernestine Forbes, William Dewar with Miss Agnes Cotten Timberlake, and Marvin Robbins with Miss Bessie Lumsden.

Friday morning the Pi Kappa Alpha's dance was much enjoyed. In the afternoon, the Sophomore Hop very ditto. The leaders—Buck Wimberley, Vaughn Hawkins and Peck Norris. The German Club dance Friday night held its own in spite of less favorable weather conditions. Bobo Tanner with Miss Julia Scott, Ham Horton with Miss Serena Dalton, and Beanie Kinlaw with Miss Nancy Greene were the pilots.

Following is a more or less accurate list of the dancers:

W. McDuffie—Ann Taliaferro.
W. B. Dalton—May Coan, Lucy Hanes, Edith Lester, Winston, Grace Overman, Salisbury.
W. Grimes—Luta Bell Spann, Raleigh.
H. Bellamy — Placid Clark, Tarboro.
W. Fitzsimmons—Eliz Miller, Charlotte.
T. Norwood — Sarah Borden, Goldsboro.
F. Shamburger—DeWitt Chatham, Margaret Fletcher, Winston.
H. Horton—Serena Dalton, Winston.
R. Foster, Margaret Best, Warsaw.
Bob Page—Nell Horton, Winston.
S. Telfair—Liza Leach, Cotten Timberlake, Raleigh.
J. Powell—Julia Manning, Raleigh.
L. Thorpe—Katherine Crews, Raleigh.
George Sloan—Sophie Hollister, New Bern.
J. Jones—Shep Leak, Wadesboro.
P. Edmundson—Julia Jerman, Raleigh.
T. Strange — Sue Northrop, Wilmington.
J. Tayloe—Ernestine Forbes, Greenville.
R. Young—Rosa Kincaid, Griffin, Ga.
F. Cohn—Sue Sussman, Richmond, Va.
G. Ramsay — Louise Bolton, Norfolk.
R. H. Wright—Eliz Telfair,
F. Clarkson—Alice Webster, Norfolk.
Raleigh.
R. D. Stockton—Virginia Wiggins, Winston.
E. F. Liles—Lucy Foulks, Rockingham.
H. H. Weeks, Joe White, Raleigh.
Harold Cooley—Lucy Bessitte, Nashville.
W. B. Kinlaw—Nancy Green, Durham.
F. C. Jordan—Stewart Alexander.
Wm. Erwin—Mr. and Mrs. Wm. Erwin, Durham.
G. F. Parker—Sarah Erwin, Durham.
E. K. Proctor—Reynolds, Fayetteville.
W. Bailey—Whitaker, Wilson.
G. Crowell—Bowen, Raleigh.
Robbins—Tilghman, Wilson.
N. B. Broughton—Adele Monroe, Annapolis, Md., Francis Parks, Raleigh.
S. B. Tanner—Julia Scott, Charlotte.
H. Harper—Kitty May Irwin, Reidsville.
R. Pippin—Marguerite Penn, Reidsville.

Some effects of cigarette smoking upon University boys as related by them:

Nervousness
Shortness of Breath
Dullness

K. Purdue—Florence Renneker, Winston.
F. Hazelhurst—Dickey Harris, Wilmington.
D. McMillan—Emma Pemberton, Fayetteville, Amanda Parsley, Wilmington.
J. M. McLeod—Mae Wilson, Florence, S. C.
H. Black — Virginia Allen, Greenville, S. C.
Hugh Smith—Marg Lawton, Hartsville, Nancy Ravenel, Spartanburg, Julia Henry, Durham.
R. C. DeRossett—Kate Murchison, Wilmington.

SALOME CAPTIVATES CHAPEL HILL AUDIENCE

(Continued from Page One)

by the way what would he have said had he been here?)—"the gum-chewing, fudge-eating, sissyfied" dansense. She "melted in liquid lines" like the papers say about real Salome's and danced again and again interpretative dances of various emotions.

Capps as Herman Smokle, Prof. of Eugenics, was entirely on to his action, enunciation and facial expression. He danced with Salome in the Chapel Hill manner!

Harris, as Ormand Chateaubriauld de Simonds, was very French—except in language. His makeup, due to Dougald McMillan's artistry and various pencils of the properties man plus a wig, was excellent.

Jones, as Jane, was absolutely inimitable! She lisped softly and boarding school girlishly. Her dresses fitted well.

Smith made an ideal Mrs. Bosseverydamthing. Hale, Ransom, Norwood, O'Brien, Suddreth, Crawford and many other gay and dignified seniors showed their dramatic ability and stage presence for once in their lives even if the Washington Square players haven't signed them all up.

The scenery designed by the committee and executed by Rand, Mr. Temple and others was excellent.

The music gotten up and directed by Harris was excellent, but the absence of the orchestra was serious draw back.

The committee considered it a success. As a proof of which, it was noted that for the first time in years, not a single person left before the end of the play.

The following were the committee: O. Rand, ex officio, Capps, chairman, Telfair, Harris, Lindau, Polk.

TIME SAVERS!

Every student wants to be *efficient* in all his college *work*.

In order to accomplish this, he must save time intelligently.

He must take good notes on class, because it is the only way to get it all in a brief and concise manner. Studying for *Exams* is then easy.

He must always have *pens, pencils, ink, note books, memory pads, paper.*

Then we want to *save all our good times.* Always have a Kodak and films at hand.

Gym Performers Give Spectacular Exhibition

Diving, Stands, Kips, Continued Circles, Fly-aways, and Numerous Other Stunts Win Applause of Crowd

The U. N. C. Gym team gave an exhibition last Monday night at eight o'clock.

After the introductory parade of the team in squad formation, the exhibition began.

Crowell, Ravenel and Clarkson led off by some nerve racking diving from the spring-board. Crowell's neck was hurt in his second dive but he continued nevertheless.

Lidall, Crowell and Clarkson followed on the Parallels. Stands, kips, and continued circles were done in fine form. On account of the weakness of one of the bars, Clarkson was not able to get his handstand transferred satisfactorily from one bar to the other.

Jones and Travis pulled off some comic mat stuff, which was ended by a spectacular "Skinning the cat" by the latter on the outstretched arm of the former.

Hobbs and Ravenel got away with some marvelous "fly aways," kips, etc., on the wings. Travis displayed great biceptular muscles in his balanced swings.

On the horizontal Ravenel and Clarkson did the giant swings with combinations of other stunts in the best of form. Clarkson did his famous dive from upright position on horizontal amidst great applause. Lidall got off some excellent kips and cut offs and fly aways on the horizontal. Devereux was quite a "star" or at least if he didn't shine himself as Hernie Schenck says, he made the bar shine with the sandpaper.

Snow White Produced With Greatest Success

An exquisite production of *Snow White* an operetta in four acts was given in the Chapel Hill School Auditorium last Wednesday night under the direction of Miss Boyd of the Faculty of the school.

The stars were Miss Pearl Minish, Soprano in the title role, Miss Gipsy Barton, contralto as the Queen, Holloway, tenor as the Prince and Sam Fisher, bass as the Huntsman. Miss Minish's soft liquescent tones were marvelously executed with artistic ability very rare to Chapel Hill. Miss Barton was gorgeously attired in robes of splendor rivaling that of Belasco robes. Red plush trimmed with ermine and gold taffeta with crystal trimming formed the main part of her costume. Holloway, also was clothed in princely robes—the best the properties man could procure. Fisher sang his parts well. His voice was sonorous and true and his interpretation of the bass arias was sympathetic.

The choruses were composed of seven Dwarfs and fourteen Forest children. These sang with remarkable accuracy and with surprising volume.

Miss Boyd deserves much credit for her excellent work in the direction of the operetta.

FRESH DEBATING SOCIETY HOLDS SPIRITED MEETING

Great interest and contagious enthusiasm marked the regular meeting of the Freshman Debating Society held on Wednesday evening at eight-thirty in the Di Society Hall.

The query for debate was especially interesting, and one that appeals to all classes: Resolved, That women exert more influence over men than does money.

The affirmative was strongly represented by C. W. Phillips, W. G. Binkley, and C. C. Massey; the negative by T. L. Warren, W. J. Nichols, and C. R. Warren. The affirmative argued that woman's love and influence is the vitalizing force that prompts men toward the higher ideals of life, while money is only a material thing and aften the root of much evil. The negative contended that the desire for money is the dominant factor that forces man to put forth his best efforts in every line of endeavor, and, hence, the force that shapens and moulds one's character.

The judges for the debate, H. Corpening, I. W. Cashatte, and S. H. Willis, after careful consideration, rendered a close decision in favor of the negative.

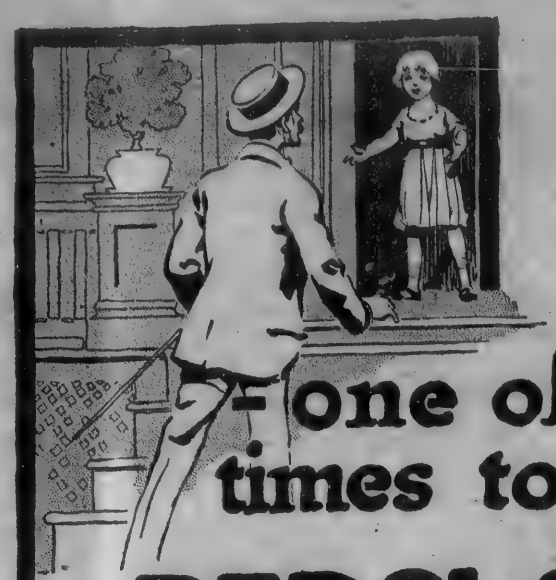
REPRESENTATIVES OF 87 SCHOOLS HERE APRIL 19

The fifth annual final contest of the High School Debating Union of North Carolina will be held at Chapel Hill on April 19th and 20th. Eighty-seven schools were sucessful in their triangular debates on March 30th, from a total of 325 schools in 92 counties participating, and will send their teams numbering 348 student debaters to enter the final contest for the Aycock Memorial Cup. The schools of Columbus, Polk county; Manteo, Dare county; Townsville, Vance county; Mount Olive, Wayne county; Enfield, Halifax county; and Olney, Northampton county, will be represented by four girls each. The total number of girls from the various schools to appear in the final contest will be 107. Complete plans are being made for the entertainment of the visitors and a definite program has been mapped out.

The schools to meet at Chapel Hill in the finals for the Aycock Memorial Cup are: Graham, Statesville, Bryson City, Charlotte, Lenoir, Mooresville, Dixie, Mount Holly, Winston-Salem, Tarboro, Lillington, Franklinton, Selma, Leaksville, Jackson, Pleasant Garden, Elm City, Knap of Reeds, Townsville, Elizabethtown, Bladenboro, Clemmons, Candler, Calypso, Huntersville, Marshville, Edenton, Wendell, Columbus, Greenville, Jamestown, Atkinson, Benson, Jacksonville, Holly Springs, Lucama, Wadesboro, Wilmington, East Spencer, Laurinburg, Spring Hill, Snead's Grove, South Buffalo, East Bend, Asheville, Thomasville, Oak Hill, Atlantic, Washington Institute, Cedar Grove, Glade Valley, Salemburg, Leicester, Falcon, Boiling Springs, Bain Academy, Jefferson, Indian Trail, Patrick Henry, Grifton, Mount Airy, Sylvan, Elise, Cleveland, Aurora, Mount Olive, Clyde, South Fork, Winecoff, Falling Creek, Manteo, Pinnacle, Mars Hill, Troy, Olney, Sparta, Sladesville, Yanceyville, Waynesville, Sand Hill, Enfield, Columbia, Almond, Gatesville, Lumber Bridge, Godwin, and East Durham.

Since the inauguration of the High School Debating Union, the schools of Pleasant Garden, Holly Springs, Statesville, and Graham have won the right to representation in the final contests four times out of five. The Statesville high school has won both debates for the past four successive years. Mr. Stewart Cowles has been a member of the Statesville team for the past four successive years.

The fifth annual inter-scholastic track meet and the second annual inter-scholastic tennis tournament will be held at the same time as the debate. The debating and athletic events will all go to make up "High School Week" at the University. Among the schools which will participate in the athletic events are: Greensboro, Raleigh, Chapel Hill, Hillsboro, Huntersville, Winecoff, Fremont, Normal, Oak Ridge, Warrenton and Mooresville.



The various county clubs will entertain the teams from their respective counties.

MERELY COY

"That booby made a bluff at kissing me last night and quit."

"But he says you scratched his face, blackened his eyes, and stabbed him with a hatpin."

"Well, a girl has to put up a little maidenly resistance."—Kansas City Journal.

one of the times to say

PEPSI-Cola

Just when you get home in the evening, after a long, hot, sticky day—and you're tired and thirsty—THAT'S the time to say "PEPSI-Cola" to "friend wife."

That long, thin, tinkly, "ice-bergy" glass just seems to sharpen up appetites for dinner and gee! how it does drive thirsts away!

Just try it—any fountain serves it—and any grocer can leave a case at home.

MINSTRELS A VERSATILE BUNCH

The rehearsals of the Carolina Minstrels have ben progressing steadily and all indications point to a first class presentation of a real minstrel show. Scenery and costumes have been ordered. The ends are working up their "gags" and the soloists are fast rounding into true form. With Jimmy Howell as interlocutor, Nims at the piano, Lindsey as director of the orchestra, and Irving Parker as band leader, all departments are well taken care of. Tanner, Greene, Wimberley, and Jordan are handling the ends in professional style. The day of the big performance will be auspiciously opened by a monster parade. Spectators will be requested not to molest or unduly disturb the equilibrium of the stove-pipe hats of the paraders.

The first part of the show is a gorgeous spectacle called "The Garden of Flowers." The scenery for this setting has been procured at great expense. The second part of the performance is entitled "When the Moonlight Falls and the Water Ripples." The voices of the Harmony quartet will also ripple in this act. Another feature will be a dancing novelty —"Aunt Dinah's Quilting Party." The big show will be closed by an after-piece entitled "Following the Flag." The management will furnish extra vest buttons to those losing theirs while laughing at this skit.

The date of the Minstrel will be announced later.

If at first you don't succeed, double it and match him again.—Chaparral.

"Satisfy"—a new cigarette-word

It is Chesterfields or nothing—if you want this *new* kind of enjoyment in cigarette smoking. Besides doing the usual thing of pleasing the taste, they do the one thing you've always *wished* for in a cigarette—

Chesterfields *let you know you are smoking*—they *"SATISFY"!* But they're *mild*, too!

Pure, natural, Imported and Domestic tobaccos blended in a *new* way—that's how it's done. And the blend can't be copied.

A woman's conscience, though it smart her,
Is really much like her garter;
A simile that seems fantastic,
Though both possessions are elastic.

Pages from Dr. Battle's History

"The style of costume," said General Mallett, "and even the manners of the present generation are not, in my opinion an improvement on half a century ago. The managers would not then admit a gentleman into the ball-room with boots, or even a frock coat; and to dance without gloves was simply vulgar. At the Commencement Ball (when I graduated, 1818) my coat was broadcloth, of sea-green color, high velvet collar to match, swallow-tail, pockets outside with lapels, and large silver-plated buttons; white satin damask vest, showing the edge of a blue under-vest; a wide opening for bosom rules, and no shirt collar. The neck was dressed with four or five three-cornered cravats artistically laid and surmounted with a cambric stock, plaited and buckled behind. My pantaloons were white canton crape, lined with pink muslin, and showed a peach-blossom tint. They were rather short in order to display flesh-colored silk stockings, and this exposure was increased by very low-cut pumps with shiny buckles. My hair was very black, very long and queued. . ."

Much have I scribbled—an industrious bard;
My name on many papers may be seen.
Round many chalk streaked black boards have I been
Where Profs have marked up questionsby the yard.
It might be false to say that all were hard,
For many courses must be puds, I ween.
But in one instance I was knocked out clean
When "forty-fail"—in Physics marked my card.

Then felt I like some poor gymnastic jay
Who hits the floor three inches from the mat.
Or like the lady who on Easter Day
Forgets to take the price tag from her hat.
That "forty" sorely left me stunned that day
And silent near the door of Doctor Pat.

How can I leave thee;
How can I from thee part?
Thou hast my form enclosed—
Made proud my heart!
I read your owner's name:
"Union Department Store,"
And must I send you back—
See you no more?

Five bucks you've cost me,
Just for these three nights' wear;
Freely, I fling the beans—
You've done your share!
Through highbrowed social stream
You've dignified my frame—
(Oh would that I could be
Ever the same!)

Now comes the parting;
Goodbye old suit, farewell!
When shall we meet again—
Ah! Who can tell?
I'll don my old blue serge
And beat it down the track;
Soon, I'll be back at home
In my old shack.

—The Millsaps College, Purple and White

Willie—"Paw, what is a square deal?"

Paw—"That's when you get about ten per cent the best of it, my son."—Cincinati Enquirer.

Just Gossip

While the dances are still fresh in our memory, it may not be amiss to mention the ball room de luxe over the Post office.

If you wish to see nimble-pedaled exponents of teh ultra-modern dances, doing the Walla-Walla Waddle, the Salome Slide, and the Carolina Corkscrew, just wend your way one flight up most any time, and the sight is yours. No fluffy feminines to prevent the sky from being the limit. No dress-suit rules; no irritating "breaks." No restrictions against Freshmen or embryo Vernon Castles. All you have to do is to shuffle to the tune of the Victrola, so that the people down in the Postoffice can count off the seconds while waiting for their mail or use the sound of the shuffles to keep in step and thereby facilitate traffic.

A lively flow of comments from the terpsichorean wooers might be heard:

"What 'chu got those hardboys on for; think you're dancing on sandpaper?"

"Faster, man, faster. If you can't keep up with me, just hit the high spots and let the rest go."

"Your're so slick, you could slid on tacks."

"Bring a mop with you next time. Every time you exercise, your sweat sluice gates open."

"Get off my feet!" "Is it much of a walk?"

If you want to see and hear the fun, step up and take the elevator. Don't crowd! Watch your step!

In the Fresh-Charlotte game, Salmon was far from being canned. He slapped out the swat that gave Odom a thorough ticket.

Some rooms in college have the names of the occupants tacked on the outside. This practice should be made universal. It oft saves the chap with a weak memory some trouble, don't you know. Tag that's it!

FRESHMEN HANG UP TWO SCALPS

Summary—Stolen bases, Young 3, Collins, Kehoe, Feimster. Two-base hits, Jennette. Three base hit, Folger. Double play, Jones to Waller to Bryan. Struck out, by Powell 10, by Pierrotte 6. Hit by pitched ball, Collins. Time of game, 2 hours. Umpire, Lile. Attendance, 1,500.

Old Eli had to shed his coat and swing the bat lustily to win from the Tar Heels last Monday, for Nemo had his slow ball working to perfection and puzzled the gentlemen from the north. Although it was Coleman's first game this season he handed the sphere like a veteran. Several times he pulled himself out of bad holes when men on bases threatened runs for Yale.

The Carolina stick artists were continually baffled by the pitching of Garfield, who started things off badly for the home team, his benders refusing to be touched. The White and Blue refused to brave a circuit journey until the sixth frame, when things were made hot for Garfield. Coleman flied out. Stewart died at first. Herty struck one in the hedge in left and stopped at second. Barnes lifted his customary home run over the fence near the left foul line, two runs ambling across the dish. Roberts ambled, Folger singled, Jennette strolled, and Llewellyn, hitting for Kirkman, whiffed.

Yale had three big innings. In the fourth the first man up popped to Bennett. Weeks muffed the next man's fly who then stole and scored on Munson's hit.

In the sixth Yale got two more. Early beat out a bunt and took second on Lyman's sacrifice. Munson drove the second ball pitched far over the left field fence, scoring Early and himself.

No further scoring occurred, although both teams threatened, Carolina continually. In the ninth a run seemed sure, but Early's pretty catch in left, doubling Pitman at first, smashed all hope of a Tar Heel victory.

TUG OF WAR NEXT WEEK

The Tug of War which was to be held last Thursday, will take place next week, the time being announced in Chapel and proclaimed abroad on the campus.

John Terry, manager of the Junior gang, thinks there will be enough Seniors on the Hill at that time to give his crew a little exercise. Plans have matured for the excavation of a mud-hole through which the—well, Villa Currie, says no! He has infinite faith in the pull of the Sophomore class. Frank Herty, Freshman, contends that a tug of war is the only place where a pull should count for anything.

Rand claims that the Seniors didn't have the heart to drag all three classes through the mud before the fair ladies, and excuses the lack of Seniors for that reason.

J. Earle Harris has been initiated into Phi Delta Theta fraternity.

CAROLINA 3-VIRGINIA 2 IN TEN INNING CONTEST

TIMELY HITTING OF YOUNCE AND COLEMAN TOO MUCH FOR ORANGE AND BLUE

DAVIDSON LOSES FAST GAME

Tar Heels Win from Presbyterians in Game Characterized by Fine Pitching and Neat Fielding by Score of 1 to 0

Before one of the biggest crowds ever witnessing a game in Greensboro, Carolina took a ten inning affair from Virginia by the score of 3 to 2. The score fails to show how the Tar Heels defeated the Virginians. Three pitchers were summoned to the mound by Coach White to stop the onslaught of Carolina bats, but they all looked alike to Coach Hearne's men, fourteen safe bingles being garnered by the Tar Heels. Only poor base running of the Tar Heels prevented a larger score. Every inning except the seventh found a Carolina man harboring on a base, only to remain stranded there.

Too much credit cannot be given pitcher "Nemo" Coleman, and pinch-hitter Younce for the victory, for it was in the ninth inning that Younce batting for Herty who had already had one strike, sent Stewart across the plate with the tying run. Coleman, who relieved Powell in the ninth, held the Virginians at bay throughout the remainder of the game. The game was won in the tenth, when Jennette rapped out a two-bagger to left, his fourth hit of the day. He took third on Feimster's grounder to second base and scored when Coleman drove a clean single over second base. The Virginians were retired in one; two, three order in their half of the tenth.

Powell, who started for Carolina, pitched excellent ball, allowing the Virginians 5 hits, and giving only one base no balls. Eleven of the Virginians were retired by the strike out route during his stay on the mound. Thurman, husky first-sacker of the Virginians, who broke the game up last year, tried it again when in the sixth he drove one of Powell's fast ones into the crowd that surged in right field scoring one of his teammates with Virginia's second score, their first being nothing more than a home-run by White over the right field fence in the fifth inning.

The game was slow at times, due to the large crowd in the field,

(Continued on Page Three)

What's to Happen and When

Monday, April 23 — President Graham in Chapel. N. C. Club in Peabody 8, 7:30 o'clock. Carolina vs. Georgia, Emerson Field, 2:30.

Tuesday, April 24—Dr. H. C. Tolman in Chapel. Y. M. C. A. meeting at 7:15 o'clock. Carolina vs. Georgia, Emerson Field, 2:30.

Wednesday, April 25—Dr. Tolman in Chapel.

Thursday, April 26 — Student Forum in Chapel. Carolina vs. V. P. I., Emerson Field, 2:30.

Friday, April 27 — Music in Chapel.

MILITARY COMPANIES GIVE FIRST EXHIBITION DRILL

REGULAR DRILL HOUR CHANGES FROM 7:30 P. M. TO 4:30 EVERY AFTERNOON

Wednesday afternoon, the first exhibition drill of the students who are taking miltary training was held at Emerson Field. Although the drilling has been going on only a few weeks, a very creditable showing was made.

The companies assembled at 4:30 and after marching around the field, passed in review before Captain H. H. Broadhurst of the United States Army, and Captain L. P. McLendon, of the National Guard. A number of spectators were present. The drilling continued until six o'clock, following out the plan which was inaugurated this week, of training an hour and a half daily.

Captain Broadhurst, who is in charge of the A. and E. military department, seemed very favorably impressed with the rapid progress made here. He is himself a Carolina man. Captain McLendon, also a Carolina alumnus, will probably pay frequent visits to Chapel Hill to help the work along. Seargeant Donnelly, U S. A., now stationed at A. and E., will be here twice a week.

The following students have already left, or are planning to leave college to enlist in the army: A. E. Mayer, Dave Townsend, Tom Borden, Donald Cobb, Orpheus Wright, Leicester Chapman, Hugh Dortch, and Hargrove Bellamy. All except Mayer expect to go into the cavalry, at Wilmington.

At a recent meeting of the Halifax-Warren County Club it was decided to send two student representatives to the two county commencements, one at Warrenton and the other at Halifax. Mr. Forest Miles was elected to go to Warrenton and Mr. S. B. Allen to Roanoke Rapids. Other counties are sending out representatives also.

Mr. Cone's Gift Received by Athletic Association

As a result of Carolina's recent victory over Virginia on the diamond, Mr. Herman Cone, a loyal alumnus of the University, presented to the Athletic Association a gift of $100.00.

It is evident that Carolina alumni are taking an active interest in the University's athletic record for the past year. Three victories over a time honored rival in three different branches of athletics has aroused in many Carolina admirers a more than friendly attitude.

The achievement of the baseball team at Greensboro last Saturday is the first of its kind on the Cone Park field in recent years. A record crowd consisting for the most part of Carolina rooters witnessed this college classic.

Albert M. Coates, having won out in the preliminaries of the Peace Oratorical Contest held here several weeks ago, left yesterday for Greensboro to represent the University in the State Intercollegiate Peace Oratorical Contest.

OVER A THOUSAND HEAR DR. E. K. GRAHAM SPEAK

WORK OF UNIVERSITY IN RELATION TO NATIONAL SITUATION OUTLINED

STUDENTS URGED TO STAY AT COLLEGE AND TRAIN

> "It is our desire and we believe the desire of the government, and the largest and best interest of the nation, that our students should remain where they are until specifically called out. They can serve best where they can learn most. General Leonard Wood has said that the most useful service the college men can render is to stay at their universities. The committee on medical schools, the committee on engineering education also, has strongly expressed the same conviction."

President Edward Kidder Graham outlined to a great audience of 1200 students and townspeople at a mass meeting in Memorial Hall last night the work of the University of North Carolina in relation to the national situation and the present obligations of university students.

After referring to the fact that the splendid response already made by the students here and elsewhere guaranteed that no appeal to patriotism was necessary, he said that the single immediate thought in the mind of the University is "Where and how it can serve best, to that end we reconsecrate ourselves with complete devotion and without reserve to our country's service, and specifically to making ourselves such as to render the best service."

"The immediate problem of an educational institution such as this," declared President Graham, "is to readjust itself to the strange and new condition, and to adapt as efficiently as possible its present means and resources to the gradually developing needs,—both immediate and future—of the national government. The single thought of the University is to co-operate in every intelligent way with the government. To this end it offer-

(Continued on Page Six)

Wofford Loses Second Game to Carolina 6 to 1

At Spartanburg Tuesday, Carolina again bested the fast Wofford team by the score of 6 to 1. The same two pitchers, Kinlaw and Lawton, who twirled on Emerson Field last week, opposed each other at Wofford Park. Kinlaw again had an edge on Lawton, who let up in the fourth and fifth innings long enough to allow Carolina to score five times. Wofford never threatened to overcome this lead.

Younce and Folger had their day with the willow, batting the pill in fine form. Bill got two hits out of three trips to the rubber. He also took two of Lawton's heaves in the ribs. Brunson's two hits out of three trials was a feature for Wofford.

The summary follows:

Two base hits, Feimster, Younce, Brunson. Struckout, Lawton 3, Kinlaw. Hit by pitched ball, Folger (2). Sacrifice hits, Jennette, Kinlaw. Double play, Jennette to Folger. Tome, two hours. Umpire, Mr. Frey.

N. C. STATE COLLEGE PRESS ASSOCIATION ORGANIZED

ELEVEN COLLEGES OF STATE ARE REPRESENTED IN FIRST CONVENTION

A new movement in the interest of college publications was inaugurated when the North Carolina College Press Association held its first convention here last Tuesday. The following colleges were represented: State Normal, Greenboro College for Women, Lenoir College, Meredith, Wake Forest, State College. Davidson, Guilford, Atlantic Christian College, Trinity, and the University. Ten of the delegates were ladies.

Since this was the first meeting of the association the session Tuesday morning was concerned chiefly with organization and the adoption of the constitution. Prof. Thornton spoke on "Efficiency in the Editorial Work and Management of a College Publication." He urged that every paper have a news editor and that its editors be selected as far as possible on merit and interest instead of popularity. He believed that credit should be given for work on college publications and cited the work done in the Journalism Department in the University of Kansas as a model. P. H. Wilson, of Wake Forest told of his experiences in the financial management of college publications.

At the afternoon meeting A. C. Dick of North Carolina State College, said the only way to make a college paper succeed is to get every body to write whether he has genius or not. L. A. Chambliss, of Davidson, discussed various methods of obtaining and selecting material for college publications. M. B. Fowler, of the University spoke at the final session Tuesday night on "The Place of College Publications in College Activities." The college paper, he said must be a "peerless and fearless servant." L. A. Chambliss, of Davidson, was

(Continued on Page Six)

Albert M. Coates Wins Carr Medal in Oratory

The Phi Society proved supremacy over the Di in Gerrard Hall last Friday evening when Albert Coates won the Julian S. Carr medal awarded annually to the best speaker in the Junior Oratorical Contest.

The preliminaries for this contest were held in the two Society halls several weeks ago, and the final clash of the four representatives proved to be both interesting and highly spirited. The speeches were unusually good both in delivery and in the subject matter. The Di Society was represented by H. W. G. Owens with his subject "Our Democracy—True or False?" and W. M. York with "Putting Up the Bars." The Phi Society orators were, W. H. Stephenson with "War to Prevent War" for his subject, and A. M. Coates with "America's Justification."

L. S. Stell, president of the Phi Society, presided over the contest while W. S. Tatum of the Di acted as secretary. Profs. R. L. James, W. D. Toy, and J. G. Beard served on the Committee of Judges.

HIGH SCHOOL DEBATERS AND ATHLETES ON HILL

EIGHTY-THREE HIGH SCHOOLS CONTEST FOR AYCOCK MEMORIAL CUP

FIRST PRELIMINASIES ARE HELD

Pleasant Garden, Waynesville, Mt. Olive, Graham, Mt. Airy, Asheville, Ben on, Wilmington, and Others Successful

Eighty-three high school teams here for the finals in the High School debate,, tennis tournament and interscholastic track emet are preparing for the final contests as the Tar Heel goes to perss.

The campus is crowded with debaters, teachers, and aspiring high school athletes. Up to the time for drawing tols for the positions in debates on Thursday afternoon eighty-three schools had registered their teams. Of this number many teams are here for the third, fourth and even fifth successive years. Pleasant Garden, the first winners of the Ayocck Memorial Cup, are here for the fifth time, as is Statesville and Winston-Salem. Graham also, the last winner of the cup, is here again, while Mooresville, East Spencer, Dixie, Mt. Holly, Selma, Glade Valley, and a number of others are here for the second year in succession.

A full and elaborate program has been arranged for the entertainment of the visitors during their visit on the Hill. The First Year Reserve-Raleigh baseball game at 3:30 on Thursday afternoon gave the visitors a taste of our style of baseball. The Freshmen won easily, 7-0, in a ragged game. At 4:30 the same afternoon the daily drill on the campus showed them the attitude of the University in the present military crisis.

At 7:00 P. M. on Thursday afternoon the first preliminaries of the edbate were held. There were two divisions, one for the negative and one for the affirmative teams, each of which was subdivided into ten sections. The ten winning affirmative teams were: Pleasant Garden, Waynesville, Mt. Olive, Mt. Airy, Asheville, Benson, Gatesville, Wilmington, Graham and Calypsa. The ten

The Knights of King Arthur

Learning the ideals of knighthood, forming the habit of chivalrous action, and going on "Quests" in search of adventure in the woods and fields are the activities of the "K. O. K. A." Though scarcely a year old, this organization of the small boys of town is making itself felt on the campus and in the community. During the have built a number of boxes to spring months the little fellows have been studying bird life, and afford nesting places for their feathered friends. On Friday afternoon they placed a marble bird-drinking fountain on the campus.

The knights of Chapel Hill played their brother knights of Carrboro a game of base ball on Wednesday afternoon. By a score of 7 to 5 they lost their first game of the season, but they have determined to "lick 'em" next week.

ACTIVE WAITING

No man should leave college now and, actuated by the belief that he is thus best serving his country, enlist in the army.

By staying in college, as President Graham said in the mass meeting of Tuesday night and as General Wood has declared, he can be of most use to the United States. The college man has already proved to his country that he is eager to do anything to be of service. When his country really needs him, it will call for him.

In the meantime he should train, strengthen and develop his every faculty in preparation for such a call if it should come. To be eager to serve is not enough; he must also be able. He should do his class work better than ever before. His country now needs more than it needs anything else, "the sinews and steel of men's minds, wit, courage, audacity, resolution, temper, industry, and the like." It needs also men who have the power, as Arnold puts it, to see life steadily and see it whole. For such men the trumpet call has already sounded. And it will sound again.

It is certain that his country needs the college man as thinker. It may also need him as soldier, as a fighter in the field. All of us should train ourselves to fill that need efficiently when the time comes. Every Carolina man except those who are serving or preparing to serve their country in a different way, those who have already had military training and those who are physically unable, every single Carolina man, except those men, should be out drilling with the Carolina companies.

"They also serve who only stand and wait," somebody said. By waiting we can best serve. But it is most important what sort of waiting ours shall be,—blind and slothful waiting or watchful and tremendously active waiting.

A SUCCESSFUL YEAR

Carolina is now approaching the end of a most successful year in athletics. She may look back with the highest pride on her teams and their records in the three most importnat branches of college athletics, football, basketball and baseball.

And yet you doubtless remember that in the early part of last fall the calamity howlers prophesied that we would lose almost every game we were to play during the year. They said it would be impossible to put out a winning team in anything with our lack of material and with our one-year rule.

They were wrong.

With admittedly poorer material in football, basketball and baseball nad with the bug bear one-year rule in football and baseball, we have put out the best, the most successful teams that Carolina has had in a good many years. This year there has been a change of attitude on the part of the varsity players toward their teams and also on the part of the student body toward those teams. It is a fact that the Carolina varsity teams have "played together" better, and that the student body has supported them better, than ever before in recent years.

What is the cause of this? It has been ascribed, and most justly, to Coach Campbell especially and to coaches Cowan, Peacock, and Hearn. Without them a successful year would have been impossible, unthinkable.

Yet there are two other elements which made for a successful year. One is the so-called pernicious one-year rule, the other the purer atmosphere of Carolina athletics.

The one-year rule hsa forced us to depend on the athletic material within our college walls and on than in the prep and high schools of the State. It has made us more systematic, more self-dependent, more efficient, more successful.

The purer atmosphere of Carolina athletics, too, though it may have been purified partly through the influence of the one-year rule and the personality of Mr. Campbell, is itself an important element in the cause of the year's success. Two years ago when Walter Fuller wrote his notorious baseball editorial, the atmosphere was rather murky, and the year was not a most successful one. This year the athletic atmosphere is pure. Every Carolina man in the grandstands during the year has known that the Carolina players on the gridiron, the basketball court and the diamond were not only amateurs but also representative Carolina men, men who have come here to do other things besides make tackles, shoot goals and hit the ball. The student body has, therefore, been in perfect accord with the teams, for it has rightly felt that they were truly parts of itself. This feeling has manifested itself in vigorous support, such as was given, for instance, in the Virginia games. The result has been a big push toward a successful year.

A Correction

The editors in the April issue of the University Magazine reasoned like this: If any man pays seven dollars for a subscription to a daily paper, he wants to read that publication as soon as possible after it leaves the press. Then if any student pays a library fee of four dollars per year for the community ownership of about four hundred publications, which is approximately 1 cent each per year he ought to have the same privileges in the use of the papers as the individual that parts with his seven dollars. It seems to me that this reasoning does not sound of the quality of logic that a college man should use.

The library mail is "up" about one-thirty P. M. The papers are put in the reading room between two and two-thirty P. M. by some student who rushes from his dinner for that purpose. There have been some exceptions to this statement of the case, when the papers did not come in on the usual mail, or most often when some fellow student, in whose behalf the Magazine writes, borrowed the papers from the library box in the Post Office and forgot to return them. Appeals have been made by the library to the Post Office authorities here and in Washington. The boxes have been fixed so that no one except a person who had business in them or a thief could get in. Very often in my efforts to detect the people who would so boldly use other people's property, I have found students reading President Graham's private copy of the Greensboro Daily News as well as the Library mail.

If the Magazine wants to be a helpful factor in college life, let it first search for the truth, and then it might find itself writing editorials on earlier dinner hours or private ownership of the Post Office, or best of all what a college man's ethics should be in regard to the other people's property.

NOT THE LIBRARIAN.

Partiotism Forbids destructive personal pleasures. Cigarette smoking is a destructive habit.

"Patriotism" as Interpreted by the Johns Hopkins News Letter

The following paragraphs from an editorial in the Johns Hopkins News-Letter entitled "Patriotism" is an admirable statement of the intellectual and moral duties of the college man in regard to the great war.

"Yet, as men of a great university, our duty goes far ebyond the mere willingness to make sacrifice. It is not enough that we act; we must think, and think constantly, of the reasons for the act. We must ever hold before our eyes the redeeming fact that the strife and hate into which the world is plunged is not the end in itself, but only the bloody prelude to an era in which the ideals of democracy and justice shall reign in place of the ideals of a narrow nationalism. Even in the midst of the dull, grinding routine of drill, drill which has ofr its purpose the perfection of the technique of slaying, we must keenly realize that we prepare ourselves for organized fratricide only that the blindness which permits that fratricide may perish from the earth.

"If we, as members of the world's thinking class, allow our intelligence to be subverted to our passions; if, in the conflict that is to come, we think only of victory, and not of the reason for victory, the contention of those, who, in the face of a virulent scorn unworthy of democracy, have contended that the United States could have better served humanity by steadfastly refusing to make war, under all provocations, will be justified. Upon us rests the duty of seeing that the calm and noble spirit in which one of the greatest presidents the country has ever known made his plea to Congress that war be declared is preserved, even when the struggle becomes the bitterest, even when the blood-tang of the battlefield rises in our nostrils.

"Nor is the task a light one. It is so easy to regard the nation upon whom we make war as a nation of Huns and Vandals, so perilously easy to believe that, if we conquer that nation, we conquer all the evil that is extant in our civilization. Yet we fight Germany only because, under the German government, the disregard for international law and international morality which the present unorganized state of the world makes possible has become crystallized; for the men in the German trenches, deluded by a militant autocracy, believing that they defend their land against selfish and mercenary invaders, there should be nothing but respect and sympathy. And the cause for which we fight will need far more than the destructive act of subduing a lawless government to bring it final victory.

"It is for us, the men of the universities, to keep these things ever in our minds. It is for us to preach the patriotism which looks not only to the triumph of our armies, but the deeper, truer patriotism which looks to the time when the tenet of the brotherhood of man for which our nation stands shall encompass the world.

CAROLINA 3—VIRGINIA 2 IN TEN INNING CONTEST

(Continued from Page One)

but several double plays livened the play up.

Powell's pitching, Coleman's pitching and hitting, Jennette's four bingles out of five trips to the pate, and Younce, opportune hit were outstanding for Carolina. For Virginia, White with his home run, and Thurman starred.

Summary—Two base hits, Jennette, Thurman. Home run, White. Sacrifice hits, Folger, Feimster. Base on balls, off Powell 1, off Martin 1, off McCall 5, off Carrington 1. Struck out, by Powell 11, by Coleman 1, by McCall 4, by Carrington 1. Wild pitch, McCall. Hit by pitched ball, Rothwell by Powell. Stolen bases, Herty, Rothwell. Double plays, Pritchard to Morton to Thurman; Herty to Jeanette to Folger; Morton to Gwathmey to White; McCall to Pritchard to Thurman. Passed ball, Gwathmey. Left on bases, Carolina 13, Virginia 5. First base on errors, Carolina 2, Virginia 2. Hits, off Powell 5 in 8 innings; off Martin 2 in 2 innings; off McCall 12 in 6 2-3 innings; off Carrington 2 in 1 2-3 innings. Time of game, 2:50. Umpire, Mr. Sisson. Attendance, 5,000.

With plenty of "pep" left over from that memorable game in Greensboro, "Rudy's" band went a notch higher Monday by defeating Davidson 1 to 0 in Charlotte. The game was a pretty exhibition of fine pitching and neat fielding. Carolina got in her good work at the start, pounding out five of her six hits in the first three frames. Coleman allowed three hits but kept them from falling together.

The lone run ('twas enough, it served) came in the second inning. After Feimster and Weeks had journeyed back to the bench via the whiff route Coleman rapped sharpely to right for a base. He stole second and Stewart grounded past second, Boswell allowing the ball to go on to center, Coleman scoring.

Davidson failed to place a man on base until the fifth inning, when Miller singled with one out. Saunders walked but the fire works were cut off when Boswell flew out and Saunders was forced at second by Keesler. With one gone in the seventh, a single, an error, and a base on balls, filled the corners for the Presbyterians but the Blue and White infield tightened up and the Red and Black runners sent "S. O. S." signals in vain.

Rudy and Bill both got two hits out of three trials, one of Bill's going for two sacks. Black's stab of Jeannette's terrific drive in the first with the bases full but with two buried, was Davidson's feature.

The box score and summary:

Our State Department of Agriculture Handicapped

ACCORDING TO THE SPEAKER AT MEETING OF THE NORTH CAROLINA CLUB

That the farmers of the state need a State Department of Agriculture, with increased resources in order to stimulate a greater interest in new methods of agriculture, was shown by J. V. Baggett, of Sampson county, at the last meeting of the North Carolina Club.

"Our present Department of Agriculture is hindered," Mr. Baggett said, "because of its limited resources. The state makes no direct appropriation and the nearest we have to it is an appropriation of $5,000 per year to aid in the production and sale of hog cholera serum. The receipts from the inspection of fertilizers, foods and seeds go to the department. Also the inspection of oil, the sale of cattle from the state farm, and the various products of the test farms constitute sources of revenue. All these receipts in 1915 amounted to $242,391. That these sources of revenue do not furnish sufficient backing for the deaprtment is shown by the fact that for two years its headquarters were in a building ready to crumble to the ground.

"We have seen that the department receives from all sources $242,391, and likewise it returns to the people of the state every cent of this amount in useful information and other forms of valuable service. In 1915 $29,604 went to supervision of test farms and other branches of the department, making North Carolina rank 13th among the states of the Union; $2,679 went to the State Agricultural Society, rank 25th; $4,000 to private associations, rank 18th; $23,258 to farmers' institutes, rank 6th; $91,428 to experiment stations, rank 16th; $32,038 to live stock, rank 27th; $2,687 to reclamation, rank 20th; to all other purposes $56,696, and our rank in this respect was 5th.

"This will show conclusively that the present Department of Agriculture is doing a great work in instructing and stimulating a stronger interest in agriculture as a paying proposition. But not until it has received more support from the people of the state can it hope to render the service that today is making the Western states the agricultural leaders of the nation."

CIVIL WAR CONSCRIPTION RECORDS IN HISTORY DEPT.

The measure now before Congress that may result in a conscription law has caused a great deal of interest to be taken in some papers relating to conscription in the Civil War recently acquired by Doctor Hamilton of the University. The papers are the property of Mrs. Sarah Gray, of Pleasant Garden, N. C., from whom they were borrowed in the campaign of last year to collect all state historical material for the department of History in the University.

The documents are several hundred in number and are the records kept by Dr. C. Gray, who died about a year ago, a physician in the service of the Confederacy for four years, and engaged most of the time in conscription work in Randolph and South Guilford Counties. Besides a detailed account of the activities in enlisting men of which he was in charge, a few of the papers tell of the efforts of his department in locating supplies of niter for use in the Southern Army.

In addition to the loose documents there is a record book containing applications for exemption from conscription and reasons for granting or refusing the petitions.

These records, which the History Department feels to be of considerable value and importance at this time, were located through the efforts of T. C. Wright, a Senior here, from Pleasant Garden. They will be classified and put in order so that they may be consulted if necessary, and everything will be done by the department and the Library to preserve them.

Freshmen Run Over Raleigh High School

The Freshmen made it two straight from Raleigh last Thursday, piling up seven runs, and blanking the visitors. Raleigh secured only two hits off Joyner, pitched great ball, only one man getting to third.

Raleigh made some bad errors at the start and gave the first year men the game in the first frame. The weakness at short was filled in the seventh by Brimley. Morris did well on the mound, and had his support been good the Freshmen score would have been cut in half.

Lewis knocked a pretty one over the center fielder's head in the fifth but failed to touch second, and was called out. Leighton got hit by a batted ball and took to the bench in the third. Nealy, who took short when Odom went behind the dish in the third when Salmon's split finger forced him to retire, played well, getting a hit and scoring on an error. Pell, brother of "Booloo," was the author of a double in the esventh when he caught Odom's fly and cut Henry at first.

The game was short, btu little fast playing was pulled off, clean assists from the infield being few and far between. The popular method of dying was flying or whiffing.

Here he is—good old PEPSI-Cola! The most successful "thirst-killer" that ever was. Never was a thirst, not even one of those dry, "cottony," mid-summer thirsts that had a chance with a PEPSI-Cola.

It just goes like lightning when this tall, tinkly, "ice-bergy" glass of PEPSI-Cola heaves in sight.

PEPSI-Cola

Try it—just see how refreshing and invigorating a drink can be. And don't be selfish—have the grocer deliver a case home so the kiddies can enjoy it, too.

Albert Coates Discusses "College Citizenship"

In an interesting talk to the Young Men's Christian Association last Tuesday evening in the Y. M. C. A. lobby, Albert Coates, of the junior class, pointed out and strongly emphasized the individual responsibility of the students as citizens of a college community.

At the outset, Mr. Coates said that we have here within our college walls a complete community—a community of higher intelligence, offering greater opportunities for advancement in all-round development, than any other community in the state.

Mr. Coates contended that not peace, but righteousness should be our aim as citizens of this great community. We have no written laws by which we are governed; neither have we a Student Council, as policemen, to watch our every action. Our laws are purely and simply those of a gentleman and, as such, are supreme. So long as we faithfully obey these laws we execute a moral obligation to the community. But when we violate them, we give not to ourselves a black eye, but we cast discredit upon the community which we represent as citizens.

In conclusion, Mr. Coates assetred that if, with all the advantage of college life we fail to respond to this spirit, we are past redemption and might as well stay back there on the old farm or continue to loaf the city streets and go on down through life a "nobody in particular," along with the multitudes.

Phillip Jones, of Bangor Maine, has been initiated into Beta Theta Pi.

—but, besides pleasing the taste

Here is a cigarette that, in addition to pleasing the taste, does a *new* thing, the one thing you've always wished a cigarette *would* do—

Chesterfields *let you know you are smoking*—they "*SATISFY*"! And yet, they're *mild*!

It's all due to the *blend*—and the blend can't be copied.

If you don't believe there can be *more* to a pure cigarette than good taste—buy a package of Chesterfields *today*.

"Yes. I have lost six umbrellas in the last two months."—Washington Star.

VACANT LOTS OF UNIVERSITY PUT UNDER CULTIVATION

While the University is preparing men to take the field immediately upon the call of Uncle San, she is also preparing to meet the food situation here. While other people are now planting their back yards with vegetables the vacant lots of the Univeristy are being put into cultivation.

About one acre of the plot of ground back of the Peabody Building is now being planted. Likewise a plot of nearly two acres behind the University Inn is under cultivation.

This gardening is under the supervision of Mr. S. E. Tischler, steward of Swain Hall, and the work is being done by Self-Help students in the afternoons.

The plot behind the Peabody Building will be planted with such vegetables as tomatoes, string and butter beans, onions, beets and squash. Back of the Inn optatoes will be planted exclusively.

Mr. Tischler expects the first crop of vegetables to be ready by the middle of June. This crop will be used in the Dining Hall during the Summer School.

As soon as the first crop is gathered a second will be planted so that the vegetables will mature sometime in August. These will be canned and used during the coming college year in Swain Hall.

Weird Base-running Cost Freshmen Game

Wednesday afternoon, the infants of 1920 were defeated by the seniors 5-4 in the second game of the class baseball series.

Early in the game, the freshmen, by a combination of errors and hits, secured the lead. For seven inings they held the Seniors 2-1; but in the eighth Capps and his infield weakened, and the bases became overloaded with greybeards. With three on, C. S. Harris doubled, scoring three runs; and shortly he himself scored. The Freshmen rallied in their half of the eighth and would have tied the score, but weird base running retired two men. With two on Green tripled to deep center scoring two men but he was stranded on third. The game was featureless, pitching honors being equal between Capps, for '20 and Ranson for '17.

Coach Campbell states that the schedule for class games will be carried out. The games starting as this one did, at three o'clock, or before that time, on account of the drill.

DEVOTION

She—"Would you leave your home for me?"

He—"I'd leave a baseball game in the ninth inning with the score a tie."—Life.

Twinkle, twinkle, little feet,
Of a chorus girl so neat!
How I wonder if those tootsies
Are relieved by Allen's foot-ease!
—N. Y. Tribune.

Wondering Freshie — (seeing Captain Thusandso drill)—"Gee, I think they ought to decorate him."

Cynic—"Yes, with stripes so that he would see stars."

"But, doctor, I never felt better in my life."

"That, sir, is a matter for the health authorities to vote upon. The law assumes every man to be sick until pronounced well."

Just Gossip

This week has been the Freshman's chance to shine. With pompous complacency he has taken his high school friends under his wing and with an air of seniority, has pointed out the landmarks, Phi Beta Kappa marks, easy marks, and al l other marks. He has filled the role of a real "college guy." Every bit of campus knowledge stroed in his sterile, (pardon me!)—fertile brain has been used to further his prestige. He has greeted men he never presumed to greet before. All this to show the credulous high school delegate just how college broadens the mind, the domicile of the mind included.

And the girls! The "femininally" inclined Freshman has been in his element. There were more skirts flitting around Chapel Hill Thursday than there were at the Easter dances. Sure, I counted 'em! Gallop was galloping around with his fair dame. So were the Fords. (Note the jolting fitness of the word gallop.) The Arboretum, benches, drug stores, etc., were in heavy demand. The merchants of Chapel Hill might well start a campaign for a monthly or tri-yearly state-wide debate. Their gate receipts (excuse me, I mean their sales receipts—I went to a ball game today and got balled up) would swell. Well, 1920, you have done yourself proud in extending the glad hand to the visitors fair and otherwise.

Old Sol is on the job again, bringing forth the straw lids, palm Beaches, and lemon ices. If you want to judge the temperature of a never-failing thermometer, stand in the drug store and watch a palm-beach attired human toothpick between you and the sun. You will see the line of color (chocolate-shake brown) against the palm beach and the sun light. The more shakes consumed, the higher the line rises. It's a good index. Try it some time.

Dyer—"Is it the kind of a play you can take a girl to see?"

Ryer—"No, it's the kind you can't keep her away from."—Life.

Lottie—"Do you believe in the power of religion?"

Hattie—"Well, rather! I am at the top of the social ladder since I joined the right church."—Life.

Man—"You'll never get your kite down that way. Why don't you use your head?"

Urchin—Aw, me neck ain't long enough!"—Life.

Artist—"Oh, milkmaid, if you will pose for me I'll give you a dollar an hour."

"Sorry, sir; but I'll getting a thousand a week from a moving-picture concern over the hill."—Life.

NO HOPE

"What's that thing, doc?"

"That's a medicine-ball I bought you."

"Then I'm afraid there is no hope for me."

"Why not?"

"I never can swallow that."—Youngstown Telegram.

Nurse—"Wouldn't you like to go to heaven, Bobbie, and wear a nice gold crown?"

Bobbie—"Not if the dentist is going to put it on."—Facts and Fancies.

HIGH SCHOOL DEBATERS AND ATHLETES ON HILL

(Continued from Page One)

negative teams were Pleasant Garden, Waynesville, Mt. Olive, Charlotte, Sylvan, Laurinburg, East Durham, Wendell, East Bend and Troy. Pleasant Garden Mt. Olive and Wawnesville won both sides. Fro these twenty teams, ten affirmative and ten negative, the two teams for the final debates on Friday night are being selected now (3:30 P. M. Friday.) On Friday afternoon at 2:30 P. M. a group picture of all the visitors was taken in front of the library, followed at 3:00 o'clock by the inter-scholastic track meet, which has been won by Friendsihp High School for the last three years.

At 3:00 P. M. the final debate for the Aycock Memorial Cup will be held in Memorial Hall, followed by a reception at 10:00 o'clock for all the visitors in the Library. The Aycock Cup has been won by the Pleasant Garden, Winston-Salem, Wilson, and Graham High Schools respectively during the last four years.

The interscholastic Tennis Tournament has been partly completed already. Fremont, Normal, Greensboro, Raleigh, Ahesville, Wilmington, Mooresville, Oak Ridge, Cleveland and Warrenton entered for the doubles, and the same teams, with the exception of Mooresville entered for the singles. The Wilmington and Oak Ridge teams won out for the finals in odubles to be held today. orNmal, Wilmington, Oak Ridge and Greensboro seem to have the best chance in the singles, while Asheville and Normal showed up well in the doubles. The doubles finals promise some good fast tennis. Wilmington won both the doubles and singles last year, and so far stand a god chance for repeating the achievement. The various county clubs have given great aid in entertaining the visitors, many of them giving "Smokers" and "Feeds" in addition to housing the delegates.

OVER A THOUSAND HEAR DR. E. K. GRAHAM SPEAK

(Continued from Page One)

ed several weeks ago its all. Every resource of equipment, means and men; it organized voluntary military training, under competent instruction, and complied with the requirements for a Reserve Officers' Training Corps."

President Graham next explained how daily drills are now held, with over 500 students enlisted. This instruction will be steadily developed with the purpose in mind of making it better and more complete training than the government under presen tconditions can give elsewhere. Proper action has been taken in regard to academic credits, curriculum emphasis on military courses, a special faculty committee on Military Affairs, appointed for giving students necessary advice.

President Graham closed with a brief statement of the need for a deep and genuine realization of the personal sacrifice implied in so great a cause as the one at issue, and the immediate summons to a higher level of individual life and energy during the coming years of struggle.

"Ours," he emphasized, "is a larger task than that of the French Revolution, the American Revolution or the American Union. It is the continuation of the supreme issue for which those great causes were fought,—the structure of steps toward a permanent peace that all nations 'under God shall have a new birth of freedom,' and toward a world unity in the great common cause of living together for all mankind.

"Our larger task is peace; our immediate task is war! There is now no alternative for a Christian democracy. There will be no peace till the world is politically organized and it will not be politically organized till the people truly rule. To this great common good we once again pledge our lives and our sacred honor."

BASEBALL SEASON A SUCCESSFUL ONE

TEAM WINS 11 OF 17 GAMES SCORING 89 RUNS TO 55 OF OPPONENTS

E. K. BENNETT CHOSEN CAPTAIN

Team's Batting Average is .248—Kirkman, Younce, Bennett, Barnes . and Jeanette over .300 mark

The well and favorably known "Wop" Bennett has been elected to pilot the Carolina nine for 1917-18. Bennett is one of the best catchers in college baseball and a glance at his healthy average speaks convincingly of his success with the stick. "Wap" is a sure, steady player who suffers no slumps. He's right there in the pinches and on his toes from the time when he first buckles his shin guards until the last ball whizzes over in the ninth.

And while speaking of the team it might be mentioned that several of them have slugged themselves into the Haseball Hall of Fame. Bennett, Barnes and Jeannette are in the .300 class and tSewart escapes by a hair.

The teams average is .248 and it was found quite sufficient to pile up a total of 89 runs against the opponent's 55. Stewart leads in the scoring. The boys have had a most successful season, winning 11 games and losing 6. The percentage is .647. Coach Hearne compliments them on their splendid spirit in keping strictest training which made success possible.

Following is the individual batting averages:

	B. AV.	
Kirkman, 3b ..	.400	(4 games)
Younce, c	,388	(5 games)
Bennett, c	.319	(14 games)
Barnes, lf	.317	(16 games)
Jennette, 2b ..	.311	(17 gaems)
Stewart, cf ...	.298	(17 gaems)
Coleman, p ...	.286	(5 games)
Folger, 1b ...	.262	(17 games)

Fresh Inter-Society Debate

The freshman intersociety debate will be held May 2 in Gerrard Hall. The query is: Resolved: That all corporations engaged in inter-state commerce should be required to take out Federal charters, it being conceded that such a requirement would be constitutional and that Federal license should not be available as an alternative plan.

The Dialectic Society upholding the affirmative is represented by S. H. Willis, and R. W. Pulliam. The Philanthropic Society with the negative is represented by R. F. Phillips, and O. R. Cunningham.

The following men trying out for nominations to the Tar Heel board have done exceptional work in the contest—W. B. Jones, J. M. Gwynn, R. L. Phillips, Bryce Little, E. J. Burdick, E. Niemaan, W. Dowd, C. R. Toy, Anderson, R. L. Young and R. W. Madry.

MANY SENIORS WILL GO TO FORT OGLETHORPE

Much interest has been manifested among the students within the last few days on the announcement of the Government that a Reserve Officers' Training Camp will be established at Fort Oglethorpe, Ga., the Plattsburg Camp having been called off.

The purpose of the Oglethorpe Camp is to train officers who will in turn train the 500,000 or more men to be called out either under the conscription or volunteer system within the near future.

The applicant must be at least 20 years and 9 months of age, must be physically fit to endure severe military service, and must have three good recommendations.

Each man attending must enlist for a period of three months, and at the expiration of this term will be obligated to accept such appointments in the Officers' Reserve Corps as may be tendered him by the Secretary of War.

The Government will furnish transportation to the Camps and subsistence during the training period. All attendants, however, are urged to furnish their own uniforms in advance, if practicable.

The Camp opens May 8, and all those desiring to attend may secure application blanks from Mr. Bullitt or Mr. Burgess.

At a meeting of the senior class Wednesday practically two-thirds of the members signified their intention of attending Camp Oglethorpe and doubtless many undergraduates will join them.

Carolina Represented in Golf Tournament

Last Saturday Carolina was represented for the first time in an inter-collegiate golf tournament. On the Greensboro Country Club links, Strange of Carolina contested with Compton of Virginia for the championship of the tournament in which a number of colleges entered. Compton won only after the contest was carried to the 19th hole.

The preliminary contest was held Friday. In the semi-finals Compton defeated Clarke, of Davidson, and Strange won over Howard, of Davidson. A large number of spectators witnessed the fin-

(Continued on Page Five)

TEAM SHARES HONORS WITH GEORGIA—LOSING LAST GAME

Tar Heels Out Class Crackers in First Game 5-0—Loose Second, 10-1, —Visitors Hit Hard

On last Monday, Carolina laid the first game with Georgia on ice to the tune of 5 to 0. The one-sided contest was featured by the all-around playing of the home team. Powell, who received errorless support, twirled in masterful fashion, holding the Crackers to three scattered hits, and causing eleven men to breeze the ozone. Only thirty men faced him during the game. He also gave the pill a ride for three sacks in the seventh. Feimster's stop in the seventh, of Rawson's hot grass clipper and the fast double play resulting therefrom, was a snappy feature. Stewart had a big day, getting three hits out of four times up.

Georgia's side of the story can be told quickly. In five innings their men went out in one, two, three order. In the other four frames, three men reached first, and one reached the second station. In the fourth Wooten rolled a long one through the center-field fence. He had oodles of time to circle the paths, but ground rules brought him back to second. The three errors of the visitors materially helped the score of the White and Blue.

Carolina tallied in the first frame. Stewart nicked Westbrook for a single, Herty popped

(Continued on Pagé Six)

DEAN H. C. TOLMAN DELIVESS EXCHANGE LECTURES HERE

Dean H. C. Tolman, of Vanderbilt University, spoke on "The Achievement of Life" in Gerrard Hall Monday night. His addresses here at the first of the week were the last in a series of exchanges lectures between Vanderbilt and the Universities of South Carolina, North Carolina, and Virginia.

Dean Tolman said that the achievement of one's existence was the attainment of the educational ideal, which was the drawing out of one's life so that the larger messages of the universe could be caught. "It doesn't make so much difference what you are learning but how you are learning. Always follow the sign manual of life, 'learn so as to live, live so as to learn.'"

Continuing the speaker said the struggle for education is guided by three great principles: the law of wisdom through struggle, the law of expansion through receptivity, and the law of growth through self-giving. He said that the law of struggle was the old doctrine of the survival of the fittest, and if it held true in the great educational ideal then an education was not the accumulation of facts, for this would reduce a man to the level of a phonographic plate. Life is divided into three parts: choice, habit, and

(Continued on Page Two)

ATHLESIC ASSOCIATION AMMENDMENTS WILL BE VOTED ON AT MEETING TODAY

Athletic Council Approves and Supports the Proposed Changes

TAR HEEL ELECTIONS TO BE PUT ON BASIS OF MERIT

The following amendments to that portion of the constitution of the Athletic Association dealing with the Tar Heel will be voted on at the meeting of the Athletic Association this afternoon.

The Athletic Council has already given the amendment its approval.

From its beginning the Tar Heel has been incalculably hampered by its antiquated system of electing its associate editors and of dividing the work among its staff,—a system which was out-of-date even in 1896.

The passing of the amendments will, in all probability, be a great step towards making the Tar Heel a better and more useful paper.

Amendments number one and number two, if passed, will immediately go into effect, and the Association will vote for the two Assistant Editors, the Assignment Editor and the Desk Editor.

Amendment number three can not, of course, go into effect until next year.

The proposed amendments are as follows:

1. The office of Managing Editor shall be divided into two offices, Assignment Editor and Desk Editor.

The Assignment Editor shall be the head of the news stuff. He shall call the meetings of the board, assign all appropriate campus happenings and overlook nothing that should have a place in the Tar Heel. He must see to it that the Associate Editors hand in their assignments to the Desk Editor promptly. He should be a senior and should have served on the board before his election.

The Desk Editor shall correct copy and proof, write headlines and make-up the paper. He should be a junior and should have served on the board before his election.

2. In addition to the Editor-in-Chief, two Assistant Editors shall be elected. Their sole duty shall be to write editorials. They should be men of sound judgment and interest in University affairs, capable of agitating the problems of the campus and leading the opinion of the student body. They should be seniors. It is not necessary that they should have served on the board before.

3. A well-advertised Tar Heel contest shall be held each spring, open to all Carolina students and supervised by the Assignment Editor. The copy handed in by the contestants shall be preserved by the Desk Editor and at the end of the contest presented to a committee of judges who shall select the ten who have done the best work. These ten shall be the Associate Editors for the following year. The committee of judges shall be composed of the Athletic Council, the Assignment Editor, the Desk Editor and the head of the Journalism Department.

LETTER AND STAR MEN FOR 1916-17 SEASON

The Athletic Council held an important meeting on last Thursday night.

The following men were awarded basketball letters or stars, Raby Tennent, C. G. Tennent, E. C. Grandin, Shepperd, McDuffie, and S. B. Tanner, a Manager's Monogram.

The following members of the baseball team were awarded letters or stars: Stewart, Barnes, Herty, Bennett, Folger, Jeanette, Feimster, Weeks, Powell, Llewellyn, Coleman, Kinlaw, Roberts, Younce, Kirkman, Proctor, and a Manager's Monogram to Allen.

The freshman class numerals, 1920, were awarded the following: Salmon, Spruill, Henry, Cordon, Odom, Leighton, Moore, Lewis, Harden, Arrasmith, Neeley, Joyner.

Tennis letters were awarded the following: C. H. Herty, Jr., a letter; A. H. Combs, star.

(Continued on Page Five)

Tar Heel Nominations

The Athletic Council makes the following nominations for Tar Heel Officers:

Editor-in-Chief—C. G. Tennent, W. H. Stephenson.

Assistant Editors—R. F. Mosley, A. M. Coates, A. I Oettinger, W. G. Burgess.

Asignment Editor — Sephenson or Tennent or C. B. Holding.

Desk Editor—Clarvoe, Fitzsimmons.

Associate Editors — W. B. Jones, J. M. Gwynn, R. F. Phillip, Bryce Little, E. J. Burdick, W. E. Price, F. G. Miles, C. R. Toy, Whiting, Wolf, Banks Anderson, R. L. Young, Norris, H. V. Koontz, E. Neiman, Robt. Wunsch, R. W. Madry, W. Dowd, Miss Liddell, Grigg, L. Harvey.

The Guilford County Club gave a "Feed" last Friday night, the 21st, in honor of the visiting debaters.

"What's all that fuss behind the Y. M. C. A. every Saturday afternoon."

"O! that's Peter Wunsch drilling his infantry."

PROPOSED AMENDMENTS

To make the Tar Heel a better paper is the sole object of the proposed amendment to the constitution of the Athletic Association printed elsewhere in this issue.

This, in brief, is the substance of the amendments:

1. The office of Managing Editor should be divided into two offices: Assignment Editor and Desk Editor.

2. There should be two other editorial writers besides the editor-in-chief.

3. Associate Editors should be chosen through competition on a basis of merit and willingness to work, and not by popular election on a basis of popularity and political pull.

Whether the Tar Heel will continue to be a second rate paper of a first-rate University as it always has been or whether it will come to be a first-rate paper of a first-rate University depends on whether you kill or pass the amendments at the next meeting of the Association. Think about them and give them a fair consideration.

There can be no objection at all to number one. Everybody who knows anything about it at all knows that the Managing Editor, poor devil, is always the hardest-worked man in College. He has to call meetings of the board, keep up with all the news, make all assignments, correct proof and copy, write headlines and go over to Durham and make up the paer, besides having to do everything that everybody else on the board fails to do through laziness, absence, etc. These are a few of the things he has to do for the Tar Heel every week. This system is unfair to him, because it overworks him; it is unfair to the Tar Heel, because one man can not do well all the Managing Editor has to do; it is unfair to you, because it gives you a paper that is not as good as you should get. It is a job not for one man but for two men, and two good ones.

Number two, like number one, needs no defense. Under the present system, one man writes all of the editorials of the Tar Heel during the whole year. The editorial page is therefore necessarily narrow in scope and in view. He inevitably gets into a rut more or less narrow, according to his personality, and writes of the same problems in the same way. It gets monotonous both to author and reader. The addition of two editorial writers would make the editorial page fresher, liver, broader,—its usefulness would be trebled.

Number three has been objected to,—and we regret to say that it has been objected to, for by the objections that it made to it the student body of 1914 cast a serious reflection on its own intellect. The present method of selecting the Associate Editors is so obviously absurd, so manifestly farcical, so criminally inefficient that it seems almost unbelievable that it is used in an up-to-date University.

Here it is: Twenty men are nominated, many of whom, possibly all of whom, have no desire to be on the Tar Heel Board and no aptitude for the Tar Heel work. You vote for ten of them, though you have no idea what they are supposed to do or which are best qualified to do what they are supposed to do, whatever that may be. You naturally vote for the fellows you know personally and like. The most popular man or the man with the political pull gets the job every time, not the man who can do the work. Isn't it absurd? The result is—well, nobody knows how much it has hurt the Tar Heel.

In 1897, Mr. E. K. Graham, then Editor-in-chief of the Tar Heel, wrote as follows: "Competition will prove ability and guarantee interest. That other colleges believe this to be true is shown by the fact that Carolina is practically the only institution of its size in the United States that does not have competitive try-outs." In 1914, Walter Fuller said: "But the main point is, every member of the student body will have a chance on his merits to win a place." Why the amendment was not passed by the student body in Mr. Graham's time, we do not know. It was killed in Fuller's time by such arguments as these: "The efficiency man is not always the satisfactory man," and "so nearly an autocratic system has no placed in a democratic community anyway." The former argument amounts to this: "Get the men who can't fill the positions; they are the kind you want." The latter is quite as absurd. It calls a system in which every man gets an equal chance and in which merit is the deciding factor,—it calls such a system "autocratic". If anything ever was democratic that is it, everybody getting an equal chance and the best man winning, judged by the committee of representatives which you yourselves select.

And remember that this change would be, after all, not such an awe-inspiring thing. At most it would affect only the method of choosing the Associate Editors and would not affect at all the method of electing the Editor-in-Chief and other Tar Heel officials.

University Faculty for Selective Draft

The faculty of the University of North Carolina, at its last meeting, passed the following motion in regard to the principle of selective draft in the military service: "Resolved that the secretary of the faculty inform the North Carolina Senators and Representatives in Congress that the faculty of the University of North Carolina strongly favors the principle of selective draft for the miltary service of the United States of America."

The faculty also took action on the matter of students leaving for the Oglethorpe Camp before the end of the school term and voted to give full credit for the remainder of the present school term to those who qualify for the camp. Credit will be determined on the basis of work already done, and grades will be given accordingly.

Partiotism Forbids

destructive personal pleasures. Cigarette smoking is a destructive habit.

DEAN H. C. TOLMAN DELIVERS EXCHANGE LECTURES HERE

(Continued from Page One)

character. Choice is made between the false and true which repeated becomes habit and through habit crystallizes into character.

"The law of receptivity causes a man to listen to the still small voice of wisdom and leads him into closer touch with the universe. The law of self-giving rounds out the educated man's life so that he can see life, not by piecemeal, but in one great and grand whole. The choice of life is between selfishness and altruism. In all this struggle do not forget that inspiring instinct-faith. This is a principle that will guide, direct, sustain, and inspire you and point you to the stars."

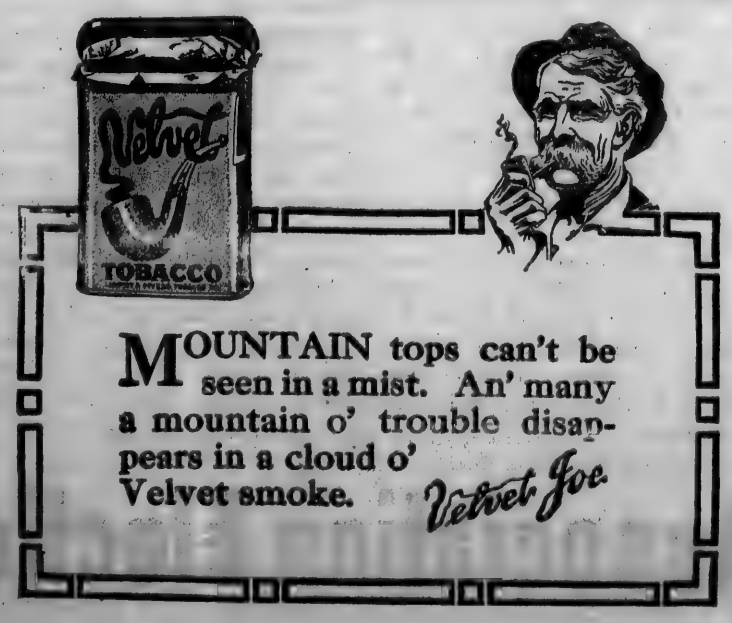
Dean Tolman was once a member of the faculty here, being the professor of Sanskrit and acting professor of Greek in 1893-'94. While here he organized the Alpha Theta Phi scholarship society which later received a charter from Phi Beta Kappa. Doctor Tolman is the author of many books on the classics as well as the editor of numerous classical works. He is now the editor of the Vanderbilt Oriental Series.

On Wednesday night in Davie Hall Dean H. C. Tolman of Vanderbilt presented a short illustrated lecture of the shrines of Hellas. He prefaced his illustrations with a few remarks on the temples of the Orient and how the home of the Gods was always associated with high places, lofty and inspiring structures. Several views of the Acropolis of Athens were then thrown on the screen.

A close-up view of the Parthenon was shown, Dr. Tolman pointing the principles involved in its architectural design, and its wonderful symmetry and proportion. The Theseum and the temple of Victory were also shown and commented on as examples of the wonderful instinct of the Greek artist for architectural proportion. Following this came slides and a discussion of freizes and the decorative work about the temples. The Parthenon was again shown and discussed by Dr. Tolman as the perfection of Greek art.

The Parthenon, said Dr. Tolman, is a living symbol of one of the great laws of life which we must obey to arrive at any great achievement; namely through struggle comes perfection. Dr. Tolman then turned to the pediments of the Parthenon. Several sldies wre shown depicting the different figures of the pediments and the artistic perfection of their shapes. Interior views of the Parthenon were next shown with a reconstruction of the Great Statue of Pallas Athene and her chamber.

The last picture shown was a reconstructed view of the great emple of Zeus at Olympia, with the Phidian statue of Zeus in the foreground, a statue from the standpoint of sculpture, easily the world's masterpiece. In closing Dr. Tolman referred again to the law that through struggle comes achievement, and pointed out how the Greeks through struggle gained that achievement and, in the words of the Latin Lucretius, "just as runners in a race passed on the torch of life."



Tandy-Lloyd

It was a pleasure for the many friends of "Yank" Tandy on the Hill to learn that on the twenty-first of April, Saturday last, he was married to Miss Elise Lloyd, of Durham.

The ceremony was performed at the Episcopal church at nine in the morning. "Si" Parker, noted cheer leader, was best man, with Miss Mary O'Brien, of Durham as maid of honor. Aubrey Elliott served as one of the groomsmen.

Mr. and Mrs. Tandy left on the 9:50 train for Asheville, where they will remain for two weeks. They will make their home in Durham.

Mr. Orpheus Wright was on the Hill last week.

CLASS CHAMPIONSHIP WON BY STRONG SENIOR NINE

JUNIORS LOSE RAGGED GAME TRYING FOUR MOUNDSMEN SCORE 22 TO 4

The fast senior nine took another stride towards the class baseball championship last Saturday afternoon by defeating the Juniors squad in a ragged exhibition, 22-4.

The chief difficulty of the Juniors seemed to lie in their pitching staff, four twirlers being used without success, while six scores were forced across by their inability to locate the plate. The fielding of the entire Junior team was poor, also, though they hit well at times. The main features of the game were the heavy opportune hitting of the Seniors, and their fast work in the field, two double plays being pulled off and only two errors chalked up against them. Just before the game the Juniors got together and elected M. R. Rollins captain

Five Men are Sucessful in Gymnasium Try-outs

Before a small audience Saturday night the gymnasts were given a tryout for their N. C.'s. All of the five candidates proved themselves capable of high class work and will be recommended to the greater council for their letters. The candidates were first put upon the worst horse available but the beast could not down the "Huskies."

The program consisted of a number of difficult feats on the horse, parallel bars, horizontal bars, rings and the mat.

Ravenel, '18, won first place with 484 points. Travis, '20, was second with 480 and Rendleman, '18, third. C. H. Butts and B. H. Siddall also completed the requirements for a letter in the gymnasium.

Coates Wins in State Peace Oratorical Contest

Albert M. Coates, representing Carolina in the sixth annual Intercollegiate Peace Oratorical contest held at the State Normal College at Greensboro Friday night, was declared the winner and received the first prize of $75.00. The second prize was won by J. L. Crumpton, of Elon College.

Mr. Coates spoke on "America's Contribution to Peace." He showed that the United States was closely related to the other nations of the world and that the old idea that our country could exist without interference from the countries across the water has been proved untrue. "America" he said, "has taken the first step toward international peace by entering the war."

As winner of the state contest, Mr. Coates enters a second contest, participated in by the representatives of a group of states. This contest is to be held at an early date. The winner of this will enter the final to be held at the meeting of the twenty-second annual Peace Conference at Lake Mohonk, N. Y., on May 16. The prize in this contest is $100.00.

The judges at Greensboro were Mrs. C. D. McIver, J. D. Wilkins, Rev. L. G. Folk and E. M Oettinger. While they werec hoosing the winners, the chorus of Normal girls started "America." The audience rose and joined in the singing.

The other colleges that were represented in the contest are Davidson, Lenoir, Atlantic Christian College, Trinity and Wake Forest.

AYCOCK MEMORIAL CUP WON BY WAYNESVILLE

VINSON SMATHERS AND ROY FRANCES DEFEAT MOUNT OLIVE HIGH

FRIENDSHIP WINS TRACK MEET FOR FOURTH TIME

Wilmington Wins Singles in State High School Tennis Tournament
Oak Ridge Wins Doubles

On last Friday night the fifth annual contest for the Aycock Memorial Cup was held in Memorial Hall before a crowd of University students, debaters, and teachers from all parts of the Old North State.

The college band furnished inspiring and patriotic music, and was a source of much enjoyment until at 8 o'clock President Graham, Secretary Rankin, Prof. M. C. S. Noble, Hon. R. O. Everett. and the Waynesville and Mount Olive debaters entered the hall, and marched forward to the stage which was decorated with small pine trees, ferns, and dogwood overhung by the state and national flags.

President Graham in a short address welcomed the High School students to the University. He stated that the college's attitude toward the debaters was one of sincerest welcome, and the question which was foremost in our minds at all times was "what can we do for you?" He expressed his approval and satisfaction of seeing an ever increasing member of girls taking part in the debates. President Graham also paid high tribute to the work of the North Carolina Debating Union under the talented leadership of Mr. E. R. Rankin.

The debate this year was upon Government Ownership and Operation of the Railways, and of the 92 counties, and 325 schools entering the contest, the affirmative of Waynesville high school and the negative of Mount Olive high school were the final contestants. Messrs. Vinson Smathers and Roy Frances represented Waynesville; while Misses Gladys Andrews and Emma Lindsay were the Mount Olive representatives.

The speeches were crowded with facts, and showed upon what qualities they had stood the severe test of competition. The debaters had perfect mastery of their platform bearing, and were never at a loss for a gesture or word. The rejoinders were good—showing a detailed knowledge of the finer points of the question. The judges decided by a 3 to 2 vote that the affirmative won.

The Aycock Cup was presented to Waynesville by Hon. R. O. Everett, of Durham, a graduate of the University, and one of the state's foremost young lawyers.

After the debate, Prof. M. C. S. Noble, a noble athlete of former days, presented the cups and medals won in the state-wide track meet of Friday evening. Friendsihp High School, for the fourth consecutive time, was winner of the State meet. Following Prof. Noble's entertaining talk and the delivering of the trophies of victory, the high school representatives, their University and Chapel Hill hosts and hostesses, repaired to the Library where an informal reception was given for them.

Of the 331 schools taking part in the State Triangular Debate, 74 were represented at the University. Of the 296 debaters who were our welcomed guests 101 were girls. Last week was a pleasant week to the debaters, a welcomed week by University students, and a great week for Carolina.

ATHLETIC EVENTS

The State High School Week, on last Saturday closed the best and most promising year of its existence so far as athletics are concerned. Unusually good showings were made in both track and tennis. Two new records were hung up in the track meet, while some fast tennis was staged, some that would do credit to many of our players here.

STATE H. S. TRACK MEET

Last Friday afternoon, Friendship high school won the Interscholastic Track meet, this making the fourth successive year for that school. Friendship totalled 40 points, and took five first places. The state high school record for the hammer was broken by G. Isley, of Friendship, who threw it 136 feet.

Hillsboro came second with 29 points, and Chapel Hill third with 16 points. Huntersville made 9 points, Rowland 6, Tarboro 5, and Belmont 4. Browning, of Hillsboro, broke the State High School record in the pole vault—ten feet, six and one half inches. The relay was won by Friendship in a fast finish against Chapel Hill, time, 3 minutes, 53 2-5 seconds.

On the whole, the meet was the best seen here since this meet was first staged, four years ago, and much improvement over last year results was noted. The 100 yard dash was won by Suitt, of Chapel Hill, in 10 3-5 seconds.

TENNIS TOURNAMENT

The finals in the High School Tennis Tournament, both singles and doubles, were played last Saturday morning. The singles were won easily by the Wilmington High School over Asheville, 6-1, 6-2, 6-2, in three straight sets. Oak Ridge, Greensboro and Normal also showed up well in the singles. This makes the second time that Wilmington has taken off the honors in singles.

The doubles were played in the afternoon between Wilmington, last year's victors, and Oak Ridge, and it was a very pretty exhibition of tennis. Oak Ridge won out finally, 6-2, 6-4, 4-6, 5-7, 10 8, but the sets lasted until almost dark. Both teams showed good form, and excellent recovery, time and again saved points for each side. Oak Ridge had the edge on Wilmington in both serving and teamwork. The tennis players all showed a marked improvement over last year.

FRESH TROUNCE JUNIORS IN SNAPPY CONTEST 6-3

In a snappy game, Thursday afternoon the Freshman nine trounced the Juniors 6-3, the game being much more interesting than the score indicates. The freshman had their one big inning in the second, when two hits, coupled with four errors, netted them four scores. After that the Juniors recovered their form and played airtight ball. The third year team threatened constantly, but inability to hit in the pinches proved fatal. The Juniors garnered nine, and the Freshmen seven hits each. Durham, for the Juniors, pitched an excellent game and, with proper support, would have won easily. He also secured 3 hits. For the freshmen, Grandin starred, hitting fiercely and fielding well, while Capps also pitched a good game.

OUR DUTY—

Fort Oglethorpe!

Both of the business managers of The Tar Heel have planned to leave for Oglethorpe about the 5th of May.

The Tar Heel must be out of debt by that time. The printer must be paid.

There's only one way to make this possible.

Each man pay his $1.50 due The Tar Heel for subscription. It's not much. Let's have it.

Every advertiser will gladly pay his bill.

Respectfully,
M. B. FOWLER
C. S. HARRIS

TAR HEELS WALLOP PILL IN SOUTH CAROLINA GAME

FOUR HOME RUNS WITH NUMEROUS TERRIFIC HITS TALLY UP 14 RUNS

The North Carolina aggregation exhibited some more of their heavy hitting ability last Saturday and defeated the University of South Carolina in a long and drawn out game, by a score of 16 to 6.

The Tar Heels started things in the second frame, when Bennett initiated the terrific onslaught which resulted in nine runs before they allowed themselves to be chased back into the field. In the same inning South Carolina came up and secured two tallies, but at no time did they threaten to overcome the big score of the visiting team.

Jeanette and Folger, not content with the batting average they already had, took this opportunity to fatten their averages up a little. Jeanette got four hits out of five times up, and Folger three out of five, two of which were home runs. Coleman and Barnes pounded out one each for a complete circle.

Senior Twirlers Best Soph Sluggers 7 to 2

The Seniors and Sophs mixed it up on Emerson Field last Wednesday, and when the bugle sounded while the seventh inning was in progress the scoreboard showed 7 to 2, with the Seniors on the long end.

The twirler for the Seniors made monkeys of the bloody Sophs for several innings, putting them to sleep in one, two, three order. In the seventh Burnett doubled, Clarvoe singled, scoring Burnett, and Taylor singled scoring Clarvoe. Bell's out finished the game.

For the Sophs, Pippin pitched great ball, fanning twelve. Most of the Seniors' tallies came as the results of errors on the part of the Soph catcher. The Seniors made four runs in the second on passed balls back of the dish. A failure to touch second prevented two runs by the graduates in the third.

TIME SAVERS!

Every student wants to be *efficient* in all his college *work*.

In order to accomplish this, he must save time intelligently.

He must take good notes on class, because it is the only way to get it all in a brief and concise manner. Studying for *Exams* is then easy.

He must always have *pens, pencils, ink, note books, memory pads, paper.*

Then we want to *save all our good times.* Always have a Kodak and films at hand.

HOWARD SHARP EXPLAINS "THE Y. M. C. A.'s MISSION"

"The Y. M. C. A. and Its Mission" was the subject of Mr. H. D. Sharp's very interesting talk to the Young Men's Christian Association at its regular meeting last Tuesday evening in the Y. M. C. A. lobby.

In the beginning, Mr. Sharp stated that he knew of but few things more inspiring than the contemplation of an institution.

"Men," said he, "join an institution because there is that within themselves that harmonizes with the idea which the institution is they have that in common which binds them to the execution of a common purpose. And the result is that men are willing to lay down their lives for the institution to which they have allied themselves. The same spirit that is leading millions of men in Europe to shed their blood in support of their political institutions does, in a larger or smaller degree, dominate every member of every institution. And the institution ofttimes seems even more sublime than the idea around which it is built.

"The Y. M. C. A.," continued Mr. Sharp, "is inspiring and sublime, because it is the institution that stands as the crowning step in the religious thought of the world, because it represents the same idea in the religious activity that the American Union represents in the realm of politics, because it stands for democracy in religion.

"The Y. M. C. A. is the culmination of centuries of experience in religious organization. Its mission is to help, and its method of fulfilling this mission is to lead men to help not only themselves but others as well. How well it is fulfilling this mission, you all know. How well it will fulfill it in the future depends upon you. In a community such as ours, nothing can better strengthen any man than the responsibility that this idea carries with it."

DRAMATIC PRESENTATIONS FEATURE ANNUL PAGEANT

NEW OUT OF DOOR THEATRE IN BATTLE PARK SCENE OF FESTIVITIES

On Thursday, May 3, a very unusual performance of three plays will take place in the outdoor theatre of the University which has just been completed in Battle Park. In many ways the afternoon will be an unique one.

In addition to the dramatic presentations there will be folk songs and dances by the school children and ballad singing and orchestral overtures by a few members of the University Glee Club and Orchestra.

Two of the plays are written by students and portray life in Chapel Hill in the nineteenth century. The first, a farce-comedy, by H. Copenhaver, a one act play, will be presented by Mrs. Beard, J. A. Capps and J. Y. Jordan. The second, a two act comedy, by P. Green, will be presented by the Omega Deltas. It is a plot taken from Dr. Battle's history—a story of the civil war in which Governor Swain, whose personality was almost world famous, figures considerably and where there are of course lovers, etc. The cast is as follows:

Pres., Ex-Governor, Dr. Swain, F. A. Clarvoe; Eleanor, his daughter, Mrs. Stedman; Prof. Hinton (Latin Dept), W. D. McMillan, Jr.; Gen. Atkins, (of the Federal Army), C. G. Tennent; Mammy Jane, Mrs. Campion; Chaplain, W. H. Stephenson.

Shakespeare's *Twelfth Night* will be presented with the following cast:

Viola, Miss Elnora Wilson; Maria, Mrs. Foerster; Olivia, Miss Avery; Duke, Cecil Rymer; Sir Toby Belh, Hubert Smith; Malvolio, Sam Fisher; Sir Andrew Aguecheek, Avon Blue; and others.

The stage is beautifully located and its natural scenery compares very favorably with any in the United States and far surpasses anything of the kind in this state.

The University will be host on next Thursday to the Federation of Women's Clubs of North Carolina who will come over from Durham especially to see these remarkable out-of-door performances.

Dr. Pratt to Attend Defence Conference

Dr. Joseph Hyde Pratt, named by Governor Bickett to attend a National Defense Conference called for by Secretary of War Newton Baker, to be held in Washington, May 2, at which all the States will be represented.

A telegram to the Governor from the Secretary of War, explaining the purpose of hte conference, reads:

"A national defense conference to consist of one delegate from each State for the purpose of considering the relations of State and Federal activities in the prosecution of the war and the method of organizing State and local defense committees and their co-operation with the council of national defense will be held in Washington at the Secretary of Wars Office on Wednesday, May 2, at ten o'clock, and I request that you send as a delegate the head or some representative of your State council of defense or similar committee if such has been appointed and if none has been appointed that you send some one to represent you thereat."

CAROLINA REPRESENTED IN GOLF TOURNAMENT

(Continued from Page One)

al struggle. Compton and Strange gave an exhibition of exceptionally good golfing. The two remained neck and neck during the whole contest, and it was necessary to continue to the 19th hole before one could be declared the winner.

This event will in the future be an annual contest between the colleges of this section. The association to govern future tournaments was organized Friday. Dr. H. B. Arbuckle, of Davidson, was elected president, and E. C. Grandin, of Carolina, was chosen secretary. Next year the tournament will be held two days before the Virginia-Carolina game. The final will take place the morning of the day of the game in Greensboro.

LETTER AND STAR MEN FOR 1916-'17 SEASON

(Continued from Page One)

Track monograms to the following: Nims, a letter; Upchurch, a star; Crowell, a Manager's Monogram.

A committee was chosen to report to the Council the exact and classified expenditures of the past athletic year. The committee is composed of Bell, Armstrong, and Polk.

It was moved and carried that no baseball material, suits, etc., be loaned out to players after the end of the season.

The Council recommended the following provisions for a new system of electing officers of the Association:

Section One — Nominations— All nominations save those made at present by the Athletic Council shall be made during Chapel on some day previously announced, at least two weeks prior to the election and the names of these nominees shall be published in the two succeeding issues of the Tar Heel. Should an insufficient number of men be nominated, the Athletic Council shall make such nominations up to two nominees for each office.

Section Two — Elections — (A) Ballot—The President of the Association shall have printed, prior to the election, a sufficient number of ballots on which the names of all nominees shall appear in order of nomination under the offices for which they are nominated. Specific instructions for marking the ballot shall be printed at the bottom of the ballot in small type.

(B) Polls—There shall be four polls—one stationed in front of Chapel; one at the Law Building; one at the Medical Building; and one before the Pharmacy Building. These ballot boxes shall be locked during voting hours and shall be opened only by the judges of the election. At each poll some man, designated by the President of the Association, shall remain during voting hours who shall have charge of the ballot boxes.

(C) Time—On election day the polls shall remain open from 2 P. M. to 5 P. M.

(D) Validity of Ballots—Each ballot shall be signed with the full name of the voter. Ballots not so signed shall be discarded. No person shall be permitted to vote by proxy. In the event that a part of the ballot is so marked that is ambiguous, only this part of the ballot shall be discarded.

(E) Judges—The President of the Association together with a committee of not less than four, appointed by the President shall constitute the judges of the election. They shall supervise the counting of the ballots, shall determine the validity of all questionable ballots, and shall determine and announce the results of the election.

(F) Plurality—A plurality of votes shall, in all cases, be sufficient to elect.

TEAM SHARES HONORS WITH GEORGIA—LOSING LAST GAME

(Continued from Page One)

out Barnes whiffed, Bennett singled to left and took second on the fielder's error, while Stewart galloped home. After Folger strolled, Jeanette grounded out.

In the third division, Stewart again started things rolling. He slammed a long hit out to center, which the fielder stopped just like the bow-legged man stopped the pig in the ditch. When the ball was finally recovered Stewart was roosting on third. He scored on Herty's "life." Herty stole the second salt bag, but glued there while three men were being retired.

The home boys rang up three in the lucky seventh. Jeanette singled to center. Feimster rolled one to the pitcher who heaved wild over second. Both runners scored on the miscue. Powell slapped out his three bagger, and scored on Stewart's third hit of the day. "Tiny" pilfered the keystone, but the next two were easy outs.

The box score follows:

Georgia

	AB	R	H	PO	A	E
David, lf	3	0	0	1	0	1
Davis, 3b	4	0	1	1	3	0
Cranford, cf	4	0	0	2	1	1
Wooten, 1b	2	0	2	11	1	0
Gillis, rf	3	0	0	1	0	0
Rawson, c	3	0	0	4	3	0
Spinlock, ss	3	0	0	1	4	0
Cheeves, 2b	3	0	0	3	3	0
Westbrook, p	3	0	0	0	0	1
*Eberfield	1	0	0	0	0	0
Totals	29	0	3	24	15	3

* Batting for David in ninth.

Carolina

	AB	R	H	PO	A	E
Stewart, cf	4	2	3	0	0	0
Herty, ss	4	0	0	3	3	0
Barnes, lf	4	0	1	2	0	0
Bennett, c	4	0	1	11	0	0
Folger, 1b	3	0	0	7	0	0
Jeanette, 2b	3	1	1	2	3	0
Feimster, 3b	4	1	1	0	1	0
Weeks, rf	3	0	0	2	0	0
Powell, p	3	1	1	0	2	0
Totals	32	5	8	27	9	0

Summary: Two base hits, Stewart, Wooten. Three base hit, Powell. Infield hit, Barnes. "Life", Herty. Bases on balls, Westbrook 1. Struck out, by Westbrook 6, by Powell 11. Stolen bases, Herty, Jeanette, Stewart, Barnes. Safe on fielder's choice, Bennett, Gillis. Double plays, Stewart to Jeanette to Folger. Davis to Spinlock to Wooten. Hit by pitched ball, Jeanette, oWoten. Time, 1:40. Umpire, Pearson.

THE SECOND GAME

Showing a complete reversal of form, Carolina lost a one-sided affair to the Georgians, Tuesday by the count of 10 to 1. Loose fielding of the Tar Heels, and the heavy hitting of the visitors accounts for the large score.

Fox kept the Tar Heels' three hits scattered and pitched stellar ball. Carolina's only run came in the sixth, when Younce, batting for Weeks, was safe on an error, and scored on Powell's grounder to Spurlock. Colleman was hit hard by the visitors and did not have the support of the team, many errors being made.

The game was without feature, except for the slugging of the Goergians, and Boone's running catch in the fourth with a man on third.

This closed the season for Carolina, since the remaining games were cancelled.

Boys

The Yackety Yack is expected May 1st. This book will cost more than any book since the 1911 edition. The reason for this is clear to everyone. We have the most artistic book ever published and the cost of materials has advanced.

Now that we have done our best, it is up to you to help. See that you have paid your part in every organization to which you belong that is in this book. Until this is done and our bill have been paid, we will be forced to withhold the Yackety Yacks from you.

"A receipt will be sent to all those that will send us a check through the mail."

THE TAR HEEL

OFFICIAL ORGAN OF THE ATHLETIC ASSOCIATION OF THE UNIVERSITY OF NORTH CAROLINA

Volume XXV. No. 29 | CHAPEL HILL, N. C., SATURDAY, MAY 5, 1917 | Price, Five Cents

CAROLINA REPRESENTED AT FORT OGLETHORPE

MANY ALUMNI COME HERE TO ENLIST FOR SERVICE AT TRAINING CAMP

92 PASS EXAMINATION TO OFFICERS RESERVE CAMP

Out of the 109 Men Who Signed Application Blanks, 92 Satisfy Rigid Requirements

The Officers' Reserve Training Camp at Fort Oglethorpe, Ga., has claimed its full quota of men from the University. Of the 109 men who signed the application blanks to enlist, 92 were successful in satisfying the rigid examination required.

The purpose of the Oglethorpe Camp is to train officers who will in turn train the 500,000 or more men to be called to the colors under the conscription plan. As stated before in last week's Tar Heel the applicant must be at least 20 years and nine months of age, must be physically fit to endure severe military service, and must have three recommendations.

Of the 92 men who successfully stood the examination here, and whose applications have been forwarded to Washington for final approval, 35 are Seniors, 13 Juniors, 7 Sophomores, 3 Freshmen, and the remaining 34 are either Graduate students, students in the professional schools, or alumni who came here to enlist.

On account of the delay in obtaining the final approval sheets from Washington the opening of the camp has been postponed a week, until the 15th of May instead of the 8th.

The following is a list of the men who are going to the camp.

Allred, Bolich, Burgess, Borden, Blue, Bumgarner, Brooks, Baity, Brinkley, Carpenter, Cowell, Campbell, M. C., Crowell, Cook, Conger, Coleman, Copenhaver, Craig, T. J., Craig, H. B., Crawford, Combs, Chappelle, Daniel, Dimmick, Duncan, Dysart, Edwards, D. N., Fowler, Forney, Folger, Gwynn, P. H., Gwatney, Graham, B. M., Harper, H. G., Jr., Hilts, Hancock, Hackler, Huske, W. O., Higgins, Harris, C. S., Isley, R. B., James, Kirk, Lewis, R. H., Jr., Liles, Lutterloh, Marshburn, O. M., Merritt, O. K., Miller, Norwood, Parker, G. F., Parker, S. I., Proctor, Perry, H. H., Raper, Rand, Rymer, Riggs, Royster, Ranson, J. O., Ramsey, J. G., Shepard, F. C., Spruill, F. S., Jr., Smith, G. B., Jr., Smith, H. M., Sparger, Shamburger, Tayloe, J. C., Totten, H. R., Telfair, Thorpe, L. S., Taylor, E. H. E., Williams, M. M., Wills, Webb, C. B., Watson, Woods, Woodley, Wright, R. H., Jr., Winslow, Yelverton, Town-

(Continued on Page Six)

Junior Class to Meet

The junior class meets next Friday at 2:10 in the Y. M. C. A. auditorium for the election of officers for its senior year. Matters of finance and general interest will be considered. Every member is asked to be present.

UNIVERSITY MAGAZINE MAY BE DROPPED BY SOCIETIES

PHI SOCIETY PASSES RESOLUTION TO WITHDRAW FINANCIAL SUPPORT

Will the Magazine be dropped by the Societies?

On last Saturday night the question as to whether or not the two literary societies should continue to support the University Magazine was considered by each Society.

In brief summary, the proposition advocated was that the two soiceties should amend their constitutions to the effect that they would discontinue the publication of the Magazine after this collegiate year.

The arguments advanced in favor of the amendment were that the literary societies are, by institution and practice, primarily for debating; that they have under their control all inter-collegiate and inter-society debates, as well as oratorical contests; and that the State High School Debating Union is held under their auspices, and this affords the societies enough work and expense without the management of the Magazine.

Again, it is claimed that the societies will have to pay an additional sum this year of $100, to make up the increased cost of management and publication for

(Continued on Page Six)

Di Society Wins Soph Inter-Society Debate

The inter-society Soph debate was held in Gerrard Hall Friday, April 27th, at 8:30 p. m.

The query, "Resolved, That North Carolina should adopt the principle of the Short Ballot, the Governor and Lieutenant Governor being elected by the people and the Governor appointing all other State Officers," was warmly contested between Messrs. F. G. Miles and E. S. Merritt, of the Phi society, upholding the affirmative, and Messrs. John W. Dalton and W. M. Matthews, representing the Di Society upon the negative.

Mr. F. G. Miles, the first speaker of the affirmative, contended: that constant adjustments of government are essential to the needs of our changing social organization; that the principle of the Short Ballot is the same as that involved in the Long Ballot System, and is therefore in accord with the principles of representative government; and that present conditions were such as to demand a change to the Short Ballot System.

The second speaker of the affirmative, Mr. E. S. Merritt, in further argument contended that the Short Ballot is the correct solution, that it is applicable to our present system, and that it would remedy the existing evils.

Mr. John W. Dalton, the negative's first speaker, devoted his entire argument to the fact that the Short Ballot was undemocratic and would lead to monarchy.

Mr. W. M. Matthews in closing the debate admitted the existing evils of our present system, but

(Continued on Page Two)

OFFICERS ELECTED BY ATHLETIC ASSOCIATION

ADJOURNED MEETING CALLED FOR 2:10 TODAY TO COMPLETE ELECTIONS

At the Athletic Association election last Saturday afternoon the following officers were elected:

Athletic Association Officers—President, A. M. Coates; Vice-President, J. B. Linker; Secretary, C. B. Holding.

Representative on Athletic Council—Nemo Coleman.

Tar Heel Officers—Editor-in-Cihef, C. G. Tennent; Assignment Editor, W. H. Stephenson; Desk Editor, Frank Clarvoe; Assistant Editors, R. F. Mosely, W. G. Burgess; Associate Editors, C. R. Toy, Miss Liddell, Billy Dowd, W. B. Jones, J. M. Gwynn, R. L. Young, Bryce Little, B. S. Whiting, Robert Wunsch, E. J. Burdick.

Manager of Freshman Football Team—F. J. Sheppard.

Assistant Managers Freshman Football Team—N. McK. Salmon, Worth Daniels.

Manager Freshman Baseball Team—C. M. Hazlehurst.

Assistant Managers Freshman Baseball Team—Leo Harvey, Sidney Allen.

Manager Varsity Basketball Team—W. B. Kinlaw.

Assistant Managers Varsity Basketball Team—Webb Durham, Vaughan Hawkins.

Sub-Assistant Managers Varsity Basketball Team—C. P. Spruill, Verne Johnson, Sam Fisher, S. C. Perry.

At this point it was found that there was not a quorum present. The meeting was adjourned until 2:10 today, when the other officers will be elected at Chapel.

Women Delegates Visit Chapel Hill in Body

Motoring to Chapel Hill Thursday afternoon the entire convention body of the North Carolina Federation of Women's Clubs now in annual session was entertained by the Community Club here and the University, a luncheon in Swain hall at 2:30 and a May Fete in Battle Park featuring the program. Following the motor trip to Chapel Hill the convention body, numbering more than 200, met in a special session in Gerrard hall.

Dr. Edward K. Graham delivered an address at this session and Mrs. H. W. Chase, president of the Chapel Hill Community Club welcomed the visitors.

While in session at Chapel Hill reports were heard from chairmen of the following departments: Art,

(Continued on Page Five)

ATHLETIC ASSOCIATION ELECTIONS TODAY at 2:10

AMENDMENTS TO ATHLETIC ASSOCIATION ARE PASSED

BALLOT SYSTEM AND TAR HEEL BOARD SELECTION BY CONTEST ADOPTED

The proposed amendemnts which were published in last week's Tar Heel were officially passed and adopted at the athletic Association meeting of Saturday.

It is believed that this is a great step toward justice which will secure leadership of truly representative men with greater certainty.

The argument for elections by ballot system was that men will no longer be elected by one-third of the student body. No longer will it be possible to cause men to vote for "your men" by shouting his name, and stamping your feet, at the Athletic meetings in Gerrard Hall. Instead every man has time to weigh the merits of each candidate, and to scratch his ballot accordingly.

Under the new system boxes are to be placed at several places upon the campus, and are to be under the supervision of the judges of election during the hours of voting. No man will be allowed to vote by proxy, and each voter will have to sign his name to his ballot. In short, our college elections will be practically upon the same ballot system as that in practice throughout North Carolina.

(Continued on Page Six)

Will Give Team Gold Baseballs and Basketballs

Gold basketballs and baseballs are to be given to the members of the basketball and baseball teams which made admirable records this year, giving us a clean sheet in our dealings with Virginia. It was decided at the meeting of the Athletic Association last Saturday that it was only fitting and proper that these men should be given these tokens of our appreciation as were the football players.

The buildings are to be canvassed for contributions to this fund and it is said that a certain per cent of the receipts from the Minstrel Show will also be donated.

A community mass meeting was held last night at the Methodist Church at which citizens of the town, members of the faculty, and the presidents of the junior and senior classes expressed their patriotic consciousness of the people here and praised the men who are leaving for the officers' reserve camp at Fort Oglethorpe.

President Edward K. Graham left yesterday for Washington to attend a meeting of the Provisional Educational Committee on National Defense today and a meeting of the Executive Committee of the National Association of State Universities on Saturday.

The object of both these meetings is to attempt to clarify the relation of the colleges to national defense.

Today is the last Profit-Sharing Day at the University Book Exchange. Your tickets will not be good after that day.

ANNUAL COMMUNITY SPRING FESTIVAL HELD

TWELFTH NIGHT AND REST OF PROGRAM DELAYED BY WEATHER

NEW OUT OF DOOR THEATRE IS SCENE OF FESTIVITIES

Dances, Songs, Plays, Orchestra and Vocal Music, Quaint Costumes and Beautiful Scenery Feature Event

On Thursday, May 3-4, in the out door theatre on a hillside in Battle Park was held the annual Community Spring Festival. Dances, songs, plays, orchestra music, quaint costumes, beautiful scenery, and the flower of North Carolina for an audience made the occasion perfect. Dr. Hanford was chairman of the pageant committee and general supervisor of the whole entertainment.

The first performance opened with the *Pas des Echarpes* of Chaminade and Paderewski's Menuet a l'Antique by the Orchestra. Delicacy of violin execution, with depth of tone of the wood wind with occasional colorous touches of brass together with the bases of the piano made a charming orchestral effect. Coming as it did from concealment the music was enriched by distance and by the imagination.

"Das Derrick Sees it Through," a one-act play by Harris Copenhaver, '17, was ar ustic tragi-comedy, of imaginary Chapel Hill and was admirably produced. Mrs. Beard, Lotty Henry, had perfect control of a variety of emotions, at least for the facial expression to be used in connection with them, and managed successfully all in the series from laughter and tears to love and tragedy. Capps, in the title role, looked as if he might have accidently come out on the stage from around at Pickard's stables, so realistic was his make-up, and so accurate was his interpretation of the country swain. J. Y. Jordan too was well suited to his role.

Copenhaver deserves especial praise for many a clever line and certain details of dramatic technique.

Paul Green's interesting one-act play "A Surrender to the Enemy," which was produced by the Omega Deltas, was well acted. Mrs. Stedman, who made her Chapel Hill debut as Eleanor was well received and deservedly. She was at all times an admirable Southern girl and acted with a naturalness and charm that were commendable in every way. Mrs. Campion was an inimitable negro

(Continued on Page Six)

The Peace Oratorical Contest is Called off

The inter-collegiate Peace Oratorical Contest has been called off, so there will be no Mohonk Conference this year.

Albert Coates, who won out in the state contest at Greensboro last week, was to have represented North Carolina in the Southern contest. This was to have been held at the University of Virginia on May 4.

THOSE WHO GO

In the olden chivalric days Sir Galahad, Sir Lancelot, Sir Percival and many other knights of King Arthur's Round Table journeyed forth in quest of the Holy Grail, searching and battling for the Grail and all that it symbolized of truth, faith, love, might, majesty, honor, courtesy and purity.

This week and next many Carolina men leave to serve their country in the military training camps or elsewhere. Their quest is like that of the Knights of the Round Table. They go to preserve democracy and its attendant blessings, to secure the rights of small nations, to make straight the ways of peace and to protect civilization. Theirs is the noblest and purest of causes, most free from selfish motives and narrow prejudices.

And as it is a noble cause it demands from its adherents that they think broadly and justly, that they act cooly and unselfishly. For a man now to think or act angrily, arrogantly, selfishly is for him to fight against the very principles which he is pretending to serve.

THOSE WHO STAY

Perhaps it is harder to stay than to go. Certainly it is for many men. Yet the call to the campus is as clear and insistent as the call to the camp.

To the war-inflamed minds of almost all of us, it now seems useless and almost farcical to study and go on classes. "How stale, and unprofitable" to us are all the uses of history, economics, science, English and other lifeless routine class-work.

Yet now as never before it is the duty of the college student to breathe life into the lifeless work, to make his knowledge of economics, history, science, and so forth so accurate, deep, clear and alive that he can use it to serve most efficiently his community and his country. Not the man in the trenches or in the machine-shop or on the farm, but the college student,—the college student preeminently has both the leisure and the environment best suited to enable him in the future to sense and solve the problems of his nation and of the whole world.

Those who stay in college now and fail to do the best work they can are the mental cowards and slackers, the intellectual desserters of their country.

Knicker—"Did you kill any moths with those moth balls I gave you?"

Bocker—"No, I tried for five hours, but I couldn't hit one."—Ex.

Prof. A. M. Trawick Writes of Blue Ridge

Dear Mr. Man:

Say, Bo, have you ever been to Blue Ridge Summer School? Up in North Carolina, you know, the other side of Asheville, this side of Ridge Crest, just below Brown's Pasture, not far from Spanish Castle. You couldn't miss the way. Take the right hand road after leaving Black Mountain, and keep on taking the right every time you come to the forks of the road, except the last time where you take the road straight ahead. You can ride in a Ford if you have 40 cents, but you can walk if you need to. Hounshell always walks.

There will be others with you. From Old Kaintuck to Mobile Bay, from Virginia Beech to Oxford, Miss., they come and many of them will walk because they want to save their pennies for chocolates and fig newtons. You may send your other shirt and climbing shoes over on the Conference truck if you want. Bob Denny, who has been at Blue Ridge before, left his bundle under Booker Washington cottage, so you need not wonder why he did not bring anything with him.

Hurry up and get to Robert E. Lee Hall before supper. Mr. Wells may not know just how hungry you are, and if you aren ot prompt Fatty Poteat will get to the table first. Let me tell you now, so you will never forget it; Fatty was never known to be late at meal time. Aonther thing you will discover for yourself; the first supper is the best meal you will have for ten days. Be sure to make the best of it. Thereafter it will be black-strap and baked beans.

While you are eating, a very important, youngish looking man will call upon you to lay down your knife and listen to him. You might just as well put your knife down right now, for Doc Weatherford is going to make his first speech. You will hear him many, many times, but he always breaks into this first supper with a speech. He will say: "Men," (and in this form of address he does not really mean to exclude Phil Trigg and Roy John—Doc is very polite) "Men," says Doc, looking out toward W. D., Jr., "I have thought again and again and again how I can make this Conference the most tremendously real thing in your lives. I want you to throw yourselves with perfect abandon into evry feature of the program—I want you to throw yourselves with perfect abandon into the pool every morning before breakfast." Here Sam Parker jumps upon the table and proposes three long rays for Doc Weatherford; and the lid is off.

The real business of the Conference has now begun. The business is divided into three parts: (1) Yelling. Everybody must yell. Yell every time anything is said, yell every time anything is not said. If you cannot yell, sing; if you cannot sing, do like Fitzgerald does—sing bass. Make a noise! Give fifteen rays for Kaiser William, Watt Raine, or Martha Washington! Wake 'em up!

(2) Athletics. This feature of the Conference consists in walking over to Ray Legate's farm for afternoon tea, playing rook with the girls in Lee Hall, or in attending Dr. Horne's lecture on subconscious epistemology. Some of the bolder spirits go up to Mrs. Hobb's cottage to kill snakes, and a few listen to Ed. Cook tell what he is going to do when he becomes a Bishop. Martha Washington goes to the pool for her annual squeal.

(3) Stunt night. This is the spot light Conference proceedings; the reason why; the irreduceable minimum; the sine qua non of the Conference program. On this occasion the faculty, together with Dr. Brown, professor emeritus of Public Speaking, and Will Webb, headamster of the Department of Wind Jamming, sing the Conference melody: "We've been lecturing to the Bone-heads all the livelong day," and the delgations, including the men from Georgia Tech, join in the antiphonal refrain: "One grasshopper jumped across the other professor's back." Doc Poteat, Fatty's ancestor, stands on his head, Malcolm Guess repeats that thrilling little poem: "Lips that have touched paint shall never touch mine," and the lights go out. It is a great occasion.

Now, Bo, if there is anything else important about the Blue Ridge Conference, I will say it if you will remind me of it. I may have overlooked a few things like the class room work, the platform addresses, the life-work appeals, the financial session, the big men and the friendship the Conference makes possible, but I have given you the gist of it. Write to me if you think you may be able to go, and I will tell you more about it.

Yours for Blue Ridge,
THE COUNT.
(Prof. A. M. Trawick).

The preliminary contest for the Mangum Medal will be held in Gerrard Hall, at 2:30 P. M., May 8.

"Say, Jimmy, what makes you so small?"

Do You Realize

that tee money spent in the United States last year for liquor and tebacco would purchase $5,000,000-000 of wrr bonds?

Soph Smoker

Sophomores assembled in the Y. M. C. A. lobby last night, where fumes of the sacred weed mingled with merriment and appropriate speeches marked a chapter in the life of the class of 1919.

An elaborate "feed" was spread before the hungry sophs by the committee consisting of Gooding, Miles, Williams and Mount Castle.

At the mystic hour of midnight the assembled sophs crowded out on the campus and roused the village with a "Split Carolina for 1919" and "Hey, George," "Boomer ray," etc., for animate and inanimate favorites of the class.

ATHLETIC ASSOCIATION MEETING

There will be a meeting of the Athletic Association today at 2:10 in Chapel for the purpose of electing Sub-Assistant Managers Football, and Managers of Track and Baseball for next year. The meeting will be a short one.

DI SOCIETY WINS SOPH INTER-SOCIETY DEBATE

(Continued from Page One)

staunchly contended that the Short Ballot is the wrong solution of the problem.

The query specified "all other state officers," and the negative seized upon this as their strongest point. The affirmative's arguments were based upon "all other state administrative officers," and they could not meet the arguments which the broad interpretation of the query allowed the negative.

This was the first regular Soph debate, and from now on will be an annual affair. This debate tee the place of the regular Fresh-Soph debate. From now on there will be both a freshman and sophomore inter-society debate.

The judges, Dr. H. M. Wagstaff, Dr. J. H. Johnson, and Prof. E. W. Turlington decided in favor of the negative.

George Brinson has been initiated into the Sigma Chi fraternity.

NORTH CAROLINA CLUB MEETS

At the regular meeting of the North Carolina Club Monday night two very interesting and highly instructive papers were read by Myron Green and H. V. Koonts.

Mr. Green opened the meeting with a paper on "Our Investment in Public School Property," and showed that the average investment for the state in public schools per $1,000 for taxable property had increased from $5.05 in 1912 to $11.58 in 1914, these being the latest figures available.

The speaker pointed out the fact that 39 states in the union in 1912 had a larger investment in public school property per thousand dollars of taxable property than North Carolina.

Mr. Koonts, taking as his subject "Our Support of Public Schools" proceeded to show that North Carolina ranked 40th among the states of the union in public school property in 1912 and 44th in public school support in 1913-14, with an expenditure of $2.15 per person.

"North Carolina, however, has reached a new era in education," said the speaker, "and in the years to come will make a far better showing and have a far higher rank in public education than the available records now give her. The legislature of North Carolina has just written the greatest chapter in the entire history of the state. The entire Education Fund for North Carolina in 1917 will be altogether over $6,000,000, or a million dollars or so more than in 1913. Moreover, the legislature gave these various institutions three million dollars for enlargement and equipment. While our legislature was giving the University $1,540,000. The western nance, the Kansas legislature then in session was giving her University $1,540,000. The wsetern people are willing to tax themselves high or low for education, and the people of North Carolina must develop a willingness to do the same thing."

Rymer to Prof. H. H. Williams—"Professor, give me some reason why I should not enlist in the Officers' Reserve Training Camp."

Prof. Williams—"Well, Rymer you would make a good private."

MUSICAL PROGRAM GIVEN AT THE METHODIST CHURCH

The choir of the Methodist church of Chapel Hill assisted by Miss Warren, the Misses Lillian and Ethel Pritchard of West Durham, Miss Grace Holton, of Durham, and Mr. Floyd Alexander, of Elon College gave an inspiring musicale Sunday night at the church.

Early in the evening, the crowd began to gather and by seven-thirty every available seat in both the Sunday School room, and church was filled. The crowd continued to grow, and soon standing room was not to be had.

Promptly at seven thirty, the University orchestra composed of Messrs. L. S. Lashmit, E. S. Lindsay, W. H. Stephenson, I. F. Parker, C. R. Staff, T. E. Rondthaler, and T. E. Wright, opened the program with "Calvary," a selection from Rodney.

The solos of Miss Warren, "There Is A Green Hill Far Away," and "In Heavenly Love Abiding," were especially pleasing. Miss Warren has an excellent soprano voice of wide range and perfect control. Miss Mary Wheaton Tankersley in a sweet soprano voice sang "Face to Face" one of Johnson's matserpieces. The duet, "O Lamb of God," by Misses Pickard and Holton was considered as being of especial merit.

Rev. Mr. Patton, the pastor of the Methodist Church, read the scripture lesson, and recognized in a few words the power of good music to broaden one spiritually, and its power as one phase of acceptably worshipping the master.

To Miss Annie Lee Webb the talented organist of the Methodist church; to Mr. Quinton Holton, director; to the visiting singers, and to each and every member of the choir credit must be given for the rendering of an excellent musical program.

Y. M. C. A. Cabinet Chosen

The growth of the Y. M. C. A. during the past college year has revealed two faults: the diffusion of energy and the diffusion of responsibility. It was realized that both faults could be remedied by one process, the placing of each unit of work under a unit of working force; so in organizing the cabinet for next year the number of departments was increased from six to eleven. At the head of each department will be a chairman, who is to be responsible for the work of his department. The heads of thed epartments will constitute the executive committee of the institution; and upon this committee will to a large extent depend the success of next year's work.

The members of next year's executive committee with their departments are as follows:

W. R. Wunsch.....Religious
A. M. Coates.....Education
W. M. York.....Industrial
C. F. Crissman.....Rural
W. R. Cuthbertson.....Boys
Ray Armstrong.....Community
J. C. Bynum.....Negro
W. H. Stephenson.....Extension
L. H. Hodges.....Foreign
R. M. Stockton.....Financial
T. E. Rondthaler, Administrative

Professor Maurice G. Fulton, Head of the English Department of Davidson College who was to deliver a lecture here soon, finds that he cannot come at this time. He has promised to come and lecture to the University early in the autumn.

SENIORS DEFEAT FRESHMEN FOR CHAMPIONSHIP HONORS

In the final contest of the season the Seniors defeated the Freshmen on Emerson field Tuesday afternon to the tune of 5 to 0, thereby winning an undisputed title to the class championship.

With the exception of the fourth frame, when the Freshmen got a bit rattled and allowed their opponents to score three runs in one inning, both teams played air tight ball. Campbell kept the "twentyites" at his mercy throughout the whole game. Capps and Swift also did effective box work, but the support given them was minus the sensational features exhibited behind the Senior twirler. Harrell and Williams did star work both in the field and at the bat for the champions.

Seniors: Kendrick, ss; Williams, 2b; Harrell, c; Harris, cf; Gwatney, 1b; Barnard, 3b; Higgins, lf; Watson, rf; Pope, ss; Campbell, p; Ranson, 3b-p.

Freshmen: Jones, ss; Ranson, 2b; Donald, c; Herty, 3b; Little, 1b; Nichols, rf; Perry, cf; Page, lf; Capps, p; Swift, p; Grandin, lf.

The following is the standing of the different classes as they finished in the class series:

	W	L	PCT.
Senior	4	0	1,000
Freshmen	4	2	.667
Sophomore	2	3	.400
Juniors	0	5	.000

Scouts Will Feed Soldiers

On last Saturday afternoon the scouts of Chapel Hill played the large boys of Carrboro their first game of ball this season. A large crowd of students gathered back of the South Building to witness the contest, and incidentally to see Chapel Hill "put it all over" them with a score of 21 to 11.

The scouts of Chapel Hill are live wires during these stirring times. Under the slogan "Every scout to feed a soldier" they have begun to cultivate every spare lot in the community. They believe that a scout with a hoe is equal to a man with a gun; and with this belief each scout has been on the job—hard at work during the spare hours doing his service for his country. Every scout of Chapel Hill will do his bit "behind the line."

Eavesdropping and Interviews

In view of the fact that the "Traveler's Guide Book for Chapel Hill," has not yet appeared in our midst, the Tar Heel begs to offer a few suggestions regarding points of interest. When such a diversity and unlimited number of renowned sights is presented to the stranger, he is fairly perplexed as to how he can take them all in—or be taken in. Therefore, students, show the newcomer around thusly:

Start by refreshing him with a sip from the well. As he is tilting the dipper or envelope and tasting the nectar, casually mention the rumor of the German plot to poison the water. You will see his Adam's Apple quake. It will do it everytime. (Visitors will kindly wear low-necked shirts so that this phenomenon may be clearly seen.) Then wend your way to the gym and, looking through the bars at the water animals inside, let the visitor watch the tide rise a foot when the Mellen's Food Twins dive simultaneously. Hold tightly to your friend's coat-tails, for he may mistake the pops of the magna corpora against the aqua for a German attack or an explosion.

Then let the stranger watch the awkward squads, drilling so that they will not make a botch of the "Botches"—(How's that for Hun pun, hon'?) Explain to the sightseer that the boys cannot practice trench digging, because they would soil their white pants. Don't tell him the model of the rifles, 'cause he'd think you were trying to pull some "old stuff." If the watcher notices a man out of step, tell him that he is the only one in step. It looks bad for one man to be in the wrong when all the others are right.

Then amble through the arboretum and catch bumble-bees. If you are with a lady, don't let the love bee sting you. Also, don't name all the botanical plants for the stranger. It might bore him a trifle. (We're taking it for granted that he knows them).

After this strenuous exertion and lengthy sightseeing, introduce your friend to a Chapel Hill shake, but don't let it leave a brown taste in his mouth. If you are of an economical disposition, buy him two and you will avoid having to buy him any supper.

W. B. Anderson, A. M. Coates, S. F. Ravanel, T. E. Rondthaler, and W. T. Steele were initiated into the Odd Number Chapter of Sigma Upsilon on Wednesday night.

Prof. G. M. McKie has been initiated into Pi Kappa Alpha.

DID THIS HAPPEN IN YOUR HOME?

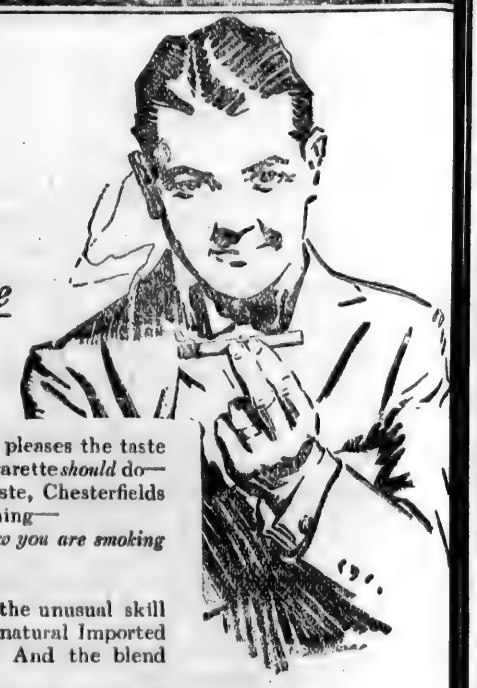
"Whew, it's hot!" said the tired business man as he landed on the top step of the porch and was welcomed by his smiling wife and two armsful of children.

"Why, we don't mind it at all," objected the wife, with a knowing smile.

"No," chimed in the kiddies, "we don't mind it at all."

"You don't!" exclaimed the astonished husband. "You don't!" he repeated. And he looked out at the people in the street to see if they were showing the effect of a sweltering day, as he was. They were! Thus reassured as to the condition of his mind he said:

"Well, what do you do to overcome the heat," he asked.



"That's easy," smiled the wife. "We's just had our afternoon treat of Pepsi-Cola."

"Yes," peeped up little Jane, the youngest, "and it was just as cold as the icicle Jack put down my neck last winter."

"Oh, I see," spoke up father, "got any left?"

Not at all fanciful is this little comedy of home life. It's just as true as true can be and it takes place in countless homes every bright mid-summer day when the sun is sweltering hot and all humanity feels that it would be far happier if this planet were an iceberg.

Pepsi-Cola, as you undoubtedly know, is not only tasty but cooling. It makes summer heat quit bothering you. Made of the purest fruit juices and other perfectly pure ingredients. That's why so many mothers use it as the *only* beverage fit for their growing children during the warm months.

—they do more than please the taste

A cigarette that simply pleases the taste does only a *part* of what a cigarette *should* do—

Besides pleasing the taste, Chesterfields do another thing, a *new* thing—

Chesterfields *let you know you are smoking* —they "*SATISFY*"!

And yet, they're *mild!*

The *blend* does it—it's the unusual skill in proportioning the pure, natural Imported and Domestic tobaccos. And the blend can't be copied.

Chesterfields will prove to you that there can be *more* to a cigarette than good taste. Try them and see. *Today.*

Di Men Win Freshmen Inter-Society Debate

In an interesting and hard-fought contest last Wednesday evening, in Gerrard Hall, the Di representatives won the Freshman Inter-Society Debate over the Phi men, by a vote of two to one.

Messrs. S. H. Willis and R. W. Pulliam, representing the Di, upheld the affirmative side of the debate, while Messrs. R. F. Phillips and O. R. Cunningham, of the Phi Society, supported the negative. The query was, "Resolved: That all corporations engaged in inter-state commerce should be required to take out Federal Charters, it being conceded that such a requirement would be constitutional and that Federal license should not be available as an alternative plan."

The judges were: Prof. J. W. Lasley, Jr., Dr. W. D. Toy, and Prof. C. W. Keyes. Mr. C. R. Edney presided, and Mr. F. G. Miles acted as secretary.

VIEWS OF BLUE RIDGE SHOWN

At the Tuesday evening meeting of the Y. M. C. A., stereoptican slides of scenes on the Y. M. C. A. conference grounds at Blue Ridge were shown and explained by Francis Bradshaw. The views gave a very good impression of the grandeur of that part of western North Carolina, and also a conception of the summer student conference and the advantages offered by it.

Despite the war situation it seems from present indications that Carolina will send a large delegation to the 1917 conference, the date of which will be June 12-21 inclusive.

Juniors Hold Last Class Smoker of Year

Despite the coming of the floods and the descending of the rains, the Junior class some 80 strong met last Monday night for the last smoker of the year. For nearly three hours fun and frivolity alternated with graveness and serious foreboding. The war in all its aspects was touched upon by almost every speaker—from G. Holding's advice not to enter as a private to Frank Upchurch's determination to overcome the snobbishness of the Prussian military system in the American Army.

Dr. Moss and Dr. Patterson were the speakers from the faculty Dr. Moss said that class spirit was best shown in individual improvement while Dr. Patterson congratulated the fellows on their youthful vigor which can accomplish so much in this hour of need.

Among the student speakers, which included almost every man present, scintillating wit and good natured humor ran wild. Some of those who responded to Coates' invitation were Frank John, C. Holding, "Shorty" Griffin, Ray Armstrong and "Long" Perry. C. R. Edney read a list giving the reasons why some members of the class had failed to fulfill requirements to enter Fort Oglethorpe. Some of the reasons are as follows: H. V. Koontz and Billy Steel, rejected, hair to white. Germans might mistake for a flag of truce. John S. Terry and R. E. Price, rejected, too much expansion.

Teacher — "Your answer is about as clear as mud."

Pupil—"Well, that covers the ground, doesn't it?"—Ex.

THE CAROLINA MINISTRELS TO SHOW MONDAY NIGHT

PERFORMANCE PROMISES TO BE A HIGHLY ENTERTAINING ONE

At last! The Carolina Minstrels will present their show in all its glory on Monday night in Memorial Hall. The finishing touches are being put on, and a worthy performance is expected. A Faculty Committee has viewed the tntire show and all unamimously assert that the Minstrel is good, clean, refined amusement.

Memorial Hall will be graced by the most gorgeous set of scenery and stupendous settings that Chapel Hill has ever had the privilege to gaze upon. The costumes will blaze forth in colors which would shame a rainbow.

Appropriate to the present crisis, the program is featured by two patriotic tableaux: "No Place Like the U. S. A." and "America, Here's My Boy." These settings both contain a punch that is expected to lift the audience out of their seats.

The principals in the cast are Brinson, McKie, Howell—vocalists, and Jordan, Green, Tanner, Burdick—ends. These men are supported by a bunch of 20 comedians, singers, and dancers.

The proceeds of the show are going to the benefit of the Fife and Drum Corps, and of the fund to purchase gold basketballs and baseballs for the victorious Carolina teams. The fact that the money is to be put to such a use will no doubt swell the attendance.

On Monday afternoon at 2:30 there will be a big street parade, led by the band and a drum corps. Immediately after the parade a free band-concert will take place. By this you may see, fellows, that this is a real show, bordering on professional efficiency. Things are being carried out to the limit. No detail is being overlooked.

The price of admission to this peerless minstrel is like the Ford—it is universal. The admission is 35 cents to any seat in the house. Seats go on sale at Eubanks and those coming first will get the choice seats. So just make up your mind that you'll be right there Monday night. The crowd will sweep you along, whether you be willing or unwilling.

On Tuesday afternoon in a long and drawn out game of baseball caused by the heavy hitting of the Sophs, the 1919 aggregation demonstrated to the Juniors that they were not destined to occupy the celler position, by winning their last game of the class series by a score of 14 to 2.

The Juniors fought desperately throughout the entire game, but the lack of an effective twirler sealed their doom. Both teams exhibited excellent fielding, and kept the large crowd of spectators filled with excitement.

ANNUAL COMMUNITY SPRING FESTIVAL

(Continued from Page One)

mammy. Buzz Tennent as Gen. Atkins, Clarvoe as Pres. Swain, Dougal McMillan as Prof. Hinton and Hermas Stephenson were excellent in the four distinct types they were to set forth.

The play was interesting and was remarkably successful as a humorous piece and as a serious play.

Sam Fisher sang Ben Jonson's "Drink to Me Only With Thine Eyes" and Balfe's "Then You'll Remember Me" very well from behind the scenes with guitar accompaniment by Harris.

Attractive May Games and Dances by the children of the community followed under the direction of the Chapel Hill School faculty. Of especial beauty and grace was a solo dance by Dorothy Greenlaw. Lena Merritt was queen of the May. Frank Durham was an excellent Court-Fool.

The performance of "Twelfth Night" will take place today at Battle Park if the weather permits and in Gerrard Hall if it is too wet for the out of door theatre.

The play was to have been given yesterday but sudden change of weather intervened. Whether presented in or out of doors, the performance promises to be one of the best of its kind at Chapel Hill. Quaint and elaborate costumes have been secured by the committee in charge—and those who have witnessed the rehearsals testify to its talented production.

CAROLINA REPRESENTED AT FORT OGLETHORPE

(Continued from Page One)

send, McKinnon, Upchurch, F. D., Hughes, C. K., Strange, Erwin, S. J., Cobb.

In addition to the men above some twenty-five more have made application but have not yet been examined.

AMENDMENTS TO ATHLETIC ASSOCIATION ARE PASSED

(Continued from Page One)

The amendments were passed soon after the meeting was called to order by Chairman Bell. Mr. Bell called upon Mr. Tennent to explain the amendment relative to the Tar Heel. Tennent stated that as far as the selection of the board was concerned it should be by competition, and that reporters should be chosen upon a basis of merit alone, and not upon their popularity; that for this reason the Tar Heel suggested that amendment. With these explanations this amendment passed, as had the other, without a dissenting vote.

It was the general opinion at the meeting that a great step forward had been taken. A step it is thought which will make elections here more representative, and one which will not make it necessary to have the task of going out and bringing in a man in order to get a quorum at the meetings as has previously been the case.

UNIVERSITY MAGAZINE MAY BE DROPPED BY SOCIETIES

(Continued from Page One)

the aMgazine. And lastly, the strongest argument brought out is that the Magazine is a University publication, and, as such, should be published by the University.

During the discussion of the proposed step it has been suggested that the University finance the Magazine with the English Department editing the material.

The Phi Society passed the resolution at its last meeting, since its constitution contains no clause relating to the support of the Magazine. The Di Society, since the support of the Magazine is contained in its consittution, had to defer action until the constitutional committee had acted upon the amendment.

The Magazine problem has already caused much discussion this year, on account of the dearth of material turned in for publication, and its solution it is thought ought to be a question of vital importance to the campus.

Boys

The Yackety Yack is expected May 1st. This book will cost more than any book since the 1911 edition. The reason for this is clear to everyone. We have the most artistic book ever published and the cost of materials has advanced.

Now that we have done our best, it is up to you to help. See that you have paid your part in every organization to which you belong that is in this book. Until this is done and our bill have been paid, we will be forced to withhold the Yackety Yacks from you.

"A receipt will be sent to all those that will send us a check through the mail."

FUN FACTORY FOUNDED BY JORDAN MINSTRELS

BLACK FACES HAD CHAPEL HILL AT THEIR MERCY FOR TWO SIDE SPLITTING HOURS

VERY VERSATILE TEAM OF STARS

SKETCH BY JORDAN COMPLETES PERFORMANCE THAT MAKES MINSTRELS A SUCCESS

The long expected Carolina Minstrels, containing in their ranks such noted stars as Jordan, Tanner, and Greene, have come and gone. Their performance made an instantaneous hit with the large audience that heard them in Memorial Hall last Tuesday evening. The merit of their performance and the nature of their reception insures the minstrel show as one of the permanent organizations, henceforth and forever.

The first of the three parts contained vocal numbers by soloists and the company, the solos by Bingham McKee, George Brinson, and Jamie Howell being especially enjoyed. The jokes were new and clever, the end-men, particularly Messrs. Greene, Tanner and Burdick, getting them off in professional style. No war-scarred chestnuts those.

Part Two, among other novelties, contained a good juggling act by Chester Burton. The quartette composed of McKee, Howell, Brinson and Greene was repeatedly encored. George Greene and Gus Travis, in a novel Hawaiian musical act, outdid the Hawaiians themselves. The make-ups of these two were splendid and realistic. J. Y. Jordan, Jr., the hero of the performance, got by with some good stuff in his monologue.

The third part was a mliitary burlesque, written by Jordan, and was replete with laughs and wit. Bobo Tanner displayed rare talent in this part of the show, and the audience, partly out of sympathy, received his "Swine" Hall jokes with great approval.

Great credit is due Mr. Jordan for his efficient handling of the show, and for the great amount of work he did in making the performance what it was. The costuming was well thought out and the scenery chosen with an eye for effect. Everything went off well, and the orchestra, with Lindsey directing and Nimms at the piano, added greatly to the merit of the performance. The first Carolina Minstrel Show has set a high standard for the shows which will doubtless be given each year hereafter.

Blonne Spence, '13, of Goldsboro, was on the Hill last week.

NOTICE

All Tar Heel bills must be paid not later than May 20. Examinations start on the 22nd

DANIELS AND BAKER TO BE COMMENCEMENT ORATORS

FINAL WEEK OF THE YEAR TO BE A PERIOD OF PATRIOTIC CELEBRATION

Both Secretary of War Newton D. Baker and Secretary of the Navy Josephus Daniels will speak at the commencement of the University, June 5, according to an announcement made this week by President Graham. It is planned to make the occasion a great patriotic celebration, and an expression of loyalty to the government. President Graham issues the following statement to the press and people of the State and section:

"In response to urgent invitations extended to the Secretary of War and to the Secretary of the Navy to visit North Carolina on the occasion of the commencement of the Universiyt, we have the acceptance of each of these great officials of the government, and assurance that they will be present and speak in Memorial Hall of the University, June 6, at 11 A. M.

"Few men in the world have responsibilities at this moment so great as these two men. Their coming to the state now is an event of unusual importance, and we trust that it may be made memorable by a great patriotic celebration, testifying our confidence in the administration of our government and our complete and enthusiastic loyalty to the supreme cause in which our country is engaged. We therefore invite the people of this state and section to come to the University and join in a worthy tribute of welcome to Secretary Baker and to Secretary Daniels.

"Should either or both of them be prevented from coming by any circumstance, immediate notice will be given."

Graduating Class Elects its Permanent Officers

The local rumblings of the war have become loud and prolonged, and the God of War seems to be playing havoc on the campus. The Senior Class is the worst sufferer, for the organization has been completely upset by the departure of most of its officers for Fort Oglethorpe. The Class met last Monday and elected the following to finish out the unexpired terms: Carl Hyatt, president; Miss Gypsie Barton, vice-president; E. L. Mackie, treasurer; H. D. Sharpe, secretary; and R. M. Ross, historian.

The officers who are leaving for Fort Oglethorpe are: Oliver Rand, president; H. G. Baity, treasurer; and Sam Ervin, vice-president and historian.

Recently the men were elected who will head the class although its members may be scattered from the Phillipines to Stockholm or be representing their country in the Legislature or fighting "somewhere in France." Sam Ervin was elected Permanent President, C. C. Miller, Permanent Vice-President, and H. G. Baity, Permanent Secretary and Treasurer. Plans for finals were discussed.

MAGAZINE TO BE KEPT BY THE TWO SOCIETIES

FOLLOWING RECONSIDERATION BY THE PHI, STEPHENSON ELECTED EDITOR

DEROSSETT FOR YACKETY YACK

ARMSTRONG AND HESTER ARE FINANCIAL PILOTS—BOARD IS ALSO CHOSEN

Bob deRossett, member of the Yackety Yack Board for this year, an S. A. E., was elected last Tuesday night by the Fraternities as the Editor-in-Chief of the annual for the year 1917-1918. As business managers, the Societies have elected Ray Armstrong, of the Di, and Hugh Hester, of the Phi, as the men to succeed the present financial pilots.

The action of the Phi Society in dropping the magazine was reconsidered on the night of May 5, and after a spirited debate, the Society decided that whether it was the place of the Societies to support the magazine or not, the present unsettled condition of affairs on the campus, which would probably extend over next year, rendered it imperative that if the Magazine was to continue it should be kept under the wing of the Societies for the next year at least.

As a result of the action of the Phi in re-instating the Magazine, W. H. Stephenson was elected Editor-in-Chief for next year, with P. E. Green and Shorty Spruill as associate editors. N. G. Gooding and E. S. Merritt were elected Assistant Business Managers of the Magazine. The Society Officers for the coming year were also elected: President, R. F. Mosely, Vice-President, Forest Miles, Treasurer, N. G. Gooding, Secretary, O. R. Cunningham.

In the Dialectic Society, the question of the practicability of keeping the Magazine was discussed for some time. After some three hours of debate it was decided that it would be unwise to turn the publication adrift at this time. W. M. York was elected Business Manager for the next term, and Messrs. Kato, J. M. Gwynn, and Terry were elected as associate editors.

As associate editors of the Yackety Yack, the Phi chose Messrs. Oettinger, Miles, and Coates. In the Di, F. D. Bell, Ralph Williams, and Frank Clarvoe were elected to serve in a similar capacity. Committees were appointed in both Societies to look after space reservations in the annual.

The University has turned over to the boy scouts a piece of land back of the Peabody building near the new power plant. Each scout has begun work on his plot of fifteen square feet, and will raise his share of the crops for the big brother scouts, the men that leave for the front.

At a recent meeting of the German Club, to discuss matters of business arrangements for Commencement and for next year, M. R. Robbins was elected President, Bob deRossett, vice-president, and Lewis Clement, Secretary

SUMMER SCHOOL THIS YEAR WILL BREAK PAST RECORDS

MORE EXTENSIVE COURSES AND FACILITIES ARE PROMISED BY THE FTCULTY

Despite the disturbing influences of the present situation, the Summer School expects a record attendance. Director N. W. Walker believes that last year's record of 1052 students will be broken. More members of the winter school faculty have signified their intentions of remaining over through the summer school, thus increasing the opportunity for serious study.

The session opens June, 12th and closes July 27th. As is the custom, the dormitories will be turned over to the women, with the exception of University Inn. Professor Hagedorn will have charge of the choral club again, and will present a cantata, "The Building of the Ship." There will be courses of special value to teachers, a large part of the Summer School students being made up of those who desire those courses. The Summer Law School also gives promise of having a successful year, many having already registered.

A number of new features have been offered, among them a country life conference under the direction of Professor Branson, to be held between June 17-24. Professor C. J. Galpin, of the chair of rural sociology in the University of Wisconsin, will address the conference every day. Professor Benjamin Sledd, head of the English Department at Wake Forest, will deliver ten lectures on "American Literature."

A large number of college activities will be kept up during the session of the Summer School. A weekly paper, of the size of the present Tar Heel will be published and in addition the Summer School News will appear in a greatly improved form.

Rising Juniors and Seniors have Elections

In the class elections held yesterday afternoon, the Juniors elected the following men as officers for the coming year: President, W. M. York; Vice-President, John Terry; Secretary, R. E. Price; Treasurer, Holmes Herty; Historian, W. H. Stephenson; Orator, A. M. Coates; Poet, C. G. Tennent; Marshal, S. F. Rvaenel.

The Sophomores elected: President, C. M. Hazlehurst; Vice-President, S. R. Norris; Secretary-Treasurer, N. Gooding.

The Oglethorpe Camp will take not only students from college, but will also include some of the faculty in its enrollment. Prof. Henry Johnston of the Educational Department left last Thursday for the Camp, and Professor Dargan expects to leave within the next few days. Whether any other members of the faculty expect to leave is not known.

Messrs. York, Clarvoe, Upchurch, Armstrong, Stell, and Tennent have recently been initiated into Amphoterothon.

TWELFTH NIGHT AN ARTISTIC TRIUMPH

DELIGHTFUL SPECTACLE IS PRESENTED AS PART OF MAY FESTIVAL

PLAY STAGED IN GERRARD HALL

A WEEPING-WOODS FORCES THE CAST TO TREAD THE SHELTERED BOARDS

One of the most artistic dramatic presentations ever given in Chapel Hill was the *Twelfth Night* of Shakespeare last Saturday afternoon in Gerrard Hall. On account of the heavy rain it had to be staged indoors instead of in the beautiful out-of-door theatre in Battle Park. The Chapel auditorium was over-crowded, but inasmuch as the acoustics in Memorial were a "trifle gaudy," the chapel was the only place.

The impromptu scenery was somewhat crude, but what was lacking in scenic effect was more than made up for in costuming. They were the most gorgeous and elaborate costumes Miller and Co. could put out.

The acting was the most gratifying part of the performance. Mr. Avon Blue made his debut in the role of Feste, the fool, and was heartily received with much well deserved applause. Ease, utter lack of self-consciousness and lack of amateurishness in general characterizes his acting and that of the rest of the cast.

Mr. Hubert Smith as Sir Toby Belch would have made an Elizabethan *pit* rise to the galleries; he well-nig out-Tobied the estimable knight whose part he played.

Mr. Sam Fisher was a most excellent Malvoleo. So remarkable was his interpretation of the role that he reminded one of many others who took themselves too seriously—such as Brand, Cyrano de Bergerac, and Coriolanus. His sonorously, lugubriously, tearful "Fool, Fool, Sweet Fool?" from behind the prison bars was worthy of an artist. Such scenes are tragedy, and he brought out the pathos well.

Mrs. Foerster had just the right accent for a Maria, and her general make-up set off the comic group to advantage. Miss Avery, as Olivia, was resplendent in looks and intelligent action. Her facial appearance, which was really the main part of her acting, is to be highly commended. Miss Wilson was as charming as Cesario as she was as Viola. Her speaking voice, naturally quite soft and low, gave way to a clear stage voice which carried well to every part of the house.

Much credit is also due to the

(Continued on Page Two)

PROLOGUE

The staff elect is on the job
O horrors what confusion—
The stuff's all late—at any rate
Your choice was a delusion.

But bear with us and overlook
Our many imperfections—
That's what you get for choosing us
By popular elections.

MEN WANTED

MEN WANTED — some for the army—all for the country. Factory, field or firing line is a secondary matter. The call is for MEN.

Whether we go to Ogltehorpe or remain in college is a personal matter to be decided by each one of us. One can not say it is harder to go or harder to stay. For there are men who could do nothing else than to go. Their interpretation of duty and patriotism demands it. And there are men who should not go. Their idea of patriotism compels them to stay here.

The call is for men—prepared and ready to serve the best interests of the nation—whether it be with mind, musket or hoe. We can not be patriotic and loaf. However keen our interest in the war may be there is no excuse for discontinuing what we are doing now.

As Mr. Graham said in Chapel Tuesday was doesn't ask for the renunciation of any man's life but for the consecration of that life to bigger things. The big thing now is to prepare. By performing diligently those daily tasks which confront us we are answering the call for men.

Until the government calls, "the thing for us to do is to go on doing precisely what we are doing now."

THAT FRESHMAN MEETING

"That Sophomore Meeting" was the theme of an editorial in the Tar Heel in the spring of 1915. The writer found worthy comment in the fact that sophomores could meet and disperse without stampeding the halls of the Carr and South, or ringing the college bell two hours.

Of course when freshmen met in those days there was no restraint for the traditional right of the soph—unless it was the fading glimpse of the last water soaked, hymn booked, fugitive, as he trembled over the horizon, or blended with the corner of some building. The peculiar thing to be noted was that sophomores could hold their own meetings peacefully.

This week it was announced in chapel that the class of 1920 would meet at a certain hour to elect officers. It met with no councilman present, conducted an orderly meeting, lasting an hour, and then dismissed without the presence of a single sophomore. Perhaps the present sophomore class is partly responsible for this condition—but something should be said for the freshmen. They have borne themselves in a manner which has demanded even the respect of the sophomore class.

COMMENCEMENT

We have been gratified to learn of the decision of the faculty to make no changes of importance in the plans for commencement. The determination of the faculty not only to have a commencement this year but to make it, if possible, the best in the history of the University, seems wise to us both because it is an indication that the University is determined to perform its usual functions in spite of the war and because it will do much to set at rest the impression that has been gaining ground recently that it will be necessary for the University to suspend some of its normal activities during the war.

That these activities will be interfered with to some extent by the war cannot be denied after the experience of the last few weeks; that the student body will be decreased in number, and that the University will feel in other ways the effects of the war seem only reasonable conclusions. But that it is necessary for the University to suspend any of its worth-while normal activities we do not believe. There are still here and throughout the State hundreds of young men not liable for military service under the draft system whom the State needs to educate while the war is going on. And the fact that the country is engaged in war makes it perhaps even more important than it would otherwise be for the University to put itself at the disposal of these men just as fully as it does during times of peace.

To have decided before a single man had been drafted that commencement must be done away with would have been an admission that the University found it necessary to suspend part of its activities during the war and would have advertised that fact in the strongest kind of way to the students here and to the whole State.

We are glad then that we are going to have the regular commencement not because we consider it indispensable but because it means to us that in spite of the war the University is determined to give to its students so far as possible every advantage of the college life of more favored times. And we feel that the decision of the faculty in this matter ought to set at rest any feeling among the students that because the country is engaged in war the University ought to stop work and wait for the war to be settled before resuming its ordinary activities.

To the College Students of America:

The attention of this body has been directed by The National Marine League of the United States of America to the severity of the emergency caused primarily by the decline of the American merchant marine and now heightened by the war's destruction, and to the patriotic duty placed upon every American citizen to participate in the movement to restore our flag to the seven seas.

College men because they are preparing themseives to take active part in the industrial, commercial and intellectual life of the nation, ought to participate in the movement to bring about the re-establishment of our merchant marine, upon which our navy depends for auxiliaries and our foreign trade for transportation.

There never was a time when the merchant marine problem more insistently called for solution. To take the place of the tonnage destroyed in the war our government is seeking to build wooden ships by the thousand. But an even greater question is involved; for the stability of our industries, the very prosperity of the country, depends in large part on our overseas shipping facilities. On account of the lack of ships our exporters have suffered severely from excesssive freight rates, unfair discrimination in favor of foreign competitors and, in many cases, actual loss of business. The greatest factor in correcting these conditions and stabilizing our home industries will be the re-establishment of the merchant marine which will restore to American industry the control of the distribution and sale of its products. This can never be done, however, so long as the American public remains apathetic to the shipping problem. Obsolete restrictive legislation must be repealed and friendly laws substituted; the accomplishment of this will come only from an enlightened public opinion. It is in the formation of this opinion that college men can perform a valuable and truly patriotic service because our centres of learning must be well-springs of correct public opinion.

This body has passed a resolution endorsing the public educational campaign being conducted by the National Marine League and urging all students to co-operate in the movement to enlist the active assistance of college men by organizing an Intercollegiate Marine League.

The council of the student body of New York University therefore urges every student to participate in this movement by informing himself as to the merchant marine situation and by joining the Intercollegiate Marine League, for the establishment of which the National Marine League has already taken the first steps.

G. G. BROWN,
Chairman.

"You've been smoking cigarettes"

the examiner for Fort Oglethorpe said impatiently to canditates showing extreme nervousness.

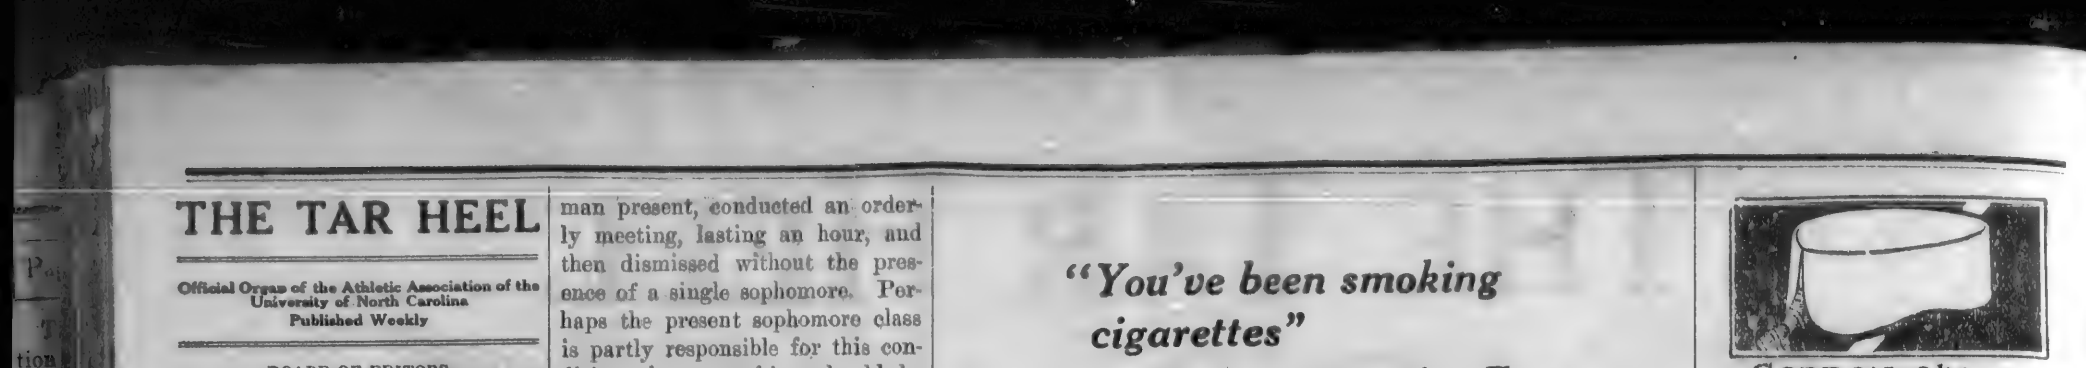
Carolina alumni, as well as Carolina students have responded to the call to the colors. The following men have signed up to go to Oglethorpe: Fatty Cowell, Washington, N. C., P. W. Gwyn, '12, Durham, F. W. Hancock, '15, Oxford, W. O. Huske '15, Fayetteville, W. W. Kirk, '16, Chapel Hill, J. A. Taylor, '14, Washington, E. S. Simmons, '16, Washington, R. H. Leiws, Jr., H. R. Totten, Collier Cobb, Jr., W. L. Baughum, E. S. Peele, Clyde Fore, and H. W. Cobb.

To those who have not as yet found it out for themselves, we would say that the miniature swimming pools placed in various parts of the Campus are nothing more or less than bathing resorts for the feathered denizens of the trees on the campus. Whether these birds are grateful for the privilege thus afforded them is not definitely known, and few have seen them swimming, but it is a fact that the pools show the signs of frequent use.

TWELFTH NIGHT AN ARTISTIC TRIUMPH

(Continued from Page One)

rest of the cast: Orsino, Mr. Rymer; Sebastian, Mr. de Rossett; Antonio, Mr. Hale; A Sea Captain, Mr. McKie; Valentine, Mr. MacMillan; Sir Andrew Aguecheek, Mr. Wimberly; Fabian, Mr. Pace; Priest, Mr. McKie; Officer, Mr. Dargan.



From the time the music "as food for love" was played on the sagbut and lutes behind the scenes, till Feste's inimitable ballad *When that I was a Tiny Little Boy,* the play ran smoothly and the audience was delighted.

SMART Alecs *may* be all right but for a good, honest workin' partner give me a man that's got his learnin' slowly an' naturally.

VELVET gets its goodness that way—two years natural ageing.

Many of the enlisted men on the border would do almost anything to get home. One man was found walking about camp, picking up and looking at every scrap of paper, muttering continually: "Nope, that ain't it, that ain't it." He was finally judged insane and given a discharge. Upon receiving the discharge all filled in, he turned to the officer with a grin:

"Yep, that's it!"

Said his wife to Podsnap, who staggered in at midnight, let the canary out of the cage, and hung his overcoat on the chandelier:

"Ignatius, where have you been?"

"I have been to the Shin-shin-shin—"

"Oh, Montgomery and Stone's show."

Leaders for Coming Year Elected by the Freshmen

At 2:10 Monday in Gerrard Hall, the Freshman Class met to discuss the matter of finances, and to elect officers for the coming year. The financial question was taken up first, it being moved and seconded that the class should be assessed $1.00 each, in payment for the class space in the Yackety Yack. President Herty, following the plan brought before the student body, in chapel, by H. D. Sharpe, suggested that a resolution be offered to the Faculty, petitioning that body to assess, at registration each year, class dues of $1.00. The motion for such a resolution was passed and Herty appointed as a committee to draw up and present the resolutions, Calvert Toy, Bryce Little, and Broady Jones.

Following this, class officers were elected for next year. C. P. Spruill was elected president for 1917-18, Arthur Spaugh, vice-president, Billy Dwd, secretary-treasurer, and Eddie Bizzell, cheerleader.

Oliver Rand, president of the Senior Class, addressed the Freshmen at the opening of the meeting.

"No, not at all, m'dear. Thash wrong. I have been to the Shin-Sh-Shin-Shin-Shymphony Or—"

"To the what?"

"To the Shin-sh-Shin-sh-Shin nati. Sh-sh-shym-shymphony Orshestra. Thas where I have been. To the Shin-sh-Shin—"

"But where on earth did you get the stutter?" asked his wife.

"Guess you don't read the papersh, d'ye?"

"What's that got to do with it?"

"Well, the papersh all said that the Orshestra would play intoxicatin' mushic, Ishabeller, and, b'gosh, they did it, Ishabeller, they did it, thash all."

Harrigan was out walking with his new bull pup when he met a friend who stopped to size up the animal.

"That's a fine-looking brute," he said. "Where do you keep him?"

"Oh, up in my room," Harrigan grinned.

"It isn't healthy to keep a dog in your room," the friend advised.

"Oh, he's used to it now," Harrigan answered.

CLOSE GAME TO CHERRYVILLE

In a fast and snappy game lasting only an hour and twenty minutes, Cherryville won the Western Championship and the right to play the Eastern leaders here for the High School Championship of the State, beating East Bend 3 to 2. The two teams were almost evenly matched and the contest seemed slated for a long session until a two bagger by Boggs in the last half of the tenth sent the winning tally across the dish, making the final score with his team on the long end.

The game was well-played all along the route, and was pronounced to be one of the most interesting and sportsmanlike High School games ever staged on the Hill. This makes Cherryville twice the Western Champions, for after winning in the semi-finals last year, they lost the state championship to the Clayton team 1 to 2.

Friday, the victorious moundsman, fanned fifteen, keeping opposing hits sprinkled all along the route. Shore pitched good opposition ball, whiffing eight. Both men were supported well. The playing of short stop Whitman of East Bend was of a high order.

On Saturday at 3:30 Raleigh and Cherryville will play on Emerson Field for the Championship of the State. The game promises to be an interesting one. Friday will probably hurl the pill for the Westerners.

This is the fourth year the High Schools have played here. The Trophy Cup was awarded to Sylvia the first two years, and to Clayton last year.

"Yes, sir," said the stationmaster, "Safety First has spread all over this country. And nobody that comes to Beaver Hill will ever git in no accidents fer want o' warnin' signs about. Jest look at that now."

The stranger gazed appreciatively at the sign nailed on a nearby telegraph-post. Its stern message was:

"It is dangerous to walk or stand on these tracks while a train is passing."

He said we did and we said we didn't, so what do you think?

York Leads Discussion

W. M. York led the Tuesday evening discussion in the reading room of the Y. M. C. A. on the subject, "The University and the War." "Ever since the United States declared war on Germany, he said, "practically every college student in the country has been asking himself the question, 'what is my duty to my country at this critical period?' Many of the students have answered the question by going into the training camps; others for several reasons have been left behind. It is the duty of the latter class of men to stay on the job, to prepare to best serve the country when the call comes. If a man finds it impossible to go to the camps and does not find it absolutely necessary to stay at home, it is his duty to return to college. Military training should be made a part of next year's college course, or at least take the place of athletics. Students should be trained in the art of scientific warfare."

Bob Mosely and Cecil Rymer have been initiated into Tau Kappa Alpha.

Many Old Classes Now Planing for Reunions

nI spite of the rumors that have been floating about the campus as to the improbability of there being any Commencement, the Faculty seems to be preparing for an unusually brilliant commencement, while a number of classes have signified their intention of holding their class reunions at this time. The classes of 1857, 1867, 1887, 1902, 1907, and 1912, have already elected chairmen to arrange for the reunion, while other classes are expected to hold their impromptu reunions at the same time. The class of 1857, sixty years out of college, has appointed as its chairman Colonel R. Bingham, of the Bingham School for Boys, and Major J. W. Graham, of Hillsboro.

The reunion of these old gentlemen at this time is felt to have a peculiar meaning for the college men of today, many of whom are facing the same problems these long graduated alumni faced years ago. Several social events have been planned, and beside the usual Alumni Banquet which will be held as usual, on June 5 the class of 1892 will give a banquet, and the class of 1907 will give a smoker on June 4.

Just what other plans the faculty has in mind have not been as yet divulged.

LOST AND FOUND BUREAU REPORT

The following articles in the Lost and Found Bureau will be returned to the men who turned them in, if they will call for them at the regular hours, 2:15 P. M.

Eagle Fountain Pen to Parks, Waterman Fountain Pen to A. H. Sawyer, Capitol Fountain Pen to F. R. Blaylock, Gold cuff link to W. S. Tatum. There are a number of knives turned in by people who did not leave their names that are yet on hand. If the men who turned them in will call for them, they may get them at the same hour as stated above. On this list there are overcoats and caps that may be returned as the above. Also some cuff links.

The recently found articles are 2 Merchantile fountain pens and one Capitol fountain pen, pair of ladies tanned gloves, two rain coats, one bearing the name of W. F. Allston, Charleston, S. C., a large number of caps and hats, and a great number of books of all kinds.

If these books are not called for by the end of the term, they will be deposited in the Book Exchange next year and sold, the proceeds of which will go to the use of the Y. M. C. A. The hats and caps will be turned over to some Orphanage.

The Irish sergeant had a squad of recruits on the rifle-range.

He tried them on the five-hundred-yard range, but none of them could hit the target. Then he tried them on the three-hundred-yard, the two-hundred-yard, and the one-hundred-yard ranges in turn, but with no better success. When they had all missed on the shortest range he looked around in despair. Then he straightened up.

"Squad, attention!" he commanded. "Fix bayonets! *Charge!*"

In the recent military manoeuvres under the personal direction of Commander-in-Chief Bullitt, the troops under the command of General C. Holding scored two signal successes and came out of two bloody engagements covered with glory and dead leaves. The attacking parties endeavored to capture heights on which the redoubtable general had intrenched himself, and failed in both assaults, their ranks melting away before the terrific fire of the defenders like an ice cream cone in the hands of a hungry sophomore. It is the hope of the military authorities that more men will report for the daily hikes, as next week is the last week of the drill for this year.

English Professors Give Dance for Festival Cast

A dance, featured by high color effects, was given last Saturday night, at the Gimghoul House, from 8:30 till 12 o'clock, in honor of the cast of the Spring pageant. Prominent among those present were Duke Orsino, Viola, and the clown Feste. The color effect was gorgeous. The decorations were of crepe paper of pleasing hues, and blended beautifully with the multifarious costumes that flitted about the hall.

The promoters of the dance were the English Professors who had charge of the pageant. Music was furnished by the famous Chapel Hill negro orchestra.

A farewell dance was given last Monday night, at Doctor Bell's by Professor Henry Johnson who is going to Fort Oglethorpe. There were present 20 couples, consisting mostly of the faculty and their wives. The guest of honor was Miss Alice Rembert, of Spartanburg, S. C., who is a sister of Mrs. Steadman.

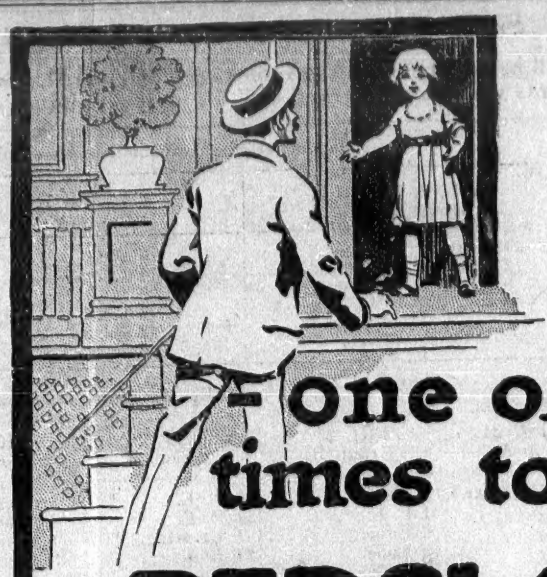
Last election night the leading *bon-vivant* of a certain town proceeded joyously and faithfully to go in for strong drink on a larger scale than was for his own best interests. His travels then took him to the headquarters of the Republican County Committee, where he sat and listened to the election returns. All night long he heard the precinct figures counted off—so many for Hank Hicks and so many for Bill Jones for this or that office.

Then he started homeward, steering his course along a street that was rough, as it seemed to him, like a sea. As one great billow pushed him against the plate-glass front of a restaurant, he glanced in at the signs that gave the prices of various food dishes offered in that caravansary. He read:

"Pork and apple sauce, 25. Ham and eggs, 35."

"Hurrah for ham and eggs!" he shouted, as he continued on his way.

MEN WANTED—some for the army, but all for the country. Army, field or factory are the details—the great call is for MEN.



Whether you go to Fort Oglethorpe or remain in college is a personal matter to be decided by you alone.

It was at the movies. An old couple sat together through a picture that included many views of the Wild West. In one of these a cattle "round-up" appeared, in which the dust rose in clouds from the parched ground.

The old lady began to cough, and finally, when the neighbors began to fidget, her husband nudged her with his elbow:

"Don't cough, Annie; can't you see you're disturbing the other folks?"

His wife looked at him apologetically over her handkerchief, smothering a spasm. "I can't help it, Ephraim. The dust tickles my throat!"

-one of the times to say

PEPSI-Cola

Just when you get home in the evening, after a long, hot, sticky day—and you're tired and thirsty—THAT'S the time to say "PEPSI-Cola" to "friend wife."

That long, thin, tinkly, "ice-bergy" glass just seems to sharpen up appetites for dinner and gee! how it does drive thirsts away!

Just try it—any fountain serves it—and any grocer can leave a case at home.

20 for 10¢

They "Satisfy"—and yet they're mild

There's more to this cigarette than taste. A heap more. 'Most any cigarette can please the taste—somebody's taste.

But this Chesterfield cigarette, in *addition* to pleasing the taste, gives you a *new* kind of enjoyment in cigarette smoking—Chesterfields *let you know you are smoking*—they *"SATISFY"!* And yet, they're *mild!*

It's all due to the *blend*—and the blend can't be copied.

Words can only *tell* you these things—it takes the cigarette itself to *prove* them. You'll be glad you tried Chesterfields. Do it today. *Liggett & Myers Tobacco Co.*

NEED OVER THOUSAND MEN FOR Y. M. C. A. ARMY WORK

THREE MILLION DOLLARS BEING RAISED FOR Y. M. C. A. WORK IN CAMPS

Mobilization for Christian work in the Army camps is the proper word. Those who are acquainted with the history of the Young Men's Christian Association know something of the wonderful work done by this organization in the trenches during the Japanese-Russian War. No factor was more important in Mexican Border work than that of the Young Men's Christian Association. This organization is now doing and has been doing for two years a wonderful piece of work in the prison camps of Europe and also in the mobilization camps. Perhaps the greatest single piece of work it has yet undertaken will be to conduct Christian work among the million men who are to be mustered into service by the United States Army at the present time.

TWELVE HUNDRED MEN NEEDED

Twelve hundred of the choicest and best trained men are now to be called to this work. Two hundred good Army Association buildings will be constructed in the various camps throughout the United States. These buildings will be large wooden structures with auditorium, writing rooms, game rooms, offices, etc. In each building there will be first a General Secretary who has large training and experience. These men will probably be recruited from the men of the largest City, Railroad, and Industrial Associations. Next, there will be in each building a trained Physical Director who will have charge of play, recreation, lectures on First Aid to the Injured, and kindred topics. These men must be men of real experience and preferably men of medical training. Third, there will be a Religious Work Director who will have charge of Bible study classes to be conducted among the soldiers, the daily religious meetings to be held, training and personal evangelism, educational work, etc. Many of these men will be recruited from the college secretaries of the Young Men's Christian Associations, younger alumni who are now in the ministry, and other alumni who were active in Association work during their college careers. In choosing these men, undoubtedly preference will be given to men who have attended one or more Summer Conferences. In addition to the three foregoing men, there will be located in each army building from two to four Assistant Secretaries. Most of these men are to be recruited from recent graduates, graduate students, senior students of marked ability, and others who have been active in Christian work.

It will thus be seen at a glance that two hundred secretaries with large experience will be needed, two hundred physical directors, two hundred religious work directors, and from four to six hundred assistant secretaries.

SUGGESTED METHODS OF SELECTING AND TRAINING THESE MEN

It is expected that the two hundred Religious Work Directors and the six hundred Assistant Secretaries will be chosen and trained in connection with the Summer Conferences to be held at the various places in the United States. In the South, this conference will in all probability be held at Blue Ridge, N. C., the students coming together at the same date as our Student Conference, June 12th. To this Conference we are inviting all men who are qualified to fill any of these places. From those coming, the best qualified group will be chosen for this work. Here and there an outstanding man may be chosen ahead but with the specific understanding that he will go to the Conference. During the Student Conference, we expect that there will be a regular Association course on Army Association Work. In other words, those who take this work must have as rigid training as those in the officers' recruiting corps. The War Council of one hundred men appointed by the International Committee has decided that thirty days is to be the time required for each such worker.

GOVERNMENT RECOGNITION

President Roosevelt has said that the Panama Canal could not have been built had it not been for the Young Men's Christian Association in the Canal Zone. This organization kept the men fit, clean and happy, and without it, officers testify that the project would have failed. Hence the United States Government built the club houses in which the Y. M. C. A. work was done, put the secretaries on the United States pay roll and in every way facilitated the work of the Association.

The War Department and President Wilson have been more than enthusiastic about the work done on the Mexican Border, hence they are giving large opportunities for the work of the Association in the Army Camps to be organized. It cannot now be said with certainty but there is every chance that the Y. M. C. A. Secretaries will all be regularly recognized, thus giving them regular army standing.

A SUPREME CHANCE FOR SERVICE

Perhaps there is no place in the war program where a man with recognized training in service has any larger opportunity than in the secretaryship of the Association. Each man will be in direct relationship to at least one thousand men and if he can help a thousand soldiers to live a more wholesome, normal and manly life, he will have done more than almost any other man to make a real fighting machine. A call to be a Secretary, therefore, is a call to the very highest patriotic service. It is volunteering for a most difficult task and a most needed service.

Already certain colleges in the South have volunteered to pay the salary of a secretary representing their college, either in the person of one of their own secretaries or one of their chosen alumni. Every college in the South should be represented in some fashion. Certainly there is no college that ought not to have one or more of its very strongest students, seniors or alumni, attend this Conference for the sake of entering the secretaryship of the Association provided they prove to have sufficient qualifications. Already the Committee of one hundred is raising $3,000,000 to defray the expenses of this work the first year.

TRAINED LEADERSHIP NEEDED

Not only is there a great need for trained men to be secretaries but there is more urgent need today for trained leadership among college men than ever before. If a man is to return to college he must take up the burden of the Association laid down by the older students who have gone to the Army Camps. If he is to be in the ranks of the Army, all the training possible will be needed to help him do his share in stemming the tide of temptation that will face every soldier in camp. This ought, therefore, to be the greatest year for training that the colleges have ever had and let no one think that we should have a smaller Student Conference. We should have from one to two hundred more men at the Student Conference than ever before.

This war is a war for moral principles and it can not be waged except by men of moral character. If ever men needed to make real sacrifices for getting ready to do battle now is the time. It should not be said to our shame that this war for moral principles has undercut our preparation for moral living.

Just Gossip

No, I think inconsistency is the most curious trait in the world. Editorializing the deuce. I can prove it. Of course this line has to get by the Desk Editor, who hasn't much of a sense of humor, and so I may never be justified in the public mind. The Editor may think I am moralizing and so I may lose my job. But Columbus took a chance, so here I go.

Let us consider this matter of inconsistency for a moment, and after a period of careful reflection we may find ourselves back where we started, which is the purpose of reflection anyway. Therefore, one might say that one can't go very far afield when reflecting, but one won't—not here.

Oh, yes, we started out to prove something. One man gets up in Literary Society and with impassioned oratory pours forth his soul in a hair-raising Phillipic against the chap who cornered the toothpick crop in Idaho, and deplores the high cost of flour with every deploring muscle he has—and then the next day at Swain, he lays a comrade low and cold by hitting him at close range with a biscuit.

Another gentleman who carefully transfers the dust from a church pew to his coat every Sunday, and who is avowedly against draw-poker as a means of spiritual refreshment, matches his neighbor out of his specimen of pie. A scout chips in to purchase bathing fountains for the birds, and soon after is observed removing one of the dwellings of the feathered animals, eggs and all, in a praiseworthy effort to decrease the winged population of this immediate vicinity and so prevent the pools from being worn out by overuse.

One young man who fiercely attacked the motives of his fellow students in staying away from the drill ground, was noticed to be very much absorbed in contemplating the top of a tree while Parker was trying to blow his teeth through the bugle behind the Med. Building. Verily, del Sarto, old socks, it is a strange world. And so it goes. I could name many other instances of this wonderful phenomenon, as the instructor in physics says after he has finished balling up your experiment for you, but I won't here, for several reasons: I hear a rooster crowing, this column is about full, and the Assignment Editor didn't say how much to write. Words, words, words, as Hamlet so feelingly put it.

"Hello, Mike!" greeted the vaudeville actor.

"'Lo, Jack! How are you and Pete?"

"Pete's in the hospital," gloomily responded Jack.

"So? What's the matter?"

"You know Pete's act—swallowing three billiard-balls while balancing the cue on his eyebrow?"

"Yeah."

"And you remember he had threads tied to the balls, so he could pull them up as soon as he went off?"

"Yeah."

"Well, he got rattled the other night and leggo the threads."

"Dorkins is a wonder."

"Yes, he's a far-sighted chap. What has he done now?"

"He's gone and patented a carbureter that will burn air and has it all ready in case the supply of gasoline should give out."

WHEN writing a formal social letter you give most careful consideration to your choice of worde. Sometimes you consult a dictionary. The quality of EATON'S HIGHLAND LINEN will enhance the dignity of your message and reveal your sense of fitness of things no less than the well phrased letter reveals your sense of value of words. Yet it is so moderate in price, it can be used for all social correspondence purposes.

We specialize in writing papers of all kinds, from tablets and typewriter papers to the best in box and pound paper.

FOISTER'S

C. S. PENDERGRAFT

Pioneer "Pendy" with his Cadillac,
Will carry you there and bring you back;
And when it's food or fruit you need,
He's got all the stuff for a high-class feed.
His prices are reasonable, his politeness rare.
When you want "Pendy," "Pendy's" there.
